

2021 7th International Conference of the Immersive Learning Research Network (iLRN 2021)

**Virtual Conference
17 May – 10 June 2021**

**IEEE Catalog Number: CFP21K36-POD
ISBN: 978-1-6654-3050-0**

**Copyright © 2021, Immersive Learning Research Network

Table of Contents

Assessment and Evaluation (A&E)

An Academic Conference in Virtual Reality? - Evaluation of A SocialVR Conference	1
Engagement in In-Game Questionnaires - Perspectives from Users and Experts	7
Evaluation Design Methodology for an AR App for English Literacy Skills	14
Using Support Vector Machine on EEG Signals for College Students' Immersive Learning Evaluation	19
Work-in-Progress – Design Method of a Real-Time Monitoring System for ICT Evaluation Process in Education Based on CesiumJS 3D Visualization	24

Early Childhood Development and Learning (ECDL)

MADLearn: An Evidence-based Affordance Framework to Assessing Learning Apps	27
---	----

Galleries, Libraries, Archives and Museums (GLAM)

Great Paintings in Fully Immersive Virtual Reality	35
Alternative Design for An Interactive Exhibit Learning in Museums: How Does User Experience Differ Across Different Technologies-VR, Tangible, And Gesture	43
Communal Spaces as Ludic Resources of Learning with Augmented Reality and Board Games	51

Inclusion, Diversity, Equity, Access, and Social Justice (IDEAS)

Comparison of Direct and Vicarious VR Learning Experience: A Perspective from Accessibility and Equity	56
Inclusive VR through Inclusive Co-Design with Neurodiverse Learners	61
Work-in-Progress – Integrated Reading Assistance in an Immersive Environment	66
Work-in-Progress – Exploring VR Conference Navigation Employing Audio Cues	69

K-12 STEM Education

Immersive Technology in the Public School Classroom: When a Class Meets	72
Project Learn&Play: Piloting a Game-based Instruction for Students in Comparison to an Engineering Lecture	80

K-12 STEM Education (Cont.)

Interactive Game-based Exploration of an Underwater Paleontological Site	85
Work-in-Progress – Mathstation: A Grade School Math Supplement Serious Game	90
Work-in-Progress – AR-supported Collaborative Game for Understanding Complex Systems	93
Work-in-Progress – The Use of Plane-detection Augmented Reality in Learning Geometry	96
Work-in-Progress – Plant Cell Biology Education Using Advanced 3D Technologies for K-12 Students	99
Work-in-Progress – Specific Heat of Water Experiment: Augmented Reality Chemistry Lab	102
Work-in-Progress – Watershed Explorers: Designing a Virtual Reality Game to Promote Local Watershed Literacy	105
Work-in-progress – Game Design Informed by Learning Progressions for Science Practices	108
Work-in-Progress – Building WaterWays: Investigating AR For Environmental Education	111
Work-in-Progress – Design and Evaluation of Mixed Reality Programs for Cybersecurity Education	114
Doctoral Colloquium – Pandemic pirouettes: AR Ballet Exploring Data Ethics for the Computing Classroom	117
Doctoral Colloquium – Immersive Media in Remote Schooling: “I Was Surprised at How Engaged I Was”	120

Language, Culture and Heritage (LCH)

Game-Based Religion Education in Virtual Environments: A Pilot Study	123
Learning Organology in Virtual Environments: A Pilot Study for Virtual Music Education	128
Work-in-Progress – Language, Culture, and Heritage: The VR Experience the Book of Distance and Teaching the Family Folklore Project	133
Doctoral Colloquium – VeRdict: Imbuing VR Language Learning Applications with Dictionary Functionality	136

Medical and Healthcare Education (MHE)

Gamification in Mixed-Reality Exergames for Older Adult Patients in a Mobile Immersive Diagnostic Center: A Pilot Study in the BewARe Project.	139
Virtual Reality Applications for The Treatment of Anxiety and Psychiatric Disorders	147
COVIDCampus Game: Making Safer Choices	155
A Medical Ontology Informed, User Experience Taxonomy to Support Co-creative Workflows for Authoring Mixed Reality Medical Education Spaces	163
Modeling Teacher Use of Virtual Reality Simulations in Nursing Education Using Epistemic Network Analysis	171

Medical and Healthcare Education (MHE) (Cont.)

CureQuest: A Digital Game for New Drug Discovery	179
Work-in-Progress – Development of Immersive Nursing Skills Learning System and Evaluation of Learning Effectiveness	186
Work-in-Progress – WebXR To Support Student Wellbeing and Anxiety	189
Work-in-Progress – A Preliminary Eye Tracking and HMD Orientation Comparison to Determine Focus on a Cardiac Auscultation Training Environment	192
Work-in-Progress – Design and Evaluation of 360 VR Immersive Interactions in Nursing Education	195

Nature & Environmental Sciences (NES)

Place-Based Learning Through a Proxy - Variations in the Perceived Benefits of a Virtual Tour	198
Spatial Learning with Extended Reality - A Review of User Studies	206
Work-in-Progress-Virtual Field Trips to Increase Geoscience Accessibility and Student Engagement	211
Work-in-Progress – Improve Spatial Learning by Chunking Navigation Instructions in Mixed Reality	214

Workforce Development & Industry Training (WDIT)

Look at It This Way: A Comparison of Metaphors for Directing the User's Gaze in eXtended Reality Training Systems	217
Asymmetrical Game Design Approaches Solve Didactic Problems in VR Engineer Trainings	225
A Preliminary Scoping Review of Immersive Virtual Soft Skills Learning and Training of Employees	230
Work-in-Progress – Augmented Reality Enriched Project Guide for Mechanical Engineering Students	235
Work-in-Progress – Digital Twin and Gamification for Designing an Educational Lab for Circular Economy	238
Work-in-Progress – Using Immersive Virtual Reality in Field Service Telecom Engineers Training	241
Work-in-Progress – Enhancing Training in Virtual Reality with Hand Tracking and a Real Tool	244
Doctoral Colloquium – A Qualitative Study to Explore the Use of Augmented Reality as Performance Support in Industries	247

Fundamental Research and Theory in Immersive Learning

VERITAS: Mind-Mapping in Virtual Reality	250
Space, a Central Frontier – The Role of Spatial Abilities When Learning the Structure of 3D AR Objects	258
A Longitudinal Study of Students’ Perceptions of Immersive Virtual Reality Teaching Interventions	266
Mobile Augmented Reality Applications in Teaching: A Proposed Technology Acceptance Model	273
Integrating a Teaching Concept for the Use of Virtual Reality in University Teaching	281
Influence of HMD Type and Spatial Ability on Experiences and Learning in Place-based Education	289
Narrative-Driven Immersion and Students' Perceptions in an Online Software Programming Course	297
Failure and Success in Using Mozilla Hubs for Online Teaching in a Movie Production Course	304
Getting there? Together. Cultural Framing of Augmented and Virtual Reality for Art Education	312
The Effect of Spatial Design on User Memory Performance Using the Method of Loci in VR	320
METAL: Explorations into Sharing 3D Educational Content across Augmented Reality Headsets and Light Field Displays	328
Toward A User-Centred Design Approach for AR Technologies in Online Higher Education	334
Measuring and Comparing QoE of Hybrid VR Applications under Increased Network Load	342
Towards an Immersive Learning Knowledge Tree - A Conceptual Framework for Mapping Knowledge and Tools in the Field	349
A Taxonomy for Immersive Experience Design	357
Logibot: Promoting Engagement through Visual Programming in Virtual Reality	362
ELLE-ments of Learning: A Framework for Analyzing Multimodal Technical Communication Strategies in an Educational VR Game	367
The Impact of Virtual Reality, Augmented Reality and Interactive Whiteboards on the Attention Management in Secondary School STEM Teaching	371
Implementing Decentralized Virtual Time in P2P Collaborative Learning Environment for Web XR	376
Beyond the Horizon: Integrating Immersive Learning Environments in the Everyday Classroom	380
Work-in-Progress – 360-degree Immersive Storytelling Video to Create Empathetic Response	385
Work-in-Progress – Motivation in Virtual Reality Chinese Language Learning in the Context of COVID-19	388
Work-in-Progress – Is Virtual Reality Simulation Ineffective for Skill Acquisition Training?	391
Work-in-Progress – Teaching Invisible Phenomena and Virtual Experiments: Immersion or Augmentation?	394
Work-in-Progress – Photogrammetry within Virtual Reality	397

Fundamental Research and Theory in Immersive Learning (Cont.)

Work-In-Progress – An Intelligent Immersive Learning System Using AI, XR and Robots	399
Work-in-Progress – Serious Games in Awareness Processes	402
Work-in-Progress – Immersing E-Facilitators in Training: The Perspective of Project FAVILLE - Facilitators of Virtual Learning	405
Work-in-Progress – LIVE: Model for Learning in Interactive and Immersive Virtual Environments	408
Work-in-Progress – VR-Enabled Pedagogy in a First-Year Seminar	411
Doctoral Colloquium – Designing VR Environments for Distance Learning	414

Special Track - Self and Co-regulated Learning with Immersive Learning Environments (SCILE)

Exploring the Real-Time Touchless Hand Interaction and Intelligent Agents in Augmented Reality Learning Applications	417
Visualizing the Collaborative Problem Solving Process In An Immersive Cross Platform Game	425
Supporting Teachers' SRL Beliefs and Practices with Immersive Learning Environments: Evidence from a Unique Simulations-Based Program	431
Work-in-Progress – Effects of Conversational Interaction on In-service Teacher Experience in Virtual Reality Classroom Simulation for Teacher Training	436
Work-in-Progress – Synapse VR: Catalyzing Collaboration Through Immersive Learning	439
Work-in-Progress – Supporting Software Engineering Education through Immersive Learning	442
Work-in-Progress – Extracting, Describing and Representing Spatial Features of a Chemical Reaction inside a Virtual Reality Learning Environment	445

Workshops, Panels, and Special Sessions

Special Session – Student Engagement with Reduced Bias in a Virtual Classroom Environment	448
Workshop – Students on Game Immersion	451
Workshop – Authoring Tools for XR Applications in Education	453
Workshop – Drawing Equirectangular Perspectives for VR Panoramas with Eq a Sketch 360	455
Panel Session – Pluriversal Design Transitions for Higher Education Motivated by Covid-19	458
Panel Session – Co-creative Virtual Reality Content Development in Healthcare: Tackling the Content Availability Problem	461
