Prediction Method of Dissolved Gas Concentration in Transformer Oil Based on LSTSVR Model ..29
QiangChao Xu (Guangzhou Power Supply Bureau Co., Ltd), Yang Liu (Electric Power Dispatching & Control Center of Guangdong Power Grid), TingFang Yang (Changsha University of Science and Technology), ZhiYong Liu (Changsha University of Science and Technology), and Wei Li (Changsha University of Science and Technology)

On Line Monitoring Device of Bolt Pressing Force ..33
Mingzhong Peng (China Jiliang University), Weiliang Jin (Zhejiang Academy of Special Equipment Science), Ying Jin (Zhejiang Academy of Special Equipment Science), Zheng Lin (Zhejiang Academy of Special Equipment Science), Ge Shi (China Jiliang University), and Qing Li (China Jiliang University)

Loop Open-Closed Detection Based on Magnetic Resonance Frequency Splitting ..37
Yinchun A (Chongqing University), Qinfeng Liu (Chongqing University), Lin Chen (Chongqing University), and Huaiqing Zhang (Chongqing University)

Effect of B2O3 Doping on Properties of ZnO-Y2O3 Varistor ..41
Yongjing Peng (State Grid Hunan Electric Power Company Disaster Institute), Zhenglong Jiang (State Grid Hunan Electric Power Company Disaster Institute), Bowen Wang (State Grid Hunan Electric Power Company Disaster Institute), Pengkang Xie (State Grid Hunan Electric Power Company Disaster Institute), and Wei Wu (State Grid Hunan Electric Power Company Disaster Institute)

Analysis of Influence of Winding Short Circuit Fault on Electric Field Distribution in Power Transformer ..45
Gang Liu (State Grid Gansu Electric Power Company), Yanyan Bao (State Grid Gansu Electric Power Research Institute), Dingjun Wen (State Grid Gansu Electric Power Research Institute), Tingna Feng (Lanzhou Jiaotong University), Jianqiao Ma (Lanzhou Jiaotong University), and Tianming Cai (China Railway Xi'an Group Co., Ltd.)

Application of Wavelet Transform in I-V Characteristic Test of Photoelectric Sensor ..51
Zhong Hai Lin (Shandong Technology and Business University), Fei Gao (Shandong Technology and Business University), Hong Chen (Shandong Technology and Business University), Jia Yi Lei (Shandong Technology and Business University), Xiao Lin Li (Shandong Technology and Business University), and Ai Xiang He (Shandong Technology and Business University)

Measurement for Low-Value Resistors ..55
DongXue Dai (National Institute of Metrology, China), Yan Yang (National Institute of Metrology, China), Yan Chen (National Institute of Metrology, China), and Wei Wang (National Institute of Metrology, China)

Research on the Relationship between Basic Transmission Characteristics and Electromagnetic Immunity (BCI) of Vehicle Ethernet Harness ..59
Yan Fan (CATARC Automotive Test Center (Tianjin) Co., Ltd.), Xu Zhang (CATARC Automotive Test Center (Tianjin) Co., Ltd.), Guokai Jiang (CATARC Automotive Test Center (Tianjin) Co., Ltd.), Li Jiang (CATARC Automotive Test Center (Tianjin) Co., Ltd.), and Changyuan Wang (CATARC Automotive Test Center (Tianjin) Co., Ltd.)

Analysis of Ultrasonic Propagation Characteristics of Partial Discharge in Oil Immersed Power Transformer .66
Kang Liu (State Grid Gansu Electric Power Research Institute), Lu Guo (State Grid Gansu Electric Power Research Institute), Bodong Chen (State Grid Gansu Electric Power Research Institute), Yanyan Bao (State Grid Gansu Electric Power Research Institute), Jianqiao Ma (Lanzhou Jiaotong University), and Tingna Feng (Lanzhou Jiaotong University)

Application of GA-LSTM Model in Cable Joint Temperature Prediction .71
Zhaoting Li (Shanghai University of Electric Power), Zhaomin Li (Pianguan Power Supply Company), Zhibin Li (Shanghai University of Electric Power), and Yongchun Li (Baode Power Supply Company)

Analysis and Suggestions on the Essential Safety Enhancement of Power Cables and Channels .76
Zeyu Zeng (State Grid Hunan Electric Power Company Limited), Xiaoli Duan (State Grid Hunan Electric Power Company Limited), Sanwei Liu (State Grid Hunan Electric Power Company Limited), Fuyong Huang (State Grid Hunan Electric Power Company Limited), Jianjia Duan (State Grid Hunan Electric Power Company Limited), and Yungen Liu (State Grid Zhuzhou Power Supply Company)

Design of Digital Controlled High-Voltage DC Power Supply Based on STM32 Microcontroller .81
C. W. Huang (Zhaoqing University), W. T. Hsu (Zhaoqing University), G. J. Cai (Zhaoqing University), and Q. J. Xiao (Zhaoqing University)

Application of DC Power Supply Technology in Urban Rail Transit Lighting System .85
Jian Xie (CCCC Rail Transit Consultants Co. Ltd) and Jiabin Che (CCCC Rail Transit Consultants Co. Ltd)

Research on Characteristics and Calibration Method of Gas Relay of Power Transformer in Power Grid .89
Wenbo Jia (State Grid Heilongjiang Electric Power Co. Ltd. Electric Power Research Institute), Wei Sun (State Grid Heilongjiang Electric Power Co. Ltd. Electric Power Research Institute), Hang Zhang (State Grid Heilongjiang Electric Power Co. Ltd. Electric Power Research Institute), Mingchen Gong (State Grid Heilongjiang Electric Power Co. Ltd. Electric Power Research Institute), Chao Xu (State Grid Heilongjiang Electric Power Co. Ltd. Electric Power Research Institute), Jie Sheng (State Grid Heilongjiang Electric Power Co. Ltd. Electric Power Research Institute), and Limin Qu (. State Grid Heilongjiang Electric Power Co. Ltd. Electric Power Research Institute)

Development of Split Truck Mounted Drilling Rig .94
Feifei Lu (Drilling Technology and Equipment R & D Center, CCTEGXIAN)

Design of Intrinsic Safety Orifice Locator for Mine Based on Fiber Optic Gyroscope .98
Juan Wang (Changchun University of Science and Technology) and Jinhua Yang (Changchun University of Science and Technology)

Modeling of Total Electron Content in Regional Ionosphere Based on GPS .103
Xiyan Sun (Guilin University of Electronic Technology), Menglin You (Guilin University of Electronic Technology), Yuanfa Ji (Guilin University of Electronic Technology), Suqing Yan (Guilin University of Electronic Technology), Wentao Fu (Guilin University of Electronic Technology), and Weibin Liang (Guilin University of Electronic Technology)

A New Kind of Antenna Used in Remote Aera with Proper Electrical Properties .108
Yong Cai (Wuhan Second Ship Design and Research Institute), Chang Zhou (Wuhan Second Ship Design and Research Institute), Jing Xia (Wuhan Second Ship Design and Research Institute), and Nan Wang (Wuhan Second Ship Design and Research Institute)

Total Angular Velocity Noise Research of Fan Shaped Superfluid Interference Grating Gyroscope .112
Yulong Zhao (Space Engineering University), Min Hu (Space Engineering University), Yang Wang (Space Engineering University), Shengdong Pan (Space Engineering University), and XianJun Pan (Space Engineering University)

Study on Transient Saturation Characteristic of Current Transformer .117
Qi Gao (North China Electric Power University) and Shaofeng Huang (North China Electric Power University)

A Sliding Mode Observer of IPMSM Combining Adaptive Synchronous Filter and Back EMF Estimator .121
Hanying Jian (Shanghai University) and Wenxiang Song (Shanghai University)

Effects of Electromagnetic Metamaterials on Radio Energy Transmission Systems .127
Dengfeng Li (Chang 'an University), Shanshan Huang (Chang 'an University), Xiaobin Zhang (Chang 'an University), Xue Wang (Chang 'an University), Xiujing Zhang (Chang 'an University), Siqi Li (Chang 'an University), and Qinghong Gong (Chang 'an University)

Recent Progress of All Fiber Optic Current Transformers .134
Jianhua Wu (Naval University of Engineering) and Xiaofeng Zhang (Naval University of Engineering)

Research on Reliability Optimization Design of Multilayer Porcelain Dielectric Capacitance of Aerospace Electronic Products Based on Dynamic Simulation .144
Yu Zhang (Beijing Satellite Manufacturing Co., Ltd) and Mi Liu (Beijing Satellite Manufacturing Co., Ltd)

The Pros and Cons of GaN Family of Materials Compared with Other Alternatives regarding Optoelectronic Applications .149
Lian Gan (Cape Cod Academy)

The Development and Application of Semiconductor Materials .153
Junfeng Wu (North China Electronic Power University)

Study on Low Temperature Welding of Needle like Copper Based Micro Nano Array Materials and Tin Based Solder .157
Jin Xiao (Huali College of Guangdong University of Technology), Qian Z. (Huali College of Guangdong University of Technology), Weiquan C. (Huali College of Guangdong University of Technology), and Wuchu L. (Huali College of Guangdong University of Technology)

Research on the Influence of Throttle Valve Stiffness on Damping Characteristics of Shock Absorber .161
Yanwen Duan (Sichuan Aerospace Vocational College) and Xing Liu (Sichuan Aerospace Vocational College)

Experimental Research on the Dynamic Balance and Analysis on the Finite Element of Split-Type Bell Hood .166
Jie Yang (Tiandi (Tangshan) Minging Technology Co. Ltd)

Review on Mechanisms with Clearances and Its Future Application in the Internal Combustion Engine .170
Yanyan Zhang (Zhejiang University), Dehui Tong (Weichai Power Company Limited), Nannan Sun (Weichai Power Company Limited), Xiangning Du (Weichai Power Company Limited), and Zhentao Liu (Zhejiang University)

Analysis of Factors Affecting the Dehydration Effect of Centrifugal Dehydrator .178
Xiaolei Dong (Tiandi (Tangshan) Minging Technology Co.Ltd)

The Fast Interpretation on the Stress of the Cylindrical Shell under the Bending Moment .182
Shouyi Feng (Beijing Power Machinery Institute) and Ping Liu (Beijing Power Machinery Institute)

General Solution of Mixed-mode I-II-III Crack-tip Stresses for Orthotropic Materials .186
Purong Jia (Northwestern Polytechnical University), Yongyong Suo (Northwestern Polytechnical University), Bo Wang (Northwestern Polytechnical University), and Cheng Jia (Northwestern Polytechnical University)

Effects of Interfacial Tension on the Stability of Toroidal Droplets in Viscous Oils .191
Li-Min Zheng (Guilin University of Electronic Technology), Qi-Rui Xie (Guilin University of Electronic Technology), Xin-Kang Chen (Guilin University of Electronic Technology), Wei Zhang (Guilin University of Electronic Technology), Rong Liu (Guilin University of Electronic Technology), and Xue Chen (Guilin University of Electronic Technology)

Research of High-Precision Stitching Workstation for Large-Aperture Asphere .196
Weiwei Chen (National University of Defense Technology), Shanyong Chen (National University of Defense Technology), Guipeng Tie (National University of Defense Technology), and Shuai Xue (National University of Defense Technology)

Research on Calibration Method and Effect Evaluation of Rocket Sled Track Profile Irregularity .203
Hui Li (Test and Measuring Academy of Norinco Group), Huadong Yan (Test and Measuring Academy of Norinco Group), Bing Hu (Test and Measuring Academy of Norinco Group), and Meng Yang (Test and Measuring Academy of Norinco Group)

Elastic Solution of Orthotropic Plate with Shear Force .207
Yongyong Suo (Northwestern Polytechnical University), Purong Jia (Northwestern Polytechnical University), Long Zhang (Northwestern Polytechnical University), and Gang Wang (Northwestern Polytechnical University)

Experimental Study on Dynamic Evolution of Thin Film Coating on Vertical Fibre ..212
Xin-Kang Chen (Guilin University of Electronic Technology), Xue Chen (Guilin University of Electronic Technology), Rong Liu (Guilin University of Electronic Technology), Wei Zhang (Guilin University of Electronic Technology), Li-Min Zheng (Guilin University of Electronic Technology), Bo Guo (Guilin University of Electronic Technology), and Qi-Rui Xie (Guilin University of Electronic Technology)

Impact Fatigue Life Assessment of Steam Pipeline Based on Transient Analysis ..217
Xingsheng Lao (Wuhan Second Ship Design and Research Institute), Yong Liu (Wuhan Second Ship Design and Research Institute), Yuansheng Lin (Wuhan Second Ship Design and Research Institute), and Fan Bai (Wuhan University of Science and Technology)

Study on Impact Damage Characteristics of Steam Turbine Blades ..223
Yang Song (Science and Technology Department of CSSC), Chunlin Liu (Wuhan Second Ship Design and Research Institute), and Yong Liu (Wuhan Second Ship Design and Research Institute)

Verification and Improvement of Electric Coupler Plugging in Spacecraft ..227
Jiulin Xie (Beijing Institute of Spacecraft Environment Engineering), Xiaohui Song (Beijing Institute of Spacecraft Environment Engineering), Qiang Zhang (Beijing Institute of Spacecraft Environment Engineering), and Wei Wang (Beijing Institute of Spacecraft Environment Engineering)

The Effect of Duct on the Inflow Velocity at the Propeller Plane ..231
Jianbo Xie (Wuhan Institute of Shipbuilding Technology), Chunfang Wu (Wuhan Institute of Shipbuilding Technology), Yuanshuang Zhang (Wuhan Institute of Shipbuilding Technology), and Xianling Zhu (Wuhan Institute of Shipbuilding Technology)

Impact Damage Characteristics of Steam Turbine Bearings ..235
Xingsheng Lao (Wuhan Second Ship Design and Research Institute), Liu Yong (Wuhan Second Ship Design and Research Institute), and Wu Jun (Wuhan Second Ship Design and Research Institute)

Tension Fatigue Behavior of Carbon Fiber Reinforced Resin Matrix Composites under Spectrum Load ..239
Wuchao Chen (Shanghai Marine Diesel Engine Research Institute), Yuan Liu (Shanghai Marine Diesel Engine Research Institute), Jin Zhang (Shanghai Marine Diesel Engine Research Institute), Junjie Deng (Shanghai Marine Diesel Engine Research Institute), Min Xie (Shanghai Marine Diesel Engine Research Institute), Wei Jing (Shanghai Marine Diesel Engine Research Institute), Yecheng Lin (Shanghai Jiaotong University), and Xiaojing Zhang (Shanghai Jiaotong University)

Corrosion Response of Mg-Ca Alloy as a Bone Tissue Substitute Biomaterial ..244
Yuwei Song (University of Jinan), Yang Qiao (University of Jinan), and Yukun Wei (Shandong Kaitai Shot Blasting Machinery Co., Ltd)

The Influence of the Interlayers Thicknesses on the Stress-Strain State in the Nodes with Soft Interlayer of IC10 Superalloy 249
Qi Li (China-Ukraine Institute of Welding, Guangdong Academy of Sciences), Min Xiong (China-Ukraine Institute of Welding, Guangdong Academy of Sciences), Haitao Gao (China-Ukraine Institute of Welding, Guangdong Academy of Sciences), Yaoyong Yi (China-Ukraine Institute of Welding, Guangdong Academy of Sciences), FengMei Liu (China-Ukraine Institute of Welding, Guangdong Academy of Sciences), and LiKun Li Li (China-Ukraine Institute of Welding, Guangdong Academy of Sciences)

Mechanical Properties of Unidirectional Composites Influenced by Void Defects in Matrix 253
Yaohua Gong (Northwestern Polytechnical University) and Tao Huang (Northwestern Polytechnical University)

2. Research on Mechatronics and Power Technology

Understanding the Power System in the Development of Intelligent Building 257
Sixuan Li (Nanjing Normal University)

Fault Diagnosis Method of Brushless Motor Inverter for Substation Inspection Robot 262
Xin Zhang (Shenzhen Power Supply Co.Ltd), Qishen Lv (Shenzhen Power Supply Co.Ltd), Xiaojing Dang (Shenzhen Power Supply Co.Ltd), and Shungui Liu (Shenzhen Power Supply Co.Ltd)

Fault Analysis of Multi-terminal DC Distribution System and Parameter Coordination of Protection Equipment 266
Rui Li (China Electric Power Research Institute), Yini Xu (China Electric Power Research Institute), Yanwen Zheng (Beijing Jiaotong University), and Guomin Luo (Beijing Jiaotong University)

Several Key Issues of the Unified Power Flow Controller in Its Actual Application 271
Bo Yuan (Economic and Technology Research Institute of State Grid Hebei Electric Power Co., Ltd.), Lin Xing (Economic and Technology Research Institute of State Grid Hebei Electric Power Co., Ltd.), Shuai Zhang (Economic and Technology Research Institute of State Grid Hebei Electric Power Co., Ltd.), Yuan Hu (Economic and Technology Research Institute of State Grid Hebei Electric Power Co., Ltd.), Zhang Zhang (Economic and Technology Research Institute of State Grid Hebei Electric Power Co., Ltd.), and Guangyi Li (Economic and Technology Research Institute of State Grid Hebei Electric Power Co., Ltd.)

A Fault Location Method for Hybrid Three-Terminal Transmission Line 276
Shuping Gao (Xi 'an University of Science and Technology), Yuanyue Jiang (Xi 'an University of Science and Technology), Guobing Song (Xi'an Jiaotong University), Yue Gao (Xi 'an University of Science and Technology), and Zixuan Zeng (Xi 'an University of Science and Technology)

The Fractal of Insulator Leakage Current with the Tunable Q-Factor Wavelet Transform 281
Ali Hui (Xi'An University of Science and Technology) and Ruixin Lv (Xi'An University of Science and Technology)

Research on Electric Energy Metering of Burtauhai Traction Substation .285
Yongle Dong (Inner Mongolia Electric Power Research Institute), Da'erhan Da'erhan (Inner Mongolia Electric Power Research Institute), Xuebin Song (Inner Mongolia Electric Power Research Institute), Mingtao Yang (Inner Mongolia Electric Power Research Institute), Tong Wang (Inner Mongolia Electric Power Research Institute), Shuting Zhang (Beijing Jiaotong University), and Fuqiang Tian (Beijing Jiaotong University)

Application Research of the Voiceprint Imaging Technology in Substation Patrol .290
Wenlan Gong (Electric Power Research Institute of Guangxi Power Grid Co), Dajian Li (Electric Power Research Institute of Guangxi Power Grid Co), and Zhangting Yu (Electric Power Research Institute of Guangxi Power Grid Co)

Calculation of Transient Current of Rectifier Generator with DC Grid Faults .294
Changwu Hou (Naval University of Engineering), Zhihao Ye (Naval University of Engineering), Xiaofeng Zhang (Naval University of Engineering), and Jing Huang (Naval University of Engineering)

Speed and Current Control of PMSM Based on Double MPC .300
Xinyi Huang (Xi'an University of Science and Technology), Hongguang Pan (Xi'an University of Science and Technology), and Keting Yuan (Xi'an University of Science and Technology)

Fault Location Method of Single-Phase to Earth Fault in Distribution Network Based on the Variance of Three-Phase Asymmetrical Current Fault Component .305
Zheng Qi (North China Electric Power University), Xinyi Zhao (North China Electric Power University), and Bilal Matloob (North China Electric Power University)

Research on 6V/5KA High Power HIGH Frequency Switching Power Supply .312
Defu Zhang (Beihua University), Cheng Liu (Beihua University), and Yongyin Qu (Jilin Institute of Chemical Technology)

Intelligent Unmanned Aerial Vehicle (UAV) System for Aircraft Surface Inspection .316
Boyong He (Xiamen University), Bo Huang (Xiamen University), Yuxing Lin (Xiamen University), and Liaoni Wu (Xiamen University)

Numerical Error Envelope Results of Correlator-Based Multipath Mitigation Method for Band-Limited Receivers .322
Enqi Yan (National University of Defense Technology), Zhijun Meng (National University of Defense Technology), Xiye Guo (National University of Defense Technology), and Kai Liu (National University of Defense Technology)

Research and Implementation of Insulation Detection Technology for DC Microgrid of Electric Vehicle .327
Yanming Li (China North Vehicle Research Institute), Zhijun Lan (China North Vehicle Research Institute), Feng Gao (China North Vehicle Research Institute), Fengpu Qiao (China North Vehicle Research Institute), and Xie Su (China North Vehicle Research Institute)

A Simplified Space Vector Modulation Method for VIENNA Rectifier Considering Neutral-Point Potential Balance .334
Danli Liao (Wuhan Textile University), Guopeng Zhou (Hubei University of Science and Technology), Renzhuo Wan (Wuhan Textile University), and Kun Yang (SAIC Volkswagen Automotive Co., Ltd.)

Fault Diagnosis of Transformer Based on W-FCM .339
Ming Yan (BeiHua University), Yun Qian (BeiHua University), and Wu-Ren Ding (Petrochemical Company, Jilin China)

Constant Tension System of Electrospinning Equipment Based on Fuzzy PID Control .343
Xiao-Xiao Geng (Shanghai Polytechnic University) and Tao Xu (Shanghai Polytechnic University)

Application Resolution of Deep Learning in Electric Power System .348
Haomiao Wang (State Grid Liaoning Province Electric Power Company Limited), Hongliang Ma (North China Electric Power University), Huan He (State Grid Liaoning Province Electric Power Company Limited), Zhiruo Meng (North China Electric Power University), Xuesong Liu (Liaoning Power Energy Development Group Co.Ltd), and Siyuan Cai (State Grid Liaoning Province Electric Power Company Limited)

Research and Design of Multi-charge Module Based on Average Current Method .353
Borui Liu (Shanghai University), Xikun Chen (Shanghai University), and Yongjian Chen (Shanghai University)

Method for Identifying Symmetrical Inrush Current of UHV Converter Transformer Based on Matrix Pencil .358
TianQi Nan (Shandong University), Shiming Liu (Shandong University), Bo Han (Shandong University), and YunYun Sun (Shandong University)

The Influence of the Inclination Angle of the Catenary Arm Insulator Umbrella on the Electric Field Distribution .362
Heng Xu (Wuhan NARI Limited Liability Company, State Grid Electric Power Research Institute), Hua Ren (Wuhan NARI Limited Liability Company, State Grid Electric Power Research Institute), Shuai Wan (Wuhan NARI Limited Liability Company, State Grid Electric Power Research Institute), Chao An (CRRC Tangshan Co. Ltd), Nan Liu (CRRC Tangshan Co. Ltd), and Kun Chen (Wuhan NARI Limited Liability Company, State Grid Electric Power Research Institute)

Parameter Matching of DC Reactor and DC Circuit Breaker in Multi-terminal DC Distribution System .366
Rui Li (China Electric Power Research Institute), Yao Shao (China Electric Power Research Institute), Yanwen Zheng (Beijing Jiaotong University), and Guomin Luo (Beijing Jiaotong University)

Influence of Wind Power Grid Connection on Static Voltage Stability .371
Kai Chen (Inner Mongolia University of Technology) and Jianjun Han (State Grid Inner Mongolia Eastern Power Co. Ltd)

Large Generator Rotor Distortion Sensing Monitoring Technology Research 375
Shaoliang Zhou (NARI Group Corporation (State Grid Electric Power Research Institute) Co., Ltd), Li Chen (NARI Group Corporation (State Grid Electric Power Research Institute) Co., Ltd), Jian Shen (NARI Group Corporation (State Grid Electric Power Research Institute) Co., Ltd), and Jianping Sun (NARI Group Corporation (State Grid Electric Power Research Institute) Co., Ltd)

Model Construction of Low Frequency Oscillation Mode Identification for Large Generator and Small Grid Power System 380
Yongyun Ding (Liaoning Dongke Power Co., Ltd.), Lai Wei (State Grid Electric Power Research Institute of Liaoning Electric Power Co., Ltd.), Maosheng Lin (State Grid Electric Power Research Institute of Liaoning Electric Power Co., Ltd.), and Xiaopeng Huang (Liaoning Dongke Power Co., Ltd.)

Application of Transformer Modeling Based on Pseudo-flux Characteristic in DC Bias 385
Bo Han (Shandong University), Shiming Liu (Shandong University), and Tianqi Nan (Shandong University)

Research on Fault Line Selection of Distribution Network System Based on Zero Sequence Transient Current 390
Hongtao Ren (HuaDong Engineering Corporation Limited) and Ying Zhang (China United Engineering Corporation Limited)

Research on DC Speed Regulation Method Based on ARM in Lifting System 395
Zhengtang Liu (Qilu University of Technology (Shandong Academy of Sciences)), Xiangdong Li (Qilu University of Technology (Shandong Academy of Sciences)), Chuanwen Xu (Qilu University of Technology (Shandong Academy of Sciences)), Shuqiang Zhang (Qilu University of Technology (Shandong Academy of Sciences)), and Fangchen Yuan (Shanghai Normal University)

Development of a High Reliability Three-Phase PV Grid-Connected Inverter Circuit 399
Chaohui Cui (Southwest Petroleum University)

Influence of Shield on Electric Field Distribution of Cantilever Insulator for Overhead Contact Line 404
Heng Xu (Wuhan NARI Limited Liability Company), Hua Ren (Wuhan NARI Limited Liability Company), Shuai Wan (Wuhan NARI Limited Liability Company), Chao An (CRRC Tangshan Co. Ltd), Nan Liu (CRRC Tangshan Co. Ltd), and Kun Chen (Wuhan NARI Limited Liability Company)

Optimization Research of Interface of Gas Monitoring System Based on EEG Feedback 409
Ping Lu (China Coal Technology Engineering Group Chongqing Research Institute)

Multi-market Bidding Model for Generation Enterprises Based on Mean-CVaR Theory 413
Yanling Wang (North China Electric Power University), Yunping Li (North China Electric Power University), Jingya Su (North China Electric Power University), and Chan Wu (North China Electric Power University)

DOA Estimation of Underwater LOW Noise Target Technique Based on Focusing Matrix 417
Yanjing Chen (Kunming Ship Borne Equipment Research and Test Center), Hui Liu (Kunming Ship Borne Equipment Research and Test Center), and Yunzhou Li (Kunming Ship Borne Equipment Research and Test Center)

Research on HSR Ring Network Communication Test Method for Local Protection of Smart Substation .422
Guannan Wang (Electric Power Research Institute of State Grid Jiangxi Electric Power Co., Ltd), Shihao Zhou (Electric Power Research Institute of State Grid Jiangxi Electric Power Co., Ltd), Benren Pan (Electric Power Research Institute of State Grid Jiangxi Electric Power Co., Ltd), Xiaozhi Gui (Electric Power Research Institute of State Grid Jiangxi Electric Power Co., Ltd), Guoqiang Xie (Electric Power Research Institute of State Grid Jiangxi Electric Power Co., Ltd), and Xiao Zheng (State Grid Jiangxi Electric Power Dispatching Control Center)

Analysis on Secondary Arc Current of 500kV Power Station Transmission Line .428
Hongtao Ren (HuaDong Engineering Corporation Limited)

Fault Line Selection Method of DC Distribution Network Based on Transient Current Fault Component .433
Shuping Gao (Xi'an University of Science and Technology), Bicong Duan (Xi'an University of Science and Technology), Guobing Song (Xi'an Jiaotong University), and Mingxing Shao (Xi'an University of Science and Technology)

Analysis of Multi-dimensional Factors Sensitive to Comprehensive Utilization of Power Distribution Equipment .438
Shuo Liang (Electric Power Research Institute of Guangxi Power Grid Co., Ltd), YangJun Zhou (Electric Power Research Institute of Guangxi Power Grid Co., Ltd), and XiaoYong Yu (Electric Power Research Institute of Guangxi Power Grid Co., Ltd)

Research on Fault Diagnosis of Transmission Lines Based on VMD and Bidirectional LSTM .445
Zhouli Wan (Hubei University of Technology), Hui Liu (Hubei University of Technology), and Yongkang Li (Hubei University of Technology)

Artistic Text Style Transfer Based on Generative Adversarial Networks .451
Chan Hu (Shanghai University), Youdong Ding (Shanghai University), and YuZhen Gao (Shanghai University)

Feasibility Study on Vibration Frequency Measurement of Power Equipment Based on Event Vision Sensing Technology .456
Lei Su (State Grid Shanghai Electric Power Company), Qin Xu (State Grid Shanghai Electric Power Company), Boyuan Cao (State Grid Shanghai Electric Power Company), Mingzhe Zhao (Shanghai Murong Electric Co., Ltd.), and Xiaojun Shen (Shanghai Murong Electric Co., Ltd.)

Research on Electric Energy Metering of Dianshigou Traction Substation .461
Da'erhan Da'erhan (Inner Mongolia Electric Power Research Institute), Xuebin Song (Inner Mongolia Electric Power Research Institute), Mingtao Yang (Inner Mongolia Electric Power Research Institute), Shuting Zhang (Beijing Jiaotong University), and Fuqiang Tian (Beijing Jiaotong University)

Aptive Integral Sliding Mode Control for Permanent Magnet Synchronous Motor Speed Regulation System .465
Chuanming Li (Jiangsu Automation Research Institute), Jingguang Sun (Jiangsu Automation Research Institute), and Yong Guo (Northwestern Polytechnical University)

Latent Faults Diagnosis for Shunt Reactor Based on PCCA ..471
QiangChao Xu (Guangzhou Power Supply Bureau Co., Ltd), QingChao Xu (Guangzhou Power Supply Bureau Co., Ltd), Qian Qi (Guangzhou Power Supply Bureau Co., Ltd), Yang Liu (Guangdong Power Grid Dispatching Center Electric Power Dispatching & Control Center of Guangdong Power Grid), and TingFang Yang (Changsha University of Science and Technology)

Review of the Impact of Metal Environment on Magnetic Resonant Wireless Power Transfer ..475
Da Li (Naval University of Engineering), Xusheng Wu (Naval University of Engineering), Wei Gao (Naval University of Engineering), and Jianxin Gao (Naval University of Engineering)

Q-Learning Method for Managing Wind Farm Uncertainties through Energy Storage System Control ..481
Zhimei Song (Shenyang Ligong University), Chuanzhi Zang (Shenyang Institution of Automation Chinese Academy of Sciences), Lizhong Zhu (Shenyang Ligong University), and Peng Zeng (Shenyang Institution of Automation Chinese Academy of Sciences)

A Summary Report on GaN Lasers including the Most Prevalent Technological Challenges ..489
Kaige Liu (Tianjin University)

Mechanical Characteristic Design of Six-Axis Manipulator Based on Forward and Inverse Kinematics Model ..493
Lingzhen Sun (Guangzhou Huali Science and Technology Vocational College) and Shuo Ye (Huali College Guangdong University of Technology)

Development Status and Key Technology Analysis of Water Reactive Metal Powder Fuel Power Plant ..499
Mingtai Li (National University of Defense Technology), Zhixun Xia (National University of Defense Technology), and Liya Huang (National University of Defense Technology)

Modal Calculation and Experimental Study on Electric Cabinet of Rail Vehicle ..506
Jun Zhang (CRRC Qingdao Sifang Vehicle Research Institute Co. Ltd), XiangLi Lin (CRRC Qingdao Sifang Vehicle Research Institute Co. Ltd), YingYing Liu (CRRC Qingdao Sifang Vehicle Research Institute Co. Ltd), and Xi Han (CRRC Qingdao Sifang Vehicle Research Institute Co. Ltd)

Numerical Study of a Low Speed Wind Tunnel's Aerodynamic Performance and Its Optimization Design ..511
Bing Bai (Beijing Institute of Spacecraft Environment Engineering), Zhifei Gu (Beijing Institute of Spacecraft Environment Engineering), Yi Zhang (Beijing Institute of Spacecraft Environment Engineering), Haiyang Zhan (Beijing Institute of Spacecraft Environment Engineering), Liming Zhang (Beijing Institute of Spacecraft Environment Engineering), and Xuezhang Wang (Beijing Institute of Spacecraft Environment Engineering)

Research Status of Mechanical Seal Dynamic Parameters ..516
Yan Wang (Beihang University), Chunsen Tan (Beihang University), Guiyue Kou (Beihang University), and Tongsheng Shen (Beihang University)

Research on the Influence of Industrial Policy on the Development of Prefabricated Buildings in Nanjing: Empirical Analysis Based on System Dynamics .522
Pei Feng (Beijing Jiaotong University)

Research on Low Temperature Characteristics of Shock Tube .530
Peng Liu (Guilin University of Electronic Technology), Xi Chen (Guilin University of Electronic Technology), HaiDong Zhu (Guilin University of Electronic Technology), KaiDi Yang (Guilin University of Electronic Technology), and MingYuan Zhang (Guilin University of Electronic Technology)

Optimization of Flux Density Distribution for Planar Motor Halbach Permanent Magnet Array .534
Lu Niu (Northwest Minzu University), Shengguo Zhang (Northwest Minzu University), Yushun Tang (Northwest Minzu University), and Weiwen Hu (Northwest Minzu University)

Modal Parameter Identification of Mechanical System Based on EMD Method .539
Xiaohan Liu (Changchun University of Science and Technology), Weina Liu (Changchun University of Science and Technology), and Guangfeng Shi (Changchun University of Science and Technology)

Error Analysis and Test Research on Space Brake Torque Measurement .544
Tao Zhang (Aerospace System Engineering Shanghai), Bo Ni (Shanghai Precision Measuring and Testing Institute), Jiliang Zhao (Aerospace System Engineering Shanghai), Bin Cao (Aerospace System Engineering Shanghai), Haifeng Luo (Aerospace System Engineering Shanghai), Hongbo Li (Aerospace System Engineering Shanghai), and Liangjun Zhang (Aerospace System Engineering Shanghai)

Vibration Characteristics Analysis and Treatment Location Optimization of Complex Cavity with Porous Media and Constrained Layer Damping .549
Sha Chen (Guangxi University of Science and Technology), Jing Lu (Guangxi University of Science and Technology), Qing Wang (Guangxi University of Science and Technology), and Pengcheng Cao (Guangxi University of Science and Technology)

Research on the Quality of High Frequency Communication Printed Circuit Board Micro-Holes Based on Printed Circuit Board Microsections Method .553
Sha Tao (Shenzhen University), Zhisen Gao (Shenzhen University), and Hongyan Shi (Shenzhen University)

3. Automatic Control and Computer Information Application

Control Method Based on Active Magnetic Levitation Guideway Platform .558
Shengchang Lin (Nantong Institute of Technology) and Qing Li (Nantong Institute of Technology)

Research on Power Load Forecasting Based on Machine Learning .562
Jingran Xu (Tianjin University)

Research on Normalization Construction of Electric Grid .568
Allam Maalla (Guangzhou College of Commerce)

Research on Information Construction of Electric Grid Based on Enterprise Information Management .572
Allam Maalla (Guangzhou College of Commerce)

A Fast Adaptive Convergence Control of Underwater Vehicle Based on ELM .576
Peng Zhang (Hefei University of Technology), Ruikun Wang (Hefei University of Technology), Yinfeng Zhao (Hefei University of Technology), Weixin Qian (Hefei University of Technology), and Jie Zhang (Hefei University of Technology)

Simulation Study on No-Load Opening Overvoltage of High Voltage Transmission Line and Its Suppression .582
Lifang Wang (Kunming University), Yue Huang (Kunming University), Yan Wang (Kunming University), Yangqing Li (Kunming University), and Xiaohua Zhou (Guangxi University of Science and Technology)

Probabilistic Power Flow Calculation Method for Subway Traction Load Based on Quasi-Monte Carlo and Semi-Invariant Method .586
Jinrong Chang (Lanzhou University of Technology), Chaozong Da (State Grid Gansu Power Company Lanzhou Power Supply Company), Hailong Guo (State Grid Gansu Power Company Lanzhou Power Supply Company), Liguo Mao (State Grid Gansu Power Company Lanzhou Power Supply Company), Wei Chen (Lanzhou University of Technology), and Xiping Pei (Lanzhou University of Technology)

Research on Fault Location Method Based on Wide Area Information .592
Ziyao Zheng (State Grid Hebei Economic Research Institute) and Jing Jin (State Grid Hebei Maintenance Branch)

An Adaptive Delay Error Asynchronous Circuit Design Based on Bundled-data Handshake Protocol .596
Jing Zhu (Naval Aviation University), Guochen Ding (Naval Aviation University Qingdao Branch), Binbin Song (Naval Aviation University), and Fang Zhang (Naval Aviation University Qingdao Branch)

A Novel Synchronous Control Strategy of Combining Virtual Shaft and Deviation Coupling .601
Xinyu Wu (Nanjing University of Science and Technology), Yifei Wu (Nanjing University of Science and Technology), Cuiyan Zhang (Nanjing University of Science and Technology), and Aiping Cheng (Nanjing University of Science and Technology)

Research on Operational Risk Response Mechanism of Transmission Line Based on Internet of Things and Fault Tree .607
ShaoJie Qu (State Grid Jilin Electric Power Company Limited), YongChao Song (State Grid Jilin Electric Power Company Limited), and ZhiGang Wang (State Grid Jilin Electric Power Company Limited)

The Test Method of the Projectile's Motion Attitude in the Semi-Constraint Period .612
Feimeng Zhang (Dept. University Industrial Robot and Intelligent Manufacturing Engineering Center), Rui Zhang (Dept. University Industrial Robot and Intelligent Manufacturing Engineering Center), Qiongqi Xu (Dept. University Industrial Robot and Intelligent Manufacturing Engineering Center), and Xiaoling Zhu (Dept. University Industrial Robot and Intelligent Manufacturing Engineering Center)

Harmonic Analysis of Nonlinear Periodic Network Using the Dynamic Harmonic Domain .616
Kai Gao (Hefei University of Technology), RunSheng Xie (Hefei University of Technology), and GuoRong Zhang (Hefei University of Technology)

Deposit Certificate and Sharing System of Threat Intelligence .623
Guangyuan Liu (Shanghai University), Xiaoyu Ma (Shanghai University), Jiting Zhou (Shanghai University), and Hanyue Guo (Shanghai University)

Application of Power Grid Substation Simulation System .628
Yan Wang (Kunming University) and Shengwei Feng (Kunming Metro Operation Co., Ltd)

Research on Collision Avoidance of Navigation Marks Based on Neural Network .632
Jiayu Zou (Wuhan University of Technology), Shuai Chen (Wuhan University of Technology), Zhengzhuo Cheng (Wuhan University of Technology), and Jianhao Liao (Wuhan University of Technology)

Refined Load Pattern Recognition Based on Double-Layer ISODATA Clustering and SVM .636
WanTing Zheng (North China University of Technology), Liu Zhu (North China University of Technology), QingZhu Wan (North China University of Technology), YuXiang Zheng (North China University of Technology), Kun Zhang (North China University of Technology), and J HR. D (North China University of Technology)

Application of Multi-expert Information Fusion Prediction Model to Forecast Station Power Consumption .642
PengFei Lv (Liaoning Pushihe Pumped Storage Co., Ltd), TingFang Yang (Changsha University of Science and Technology), and ZhiYong Zheng (Changsha Kezhi Lightning Protection Engineer Co., Ltd)

Frequency and Chirp Rate Estimation of FMICW Signals .646
Dongze Lv (Science and Technology on Electronic Information Control Laboratory) and Li Zhang (Science and Technology on Electronic Information Control Laboratory)

Named Entity Recognition of TCM Text Based on Bert Model .652
Qianqian Qu (Anhui University of Chinese Medicine), Hongxing Kan (Anhui University of Chinese Medicine), Yutong Wu (Anhui University of Chinese Medicine), and Yong Gao (Anhui University of Chinese Medicine)

Research on the Security of Power Distribution Internet of Things Based on TCM .656
Yue Sun (State Grid Jibei Electric Power Co. Ltd. Research Institute, North China Electric Power Research Institute Co., Ltd.), Jiaxuan Yang (North China Electric Power University), Bo Zhou (North China Electric Power University), Wei Chen (State Grid Jibei Electric Power Co. Ltd. Research Institute, North China Electric Power Research Institute Co., Ltd.), Leran Chen (State Grid Jibei Electric Power Co. Ltd. Research Institute, North China Electric Power Research Institute Co., Ltd.), and Xiaotian Xu (State Grid Jibei Electric Power Co. Ltd. Research Institute, North China Electric Power Research Institute Co., Ltd.)

Research and Application of 360° Surrounding View Stitching Technology .661
Yu Yan (Southwest Minzu University), Yu Ren (Southwest Minzu University), and Xuchuan Zhou (Southwest Minzu University)

Research on Computer Integrated Manufacturing Plate Development Based on Factor Analysis .665
Feng Wang (Anhui Business and Technology College)

Research on Operation and Maintenance Technology of Relaying Plate Based on Image Recognition and Model-Based Clustering Matching .669
Jiangbo Ren (State Grid Hebei Electric Power Co., Ltd.), Tiecheng Li (State Grid Hebei Electric Power Research Institute), Yuhao Zhao (State Grid Hebei Electric Power Research Institute), Yujing Su (State Grid Hebei Electric Power Co., Ltd.), Fei Li (State Grid Hebei Electric Power Co., Ltd.), and Yanjiao Hu (Wuhan Kemov Electric Co., Ltd)

Cleaning System Based on Autonomous Patrol of UAV and Intelligent Detection of Foreign Matters .675
Shuaitao Qi (Yanqing Power Company of State Grid Beijing)

Dual-Loop Cooperative Control Strategy for Power Conversion System .679
Mengjie Li (PLA Army Academy of Artillery and Air Defense), Zhe Wei (PLA Army Academy of Artillery and Air Defense), Bo Hu (PLA Army Academy of Artillery and Air Defense), and Congli Li (PLA Army Academy of Artillery and Air Defense)

Reliability Assessment of Distribution Automation Based on IEC 61850 .683
Feijin Peng (Foshan Power Supply Bureau of Guangdong Power Grid), Lei Yu (China Southern Power Grid Research Institute), Xinming Fan (Foshan Power Supply Bureau of Guangdong Power Grid), and Qingpai Ke (China Southern Power Grid Research Institute)

Construction and Application of Knowledge Graph for Power System Dispatching .690
Haixiang Gao (Guangdong Power Grid Co., Ltd.), Lu Miao (Guangdong Power Grid Co., Ltd.), Jianing Liu (Guangdong Power Grid Co., Ltd.), Kai Dong (Guangdong Power Grid Co., Ltd.), and Xiangning Lin (Huazhong University of Science and Technology)

AMSR-E Soil Moisture Inversion Based on GRNN Neural Network .696
Dongyu Li (Sichuan Agricultural University), Weiyi Hou (Sichuan Agricultural University), and Jingwen Xu (Sichuan Agricultural University)

Feature Extraction and Streamline Drawing of 3D Time-Varying Flow Field Based on Physical Characteristics .700
Hang Li (Ocean University of China) and Xiaoli Hou (Ocean University of China)

An Accurate and Fast Global Map-Matching Approach for Low-Sampling-Rate GPS Trajectories .704
Mao Du (Shanghai Jiao Tong University), Lin Yang (Shanghai Jiao Tong University), and Jingni Yuan (Shanghai Jiao Tong University)

Service Quality Evaluation of Fresh Agricultural Products Cold Chain Logistics Based on Genetic Neural Network .712
Mian Fu (Xinhua University of Anhui Province) and Dandan Wang (Xinhua University of Anhui Province)

AD974-Based Design of a Data Acquisition System .716
Wei Wang (China North Vehicle Institute), Shuo Yang (China North Vehicle Institute), Shumin Qin (China North Vehicle Institute), Xingke Tian (China North Vehicle Institute), Jinlong Guo (China North Vehicle Institute), and Fuxin Li (China North Vehicle Institute)

Research on Application of Convolutional Neural Network in Intrusion Detection .720
Yizhi Li (Jiangxi Teachers College)

Superheated Steam Temperature Control Based on Closed Loop Control of Temperature-Reducing Water Flow .724
WeiJian Huang (Guangdong Electric Science Institute Energy Technology Co., Ltd.), Shuo Yang (Zhanjiang Zhongyue Energy Co., Ltd.), Yu Yang (Zhanjiang Zhongyue Energy Co., Ltd.), Jiehua Wang (Zhanjiang Zhongyue Energy Co., Ltd.), MingWei Liu (Zhanjiang Zhongyue Energy Co., Ltd.), and ShaoPing He (Zhanjiang Zhongyue Energy Co., Ltd.)

Design of Automatic Gas Tightness Testing System for Welded Pipe .728
Xingji Du (Zhejiang Academy of Special Equipment Science), Wei Tian (Zhejiang Academy of Special Equipment Science), Zhangwei Ling (Zhejiang Academy of Special Equipment Science), Cunjian Miao (Zhejiang Academy of Special Equipment Science), Jie Tang (Zhejiang Academy of Special Equipment Science), and Mao Cheng (Zhejiang Academy of Special Equipment Science)

Design and Application of Distributed Feeder Automation Simulation Test Platform .732
Lei Yu (Electric Power Research Institute, CSG.), Qingpai Ke (Electric Power Research Institute, CSG.), Baosong Shen (Electric Power Research Institute, CSG.), Yi Jiao (Electric Power Research Institute, CSG.), and Xuntao Shi (Electric Power Research Institute, CSG.)

A System Function Verification Flow for Mixed-Signal SoC .738
YiRu Fu (SiChuan Institute of Solid State Circuits), Kun Huang (SiChuan Institute of Solid State Circuits), Lang Zhang (SiChuan Institute of Solid State Circuits), and Fan Liu (SiChuan Institute of Solid State Circuits)

Microgrid PCC Power Dispatch Strategy Based on Multi-ESS Control during Peak, Flat and Valley Periods .742
Xiao Xu (State Grid Electric Power Research Institute Wuhan Efficiency Evaluation Company Limited)

Feature Extraction Method of Converter Transformer Vibration Signal Based on Multi-feature Fusion .746
Xuelong Cui (Dali Bureau of EHV Power Transmission Company), Pengfei Wang (Dali Bureau of EHV Power Transmission Company), Gang Yu (Dali Bureau of EHV Power Transmission Company), Zhanlong Zhang (Chongqing University), and Rui Xiao (Chongqing University)

Improved Convolutional Neural Network Fault Diagnosis Method Based on Dropout .753
Tingting Chen (Hubei University of Technology), Yang Zhao (Hubei University of Technology), Jianlin Xie (Hubei University of Technology), and Huafeng Cai (Hubei University of Technology)

Research on Fault Location of Low Voltage Distribution Network Based on Improved Ant Colony Algorithm .759
Xue Liu (State Grid Taizhou Power Supply Co., Ltd.), Jun Jia (State Grid Taizhou Power Supply Co., Ltd.), and Jian Wang (State Grid Taizhou Power Supply Co., Ltd.)

Foot Trajectory Planning of Multi-Locomotion Mobile Robot Based on EtherCAT Bus .763
Siyuan Hu (National University of Defense Technology) and Xiaojun Xu (National University of Defense Technology)

A Design of High-Level Water Tank Monitoring System Based on Internet of Things .769
Canzong Zhou (University of South China) and Panpan Jiang (University of South China)

On Real-Time Tracking for Underwater Magnetic Target with Extension Considerations .775
Shan Shan (Naval University of Engineering), Hongxin Zhang (Section No.43 in Unit No.91439 PLA), Suihua Zhou (Naval University of Engineering), and Zhonghua Dai (Naval University of Engineering)

Adaptive Back-Stepping Tracking Control for the Robot System with Input Saturation .785
Chuanming Li (Jiangsu Automation Research Institute), Jingguang Sun (Jiangsu Automation Research Institute), and Yong Guo (Northwestern Polytechnical University)

From Majorana Fermions to Topological Quantum Computation .791
Cheng Zhang (Tianjin University)

Analysis on the Development of Quantum Spin .795
Zihui Zhang (Jiangsu Xishan Senior High School)

Research on Thermal Control Technology of Space Station Complex Based on Fluid-Structure Coupling .801
Qingsheng Xiao (Beijing Institute of Spacecraft Environment Engineering), Xiao Han (Beijing Institute of Spacecraft Environment Engineering), Junwei Wang (Beijing Institute of Spacecraft Environment Engineering), Ying Zhou (Beijing Institute of Spacecraft Environment Engineering), Chun Liu (Beijing Institute of Spacecraft Environment Engineering), and Liming Zhang (Beijing Institute of Spacecraft Environment Engineering)

Simple and Reliable: Mechanics Analysis for Robotic Arm of Strawberry Picking Robot .806
Wenquan Cai (University of Mississippi) and Yuhui Shi (University of Mississippi)

Experimental Research on Vibration Characteristics of Under-Vehicle Equipment in Operation .811
Yongsheng Li (CRRC Changchun Railway Vehicle Co., Ltd,), Huailong Shi (Southwest Jiao Tong University), Yayun Qi (Southwest Jiao Tong University), and Hutang Sang (Southwest Jiao Tong University)

Theoretical Research of Wetting Transition from Cassie State to Wenzel State .816
Yiqian Xu (Huazhong University of Science and Technology)

Analysis of the Kinematic Characteristics of the Gravity Balance Following Mechanism .821
Jiliang Zhao (Aerospace System Engineering Shanghai), Bo Ni (Shanghai Precision Measuring and Testing Institute), Shentian Weng (Aerospace System Engineering Shanghai), Tao Zhang (Aerospace System Engineering Shanghai), Jiajun Gu (Aerospace System Engineering Shanghai), Hongbo Li (Aerospace System Engineering Shanghai), and Liangjun Zhang (Aerospace System Engineering Shanghai)

Study on Fatigue Test for Direct Drive Motor of Metro Bogie .825
Liqiang Yang (Xuzhou Urban Rail Transit Co., Ltd.), Yongping Chu (CRRC Nanjing Puzhen Co., Ltd.), and Rancheng Mao (Southwest Jiaotong University)

4. Research on Intelligent Optimization Algorithm and System Modeling

Design of Satellite Launch Center Network Architecture Base on SDN & NFV .829
Jianfeng Liu (Xichang Satellite Launch Center), Sheng Wang (Xichang Satellite Launch Center), Mingliang Li (Xichang Satellite Launch Center), and Xi Zhang (Xichang Satellite Launch Center)

Research on Small Target Detection Based on Improved Faster R-CNN Depth Network Method .833
Qinghe Liu (Harbin Institute of Technology), Weihao Chen (Harbin Institute of Technology), and Hao Qi (Harbin Institute of Technology)

Study on the Operation Evaluation Method for the On-line Monitoring Device of Gases Dissolved in Transformer Oil .839
Tienan Cao (Electric Power Research Institute of CSG), Hao Li (Electric Power Research Institute of CSG), Yingjie Wang (Electric Power Research Institute of CSG), Yao Yuan (Electric Power Research Institute of CSG), Linjie Zhao (Electric Power Research Institute of CSG), Jiahui Yang (Electric Power Research Institute of CSG), and Yuan La (China Southern Power Grid)

Stereo Matching Algorithm Based on Binocular Vision .843
Yuanfa Ji (Guilin University of Electronic Technology), Yongchun Li (Guilin University of Electronic Technology), Xiyan Sun (Guilin University of Electronic Technology), Suqing Yan (Guilin University of Electronic Technology), and Ning Guo (Guilin University of Electronic Technology)

Energy Station and Network Collaborative Optimization Planning of Park Integrated Energy System .848
Xuxia Li (Economic and Electrical Research Institute of Shanxi Electrical Power Company of SGCC), Jiawei Wang (Economic and Electrical Research Institute of Shanxi Electrical Power Company of SGCC), Yao Wang (Economic and Electrical Research Institute of Shanxi Electrical Power Company of SGCC), Yan Liang (Economic and Electrical Research Institute of Shanxi Electrical Power Company of SGCC), Yingying Hu (Economic and Electrical Research Institute of Shanxi Electrical Power Company of SGCC), Jia Li (Economic and Electrical Research Institute of Shanxi Electrical Power Company of SGCC), and Hongli Liu (Economic and Electrical Research Institute of Shanxi Electrical Power Company of SGCC)

The Guaranteed Convergence Mayfly Optimization Algorithm .858
Zheng-Ming Gao (Jingchu University of Technology), Su-Ruo Li (Jingchu University of Technology), Juan Zhao (Jingchu University of Technology), and Yu-Rong Hu (Jingchu University of Technology)

Research on the Layout of Rectangular Parts Based on Genetic Algorithm .862
Junhao Huang (Sichuan Agricultural University), Zhen Wang (Sichuan Agricultural University), Jiefeng Liu (Sichuan Agricultural University), and Tianchi Liao (Sichuan Agricultural University)

Research on Anti-Interference Algorithm Based on FFT-Wavelet Threshold .866
Defu Wei (State Grid Liaoning Electric Power Co., Ltd. Electric Power Research Institute.), Juyong Cui (State Grid Liaoning Electric Power Co., Ltd. Electric Power Research Institute.), Li Niu (Liaoning Dongke Electric Power Co., Ltd.), Runqi Zhang (Shenyang University of Technology), and Chunguang Hou (Shenyang University of Technology)

Short-Term Wind Power Prediction Based on Multiple Kernel Extreme Learning Machine Method 871
Liancai Ma (Lanzhou Jiaotong University) and Jun Li (Lanzhou Jiaotong University)

Application Analysis of Anti-Stealing Decision System Model in Business Management System .875
Chunmei Zhang (Zhongshan Power Supply Bureau of Guangdong Power Grid Co., Ltd), Junfeng Wei (Zhongshan Power Supply Bureau of Guangdong Power Grid Co., Ltd), and Wenhu Li (GuangDong Power Grid Corp. Customer Service Center)

The Multi-start Mayfly Optimization Algorithm .879
Juan Zhao (Jingchu University of Technology) and Zheng-Ming Gao (Jingchu University of Technology)

Condition Assessment Method for Power Transformers Based on Variable Weight Principle and Fuzzy Comprehensive Evaluation .883
Guisheng Tan (Yunnan University), Dandan Liu (Lijiang Power Supply Bureau of Yunnan Power Grid Corporation), Yijing Shi (Yunnan University), and Ziyang Yang (Yunnan University)

Defect Detection of Anti-Vibration Hammer Based on Improved Faster R-CNN .889
Ke Zhang (University of Science and Technology of China), Hou Qiang (University of Science and Technology of China), and Wenli Huang (Anhui NARI Jiyuan Power Grid Technology Co., Ltd)

Transient Electromagnetic Inversion Based on Improved Quantum Genetic Algorithm .894
Qiong Zhuang (Chongqing University) and HuaiQing Zhang (Chongqing University)

Research on Smart Grid State Monitoring and Data Analysis Technology Based on Cloud Computing .898
Zifeng Chen (Institute of Electronics Technology of THU), Hui Cheng (ChongQing University), and Ze Shan (Newcastle University)

Simulation and Algorithm Optimization of VAV Air Conditioning Room Temperature Model .902
Zaiying Wang (Xi'an University of Science and Technology), Keting Yuan (Xi'an University of Science and Technology), and Xinyi Huang (Xi'an University of Science and Technology)

Design and Development of Environmental Protection Intelligent Second-Hand Trading System in Universities .907
Tianyin Zhu (Wuhan University of Technology), Shuai Zhang (Wuhan University of Technology), Qiwen Wu (Wuhan University of Technology), and Ziqiao Shang (Wuhan University of Technology)

Research on Postgraduate Examination Question Extraction Algorithms Based on Multilayer Filtering and Dynamic Probability Model .911
Mian Fu (Xinhua University of Anhui Province) and Dandan Wang (Xinhua University of Anhui Province)

Partial Least Squares Regression Load Forecasting Model Based on the Combination of Grey Verhulst and Equal-Dimension and New-Information Model .915
Kun Zhang (State Grid Ningxia Electric Power Co., Ltd), Xue Feng (State Grid Ningxia Electric Power Co., Ltd), Xing Tian (State Grid Ningxia Electric Power Co., Ltd), Zhibing Hu (State Grid Ningxia Electric Power Co., Ltd), and Ning Guo (State Grid Ningxia Electric Power Co., Ltd)

Research on Modeling of Superimposed Parts Based on Solidworks .920
GuiYun Huang (Beijing Polytechnic), Jian Cui (Beijing Polytechnic), and SaiKun Zhang (Beijing Polytechnic)

An Optimization Method of Distance Protection for Parallel Lines on the Same Tower .924
Feiyang Dai (China Electric Power Research Institute), Zexin Zhou (China Electric Power Research Institute), Xingguo Wang (China Electric Power Research Institute), and Xuanwei Qi (State Grid Zhejiang Electric Power Research Institute)

A Short-Term Load Forecasting Model Based on Improved Random Forest Algorithm .928
Yiling Huang (North China Electric Power University) and Shaofeng Huang (North China Electric Power University)

Statistical Inference for Lomax Model Based on Inverse Moment Estimation Method .932
Fan Zhang (Jiangxi University of Science and Technology)

Group Targets Tracking Using Maximum Entropy Fuzzy Based on Fire-fly Algorithm and Particle Filter .937
Yiduo Guo (Air Force Engineering University) and Jian Gong (Air Force Engineering University)

Simulation Data Generation Method Based on Improved Cross-Entropy Algorithm for the Prediction of User Electricity Consumption .943
Xianguang Dong (State Grid Shandong Electric Power Company Marketing Service Center), Liang Guo (State Grid Shandong Electric Power Company), Zhi Zhang (State Grid Shandong Electric Power Company Marketing Service Center), Zhiru Chen (State Grid Shandong Electric Power Company Marketing Service Center), and Bo Liang (State Grid Shandong Electric Power Company Marketing Service Center)

DBSCAN Clustering Algorithm Based on Density .949
Dingsheng Deng (Sichuan University Nationalities)

Application and Practice of Intelligent Optimization Algorithm in Improving Online Teaching Quality .954
Bowen Su (Anhui Institute of International Business) and Qiliang Hu (Anhui Business and Technology College)

Optimization Design of Auto Shell Model Structure .958
Jun Gao (Wuhan Business University), Xuefen Hong (Wuhan Business University), and Zhou Li (Wuhan Business University)

The Influence of Particle Number on the Maximum Static Friction Force in a Three-Layer Model .962
Liping Jia (Longdong University) and Pengfei Cao (Longdong University)

Research on Rolling Force Prediction Method of High Precision Cold Rolling Based on XGBoost Algorithm ..966
Yafei Chen (Northeastern University), Fangsheng Chen (Northeastern University), Lianggui Peng (Northeastern University), Chunyu He (Northeastern University), and Changsheng Li (Northeastern University)

Experimental Study on Non-Contact Measurement of Fluid Film on Inner Wall of Vertical Tube ..972
Wei Zhang (Guilin University of Electronic Technology), Rong Liu (Guilin University of Electronic Technology), Xin-Kang Chen (Guilin University of Electronic Technology), Li-Min Zheng (GuiLin University of Electronic Technology), Qi-Rui Xie (Guilin University of Electronic Technology), and Bo Guo (Guilin University of Electronic Technology)

The Constricted Mayfly Optimization Algorithm ..977
Zheng-Ming Gao (Jingchu University of Technology), Su-Ruo Li (Jingchu University of Technology), Juan Zhao (Jingchu University of Technology), and Yu-Rong Hu (Jingchu University of Technology)

Finite Element Model Analysis of Key Component of Exoskeleton Ankle Joint Mechanism Based on ANSYS ..981
Sheng Wang (Shandong University of Science and Technology), Zhengkai Feng (Shandong University of Science and Technology), Chuanjiang Wang (Shandong University of Science and Technology), and Jianbo Zhou (Shandong University of Science and Technology)

Research on Implementation of Parameterized Landing Gear Analysis Model ..987
Yecheng Lin (Shanghai Jiaotong University)

Hybrid Optimization of Injection Process Parameters Based on CAE and Grey Correlation ..994
Zhiwen Qiu (Heyuan Ploytechnic), Junjie Zhu (Heyuan Ploytechnic), and Wenhan Huang (Heyuan Ploytechnic)

Failure Analysis of Die-Casting Mold Ejector Rod Based on Eigenvalue Buckling Theory ..999
Wendi Zhou (Zhejiang University), Xuechang Zhang (NingboTech University), Wenhang Dong (Zhejiang University), and Yongyue Liu (Ningbo Heli Mould Technology Shareholding Co., Ltd)

Numerical Simulation on the Running Process of the Casing Strings in Directional Well ..1005
Gang Wang (China University of Petroleum (East China)), Gang Liu (China University of Petroleum (East China)), Kai Wang (China University of Petroleum (East China)), and Yichen Li (China University of Petroleum (East China))

Appropriate Method for Railway Vehicle Axle Journal Bearing Capacity Evaluation ..1010
J.P. Yang (Southwest Jiaotong University), Y.X. Zhao (Southwest Jiaotong University), and J.G. Wang (Southwest Jiaotong University)

Stress Modeling and Simulation Analysis of Particle Impact Rock-Breaking ..1017
Tiancheng Fang (Northeast Petroleum University), Jianxun Cheng (Northeast Petroleum University), Baojin Wang (Northeast Petroleum University), and Fushen Ren (Northeast Petroleum University)

Simulation and Life Analysis of Impact Process for Directional Shaft Sleeve 1021
Guangsu Sun (Ship Development & Design Institute), Weiming Cai (Ship Development & Design Institute), Qijun Wu (Ship Development & Design Institute), Wei Zhang (Ship Development & Design Institute), Fei Hu (Ship Development & Design Institute), Yun Wang (Ship Development & Design Institute), and Yingsheng Zhang (Ship Development & Design Institute)

The Regrouping Mayfly Optimization Algorithm 1026
Juan Zhao (Jingchu University of Technology) and Zheng-Ming Gao (Jingchu University of Technology)

Optimization Analysis of Photovoltaic Solar Energy Stent 1030
Yan Zhang (Institute of Information Technology of Guet), Wei Zhang (Guilin University of Electronic Technology), and Chao Gao (Guilin University of Electronic Technology)
