2020 International Conference on Information Science and Education (ICISE-IE)

ICISE-IE 2020

Table of Contents

Preface ..... **xxii**
Committee Members ..... **xxiv**
Reviewers ..... **xxv**

Big Data Mining Analysis and Teaching Model Design

Big Data Mining and Analysis of Hot Issues in International Education—Based on K-Means Algorithm of Cluster Analysis 1
Weili Zhang (Shanghai University of Traditional Chinese Medicine, China), Meng-Ni Wang (Tongji University, China), Peng-Cheng Wang (Shanghai University of Traditional Chinese Medicine, China), and Li-Yun Chen (Shanghai University of Traditional Chinese Medicine, China)

Research on Education Model of "Internet Great Thought and Politics" in Higher Vocational Colleges Based on Big Data 5
Wen Jiang (Sichuan Vocational and Technical College, Suining Sichuan)

A Study on the Cultivation Model of Intercultural Communicative Competence in Foreign Language Teaching 9
Xiaoxiao Yi (University of Oregon, America)

Teaching Exploration of Piano Playing and Singing Based on Big Data Analysis 13
Yang Cao (Hulunbuir College, China)

Research on the SERVQUAL Quality Model of E-Commerce Entrepreneurship Education Quality Management 17
ChunYi Lin (Nanning Normal University, Guangxi)

Design and Thinking of "Three Districts and Three States" Electric Power Technology Personnel Training Mode Based on Causal Cycle Analysis of the Big Data of Education and Training 25
Ruihua Liu (Sichuan Electric Vocational and Technical College, China), Shilin Zhao (Sichuan Electric Vocational and Technical College, China), Juan Yuan (Sichuan Electric Vocational and Technical College, China), Xiaoju Liu (Sichuan Electric Vocational and Technical College, China), Zhoufang Zhao (Sichuan Electric Vocational and Technical College, China), and Lingzhou Li (Sichuan Electric Vocational and Technical College, China)

Research on Influencing Factors of Postgraduate Education Quality in Research Institutes Based on Structural Equation Modeling 29
Danning Li (China Academy of Railway Sciences Corporation Limited, China)

Application Research of Students' Physical Health Data Based on SPSS 34
Jie Peng (Hubei Institute of Engineering, China)

Quaternary Hermitian Linear Complementary Dual Codes with Small Distance 38
Xiuzhen Zhan (Air Force Engineering University, China), Ruihu Li (Air Force Engineering University, China), Liangdong Lu (Air Force Engineering University, China), and Husheng Li (Air Force Engineering University, China)

Anomaly Object Detection in Urban Management Surveillance Video Based on Deep Learning 42
JianYong Wu (China Jiliang University, China), DongPing Zhang (China Jiliang University, China), ZhiHong Zhou (Shanghai Key Laboratory of Integrated Administration Technologies for Information Security, China), and Yang Li (China Jiliang University, China)

A Further Study on Interest Conflicts in Modern Apprenticeship Pilot Work: Python-Based Analysis from Key and Supporting Level 48
Cheng-Jun Xiang (Guangzhou Railway Polytechnic, China)

Optimization of Teaching Content and Reform of Teaching Methods on the Course of Coal-Geology Based on Big Data Analysis 54
Jianguo Wang (Qinghai University, China)

Probit Model Based Research on the Influence of Social Capital to Psychological Capital of Children from Single Parent Families: Empirical Analysis Based on CHARLS Data of China 58
Yan Tang (Hefei University, P.R. China) and Xi Zhao (Hefei University, P.R. China)

A General Evaluation Method of University Curriculum Summative Text Based on Optimized BERT Model 64
Hua Long (Chongqing University of Technology, China) and Di Zhang (Chongqing University of Technology, China)

Research on Satisfaction of High School Mathematics Teaching Efficiency Based on OBE 70
Jie Cai Rang Duo (Northwest University for Nationalities, Lanzhou, Gansu), Zhong Xiong Fan (Northwest University for Nationalities, Lanzhou, Gansu), Yong Lin Xu (Northwest University for Nationalities, Lanzhou, Gansu), and Jie Cuo Nan (Northwest University for Nationalities, Lanzhou, Gansu)

Practice of Ideological and Political Education in the Course of "R Language Foundation" 75
Dong Wang (Shanghai Urban Construction Vocational College, China), Yong Ji (Shanghai Urban Construction Vocational College, China), Baodan Bai (Shanghai University of Medicine & Health Sciences, China), and Yufeng Shi (Shanghai University of Medicine & Health Sciences, China)

Research on English Teaching Mode in College Based on Artificial Intelligence 79
Tingyu Jiao (Luxun Academy of Fine Arts, China)

A Visualization Study of Dance Teaching in China Based on the LDA Model and CSSCI Database (1998-2020) 83
Weichen Jia (City University of Macau, China) and Ping Zhong (City University of Macau, China)

A Urban Economic Vitality Model Based on Nash Equilibrium to Analyze the Impact of Enterprises and Talents with MATLAB 95
Junwei Cheng (National University of Defense Technology, China) and Yiping Yao (National University of Defense Technology, China)

Research on Construction of "Double Tops" Characteristic Subject Group Model Based on Python and PSO 101
Yulong Zhao (National University of Defense Technology, China), Weiting Lin (National University of Defense Technology, China), and Yi Wei (National University of Defense Technology, China)

Research on Teaching Performance of Computer Course Based on Big Data 105
Yi Qian (Taishan University, China)

The Evaluation of the Objectives Achievement Degree for "Principles and Application of Single-Chip Microcomputer" Course Based on OBE Model 109
Ze Li (Xijing University, China), Peng Chu (Xijing University, China), and Yanzhong Zhang (Tongchuan Vocational and Technical College, China)

The Effects of Meditative Elements in Games on Focused Attention 113
Xiao Fang (University of New South Wales, Australia), Xinuo Zhou (College of Global Talents, BITZH, China), and Xiaoqin Ni (North Raleigh Christian Academy, United States)

The Core Competencies of Chinese College Students Based on Big Data Analysis 117
Ye Liu (Shenyang University of Technology, China) and Wanbing Shi (Research Center for Special Education, Nanjing Normal College of Special Education, China)

"Three Enters" Work of Xi Jinping Thought on Socialism with Chinese Characteristics for a New Era (2017-2018) --Data Analysis Based on Corpus 121
Yang Mei (Wuhan University of Technology, China; Shaoyang University, China)

The Future Education of Teenagers: The Emotional Intelligence and Multidimensional Anxiety Symptoms Based on Meta-Analysis of Regulation 125
Bo Lin (Dalian University, China), Siyuan Chen (Dalian University, China), and Junbo Ma (Dalian University, China)

Research on the Quality of the Master Training in the Context of Big Data——Based on the Economic Model of Public Trust 131
Enze Ju (Beijing Jiaotong University, China) and Yingge Du (Beijing Jiaotong University, China)

On the Application Analysis and Innovation of New Media of Party Building in Colleges and Universities Based on SPSS 135
Jian Dong (Guangdong Food and Drug Vocational College, China), Shenshen Guo (Guangdong Food and Drug Vocational College, China), Bin Wu (Guangdong Food and Drug Vocational College, China), and Jianru Xie (Guangdong Polytechnic of Water Resources and Electric Engineering, China)

Research on Practical Teaching System Model Based on Modern Apprenticeship 139
Peiqi Wang (University of Defense Technology, P.R. China), Liwen Gao (Shaanxi Normal University, China), Zhongmin Zhang (University of Defense Technology, P.R. China), and Jie Ma (Shaanxi Normal University, China)

OLS Model Based Research on Entrepreneurial Education and Entrepreneurial Intention for Micro-ebusiness: An Evidence from China under the Impact of COVID-19 143
Xi Zhao (Hefei University, P.R. China), Xuan Lin (Hefei University, P.R. China), and Yu-Ting Hu (Hefei University, P.R. China)

Crime Analysis of Spatial-Temporal Distribution Based on KNN Algorithm 150
Juan Wang (China People's Police University, China), Shuangshi Zhang (China People's Police University, China), Yuexin Lan (China People's Police University, China), Chunying Wu (China People's Police University, China), Yixue Xia (China People's Police University, China), and Lei Chen (China People's Police University, China)

Analysis of Instructional Design Based on Deep Learning Perspective 155
Ke Wang (Henan Normal University) and Ke Wang (Employment and Entrepreneurship Guidance Service Center, Henan Normal University)

Edge Detection of Space Station Docking Mark Based on Improved Canny Operator 159
Ying Zhu (Huali College Guangdong University of Technology, China) and Yujun Huang (Huali College Guangdong University of Technology, China)

Research on the Application of Big Data in Education Industry 163
Liang Min (Xi'an Jiaotong University, China), Gege Xue (Xi'an Jiaotong University, China), and Hao Liu (Xi'an Jiaotong University, China)

A Scientific Quantitative Analysis of Occupation Training and Education Driven by Information Technology Based on Big Data Analysis Technology and Visualization Software 167
Chung-Lien Pan (Sun Yat-Sen University, China), Yan-Tong Lin (Sun Yat-Sen University, China), Qi-Wei Huang (Sun Yat-Sen University, China), Shan-Wei Li (Sun Yat-Sen University, China), Yu-Rong Lin (Sun Yat-Sen University, China), Wei-Keng Zhou (Sun Yat-Sen University, China), and Xing-Han Chen (Sun Yat-Sen University, China)

An SPSS Analysis of BLended Teaching in Tourism Translation 171
Xiaohua Guo (Xi'an FanYi University, China)

On Tibetan College Students' Chinese Word Recognition Based on the High Speed Data Acquisition by SMI 176
Guiyun Guan (Norwest Minzu University, China) and Hongzhi Yu (Key Laboratory of China's Ethnic Languages and Information Technology (Northwest Minzu University), Ministry of Education, China)

Measures to Promote Personnel Training from the Perspective of Periodical Construction Based on Citespace Method 181
Fei-Fei Shang (Army Academy of Armored Forces, Teaching and Research Support Center, China), Sheng-Nan Gao (Army Academy of Armored Forces, Teaching and Research Support Center, China), Sheng-Feng Wang (Army Academy of Armored Forces, Teaching and Research Support Center, China), Shu-Hui Wang (Army Academy of Armored Forces, Teaching and Research Support Center, China), and Jing Luo (Army Academy of Armored Forces, Teaching and Research Support Center, China)

Tracking and Application of IMM Algorithm in Mid-Course of Booster-Glide Vehicle 185
Liquan Ding (Information Engineering University, China), Nan Wu (Information Engineering University, China), Fankun Meng (Information Engineering University, China), and Xianzong Bai (National Defense Science and Technology Innovation Research Institute, China)

Innovation Ability Cultivation Scheme Based on CDIO of the Applied Undergraduates and the Effect Analysis Using SPSS 189
Yutong Zha (Shanghai University of Medicine & Health Sciences, China), Yue Huang (Innovation Academy for Microsatellites of CAS, Institute of Satellite Electronics Technology, China), Baodan Bai (Shanghai University of Medicine & Health Sciences, China), Lijun Hao (Shanghai University of Medicine & Health Sciences, China), and Xiaoou Li (Shanghai University of Medicine & Health Sciences, China)

Discussion on the Key Technologies of Intelligent Teaching System Application in the Era of Artificial Intelligence 2.0 193
Ming Tang (Foshan University, China), Yutong Sun (Foshan University, China), Jiajun Chen (Foshan University, China), and Qianyi Zhong (Foshan University, China)

Study on the Proportion of Paired Classroom Teaching Method to Different Undergraduate Students Based on SPSS Software 197
Liping Xiao (Yunnan University of Chinese Medicine, China)

SPSS Statistical Modeling Analysis of College Students' Physical Fitness Test Satisfaction..... 201
Ning Miao (Tianjin University of Finance and Economics, China), Sheng Gao (Tianjin University, China), Luwen Sun (Tianjin University, China), and Xiaoyong Zhu (Tianjin University, China)

The Application of Analytic Hierarchy Process (AHP) in the Argumentation of the Rationality about Talent Training Program 204
Shu Ying Liu (Anhui Xinhua University, China), Jun Chu (Anhui Xinhua University, China), Shuo Liu (Anhui Xinhua University, China), Li Zhang (Anhui Xinhua University, China), and Ye Tian (Anhui Xinhua University, China)

Analysis on the Influencing Factors of Graduate Employment Quality Based on Training Data Mining 209
Hong Gong (Xi'an University of Posts and Telecommunications, China), Chenhui Zhou (Xi'an University of Posts and Telecommunications, China), Yang Chen (Xi'an University of Posts and Telecommunications, China), and Chang Teng (Xi'an University of Posts and Telecommunications, China)

The Exploration of Mixed Experimental Teaching in Local College from the Perspective of New Engineering Take Electronic Information Engineering as an Example 215
Li Zhang (Xinjiang University, China) and Xiao Yang (Xinjiang University, China)

The Influence Factors Analysis of Instructional Interaction on College Students' Satisfaction in Online Education Based on the ACSI Model 219
Yongqiang Ma (Jining Normal University, China; Philippine Christian University), Guizhi Xu (Jining Normal University, China), Junling Li (Jining Normal University, China), and Erhu Xie (Jining Normal University, China)

Minimal Memory Consumed Pipeline Filter and ITs Implementation on FPGA 223
Shanzhu Xiao (National University of Defense Technology, China), Feng Ma (National University of Defense Technology, China), and Huanzhang Lu (National University of Defense Technology, China)

A Study of Influences of Big Data on Machine Translation and Enlightenment for Translation Teaching in Cross-Cultural Communication 228
Chunye Yang (Wuhan Business University, China)

Research on the Reform of Mixed Teaching Mode 233
Shenghe Wang (Anhui Institute of Public Security Education, China)

Instructional Design and Application of Hydraulic Turbine Based on MR (Mixed Reality) Hololens 2 237
Chibing Gong (Guangdong Polytechnic of Water Resources and Electric Engineering, China)

The Application Design of Hearing Aid Parameters Auto Adaptive System for Hearing Impaired Children Based on Android Terminal 241
Xiaoqian Fan (Zhejiang University, China), Wenzhi Chen (Zhejiang University, China), Quanfang Fan (Hangzhou Youting Technology Co., Ltd., China), and Tianyi Sun (Zhejiang University, China)

Research on College English Language Bl Teaching Mode Based on POA 246
Naiqian Li (Nanfang College of Sun Yat-sen University, Guangdong) and Yafei Wu (Nanfang College of Sun Yat-sen University, Guangdong)

Pedestrian Attribute Recognition Based on Category Probability Loss Function 252
Ang Cheng (Zhengzhou Xinda Institute of Advanced Technology, China), Kun Wang (Zhengzhou Xinda Institute of Advanced Technology, China), Haolin Gao (Zhengzhou Xinda Institute of Advanced Technology, China), and Jia Zhang (Zhengzhou Xinda Institute of Advanced Technology, China)

Discussion on Experimental Teaching Method of Fixed-Wing UAV Flight Control 256
Shulong Zhao (National University of Defense Technology, China), Guang He (National University of Defense Technology, China), Xiangke Wang (National University of Defense Technology, China), and Jie Li (National University of Defense Technology, China)

Optimal Maximal Entanglement EAQECCs Constructed by LCD Caps in PG(3,9) and PG(4,9) 260
Husheng Li (Air Force Engineering University, China), Ruihu Li (Air Force Engineering University, China), Xiuzhen Zhan (Air Force Engineering University, China), and Yu Yao (Air Force Engineering University, China)

Focusing on the "14th Five-Year Plan ": Analysis of Some Problems of Teachers' Ethics in Physical Education Teachers Based on Data Visualization 264
Xuan Li (Xingzhi School, Shenzhen, China) and Hui Li (Guangdong Ocean University, China)

A New Reduction Method Keeping Constant Rank for Fuzzy Soft Sets 268
Xiuqin Ma (Northwest Normal University, China), Hongwu Qin (Northwest Normal University, China), Chen Jiang (Northwest Normal University, China), and Xianzhe Han (Northwest Normal University, China)

Research on Evolution and Control of Network Public Opinion Based on SEIR Model with Martial Law Mechanism 272
Baosheng Zhang (Harbin Normal University, China) and Huang He (Harbin Normal University, China)

Infrared Target Tracking Algorithm Based on Bernoulli Filter and Support Vector Machine 277
Huamin Tao (National University of Defense Technology, China), Xinglin Shen (National University of Defense Technology, China), and Qiuqun Deng (National University of Defense Technology, China)

Blended Teaching Model in Foreign Language Course – An Action Research Based on the Analysis of SPSS 282
Jie Yuan (Nanfang College of Sun Yat-sen University, China) and Yafei Wu (Nanfang College of Sun Yat-sen University, China)

The Psychological Status of Vocational Female College Students Based on SPSS 286
Haiyan Liu (Dalian Vocational & Technical College, China)

Network Informationization and Computer Technology Application

Research on the Training Mode of Electric Power Talents in Ethnic Areas with the Causal Cycle Model of the Information and Integration of Production and Education 290
Ruihua Liu (Sichuan Electric Vocational and Technical College, China), Rong Wang (Sichuan Electric Vocational and Technical College, China), Ying Zhao (Sichuan Electric Vocational and Technical College, China), Qunying Liu (University of Electronic Science and Technology of China, China), Juan Yuan (Sichuan Electric Vocational and Technical College, China), Li Yang (Sichuan Electric Vocational and Technical College, China), and Chuan Xi (Sichuan Electric Vocational and Technical College, China)

Talking about the Current Situation and Countermeasures of Mathematics Information Teaching in Middle Schools in Gannan Tibetan Area 294
Lu Wang (Northwest University for Nationalities College of Mathematics and Computer Science, China) and Cairang Xiawu (Northwest University for Nationalities College of Mathematics and Computer Science, China)

Research on the Application of Blockchain in Credit Bank 298
Youyu Wang (Xiamen University of Technology, China) and Chao Lin (Xiamen University of Technology, China)

Research and Practice of Internet Teaching--Take the Course of Innovation and Entrepreneurship Education and Practice as an Example 302
ManJu Deng (Yunnan Normal University, China) and ZeZHou Feng (Yunnan Normal University, China)

Discussion on the Reform of Electronic Information Engineering Graduation Design under the Background of IEET Engineering 306
Tao Zhang (Guangdong University of Petrochemical Technology, China) and Qiujing Zhang (Guangdong University of Petrochemical Technology, China)

Review of the Technology Application in Music Teaching and Learning 311
Qiaoying Liang (Hunan Normal University, PRC)

Video Road Vehicle Detection and Tracking Based on Opencv 315
Wei Hou (Shaanxi Polytechnic Institute, Electrical Engineering, China), Dongsheng Xia (Shaanxi Polytechnic Institute, China), and Hoekyung Jung (Pai Chai University, China)

Organization of Knowledge Engineering Subject Using TTD Model Based on Stepwise Refinement Framework 319
Hong-Lin Wu (Northeastern University, China) and Ke Wang (Northeastern University, China)

Research on Automatic Acquisition and Compilation of Office Software Secondary Development Based on Association Rules 323
Ya Chen (Pai Chai University, Korea) and Hoekyung Jung (Pai Chai University, Korea)

Research on the Application of Visual Information Communication in Web Design in the Digital Age 329
Hong Xue (Lanzhou University of Finance and Economics, China)

Informal Learning Research Based on Mobile Portable Devices 334
Yong Han (Jiangxi University of Traditional Chinese Medicine, The First Affiliated Hospital of Nanchang University, China), Fan Yang (Jiangxi University of Traditional Chinese Medicine, China), Sumeng Xiong (Jiangxi University of Traditional Chinese Medicine, China), and Maorong Hu (Jiangxi University of Traditional Chinese Medicine, The First Affiliated Hospital of Nanchang University, China)

Comment and Improvement on Two Aggregate Signature Schemes for Smart Grid and VANET in the Learning of Network Security 338
Xiaoming Hu (Shanghai Polytechnic University, China), Wenan Tan (Shanghai Polytechnic University, China), and Chuang Ma (Shanghai Polytechnic University, China)

Research on Influencing Factors of Continuous Learning Willingness for Online Courses from the Perspective of Interaction 342
Hua Yang (Jilin University, China), Mengtong Wang (Jilin University, China), Yanbin Ju (Jilin University, China), Xin Wen (Jilin University, China), Mengna Wu (ShanDong Normal University, China), and Qingyan Han (Changchun Polytechnic College, China)

The Exploration of Introducing Ideological and Political Contents in the Teaching of Digital Signal Processing 347
Jia Wang (Beijing Institute of Graphic Communication, China), Yang Lu (Beijing Institute of Graphic Communication, China), Yang Li (Beijing Institute of Graphic Communication, China), and Hua-Qun Liu (Beijing Institute of Graphic Communication, China)

Preliminary Study on the Teaching Design of Curriculum Ideology and Political Education in "The Basis of Computer Hardware Technology" Based on ADDIE Model 351
Qiang Chen (National University of Defense Technology, China), Lianchun Wang (National University of Defense Technology, China), Peichang Yu (National University of Defense Technology, China), and Danfeng Zhou (National University of Defense Technology, China)

Antarctic Expedition Security Guarantee Marine Information Collection and Analysis Forecasting 355
Bo Lin (National Marine Environment Forecast Center, Ministry of Natural Resources, China)

Research and Practice of O2O Hybrid Teaching Mode Based on Multi-Internet Platform 362
Yuzhu Mu (Southwest Minzu University, China)

Chinese Undergraduates' Behavior and Experiences of Internet Game Addiction: A Qualitative Case Study of CCNU via NVivo 366
Kexin Yang (Central China Normal University, China)

Analysis of the Research Status and Development Trend of Integration Production and Education Based on Citespace 372
Jincheng Shi (Jinan University, China), Zhongwei Zhou (Tianjin University of Science and Technology, China), and Hongfei Guo (Jinan University, China)

Research on the Application of New Generation of Human-Computer Interaction in Education 382
Haoyu Yang (Jiangxi University of Traditional Chinese Medicine, The First Affiliated Hospital of Nanchang University, China), Jiuwei Li (Jiangxi University of Traditional Chinese Medicine, China), Yong Han (Jiangxi University of Traditional Chinese Medicine, China), and Maorong Hu (Jiangxi University of Traditional Chinese Medicine, The First Affiliated Hospital of Nanchang University, China)

Research on School Education Reform under the Background of "5G + Education" 386
Shuai Yang (Chuxiong Normal University, China) and Haicheng Bai (Yunnan Normal University, China)

Research on the Development Status and Future Trend of Early-Childhood Education in China under the Background of Education Informatization 390
Chengnan Liu (Wenzhou-Kean University, China)

Research on the Connection Education between Kindergarten and Primary School Based on Education Informatization with PEST Model 397
Zhuqing Song (Wangjiang Campus, Sichuan University, China)

A Novel Geometric Information Retrieval Tool for Images of Geometric Diagrams 403
Dan Song (Artificial Intelligence and Computer Vision Laboratory, UESTC, Zhongshan Institute, China), Qiong Yao (Artificial Intelligence and Computer Vision Laboratory, UESTC, Zhongshan Institute, China), and Junjie Lu (University of Science and Technology Beijing, China)

PaintKG: The Painting Knowledge Graph Using Bilstmcrf 412
Han Wu (Beijing Information Science Technology University, China), Shuo Yan Liu (Beijing Information Science Technology University, China), Wenkai Zheng (Beijing Information Science Technology University, China), Yifu Yang (Beijing Information Science Technology University, China), and Han Gao (Beijing Information Science Technology University, China)

Characteristics and Enlightenment of MIT Computer Science and Engineering Courses Based on Analytic Hierarchy Process Model 418
Ruishu Wang (Northeastern University, China)

The Application of PAD Class in the Design and Realization of Answering Device 422
Yiyan Lei (National University of Defense Technology, China), Meng Li (National University of Defense Technology, China), Yuting Zhao (National University of Defense Technology, China), and Li Wen (National University of Defense Technology, China)

Research on the Reform of Foreign Training Teaching under the Background of Informatization 426
Hong Ju Xiao (Army Academy of Artillery and Air Defense Computer Department, China), Ping Chen (Army Academy of Artillery and Air Defense Computer Department, China), Lei Ji Lu (Army Academy of Artillery and Air Defense Computer Department, China), and Hong Xia Yu (Army Academy of Artillery and Air Defense Computer Department, China)

Multi-Relay Selection of Hybrid Satellite-Terrestrial Cooperative Network Based on Cr-NOMA in AF Mode 430
Long Zhao (National University of Defense Technology, China), Tao Liang (National University of Defense Technology, China), Lei Cheng (China Satellite Launch and TT&C, China), Zhi Lin (Army Engineering University, China), Kang An (National University of Defense Technology, China), and Junwei Wang (Army Engineering University, China)

The Research on the Cultivation of Innovation Capabilities Supported by Information Technology a Case Study Of"Soil Mechanics and Foundation Engineering"Course 435
Xi Zhao (Huizhou University, China)

Survey on Perceptions of College Students for Innovation and Entrepreneurship Based on Social Network Analysis 439
Yitian Jin (China Agricultural University, China), Zeyu Zhao (China Agricultural University, China), and Liming Chen (China Agricultural University, China)

The Realization Method of Network Class Condition Monitoring System Based on Machine Vision 444
Bo Yu (Harbin University of Science and Technology, China) and Wei Shao (Harbin University of Science and Technology, China)

Construction of Training Mode of IT Applied Talents under the Concept of Collaborative Innovation 448
Wenjuan Sun (Institute of Information Engineering, Anhui Xinhua University, China) and Hongli Yuan (Institute of Information Engineering, Anhui Xinhua University, China)

Research on Data-Based Curriculum Teaching Design under the Condition of Information -Take the Practical Application of Rain Classroom in the Course Teaching of "Electronic Technology and Application" as an Example 452
Yuting Zhao (National University of Defense Technology, China), Li Wen (National University of Defense Technology, China), Yi Zhang (National University of Defense Technology, China), Yiyan Lei (National University of Defense Technology, China), and Meng Li (National University of Defense Technology, China)

Public Opinion Analysis about the Coronavirus COVID-19 Based on Micro-Blog Data 456
Xiuqin Ma (Northwest Normal University, China), Jin Wang (Northwest Normal University, China), Hongwu Qin (Northwest Normal University, China), and Yanan Wang (Northwest Normal University, China)

Research on Teaching Reform of Electrical and Electronic Training Innovative Talents Training Based on Computer Technology 461
XiaoYuan Wang (Center of Basic Teaching and Practical Training, Hefei University, Anhui Hefei), Shiliang Zheng (Hefei University of Technology, Anhui, hefei), Hongfei Wang (Henan University, Kaifeng, Henan), Jun Wang (Center of Basic Teaching and Practical Training, Hefei University, Anhui Hefei), Xiaodong Du (Center of Basic Teaching and Practical Training, Hefei University, Anhui Hefei), Junqiang Shi (Center of Basic Teaching and Practical Training, Hefei University, Anhui Hefei), and Wensheng Yang (Center of Basic Teaching and Practical Training, Hefei University, Anhui Hefei)

Research on the Construction of Library Chinese Information Resources Based on Citation Analysis 465
Xiaoying Cheng (National University of Defense Technology, China), Na Zhang (National University of Defense Technology, China), and Huanqing Zhai (National University of Defense Technology, China)

A Graph Signal Processing Based Strategy for Deep Neural Network Inference 469
Weizhen Lin (Institute of Physics and Information Engineering, Fuzhou University, China) and Hui Qian (Institute of Physics and Information Engineering, Fuzhou University, China)

Research on the Application of Information Technology in Educational Decision 474
Junhong Chang (SIAS University of Zhengzhou)

Shadowsocks Traffic Identification Based on Convolutional Neural Network 480
Nan Zhang (Beijing Normal University, China), Tiantian Wu (Beijing Normal University, China), Yuening Zhang (Beijing Normal University, China), and Mingzhong Xiao (Beijing Normal University, China)

Improving the Cultivation Ability of University International Students in China Based on the Citespace 486
Hua Shang (Dalian University of Technology, China) and WenXin Guan (Dalian University of Technology, China)

Statistical Characteristics Analysis of Close Air Support Information Flow Pattern Based on Super-Network 492
Ze Zhang (Air Force Engineering University, China), Ying Wang (Air Force Engineering University, China), Longfei Yue (Air Force Engineering University, China), Dongyuan Hu (Air Force Engineering University, China), Mengda Yan (Air Force Engineering University, China), Xuyi Chen (Air Force Engineering University, China), and Yang Jin (Air Force Engineering University, China)

Construction of the Evaluation System of Scientific Research Results Base on SPSS Analysis -- The Questionnaires of the 63 Universities in China 496
Qiliang Pan (Jinan University, Peoples R China) and Zhipeng Cao (Jinan University, Peoples R China)

Multi User Multi Keyword Searchable Encryption Scheme Supporting User Authorization 503
Yulei Zhang (Northwest Normal University, China), Haohao Wang (Northwest Normal University, China), Long Wen (Northwest Normal University, China), and Qiaoling Bai (Northwest Normal University, China)

Application of Artificial Intelligence Technology in English Learning Platform 508
Yongjuan Chu (Changchun Institute of Technology)

Research on the Information Resource Management Model in the Chaos Organization a Case Study on Land Development under the City Governing Counties 512
Fangkun Xin (Shanghai University of Political Science and Law, Shanghai) and Xiaoyan Wang (Shanghai University of Political Science and Law, Shanghai)

Educational Management in Critical Thinking Training Based on Bloom's Taxonomy and SOLO Taxonomy 518
Huilan Shi (Qinghai University, China), Wei Wang (Qinghai University, China), Zhonghua Duan (State Key Laboratory of Plateau Ecology and Agriculture, China), Xiaolong Quan (State Key Laboratory of Plateau Ecology and Agriculture, China), Dan Wang (Qinghai University, China), Shihai Zhu (State Key Laboratory of Plateau Ecology and Agriculture, China), Qing Wei (State Key Laboratory of Plateau Ecology and Agriculture, China), Liang Yin (Qinghai University, China), and Youming Qiao (State Key Laboratory of Plateau Ecology and Agriculture, China)

Reform Research and Practice of Army Equipment Teaching Model Based on Education Informatization 522
Jingjing Wang (Air Force Early Warning Academy, China), Wei Zhang (Air Force Early Warning Academy, China), Ming Lu (Air Force Early Warning Academy, China), and Hui Yi (75833Army, China)

Research on the Cultivation of the Core Competences and Values of Information Technology for Normal School Students Based on Maker Education 526
Zhihui Mo (Guangxi Science & Technology Normal University, Guangxi Laibin) and Shilan Zhang (Guangxi Science & Technology Normal University, Guangxi Laibin)

Study on Case-Based Teaching in Military Academies Based on Information Technologies 531
Li-Juan Kan (Air Force Engineering University, China), Jian-Guo Gao (Air Force Engineering University, China), and Ji-Hui Xu (Air Force Engineering University, China)

A Study of Construction of Mobile MOOC for General Education in Colleges and Universities in the Internet Era 535
Ye Liu (Shenyang University of Technology, China)

Research on Network Security of VPN Technology 539
Zhiwei Xu (Engineering Harbin Institute of Technology, China) and Jie Ni (Engineering Harbin Institute of Technology, China)

Design of the Introduction Part of Information Processing and Machine Translation Course for Students Majoring in Computer Science and Technology 543
Hong-Lin Wu (Northeastern University, China) and Ke Wang (Northeastern University, China)

Educational Multimedia Technology and Network Learning Optimization

Online English Learning Efficiency of Adults from Different Ages in Mainland, China 547
Guolin Zhou (Florida International University, USA) and Hui Chen (Jinan University Shenzhen Campus, China)

Research on Peer Education Based on FIF Oral Practice App 551
Meifang Jiang (Lingnan Normal University, China) and Honghui Zhou (Guangdong University of Finance and Economics, China)

Multi Dimensional Construction and Implementation of "ACCESS" Course Online Classroom Teaching Exploration and Practice 555
Aixiang He (Anhui Xinhua University, China), Hongxia Wang (Anhui Xinhua University, China), Xiuming Chen (Fuyang Normal University, China), and Yuan Guo (Anhui Xinhua University, China)

Research on University Education Reform in the Era of Artificial Intelligence 561
Xinyi Ling (The University of Hong Kong, China)

Intelligent Training Scheme for Online Judge System Designed Based on Problem Classification Using Similarity of Abastract Syntax Tree of Source Codes 565
Qiubo Huang (Donghua University, China), Zibin Zhang (Donghua University, China), and Guozheng Fang (Donghua University, China)

A Joint Course Knowledge Entity and Relation EXTRAction Method for Educational Data 570
Feng Qin (Anhui University of Technology, China), Zhiwen Zhang (Anhui University of Technology, China), and Xiao Zheng (Anhui University of Technology, China)

The Application of Matlab Teaching in the Cultivation of Non-Professional Quality of Undergraduates 577
Xiuhua Wu (Shenyang Agricultural University, China) and Nannan Zhang (Shenyang Agricultural University, China)

Research on Mixed Teaching Mode Based on MOOC Platform—Taking "Financial Accounting Practice" as an Example 582
Hui Liu (Zibo Vocational Institute, China)

The Practice and Exploration of Internet Online Education 586
Shichao Liao (Jiangxi University of Traditional Chinese Medicine, The First Affiliated Hospital of Nanchang University, China), Qiang Ding (Jiangxi University of Traditional Chinese Medicine, China), Sumeng Xiong (Jiangxi University of Traditional Chinese Medicine, China), and Maorong Hu (Jiangxi University of Traditional Chinese Medicine, The First Affiliated Hospital of Nanchang University, China)

Face-to-Face Classes Hijacked by COVID-19: What and How HEI Instructors Want to Learn for Online Teaching 590
Cuiying Zou (Wuhan Business University, China), Li Jin (Wuhan Business University, China), and Ping Li (Wuhan Business University, China)

Research on the Integrated Construction of Electronic Technology Courses for the Cultivation of Applied Talents in Higher Vocational Colleges 595
Jian Pan (National University of Defense Technology, Experimental Training Base, China), Yuting Zhao (National University of Defense Technology, Experimental Training Base, China), Dongqiu Xing (National University of Defense Technology, Experimental Training Base, China), Hua Fang (National University of Defense Technology, Experimental Training Base, China), and Na Zhang (National University of Defense Technology, Experimental Training Base, China)

Online Teaching Quality Analysis 599
Wei Zhang (Army Academy of Armored Forces, China), Bo Chen (Army Academy of Armored Forces, China), Liya Jin (Army Academy of Armored Forces, China), and Meng Xing (Army Academy of Armored Forces, China)

The Construction and Teaching Reform of Online Open Course 603
Yongmin Ma (Rizhao Polytechnic, China)

Research on the Demand-Driven O2O & BIA Blended Interactive Teaching Mode 608
Jinbo Bai (Zhaoqing University, China) and Hongbo Li (Zhaoqing University, China)

On Designing Experiment Teaching for Undergraduates' Effective Learning of Logistics Distribution Center Planning and Management Course Based on PBL and BOPPPS 612
Yan Sun (Shandong University of Finance and Economics, China)

Sharing Cloud Platform Applied to Teaching System Reform Based on "5G+Smart Education" Innovation 617
Fan Yang (Nanning University, China) and Wang Luo (Nanning Rail Transit Co., Ltd, China)

Exploration on the Mixed Practice Teaching Methods of Team Experience under the Training of New Engineering Talents 621
Fei Shi (Key Laboratory of Signal Detection and Processing, Xinjiang University), Zhen Hong Jia (Key Laboratory of Signal Detection and Processing, Xinjiang University), Yan Yun Zhou (Key Laboratory of Signal Detection and Processing, Xinjiang University), and Juan Chen (Xinjiang University)

The Development of Distance Education in China 626
Qiang Ding (Jiangxi University of Traditional Chinese Medicine, China), Zhibing Zhong (Jiangxi University of Traditional Chinese Medicine, China), Sumeng Xiong (Jiangxi University of Traditional Chinese Medicine, China), Shimin Guo (Huanghe Science and Technology College, China), and Shichao Liao (Jiangxi University of Traditional Chinese Medicine, China)

Application of Flipped Classroom Teaching Mode Based on MOOC Concept in Surgical Nursing Teaching 630
Pan Li (Xiangnan University, China), Lingyao Meng (Central South University, China), and Hongyu Huang (Xiangnan University, China)

Research of Environmental Law Teaching Based on MOOC under COVID-19 634
Wei Xie (Guangdong Finance & Economic University, China)

Integration of Traditional Culture into Commodity Subject Teaching Material Innovation under Multimedia Information Technology 638
Wei Yu (Dalian Vocational and Technical College) and Xiaonan Zheng (Dalian Vocational and Technical College)

Exploring the Application of English "Reading-Writing Integration" in Flipped Classroom Teaching Based on SPSS 642
Jiajia Xia (Guangdong University of Foreign Studies, China)

Exploration on the First-Class Courses Construction of Microcomputer Principles and Single Chip Microcomputer Interface Technology 647
Yongxin Liu (Inner Mongolia University, China), Yan Zhang (Inner Mongolia University, China), and Liang Wang (Inner Mongolia University, China)

Research on Collaborative Learning of College English Based on the Internet Mixed Online and Offline Teaching 651
Xiuli Qu (Teaching and Researching Institute of Foreign Languages, Bohai University, China)

Online Flipped Classroom Based on Task-Driven Teaching Practice Take Introduction to Systems Engineering as an Example 655
Tao Wu (Air Force Engineering University, China), Chaoqi Fu (Air Force Engineering University, China), Yangjun Gao (Air Force Engineering University, China), and Pengtao Zhang (Air Force Engineering University, China)

Study on the Effect of Video Learning Sequence on Eye Movement Behavior and Learning Outcome of Learners 659
Zhencai Huang (Guilin University of Technology, Guilin, Guangxi), Pingmurong Wei (Guilin University of Technology, Guilin, Guangxi), and Xiaomei Tao (Guilin University of Technology, Guilin, Guangxi)

Effects of "4D Situational Multimedia Interaction" on Modern Non-Commissioned Officer Education 664
Yucheng Zhou (National University of Defense Technology), Na Zhang (National University of Defense Technology), Mei Song (National University of Defense Technology), and Meng Li (National University of Defense Technology)

Practice and Experience of Online Course Construction----Taking Food Chemistry as an Example 669
Dongfeng Wang (Ocean University of China, China), Xun Sun (Ocean University of China, China), Xiang Li (Ocean University of China, China), Zhonglai Huang (Ocean University of China, China), Yangen Zhou (Ocean University of China, China), Yuanzheng Xin (Ocean University of China, China), and Shuang Ma (Ocean University of China, China)

Research on the Blended Teaching of Computer Basic and Application 676
Fang Xu (Air Force Early Warning Academy, China), Shizhao Liu (Air Force Early Warning Academy, China), Yuqin Gong (Air Force Early Warning Academy, China), and Yifei Zhu (Air Force Early Warning Academy, China)

The Element Mining of MOOC Teaching Satisfaction Based on Online Comments 680
Yanchun Wan (South China University of Technology, China), Man Wang (South China University of Technology, China), and Hao Chen (South China University of Technology, China)

A Comparative Study of Online Teaching Modes in Higher Vocational Colleges Based on Network Questionnaire Survey and SPSS Analysis 687
Lin Wang (Yangzhou Polytechnic Institute, China) and Junjin Chen (Yangzhou Polytechnic Institute, China)

Study on the Methods of Curriculum Ideology and Politics Integration into the Course of "Basics of Mechanical Design" Based on the Data Analysis by SPSS 691
Jinya Song (Shanghai Technical Institute of Electronics & Information, China)

Negative Transfer of Mother Tongue in English Writings of English Majors in Independent Colleges: Based on the Error Analysis with the Help of Correction Funciton of Microftword 696
Yanping Zhou (Li Jiang College of GXNU, China)

ISEA Innovative Design to Promote Deep Learning 701
Zhaoxi Wei (Beijing Information Technology College, China) and Gang Ji (Beijing Information Technology College, China)

Statistical Analysis Based on Spss and Empirical Research on Curriculum Ideology and Politics Implementation in Professional Basic Courses: Digital Communication Course as an Example 705
Na Wang (National University of Defense Technology, China), Qingzheng Xu (National University of Defense Technology, China), Xinshe Qi (National University of Defense Technology, China), Cuicui Gao (National University of Defense Technology, China), and Meng Li (National University of Defense Technology, China)

Spssau Analysis of the Application of New Media Technology in Ideological and Political Theory Teaching 710
Yujuan Hou (Hubei Institute of Engineering, China)

Exploration of the Practice and Innovation Ability Training Mode of Internet of Things Engineering Students under the Background of New Engineering 714
Chunyan Luo (Northwest Normal University, China), Zhichang Zhang (Northwest Normal University, China), Zhanjun Hao (Northwest Normal University, China), Yunzhu Kang (Northwest Normal University, China), and Yin An (Northwest Normal University, China)

Practice of Online Open Course Construction for Application-Oriented Undergraduate Automobile Major Based on OBE 721
Xuefeng Yang (Ordos Institute of Technology, China), Zhengang Gao (Ordos Institute of Technology, China), Qiang Wang (Ordos Institute of Technology, China), Wei Jiang (Ordos No. 1 Middle School, China), and Li Xie (Ordos Institute of Technology, China)

Exploration and Analysis on "Online + Offline" Blended Teaching Mode Reform 726
Li-Juan Kan (Air Force Engineering University, China), Jian-Guo Gao (Air Force Engineering University, China), and Ji-Hui Xu (Air Force Engineering University, China)

Research on the Construction of SPOC Teaching System Based on Rain Class in Post MOOC Era ... 730
Weiping Li (East China Jiaotong University, China)

Application and Innovation of Artificial Intelligence Technology in College Sports 734
Caixia Zhang (Jinan Vocational College) and Liguo Liu (Shandong Normal University)

Adversarial Learning Siamese Network for Object Tracking 738
Jia Zhang (Zhengzhou Xinda Institute of Advanced Technology, China), Kun Wang (Zhengzhou Xinda Institute of Advanced Technology, China), Hao Len Gao (Zhengzhou Xinda Institute of Advanced Technology, China), and Gang Chen (Zhengzhou Xinda Institute of Advanced Technology, China)

Exploration on the Construction of Teaching and Research Group under Background of New Engineering 743
Jiujiu Yu (Anhui Sanlian University, China), Jishan Zhang (Anhui Sanlian University, China), Yun Chen (Anhui Sanlian University, China), Ning Wu (Anhui Sanlian University, China), Yingying Mei (Anhui Sanlian University, China), Deqing Zhang (Anhui Sanlian University, China), Lili Zhu (Anhui Sanlian University, China), and Canglu Zhu (Anhui Sanlian University, China)

Ways to Enhance the Influence of Academic Journals Based on MOOC Resources 747
Shuhui Wang (Army Academy of Armored Forces, China), Xi Chen (Army Academy of Armored Forces, China), and Jian Yao (Army Academy of Armored Forces, China)
