Volume 11527

Proceedings of SPIE 0277-786X, V. 11527

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Space, Satellites, and Sustainability*, edited by Murray Collins, Callum J. Norrie, Kristina Tamane, Proceedings of SPIE Vol. 11527 (SPIE, Bellingham, WA, 2020) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

OPPORTUNITIES AND CHALLENGES

- 11527 07 **Remote sensing and food security: monitoring agriculture, ecosystems, hydrology, food environments, and health outcomes (Invited Paper)** [11527-1]
- 11527 08 **Satellite Earth observation of socioeconomic conditions for improved poverty reporting** [11527-2]
- 11527 0A **Bulawayo Operational Observatory and mapping in response to COVID-19 social distancing requirements** [11527-4]

SOLUTIONS AT SCALE

- 11527 0C **Satellite observations in support of the Copernicus Climate Change Service (Invited Paper)** [11527-5]
- 11527 0D **Satellite-derived habitat mapping in Abu Dhabi Emirate: considerations for current and future studies** [11527-6]
- 11527 0E **Comparison of the calculation of the biomass index based on multispectral photogrammetric methods, optical methods, and SAR products** [11527-7]
