2019 International Conference on Sensing, Diagnostics, Prognostics, and Control (SDPC) **SDPC 2019**

Table of Contents

Message from the General Chairs	xxx
Organizing Committee	xxxi
Reviewers	xxxiv
Sponsors	xxxviii

2019 International Conference on Sensing, Diagnostics, Prognostics, and Control

Harmonics Suppression using Dominant Harmonic Injection Based Control Technique	1
<i>Tamer H. Abdelhamid (Alexandria University), Abdelaziz A. Abdelaziz (Alexandria University), and Nabil H. Abbasy (Alexandria University)</i>	
Boundary Kinematic Parameter Adjustment for Corner Smoothing Algorithm with Uninterrupted Acceleration	N/A
<i>Weixin Wang (Tsinghua University), Kai Zhou (Tsinghua University), Chuxiong Hu (Tsinghua University), and Suqin He (Tsinghua University)</i>	
Lamb Wave-Based Monitoring of Fatigue Crack Propagation using Principal Component Regression	12
<i>Xiaopeng Liu (Beihang University), Weifang Zhang (Beihang University), Xiangyu Wang (Beihang University), Wei Dai (Beihang University), and Guicui Fu (Beihang University)</i>	
Safety Boundary Extraction Using FCM and Prediction Using ELM for Aero-Engine Performance Parameters...	18
<i>Yingshun Li (Dalian University of Technology), Danyang Li (Dalian University of Technology), Ximing Sun (Dalian University of Technology), and Xiaojian Yi (Beijing Institute of Technology)</i>	
Clustering Methods for Identification of Attacks in IoT Based Traffic Signal System	24
<i>Yunpeng Zhang (University of Houston), Chethana Dukkupati (University of Houston), and Liang-Chieh Cheng (University of Houston)</i>	
Effect of Seawater Flow Velocity on Erosion-Corrosion Behavior of B10 Cu-Ni Alloy	N/A
<i>Tingzhu Jin (Beihang University), Weifang Zhang (Beihang University), Ning Li (Beihang University), Jinghua Yao (Luoyang Ship Material Research Institute Xiamen, China), Mumeng Wei (Luoyang Ship Material Research Institute Xiamen, China), and Bojun Yang (Luoyang Ship Material Research Institute Xiamen, China)</i>	

Vibration Feature Extraction via Graph-Modeled SVD for Running Stability Assessment of Industrial Machine	35
<i>Xin Wen (Shandong University Jinan, China), Guoliang Lu (Shandong University Jinan, China), and Peng Yan (Shandong University Jinan, China)</i>	
Fault Prediction Algorithm for Fire Control System Based on Improved Support Vector Machine	40
<i>Yingshun Li (Beijing Institute of Petrochemical Technology), Wei Jia (Beijing University of Chemical Technology), and Xiaojian Yi (Beijing Institute of Technology Department of Overall Technology China; North Vehicle Research Institute Academy of Mathematics and Systems Science Chinese Academy of Sciences)</i>	
Multiple Sparse Representation via Generalized Minimax-Concave Penalty for Gearbox Compound Fault Diagnosis	46
<i>Ning Li (Soochow University), Weiguo Huang (Soochow University), Xingxing Jiang (Soochow University), Juanjuan Shi (Soochow University), and Zhongkui Zhu (Soochow University)</i>	
An Instantaneous Frequency Optimization Strategy for Bearing Fault Diagnosis Under Varying Speed Conditions	51
<i>Wenjun Guo (Soochow University), Xingxing Jiang (Soochow University), Juanjuan Shi (Soochow University), Jun Wang (Soochow University), Changqing Shen (Soochow University), Weiguo Huang (Soochow University), and Zhongkui Zhu (Soochow University)</i>	
Case Study of Aeroengine Parameter Prediction Based on MIV and ELM	56
<i>Yingshun Li (Dalian University of Technology), Fuyang Wang (Dalian University of Technology), Ximing Sun (Dalian University of Technology), and Xiaojian Yi (Beijing Institute of Technology, & Department of Overall Technology China; North Vehicle Research Institute & Academy of Mathematics and Systems Science, Chinese Academy of Sciences)</i>	
A Structural Optimization Design for New Aircraft Instrument Support	62
<i>Wei Dong (Beijing Institute of Long March Space Vehicle), Kehao Xin (Beijing Institute of Long March Space Vehicle), Lei Li (Beijing Institute of Long March Space Vehicle), and Dezheng Yin (Beijing Institute of Long March Space Vehicle)</i>	
State Evaluation of Sighting System Based on Improved Local Density Clustering Algorithm	N/A
<i>Zhao Yao (Dalian University of Technology, NCO Institute of Armored Force), Yanchao Yang (Guangxi University of Science and Technology), Yingshun Li (Dalian University of Technology), and Xiaojian Yi (Beijing Institute of Technology, & Department of Overall Technology; North Vehicle Research Institute & Academy of Mathematics and Systems Science, Chinese Academy of Sciences)</i>	
Vibration Control of Unsymmetrical Rotating Machinery with an Active Tilting Pad Journal Bearing	N/A
<i>Xiaochun Gong (Beijing Institute of Structure and Environment Engineering) and Yuling Qin (Beijing Institute of Space Long March Vehicle)</i>	
Remaining Useful Life Prediction Based on Deep Residual Attention Network	79
<i>Biao Wang (Xi'an Jiaotong University), Tianyu Han (Xi'an Jiaotong University), Yaguo Lei (Xi'an Jiaotong University), and Naipeng Li (Xi'an Jiaotong University)</i>	

An In-Class Practice and Oral-Presentation as an Innovative Approach for Teaching Hydraulic Component Reliability Theory and Fault Diagnosis	85
<i>Xinbo Qian (Wuhan University of Science and Technology)</i>	
A Novel Method for Induction Motor Fault Identification Based on MSST and LightGBM	90
<i>Lujie Zhao (Shanghai Jiao Tong University), Yixiang Huang (Shanghai Jiao Tong University), Dengyu Xiao (Shanghai Jiao Tong University), Yanming Li (Shanghai Jiao Tong University), and Chengliang Liu (Shanghai Jiao Tong University)</i>	
Analysis of Influencing Factors of Equipment Cost Based on Entropy Weight Method and Improved Grey Relational Model	97
<i>Changcong Zhang (Air Force Early Warning Academy Wuhan, China), Qinghua Liu (Air Force Early Warning Academy Wuhan, China), Qiqing Fang (Air Force Early Warning Academy Wuhan, China), Yang Jiang (Air Force Early Warning Academy Wuhan, China), Liang Xia (Air Force Early Warning Academy Wuhan, China), and Jianzhu Guo (Yunxiao Meteorological Bureau Zhangzhou, China)</i>	
Research on Influence of Propeller Slipstream Based on Momentum Theory	N/A
<i>Jingzhuo Wang (School of Aeronautics Northwestern Polytechnical University Xi'an, China), Peng Liao (School of Aeronautics Northwestern Polytechnical University Xi'an, China), Dashun Qin (School of Aeronautics Northwestern Polytechnical University Xi'an, China), Qing Guo (School of Aeronautics Northwestern Polytechnical University Xi'an, China), Weimin Cui (School of Aeronautics Northwestern Polytechnical University Xi'an, China), and Fangyi Wan (School of Aeronautics Northwestern Polytechnical University Xi'an, China)</i>	
Structural Safety Analysis of Phased Array Radar Based on PFMEA	N/A
<i>Liang Xia (Air Force Early Warning Wuhan, China), Jiangping Yang (Air Force Early Warning Wuhan, China), Jiantao Xiang (Air Force Early Warning Wuhan, China), Bing Hu (Air Force Early Warning Wuhan, China), Changcong Zhang (Air Force Early Warning Wuhan, China), and Anan Wang (Air Force Early Warning Wuhan, China)</i>	
An Applied Research on Big Data Analysis and Mining Technology in Education	116
<i>Yanjie Wang (Beijing Institute of Technology), Chengpo Mu (Beijing Institute of Technology), Xuejian Li (Beijing Institute of Technology), and Yu Yang (Beijing Institute of Technology)</i>	
Application of Fault Propagation Model in Electric Vehicle Equipped with Surface-Mounted Permanent Magnet Synchronous Machine for Fault Detection and Diagnosis	N/A
<i>Jie Hu (School of Wuhan University of Technology Hubei Key Laboratory of Advanced Technology for Automotive Components), Tengfei Huang (School of Wuhan University of Technology Hubei Key Laboratory of Advanced Technology for Automotive Components), Jiyu Zhang (General Motors Warren Technical Center of Global Research and Development), and Chuanju Zhou (School of Wuhan University of Technology Hubei Key Laboratory of Advanced Technology for Automotive Components)</i>	

Determination of Easy Parking Points of Train Driving Interval Based on UAS and BP Neural Network Linear Grey System	129
<i>Jun Shen (Southwest Jiaotong University Chengdu, China), Hongyu Zhou (Southwest Jiaotong University Chengdu, China), Jiahui Feng (Southwest Jiaotong University Chengdu, China), Yang Chai (Southwest Jiaotong University Chengdu, China), and Qingyuan Wang (Southwest Jiaotong University Chengdu, China)</i>	
Measurement Error Compensation Method for Parameters of Rear Torsion Beam With PSO-BP	134
<i>Kangkang Zhang (North University of China) and Bo Liu (North University of China)</i>	
Cycle Life Prediction of Lithium ion Battery Based on DE-BP Neural Network	137
<i>Zhao Yao (Dalian University of Technology & NCO Institute of Armored Force), Shun Lu (Guangxi University of Science and Technology), Yingshun Li (Dalian University of Technology), and Xiaojian Yi (Beijing Institute of Technology & Department of Overall Technology; North Vehicle Research Institute & Academy of Mathematics and Systems Science, Chinese Academy of Sciences)</i>	
State Assessment Method of Fire Control System Based on Fusion of Grey Relational and D-S Evidence Theory	142
<i>Yingshun Li (Dalian University of Technology), Min Zheng (Shenyang University of Technology), Weiyan Tong (Shenyang University of Technology), and Xiaojian Yi (Beijing Institute of Technology, & Department of Overall Technology; North Vehicle Research Institute & Academy of Mathematics and Systems Science, Chinese Academy of Sciences)</i>	
A Physical Performance Degradation-Based Approach for Optimizing Dynamic Maintenance Strategy of Power Equipment	148
<i>Zhi Gao (Digital Research And Design Platform Xi'an XD Electric Research Institute Co., Ltd. Xi'an, China), Zongmin Jiang (School of Computer Science, Northwestern Polytechnical University Xi'an XD Switchgear Electric Co., Ltd. Xi'an, China), and Honghong Lv (Xi'an XD Switchgear Electric Co., Ltd. Xi'an, China)</i>	
Research on Fault Diagnosis of Neural Network Based on Bee Colony Algorithm Optimization in Gun Control System	153
<i>Yingshun Li (Dalian University of Technology), Yongjian Liu (Shenyang University of Technology), and Xiaojian Yi (Beijing Institute of Technology, & Department of Overall Technology; North Vehicle Research Institute & Academy of Mathematics and Systems Science, Chinese Academy of Sciences)</i>	
Bayes-OS-ELM: An Novel Ensemble Method For Classification Application	160
<i>Qingyu Zhu (China Aero-polytechnology Establishment Beijing, PR China), Rui Bai (Northwestern Polytechnical University, Xi'an, PR China), Mengting Li (Northwestern Polytechnical University, Xi'an, PR China), Shaowei Chen (Northwestern Polytechnical University, Xi'an, PR China), and Pengfei Wen (Northwestern Polytechnical University, Xi'an, PR China)</i>	

Condition Evaluation Method of Wind Turbine Based on Real-Time Reliability	167
<i>Chengbing He (North China Electric Power University), Li Ma (North China Electric Power University), Runze Wang (North China Electric Power University), Xiaobo Li (Inner Mongolia Electric Power Science & Research Institute), Xiaofeng Jiao (Inner Mongolia Electric Power Science & Research Institute), and Lei Song (Technology and Engineering Center for Space Utilization line, Chinese Academy of Sciences)</i>	
Research on Fault Diagnosis Method Based on FMEA/FTA and Bayesian Network	173
<i>Chengbing He (North China Electric Power University), Runze Wang (North China Electric Power University), Li Ma (North China Electric Power University), Xiaobo Li (Inner Mongolia Electric Power Science & Research Institute), Xiaofeng Jiao (Inner Mongolia Electric Power Science & Research Institute), and Lei Song (Technology and Engineering Center for Space Utilization line, Chinese Academy of Sciences)</i>	
Fault Diagnosis Method for Fire Control System Based on Empirical Wavelet Transform and Relevance Vector Machine	178
<i>Yingshun Li (Beijing Institute of Petrochemical Technology), Runhao Li (Beijing Institute of Petrochemical Technology), and Xiaojian Yi (Beijing Institute of Technology Department of Overall Technology; North Vehicle Research Institute Academy of Mathematics and Systems Science, Chinese Academy of Sciences)</i>	
Bearing Health Indicator Construction Scheme Based on a Hybrid Deep Learning Structure Methods	183
<i>Gang Zhang (College of Weaponry Engineering Naval University of Engineering Wuhan, China), Fuqing Tian (College of Weaponry Engineering Naval University of Engineering Wuhan, China), and Weige Liang (College of Weaponry Engineering Naval University of Engineering Wuhan, China)</i>	
Regression Model for Civil Aero-Engine Gas Path Parameter Deviations Based on Res-BP Neural Network	188
<i>Xingjie Zhou (Harbin Institute of Technology at Weihai), Xuyun Fu (Harbin Institute of Technology at Weihai), Minghang Zhao (Harbin Institute of Technology at Weihai), and Shisheng Zhong (Harbin Institute of Technology at Weihai)</i>	
Prediction Method of Dedicated Power Supply for Tank Commander Panoramic Based on Grey Markov Model Optimized by PSO	197
<i>Yingshun Li (Dalian University of Technology), Yu Xiao (Guangxi University of Science and Technology), and Xiaojian Yi (Beijing Institute of Technology, & Department of Overall Technology; North Vehicle Research Institute & Academy of Mathematics and Systems Science, Chinese Academy of Sciences)</i>	
Multi-failure Mode Assembly Electronic Product Accelerated Test Method	204
<i>Chunlei Bai (China Aero-Poly-technology Establishment Beijing, China), Xianglei Kong (China Aero-Poly-technology Establishment Beijing, China), Yuexuan Ma (China Aero-Poly-technology Establishment Beijing, China), and Chao Peng (China Aero-Poly-technology Establishment Beijing, China)</i>	

A LSTM Neural Network Approach using Vibration Signals for Classifying Faults in a Gearbox	208
<i>Ruben Medina (Universidad de Los Andes, Mérida, Venezuela), Jean-Carlo Macancela (Universidad Politécnica Salesiana, Cuenca, Ecuador), Pablo Lucero (Universidad Politécnica Salesiana, Cuenca, Ecuador), Diego Cabrera (Universidad Politécnica Salesiana, Cuenca, Ecuador), Chuan Li (Chongqing Technology and Business University), Mariela Cerrada (Universidad Politécnica Salesiana Cuenca, Ecuador), René-Vinicio Sánchez (Universidad Politécnica Salesiana, Cuenca, Ecuador), and Rafael E. Vásquez (Universidad Pontificia Bolivariana, Medellín, Colombia)</i>	
Research on Prognostics and Health Management of Tank Gun Control System	215
<i>Xuetao Wang (Information & Control Technology Department China; North Vehicle Research Institute Beijing), Jing Xu (Information & Control Technology Department China; North Vehicle Research Institute Beijing), Yang Lei (Information & Control Technology Department China; North Vehicle Research Institute Beijing), and Lina Yang (Information & Control Technology Department China; North Vehicle Research Institute Beijing)</i>	
Automatic Color Recognition Technology of UAV Based on Machine Vision	220
<i>Guanghui Liu (Northwestern Polytechnical University Xi'an, China), Chunlin Zhang (Northwestern Polytechnical University Xi'an, China), Qing Guo (Northwestern Polytechnical University Xi'an, China), and Fangyi Wan (Northwestern Polytechnical University Xi'an, China)</i>	
Research on Aerial Image Stitching Technology	226
<i>Ruirui Ma (Northwestern Polytechnical University Xi'an, China), Chunlin Zhang (Northwestern Polytechnical University Xi'an, China), Qing Guo (Northwestern Polytechnical University Xi'an, China), and Fangyi Wan (Northwestern Polytechnical University Xi'an, China)</i>	
Development of a Microfluidic Device for IL-8 Detection in Saliva	N/A
<i>Simão Santos (Chongqing Technology and Business University; University of SouthEastern Norway), Tao Dong (University of SouthEastern Norway), Francesca de Meis (Politecnico di Torino; University of SouthEastern Norway), and Zhaochu Yang (Chongqing Technology and Business University)</i>	
Estimation of Spectrum Envelope for Gear Motor Monitoring Using A Laser Doppler Velocimeter	239
<i>Kesaaki Minemura (Sumitomo Heavy Industries Kanagawa, Japan), Toshiya Nagumo (Sumitomo Heavy Industries Kanagawa, Japan), and Tomoyuki Akashi (Sumitomo Heavy Industries Kanagawa, Japan)</i>	
Adaptive Compressive Sensing Method Based on Optimal Classification for Bearing Vibration Signals in Axial Piston Pump	244
<i>Chaoang Xiao (Wenzhou University) and Hesheng Tang (Wenzhou University)</i>	
Real-Time Vehicle Tracking using Convolutional Neural Networks in Aerial Video	251
<i>Yu Yang (Beijing Institute of Technology), Chengpo Mu (Beijing Institute of Technology), Ruixin Yang (Beijing Institute of Technology), and Yanjie Wang (Beijing Institute of Technology)</i>	

A Complex Multi-level System Reliability Distribution Estimation Method Based on Bayesian Melding Method	256
<i>Yingchun Xu (National University of Defense Technology Changsha), Wen Yao (National Innovation Institute of Defense Technology, Chinese Academy of Military Science), Xiaohu Zheng (National University of Defense Technology Changsha), and Xiaoqian Chen (National Innovation Institute of Defense Technology, Chinese Academy of Military Science)</i>	
A Joint Model of Virtual and Actual Maintenance Time with Covariates	262
<i>Xiaoyue Xie (University of Chinese Academy of Sciences), Jian Shi (University of Chinese Academy of Sciences), Xiaojian Yi (Department of Overall Technology, China; North Vehicle Research Institute Academy of Mathematics and Systems Science, Chinese Academy of Sciences), and Shulin Liu (Department of Overall Technology; North Vehicle Research Institute Beijing)</i>	
Nonparametric Statistical Anomaly Detection Approach for ATMS DDoS Attack	268
<i>Yunpeng Zhang (University of Houston Houston), Anish Patel (University of Houston), Liang-Chieh Cheng (University of Houston), and Jiming Peng (University of Houston)</i>	
Study on Cold Plate of High Power Electric Drive Controller	273
<i>Yang Liu (North China Vehicle Research Institute Beijing), Jiahui Zhang (North China Vehicle Research Institute Beijing), Jiangquan Liu (North China Vehicle Research Institute Beijing), Yuanfu Cao (North China Vehicle Research Institute Beijing), Chunwei Zhao (North China Vehicle Research Institute Beijing), Jun Shi (North China Vehicle Research Institute Beijing), and Li Zhou (North China Vehicle Research Institute Beijing)</i>	
A Lebesgue-Time-Space-Model and Particle Filter Based Diagnosis and Prognosis Method	278
<i>Dongzhen Lyu (Huazhong University of Science and Technology Wuhan), Guangxing Niu (University of South Carolina), Di Hu (Huazhong University of Science and Technology Wuhan), Gang Chen (Huazhong University of Science and Technology), Tao Yang (Huazhong University of Science and Technology), and Bin Zhang (University of South Carolina)</i>	
Wireless Sensor Networks for Image Recognition	284
<i>Liqun Hou (North China Electric Power University) and Yan Yang (North China Electric Power University)</i>	
PHM-Based Dynamic Reconfiguration Technology for DIMA	290
<i>Deqi Kong (Aeronautical Computing Technique Research Institute Seventh Department Xi'an, China), Qi Mi (Northwestern Polytechnical University Xi'an), Yangming Guo (Northwestern Polytechnical University Xi'an), and Shuang Zhang (Aeronautical Computing Technique Research Institute Seventh Department Xi'an, China)</i>	
Valve Fault Diagnosis of Internal Combustion Engine Based on an Improved Stacked Autoencoder	295
<i>Kun Chen (Beijing University of Chemical Technology), Zhiwei Mao (Beijing University of Chemical Technology), Haipeng Zhao (Beijing University of Chemical Technology), and Jinjie Zhang (Beijing University of Chemical Technology)</i>	

Reliability Analysis Based on Dependent Competing Risk Model of Imperfect Shock Model Considering Changing Threshold and Degradation Process	301
<i>Yiwen Liu (China Aero-Polytechnology Establishment Beijing) and Chunlei Bai (China Aero-Polytechnology Establishment Beijing)</i>	
Fault Diagnosis of Rolling Bearing with Small Samples Based on Wavelet Packet Theory and Random Forest	305
<i>Hongmei Yan (Beijing Institute of Technology), Huina Mu (Beijing Institute of Technology), Xiaojian Yi (Beijing Institute of Technology China; North Vehicle Research Institute, China North Institute Group), Yuanyuan Yang (Beijing Institute of Technology), and Guangliang Chen (Beijing Institute of Technology)</i>	
Step-by-Step Fault Diagnosis of Rolling Bearings Based on EMD and Random Forest	311
<i>Hongmei Yan (Beijing Institute of Technology), Huina Mu (Beijing Institute of Technology), Xiaojian Yi (Beijing Institute of Technology; North Vehicle Research Institute, China North Institute Group), Yuanyuan Yang (Beijing Institute of Technology), and Guangliang Chen (Beijing Institute of Technology)</i>	
Research on Load Simulator Control Methods for Aircraft Actuation System	318
<i>Yong Zhou (Northwestern Polytechnical University Xi'an), Yubo Zhang (Northwestern Polytechnical University Xi'an), and Jiakuan Gao (Northwestern Polytechnical University Xi'an)</i>	
The Research of New Black Box Control Method Based on Conjugate Gradient Algorithm	323
<i>Weiwei Ma (Northwestern Polytechnical University Xi'an), Yong Zhou (Northwestern Polytechnical University Xi'an), and Jiakuan Gao (Northwestern Polytechnical University Xi'an)</i>	
An Optimization Study of Self-Adaptive Target Parameter Scan Technology for Terminal-Sensitive Submunition	330
<i>Zhilong Peng (NUC North University of China Taiyuan), Wenxia Gao (NUC North University of China Taiyuan), Yong Li (NUC North University of China Taiyuan), Mingjun Ding (Huaihai Industry Group Co., Ltd Changzhi, China), Weizhao Chao (Harbin Jiancheng Group Co., Ltd Harbin, China), Xiaolin Hu (Huaihai Industry Group Co., Ltd Changzhi, China), and Hua Guo (Huaihai Industry Group Co., Ltd Changzhi, China)</i>	
Optimization and Simulation of MEMS Safety and Arming Device for the Fuze	335
<i>Qichen Han (NUC North University of China Taiyuan), Xiaojun Wu (NUC North University of China Taiyuan), Jinwei Yang (Huaihai Industry Group Co., Ltd Changzhi, China), Xiaojin Chen (Air Force Representative Office in Shanxi Taiyuan, China), Junhu Zhang (Huaihai Industry Group Co., Ltd Changzhi, China), Weizhao Chao (Harbin Jiancheng Group Co., Ltd Harbin, China), and Hua Guo (Huaihai Industry Group Co., Ltd Changzhi, China)</i>	
Reliability Improvement Design for the Unscrewing Mechanism of Terminal-Sensitive Submunition	N/A
<i>Qichen Han (NUC North University of China Taiyuan), Heming Zhao (NUC North University of China Taiyuan), Xiaojin Chen (Air Force Representative Office in Shanxi Taiyuan, China), Mingjun Ding (Huaihai Industry Group Co., Ltd Changzhi, China), Hua Guo (Huaihai Industry Group Co., Ltd Changzhi, China), Hongyu Fu (Harbin Jiancheng Group Co., Ltd Harbin, China), and Junhu Zhang (Huaihai Industry Group Co., Ltd Harbin, China)</i>	

Falling Speed Optimization Design of Bomb-Parachute System at the Height-Measuring Stage of Terminal-Sensitive Submunition	N/A
<i>Zhijun Wang (NUC North University of China Taiyuan), Qichen Han (NUC North University of China Taiyuan), Mingjun Ding (Huaihai Industry Group Co., Ltd Changzhi, China), Tianjian Zhang (Huaihai Industry Group Co., Ltd Changzhi, China), Weizhao Chao (Harbin Jiancheng Group Co., Ltd. Harbin, China), Xiaojin Chen (Air Force Representative Office in Shanxi Taiyuan, China), and Junhu Zhang (Huaihai Industry Group Co., Ltd Changzhi, China)</i>	
An Ensemble of Filters and Classifiers for Fault Diagnosis	348
<i>Zhiqiang Zhang (Xi'an Jiaotong University) and Qingyu Yang (Xi'an Jiaotong University)</i>	
An Intelligent Fault Diagnosis Method for a Diesel Engine Valve Based on Improved Wavelet Packet-Mel Frequency and Convolutional Neural Network	354
<i>Haipeng Zhao (Beijing University of Chemical Technology), Zhiwei Mao (Beijing University of Chemical Technology), Kun Chen (Beijing University of Chemical Technology), and Zhinong Jiang (Beijing University of Chemical Technology)</i>	
Design of Inverter Used in Adjustable Speed Diesel Generating Set	360
<i>Yong Zhou (Northwestern Polytechnical University Xi'an), Hao Wu (Northwestern Polytechnical University Xi'an), and Jiakuan Gao (Northwestern Polytechnical University Xi'an)</i>	
Simulation and Implementation of Servo Control System for Electro-Hydraulic Hybrid Injection Molding Machine	366
<i>Yong Zhou (Northwestern Polytechnical University Xi'an), Tianhao Yang (Northwestern Polytechnical University Xi'an), and Hao Wu (Northwestern Polytechnical University Xi'an)</i>	
Fault Assessment Method of Artillery Automatic Loading System Based on Dynamic Deterioration Degree	N/A
<i>Yingshun Li (Dalian University of Technology), Qiongqiong Wu (Guangxi University of Science and Technology), and Xiaojian Yi (Beijing Institute of Technology, & Department of Overall Technology; North Vehicle Research Institute & Academy of Mathematics and Systems Science, Chinese Academy of Sciences)</i>	
Research on Fault Diagnosis Method of Aircraft Secondary Distribution System Based on RBF Neural Network	377
<i>Yetong Qian (Nanjing University of Aeronautics and Astronautics), Li Wang (Nanjing University of Aeronautics and Astronautics), and Qingwen Chen (Nanjing University of Aeronautics and Astronautics)</i>	
Fault Fault Diagnosis Method Based on State Evaluation Fire Control System	N/A
<i>Yingshun Li (Beijing Institute of Petrochemical Technology), Hongli Zheng (Beijing Institute of Petrochemical Technology), and Xiaojian Yi (Beijing Institute of Technology Department of Overall Technology; North Vehicle Research Institute Academy of Mathematics and Systems Science Chinese Academy of Sciences)</i>	
Evaluation Method for Circuit Reliability Design of Board-Level Electronic Products	389
<i>Chaoyi Zhang (China Aero-Polytechnology Establishment Beijing), Fengming Lu (China Aero-Polytechnology Establishment Beijing), and Wenzheng Xu (China Aero-Polytechnology Establishment Beijing)</i>	

Study on the Diagnosis Method of Aero-Engine Health Status Based on Stacking Ensemble Learning	394
<i>Chenhui Ren (Beijing Institute of Technology), Huajin Lei (Hangyu Life-Saving Equipment Lim. Corp Xiangyang Hubei, China), Haiping Dong (Beijing Institute of Technology), Xue Dong (Beijing Institute of Technology), and Yuxi Tao (Beijing Institute of Technology)</i>	
Application of GO Method in Reliability Analysis of Aero-Engine	401
<i>Yuxi Tao (Beijing Institute of Technology), Haiping Dong (Beijing Institute of Technology), Xiaojian Yi (Department of Overall Technology China; North Vehicle Research Institute School of Mechatronical Engineering Beijing Institute of Technology), and Chenhui Ren (Beijing Institute of Technology)</i>	
Multi-step Vibration Trend Prediction Model Based on Multi-objective Optimization for Hydropower Generator Unit	407
<i>Yahui Shan (Huazhong University of Science and Technology Wuhan), Jianzhong Zhou (Huazhong University of Science and Technology Wuhan), Yanhe Xu (Huazhong University of Science and Technology Wuhan), and Jie Liu (Huazhong University of Science and Technology Wuhan)</i>	
A Fault Diagnosis Approach for Rolling Bearing Based on Fourier Transform Multi-filter Decomposition and Symbolic Dynamic Entropy	412
<i>Hao Pan (Huazhong University of Science and Technology Wuhan), Li Kong (Huazhong University of Science and Technology Wuhan), Kaibo Zhou (Huazhong University of Science and Technology Wuhan), Jie Liu (Huazhong University of Science and Technology Wuhan), Xiaoran Chen (Huazhong University of Science and Technology Wuhan), and Yanhe Xu (Huazhong University of Science and Technology Wuhan)</i>	
A Real-Time Low Illumination Enhancement Embedded System Using Model-Based Method	417
<i>Xuebing Ren (Department of Information and Control Technology China; North Vehicle Research Institute Beijing), Hong Du (Department of Information and Control Technology China; North Vehicle Research Institute Beijing), Xiaozheng Zhang (Department of Information and Control Technology China; North Vehicle Research Institute Beijing), and Xiaoyu Chen (Department of Information and Control Technology China; North Vehicle Research Institute Beijing)</i>	
Research on Image Fusion Algorithm for Video Optimization	422
<i>Xueyun Zhao (North China Electric Power University Beijing), Guangjie Li (North China Electric Power University Beijing), and Xinli Li (North China Electric Power University Beijing)</i>	
Reliability Optimization Allocation Method Based on Improved Dynamic Particle Swarm Optimization	429
<i>Qihai Liang (Shanghai Marine Electronic Equipment Research Institute), Zhe Wang (Research Institute, Inner Mongolia First Machinery Group Co., Ltd. Beijing), Jinzhu Qu (Shanghai Marine Electronic Equipment Research Institute), and Xiaojian Yi (Beijing Institute of Technology)</i>	
Reliability Analysis of Hydraulic Transmission Oil Supply System Considering Common Cause Failure and Maintenance Correlation with Success Oriented	435
<i>Xinlei Wang (Beijing Institute of Technology, China North Industries Corp Beijing), Hongwei Zhang (Research Institute, Inner Mongolia First Machinery Group Co., Ltd. Baotou, China), Zhe Wang (Research Institute, Inner Mongolia First Machinery Group Co., Ltd. Baotou, China), and Xiaojian Yi (Beijing Institute of Technology)</i>	

Informative Sensor Selection and Health Indicator Construction for Aircraft Engines Prognosis	442
<i>Bin Zhang (Chongqing University of Posts and Telecommunications), Kai Zheng (Chongqing University of Posts and Telecommunications), Jiufei Luo (Chongqing University of Posts and Telecommunications), and Yi Zhang (Chongqing University of Posts and Telecommunications)</i>	
Displacement Measurement Based on Computer Vision	448
<i>Ze Sheng (Glasgow College University of Electronic Science and Technology of China Chengdu), Yiwei Li (Glasgow College University of Electronic Science and Technology of China Chengdu), Zongkang Li (Glasgow College University of Electronic Science and Technology of China Chengdu), and Zhiliang Liu (University of Electronic Science and Technology of China Chengdu)</i>	
Study on the Scheme of Accelerated Degradation Test for Low-Shock Separation Device	N/A
<i>Xue Dong (Beijing Institute of Technology), Haiping Dong (Beijing Institute of Technology), Xiaojian Yi (Department of Overall Technology China; North Vehicle Research Institute School of Mechatronical Engineering Beijing Institute of Technology), Peng Hou (Beijing Institute of Technology), Chenhui Ren (Beijing Institute of Technology), and Yuxi Tao (Beijing Institute of Technology)</i>	
Optimization of Microgrid Capacity Allocation Based on Game Theory	459
<i>Shunping Jin (North China Electric Power University Beijing) and Fang Fang (North China Electric Power University Beijing)</i>	
Research on IMA Blueprint Test Case Generation Method	465
<i>Jiapan Fu (Science and Technology on Avionics Integration Laboratory Shanghai China; National Aeronautical Radio Electronics Research Institute Shanghai, China) and Kui Li (Science and Technology on Avionics Integration Laboratory Shanghai China; National Aeronautical Radio Electronics Research Institute Shanghai, China)</i>	
Bearing Fault Diagnosis Based on Wavelet Transform and Auto-Encoder Neural Network	469
<i>Wenliao Du (Zhengzhou University of Light Industry), Pengjie Hu (Zhengzhou University of Light Industry), Hongchao Wang (Zhengzhou University of Light Industry), and Xiaoyun Gong (Zhengzhou University of Light Industry)</i>	
Rolling Bearing Fault Diagnosis Based on Slice Energy Entropy Spectral Correlation Density-Continuous Hidden Markov Model	474
<i>Hongchao Wang (Zhengzhou University of Light Industry) and Wenliao Du (Zhengzhou University of Light Industry)</i>	
Bearing Fault Diagnosis for Coupling Faults of Rotor System using Spectral Kurtosis and Wavelet Packet	479
<i>Xiaoyun Gong (Zhengzhou University of Light Industry), Weiye Zhang (Zhengzhou University of Light Industry), Yunfei Jing (Zhengzhou University of Light Industry), Wenliao Du (Zhengzhou University of Light Industry), and Yongjie Jing (Zhengzhou University of Light Industry)</i>	
A Coupling Prediction Algorithm for Gas Turbine Remaining Useful Life Based on Health Degree	484
<i>Yunpeng Cao (Harbin Engineering University), Pan Hu (Harbin Engineering University), Kehui Zeng (Harbin Engineering University), Shuying Li (Harbin Engineering University), Bo He (Harbin Engineering University), and Weixing Feng (Harbin Engineering University)</i>	

CBR Theory Applied to Educational Administration System Based on jBPM	490
<i>Feng He (North Minzu University Yinchuan, China) and Qiang Han (North Minzu University Yinchuan, China)</i>	
Study on Perceptive Fuzzy Petri Net-Based Autoloader Fault Analysis	497
<i>Yingshun Li (Beijing Institute of Petro-chemical Technology), Sha Sheng (Beijing Institute of Petro-chemical Technology), Yintu Zhang (Beijing Institute of Petro-chemical Technology, Beijing University of Chemical Technology), and Xiaojian Yi (China North Vehicle Research Institute, Beijing)</i>	
Start-up Fault Detection of Gas Turbine Based on Dynamic Time Warping	504
<i>Yunpeng Cao (Harbin Engineering University), Kehui Zeng (Harbin Engineering University), Pan Hu (Harbin Engineering University), Shuying Li (Harbin Engineering University), Bo He (Harbin Engineering University), and Weixing Feng (Harbin Engineering University)</i>	
Design of Integrated Management and Pre-Warning System for Port Crane Group Based on Condition Monitoring	510
<i>Kun Chen (Wuhan University of Technology), Yan Gan (Wuhan University of Technology), Mengya Zhang (Wuhan University of Technology), Zhanwen Wu (China Special Equipment Inspection And Research Institute(CSEI) Beijing), Jun Fang (China Merchants Hoi Tung Trading Company Limited Hong Kong), and Bo Zhang (Shanghai Qiaozhan Network Technology Co., Ltd. Shanghai)</i>	
Probability Forecasting for Short-Term Electricity Load Based on LSTM	516
<i>Yaqian Fan (North China Electric Power University Beijing), Fang Fang (North China Electric Power University Beijing), and Xin Wang (North China Electric Power University Beijing)</i>	
Performance Parameter Estimation of Aircraft Auxiliary Power Unit via a Fusion Model	523
<i>Xiaolei Liu (Harbin Institute of Technology), Zhigang Li (China Southern Airline Company Engineering Division Guangzhou), Lulu Wang (China Southern Airlines Company Limited, Shenyang Maintenance Base China Southern Airlines Engineering Technology Research Center Shenyang), Liansheng Liu (Harbin Institute of Technology), and Xiyuan Peng (Harbin Institute of Technology)</i>	
Multi-MFL Measurement Assessment using Gaussian Mixture Model	529
<i>Xiang Peng (University of British Columbia Kelowna, Canada), Kevin Siggers (Rosen Canada Ltd. Calgary), and Zheng Liu (University of British Columbia Kelowna)</i>	
On-Board Sensor Data Monitoring System for Unmanned Aerial Vehicle PHM	535
<i>Min Jiang (Harbin Institute of Technology), Benkuan Wang (Harbin Institute of Technology), Datong Liu (Harbin Institute of Technology), and Yu Peng (Harbin Institute of Technology)</i>	
A New Method for Estimating System Reliability Using Historical Data	541
<i>Yuefeng Chen (The Seventh Research Laboratory, Beijing Special Vehicle Institute), Peng Hou (Beijing Institute of Technology), and Xiaojian Yi (Beijing Institute of Technology)</i>	

Flight Data Adaptive Segmentation and Classification for Fleet-Level Anomaly Detection	546
<i>Wenjia Gao (Harbin Institute of Technology), Shengwei Meng (Harbin Institute of Technology), and Datong Liu (Harbin Institute of Technology)</i>	
Health Evaluation Method of Satellite Battery Based-on Bayesian Network	552
<i>Zhongdong Jiang (Beijing Aerospace Measure & Control Corp (AMC). Ltd Beijing), Hongzheng Fang (Beijing Aerospace Measure & Control Corp (AMC). Ltd Beijing), Xinfeng Wang (Beijing Aerospace Measure & Control Corp (AMC). Ltd Beijing), and Huanzhen Fan (Beijing Aerospace Measure & Control Corp (AMC). Ltd Beijing)</i>	
A Smart Monitoring System for Rotor Bar Fault Detection in Induction Motors	557
<i>Manzar Mahmud (Lakehead University Thunder Bay, ON, Canada), Aman Shukla (Lakehead University Thunder Bay, ON, Canada), and Wilson Wang (Lakehead University Thunder Bay, ON, Canada)</i>	
Energy Management Method on Integrated Energy System Based on Multi-agent Game	564
<i>Run Lin (North China Electric Power University Beijing) and Fang Fang (North China Electric Power University Beijing)</i>	
A New Reliability Assessment Method for Complex Pyrotechnic System Based on Goal Oriented Methodology	N/A
<i>Huina Mu (Beijing Institute of Technology), Hongmei Yan (Beijing Institute of Technology), Yuefeng Chen (The Seventh Research Laboratory, Beijing Special Vehicle Institute), Yuanyuan Yang (Beijing Institute of Technology), Xiaojian Yi (Beijing Institute of Technology), and Guangliang Chen (Beijing Institute of Technology)</i>	
Research on Image Denoising for On-line Wear Debris Monitoring	577
<i>Wei Cao (Xi'an Technological University Xi'an, China), Dong Wang (Shaanxi Province Institute of Water Resources and Electric Power Investigation and Design, Xi'an, China), Han Zhang (Xi'an Technological University Xi'an, China), and Zhenyuan Gou (Xi'an Technological University Xi'an, China)</i>	
Event-Triggered H-infinity State Estimation for Discrete-Time T-S Fuzzy Systems	583
<i>Guangjie Li (North China Electric Power University Beijing) and Fang Fang (North China Electric Power University Beijing)</i>	
Reliability Modeling and Analysis of Command and Control Network Based on Dynamic Bayes-GO Method .	589
<i>Huina Mu (Beijing Institute of Technology), Hongmei Yan (Beijing Institute of Technology), Xiaojian Yi (Beijing Institute of Technology; North Vehicle Research Institute, China North Institute Group Beijing), Yuanyuan Yang (Beijing Institute of Technology), and Guangliang Chen (Beijing Institute of Technology)</i>	
Rolling Bearing Fault Diagnosis Method Based on Dispersion Entropy and SVM	596
<i>Rui Li (Chongqing University of Posts and Telecommunications), Chao Ran (Chongqing University of Posts and Telecommunications), Jiufei Luo (Chongqing University of Posts and Telecommunications), Song Feng (Chongqing University of Posts and Telecommunications), and Bin Zhang (Chongqing University of Posts and Telecommunications)</i>	

Lubricating Oil Degradation Modeling and Prognostics using the Wiener Process	601
<i>Monika Tanwar (Engineering Product Development (EPD) Pillar Singapore University of Technology and Design (SUTD)) and Nagarajan Raghavan (Engineering Product Development (EPD) Pillar Singapore University of Technology and Design (SUTD))</i>	
Lubrication Oil Degradation Trajectory Prognosis with ARIMA and Bayesian Models	606
<i>Monika Tanwar (Engineering Product Development (EPD) Pillar Singapore University of Technology and Design (SUTD)) and Nagarajan Raghavan (Engineering Product Development (EPD) Pillar Singapore University of Technology and Design (SUTD))</i>	
Wear Particle Chain Segmentation Based on the Nearest Neighbor Method	612
<i>Song Feng (Chongqing University of Posts and Telecommunications), Mingchi Feng (Chongqing University of Posts and Telecommunications), Quansong Chen (Chongqing University of Posts and Telecommunications), Kai Zheng (Chongqing University of Posts and Telecommunications), and Junhong Mao (Xi'an Jiaotong University)</i>	
An Inductive Particle Detector Debris Sensor Based on Multiple Excitation Coils	617
<i>Jiufei Luo (Chongqing University of Posts and Telecommunications), Wei Zhou (Chongqing University of Posts and Telecommunications), Yang Zhao (Chongqing University of Posts and Telecommunications), Song Feng (Chongqing University of Posts and Telecommunications), and Hong Xiao (Chongqing University of Posts and Telecommunications)</i>	
Influence of the Debris Trajectory on Output Inductive Signal in Large-Diameter Particle Detector	622
<i>Leng Han (Chongqing University of Posts and Telecommunications), Xinyu Wang (Chongqing University of Posts and Telecommunications), Song Feng (Chongqing University of Posts and Telecommunications), Dewei Yang (Chongqing University of Posts and Telecommunications), and Hong Xiao (Chongqing University of Posts and Telecommunications)</i>	
Design of Intelligent Mobile Robot Positioning Algorithm Based on IMU/Odometer/Lidar	627
<i>Zhaodong Li (China North Vehicle Research Institute Beijing), Zhibao Su (China North Vehicle Research Institute Beijing), and Tingting Yang (China University of Geosciences Beijing)</i>	
Research on Fault Diagnosis and Prediction of Power Plant Fans	632
<i>Rongda Jiao (North China Electric Power University Beijing) and Fang Fang (North China Electric Power University Beijing)</i>	
Deep Learning Based Multiple Sensors Monitoring and Abnormal Discovery for Satellite Power System	638
<i>Jingyi Dong (Harbin Institute of Technology), Yuntong Ma (Harbin Institute of Technology), and Datong Liu (Harbin Institute of Technology)</i>	
A Sparse Fault Feature Extraction Method for Rotating Machinery Based on Q Factor Wavelet Multi-resolution Decomposition	644
<i>Junlin Li (Beijing University of Chemical Technology), Liuyang Song (Beijing University of Chemical Technology), Lingli Cui (Beijing University of Technology), and Huaqing Wang (Beijing University of Chemical Technology)</i>	

Determination of Difficult Parking Points in Train Running Section Based on UAS and BP Neural Network	650
<i>Hongyu Zhou (Southwest Jiaotong University Chengdu, China), Jiahui Feng (Southwest Jiaotong University Chengdu, China), Jun Shen (Southwest Jiaotong University Chengdu, China), Yang Chai (Southwest Jiaotong University Chengdu, China), and Qingyuan Wang (Southwest Jiaotong University Chengdu, China)</i>	
Analysis of Factors Affecting Power Load Characteristics Based on Grey Relational Analysis Model	654
<i>Jianmin Ding (State Grid Jibei Electric Power Company Limited Economic Research Institute), Yunli Yue (State Grid Jibei Electric Power Company Limited Economic Research Institute), Jianhua Chen (State Grid Jibei Electric Power Company Limited), Meng Chen (North China Electric Power University Beijing), and Weibo Zhao (North China Electric Power University Beijing)</i>	
Research on Image-Based Tracking Method for Six Rotor Aircraft	659
<i>Rongbao Chen (Hefei University of Technology), Dawei Tang (Hefei University of Technology), Sheng Wei (Hefei University of Technology), and Yuting Sheng (Hefei University of Technology)</i>	
Comprehensive Optimization of Variable Load Capacity of Heating Unit Under Complicated Working Conditions	666
<i>Kun Yao (Harbin Institute of Technology; HKU), Junfeng Fu (Harbin Institute of Technology, China Northeast Electric Power University), Shuyang Li (State Grid Liaoning Electric Power Supply Co. Ltd., Shenyang, China), Jie Wan (Harbin Institute of Technology; HKU), Guiping Zhou (State Grid Liaoning Electric Power Supply Co. Ltd., Shenyang, China), Peng E (Harbin Institute of Technology), and Yiling Ma (State Grid Liaoning Electric Power Supply Co. Ltd., Shenyang, China)</i>	
Study on the Relationship between the Characteristics of the Acoustic and Electrical Signals Generated by Partial Discharges	671
<i>Zhoufei Yao (State Grid Shanghai Municipal Electric Power Company, Shanghai), Xiangyao Li (Shandong University Jinan), Bengang Wei (State Grid Shanghai Municipal Electric Power Company, Shanghai), and Jie Lou (Shandong University Jinan)</i>	
A Restoration of Underwater Polarized Images Based on DCP	675
<i>Aiping Tang (Changzhou Vocational Institute of Textile and Garment Changzhou, China)</i>	
Research on the Planning of Automatic Grease-Filling System for Wind Turbine Lubrication	679
<i>Xiaopin Yang (Nanchang Institute of Technology), Guiyue Kou (Nanchang Institute of Technology), Li Li (Jiangxi Vocational College of Mechanical & Electrical Technology Nanchang, China), Wenhua Zhang (Nanchang Institute of Technology), Changhong Xie (Nanchang Institute of Technology), and Jinna Hao (Nanchang Institute of Technology)</i>	

Monthly Load Forecasting Model and Seasonal Characteristic Effect Analysis Under the Background of Energy Internet	684
<i>Fangyuan Yang (Technical and Economic Research Institute of Liaoning Electric Power Co., Ltd. Shenyang), Limin Xue (State Grid Liaoning Electric Power Company Limited Metrological Center, Shenyang), Tianmeng Yang (Technical and Economic Research Institute of Liaoning Electric Power Co., Ltd. Shenyang), and Deming Xia (Northeast Branch of State Grid Corporation of China Shenyang)</i>	
Adaptive Flight Accident Prediction Method Based on Chaos Theory	689
<i>Yun Sun (Equipment Management and UAV Engineering College Air Force Engineering University Xi'an, China), Ying Wang (Equipment Management and Safety Engineering College Air Force Engineering University Xi'an, China), Yukun Zheng (Equipment Management and Safety Engineering College Air Force Engineering University Xi'an, China), and Zijun Wang (School of Preclinical Medicine Air Force Medical University Xi'an, China)</i>	
Hunting IoT Botnets with Wide-Area-Network Flow Data	694
<i>Mingzhe Li (National Computer Network Emergency Response Technical Team/Coordination Center of China, Beijing, Changan Communication Technology Co., Ltd., Beijing), Zhonghao Sun (National Computer Network Emergency Response Technical Team/Coordination Center of China, Beijing), and Zhejun Fang (National Computer Network Emergency Response Technical Team/Coordination Center of China, Beijing)</i>	
Constrained Nonnegative Matrix Factorization for Image-Based Protein Subcellular Localization Prediction	699
<i>Huaqun Zhan (Jiangxi Science and Technology Normal University Nanchang, China), Ping Zhou (Jiangxi Science and Technology Normal University Nanchang, China), and Hualin Zhan (Jiangxi Science and Technology Normal University Nanchang, China)</i>	
Suitability Evaluation of LTE-Based Wireless Private Network for Power Communication Business in Smart Grid	704
<i>Yajuan Guo (Electric Power Research Institute, State Grid Jiangsu Electric Power Company, Ltd, Nanjing, China), Daohua Zhu (Electric Power Research Institute, State Grid Jiangsu Electric Power Company, Ltd, Nanjing, China), Lei Wei (State Grid Jiangsu Electric Power Company, Ltd, Nanjing, China), Hongfu Guo (Beijing University of Posts and Telecommunications (BUPT)), Shuqiong Zhu (Beijing University of Posts and Telecommunications (BUPT)), and Lei Feng (Beijing University of Posts and Telecommunications (BUPT))</i>	
Classifying Mangrove Crub Images for Growth Stages Detection and Monitoring	710
<i>Jasmin Almarinez (Technological Institute of the Philippines Manila) and Alexander Hernandez (Technological Institute of the Philippines Manila)</i>	
A Novel Gas Identification Method Based on Gabor Spectrogram Using Self-Adapted Temperature Modulated Gas Sensors	714
<i>Aixiang He (Key Lab. of Liaoning for Integrated Circuits Technology, Dalian University of Technology) and Zhenan Tang (Key Lab. of Liaoning for Integrated Circuits Technology, Dalian University of Technology)</i>	

Target Recognition Based on CNN with LeakyReLU and PReLU Activation Functions	718
<i>Tongtong Jiang (Qilu University of Technology, Shandong Academy of Sciences Jinan) and Jinyong Cheng (Qilu University of Technology, Shandong Academy of Sciences Jinan)</i>	
Multi-label Feature Selection Based on Label-Specific Features	723
<i>Zhijian Yin (Jiang Xi Science & Technology Normal University School of Communication & Electronics Nanchang, China), Xingxing Li (Jiang Xi Science & Technology Normal University School of Communication & Electronics Nanchang, China), and Hualin Zhan (Jiang Xi Science & Technology Normal University School of Communication & Electronics Nanchang, China)</i>	
3D Reconstruction System Based on 2D Laser Radar, Rotary Platform and Cameras	729
<i>Shuang Luo (Chengdu University of Information Technology), Tao Jiang (Chengdu University of Information Technology), Jianying Yuan (Chengdu University of Information Technology), Kechang Fu (Chengdu University of Information Technology), and Xiaoyan Huang (Chengdu University of Information Technology)</i>	
Blind Frame Synchronization Technique of Interleaved Convolutional Codes on Secure Communications	N/A
<i>Jing Zhou (National University of Defense Technology Changsha, China) and Zhiping Huang (National University of Defense Technology Changsha, China)</i>	
Watermark Image Reconstruction Based on Deep Learning	739
<i>Qing Yan (Shenyang Ligong University Shenyang, China), Yiming Zhang (Shenyang Ligong University Shenyang, China), Long Wang (Shenyang Ligong University Shenyang, China), and Wenbo Zhao (Central South University)</i>	
Instrument Detection Using Histograms of Oriented Gradients for Substation Inspection Robot	N/A
<i>Jianying Yuan (Chengdu University of Information Technology), Xiaoyan Huang (Chengdu University of Information Technology), Tao Jiang (Chengdu University of Information Technology), Kechang Fu (Chengdu University of Information Technology), and Caiyi Yang (Chengdu University of Information Technology)</i>	
Investigation and Simulation of the Isolation Technology for 3300V RB-IGBT	749
<i>Lei Cui (State Key Lab of Advanced Power Transmission Technology, Global Energy Interconnection Research Institute Co. Ltd, Beijing), Bijun Zhang (State Key Lab of Advanced Power Transmission Technology, Global Energy Interconnection Research Institute Co. Ltd, Beijing), Pengfei Wu (State Key Lab of Advanced Power Transmission Technology, Global Energy Interconnection Research Institute Co. Ltd, Beijing), Ruliang Zhang (Xi'an University of Technology), Li Ma (Xi'an University of Technology), Zhibin Zhao (State Key Laboratory of Alternate Electrical Power System with Renewable Energy Sources, North China Electrical Power University), Junmin Wu (State Key Lab of Advanced Power Transmission Technology, Global Energy Interconnection Research Institute Co. Ltd, Beijing), and Yufeng Qiu (State Key Lab of Advanced Power Transmission Technology, Global Energy Interconnection Research Institute Co. Ltd, Beijing)</i>	

Research on Access Point and Capacity Selection Optimization of Distributed Photovoltaic Access to Distribution Network for Network Loss	754
<i>Qinghan Wang (Shenyang University of Technology) and Yun Teng (Shenyang University of Technology)</i>	
PSO Algorithm Applying to the Optimal Dispatching of EVs in the Photovoltaic System	N/A
<i>Zuopeng Fan (Shandong Luneng Intelligent Technology Co. LTD, Jinan, China), Xingjun Wang (Shandong Luneng Intelligent Technology Co. LTD, Jinan, China), and Hai Huang (Shandong Luneng Intelligent Technology Co. LTD, Jinan, China)</i>	
False Invoice Based on Proxy Detection via Bipartite Graphs and One-Mode Projections	N/A
<i>Qiurong Zhu (Beijing Lanxum New Technology Co., Ltd.), Jiangbing Yang (Beijing Lanxum New Technology Co., Ltd.), Haibo Hou (Beijing Lanxum New Technology Co., Ltd.), and Minghua Wang (Beijing Lanxum New Technology Co., Ltd.)</i>	
Study on the Modal Experiment of Large-Span Cable-Stayed Bridge During Construction and Completed Stage	N/A
<i>Xingnai Wang (Chang'an University, Xi'an, China)</i>	
Relations between Network Centrality of a Company and Its Scale of Market Capitalization	N/A
<i>Dongning Rao (Guangdong University of Technology), Zhihua Jiang (Jinan University), Zhuoyi Lin (Guangdong University of Technology), and Lai Wei (University of Hong Kong)</i>	
The Applications of Graph Theory in Electric Network	780
<i>Baozhuo Xie (Harbin Institute of Technology), Chao Qi (Harbin Institute of Technology), Hongqi Ben (Harbin Institute of Technology), and Weixiong Yu (Harbin Institute of Technology)</i>	
Fluid-Structure Coupled Modal Simulation Analysis of Fuel Filter	N/A
<i>Zhe Lv (School of Computer Science of Zhuhai College of Jilin University) and Fengjun Gao (Technical Center of Great Wall Motor Company Limited Hebei Automobile Engineering Technology & Research Center Baoding City, China)</i>	
Research and Implementation of Data Loading and Synchronization in Memory Database	790
<i>Meijing Wu (Beijing Institute of Technology), Xiaolin Zhao (Beijing Institute of Technology), Xinyu Hou (Beijing Institute of Technology), Ji Zhang (Beijing Institute of Technology), and Ran Liu (Beijing Institute of Technology)</i>	
An Optimization Method of AGV Body Topology Based on Improved Variable Density Method	797
<i>Huadong Zhao (Zhengzhou University), Nan Jiang (Zhengzhou University), and Chaofan Lei (Zhengzhou University)</i>	
UHF Partial Discharge Signal Recovery Method Based on Compressive Sensing	801
<i>Qiang Gao (Electric Power Research Institute of State Grid Liaoning Power Supply Co. Ltd. Shenyang, China), Qi Liu (Electric Power Research Institute of State Grid Liaoning Power Supply Co. Ltd. Shenyang, China), Zhannan Guo (Shenyang Kekai Electric Power Technology Co. Ltd. Shenyang, China), Nan Zhou (Shanghai Jiao Tong University Shanghai), and Zhen Li (Shanghai Jiao Tong University Shanghai)</i>	

An Information Fusion Positioning Algorithm Based on Extended Dempster-Shafer Evidence Theory	805
<i>Lu Bai (Northwestern Polytechnical University, Xi'an, China), Chenglie Du (Northwestern Polytechnical University, Xi'an, China), and Jinchao Chen (Northwestern Polytechnical University, Xi'an, China)</i>	
A Cooperative Cellular Resource Allocation Scheme for Overlay Device-to-Device Communication and Uplink Transmission	N/A
<i>Jiao Feng (Nanjing University of Information Science and Technology), Peng Li (Nanjing University of Information Science and Technology), and Chenchen Shu (Nanjing University of Information Science and Technology)</i>	
Research on Scene Semantic Segmentation Based on Deep Learning	N/A
<i>Kun Li (Henan Medical College Zhengzhou, China), Liwei Jia (Henan Medical College Zhengzhou, China), and Xiaoming Shi (Henan Medical College Zhengzhou, China)</i>	
Research on Diagnosis Method Based on Multi-class Sample Imbalanced Data	821
<i>Yuanyuan Li (China North Engine Research Institute TianJin), Xinlei Wang (Beijing Institute of Technology, China North Industries Corp), Chenhui Ren (Beijing Institute of Technology), Yingshun Li (Dalian University of Technology), Peng Hou (Beijing Institute of Technology), and Xiaojian Yi (Beijing Institute of Technology)</i>	
A Fault Diagnosis of Rolling Elements Base on Naïve Bayes Classifier	N/A
<i>Hongwei Zhang (Research Institute, Inner Mongolia First Machinery Group Co., Ltd. Baotou, China), Zhe Wang (Research Institute, Inner Mongolia First Machinery Group Co., Ltd. Baotou, China), Peng Hou (Beijing Institute of Technology), Yangjie Zhang (Beijing Institute of Technology), Xiaojian Yi (Beijing Institute of Technology), and Huina Mu (Beijing Institute of Technology)</i>	
An Approach of Reliability Based Topology Optimization Design for Network System of Sewage System	N/A
<i>Peng Hou (Beijing Institute of Technology), Yingshun Li (Dalian University of Technology), Huina Mu (Beijing Institute of Technology), and Xiaojian Yi (Beijing Institute of Technology)</i>	
Blind Source Separation Based on EMD and Correlation Measure for Rotating Machinery Fault Diagnosis	836
<i>Xuejun Zhao (State Key Laboratory of Rail Traffic Control and Safety, Beijing Jiaotong University), Yong Qin (State Key Laboratory of Rail Traffic Control and Safety, Beijing Jiaotong University), Ge Xin (State Key Laboratory of Rail Traffic Control and Safety, Beijing Jiaotong University), and Limin Jia (State Key Laboratory of Rail Traffic Control and Safety, Beijing Jiaotong University)</i>	
Integrated Group Method of Data Handling Framework for Remaining Useful Life Prediction	840
<i>Xin Ge (Beijing Jiaotong University), Shunjie Zhang (Beijing Jiaotong University), Qiang Cheng (Beijing Jiaotong University), Xuejun Zhao (State Key Laboratory of Rail Traffic Control and Safety, Beijing Jiaotong University), and Yong Qin (State Key Laboratory of Rail Traffic Control and Safety, Beijing Jiaotong University)</i>	
A Fault Diagnosis Method for Valve Train of Diesel Engine Considering Incomplete Feature Set	845
<i>Zhinong Jiang (Beijing University of Chemical Technology), Yuehua Lai (Beijing University of Chemical Technology), Zijia Wang (Beijing University of Chemical Technology), and Jinjie Zhang (Beijing University of Chemical Technology)</i>	

Behind-Armor Energy Release of Reactive Material Liner	N/A
<i>Xuepeng Zhang (North University of China Taiyuan), Jianguang Xiao (North University of China Taiyuan), Fangdong Dong (Research Institute of China Ordnance Industries Beijing), and Haifu Wang (Beijing Institute of Technology)</i>	
Reliability Evaluation of Instrument-Control Power Distribution System	856
<i>Xingyu Qiao (North China Electric Power University Beijing) and He Liu (North China Electric Power University Beijing)</i>	
Design and Test of a Fault Diagnosis System for Planetary Gear Box	862

Establishment of Corrosion Big Data Standard Acquisition Platform for Refining Process	963
<i>Liangchao Chen (Beijing University of Chemical Technology), Jianfeng Yang (Beijing University of Chemical Technology), Guanghai Li (China Special Equipment Inspection and Research Institute Beijing), and Xinyuan Lu (China Special Equipment Inspection and Research Institute Beijing)</i>	
Fault Diagnosis for Reciprocating Compressor Based on GLCM and HOG Features Fusion of Time-Frequency Image	968
<i>Hui Li (Beijing University of Chemical Technology), Haipeng Zhao (Beijing University of Chemical Technology), Zijia Wang (Beijing University of Chemical Technology), and Zhiwei Mao (Beijing University of Chemical Technology)</i>	
Research on Application of Virtual Assembly Technology in Product Maintainability Design	973
<i>Hongchao Wu (Network and Information Center China; North Vehicle Research Institute Beijing), Xue Shi (General Technology Department China; North Vehicle Research Institute Beijing), Pinwang Zhao (Network and Information Center China; North Vehicle Research Institute Beijing), and Lin Gui (Transmission Technology Department China; North Vehicle Research Institute Beijing)</i>	

Design and Optimization of Permanent Magnet Shock Loading Buffer	978
<i>Yang Liu (NUC North University of China Taiyuan), Yuefei Gao (NUC North University of China Taiyuan), Qichen Han (NUC North University of China Taiyuan), and Deng Wang (NUC North University of China Taiyuan)</i>	
Research on Vibration Reduction Design of Cockpit Based on Simulation	N/A
<i>Zhongliang Wei (Department of Overall Technology China; North Vehicle Research Institute, Beijing), Minghui Chen (Department of Overall Technology China; North Vehicle Research Institute, Beijing), Sijuan Zheng (Department of Overall Technology China; North Vehicle Research Institute, Beijing), and Liang Ling (Department of Overall Technology China; North Vehicle Research Institute, Beijing)</i>	
Study on Active Vibration Control Simulation of Structure Acoustic	989
<i>Zhongliang Wei (Department of Overall Technology China; North Vehicle Research Institute Beijing), Liang Ling (Department of Overall Technology China; North Vehicle Research Institute Beijing), Sijuan Zheng (Department of Overall Technology China; North Vehicle Research Institute Beijing), and Wei Hu (Department of Overall Technology China; North Vehicle Research Institute Beijing)</i>	
Study on the Distribution Model of Exploding Foil Initiator's Ignition Sensitivity	994
<i>Qing Zhou (Institute of Chemical Materials CAEP Mianyang, China), Simin He (Institute of Chemical Materials CAEP Mianyang, China), Long Zhang (Institute of Chemical Materials CAEP Mianyang, China), Fei Guo (Institute of Chemical Materials CAEP Mianyang, China), and Yi Li (Institute of Chemical Materials CAEP Mianyang, China)</i>	
A Novel Deep Penetrating Eddy Current Probe for Inspection of Deep Cracks in SUS304	998
<i>Dongli Zhang (North Minzu University Yinchuan, China), Meixian Wu (School of Chemistry and Chemical Engineering Key Laboratory of Chemical Engineering and Technology, State Ethnic Affairs Commission North Minzu University Yinchuan, China), and Chuanglong Wang (North Minzu University Yinchuan, China)</i>	
Numerical Simulation of Ceramic Jet Damage Element Forming	N/A
<i>Zhixin Shi (North University of China Taiyuan), Jianping Yin (North University of China Taiyuan), Fangdong Dong (Laboratory No.208 Research Institute of China Ordnance Industries Beijing), Xuepeng Zhang (North University of China Taiyuan), Zhijun Wang (North University of China Taiyuan), and Yongjie Xu (North University of China Taiyuan)</i>	
Numerical Simulation of Sympathetic Detonation of Explosives in the Shell	N/A
<i>Kaiqi Zhang (North University of China Taiyuan), Chungui Zhou (North University of China Taiyuan), Fangdong Dong (Laboratory No.208 Research Institute of China Ordnance Industries Beijing), Liying Dong (North University of China Taiyuan), Shu Wang (Laboratory No.208 Research Institute of China Ordnance Industries Beijing), Qing Ji (North University of China Taiyuan), and Yuanfeng Ji (North University of China Taiyuan)</i>	

Numerical Simulation of Explosion Threshold of Sympathetic Detonation Under Combined Shock Wave and Fragment Impact	N/A
<i>Liyong Dong (North University of China Taiyuan), Zhijun Wang (North University of China Taiyuan), Youcai Xiao (North University of China Taiyuan), Fangdong Dong (Laboratory No.208 Research Institute of China Ordnance Industries Beijing), Xiaojing Zhang (North University of China Taiyuan), Shu Wang (Laboratory No.208 Research Institute of China Ordnance Industries Beijing), Qing Ji (North University of China Taiyuan), and Kaiqi Zhang (North University of China Taiyuan)</i>	
A System Information Decomposition Algorithm for Reliability Assessment of Units	1017
<i>Jian Shi (Huaqiao University, Xiamen, China Academy of Mathematics and Systems Science, Chinese Academy of Sciences, Beijing), Yue Chen (Chinese Academy of Sciences School of Mathematical Sciences, University of Chinese Academy of Sciences, Beijing), Xiaojian Yi (China North Industries Group Corp. , NO. 201 Research Academy of Mathematics and Systems Science, Chinese Academy of Sciences, Beijing), and Huina Mu (Beijing Institute of Technology)</i>	
A New Eddy Current Probe for Inspection of Deep Delamination Defects Using a Solenoid-Coil Exciter	1022
<i>Meixian Wu (North Minzu University Yinchuan, China), Dongli Zhang (North Minzu University Yinchuan, China), and Chungui Zhou (North University of China Taiyuan)</i>	
Design and Test of a Mechanical Auto-Balancing Motorized Spindle	N/A
<i>Hongwei Fan (Xi'an University of Science and Technology) and Sijie Shao (Xi'an University of Science and Technology)</i>	
Construction of Group Collaborative Testing Environment Based on VR/AR Experience	1032
<i>Xue Shi (Department of Overall Technology China; North Vehicle Research Institute Beijing) and Xiwen Shang (Department of Overall Technology China; North Vehicle Research Institute Beijing)</i>	
Performance Evaluation of CFB Unit Combustion System Based on Comprehensive Economics and Entropy Weight Method	1036
<i>Ce Qin (North China Electric Power University, Beijing), Mingming Gao (North China Electric Power University, Beijing), and Hongfu Zhang (North China Electric Power University, Beijing)</i>	
A Method for False Alarm Recognition Considering Threshold	1043
<i>Fei Guan (National University of Defense Technology China Academy of Launch Vehicle Technology Beijing), Junyou Shi (Beihang University Beijing), Weiwei Cui (China Academy of Launch Vehicle Technology Beijing), Dongpao Hong (China Academy of Launch Vehicle Technology Beijing), and Jie Wu (National University of Defense Technology Changsha)</i>	
Probabilistic and Non-Probabilistic Synthetic Reliability Model of Structures	1050
<i>Jiao Shi (China Academy of Launch Vehicle Technology Beijing), Dongpao Hong (China Academy of Launch Vehicle Technology Beijing), Peihao He (China Academy of Launch Vehicle Technology Beijing), and Guangyu Jing (Beijing Institute of Astronautical Systems Engineering Beijing)</i>	

Temperature Analysis of Electronic Devices for Reliability Design Based on Process Neural Network	1057
<i>Chen Ding (China Academy of Launch Vehicle Technology Beijing), Zhiling Niu (China Academy of Launch Vehicle Technology Beijing), Muchun Yu (China Academy of Launch Vehicle Technology Beijing), Zijun Zhang (China Academy of Launch Vehicle Technology Beijing), and Bingwei Li (China Academy of Launch Vehicle Technology Beijing)</i>	
Reliability Design Optimization Method Based on Information Reconstruction Kriging Model	1062
<i>Meng Qin (China Academy of Launch Vehicle Technology Beijing), Hairui Zhang (China Academy of Launch Vehicle Technology Beijing), Guofeng Zhou (China Academy of Launch Vehicle Technology Beijing), Hao Wang (China Academy of Launch Vehicle Technology Beijing), Cheng Zhang (China Academy of Launch Vehicle Technology Beijing), and Peihao He (China Academy of Launch Vehicle Technology Beijing)</i>	
Dynamic Mission Reliability Modeling for a Manufacturing System with Multiple Production Lines	1069
<i>Changchao Gu (China Academy of Launch Vehicle Technology Beijing), Jing Wang (China Academy of Launch Vehicle Technology Beijing), and Dongpao Hong (China Academy of Launch Vehicle Technology Beijing)</i>	
A Combined Logistic Regression and Learning Kriging Method for Reliability-Based Design Optimization...	1075
<i>Yao Wang (China Academy of Launch Vehicle Technology Beijing), Xiaodong Ma (China Academy of Launch Vehicle Technology Beijing), Hairui Zhang (China Academy of Launch Vehicle Technology Beijing), and Dongpao Hong (China Academy of Launch Vehicle Technology Beijing)</i>	
Study for Process Reliability Modeling and Controlling Method of Space Product	1085
<i>Xiao Hu (China Academy of Launch Vehicle Technology Beijing), Shengwei Jia (China Academy of Launch Vehicle Technology Beijing), Changchao Gu (China Academy of Launch Vehicle Technology Beijing), Weikang Xue (China Academy of Launch Vehicle Technology Beijing), Weiwei Cui (China Academy of Launch Vehicle Technology Beijing), and Leigang Zhang (China Academy of Launch Vehicle Technology Beijing)</i>	
Research on Evaluation of Common Quality Characteristics Engineering Capability for Equipment Development	N/A
<i>Junyi Liu (China Academy of Launch Vehicle Technology Beijing), Changchao Gu (China Academy of Launch Vehicle Technology Beijing), Leigang Zhang (China Academy of Launch Vehicle Technology Beijing), and Wenbo Han (China Academy of Launch Vehicle Technology Beijing)</i>	
Housing Bubble Testing and Forecast Based on China Ten Major Cities	N/A
<i>Ruoying Tan (University Sains Malaysia) and Tze-Haw Chan (University Sains Malaysia)</i>
