Volume 11537

Proceedings of SPIE 0277-786X, V. 11537

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Electro-Optical and Infrared Systems: Technology and Applications XVII*, edited by Duncan L. Hickman, Helge Bürsing, Proceedings of SPIE Vol. 11537 (SPIE, Bellingham, WA, 2020) Seven-digit Article CID Number.

Publication of record for individual papers is online in the SPIE Digital Library.

SPIE. DIGITAL LIBRARY

SPIDigitalLibrary.org

Paper Numbering: *Proceedings of SPIE* follow an e-First publication model. A unique citation identifier (CID) number is assigned to each article at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

SENSOR TECHNOLOGY AND DEVICES

- 11537 04 **Scalable nanotube-microbolometer technology with pixel pitches from 12 down to 6 μm**
[11537-3]

SYSTEMS AND APPLICATIONS

- 11537 06 **Assessment of new camouflage prototypes deployed in semi-desertic environments using hyperspectral polarimetric imaging sensors (Invited Paper)** [11537-5]
- 11537 07 **Compact static Fourier transform spectrometer for time-resolved mid-infrared spectroscopy**
[11537-6]

MODELLING AND SIMULATION

- 11537 0A **Atmospheric dispersion in oblique imaging from an airborne platform** [11537-9]
- 11537 0B **Improved modulation transfer function evaluation method of a camera at any field point with a scanning tilted knife edge** [11537-10]
- 11537 0C **Multi-level fractal test target: corner-point criterion for evaluating visible and digital fusion imagers** [11537-11]
- 11537 0D **Performance estimation of a real-time rosette imager** [11537-12]

PROCESSING AND ANALYSIS I

- 11537 0E **Assessing handheld object ID performance of digital night vision VNIR/LWIR fusion (Invited Paper)** [11537-13]
- 11537 0G **An efficient low-cost calibration board for long-wave infrared (LWIR) camera** [11537-15]
- 11537 0H **Colour fusion of RGB and NIR imagery for surveillance applications** [11537-16]

FUTURE EOIR FOR DEFENCE

- 11537 0J **Development of III-V barrier diode radiation-hard infrared detectors for space applications**
[11537-18]

- 11537 OK **Coherence imaging for laser detection** [11537-19]
- 11537 OL **All-optical modulator for gated range finding and active imaging in LWIR** [11537-20]
- 11537 OM **High Pixel Acquisition Rate (HiPAR) lidar** [11537-21]

POSTER SESSION

- 11537 OQ **Preliminary analysis of shooting training systems: SPARTAN** [11537-25]
- 11537 OR **Tolerance analysis of wide field of view confocal off-axis telescope system using freeform mirrors for common optics MWIR/LWIR sensors onboard UAVs: linear astigmatism free three mirror system D70F1.4** [11537-26]
- 11537 OT **Methods of distinction of an object observed by thermal imager** [11537-28]
