Volume 11534

Proceedings of SPIE 0277-786X, V. 11534

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Earth Resources and Environmental Remote Sensing/GIS Applications XI*, edited by Karsten Schulz, Ulrich Michel, Konstantinos G. Nikolakopoulos, Proceedings of SPIE Vol. 11534 (SPIE, Bellingham, WA, 2020) Seven-digit Article CID Number.

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

PROCESSING METHODOLOGIES

- 11534 05 **Semi-automated tree-cadastre updating and tree classification based on high-resolution aerial RGB-imagery in Melville, Australia** [11534-2]
- 11534 06 **Sub-pixel matching data of environmental remote sensing in the monitoring of natural resources** [11534-3]
- 11534 08 **Thematic spectral library for remote sensing monitoring of land covers in local scale** [11534-5]

ENVIRONMENTAL MONITORING CONCEPTS I

- 11534 0B **GIS-based analysis and accuracy assessment of low-resolution satellite imagery for coastline monitoring** [11534-8]
- 11534 0C **Living Wales: automatic and routine environmental monitoring using multi-source Earth observation data** [11534-9]

ENVIRONMENTAL MONITORING CONCEPTS II

- 11534 0E **Remote sensing detection of plastic waste: recent improvements and remaining challenges** [11534-11]
- 11534 0F **Remote sensing and GIS approach for environmental green areas planning using Landsat imagery, Dubai-UAE** [11534-12]

INFRASTRUCTURES AND URBAN AREAS

- 11534 0H **Improving emergency response during hurricane season using computer vision** [11534-14]
- 11534 0J **Differential estimation of temperature changes in landfills through the use of satellite data** [11534-16]
- 11534 0K **Health monitoring approach for transport infrastructure and bridges by satellite remote sensing Persistent Scatterer Interferometry (PSI)** [11534-17]
- 11534 0L **How to set up a dam monitoring system with PSInSAR and GPS** [11534-18]

HAZARD MITIGATION GEOLOGIC APPLICATIONS I

- 11534 OM **Reflectance spectroscopy to validate remote sensing data/algorithms for satellite-based lithium (Li) exploration (Central East Portugal)** [11534-19]
- 11534 ON **Characterization of lithium (Li) minerals from the Fregeneda-Almendra region through laboratory spectral measurements: a comparative study** [11534-20]
- 11534 OO **Monitoring of soil movement in a self-burning coal waste pile with UAV imagery** [11534-21]
- 11534 OP **A spatial time series forecasting for mapping the risk of COVID-19 pandemic over Bandung metropolitan area, West Java, Indonesia** [11534-22]

HAZARD MITIGATION GEOLOGIC APPLICATIONS II

- 11534 OR **Assessment of freely available DSMs for landslide-rockfall studies** [11534-24]
- 11534 OS **Integrative use of GNSS and InSAR data: a case study of landslide on the Thracian rocks coastal slope** [11534-25]
- 11534 OT **Landslide mapping and volume estimation using UAV-based point clouds, GIS and geophysical techniques** [11534-26]
- 11534 OU **Estimation of landslide risk map considering landslide vulnerability: case of Algerian Western coasts** [11534-27]

REMOTE SENSING FOR ARCHAEOLOGY, AND PRESERVATION OF CULTURAL AND NATURAL HERITAGE

- 11534 OX **Monitoring of a cultural heritage site by Sentinel-2 images and change-detection analysis** [11534-30]
- 11534 OY **The documentation of ecclesiastical cultural heritage sites in Cyprus** [11534-31]
- 11534 OZ **Integration of terrestrial laser scanning and UAV-SFM technique to generate a detailed 3D textured model of a heritage building** [11534-32]
- 11534 IO **The contribution of the EXCELSIOR Project for cultural heritage** [11534-33]

POSTER SESSION

- 11534 I1 **Relationship between the land surface temperature and the vegetation proportion to identify heat islands: case study of Brasília (Brazil)** [11534-34]

- 11534 12 **A possible teleconnection mechanism of initiation of *Emiliana huxleyi* outbursts in the Bering Sea in 1998-2001 and 2018-2019** [11534-35]
- 11534 13 **Efficiency in transmitting information through chaotic signals** [11534-36]
- 11534 14 **Dynamic of coniferous forests areas in Baikal region by classification of Landsat time series** [11534-37]
- 11534 15 **Evaluation of the didactic potential of geographical information contents considering Spatial Thinking Ability Test (STAT)** [11534-38]
- 11534 16 **Exploring the importance for promoting Earth observation in education** [11534-39]
- 11534 17 **Ikonos satellite imagery for NDVI related assessment applied to land clearance studies** [11534-42]
