Preface xviii
Committee Members xix
Reviewers xxi

Mechanic Manufacturing System and Automation

Research on Performance Optimization Strategy of Solar Semiconductor Refrigeration System Based on Boost Circuit 1
Yang Lin (Hope College Southwest Jiaotong University), Yin Jun (Hope College Southwest Jiaotong University), and Zhang Cheng (CNPC Jichai Power Company Limited Chengdu Compressor Branch)

Study on Driving Stability Control of Electrically Driven Articulated Vehicle 6
Wei-Ping Fang (Shandong Transport Vocational College) and Xiao-Jun Yang (Shandong Transport Vocational College)

Research on Equivalent Model of Winding Bars of Turbogenerator Stator End 11
Yiling Liu (Chongqing University of Posts and Telecommunications), Ting Wang (Chongqing University of Posts and Telecommunications), Xiaohan Bao (Chongqing University of Posts and Telecommunications), and Xinghong Li (Chongqing University of Posts and Telecommunications)

Reliability Sensitivity Analysis of Stochastic Resonance Failure of Vehicle Drum Brake 15
Yang Zhou (Northeastern University), Pak Unsong (Northeastern University Shenyang, Pyongyang Transportation University), and Zhao Haoyuan (Northeastern University)

Research on the Development of Guangxi Intelligent Manufacturing Equipment Industry Based on Patent Information 21
Jingxiang Li (Liuzhou Railway Vocational Technical College) and Ying Huang (Liuzhou Railway Vocational Technical College)

Gear Pump Bearings-Reverse Design of Journal Fluid Lubrication 25
Haifeng Yang (Harbin Vocational & Technical College)

Configuration Design of Multi-Stage Planetary Differential Gear Train with Double Planetary Gears and Scheme Optimization Based on Fuzzy Analytic Hierarchy Process ..29
Jungang Wang (East China Jiaotong University), Shinan Yang (East China Jiaotong University), Yande Liu (East China Jiaotong University), Jiwen Ren (East China Jiaotong University), and Ruina Mo (East China Jiaotong University)

Robust Design and Application of Pallet Roller Automatic Conveyor Line ..33
Liangwen Yan (Shanghai University), Shan Huang (Shanghai University), Xundong Dong (Shanghai University), Yue Yu (Shanghai University), and Kele Cao (Shanghai University)

Research and Implementation of Mathematical Model for Solar Running Fixing ..38
Tian Rui (Dalian Maritime University) and Liu Xuewen (Dalian Maritime University)

A Robust Scheduling Model for Continuous Berth Allocation Problem under Uncertainty ..43
Yangcan Wu (Tsinghua University) and Lixin Miao (Tsinghua University)

Simulation and Verification of the Body-in-White Finite Element Model Based on Static Stiffness ..50
Hengyi Ji (Harbin Institute of Technology at Weihai), Jingming Zhang (Harbin Institute of Technology at Weihai), and Xiaoxiao Yan (China Automotive Technology & Research Center)

Vibration Characteristics of Sticking Motions in a Vibro-Impact System under Dry Friction ..54
Xingxiao Cao (Lanzhou Jiaotong University), Quanfu Gao (Lanzhou Jiaotong University), and Yan Yang (Lanzhou Jiaotong University)

Research on Detection Technology of Elevator Hydraulic Buffer ..58
Feng Shuangchang (Shanghai Institute of Special Equipment Inspection and Technical Research), Wang Chen (Information Center), and Ouyang Huiqing (Shanghai Institute of Special Equipment Inspection and Technical Research)

Research Summary on Energy Saving Technology of Forklift Lifting System ..62
Liu Panpan (Beihua University), Wang Yao (Beihua University), Zhang Zejian (Beihua University), Zhang Oijiu (Beihua University), and Lun Fengyan (Beihua University)

Simulation and Control of Cross-Wind Stability of Vehicles Exiting and Entering Tunnels ..66
Jingming Zhang (Harbin Institute of Technology at Weihai) and Yun Xie (Harbin Institute of Technology at Weihai)

Simulation of Ship Maneuvering Training Environment Based on WebGL and WebSocket ..70
Huaizhi Li (Dalian Maritime University) and Xiuwen Liu (Dalian Maritime University)

Game Scene Construction for Lower Limb Rehabilitation Robot Based on Virtual Reality ..74
Yongfei Feng (Ningbo University), Di Jin (Ningbo University), Qianjun Shao (Ningbo University), Jianye Niu (Hebei University of Technology), Luige Vladareanu (Institute of Solid Mechanics of the Romanian Academy), and Hongbo Wang (Yanshan University)

Optimal Design of Robot Wireless Transmission System Based on Multi-Objective Genetic Algorithm ..79
Fu Qi-ye (Guangdong Aib Polytechnic College), Li You-hong (Guangdong University of Technology), Liu Wei (Guangdong Aib Polytechnic College), and Li Wei-yong (Guangdong University of Technology)

Development of a Testing System for Torque Characteristics of Folding Hinges .84
Zhang Yun-Jie (713 Research Institute), Ge Sheng-Li (713 Research Institute), and Li Fan-Ying (713 Research Institute)

Research on Relay Contact Conversion Model Based on Nonlinear Least Square Method .89
Cong Li (Tianjin University of Technology), Zhiwei Li (Tianjin University of Technology), Tao Li (Industrial Product Safety Technology Center), JunChao Zhu (Tianjin University of Technology), Jianwen Li (Tianjin University of Technology), and Baofeng Zhang (Tianjin University of Technology)

A Method for Predicting Wheel Set Wear of Rail Vehicles .93
Wang Wei (Nanjing University of Science and Technology), Wei Xiaodie (Nanjing University of Science and Technology), Yang Wei (Nanjing University of Science and Technology), and Bao Jiandong (Nanjing University of Science and Technology)

Calculation and Analysis of Flexibility Matrix for V Flexible Spherical Hinges with Chamfer .97
Bao Chaonan (University of Chinese Academy of Sciences) and Jiang Bo (University of Chinese Academy of Sciences)

Design of Walking Brick Coding Robot and Remote Online Monitoring System .102
Sun Peng (HeZe Medical College)

Kinematics Modeling and Experiment of the Packing Robot .106
Peng Wang (Huainan Normal University), Liang Yu (Huainan Normal University), Lei Miao (Huainan Normal University), and Long Zhang (Huainan Normal University)

Electromagnetic Force Analysis of Turbogenerator Stator End Winding .111
Bao Xiaohan (Chongqing University of Posts and Telecommunications), Wang Ting (Chongqing University of Posts and Telecommunications), and Liu Yiling (Chongqing University of Posts and Telecommunications)

Fast Simulation Design of Picking and Packing Based on Picking Powerpac .116
Yongping Chen (Shanghai Technical Institute of Electronics & Information) and Kaikai Wang (Shanghai Technical Institute of Electronics & Information)

Research on Rapid Mold Making Based on Reverse Engineering and 3D Printing Technology .121
Hua Guo (Shanghai Technical Institute of Electronics & Information), Xinyu Guo (Shanghai Technical Institute of Electronics & Information), Wangfeng Yue (Shanghai Technical Institute of Electronics & Information), and Yanchen Yang (Shanghai Technical Institute of Electronics & Information)

Optimized Design of GPS Positioning Performance of Vehicle Integrated Navigation .124
He Jinsong (Shanghai Technical Institute of Electronics & Information) and Jiang Lei (State Nuclear Power Automation System Engineering Company. LTD)

An Analysis on the Design of a Special-Shaped Plastic Snap-fit Based on the Technology of Finite Element .129
Jinya Song (Shanghai Technical Institute of Electronics & Information)

Design and Temperature Field Analysis of Submersible Motor .134
Wang Dongxin (Heilongjiang Bayi Agricultural University)

The Research of an Electricity-Oxidized WasteWater Treatment Equipment .137
Yujiao Tang (Shanghai Urban Construction College) and Jie Shi (Baosteel Engineering Technology Group Co. Ltd)

Effect of Horizontal Plate Length on Working Resistance of Blade under Different Cutting Rake Angles .141
Yutian He (Xi'an Shiyou University), Pengmin Lu (Chang'an University), Longlong Guo (Xi'an Shiyou University), and Wen Wu (Chang'an University)

The Design of an Automatic Detecting Equipment for the Magnetic Core Defects .145
Yujiao Tang (Shanghai Urban Construction College), Lei Wang (Tongji University), Wei Feng (Shanghai Baosteel Magnetic Industry Co., Ltd.), and Jingxing Li (Shenzhen Sanrui Visual Technology Co., Ltd.)

Switch Fault Prediction Based on EMD Sample Entropy-HSMM Model .149
Bai Dengyu (Lanzhou Jiaotong University) and Zheng Yunshui (Lanzhou Jiaotong University)

Sensor, Information Processing and Analysis

Analysis and Prediction of Time Series Geometric Parameters of Groove Rail Based on Big Data Technology .154
Jin-Yi Deng (Jinan University), Hao Feng (Jinan University), Yu-Tong Liu (Jinan University), Yu Bai (Jinan University), Fang Liu (Jinan University), Zhi-Chao He (Jinan University), and Yong-Jun Xie (Jinan University)

Structural Safety Analysis of a Steel-Structure Signboard on the Roof of a Building in a University .159
Feifei Hu (Beijing Jiaotong University)

Radar Signal Sorting Algorithm Based on Pulse Repetition Interval .163
Zhuangzhi Han (Army Engineering University), Zihang Zhao (Hebei University of Technology), Zhenbin Gao (Hebei University of Technology), and Hui Xie (Army Engineering University)

Summary of Transceiver Isolation Technology for CW Radar Microstrip Antenna .167
Zhuangzhi Han (Army Engineering University), Yuzhu Wu (Shijiazhuang Tiedao University), Mengtao Liang (Shijiazhuang Tiedao University), Yuehong Ma (Shijiazhuang Tiedao University), and Xiaomin Li (Shijiazhuang Tiedao University)

The Construction and Practice of Tacit Knowledge Externalization in Aerospace Enterprises .172
Liu Bin (National University of Defense Technology), Ma Guang (Aerospace Wanyuan Industrial Co., Ltd.), Jiang Hong (Capital University of Economics and Business), and Zheng Jigui (Beijing Institute of Precise Mechatronics and Controls, R&D Center)

Analysis of the Influence of Sino-US Trade Friction on Guangdong's Global Value Chain Position .175
Han Yonghui (Guangdong University of Foreign Studies), Li Qing (Guangdong University of Foreign Studies), Mai Weikun (Guangdong University of Foreign Studies), and Zhang Fan (Guangdong University of Foreign Studies)

Research and Analysis on Intellectual Property Rights of Frame Free Motor Technology ..179
Liu Bin (National University of Defense Technology), Ma Guang (Aerospace Wanyuan Industrial Co., Ltd.), and Zheng Jigui (Beijing Institute of Precise Mechatronics and Controls)

Research on Error Correction of State Data Transmission System of Moving Carrier Based on Beidou Short Message ..184
Zhuangzhi Han (Army Engineering University), Mengtao Liang (Shijiazhuang Tiedao University), Yuzhu Wu (Shijiazhuang Tiedao University), Yuehong Ma (Shijiazhuang Tiedao University), and Xiaomin Li (Shijiazhuang Tiedao University)

Research on the Application of Curriculum Knowledge Point Recommendation Algorithm Based on Learning Diagnosis Model ..188
Baiqiang Gan (Guangzhou Nanyang Polytechnic) and Chi Zhang (Sun Yat-sen University)

Analysis of the Development Trend of Water Supply in Chinese Civil Catering Building ..193
Xu Zhang (China Aviation International Construction and Investment Co., Ltd), Dashuai Li (China Aviation International Construction and Investment Co., Ltd), and Jieru Chen (China Aviation International Construction and Investment Co., Ltd)

The Research of Parallel Wavelet Transform Algorithms on Remote Sensing Image ..197
Shengzhong Zhang (China University of Geosciences (Beijing))

The Conversion of the Production Mode of Film Green Screen Visual Effects in the Setting of 5G Technology ..203
Chen Hongyi (Shanghai University) and Luo Yeyun (Shanghai University)

An Emergency Communication Vehicle Antenna System Based on Static Communication Antenna and Base Station Antenna ..207
Li Yuxin (Beijing Jiaotong University)

Emotional Response Increments Induced by Equivalent Enhancement of Different Valence Films ..213
Feng Tian (Shanghai University), Xiaofei Hou (Shanghai University), and Minlei Hua (Shanghai University)

Energy Saving Ability for LED Ring Alignments with Optimized LED SAHPs in Dimming Visible Light Communications ..219
Fang Li (Shanghai Technical Institute of Electronics & Information), Guosheng Hu (Shanghai Technical Institute of Electronics & Information), Xiaojun Li (Shanghai Technical Institute of Electronics & Information), Yuehong Zhang (Shanghai Technical Institute of Electronics & Information), Jia Xiao (Shanghai Technical Institute of Electronics & Information), Yulian Yu (Shanghai Technical Institute of Electronics & Information), and Qiaoting Zhou (Shanghai Technical Institute of Electronics & Informaion)

Research on the Construction of Tourism English Autonomous Learning Resources under the Network Environment ..225
Xu Wenyu (Sichuan Vocational and Technical College)

Research on the Expression of Photography Language under Digital Technology ..228
Zhang Yanhua (Shandong Xiehe University) and Lin Jiaogang (Shandong Xiehe University)

Research and Design of College Educational Resource Sharing Information System in Military Civilian Integration Based on .NET Platform 231
Chao Xie (Wuhan Donghu University) and Yulin Luo (Wuhan Donghu University)

Research on the Management Mode of Information Laboratory 236
Zhiling Ma (South Subtropical Crops Research Institute), Lizhu Tang (Yunnan Agricultural University), Xinming Tang (South Subtropical Crops Research Institute), and Changbin Wei (Key Laboratory of Ministry of Agriculture for Tropical Fruit Biology)

Radar Sensors in Automatic Driving Cars 239
Liu Zhaohua (Harbin Engineering University) and Gao Bochao (Harbin Engineering University)

Boost Converter Based on Incremental Sliding-Mode Control 243
Xianbao Lan (Wuhan University of Technology), Jing Chen (Wuhan University of Technology), and Chun Xiao (Wuhan University of Technology)

Design and Implementation of Virtual Reality Video Incentive and Management Software 247
Feng Tian (Shanghai University), Minlei Hua (Shanghai University), Haojun Xu (Shanghai University), and Yingjie Li (Shanghai University)

Simulation and Analysis of Piezoelectric Actuator under Weft Insertion 251
Wei Debin (Xi'an Polytechnic University), Ma Xunming (Xi'an Polytechnic University), and Liu Weihang (Xi'an Polytechnic University)

Integrated Monitoring System of Intelligent Warehouse Based on Wireless Sensor Network 256
Wang Xi-Kun (Shandong Jiaotong University), Yang Jing (Shandong Jiaotong University), Wang Yi-Xin (Shandong Jiaotong University), and Zhang Xiao-Han (Shandong Jiaotong University)

Research on the Method of Measuring Energy Utilization Efficiency for Quayside Container Crane Based on Load State Level 259
Feng ShuangChang (Shanghai Institute of Special Equipment Inspection and Technical Research), Qiu Jun (Shanghai Institute of Special Equipment Inspection and Technical Research), and Xue JiAi (Shanghai Institute of Special Equipment Inspection and Technical Research)

Modeling of Laneway Environment and Locating Method of Roadheader Based on Self-Coupling and Hector SLAM 263
Jianjian Yang (China University of Mining & Technology (Beijing)), Chao Wang (China University of Mining & Technology (Beijing)), Qiang Zhang (China University of Mining & Technology (Beijing)), Boshen Chang (China University of Mining & Technology (Beijing)), Fan Wang (China University of Mining & Technology (Beijing)), Xiaolin Wang (China University of Mining & Technology (Beijing)), and Miao Wu (China University of Mining & Technology (Beijing))

Research on Grounding Grid Conductor Positioning Based on PCB Coil Magnetic Field Sensor 269
Chen Chao (State Grid Pinghu Power Supply Company), Wu Di (State Grid Pinghu Power Supply Company), Pan Bailang (Pinghu General Electric Installation Company), Xu Ke (State Grid Pinghu Power Supply Company), Han Shen (Chongqing University), and Hu Jiayuan (State Grid Zhejiang Electric Power Corporation Research Institute)

Study of 2CLIF Based on Simultaneous Measurement of Temperature and Concentration Using Single Color-Camera 276
Jiaying Ren (China Institute of Water Resources and Hydropower Research), Luhai Wang (China Institute of Water Resources and Hydropower Research), Zhenli Huang (China Institute of Water Resources and Hydropower Research), Xiaogang Wang (China Institute of Water Resources and Hydropower Research), Haiying Li (China Institute of Water Resources and Hydropower Research), and Jia Lu (China Institute of Water Resources and Hydropower Research)

The Design of Attack-Defense Training Environments Based on Virtualization 283
Zhang Yuehong (Shanghai Technical Institute of Electronics & Information)

Control Theory and Application

Design and Application of Automatic Generation Control System with Wind Power 291
Yanfang Zhu (State Grid Shanxi Electric Power Company), Tao Pang (NARI-TECH Nanjing Control Systems Co., Ltd.), Changhai Yu (NARI-TECH Nanjing Control Systems Co., Ltd.), Xiuli Zhang (State Grid Shanxi Electric Power Company), Aimei Liu (NARI-TECH Nanjing Control Systems Co., Ltd.), and Lei Yan (State Grid Shanxi Electric Power Company)

Optimization of Train ATO System Based on RBF Neural Network PID Control 297
Wei Wanpeng (Lanzhou Jiaotong University) and Dong Yu (Lanzhou Jiaotong University)

Design of Ultrasonic Intelligent Security System Based on Fuzzy Control 301
Fu Qi-ye (Guangdong Aib Polytechnic College), Liu Wei (Guangdong Aib Polytechnic College), and Li Wei-yong (Guangdong University of Technology)

The Application of Artificial Intelligence Technology in the Fault Diagnosis of Floating Wind Turbine Generator 305
Han Hui (Dalian Maritime University), Liu Xiu-wen (Dalian Maritime University), and Bian Jing-yu (Dalian Maritime University)

Remaining Life Evaluation for LY12CZ Based on Non-Linear Continuum Fatigue Damage Model 308
Hua Liang (Nanjing Institute of Railway Technology)

A Leaf Type Recognition Algorithm Based on SVM Optimized by Improved Grid Search Method 312
Zelong Wang (Wuhan University of Technology), Yifeng Jiang (Wuhan University of Technology), and Xinlei Hu (Wuhan University of Technology)

BP Neural Network Forecast of Flight "Estimated Final Arrival Time" Based on Levenberg-Marquardt Algorithm Optimization 317
Xiaohan Zhou (Dalian Maritime University), Tao Chen (Dalian Maritime University), and Tianyu Qiu (Dalian Maritime University)

Parameters Sensitivity Analysis of Predictive Current Control of Permanent Magnet Synchronous Motor Based on Extended State Observer 321
Lu Li (Xi'an Technological University), Yuan Liu (Northwestern Polytechnical University), and Ze-Hua Li (Changqing Oilfield Branch of China National Petroleum Corporation)

Design of the Vehicle for Air-Conditioning and Electricity Support for the Tent-Type Lab System .326
Xiangdong Cui (Institute of Systems Engineering), Lingshuai Meng (Institute of Systems Engineering), Chen Su (China National Biological Protection Engineering Center), and Xiuguo Zhao (China National Biological Protection Engineering Center)

DC-SQUID Optimum Operating Point Automatic Searching Algorithm Based on Extended Kalman Filter .330
Yaozhong Yan (Beijing Institute of Technology), Qingbo Geng (Beijing Institute of Technology), Jianying Liu (Chinese Academy of Sciences), and Yanchao Qiao (Chinese Academy of Sciences)

Image Edge Detection Algorithm Based on Adjacent Scale Product Coefficient .334
Jingjing Feng (Xi'an Peihua University) and Xiang Yu (Xi'an Peihua University)

Structure Detection of an Assembled Old Box Modular Building .339
Feifei Hu (Beijing Jiaotong University), Yueliang Dong (Central Research Institute of Building and Construction Co.), Xijin Liu (Beijing Jiaotong University), and Siyang Chen (Beijing Jiaotong University)

Coordination Control of Path Tracking and Stability for 4WS Autonomous Vehicle .343
Haolun Wu (Shandong University of Science and Technology) and Yushan Li (Shandong University of Science and Technology)

Synchronous Control of Double Hydraulic Cylinders of Scissors Aerial Work Platform Based on Fuzzy PID .349
Ludi Zhang (Shandong University of Science and Technology) and Yushan Li (Shandong University of Science and Technology)

Automatic Deceleration Warning System Based on Automobile Dynamics for Tunnel Uphill .355
Momo Chen (Wuhan University of Technology) and Han Xie (Wuhan University of Technology)

Multi-Scale Downscaling with Bayesian Convolution Network for ENSO SST Pattern .359
Bin Mu (Tongji University), Bo Qin (Tongji University), and Shijin Yuan (Tongji University)

Research on Active Steering Control Strategy of Tractor-Trailer Combination Based on Co-Simulation .363
Zhang Yihua (University of Jinan), Cao Shukun (University of Jinan), and Deng Weiwei (China National Heavy Duty Truck Group Jinan Truck Corp., Ltd)

Optimization of Electronic Waste Recycling Network Designing .368
Bin Wang (Shanghai Polytechnic University) and Hehua Li (Shanghai Polytechnic University)

Research on Vehicle Four-Wheel Steering Based on Model-Free Adaptive Control .372
Junhui Wang (Guangxi University of Science and Technology), Guangxing Tan (Guangxi University of Science and Technology), and Caiming Sun (Guangxi University of Science and Technology)

Research on Sea-Rail Intermodal Port Capacity Optimization Based on Connection Delay .377
Qi Zhang (Beijing Jiaotong University) and Qi Li (Beijing Jiaotong University)

A Review of Object Detection Techniques 385
Kunyi Li (Central South University) and Lu Cao (Peking University)

System-of-Systems Design Optimization Based on Coevolutionary Game 391
Guo-Qing Ye (Qingdao Campus Naval Aviation University) and Bing-Feng Ge (National University of Defense Technology)

Research on PMSM Vector Control of Fuel Cell Vehicle Based on Fuzzy PID 399
Zhengyang Guo (Wuhan University of Technology), Jing Chen (Foshan Xianhu Laboratory of the Advanced Energy Science and Technology Guangdong Laboratory), and Chun Xiao (Wuhan University of Technology)

Research on Automatic Bait Casting System for Crab Farming 403
Shuo Cao (Jiangsu University), Zuxu Chen (Jiangsu University), Yueping Sun (Jiangsu University), Dean Zhao (Jiangsu University), Jianqing Hong (Jiangsu University), and Chengzhi Ruan (Wuyi University)

Research on Environmental Feature Recognition Algorithm of Emergency Braking System for Autonomous Vehicles 409
Jintang Zheng (Guangzhou Huashang Vocational College), Minghua Zheng (Guangzhou Huashang Vocational College), Canlin Chen (Guangzhou Huashang Vocational College), and Meng Yu (SAIC Motor Corporation Limited)

Potential Consumers' Confusion on the Taxonomy of Autonommous Vehicles 418
Shuya Zong (The Hong Kong Polytechnic University) and Kaiyan Zhang (Tianjin University)

Research Progress on Efficiency Optimization of Membrane Distillation Technology 422
Da-Gang Nie (Gold China Science and Technology Enterprise Development Co.), Yu Hong (Gold China Science and Technology Enterprise Development Co.), and Xin-Wang Yin (Gold China Science and Technology Enterprise Development Co.)

Design of ARINC664 bus Network Test System Based on WinPCap 427
He Jinsong (Shanghai Technical Institute of Electronics & Information), Zhang Yuehong (Shanghai Technical Institute of Electronics & Information), and Hu Guosheng (Shanghai Technical Institute of Electronics & Information)

Design of Mixed Teaching Mode in Cloud Class Based on Computer 432
Fang Peng (Changjiang Professional College)

Traffic and Transportation

Research on Information Management Platform of Automobile Teaching Equipment Based on Blockchain 436
XiTong Zhang (Tianjin University of Technology and Education)

Fire Protection Design of Super High-Rise Elevated Heliport 440
Li DaShuai (China Aviation Planning and Design Institute (Group) Co., Ltd) and Zhang Xu (China Aviation Planning and Design Institute (Group) Co., Ltd)

Multi-Step Prediction of Traffic Flow Based on Wavelet Decomposition Correlation Matrix 444
Zhumei Wang (Beijing University of Technology), Liang Zhang (Shandong Agricultural University), and Zhiming Ding (Chinese Academy of Sciences)

Research on Wagon-Flow Allocation in Marshalling Station Considering the Delivery Time Frame 449
Zhang Xiao (Beijing Jiaotong University) and Wu Xu (Beijing Jiaotong University)

Economic Speed Planning for Commercial Vehicles on Highways 453
Xuesong Zheng (Wuhan University of Technology) and Hongxin Sun (Wuhan University of Technology)

Research on the Complete Design, Construction and Management of Urban Road in Dalian City under the Concept of "People-Oriented Traffic" 457
Huaiyuan Qi (Dalian Maritime University), Jiahe Shi (Dalian Maritime University), Jie Chen (Dalian Maritime University), Changkuan Chi (Dalian Maritime University), and Haiyan Shan (Dalian Maritime University)

Traffic Optimum Design of a T-Type Roundabout-A Case Study 461
Jiehao Sun (Henan Polytechnic University), Baohua Guo (Henan Polytechnic University), Huiying Song (Henan Polytechnic University), Shixuan Tian (Henan Polytechnic University), and Chongxuan Sun (Henan Polytechnic University)

Brief Analysis of Urban Passenger Transport Development in China 465
Shixuan Tian (Henan Polytechnic University), Baohua Guo (Henan Polytechnic University), Jiehao Sun (Henan Polytechnic University), and Chongxuan Sun (Henan Polytechnic University)

Traffic Safety Evaluation of Asphalt Pavement Based on Color Information 469
Wu Ya-Nan (Changan University), Han Yu-Zhao (Changan University), and Chen Zhe (Changan University)

Research on Structural Design of Long-Life Asphalt Pavement 474
Shuyu Duan (Shandong Jianzhu University)

Research on Service Quality Improvement of Chongqing Railway Station 478
Feifei Guan (Comprehensive Transportation Design Institute), Fan Zhang (Comprehensive Transportation Design Institute), and Xiao Li (Comprehensive Transportation Design Institute)

Study on High-Speed Railway Emergency Spare Locomotive Deployment Scheme 482
Meimei Zhang (Beijing Jiaotong University), Jinjin Tang (Beijing Jiaotong University), and Xuesong Zhou (Arizona State University)

An Improved Gravity Model for Passenger Flow Distribution Prediction of New Urban Rail Transit Lines 487
Yue Luan (Beijing Jiaotong University) and Jinjin Tang (Beijing Jiaotong University)

Risk of China-Europe Railway Transportation with Bayesian Network Model 492
Ling Gao (Fuzhou University)

Research on the Development of Rail Corrugation in Small Radius Curve of Metro 497
Xianxian Yin (Beijing Jiaotong University), Yidong Hu (Guangzhou Metro Groups Co. Ltd.), and Xiukun Wei (Beijing Jiaotong University)

Research on the Evaluation of Highway Planning Using Space Syntax .501
Qianyu Du (China Urban Construction Design & Research Institute Co.Ltd.), Jian Zhang (Third Highway Design Institute Shanxi Province Communications Planning Surveying and Designing Institute Co.Ltd.), and Qiong Wu (Third Highway Design Institute Shanxi Province Communications Planning Surveying and Designing Institute Co.Ltd.)

Research on Dynamic Taxi Ride-Sharing Price Model .505
Shun Xu (Lanzhou University of Technology), Changlong Yin (Lanzhou University of Technology), and Qirui Zhang (Lanzhou University of Technology)

Study on the Evaluation of Tourist Highway Network: A Case Study of Three District in Shanxi Province .510
Qianyu Du (China Urban Construction Design & Research Institute Co.Ltd.), Jian Zhang (Third Highway Design Institute Shanxi Province Communications Planning Surveying and Designing Institute Co.Ltd.), and Qiong Wu (Third Highway Design Institute Shanxi Province Communications Planning Surveying and Designing Institute Co.Ltd.)

The Strategy of Developing Sea-Rail Combined Transport in Trackless Container Ports .514
Qingqing Li (Beijing Jiaotong University) and Xiushan Jiang (Beijing Jiaotong University)

Passenger-Demands-Oriented Train Scheduling for a Bidirectional Urban Rail Transit Line .518
Jiawei Yuan (Beijing Jiaotong University)

Analysis of the Connectivity between Vehicular Platoon and Roadside Unit Based on the Moving Pattern .522
Zhiping Zhou (Guilin University of Electronic Technology Institute of Transport Engineering), Mingsha Li (Guilin University of Electronic Technology Institute of Transport Engineering), Jiasheng Kang (Guilin University of Electronic Technology Institute of Transport Engineering), and Jianbo Yang (Guilin University of Electronic Technology Institute of Transport Engineering)

Research on the Impact of Different Types of Opening Communities on Urban Road Capacity Based on Cell Automaton .526
Kun Gong (Nanjing University of Posts and Telecommunications), Chuancheng Song (Nanjing University of Posts and Telecommunications), and Yicheng Li (Nanjing University of Posts and Telecommunications)

Study on the Layout of Regional Railway Network in Chongqing Metropolitan Area .530
Zhang Fan (China Urban Construction Design & Research Institute Co. Ltd) and Guan Feifei (China Urban Construction Design & Research Institute Co. Ltd)

Study on the Equilibrium of the Operating Chart of High Speed Rail Trains .534
Chen Hui (Beijing Jiaotong University) and Wu Xu (Beijing Jiaotong University)

Mixed Traffic Flow Capacity of Urban Trunk Road Section .538
Ling Yu (Shenyang Jianzhu University), Weitong Shan (Shenyang Jianzhu University), Yitong Zhang (Shenyang Jianzhu University), and Pan Zhang (Shenyang Jianzhu University)

Analysis of Excitations Bears on a Railway Vehicle through Wheel/rail Contact .544
Lixin Zhang (CRRC Tangshan Co., Ltd.), Yunhai Yu (CRRC Tangshan Co., Ltd.), and Qi Wang (CRRC Tangshan Co., Ltd.)

Study on Traffic Planning of Small or Medium-Sized Cities: Taking Changzhi City as an Example .548
Guoling Lang (China Urban Construction Design & Research Institute Co. LTD), Kai Tian (China Urban Construction Design & Research Institute Co. LTD), Haiyang Leng (China Urban Construction Design & Research Institute Co. LTD), Xiao Li (China Urban Construction Design & Research Institute Co. LTD), and Yang Han (China Urban Construction Design & Research Institute Co. LTD)

Analysis and Research on Locomotive and Vehicle Dynamics Standards of the "the Belt and the Road" Countries along the Route .552
Hongjun Kang (CRRC Tangshan Co., Ltd) and Zhiqiang Si (CRRC Tangshan Co., Ltd)

Flight Delay Prediciton at an Airport Using Maching Learning .557
Bo Zhang (Beijing Jiaotong University) and Dandan Ma (Beijing Jiaotong University)

Influence of Different Proportions of CACC and ACC in the Traffic Flow .561
Li Tao (Harbin Institute of Technology), Liu Qinghe (Harbin Institute of Technology), Liu Haiwei (Harbin Institute of Technology), Qi Hao (Harbin Institute of Technology), and Wen Yao (Harbin Institute of Technology)

A Comparative Study on Demand Forecast of Car Sharing Users Based on ARIMA and LSTM .565
Yingqi Wang (Beijing Jiaotong University) and Xue Mi (Jiaotong University)

Research on Identification Method of Key Road Sections in the Road Network under Disaster Situation .575
Xin Li (Ministry of Transport, RIOH) and Xingwang Liu (Ministry of Transport, RIOH)

Construction of Urban Intelligent Traffic Sharing Information Platform Based on GIS .579
Chunling Ding (Anhui Xinhua University), Yan Chen (Anhui Xinhua University), and YunFeng Chen (Anhui Branch China Telecom Co., Ltd)

Forecast of Urban Rail Transit Passenger Flow in Holidays Based on Support Vector Machine Model .585
Gaoxiang Zhou (Beijing Jiaotong University) and Jinjin Tang (Beijing Jiaotong University)

FlightGear-Based Marine Helicopter Hanging Basket Rescue Training Simulation System .590
Zhou Xiangxin (Dalian Maritime University) and Xiuwen Liu (Dalian Maritime University)

Statistics and Analysis of Main Parameters of Ocean Fishing Vessels in China .594
Hu Bin (Dalian Maritime University), Liu Xiuwen (Dalian Maritime University), and Ren Yuqing (Dalian Ocean University)

Reliability Analysis of the Third Rail System Based on Fault Tree .599
Hongfei Meng (Beijing Jiaotong University), Xiukun Wei (Beijing Jiaotong University), Xuejian Kang (Guangzhou Metro Group Co., Ltd), and Yabin Yan (Guangzhou Metro Group Co., Ltd)

Analysis of Cross-Border Supply Chain Network System .603
Chenyi Yan (Beijing Jiaotong University), Xifu Wang (Beijing Jiaotong University), Yixin Zhang (Beijing Jiaotong University), and Qingyan Ding (Shandong Computer Science Center National Supercomputing Center in Jinan)

Airport Taxi Management and Decision Making Model Based on Game Theory .607
Xin Xiaohai (Shandong Normal University)

Quality Control in Construction Process of Highway Mechanical and Electrical System .611
Zhu Liwei (Research Institute of Highway Ministry of Transport), Tan Yiming (Research Institute of Highway Ministry of Transport), and Tang Junjun (Research Institute of Highway Ministry of Transport)

Research on Calculation Method of Two-Dimensiona Dual-Limit Speed Safety Protection Curve for High Speed Maglev .615
Jiakun Wen (Beijing Jiaotong University), Lianchuan Ma (Beijing Jiaotong University), Kaicheng Li (Beijing Jiaotong University), Qiang Fu (Beijing Jiaotong University), and Lei Yuan (Beijing Jiaotong University)

Research on the Industrial Development of Intelligent Transportation System in China .622
Lirui Dong (Beijing Jiaotong University)

Research on Coordinated Processing Scheme of Intelligent Transportation under Big Data Structure .628
Fang Wan (Anhui Communications Vocational & Technical College) and Ming Li (Transportation Network Operation Center of Anhui Province)

Optimization of Delay Time of Freight Trains Based on Coordinated Wagon-Flow Allocation Operation between Technical Station .632
Yang Yijing (Beijing Jiaotong University) and Wu Xu (Beijing Jiaotong University)

Author Index 637
