2021 2nd International Conference on Urban Engineering and Management Science (ICUEMS)

ICUEMS 2021

Table of Contents

Preface xiii
Committee Members xiv
Reviewers xv

Urban Planning and Intelligent Logistics Traffic Forecast

A Short-Term Traffic Flow Prediction Method Based on SVR 1
Longshun Liu (Shandong Normal University, China)

Research on Evaluation Index System of Urban Bus and Trolleybus Line Network 5
Hao Meng (China Academy of Transportation Sciences of MOT, China), Guo Zhong (China Academy of Transportation Sciences of MOT, China), and Peng Xiao (China Academy of Transportation Sciences of MOT, China)

Modelling of Pedestrian Flow through the Corridor under Different Densities of Different Motivations 12
Weibin Ma (State Key Laboratory for Track Technology of High-Speed Railway, China), Zhiwei Wang (State Key Laboratory for Track Technology of High-Speed Railway, China), and Xiangxia Ren (University of Science and Technology of China, China)

Simulation and Verification of Pedestrians in Asymmetric Funnel-Shaped Bottlenecks Based on Pathfinder 16
Weibin Ma (State Key Laboratory for Track Technology of High-Speed Railway, China; China Railway Research Institute Group Co., Ltd., China), Zhiwei Wang (State Key Laboratory for Track Technology of High-Speed Railway, China; China Railway Research Institute Group Co., Ltd., China), and Hongliang Pan (University of Science and Technology of China, China)

Research on Intelligent Logistics Architecture Based on Edge Cloud Synergy 20
Li Gao (Xi'an Tadffic Engineering Institute, China)

Three-Party Decision-Making of Supply Chain Enterprises under Reverse Factoring Financing Mode 25
Xiaofang Zhong (Nanjing Universuty of Science&Technology, China) and Kangran Shao (Nanjing Universuty of Science&Technology, China)

A Preliminary Study on the Protection Range of Urban Flood Prevention Wall: Taking Suzhou River in Shanghai as an Example .31
Pengfei Si (Shanghai Water Engineering Design & Research Institute Co., Ltd., China), Liyong Tian (Shanghai Water Engineering Design & Research Institute Co., Ltd., China), and Lujun Sun (Shanghai Water Engineering Design & Research Institute Co., Ltd., China)

An Experimental Study of the Effect of the Inertness Pedestrian on Evacuation Process .36
Weibing Ma (State Key Laboratory for Track Technology of High-Speed Railway, China), Zhiwei Wang (State Key Laboratory for Track Technology of High-Speed Railway, China), and Yanghui Hu (University of Science and Technology of China, China)

Research on Logistics Risks of Fresh E-Commerce Products from the Perspective of Supply Chain Management .40
Hang Gao (Shandong University of Political Science and Law, China)

Timetables Optimization of Trains at Night for Urban Rail Transit for Dynamic Demand Based on a 0-1 Integer Programming Model .44
Di Zhang (Beijing Jiaotong University, China) and Yuan Gao (Beijing Jiaotong University, China)

Research on Location Evolution of Ancient Historical Administrative Districts in Guangzhou Based on Geographic Information System .48
Wen Luo (South China University of Technology, China), Chunwang Meng (South China University of Technology, China), Mingjian Zhu (South China University of Technology, China), and Longjiang Du (China Institute of Water Resources and Hydropower, China)

The Coupling and Coordination of the Quality of the Impoverished Population and Economic Development in Western China——Based on the Improved Entropy-Coupling Model .55
Yan Zhang (Yunnan Agricultural University, China), Lu Feng (Yunnan Agricultural University, China), Ting Tang (Yunnan Academy of Agricultural Sciences, China), and Xu Deng (Yunnan Agricultural University, China)

Natural Flywheel Effect -- Urban Protection and Renewal of Jing County in Qingyi River Basin .60
Yue Huang (Wuhan University)

Discussion on the Theoretical Analysis Framework of Urban Regeneration Institutional System Based on the Benefit Sharing Concept .65
Bin Tang (Southeast University, China), Siyuan Yi (Urban Planning & Design Institute of Shenzhen, China), Wei Yan (Wuhan University of Technology, China), and Zheng Xu (Cardiff University, United Kingdom)

High-Speed Rail Accessibility and Innovation Spillover in Cities Along the Route Based on a Spatial Dubin Model .72
Cheng Zhang (Beijing Jiaotong University, China), Meiqing Zhang (Beijing Jiaotong University, China), and Enbin Tang (Planning Research Institute Co., Ltd, Institute of Economic Management, China Railway Economic, China)

Optimization of Container Selection and Stowage Planning in a Circular Route .77
Ning Wang (Shanghai Universityy, China), Linghong Fang (Shanghai University, China), Xiaoyu Li (Shanghai University, China), and Can Wang (Shanghai University, China)

The Coupling Relationship between Rural Revitalization and New Urbanization is Based on Time Series Analysis: Case Study of Ya'An .83
Xinyi Luo (Sichuan Agricultural University), Xinyi Lei (Sichuan Agricultural University), and Ying Zhou (Sichuan Agricultural University)

A Power Grid Network Planning Method Based on the MTPS Optimization and Safety Analysis .87
Ju Liu (State Grid Hubei Electric Power Company Limited Economic Research Institute, China), Dongjun Yang (State Grid Hubei Electric Power Company Limited Economic Research Institute, China), Hongsheng Zhao (State Grid Hubei Electric Power Company Limited Economic Research Institute, China), Zhi Du (State Grid Hubei Electric Power Company Limited Economic Research Institute, China), Qixin Wang (State Grid Hubei Electric Power Company Limited Economic Research Institute, China), Zixia Sang (State Grid Hubei Electric Power Company Limited Economic Research Institute, China), and Bo Wang (State Grid Hubei Electric Power Company Limited Economic Research Institute, China)

The Analysis and the Main Countermeasures of the Impact of COVID-19 on the Logistics Supply Chain .92
Gai Ping Zhang (China Academy of Transportation Sciences, China) and Na Dong (China Academy of Transportation Sciences, China)

Analysis on the Effect of COVID-19 on Metro Seattle Residential Property Value .96
Jingran Xu (University of Illinois at Urbana Champaign)

Research on the Influence of Urban Rail Transit on Office Rent .103
Wang Su Zhu (Nanjing University of Science and Technology, China) and Qing Guo Tang (Nanjing University of Science and Technology, China)

Research on the Development of Intelligent Logistics Based on 5G Technology .107
Mei Liu (Shandong Vocational College of Science and Technology, China)

Research on Prediction of Short-Term Passenger Flow of Urban Rail Transit Based on Deep Neural Network .111
Bao-Yu Li (Beijing Jiaotong University, China), Jing Li (Beijing Jiaotong University, China), Lei Huang (Beijing Jiaotong University, China), Xin Zhu (Beijing Union University, China), Xue-Yan Li (Beijing Union University, China), Zi-Yang Xia (Beijing Jiaotong University, China), and Hai-Feng Huang (Beijing Jiaotong University, China)

Research on the Influence of Transportation Infrastructure on Urban Development Gap in Yangtze River Delta Based on the Difference-in-Difference Model .117
Tiantian Zhang (Beijing Jiaotong University, China)

Hydrological and Sediment Observation in Liuheng Island .122
Juntao Hu (Second Institute of Oceanography, China), Panyang Huang (Second Institute of Oceanography, China), Youjun Ji (Second Institute of Oceanography, China), and Haiyang Dong (Zhejiang University, China)

Equilibrium Assignment Model and Algorithm of Multi-Mode Transportation Network Based on Cumulative Prospect Theory .126
Daixi Zhang (Beijing Jiaotong University, China) and Fang Zhao (Beijing Jiaotong University, China)

Market Demand Analysis of Container Sea-Railway Intermodal Transport in the Middle and Upper Reaches of Yangtze River in China .131
Nan Yu (China Waterborne Transport Research Institute, China) and Ziying Guo (China Waterborne Transport Research Institute, China)

The Route Optimization and Fare Setting Research of Feeder Transit System Related to Urban Rail Transit .136
Wenru Yu (Beijing Jiaotong University, China) and Yuan Gao (Beijing Jiaotong University, China)

Railway Passenger Inbound Streamline Design and Programme Evaluation for Temporary Waiting Based on the Linear Weighted Sum Method .140
Yanyan Liu (Beijing Jiaotong University, China), Junfang Jia (Beijing Jiaotong University, China), and Keping Li (Beijing Jiaotong University, China)

A Dispatch Model of Volunteer Rescuers Considering Improvisation Training in Urban Flood .146
Yumeng Zhou (Wuhan University of Technology, China; Hubei Collaborative Innovation Center for Early Warning and Emergency Response Technology, China), Yinghui Song (Wuhan University of Technology, China; Hubei Collaborative Innovation Center for Early Warning and Emergency Response Technology, China), and Zhe Wang (Wuhan University of Technology, China; Hubei Collaborative Innovation Center for Early Warning and Emergency Response Technology, China)

Research on Supply Chain Risk of Platform-Based Fresh Food E-Commerce .150
Cuicui Zhou (Lanzhou University of Technology, China) and Zongguang Wang (Lanzhou University of Technology, China)

Fiscal Expenditure Control of MSW Disposal System Based on System Dynamics .155
Chunling Sun (Tianjin University of Technology, China), Yifan Liu (Tianjin University of Technology, China), and Yanan Liu (Tianjin University of Technology, China)

To Be Better or to Be Worse: Factors Influencing the Performance of Public-Private Partnerships in Urban Transport System Construction .160
Wanlin Qiu (Lingnan University) and Xu Li (Shenzhen Technology University)

Research on Problems and Countermeasures in the Emergency Supply Chain in Case of Sudden Disasters .164
Shihua Zeng (Guangzhou College of Technology and Business, China)

Study on Construction Technology of Ballastless Track for Urban Rail Transit .168
Lixuan Ren (Shandong Transportation Vocational College)

Environmental Management and Application of Intelligent Building Equipment

Construction of Assembly Building Design Process Based on Parallel Theory .173
Yanqing Cui (Chongqing College of Architecture and Technology, China), Qianhong Diao (Quzhou City Construction and Civil Defence Engineering Management Station, China), Lin Zeng (Chongqing College of Architecture and Technology, China), and Tingting Wei (Chongqing College of Mechatronics, China)

Research on the Control Method of Installation Deviation of Prefabricated Exterior Wall Panels .177
Ru Wang (Xi'an University of Architecture & Technology, China) and Hong Zhou (Xi'an University of Architecture & Technology, China)

Application of Computer Aided Design Software in Interior Design .181
Fang Xiao (Chongqing College of Architecture and Technology) and Fang Mei (Chongqing College of Architecture and Technology)

Application Analysis of CAD Technology in Architectural Decoration Design .185
Dan Feng (Shandong Vocational College of Science and Technology)

Design of an Interactive Device Art Based on Programming Technology About Light Pollution .189
Yunqiao Li (Beijing University of Technology, China)

Customized Bus Routes Layout Method Based on Interactive Auxiliary System Analysis .193
Zhichao Sun (China Academy of Transportation Sciences, China), Kang Zhou (China Academy of Transportation Sciences, China), Xinzheng Yang (China Academy of Transportation Sciences, China), and Xiao Peng (China Academy of Transportation Sciences, China)

Study on Extraction Method of Geological Profile Data Based on BIM .198
Shu-Hui Li (Hebei Key Laboratory of Geological Resources and Environment Monitoring and Protection, China), Xiao-Long Zhu (Hebei Key Laboratory of Geological Resources and Environment Monitoring and Protection, China), Hui Ran (Hebei Key Laboratory of Geological Resources and Environment Monitoring and Protection, China), and Qi-Zhi Wang (Hebei University of Science and Technology, China)

Game and Optimization Models for Effects of Carbon Emissions Tax on B2B International Trade .202
Mingfang Yang (University of Electronic Science and Technology of China, China) and Xu Chen (University of Electronic Science and Technology of China, China)

Finite Element Analysis of Bearing Performance of Concrete-Filled Steel Tube Composite Frame under Thermal and Mechanical Coupling .206
Yucheng Li (Anhui Sanlian University, China), Yongming Shao (Anhui Sanlian University, China), and Xing Wang (Anhui Sanlian University, China)

Research on the Mechanism of Extra Passenger Flow on Thermal and Humid Physical Environment in Mogao Grottoes .210
Ruihua Shang (Taiyuan Univ. of Tech.), Zengfeng Yan (Xi'an Univ. of Arch. & Tech.), Zhengmo Zhang (Dunhuang Academy), and Pengju Han (Taiyuan Univ. of Tech.)

3D Numerical Analysis of Force and Deformation Characteristics of Double-Row Round Piles with Anchor Cables Based on Field Monitoring Data .214
Jianfeng Liu (CCCC Fourth Harbor Engineering Institute Co., Ltd., China; CCCC Key Lab of Environmental Protection & Safety in Foundation Engineering of Transportation, China), Junxing Luo (CCCC Fourth Harbor Engineering Institute Co., Ltd., China; CCCC Key Lab of Environmental Protection & Safety in Foundation Engineering of Transportation, China), Kunpeng Wu (CCCC Fourth Harbor Engineering Institute Co., Ltd., China; CCCC Key Lab of Environmental Protection & Safety in Foundation Engineering of Transportation, China), and Hongxing Zhou (CCCC Fourth Harbor Engineering Institute Co., Ltd., China; CCCC Key Lab of Environmental Protection & Safety in Foundation Engineering of Transportation, China)

Optimization of EMU Assignment and Maintenance Plan Based on Train Circulation Plan .219
Junren Wei (Beijing Jiaotong University, China) and Yuan Gao (Beijing Jiaotong University, China)

Study on the Optimization of the Number of Entrances in Automobile Factory Based on Queuing Theory .223
Yuze Xia (Beijing Jiaotong University, China) and Xianliang Shi (Beijing Jiaotong University, China)

3D Numerical Analysis of the Influence of Plane Layout and Pile Top Restraint on Double-Row Round Piles Structure .229
Junxing Luo (CCCC Fourth Harbor Engineering Institute Co., Ltd., China; CCCC Key Lab of Environmental Protection & Safety in Foundation Engineering of Transportation, China), Jianfeng Liu (CCCC Fourth Harbor Engineering Institute Co., Ltd., China; CCCC Key Lab of Environmental Protection & Safety in Foundation Engineering of Transportation, China), Kunpeng Wu (CCCC Fourth Harbor Engineering Institute Co., Ltd., China; CCCC Key Lab of Environmental Protection & Safety in Foundation Engineering of Transportation, China), and Hongxing Zhou (CCCC Fourth Harbor Engineering Institute Co., Ltd., China; CCCC Key Lab of Environmental Protection & Safety in Foundation Engineering of Transportation, China)

Research of Efficient Utilization of Gymnasium in Modern Urban Development Based on Internet Technology .233
Rongxun Quan (Yanbian University, China) and Haogang Quan (Yanbian University, China)

Discussion on Mechanical Advantage and Anti-Floating Stability of Under-Reamed Ground Anchorage with Capsule .237
Lirui Luo (Central Research Institute of Building and Construction of MCC Group, China; China JingYe Engineering Co., Ltd., China)

Research on Congestion Pricing to Improve Connected Autonomous Vehicles Penetration Rate .242
Jiacui Zhang (Beijing Jiaotong University, China)

Research on the Situational Interactive Classroom of Engineering Project Management Based on the Improvement of BIM Technology Application Ability .246
Li Li (Xi'an FanYi University, China)

Normal Accidents in Risk Supervision: An Analysis of a Basic Government Chemical Supervision System Model .250
Yankun Zhang (Jinan University Zhuhai Campus, China)

Study on Simulation of Rock Dynamic Failure Law of Crack under Pre-Stress Condition .254.....
Xu-Hu Zhang (Hebei Key Laboratory of Geological Resources and Environment Monitoring and Protection, China), Shu-Hui Li (Hebei Key Laboratory of Geological Resources and Environment Monitoring and Protection, China), Hui Ran (Hebei Key Laboratory of Geological Resources and Environment Monitoring and Protection, China), and Qi-Zhi Wang (Hebei University of Science and Technology, China)

Research on the Improvement Path of Project Management Performance Based on the Configuration Perspective .258.....
Chunling Sun (Tianjin University of Technology, China), Yanjie Zhao (Tianjin University of Technology, China), and Yanan Liu (Tianjin University of Technology, China)

Study on 3D Visualization of Linear Engineering Survey Based on BIM .262.....
Xue-Shan Bai (Hebei Key Laboratory of Geological Resources and Environment Monitoring and Protection, China), Xiao-Long Zhu (Hebei Key Laboratory of Geological Resources and Environment Monitoring and Protection, China), Wei-Ling Zhao (Hebei Key Laboratory of Geological Resources and Environment Monitoring and Protection, China), and Qi-Zhi Wang (Hebei University of Science and Technology, China)

Problems and Countermeasures of the System and Mechanism of Emergency Rescue Team in Jiangsu Chemical Industry Park Based on the Principle of Statistics .266.....
Jiajia Sun (Jiangsu Academy of Safety Science and Technology, China), Chunyan Zhang (Jiangsu Academy of Safety Science and Technology, China), Fei Wu (Jiangsu Academy of Safety Science and Technology, China), and Yinglei Yu (Jiangsu Academy of Safety Science and Technology, China)

A Study of Assessment of Landscape Perception of Urban Parks Based on SD Technique: A Case Study on Jiangxinzhou Park in Xuancheng City, Anhui Province .272.....
Shunzhe Pei (Wuhan University of Technology, China)

Analysis of the Effect of Cooling and Dust Retention of Different Vegetation Types in Urban Green Space .278.....
Du-Fang Shi (Anhui University of Arts), Jin-Sheng Fang (Chizhou Vocational and Technical College), Xin-Wang Xu (Chizhou Vocational and Technical College), and Yong-Lan Zhang (Chizhou Vocational and Technical College)

Experimental and Numerical Analysis of Steel Pipe-Rubber Friction Damper .283.....
Longfei Zhang (Kunming University, China), Heng Zuo (Chongqing University, China), Xia Zhu (Yunnan Architectural Technology Vocational School, China), and Yunhua Wan (Yunnan Design Institute Group Co., Ltd, China)

Measurement of the Distribution and Effect of Urban Infrastructure in Liaoning .288.....
Ying Sun (Institute of Governance, China)

Risk Assessment of Physical and Chemical Analysis Laboratory Based on the Laboratory Risk Assessment Model .293.....
Cui Ding (China University of Labor Relation, China)

Economic Loss Assessment and Prevention Countermeasures of Haze Pollution in the Process of New Urbanization in Shenyang 297
Yanli Sun (Shenyang Jianzhu University, China), Jing Yang (Shenyang Jianzhu University, China), and Shanglai Liu (Dalian Ocean University, China)

Full-Scale Test for Composite Foundation of Backfilled Lateritic Clay Strata Based on CFG Miniature Pile 301
Yuan Liu (China Nonferrous Metal (Guilin) Geology and Mining Co. Ltd, China), Majun Peng (China Nonferrous Metal (Guilin) Geology and Mining Co. Ltd, China), Zhaojing Zhang (China Nonferrous Metal (Guilin) Geology and Mining Co. Ltd, China), and Cheng Wei (China Nonferrous Metal (Guilin) Geology and Mining Co. Ltd, China)

Analysis on Construction Technology and Quality Control Measures of Building Steel Structure 306
Zhaona Chi (Rizhao Polytechnic, China)

Analysis of Key Processes and Dimensions Based on Complex Assets Management Systems 310
Jia-Xu Cheng (State Grid Energy Research Institute Co., Ltd, China), Guan-Ran Wang (North China Electric Power University, China), and Wei-Xuan Meng (State Grid Energy Research Institute Co., Ltd, China)

A Study of Healing Landscapes in Urban Parks Based on Questionnaires and SPSS Correlation Analysis: Take Xiling Lake Park in Wu'An City, Hebei Province as an Example 314
Xuyan Wang (Wuhan University of Technology, China)

Author Index 319
