# 2020 International Conference on Data Mining Workshops (ICDMW) ICDMW 2020

## Table of Contents

Message from the ICDM 2020 General Chairs .....	xxi
Message of the Program Co-Chairs .....	xxii
Message from the IEEE ICDM Workshops Chairs .....	xxiv
Organizing Committee .....	xxv
The IEEE ICDM 2020 Workshops .....	xxvi
<i>Giuseppe Di Fatta (University of Reading), Victor Sheng (Texas Tech University), and Alfredo Cuzzocrea (University of Calabria)</i>	

## Sentiment Elicitation from Natural Text for Information Retrieval and Extraction (SENTIRE)

Sentiment is an Attitude not a Feeling .....	1
<i>Nasser Alsadhan (King Saud University) and David Skillicorn (Queen's University)</i>	
One Belt, One Road, One Sentiment? A Hybrid Approach to Gauging Public Opinions on the New Silk Road Initiative .....	7
<i>Jonathan Kevin Chandra (Nanyang Technological University), Erik Cambria (Nanyang Technological University), and Andrea Nanetti (Nanyang Technological University)</i>	
COAL: Convolutional Online Adaptation Learning for Opinion Mining .....	15
<i>Iti Chaturvedi (James Cook University), Edoardo Ragusa (University of Genoa), Paolo Gastaldo (University of Genoa), and Erik Cambria (Nanyang Technological University)</i>	
Helping Users Discover Perspectives: Enhancing Opinion Mining with Joint Topic Models .....	23
<i>Tim Draws (TU Delft), Jody Liu (TU Delft), and Nava Tintarev (TU Delft)</i>	

MEET: A Method for Embeddings Evaluation for Taxonomic Data .....	31
<i>Lorenzo Malandri (Dept. of Statistics and Quantitative Methods, University of Milan-Bicocca, Milan, Italy), Fabio Mercorio (Dept. of Statistics and Quantitative Methods, University of Milan-Bicocca, Milan, Italy), Mario Mezzanzanica (Dept. of Statistics and Quantitative Methods, University of Milan-Bicocca, Milan, Italy), and Navid Nobani (Dept. of Informatics, Systems &amp; Communication, University of Milan-Bicocca, Milan, Italy)</i>	
Textual Lyrics Based Emotion Analysis of Bengali Songs .....	39
<i>Devjyoti Nath (Information Technology Bengal Institute of Technology, Kolkata, India), Anirban Roy (Information Technology Bengal Institute of Technology, Kolkata, India), Shanta Phani (Bengal Institute of Technology, Kolkata), Amlan Ghorai (Information Technology Bengal Institute of Technology, Kolkata, India), and Shanta Phani (Computer Science and Engineering Bengal Institute of Technology, Kolkata, India)</i>	
Understanding the Personality of Contributors to Information Cascades in Social Media in Response to the COVID-19 Pandemic .....	45
<i>Diana Nurbakova (CNRS INSA Lyon - University of Lyon), Liana Ermakova (Université de Bretagne Occidentale), and Irina Ovchinnikova (Sechenov First Moscow State Medical University)</i>	
Application of NLP to Determine the State of Issues in Bug Tracking Systems .....	53
<i>Matthias Pohl (Very Large Business Applications Lab, Otto von Guericke University, Magdeburg, Germany), Ali Hashaam (InitOS GmbH, Magdeburg, Germany), Sascha Bosse (Very Large Business Applications Lab, Otto von Guericke University, Magdeburg, Germany), Daniel Gunnar Staegemann (Otto von Guericke University, Magdeburg, Germany), Matthias Volk (Otto von Guericke University, Magdeburg, Germany), Frederik Kramer (InitOS GmbH, Magdeburg, Germany), and Klaus Turowski (Otto von Guericke University, Magdeburg, Germany)</i>	
WhoSNext: Recommending Twitter Users to Follow Using a Spreading Activation Network Based Approach .....	62
<i>Marco Siino (Università degli Studi di Palermo), Marco La Cascia (Università degli Studi di Palermo), and Ilenia Tinnirello (Università degli Studi di Palermo)</i>	
Integration of Fuzzy and Deep Learning in Three-Way Decisions .....	71
<i>L.D.C.S. Subhashini (Queensland University of Technology, Australia), Yuefeng Li (Queensland University of Technology), Jinglan Zhang (Queensland University of Technology), and Ajantha S. Atukorale (University of Colombo, Sri Lanka)</i>	

## **IEEE International Workshop on Data Mining for Service (DMS2020)**

CAMTA: Causal Attention Model for Multi-touch Attribution .....	79
<i>Sachin Kumar (Indian Institute of Technology Kharagpur), Garima Gupta (TCS Research &amp; Innovation, Delhi), Ranjitha Prasad (IIIT-Delhi), Arnab Chatterjee (TCS Research &amp; Innovation), Lovekesh Vig (TCS Research &amp; Innovation), and Gautam Shroff (TCS Research &amp; Innovation)</i>	

Deal Closure Prediction Based on User's Browsing Behaviour of Sales Content .....	87
<i>Diana Nurbakova (Tilkee SAS) and Timothée Saumet (Tilkee SAS)</i>	
An Experimental Evaluation of Data Classification Models for Credibility Based Fake News Detection .....	93
<i>Amit Neil Ramkissoon (The University of the West Indies, St Augustine) and Shareeda Mohammed (The University of the West Indies, St Augustine)</i>	
Synthetic Data by Principal Component Analysis .....	101
<i>Natsuki Sano (Tokyo University of Information Sciences)</i>	
Gaussian Process Bandits for Online Influence Maximization .....	106
<i>Wenwen Xia (Shanghai Jiao Tong University), Fangqi Li (Shanghai Jiao Tong University), and Shenghong Li (Shanghai Jiao Tong University)</i>	
How Shoppers Walk and Shop in a Supermarket .....	114
<i>Katsutoshi Yada (Kansai University), Ken Ishibashi (University of Hyogo), Taku Ohashi (Kansai University), Danhua Wang (Kansai University), and Shusaku Tsumoto (Shimane University)</i>	

## ICDM NeuRec Workshop 2020

A Hierarchical Knowledge and Interest Propagation Network for Recommender Systems .....	119
<i>Qinghong Chen (School of Software, Beihang University), Huobin Tan (School of Software, Beihang University), Guangyan Lin (School of Software, Beihang University), and Ze Wang (School of Software, Beihang University)</i>	
Scenario-Aware and Mutual-Based Approach for Multi-scenario Recommendation in E-Commerce .....	127
<i>Yuting Chen (Zhejiang University), Yanshi Wang (Alibaba Group), Yabo Ni (Alibaba Group), An-Xiang Zeng (Alibaba Group), and Lanfen Lin (Zhejiang University)</i>	
HybridGNN-SR: Combining Unsupervised and Supervised Graph Learning for Session-Based Recommendation .....	136
<i>Kai Deng (Guizhou University, Guiyang, China), Jiabin Huang (Beijing University of Technology), and Jin Qin (Guizhou University)</i>	
Revenue Maximization using Multitask Learning for Promotion Recommendation .....	144
<i>Venkataramana Kini (Target Corporation) and Ashwin Manjunatha (Target Corporation)</i>	
Attentive-Feature Transfer Based on Mapping for Cross-Domain Recommendation .....	151
<i>Zhen Liu (Beijing Jiaotong University), Jingyu Tian (Beijing Jiaotong University), Lingxi Zhao (State Information Center), and Yanlin Zhang (Beijing Jiaotong University)</i>	

A Recommender Algorithm: Gradient Recurrent Neural Network Applied to Yang-Baxter-Like Equation .....	159
<i>Ying Liufu (School of Information Science and Engineering, Lanzhou University, Lanzhou, China), Long Jin (School of Information Science and Engineering, Lanzhou University, Lanzhou, China), Shuai Li (School of Information Science and Engineering, Lanzhou University, Lanzhou, China), Mei Liu (School of Information Science and Engineering, Lanzhou University, Lanzhou, China), and Hongjun Yang (The State Key Laboratory of Management and Control for Complex System, Institute of Automation, Chinese Academy of Sciences, Beijing, China)</i>	
Attentive Autoencoders for Multifaceted Preference Learning in One-Class Collaborative Filtering .....	165
<i>Zheda Mai (University of Toronto), Ga Wu (Department of Mechanical &amp; Industrial Engineering, University of Toronto, Canada), Kai Luo (Department of Mechanical &amp; Industrial Engineering, University of Toronto, Canada), and Scott Sanner (Department of Mechanical &amp; Industrial Engineering, University of Toronto, Canada)</i>	
GCMCSR: A New Graph Convolution Matrix Complete Method with Side-Information Reconstruction .....	173
<i>Kun Niu (School of Computer Science (National Pilot Software Engineering School), Beijing University of Posts and Telecommunications), Yicong Yu (School of Computer Science (National Pilot Software Engineering School), Beijing University of Posts and Telecommunications), Xipeng Cao (School of Computer Science (National Pilot Software Engineering School), Beijing University of Posts and Telecommunications), and Chao Wang (School of Computer Science (National Pilot Software Engineering School), Beijing University of Posts and Telecommunications)</i>	
$\mu$ -cf2vec: Representation Learning for Personalized Algorithm Selection in Recommender Systems .....	181
<i>Tomas Sousa Pereira (University of Porto, Portugal), Tiago Cunha (Expedia Group, Switzerland), and Carlos Soares (University of Porto, Portugal)</i>	
MARS-Gym: A Gym Framework to Model, Train, and Evaluate Recommender Systems for Marketplaces .....	189
<i>Marlesson R. O. Santana (Deep Learning Brazil), Luckeciano C. Melo (Deep Learning Brazil), Fernando H. F. Camargo (Deep Learning Brazil), Bruno Brandão (Deep Learning Brazil), Anderson Soares (Deep Learning Brazil), Renan M. Oliveira (iFood Research), and Sandor Caetano (iFood Research)</i>	
Enhancing Multi-factor Friend Recommendation in Location-Based Social Networks .....	198
<i>Bassem Samir (Cairo University) and Neamat El-Tazi (Cairo University)</i>	
Efficient Distributed MST Based Clustering for Recommender Systems .....	206
<i>Ahmad Shahzad (University of Liverpool, U.K.) and Frans Coenen (School of Electrical Engineering and Computer Science, University of Liverpool, U.K.)</i>	
Interactive Knowledge Graph Attention Network for Recommender Systems .....	211
<i>Li Yang (Tongji University), Shijia E (Tencent), Shiyao Xu (Tongji University), and Yang Xiang (Tongji University)</i>	

Cross-Session Aware Temporal Convolutional Network for Session Based Recommendation ..	220
<i>Rui Ye (Meituan), Qing Zhang (Meituan), and Hengliang Luo (Meituan)</i>	
Hybrid Learning with Teacher-Student Knowledge Distillation for Recommenders .....	227
<i>Hangbin Zhang (University of New South Wales), Raymond K. Wong (University of New South Wales), and Victor W. Chu (Nanyang Technological University)</i>	
DGTN: Dual-Channel Graph Transition Network for Session-Based Recommendation .....	236
<i>Yujia Zheng (University of Electronic Science and Technology of China), Siyi Liu (University of Electronic Science and Technology of China), Zekun Li (School of Cyber Security, University of Chinese Academy of Sciences; Institute of Information Engineering, Chinese Academy of Sciences), and Shu Wu (School of Artificial Intelligence, University of Chinese Academy of Sciences; Institute of Automation and Artificial Intelligence Research, Chinese Academy of Sciences)</i>	

## Large-scale Industrial Time Series Analysis (LITSA 2020)

An Examination of the State-of-the-Art for Multivariate Time Series Classification .....	243
<i>Bhaskar Dhariyal (University College Dublin), Thach Le Nguyen (University College Dublin), Severin Gsponer (University College Dublin), and Georgiana Ifrim (University College Dublin)</i>	
Boosting Algorithms for Delivery Time Prediction in Transportation Logistics .....	251
<i>Jihed Khiari (Johannes Kepler University Linz, Altenberger Straße Linz) and Cristina Olaverri-Monreal (Johannes Kepler University Linz, Altenberger Straße Linz, Austria)</i>	
Uncertain Time Series Classification with Shapelet Transform .....	259
<i>Michael Franklin Mbouopda (University of Clermont Auvergne) and Engelbert Mephu Nguifo (University of Clermont Auvergne)</i>	
Temporally-Reweighted Dirichlet Process Mixture Anomaly Detector .....	267
<i>JunYong Tong (University of Waterloo) and Nick Torenvliet (University of Waterloo)</i>	
An Improved Wide-Kernel CNN for Classifying Multivariate Signals in Fault Diagnosis .....	275
<i>Jurgen van den Hoogen (Jheronimus Academy of Data Science), Stefan Bloemheuvel (Jheronimus Academy of Data Science), and Martin Atzmueller (Osnabrück University)</i>	

## The 8th ICDM Workshop on High Dimensional Data Mining (HDM'20)

Accelerated SGD for Tensor Decomposition of Sparse Count Data .....	284
<i>Huan He (Emory Univeristy), Yuanzhe Xi (Emory University), and Joyce C Ho (Emory University)</i>	

Individualized Context-Aware Tensor Factorization for Online Games Predictions .....	292
<i>Julie Jiang (Information Sciences Institute, University of Southern California, Marina del Rey, CA), Kristina Lerman (Information Sciences Institute, University of Southern California, Marina del Rey, CA), and Emilio Ferrara (Information Sciences Institute, University of Southern California, Marina del Rey, CA)</i>	
Towards an Internal Evaluation Measure for Arbitrarily Oriented Subspace Clustering .....	300
<i>Daniyal Kazempour (Ludwig-Maximilians-University Munich), Peer Kröger (Ludwig-Maximilians-University Munich), and Thomas Seidl (Ludwig-Maximilians-University Munich)</i>	
You see a set of Wagons - I see one Train: Towards a Unified view of Local and Global Arbitrarily Oriented Subspace Clusters .....	308
<i>Daniyal Kazempour (Ludwig-Maximilians-University Munich), Long Matthias Yan (Ludwig-Maximilians-University Munich), Peer Kröger (Ludwig-Maximilians-University Munich), and Thomas Seidl (Ludwig-Maximilians-University Munich)</i>	
I Fold you so! An Internal Evaluation Measure for Arbitrary Oriented Subspace Clustering .....	316
<i>Daniyal Kazempour (Ludwig-Maximilians-University Munich), Anna Beer (Ludwig-Maximilians-University Munich), Peer Kröger (Ludwig-Maximilians-University Munich), and Thomas Seidl (Ludwig-Maximilians-University Munich)</i>	
Efficient Distance-Based Global Sensitivity Analysis for Terrestrial Ecosystem Modeling .....	324
<i>Dan Lu (Oak Ridge National Laboratory) and Daniel Ricciuto (Environmental Sciences Division, Oak Ridge National Laboratory, Oak Ridge, TN, USA)</i>	

## **DDIF: Deep Data Intelligence for Finance 2020**

Exploring the Use of Data at Multiple Granularity Levels in Machine Learning-Based Stock Trading .....	333
<i>Jacopo Fior (Politecnico di Torino) and Luca Cagliero (Politecnico di Torino)</i>	
Stock Price Prediction by Using Hybrid Sequential Generative Adversarial Networks .....	341
<i>Bate He (Nagoya University) and Eisuke Kita (Graduate School of Informatics, Nagoya University, Nagoya, Japan)</i>	
Analysis of Multivariate Time Series Predictability Based on their Features .....	348
<i>Anton Kovantsev (ITMO University) and Peter Gladilin (ITMO University)</i>	
AttentionFM: Incorporating Attention Mechanism and Factorization Machine for Credit Scoring .....	356
<i>Ying Liu (School of Computer Science and Technology, University of Chinese Academy of Sciences), Wei Wang (School of Computer Science and Technology, University of Chinese Academy of Sciences), Tianlin Zhang (School of Computer Science and Technology, University of Chinese Academy of Sciences), and Zhenyu Cui (School of Computer Science and Technology, University of Chinese Academy of Sciences)</i>	
A Federated Learning Based Approach for Loan Defaults Prediction .....	362
<i>Geet Shingi (Pune Institute of Computer Technology)</i>	

A Short-Term Cryptocurrency Price Movement Prediction Using Centrality Measures .....	369
<i>Chang How Tan (Monash University), Vincent CS Lee (Monash University), and Mahsa Salehi (Monash University)</i>	
Nonlinear Tensor Completion Using Domain Knowledge: An Application in Analysts' Earnings Forecast .....	377
<i>Ajim Uddin (New Jersey Institute of Technology), Xinyuan Tao (New Jersey Institute of Technology), Chia-Ching Chou (Central Michigan University), and Dantong Yu (New Jersey Institute of Technology)</i>	
Wavelet Denoised-ResNet CNN and LightGBM Method to Predict Forex Rate of Change .....	385
<i>Yiqi Zhao (School of Computer Science, The University of Sydney, NSW Australia) and Matloob Khushi (School of Computer Science, The University of Sydney, NSW Australia)</i>	

## **ICDM Workshop on Continual Learning and Adaptation for Time Evolving Data (CLEATED 2020)**

An Unsupervised Methodology for Online Drift Detection in Multivariate Industrial Datasets...	392
<i>Sarah Klein (Data and AI Competence Lab (EluciDATA Lab), Sirris) and Mathias Verbeke (Data and AI Competence Lab (EluciDATA Lab), Sirris)</i>	
Learning Student Interest Trajectory for MOOC Thread Recommendation .....	400
<i>Shalini Pandey (University of Minnesota), Andrew Lan (University of Massachusetts Amherst, Amherst, MA), George Karypis (University of Minnesota, Twin Cities, Minnesota, USA), and Jaideep Srivastava (University of Minnesota, Twin Cities, Minnesota, USA)</i>	
TEDD: Robust Detection of Unstable Temporal Features .....	408
<i>Ricardo Pereira (DCC/FCUP University of Porto), Bruno Casal Laranã (Feedzai), Nádía Soares (Mindera), and Miguel Araújo (Feedzai)</i>	
Restructuring of Hoeffding Trees for Trapezoidal Data Streams .....	416
<i>Christian Schreckenberger (University of Mannheim), Tim Glockner (University of Mannheim), Heiner Stuckenschmidt (University of Mannheim), and Christian Bartelt (TU Clausthal)</i>	
MIR_MAD: An Efficient and On-Line Approach for Anomaly Detection in Dynamic Data Stream .....	424
<i>Chang How Tan (Monash University), Vincent CS Lee (Monash University), and Mahsa Salehi (Monash University)</i>	
LbR: A New Regression Architecture for Automated Feature Engineering .....	432
<i>Meng Wang (Tongji University), Zhijun Ding (The Department of Computer Science and Technology, Tongji University, Shanghai, China), and Meiqin Pan (School of Business and Management Shanghai International Studies University, Shanghai, China)</i>	
Pelican: Continual Adaptation for Phishing Detection .....	440
<i>Wernsen Wong (School of Computer Science, The University of Auckland, Auckland, New Zealand) and Gillian Dobbie (School of Computer Science, The University of Auckland, Auckland, New Zealand)</i>	

## DLC20: 2nd IEEE ICDM Workshop on Deep Learning and Clustering

Interpreting Deep Neural Networks through Prototype Factorization .....	448
<i>Subhajit Das (Georgia Institute of Technology), Panpan Xu (Bosch Research North America), Zeng Dai (Bosch Research North America), Alex Endert (Georgia Institute of Technology, Atlanta, GA, USA), and Liu Ren (Bosch Research North America)</i>	
FairMixRep : Self-Supervised Robust Representation Learning for Heterogeneous Data with Fairness Constraints .....	458
<i>Souradip Chakraborty (Walmart Labs), Ekansh Verma (Walmart Labs), Saswata Sahoo (Gartner), and Jyotishka Datta (University of Arkansas)</i>	
Deep Fuzzy Clustering with Weighted Intra-Class Variance and Extended Mutual Information Regularization .....	464
<i>Yunsheng Pang (The University of Melbourne, Australia), Feiyu Chen (Chongqing Normal University, China), Sheng Huang (Chongqing University, China), Yongxin Ge (Chongqing University, China), Wei Wang (Chongqing University, China), and Taiping Zhang (Chongqing University, China)</i>	

## 1st ICDM Workshop on Deep Learning for Cyber Threat Intelligence (DL-CTI)

A Deep Neural Network Approach to Tracing Paths in Cybersecurity Investigations .....	472
<i>Clinton Daniel (University of South Florida), Thomas Gill (University of South Florida), Alan R. Hevner (University of South Florida), and Matthew Mullarkey (University of South Florida)</i>	
Deep Contextualized Word Embedding for Text-Based Online User Profiling to Detect Social Bots on Twitter .....	480
<i>Maryam Heidari (George Mason University), James H Jr Jones (George Mason University), and Ozlem Uzuner (George Mason University)</i>	
Linking Personally Identifiable Information from the Dark Web to the Surface Web: A Deep Entity Resolution Approach .....	488
<i>Fangyu Lin (University of Arizona), Yizhi Liu (University of Arizona), Mohammadreza Ebrahimi (University of Arizona), Zara Ahmad-Post (University of Arizona), James Lee Hu (University of Arizona), Jingyu Xin (University of Arizona), Sagar Samtani (Indiana University), Weifeng Li (University of Georgia), and Hsinchun Chen (University of Arizona)</i>	
Using Deep Generative Models to Boost Forecasting: A Phishing Prediction Case Study .....	496
<i>Syed Hasan Amin Mahmood (Lahore University of Management Sciences) and Ahmed Abbasi (University of Notre Dame)</i>	
Getting Passive Aggressive About False Positives: Patching Deployed Malware Detectors .....	506
<i>Edward Raff (Booz Allen Hamilton), Bobby Filar (Elastic), and James Holt (Laboratory for Physical Sciences)</i>	
A Literature Review on Mining Cyberthreat Intelligence from Unstructured Texts .....	516
<i>Md Rayhanur Rahman (NC State University), Rezvan Mahdavi Hezaveh (NC State University), and Laurie Williams (NC State University)</i>	

## Deep Learning for Internet of Things (DL-IoT 2020)

Learning Latent Correlation of Heterogeneous Sensors Using Attention Based Temporal Convolutional Network .....	526
<i>Xin Wang (School of Software, Northwestern Polytechnical University), Yunji Liang (School of Computer Science, Northwestern Polytechnical University), Zhiwen Yu (School of Computer Science, Northwestern Polytechnical University), and Bin Guo (School of Computer Science, Northwestern Polytechnical University)</i>	
CrowdDepict: Know What and How to Generate Personalized and Logical Product Description using Crowd Intelligence .....	535
<i>Qiuyun Zhang (Northwestern Polytechnical University), Bin Guo (Northwestern Polytechnical University), Sicong Liu (Northwestern Polytechnical University), and Zhiwen Yu (Northwestern Polytechnical University)</i>	
Anomaly Detection of Periodic Multivariate Time Series Under High Acquisition Frequency Scene in IoT .....	543
<i>Shuo Zhang (Harbin Institute of Technology, China), XiaoFei Chen (Harbin Institute of Technology, China), JiaYuan Chen (Harbin Institute of Technology, China), Qiao Jiang (Harbin Institute of Technology, China), and Hejiao Huang (Harbin Institute of Technology, China)</i>	
A Two-Stream Network for Driving Hand Gesture Recognition .....	553
<i>Yefan Zhou (Anhui Province Key Laboratory of Multimodal Cognitive Computation, School of Computer Science and Technology, Anhui University, , China; Institute of Physical Science and Information Technology, Anhui University, , China), Zhao Lv (Anhui Province Key Laboratory of Multimodal Cognitive Computation, School of Computer Science and Technology, Anhui University, Hefei , China; Zhejiang Key Laboratory for Brain-Machine, Collaborative Intelligence, Hangzhou Dianzi University Hangzhou , China), Chaoqun Wang (Anhui Province Key Laboratory of Multimodal Cognitive Computation, School of Computer Science and Technology, Anhui University, Hefei , China; Institute of Physical Science and Information Technology Hefei , China), and Shengli Zhang (Anhui Zhiqu Cherub Information Technology Co., Ltd Suzhou, China)</i>	

## 1st International Workshop on Multi-Source Data Mining (MSDM)

Ensemble Node Embeddings using Tensor Decomposition: A Case-Study on DeepWalk .....	561
<i>Jia Chen (University of Texas Rio Grande Valley) and Evangelos Papalexakis (University of California Riverside)</i>	

Partially Shared Semi-Supervised Deep Matrix Factorization with Multi-view Data .....	564
<i>Haonan Huang (Guangdong Key Laboratory of IoT Information Technology, Guangdong University of Technology), Naiyao Liang (Key Laboratory of iDetection and Manufacturing-IoT, Ministry of Education, Guangzhou, China), Wei Yan (Guangdong Key Laboratory of IoT Information Technology, Guangdong University of Technology, Guangzhou, China), Zuyuan Yang (Guangdong Key Laboratory of IoT Information Technology, Guangdong University of Technology, Guangzhou, China), and Weijun Sun (Guangdong-Hong Kong-Macao Joint Laboratory for Smart Discrete Manufacturing, Guangzhou, China)</i>	
SYNC: A Copula Based Framework for Generating Synthetic Data from Aggregated Sources ...	571
<i>Zheng Li (Arima Inc., Canada), Yue Zhao (Carnegie Mellon University), and Jialin Fu (University of Toronto)</i>	
Deep Cooperative Reconstruction with Security Constraints in Multi-view Environments .....	579
<i>Denis Maurel (ISEP, France), Sylvain Lefebvre (Toyota Motor Corporation, Tokyo, Japan), and Jérémie Sublime (ISEP, France)</i>	
Mining Heterogeneous Data for Formulation Design .....	589
<i>Krati Saxena (Tata Consultancy Services Research), Ashwini Patil (Tata Consultancy Services Research), Sagar Sunkle (Tata Consultancy Services Research), and Vinay Kulkarni (Tata Consultancy Services Research)</i>	
Mining Heterogeneous Associations from Pediatric Cancer Data by Relational Concept Analysis .....	597
<i>Mickael Wajnberg (Université du Québec À Montréal), Petko Valtchev (Université du Québec À Montréal), Alexandre Blondin-Massé (Université du Québec À Montréal), Abderrahim Benmoussa (Université de Montréal, Centre de recherche CHU Sainte-Justine), Maja Krajinovic (CHU Sainte-Justine), Caroline Laverdière (CHU Sainte-Justine), Emile Levy (Université de Montréal, Centre de recherche CHU Sainte-Justine), Daniel Sinnott (Université de Montréal, Centre de recherche CHU Sainte-Justine), and Valérie Marcil (Université de Montréal, Centre de recherche CHU Sainte-Justine)</i>	
Towards a Flexible Embedding Learning Framework .....	605
<i>Chin-Chia Michael Yeh (Visa Research), Dhruv Gelda (Visa Research), Zhongfang Zhuang (Visa Research), Yan Zheng (Visa Research), Liang Gou (Visa Research), and Wei Zhang (Visa Research)</i>	

## **The 8th Workshop on Data Mining in Biomedical Informatics and Healthcare (DMBIH'20)**

Classification of Dementia Associated Disorders Using EEG Based Frequent Subgraph Technique .....	613
<i>Abdulyekeen Tunde Adebisi (School of Electronics and Electrical Engineering, Kyungpook National University, Daegu, Republic of Korea), Venkateswarlu Gonuguntla (Medical Science Research Institute, Samsung Medical Center, Seoul, Republic of Korea), Ho-Won Lee (Neurology and Neurosurgery Center, Kyungpook National University Hospital, Chilgok, Daegu, Republic of Korea), and Kalyana C. Veluvolu (School of Electronics and Electrical Engineering, Kyungpook national University, Daegu, Republic of Korea.)</i>	

Graph-Based Topic Extraction Using Centroid Distance of Phrase Embeddings on Healthy Aging Open-Ended Survey Questions .....	621
<i>Dijana Kosmajac (Dalhousie University), Kirstie Smith (Department of Community Health and Epidemiology, Dalhousie University), Vlado Keselj (Dalhousie University), and Susan Kirkland (Department of Community Health and Epidemiology, Dalhousie University)</i>	
Super Learning with Repeated Cross Validation .....	629
<i>Krzysztof Mnich (Computational Centre, University of Białystok), Aneta Polewko-Klim (Institute of Computer Science, University of Białystok), Agnieszka Kitlas Golińska (Institute of Computer Science, University of Białystok), Wojciech Lesiński (Institute of Computer Science, University of Białystok), and Witold R. Rudnicki (Computational Centre and Institute of Computer Science, University of Białystok)</i>	
Persistent Homology on Streaming Data .....	636
<i>Anindya Moitra (University of Cincinnati), Nicholas O. Malott (University of Cincinnati), and Philip A. Wilsey (University of Cincinnati)</i>	
Human-in-the-Loop Language-Agnostic Extraction of Medication Data from Highly Unstructured Electronic Health Records .....	644
<i>Frank Ruis (University of Twente), Shreyasi Pathak (University of Twente), Jeroen Geerdink (Hospital Group Twente), Johannes H. Hegeman (Hospital Group Twente), Christin Seifert (University of Twente), and Maurice van Keulen (University of Twente)</i>	
How Much Does It Hurt: A Deep Learning Framework for Chronic Pain Score Assessment .....	651
<i>Yun Zhao (University of California, Santa Barbara), Franklin Ly (Department of Mechanical Engineering, University of California, Santa Barbara, CA, USA), Qinghang Hong (Department of Computer Science, University of California, Santa Barbara, CA, USA), Zhuowei Cheng (Department of Computer Science, University of California, Santa Barbara, CA, USA), Tyler Santander (Department of Psychological &amp; Brain Sciences, University of California, Santa Barbara, CA, USA), Henry T. Yang (Department of Mechanical Engineering, University of California, Santa Barbara, CA, USA), Paul K. Hansma (Department of Physics, University of California, Santa Barbara, CA, USA), and Linda Petzold (Department of Computer Science, University of California, Santa Barbara, CA, USA)</i>	

### **3rd Utility-Driven Mining and Learning (UDML 2020)**

Insights from Urban Sensing Data: From Chaos to Predicted Congestion Patterns .....	661
<i>Minh-Son Dao (National Institute of Information and Communications Technology, Japan), Ngoc-Thanh Nguyen (University of Information Technology - Vietnam National University Ho Chi Minh City), Rage Uday Kiran (The University of Aizu, Japan), and Koji Zettsu (National Institute of Information and Communications Technology, Japan)</i>	

A Tree-Based Fuzzy Average-Utility Mining Algorithm .....	669
<i>Tzung-Pei Hong (National University of Kaohsiung), Meng-Ping Ku (National Sun Yat-Sen University), Wei-Ming Huang (National Sun Yat-Sen University), Shu-Min Li (National Sun Yat-Sen University), and Jerry Chun-Wei Lin (Norway University of Applied Science)</i>	
TKC: Mining Top-K Cross-Level High Utility Itemsets .....	673
<i>Mourad Nouioua (Harbin Institute of Technology, Shenzhen), Ying Wang (Harbin Institute of Technology, Shenzhen), Philippe Fournier-Viger (Harbin Institute of Technology, Shenzhen), Jerry Chun-Wei Lin (Western Norway Univ. of Applied Sciences (HVL)), and Jimmy Ming-Tai Wu (Shandong University of Science and Technology)</i>	
Sample-Rank: Weak Multi-objective Recommendations Using Rejection Sampling .....	683
<i>Abhay Shukla (Swiggy), Jairaj Sathyanarayana (Swiggy), and Dipyaman Banerjee (Swiggy)</i>	
Efficient Mining of Non-Dominated High Quantity-Utility Patterns .....	690
<i>Jimmy Ming-Tai Wu (Shandong University of Science and Technology), Qian Teng (Shandong University of Science and Technology), Gautam Srivastava (Brandon University), Matin Pirouz (California State University), and Jerry Chun-Wei Lin (Western Norway University of Applied Sciences)</i>	

## **The 4th International Workshop on Big Data Analysis for Smart Energy (BigData4SmartEnergy 2020)**

Scalable Distributed Pivot Analysis over Massive Big Data: Models, Paradigms, New Advancements .....	696
<i>Alfredo Cuzzocrea (University of Calabria, Italy)</i>	
Precipitation Nowcasting Using Grid-Based Data in South Korea Region .....	701
<i>ChangHwan Kim (KAIST) and Se-Young Yun (KAIST)</i>	
User Authentication Method using FIDO Based Password Management for Smart Energy Environment .....	707
<i>Hyunjin Kim (Dept. of Computer Science &amp; Engineering Chungnam National University, Daejeon, Korea), Dongseop Lee (Dept. of Computer Science &amp; Engineering Chungnam National University), and Jaecheol Ryou (Dept. of Computer Science &amp; Engineering Chungnam National University)</i>	
Electric Energy Demand Forecasting with Explainable Time-Series Modeling .....	711
<i>Jin-Young Kim (Yonsei University) and Sung-Bae Cho (Yonsei University)</i>	
An Accelerated Continual Learning with Demand Prediction Based Scheduling in Edge-Cloud Computing .....	717
<i>Changha Lee (KAIST), Seong-Hwan Kim (KAIST), and Chan-Hyun Youn (KAIST)</i>	
StreamDL: Deep Learning Serving Platform for AMI Stream Forecasting .....	723
<i>Eunju Yang (KAIST), Changha Lee (KAIST), Ji-Hwan Kim (KAIST), Tuan Manh Tao (KAIST), and Chan-Hyun Youn (KAIST)</i>	

SIPA: A Simple Framework for Efficient Networks .....	729
<i>Gihun Lee (Graduate School of Artificial Intelligence, KAIST), Sangmin Bae (Department of Industrial &amp; Systems Engineering, KAIST), Jaehoon Oh (Graduate School of Knowledge Service Engineering, KAIST), and Se-Young Yun (Graduate School of Artificial Intelligence, KAIST)</i>	
Data Analysis and Processing for Spatio-Temporal Forecasting .....	737
<i>Hyoungwoo Lee (Korea University) and Jaegul Choo (KAIST)</i>	
DQN-Based Join Order Optimization by Learning Experiences of Running Queries on Spark SQL ...	
740	
<i>Kyeong-Min Lee (Chungnam National University), InA Kim (Chungnam National University), and Kyu-Chul Lee (Chungnam National University)</i>	
Anomaly Detection and Visualization for Electricity Consumption Data .....	743
<i>Nyounghoo Lee (KAIST), Jehyun Nam (KAIST), and Ho-Jin Choi (KAIST)</i>	
Design of Neural Network-Based Boost Charging for Reducing the Charging Time of Li-ion Battery .....	750
<i>Sue Hyang Lim (Naval Force Analysis Test&amp;Evaluation Group, R.O.K Navy), Seon Hyeog Kim (School of Electrical and Electronic Engineering, Yonsei University), Hyeong Min Lee (School of Electrical and Electronic Engineering, Yonsei University), Si Joong Kim (School of Electrical and Electronic Engineering, Yonsei University), and Yong-June Shine (School of Electrical and Electronic Engineering, Yonsei University)</i>	
Learning Disentangled Representation of Residential Power Demand Peak via Convolutional-Recurrent Triplet Network .....	757
<i>Hyung-Jun Moon (Department of Computer Science), Seok-Jun Bu (Department of Computer Science), and Sung-Bae Cho (Graduate School of Artificial Intelligence)</i>	
Explainable Anomaly Detection for District Heating Based on Shapley Additive Explanations ..	762
<i>Sungwoo Park (Korea University), Jihoon Moon (Korea University), and Eenjun Hwang (Korea University)</i>	

## **International Workshop on Mining and Learning in the Legal Domain (MLLD-2020)**

Unsupervised Extraction of Workplace Rights and Duties from Collective Bargaining Agreements .....	766
<i>Elliott Ash (ETH Zurich), Jeff Jacobs (Columbia University), Bentley MacLeod (Columbia University), Suresh Naidu (Columbia University), and Dominik Stammach (ETH Zurich)</i>	
Tasks Performed in the Legal Domain through Deep Learning: A Bibliometric Review (1987-2020) .....	775
<i>Alfredo Montelongo (Universidade Federal do Rio Grande do Sul Porto Alegre, Brazil) and João Luiz Becker (Fundação Getulio Vargas (FGV/EAESP))</i>	

Immigration Document Classification and Automated Response Generation .....	782
<i>Sourav Mukherjee (Fairleigh Dickinson University, Vancouver, Canada), Tim Oates (Synaptiq, USA), Vince DiMascio (Berry Appleman &amp; Leiden LLP, USA), Huguens Jean (Synaptiq, USA), Rob Ares (Independent, USA), David Widmark (Berry Appleman &amp; Leiden LLP, USA), and Jaclyn Harder (Berry Appleman &amp; Leiden LLP, USA)</i>	
Building Knowledge Graphs of Homicide Investigation Chronologies .....	790
<i>Ritika Pandey (Department of Computer and Information Science, Indiana University - Purdue University Indianapolis), P. Jeffrey Brantingham (Department of Anthropology, University of California, Los Angeles, CA), Craig D. Uchida (Justice and Security Strategies, Silver Spring, MD), and George Mohler (Department of Computer and Information Science, Indiana University - Purdue University Indianapolis)</i>	
Using Unlabeled Data for US Supreme Court Case Classification .....	799
<i>George Sanchez (Center for AI and Cognitive Computing (C3) - Thomson Reuters)</i>	

## **15th International Workshop on Spatial and Spatiotemporal Data Mining (SSTDM-20)**

Virtual Sensing of Temperatures in Indoor Environments: A Case Study .....	805
<i>Andrea Brunello (University of Udine), Martin Kraft (Silicon Austria Labs GmBH, Villach, Austria), Angelo Montanari (University of Udine), Federico Pittino (Silicon Austria Labs GmBH, Villach, Austria), and Andrea Urgolo (University of Udine)</i>	
Predictive Nonlinear Modeling by Koopman Mode Decomposition .....	811
<i>Akira Kusaba (Kyushu University), Kilho Shin (Gakushuin University), Dave Shepard (Evidation Health), and Tetsuji Kuboyama (Gakushuin University)</i>	
Detecting Dynamic Critical Links within Large Scale Network for Traffic State Prediction .....	820
<i>Pierre-Antoine Laharotte (Universite Gustave Eiffel, Universite de Lyon, ENTPE), Romain Billot (IMT Atlantique, LUSSI Department, Lab-STICC), and Nour-Eddin El Faouzi (Universite Gustave Eiffel, Universite de Lyon, ENTPE)</i>	
Deep Learning-Based Critical Infrastructure Simulation Model for Disaster Monitoring .....	828
<i>Parashuram Shourya Rajulapati (Indian Institute of Technology Bombay, India), Nivedita Nukavarapu (Indian Institute of Technology Bombay, India), and Surya Durbha (Indian Institute of Technology Bombay, India)</i>	

## **IncrLearn Incremental classification and clustering, concept drift, novelty detection in big/fast data context**

Rebuilding Trust in Active Learning with Actionable Metrics .....	836
<i>Alexandre Abraham (Dataiku) and Léo Dreyfus-Schmidt (Dataiku)</i>	

Incremental Rebalancing Learning on Evolving Data Streams .....	844
<i>Alessio Bernardo (Politecnico di Milano), Emanuele Della Valle (Politecnico di Milano), and Albert Bifet (University of Waikato, New Zealand)</i>	
Kennard-Stone Balance Algorithm for Time-Series Big Data Stream Mining .....	851
<i>Tengyue Li (University of Macau), Simon Fong (University of Macau), Yaoyang Wu (University of Macau), and Antonio J. Tallón-Ballesteros (University of Huelva)</i>	
Batch Mode Active Learning for Individual Treatment Effect Estimation .....	859
<i>Zoltán Puha (Tilburg University), Maurits Kaptein (Tilburg University), and Aurélie Lemmens (Erasmus University Rotterdam)</i>	
Multi-class Imbalanced Semi-Supervised Learning from Streams through Online Ensembles ..	867
<i>Parsa Vafaie (University of Ottawa), Herna Viktor (University of Ottawa), and Wojtek Michalowski (University of Ottawa)</i>	
An Accuracy-and-Diversity-Based Ensemble Method for Concept Drift and Its Application in Fraud Detection .....	875
<i>Shujie Yin (Key Laboratory of the Ministry of Education for Embedded System and Service Computing, Shanghai Electronic Transactions and Information Service Collaborative Innovation Center, Tongji University), Guanjun Liu (Key Laboratory of the Ministry of Education for Embedded System and Service Computing, Shanghai Electronic Transactions and Information Service Collaborative Innovation Center, Tongji University), Zhenchuan Li (Key Laboratory of the Ministry of Education for Embedded System and Service Computing, Shanghai Electronic Transactions and Information Service Collaborative Innovation Center, Tongji University), Chungang Yan (Key Laboratory of the Ministry of Education for Embedded System and Service Computing, Shanghai Electronic Transactions and Information Service Collaborative Innovation Center, Tongji University), and Changjun Jiang (Key Laboratory of the Ministry of Education for Embedded System and Service Computing, Shanghai Electronic Transactions and Information Service Collaborative Innovation Center, Tongji University)</i>	
Fast Incremental Naïve Bayes with Kalman Filtering .....	883
<i>Giacomo Ziffer (Politecnico di Milano, Milan, Italy), Alessio Bernardo (Politecnico di Milano, Milan, Italy), Emanuele Della Valle (Politecnico di Milano, Milan, Italy), and Albert Bifet (University of Waikato, LTCl, Télécom Paris Institut Polytechnique de Paris)</i>	

## **Blockchain Systems for Decentralized Mining (BSDM 2020)**

Blockchain Applications to Combat the Global Trade of Falsified Drugs .....	890
<i>Yulia Kostyuchenko (University of Chinese Academy of Sciences) and Qingshan Jiang (Chinese Academy of Sciences)</i>	

TrustedChain: A Blockchain-Based Data Sharing Scheme for Supply Chain .....	895
<i>Gejun Le (Shenzhen Institutes of Advanced Technology, Chinese Academy of Sciences; Shenzhen College of Advanced Technology, University of Chinese Academy of Sciences), Qifeng Gu (School of Economics and Management, Beijing University of Posts and Telecommunications), Qingshan Jiang (Shenzhen Key Laboratory for High Performance Data Mining, Shenzhen Institutes of Advanced Technology, Chinese Academy of Sciences), and Weiyi Lin (Shenzhen Institutes of Advanced Technology, Chinese Academy of Sciences; Shenzhen College of Advanced Technology, University of Chinese Academy of Sciences)</i>	
Cache-Based Optimization for Block Commit of Hyperledger Fabric .....	902
<i>Qinqi Xu (University of Chinese Academy of Sciences), Yimin Lin (Singapore Management University), Qingshan Jiang (Chinese Academy of Sciences), and Mengqiu Zhang (University of Chinese Academy of Sciences)</i>	
Data Management System Based on Blockchain Technology for Agricultural Supply Chain .....	907
<i>Chenxue Yang (Agricultural Information Institute, China Academy of Agricultural Sciences) and Zhiguo Sun (Agricultural Information Institute, China Academy of Agricultural Sciences)</i>	

## Deep Learning for Knowledge Transfer (DLKT 2020)

G-SimCLR: Self-Supervised Contrastive Learning with Guided Projection via Pseudo Labelling..	912
<i>Souradip Chakraborty (Walmart Labs), Aritra Roy Gosthipaty (Netaji Subhash Engineering College), and Sayak Paul (PyImageSearch)</i>	
Multi-task Time Series Forecasting with Shared Attention .....	917
<i>Zekai Chen (Department of Computer Science, George Washington University), Jiaye E (Department of Computer Science, George Washington University), Xiao Zhang (School of Computer Science and Technology, Shandong University), Hao Sheng (School of Computer Science and Engineering, Beihang University), and Xiuzheng Cheng (Department of Computer Science, George Washington University)</i>	
Improving Object Detection in Paintings Based on Time Contexts .....	926
<i>Maria-Cristina Marinescu (Barcelona Supercomputing Center), Artem Reshetnikov (Barcelona Supercomputing Center), and Joaquim Moré López (Barcelona Supercomputing Center)</i>	
NoPeek: Information Leakage Reduction to Share Activations in Distributed Deep Learning .....	933
<i>Praneeth Vepakomma (MIT), Abhishek Singh (MIT), Otkrist Gupta (Lendbuzz), and Ramesh Raskar (MIT)</i>
