**Volume 11677**

Proceedings of SPIE 0277-786X, V. 11677

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Laser 3D Manufacturing VIII*, edited by Bo Gu, Hongqiang Chen, Henry Helvajian, Proc. of SPIE 11677, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

ISSN: 0277-786X

ISSN: 1996-756X (electronic)

ISBN: 9781510641891

ISBN: 9781510641907 (electronic)

---

**Paper Numbering:** A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

---

## 3D MICRO-NANO PRINTING: NEW PROCESS

---

11677 0A     **Hacking blu-ray drives for high-throughput 3D printing** [11677-7]

---

## POWDER-BED SLM METAL PRINTING (LPBF)

---

11677 0M     **Laser powder bed fusion of stainless steel 316L using a combination of high-power diode laser and galvanometer scanner (Invited Paper)** [11677-19]

11677 0Q     **Quantitative evaluation of spatter during Ti plate fabricated by SLM in vacuum** [11677-25]

---

## DIRECT ENERGY DEPOSITION PRINTING: CLADDING & DED

---

11677 0R     **Reflectometry-based investigation of temperature fields during dual-beam Laser Metal Deposition (Invited Paper)** [11677-20]

---

## MULTI-GRADE AND FUNCTIONAL MATERIAL PRINTING

---

11677 0W     **Benchmarking print quality of additively manufactured ceramic nanosuspensions toward consistent fabrication using laser stereolithography** [11677-29]

---

## GLASS 3D PRINTING

---

11677 0Z     **Additive manufacturing of fused silica using coaxial laser glass deposition: experiment, simulation and discussion** [11677-32]

11677 11     **Reduction of shadowing effect during laser cladding of fused silica glass using sub-micron powders** [11677-34]

11677 12     **Digital forming of glass by controlling loading and laser heating** [11677-35]

---

## NOVEL MEDICAL AND OPTICAL DEVICE PRINTING

---

11677 13     **Expansion of direct laser writing (DLW) capabilities for usage in biomedical applications (Invited Paper)** [11677-36]

- 11677 15 **Optimization of selective laser etching for assembly-free 3D micromechanic fabrication (Invited Paper) [11677-38]**
- 11677 16 **Millimeter-scale glass optical concentrator design and fabrication [11677-39]**

---

**POSTER SESSION**

- 11677 17 **Manufacturing of lens array prototypes containing spherical and fresnel lenses for visible light communications using stereolithography apparatus [11677-40]**
- 11677 18 **Submicron scale stereolithography using HD-DVD optical pickup unit [11677-41]**
- 11677 19 **Simultaneous compositional and defect measurements using laser opto-ultrasonic dual detection for laser 3D printing and welding [11677-42]**
