

PROCEEDINGS OF SPIE

Quantum Technologies 2020

Eleni Diamanti
Sara Ducci
Nicolas Treps
Shannon Whitlock
Editors

6–10 April 2020
Online Only, France

Sponsored by
SPIE

Cosponsored by
City of Strasbourg (France)
Eurometropole (France)
CNRS (France)
Région Grand Est (France)
iCube (France)
Université de Strasbourg (France)

Cooperating Organisations
Photonics 21 (Germany)
EOS—European Optical Society (Germany)
Photonics Public Private Partnership (Belgium)
Photonics France (France)

Volume 11347

Proceedings of SPIE 0277-786X, V. 11347

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Quantum Technologies 2020*, edited by Eleni Diamanti, Sara Ducci, Nicolas Treps, Shannon Whitlock, Proceedings of SPIE Vol. 11347 (SPIE, Bellingham, WA, 2020) Seven-digit Article CID Number.

Paper Numbering: Proceedings of SPIE follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v	Authors
vii	Conference Committee

QUANTUM SENSING, IMAGING, AND METROLOGY I

11347 0I	Quantum illumination with simple detection [11347-18]
11347 0J	Sensing electromagnetic fields with the AC-Stark effect in two-photon spectroscopy of cold trapped HD+ [11347-19]

NEW DEVICES FOR QUANTUM TECHNOLOGIES

11347 13	Signal-to-noise ratio in correlation plenoptic imaging [11347-41]
11347 14	GaN laser diodes for quantum sensors and optical atomic clocks [11347-42]

POSTER SESSION

11347 17	Shot noise-based quantum random number generator [11347-44]
11347 19	FPGA based time-to-digital converters [11347-47]
