2021 IEEE/ACM 43rd International Conference on Software Engineering (ICSE) **ICSE 2021**

Table of Contents

Message from the ICSE 2021 General Chair .xxvii.....	
Message from the Program Chairs of ICSE 2021 .xxxi.....	
Message from the Journal-First Chairs of ICSE 2021 .xxxiii.....	
Organizing Committee of ICSE 2021 .xxxiv.....	
Technical Program Committee of ICSE 2021 .xxxvi.....	
Journal First Program Committee of ICSE 2021 .xl.....	
External Reviewers of ICSE 2021 .xli.....	
Sponsors and Supporters of ICSE 2021 .xliii.....	

Agile Methods

Playing Planning Poker in Crowds: Human Computation of Software Effort Estimates .1.....	
<i>Mohammed Alhamed (University of Glasgow, United Kingdom) and Tim Storer (University of Glasgow, United Kingdom)</i>	

Analyzing System Properties: Correctness, Determinism, Realizability

JEST: N+1-Version Differential Testing of Both JavaScript Engines and Specification .13.....	
<i>Jihyeok Park (KAIST, South Korea), Seungmin An (KAIST, South Korea), Dongjun Youn (KAIST, South Korea), Gyeongwon Kim (KAIST, South Korea), and Sukyoung Ryu (KAIST, South Korea)</i>	
Unrealizable Cores for Reactive Systems Specifications .25.....	
<i>Shahar Maoz (Tel Aviv University, Israel) and Rafi Shalom (Tel Aviv University, Israel)</i>	
Verifying Determinism in Sequential Programs .37.....	
<i>Rashmi Mudduluru (University of Washington), Jason Waataja (University of Washington), Suzanne Millstein (University of Washington), and Michael Ernst (University of Washington)</i>	

API: Development

Domain-Specific Fixes for Flaky Tests with Wrong Assumptions on Underdetermined Specifications .50.....
Peilun Zhang (University of Illinois at Urbana-Champaign, USA), Yanjie Jiang (Beijing Institute of Technology, China), Anjiang Wei (Peking University, China), Victoria Stodden (University of Illinois at Urbana-Champaign, USA), Darko Marinov (University of Illinois at Urbana-Champaign, USA), and August Shi (The University of Texas at Austin, USA)

Studying Test Annotation Maintenance in the Wild .62.....
Dong Jae Kim (Concordia University, Canada), Nikolaos Tsantalis (Concordia University, Canada), Tse-Hsun (Peter) Chen (Concordia University, Canada), and Jinqiu Yang (Concordia University, Canada)

API: Evolution and Maintenance #1

Semantic Patches for Adaptation of JavaScript Programs to Evolving Libraries .74.....
Benjamin Barslev Nielsen (Aarhus University), Martin Toldam Torp (Aarhus University), and Anders Møller (Aarhus University)

API: Evolution and Maintenance #2

DepOwl: Detecting Dependency Bugs to Prevent Compatibility Failures .86.....
Zhouyang Jia (National University of Defense Technology, China), Shanshan Li (National University of Defense Technology, China), Tingting Yu (University of Kentucky, USA), Chen Zeng (National University of Defense Technology, China), Erci Xu (National University of Defense Technology, China), Xiaodong Liu (National University of Defense Technology, China), Ji Wang (National University of Defense Technology, China), and Xiangke Liao (National University of Defense Technology, China)

Hero: On the Chaos When PATH Meets Modules .99.....
Ying Wang (Northeastern University, China), Liang Qiao (Northeastern University, China), Chang Xu (Nanjing University, China), Yepang Liu (Southern University of Science and Technology, China), Shing-Chi Cheung (The Hong Kong University of Science and Technology, China), Na Meng (Virginia Tech, USA), Hai Yu (Northeastern University, China), and Zhiliang Zhu (Northeastern University, China)

API: Usage and Refactoring

SOAR: A Synthesis Approach for Data Science API Refactoring .112.....
Ansong Ni (Yale University, USA), Daniel Ramos (INESC-ID/IST, U. Lisboa, Portugal Carnegie Mellon University, USA), Aidan Z. H. Yang (Queen's University, Canada), Inês Lynce (INESC-ID/IST, U. Lisboa, Portugal), Vasco Manquinho (INESC-ID/IST, U. Lisboa, Portugal), Ruben Martins (Carnegie Mellon University, USA), and Claire Le Goues (Carnegie Mellon University, USA)

Are Machine Learning Cloud APIs Used Correctly? .125.....
Chengcheng Wan (University of Chicago), Shicheng Liu (University of Chicago), Henry Hoffmann (University of Chicago), Michael Maire (University of Chicago), and Shan Lu (University of Chicago)

Code Completion

Siri, Write the Next Method .138.....
Fengcai Wen (Software Institute - USI Università della Svizzera italiana, Switzerland), Emad Aghajani (Software Institute - USI Università della Svizzera italiana, Switzerland), Csaba Nagy (Software Institute - USI Università della Svizzera italiana, Switzerland), Michele Lanza (Software Institute - USI Università della Svizzera italiana, Switzerland), and Gabriele Bavota (Software Institute - USI Università della Svizzera italiana, Switzerland)

Code Prediction by Feeding Trees to Transformers .150.....
Seohyun Kim (Facebook Inc., USA), Jinman Zhao (University of Wisconsin-Madison, USA), Yuchi Tian (Columbia University, USA), and Satish Chandra (Facebook Inc., USA)

Code Review: Automation

Towards Automating Code Review Activities .163.....
Rosalia Tufano (Università della Svizzera italiana (USI), Switzerland), Luca Pascarella (Università della Svizzera italiana (USI), Switzerland), Michele Tufano (Microsoft, USA), Denys Poshyvanyk (William and Mary, USA), and Gabriele Bavota (Università della Svizzera italiana (USI), Switzerland)

Configuration of Software Systems: Optimization

Resource-Guided Configuration Space Reduction for Deep Learning Models .175.....
Yanjie Gao (Microsoft Research, China), Yonghao Zhu (Microsoft Research, China), Hongyu Zhang (The University of Newcastle, Australia), Haoxiang Lin (Microsoft Research, China), and Mao Yang (Microsoft Research, China)

Configuration of Software Systems: Testing

An Evolutionary Study of Configuration Design and Implementation in Cloud Systems .188.....
Yuanliang Zhang (National University of Defense Technology, China; University of Illinois at Urbana-Champaign, USA), Haochen He (National University of Defense Technology, China), Owolabi Legunsen (Cornell University, USA), Shanshan Li (National University of Defense Technology, China), Wei Dong (National University of Defense Technology, China), and Tianyin Xu (University of Illinois at Urbana-Champaign, USA)

AutoCCAG: An Automated Approach to Constrained Covering Array Generation .201.....
Chuan Luo (Microsoft Research, China), Jinkun Lin (Institute of Software, Chinese Academy of Sciences, China), Shaowei Cai (Institute of Software, Chinese Academy of Sciences, China), Xin Chen (Microsoft Research, China; Microsoft 365, United States), Bing He (Microsoft Research, China; Microsoft 365, United States), Bo Qiao (Microsoft Research, China), Pu Zhao (Microsoft Research, China), Qingwei Lin (Microsoft Research, China), Hongyu Zhang (The University of Newcastle, Australia), Wei Wu (Leibniz University Hannover, Germany), Saravanakumar Rajmohan (Institute of Software, Chinese Academy of Sciences, China), and Dongmei Zhang (Microsoft Research, China)

Continuous Integration

What Helped, and what did not? An Evaluation of the Strategies to Improve Continuous Integration .213.....
Xianhao Jin (Virginia Tech) and Francisco Servant (Virginia Tech)

Deep Neural Networks: Data Selection

Distribution-Aware Testing of Neural Networks Using Generative Models .226.....
Swaroop Dola (University of Virginia, USA), Matthew B. Dwyer (University of Virginia, USA), and Mary Lou Soffa (University of Virginia, USA)

An Empirical Study of Refactorings and Technical Debt in Machine Learning Systems .238.....
Yiming Tang (City University of New York), Raffi Khatchadourian (City University of New York), Mehdi Bagherzadeh (Oakland University), Rhia Singh (City University of New York), Ajani Stewart (City University of New York), and Anita Raja (City University of New York)

DeepLocalize: Fault Localization for Deep Neural Networks .251.....
Mohammad Wardat (Iowa State University, USA), Wei Le (Iowa State University, USA), and Hriday Rajan (Iowa State University, USA)

Deep Neural Networks: Hacking

DeepPayload: Black-box Backdoor Attack on Deep Learning Models through Neural Payload Injection .263.....
Yuanchun Li (Microsoft Research, China), Jiayi Hua (Beijing University of Posts and Telecommunications, China), Haoyu Wang (Beijing University of Posts and Telecommunications, China), Chunyang Chen (Monash University, Australia), and Yunxin Liu (Microsoft Research, China)

Reducing DNN Properties to Enable Falsification with Adversarial Attacks .275.....
David Shriver (University of Virginia, USA), Sebastian Elbaum (University of Virginia, USA), and Matthew B. Dwyer (University of Virginia, USA)

Deep Neural Networks: Quality Assurance

- Graph-Based Fuzz Testing for Deep Learning Inference Engines .288.....
Weisi Luo (HiSilicon, China), Dong Chai (HiSilicon, China), Xiaoyue Ruan (HiSilicon, China), Jiang Wang (HiSilicon, China), Chunrong Fang (Nanjing University, China), and Zhenyu Chen (Nanjing University, China)
- RobOT: Robustness-Oriented Testing for Deep Learning Systems .300.....
Jingyi Wang (Zhejiang University), Jialuo Chen (Zhejiang University), Youcheng Sun (Queen's University Belfast), Xingjun Ma (Deakin University), Dongxia Wang (Zhejiang University), Jun Sun (Singapore Management University), and Peng Cheng (Zhejiang University)
- Scalable Quantitative Verification for Deep Neural Networks .312.....
Teodora Baluta (National University of Singapore), Zheng Leong Chua (Independent Researcher), Kuldeep S. Meel (National University of Singapore), and Prateek Saxena (National University of Singapore)

Deep Neural Networks: Supporting SE Tasks #1

- Traceability Transformed: Generating More Accurate Links with Pre-Trained BERT Models .324...
Jinfeng Lin (University Of Notre Dame, USA), Yalin Liu (University Of Notre Dame, USA), Qingkai Zeng (University Of Notre Dame, USA), Meng Jiang (University Of Notre Dame, USA), and Jane Cleland-Huang (University Of Notre Dame, USA)

Deep Neural Networks: Supporting SE Tasks #2

- Studying the Usage of Text-To-Text Transfer Transformer to Support Code-Related Tasks .336.....
Antonio Mastropaolo (Università della Svizzera italiana (USI), Switzerland), Simone Scalabrino (University of Molise, Italy), Nathan Cooper (William and Mary, USA), David Nader Palacio (William and Mary, USA), Denys Poshyvanyk (William and Mary, USA), Rocco Oliveto (University of Molise, Italy), and Gabriele Bavota (Università della Svizzera italiana (USI), Switzerland)

Deep Neural Networks: Validation #1

- Operation is the Hardest Teacher: Estimating DNN Accuracy Looking for Mispredictions .348.....
Antonio Guerriero (University of Naples Federico II, Italy), Roberto Pietrantuono (University of Naples Federico II, Italy), and Stefano Russo (University of Naples Federico II, Italy)
- AUTOTRAINER: An Automatic DNN Training Problem Detection and Repair System .359.....
Xiaoyu Zhang (Xi'an Jiaotong University, China), Juan Zhai (Rutgers University, United States), Shiqing Ma (Rutgers University, United States), and Chao Shen (Xi'an Jiaotong University, China)

Self-Checking Deep Neural Networks in Deployment .372.....	
	<i>Yan Xiao (National University of Singapore, Singapore), Ivan Beschastnikh (University of British Columbia, Canada), David S. Rosenblum (George Mason University, USA), Changsheng Sun (National University of Singapore, Singapore), Sebastian Elbaum (University of Virginia, USA), Yun Lin (National University of Singapore, Singapore), and Jin Song Dong (National University of Singapore, Singapore)</i>

Deep Neural Networks: Validation #2

Measuring Discrimination to Boost Comparative Testing for Multiple Deep Learning Models .385.	
	<i>Linghan Meng (Nanjing University, China), Yanhui Li (Nanjing University, China), Lin Chen (Nanjing University, China), Zhi Wang (Nanjing University, China), Di Wu (Momenta, China), Yuming Zhou (Nanjing University, China), and Baowen Xu (Nanjing University, China)</i>
Prioritizing Test Inputs for Deep Neural Networks via Mutation Analysis .397.....	
	<i>Zan Wang (Tianjin University, China), Hanmo You (Tianjin University, China), Junjie Chen (Tianjin University, China), Yingyi Zhang (Tianjin University, China), Xuyuan Dong (Tianjin University, China), and Wenbin Zhang (Tianjin University, China)</i>
Testing Machine Translation via Referential Transparency .410.....	
	<i>Pinjia He (ETH Zurich, Switzerland), Clara Meister (ETH Zurich, Switzerland), and Zhendong Su (ETH Zurich, Switzerland)</i>

Defect Prediction: Automation #1

Automatic Web Testing Using Curiosity-Driven Reinforcement Learning .423.....	
	<i>Yan Zheng (Tianjin University, China; Nanyang Technological University, Singapore; Kyushu University, Japan), Yi Liu (Nanyang Technological University, Singapore; Southern University of Science and Technology, China; Kyushu University, Japan), Xiaofei Xie (Nanyang Technological University, Singapore), Yepang Liu (Southern University of Science and Technology, China), Lei Ma (Kyushu University, Japan), Jianye Hao (Tianjin University, China), and Yang Liu (Nanyang Technological University, Singapore)</i>

Defect Prediction: Automation #2

Evaluating SZZ Implementations Through a Developer-Informed Oracle .436.....	
	<i>Giovanni Rosa (University of Molise, Italy), Luca Pascarella (Università della Svizzera italiana, Switzerland), Simone Scalabrino (University of Molise, Italy), Rosalia Tufano (Università della Svizzera italiana, Switzerland), Gabriele Bavota (Università della Svizzera italiana, Switzerland), Michele Lanza (Università della Svizzera italiana, Switzerland), and Rocco Oliveto (University of Molise, Italy)</i>

Defect Prediction: Data Issues and Bug Classification

- Early Life Cycle Software Defect Prediction. Why? How? .448.....
Shrikanth N.C. (North Carolina State University, USA), Suvodeep Majumder (North Carolina State University, USA), and Tim Menzies (North Carolina State University, USA)
- IoT Bugs and Development Challenges .460.....
Amir Makhshari (University of British Columbia, Canada) and Ali Mesbah (University of British Columbia, Canada)

Defect Prediction: Modeling and Performance

- How Developers Optimize Virtual Reality Applications: A Study of Optimization Commits in Open Source Unity Projects .473.....
Fariha Nusrat (University of Texas at San Antonio), Foyzul Hassan (University of Michigan-Dearborn), Hao Zhong (Shanghai Jiao Tong University), and Xiaoyin Wang (University of Texas at San Antonio)

Developers: Behavior

- “Do this! Do that!, and Nothing will Happen” Do Specifications Lead to Securely Stored Passwords? .486.....
Joseph Hallett (University of Bristol), Nikhil Patnaik (University of Bristol), Benjamin Shreeve (University of Bristol), and Azwais Rashid (University of Bristol)
- Why Don't Developers Detect Improper Input Validation? ; DROP TABLE Papers; -- .499.....
Larissa Braz (University of Zurich), Enrico Fregnan (University of Zurich), Gül Çalikli (University of Zurich), and Alberto Bacchelli (University of Zurich)

Developers: Experiments

- The Mind Is a Powerful Place: How Showing Code Comprehensibility Metrics Influences Code Understanding .512.....
Marvin Wyrich (University of Stuttgart, Germany), Andreas Preikschat (University of Stuttgart, Germany), Daniel Graziotin (University of Stuttgart, Germany), and Stefan Wagner (University of Stuttgart, Germany)
- Program Comprehension and Code Complexity Metrics: An fMRI Study .524.....
Norman Peitek (Leibniz Institute for Neurobiology, Germany), Sven Apel (Saarland University, Saarland Informatics Campus, Germany), Chris Parnin (NC State University, USA), André Brechmann (Leibniz Institute for Neurobiology, Germany), and Janet Siegmund (Chemnitz University of Technology, Germany)

Developers: General Issues

- Do you Really Code? Designing and Evaluating Screening Questions for Online Surveys with Programmers .537.....
Anastasia Danilova (University of Bonn, Germany), Alena Naiakshina (University of Bonn, Germany), Stefan Horstmann (University of Bonn, Germany), and Matthew Smith (University of Bonn, Fraunhofer FKIE, Germany)
- How Gamification Affects Software Developers: Cautionary Evidence from a Natural Experiment on GitHub .549.....
Lukas Moldon (RWTH Aachen University, Germany), Markus Strohmaier (RWTH Aachen University & GESIS - Leibniz Institute for the Social Sciences, Germany), and Johannes Wachs (Vienna University of Economics and Business & Complexity Science Hub Vienna, Austria)

Developers: Naming Methods and Variables

- IdBench: Evaluating Semantic Representations of Identifier Names in Source Code .562.....
Yaza Wainakh (TU Darmstadt, Germany), Moiz Rauf (University of Stuttgart, Germany), and Michael Pradel (University of Stuttgart, Germany)
- A Context-Based Automated Approach for Method Name Consistency Checking and Suggestion .574
Yi Li (New Jersey Institute of Technology, USA), Shaohua Wang (New Jersey Institute of Technology, USA), and Tien Nguyen (The University of Texas at Dallas, USA)
- On the Naming of Methods: A Survey of Professional Developers .587.....
Reem Alsuhaibani (Kent State University, USA; Prince Sultan University, Saudi Arabia), Christian Newman (Rochester Institute of Technology, USA), Michael Decker (Bowling Green State University, USA), Michael Collard (The University of Akron, USA), and Jonathan Maletic (Kent State University, USA)

Developers: Observational Studies

- Relating Reading, Visualization, and Coding for New Programmers: A Neuroimaging Study .600..
Madeline Endres (University of Michigan), Zachary Karas (University of Michigan), Xiaosu Hu (University of Michigan), Ioulia Kovelman (University of Michigan), and Westley Weimer (University of Michigan)

Developers: Onboarding

- A Case Study of Onboarding in Software Teams: Tasks and Strategies .613.....
Ju An (University of California, Berkeley, USA), Sajjani Hitesh (Microsoft, USA), Kelly Scot (Microsoft, USA), and Herzig Kim (Microsoft, USA)

Developers: Well-Being and Productivity

"How Was Your Weekend?" Software Development Teams Working From Home During COVID-19 ... 624

Courtney Miller (New College of Florida, USA), Paige Rodeghero (Clemson University, USA), Margaret-Anne Storey (University of Victoria, Canada), Denae Ford (Microsoft Research, USA), and Thomas Zimmermann (Microsoft Research, USA)

Fault Localization #1

FLACK: Counterexample-Guided Fault Localization for Alloy Models .637.....

Guolong Zheng (University of Nebraska-Lincoln), ThanhVu Nguyen (University of Nebraska, Lincoln), Simón Gutiérrez Brida (University of Río Cuarto and CONICET), Germán Regis (University of Río Cuarto and CONICET), Marcelo F. Frias (Software Engineering Instituto Tecnológico de Buenos Aires), Nazareno Aguirre (University of Río Cuarto and CONICET), and Hamid Bagheri (University of Nebraska-Lincoln)

Improving Fault Localization by Integrating Value and Predicate Based Causal Inference Techniques .649.....

Yigit Kucuk (Case Western Reserve University, USA), Tim A. D. Henderson (Google Inc., USA), and Andy Podgurski (Case Western Reserve University, USA)

Fault Localization #2

Fault Localization with Code Coverage Representation Learning .661.....

Yi Li (New Jersey Institute of Technology, USA), Shaohua Wang (New Jersey Institute of Technology, USA), and Tien Nguyen (The University of Texas at Dallas, USA)

Fault Localization #3

An Empirical Study on Deployment Faults of Deep Learning Based Mobile Applications .674.....

Zhenpeng Chen (Peking University, China), Huihan Yao (Peking University, China), Yiling Lou (Peking University, China), Yanbin Cao (Peking University, China; Peking University Information Technology Institute, China), Yuanqiang Liu (Peking University Information Technology Institute, China), Haoyu Wang (Beijing University of Posts and Telecommunications, China), and Xuanzhe Liu (Peking University, China)

Extracting Concise Bug-Fixing Patches from Human-Written Patches in Version Control Systems .686.....

Yanjie Jiang (Beijing Institute of Technology, China), Hui Liu (Beijing Institute of Technology, China), Nan Niu (University of Cincinnati, USA), Lu Zhang (Peking University, China), and Yamin Hu (Beijing Institute of Technology, China)

Fuzzing

- Input Algebras .699.....
Rahul Gopinath (CISPA Helmholtz Center for Information Security, Germany), Hamed Nemati (CISPA Helmholtz Center for Information Security, Germany), and Andreas Zeller (CISPA Helmholtz Center for Information Security, Germany)
- Fuzzing Symbolic Expressions .711.....
Luca Borzacchiello (Sapienza University of Rome, Italy), Emilio Coppa (Sapienza University of Rome, Italy), and Camil Demetrescu (Sapienza University of Rome, Italy)
- Growing a Test Corpus with Bonsai Fuzzing .723.....
Vasudev Vikram (University of California, Berkeley, USA), Rohan Padhye (Carnegie Mellon University, USA), and Koushik Sen (University of California, Berkeley, USA)

Games

- We'll Fix It in Post: What Do Bug Fixes in Video Game Update Notes Tell Us? .736.....
Andrew Truelove (University of California, USA), Eduardo Santana de Almeida (Federal University of Bahia, Brazil), and Iftekhar Ahmed (University of California, USA)

GUI Design

- GUIGAN: Learning to Generate GUI Designs Using Generative Adversarial Networks .748.....
Tianming Zhao (Jilin University, China), Chunyang Chen (Monash University, Australia), Yuanming Liu (Jilin University, China), and Xiaodong Zhu (Jilin University, China)
- Don't Do That! Hunting Down Visual Design Smells in Complex UIs Against Design Guidelines .761
Bo Yang (Zhejiang University, China), Zhenchang Xing (Australian National University, Australia), Xin Xia (Monash University, Australia), Chunyang Chen (Monash University, Australia), Deheng Ye (Tencent AI Lab, China), and Shanping Li (Zhejiang University, China)

Handling Ecosystems of Forked Projects

- Same File, Different Changes: The Potential of Meta-Maintenance on GitHub .773.....
Hideaki Hata (Nara Institute of Science and Technology), Raula Gaikovina Kula (Nara Institute of Science and Technology), Takashi Ishio (Nara Institute of Science and Technology), and Christoph Treude (University of Adelaide)
- Can Program Synthesis be Used to Learn Merge Conflict Resolutions? An Empirical Analysis .785.
Rangset Pan (Iowa State University, USA), Vu Le (Microsoft Corporation, USA), Nachiappan Nagappan (Microsoft Corporation, USA), Sumit Gulwani (Microsoft Corporation, USA), Shuvendu Lahiri (Microsoft Corporation, USA), and Mike Kaufman (Microsoft Corporation, USA)

Identifying Information Leaks

- Abacus: Precise Side-Channel Analysis .797.....
Qinkun Bao (The Pennsylvania State University), Zihao Wang (The Pennsylvania State University), Xiaoting Li (The Pennsylvania State University), James R. Larus (EPFL), and Dinghao Wu (The Pennsylvania State University)
- Data-Driven Synthesis of Provably Sound Side Channel Analyses .810.....
Jingbo Wang (University of Southern California), Chungha Sung (University of Southern California), Mukund Raghthaman (University of Southern California), and Chao Wang (University of Southern California)

Image Processing

- IMGDroid: Detecting Image Loading Defects in Android Applications .823.....
Wei Song (Nanjing University of Science and Technology, China), Mengqi Han (Nanjing University of Science and Technology, China), and Jeff Huang (Texas A&M University, USA)

Model Checking

- Fast Parametric Model Checking through Model Fragmentation .835.....
Xinwei Fang (University of York, UK), Radu Calinescu (University of York, UK), Simos Gerasimou (University of York, UK), and Faisal Alhwickem (University of York, UK)
- Trace-Checking CPS Properties: Bridging the Cyber-Physical Gap .847.....
Claudio Menghi (University of Luxembourg, Luxembourg), Enrico Viganò (University of Luxembourg, Luxembourg), Domenico Bianculli (University of Luxembourg, Luxembourg), and Lionel C. Briand (University of Luxembourg, Luxembourg; University of Ottawa, Canada)

Modularization and Reusability

- CENTRIS: A Precise and Scalable Approach for Identifying Modified Open-Source Software Reuse .860.....
Seunghoon Woo (Korea University), Sunghan Park (Korea University), Seulbae Kim (Georgia Institute of Technology), Heejo Lee (Korea University), and Hakjoo Oh (Korea University)

Interpretation-Enabled Software Reuse Detection Based on a Multi-level Birthmark Model .873.....

Xi Xu (Network Security, Ministry of Education, China; Xi'an Jiaotong University, China), Qinghua Zheng (Network Security, Ministry of Education, China; Xi'an Jiaotong University, China), Zheng Yan (Xidian University, China; Aalto University, Finland), Ming Fan (Network Security, Ministry of Education, China; Xi'an Jiaotong University, China), Ang Jia (Network Security, Ministry of Education, China; Xi'an Jiaotong University, China), and Ting Liu (Network Security, Ministry of Education, China; Xi'an Jiaotong University, China)

Monitoring Cloud-Based Services

Fast Outage Analysis of Large-Scale Production Clouds with Service Correlation Mining .885.....

Yaohui Wang (Fudan University, China; Shanghai Key Laboratory of Intelligent Information Processing, China), Guozheng Li (Peking University, China), Zijian Wang (Fudan University, China; Shanghai Key Laboratory of Intelligent Information Processing, China), Yu Kang (Microsoft Research, China), Yangfan Zhou (Fudan University, China; Shanghai Key Laboratory of Intelligent Information Processing, China), Hongyu Zhang (The University of Newcastle, Australia), Feng Gao (Microsoft Azure, USA), Jeffrey Sun (Microsoft Azure, USA), Li Yang (Microsoft Azure, USA), Pochian Lee (Microsoft Azure, USA), Zhangwei Xu (Microsoft Azure, USA), Pu Zhao (Microsoft Research, China), Bo Qiao (Microsoft Research, China), Liqun Li (Microsoft Research, China), Xu Zhang (Microsoft Research, China), and Qingwei Lin (Microsoft Research, China)

Mutation Testing: General Issues

MuDelta: Delta-Oriented Mutation Testing at Commit Time .897.....

Wei Ma (SnT, University of Luxembourg, Luxembourg), Thierry Titcheu Chekam (SnT, University of Luxembourg, Luxembourg), Mike Papadakis (SnT, University of Luxembourg, Luxembourg), and Mark Harman (Facebook and University College London, UK)

Does Mutation Testing Improve Testing Practices? .910.....

Goran Petrović (Google Switzerland, GmbH, Switzerland), Marko Ioanković (Google Switzerland, GmbH, Switzerland), Gordon Fraser (University of Passau, Germany), and René Just (University of Washington, Seattle, USA)

Obtaining Information from App User Reviews #1

Identifying Key Features from App User Reviews .922.....

Huayao Wu (Nanjing University, China), Wenjun Deng (Nanjing University, China), Xintao Niu (Nanjing University, China), and Changhai Nie (Nanjing University, China)

CHAMP: Characterizing Undesired App Behaviors from User Comments Based on Market Policies 933

Yangyu Hu (Chongqing University of Posts and Telecommunications, China), Haoyu Wang (Beijing University of Posts and Telecommunications, China), Tiantong Ji (Case Western Reserve University, USA), Xusheng Xiao (Case Western Reserve University, USA), Xiapu Luo (The Hong Kong Polytechnic University, China), Peng Gao (University of California, USA), and Yao Guo (Peking University, China)

Prioritize Crowdsourced Test Reports via Deep Screenshot Understanding .946.....

Shengcheng Yu (Nanjing University, China), Chunrong Fang (Nanjing University, China), Zhenfei Cao (Nanjing University, China), Xu Wang (Nanjing University, China), Tongyu Li (Nanjing University, China), and Zhenyu Chen (Nanjing University, China)

It Takes Two to Tango: Combining Visual and Textual Information for Detecting Duplicate Video-Based Bug Reports .957.....

Nathan Cooper (College of William and Mary, USA), Carlos Bernal-Cárdenas (College of William and Mary, USA), Oscar Chaparro (College of William and Mary, USA), Kevin Moran (George Mason University, USA), and Denys Poshyvanyk (College of William and Mary, USA)

Obtaining Information from App User Reviews #2

Automatically Matching Bug Reports With Related App Reviews .970.....

Marlo Haering (University of Hamburg, Germany), Christoph Stanik (University of Hamburg, Germany), and Walid Maalej (University of Hamburg, Germany)

Open Source: Developers' Skills

What Makes a Great Maintainer of Open Source Projects? .982.....

Edson Dias (UFPA, Brazil), Paulo Meirelles (UNIFESP, Brazil), Fernando Castor (UFPE, Brazil), Igor Steinmacher (UTFPR, Brazil; NAU, USA), Igor Wiese (UTFPR, Brazil), and Gustavo Pinto (UFPA, Brazil)

Representation of Developer Expertise in Open Source Software .995.....

Tapajit Dey (The University of Tennessee, USA), Andrey Karnauch (The University of Tennessee, USA), and Audris Mockus (The University of Tennessee, USA)

Open Source: General Issues

Extracting Rationale for Open Source Software Development Decisions — A Study of Python Email Archives .1008.....

Pankajeshwara Nand Sharma (University of Otago, New Zealand), Bastin Tony Roy Savarimuthu (University of Otago, New Zealand), and Nigel Stanger (University of Otago, New Zealand)

Open Source: Participants' Motivations

Leaving My Fingerprints: Motivations and Challenges of Contributing to OSS for Social Good .1020

Yu Huang (University of Michigan, MI), Danae Ford (Microsoft Research, USA), and Thomas Zimmermann (Microsoft Research, USA)

Onboarding vs. Diversity, Productivity and Quality — Empirical Study of the OpenStack

Ecosystem .1033.....

Armstrong Foundjem (Queen's University, Canada), Ellis Eghan (Polytechnique Montreal, Canada), and Bram Adams (Queen's University, Canada)

The Shifting Sands of Motivation: Revisiting What Drives Contributors in Open Source .1046.....

Marco Gerosa (Northern Arizona University, USA), Igor Wiese (Universidade Tecnológica Federal do Paraná, Brazil), Bianca Trinkenreich (Northern Arizona University, USA), Georg Link (Bitergia, USA), Gregorio Robles (Universidad Rey Juan Carlos, Spain), Christoph Treude (University of Adelaide, Australia), Igor Steinmacher (Northern Arizona University, USA; Universidade Tecnológica Federal do Paraná, Brazil), and Anita Sarma (Oregon State University, USA)

Performance Modeling of Highly Configurable Software Systems

White-Box Performance-Influence Models: A Profiling and Learning Approach .1059.....

Max Weber (Leipzig University, Germany), Sven Apel (Saarland University, Saarland Informatics Campus, Germany), and Norbert Siegmund (Leipzig University, Germany)

White-Box Analysis over Machine Learning: Modeling Performance of Configurable Systems .1072

Miguel Velez (Carnegie Mellon University), Pooyan Jamshidi (University of South Carolina), Norbert Siegmund (Leipzig University), Sven Apel (Saarland University), and Christian Kästner (Carnegie Mellon University)

Privacy in Apps: Cases from COVID-19

An Empirical Assessment of Global COVID-19 Contact Tracing Applications .1085.....

Ruoxi Sun (The University of Adelaide, Australia), Wei Wang (The University of Adelaide, Australia), Minhui Xue (The University of Adelaide, Australia), Gareth Tyson (Queen Mary University of London, United Kingdom), Seyit Camtepe (CSIRO-Data61, Australia), and Damith C. Ranasinghe (The University of Adelaide, Australia)

Sustainable Solving: Reducing the Memory Footprint of IFDS-Based Data Flow Analyses Using Intelligent Garbage Collection .1098.....

Steven Arzt (Fraunhofer Institute for Secure Information Technology, Germany)

Program Repair: Automatic Patching

- Synthesizing Object State Transformers for Dynamic Software Updates .1111.....
Zelin Zhao (Nanjing University, China), Yanyan Jiang (Nanjing University, China), Chang Xu (Nanjing University, China), Tianxiao Gu (Alibaba Group, USA), and Xiaoxing Ma (Nanjing University, China)
- Fast and Precise On-the-Fly Patch Validation for All .1123.....
Lingchao Chen (The University of Texas at Dallas), Yicheng Ouyang (The University of Texas at Dallas), and Lingming Zhang (University of Illinois at Urbana-Champaign)

Program Repair: General Issues

- Bounded Exhaustive Search of Alloy Specification Repairs .1135.....
Simón Gutiérrez Brida (University of Rio Cuarto, Argentina; University of Rio Cuarto and CONICET, Argentina), Germán Regis (University of Rio Cuarto, Argentina), Guolong Zheng (University of Nebraska-Lincoln, USA), Hamid Bagheri (University of Nebraska-Lincoln, USA), ThanhVu Nguyen (University of Nebraska-Lincoln, USA), Nazareno Aguirre (University of Rio Cuarto, Argentina; University of Rio Cuarto and CONICET, Argentina), and Marcelo Frias (Buenos Aires Institute of Technology and CONICET, Argentina; Buenos Aires Institute of Technology, Argentina)
- Shipwright: A Human-in-the-Loop System for Dockerfile Repair .1148.....
Jordan Henkel (University of Wisconsin–Madison, USA), Denini Silva (Federal University of Pernambuco, Brazil), Leopoldo Teixeira (Federal University of Pernambuco, Brazil), Marcelo d’ Amorim (Federal University of Pernambuco, Brazil), and Thomas Reps (University of Wisconsin–Madison, USA)
- CURE: Code-Aware Neural Machine Translation for Automatic Program Repair .1161.....
Nan Jiang (Purdue University, USA), Thibaud Lutellier (University of Waterloo, Canada), and Lin Tan (Purdue University, USA)

Programming: Code Analysis Algorithms

- A Differential Testing Approach for Evaluating Abstract Syntax Tree Mapping Algorithms .1174..
Yuanrui Fan (Zhejiang University, China; PengCheng Laboratory, China), Xin Xia (Monash University, Australia), David Lo (Singapore Management University, Singapore), Ahmed E. Hassan (Queen’s University, Canada), Yuan Wang (Huawei Sweden Research Center), and Shanping Li (Zhejiang University, China)
- InferCode: Self-Supervised Learning of Code Representations by Predicting Subtrees .1186.....
Nghi D. Q. Bui (Singapore Management University), Yijun Yu (The Open University, UK), and Lingxiao Jiang (Singapore Management University)

Programming: General Issues

- Efficient Compiler Autotuning via Bayesian Optimization .1198.....
Junjie Chen (Tianjin University, China), Ningxin Xu (Tianjin University, China), Peiqi Chen (Tianjin University, China), and Hongyu Zhang (The University of Newcastle, Australia)
- TransRegex: Multi-modal Regular Expression Synthesis by Generate-and-Repair .1210.....
Yeting Li (State Key Laboratory of Computer Science, Institute of Software, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Shuaimin Li (University of Chinese Academy of Sciences, China), Zhiwu Xu (Shenzhen University, China), Jialun Cao (The Hong Kong University of Science and Technology, China), Zixuan Chen (State Key Laboratory of Computer Science, Institute of Software, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Yun Hu (Science & Technology on Integrated Information System Laboratory, Institute of Software, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Haiming Chen (State Key Laboratory of Computer Science, Institute of Software, Chinese Academy of Sciences, China), and Shing-Chi Cheung (The Hong Kong University of Science and Technology, China)
- EvoSpex: An Evolutionary Algorithm for Learning Postconditions .1223.....
Facundo Molina (University of Rio Cuarto and CONICET, Argentina; National Council for Scientific and Technical Research (CONICET), Argentina), Pablo Ponzio (University of Rio Cuarto and CONICET, Argentina; National Council for Scientific and Technical Research (CONICET), Argentina), Nazareno Aguirre (University of Rio Cuarto and CONICET, Argentina; National Council for Scientific and Technical Research (CONICET), Argentina), and Marcelo Frias (Buenos Aires Institute of Technology and CONICET, Argentina; National Council for Scientific and Technical Research (CONICET), Argentina)

Programming: Low Level

- Interface Compliance of Inline Assembly: Automatically Check, Patch and Refine .1236.....
Frédéric Recoules (Université Paris-Saclay, CEA, List, France), Sébastien Bardin (Université Paris-Saclay, CEA, List, France), Richard Bonichon (Tweag I/O, France), Matthieu Lemerre (Université Paris-Saclay, CEA, List, France), Laurent Mounier (Université Grenoble Alpes, VERIMAG, France), and Marie-Laure Potet (Université Grenoble Alpes, VERIMAG, France)
- Enabling Software Resilience in GPGPU Applications via Partial Thread Protection .1248.....
Lishan Yang (William & Mary, VA), Bin Nie (William & Mary, VA), Adwait Jog (William & Mary, VA), and Evgenia Smirni (William & Mary, VA)

Q&A in Online Platforms: Stack Overflow #1

Automatic Extraction of Opinion-Based Q&A from Online Developer Chats .1260.....
Preetha Chatterjee (University of Delaware, USA), Kostadin Damevski (Virginia Commonwealth University, USA), and Lori Pollock (University of Delaware, USA)

Q&A in Online Platforms: Stack Overflow #2

Automated Query Reformulation for Efficient Search Based on Query Logs From Stack Overflow.1273
Kaibo Cao (Nanjing University, China), Chunyang Chen (Monash University, Australia), Sebastian Baltes (University of Adelaide, Australia), Christoph Treude (University of Adelaide, Australia), and Xiang Chen (Nantong University, China)

Automatic Solution Summarization for Crash Bugs .1286.....
Haoye Wang (Zhejiang University, China), Xin Xia (Monash University, Australia), David Lo (Singapore Management University, Singapore), John Grundy (Monash University, Australia), and Xinyu Wang (Zhejiang University, China)

Supporting Quality Assurance with Automated Process-Centric Quality Constraints Checking .1298
Christoph Mayr-Dorn (Johannes Kepler University, Austria), Michael Vierhauser (Johannes Kepler University, Austria), Stefan Bichler (Johannes Kepler University, Austria), Felix Keplinger (Johannes Kepler University, Austria), Jane Cleland-Huang (University of Notre Dame, USA), Alexander Egyed (Johannes Kepler University, Austria), and Thomas Mehofer (Frequentis AG, Austria)

Quality Assurance

Understanding Bounding Functions in Safety-Critical UAV Software .1311.....
Xiaozhou Liang (SUNY Binghamton, New York), John Henry Burns (SUNY Binghamton, New York), Joseph Sanchez (SUNY Binghamton, New York), Karthik Dantu (SUNY Buffalo, New York), Lukasz Ziarek (SUNY Buffalo, New York), and Yu David Liu (SUNY Binghamton, New York)

Search-Based SE & Genetic Operations

Enhancing Genetic Improvement of Software with Regression Test Selection .1323.....
Giovani Guizzo (University College London, United Kingdom), Justyna Petke (University College London, United Kingdom), Federica Sarro (University College London, United Kingdom), and Mark Harman (University College London, United Kingdom; Facebook, United Kingdom)

Security Vulnerabilities: Different Domains

Containing Malicious Package Updates in npm with a Lightweight Permission System .1334.....
Gabriel Ferreira (Carnegie Mellon University), Limin Jia (Carnegie Mellon University), Joshua Sunshine (Carnegie Mellon University), and Christian Kästner (Carnegie Mellon University)

Too Quiet in the Library: An Empirical Study of Security Updates in Android Apps' Native Code .1347.....

Sumaya Almanee (University of California Irvine), Arda Unal (University of California Irvine), Mathias Payer (EPFL), and Joshua Garcia (University of California Irvine)

If It's Not Secure, It Should Not Compile: Preventing DOM-Based XSS in Large-Scale Web Development with API Hardening .1360.....

Pei Wang (Google), Julian Bangert (Google), and Christoph Kern (Google)

Security Vulnerabilities: From 3rd Parties' Code

Why Security Defects Go Unnoticed During Code Reviews? A Case-Control Study of the Chromium OS Project .1373.....

Rajshakhar Paul (Wayne State University, USA), Asif Kamal Turzo (Wayne State University, USA), and Amiangshu Bosu (Wayne State University, USA)

Security Vulnerabilities: General Issues #1

Technical Leverage in a Software Ecosystem: Development Opportunities and Security Risks .1386

Fabio Massacci (University of Trento (IT), Vrije Universiteit Amsterdam (NL)) and Ivan Pashchenko (University of Trento (IT))

Security Vulnerabilities: General Issues #2

RAICC: Revealing Atypical Inter-Component Communication in Android Apps .1398.....

Jordan Samhi (University of Luxembourg), Alexandre Bartel (University of Copenhagen), Tegawendé F. Bissyandé (University of Luxembourg), and Jacques Klein (University of Luxembourg)

Smart Contracts

Smart Contract Security: A Practitioners' Perspective .1410.....

Zhiyuan Wan (Zhejiang University), Xin Xia (Monash University), David Lo (Singapore Management University), Jiachi Chen (Monash University), Xiapu Luo (Hong Kong Polytechnic University), and Xiaohu Yang (Zhejiang University)

Social Equality and Fairness #1

AID: An Automated Detector for Gender-Inclusivity Bugs in OSS Project Pages .1423.....

Amreeta Chatterjee (Oregon State University, USA), Mariam Guizani (Oregon State University, USA), Catherine Stevens (Oregon State University, USA), Jillian Emard (Oregon State University, USA), Mary Evelyn May (Oregon State University, USA), Margaret Burnett (Oregon State University, USA), and Iftekhar Ahmed (University of California, Irvine, Irvine, CA)

Social Equality and Fairness #2

- "Ignorance and Prejudice" in Software Fairness .1436.....
Jie M. Zhang (University College London, UK) and Mark Harman (University College London, UK)

Software Log Analysis

- Semi-Supervised Log-Based Anomaly Detection via Probabilistic Label Estimation .1448.....
Lin Yang (Tianjin University, China), Junjie Chen (Tianjin University, China), Zan Wang (Tianjin University, China), Weijing Wang (Tianjin University, China), Jiajun Jiang (Tianjin University, China), Xuyuan Dong (Tianjin University, China), and Wenbin Zhang (Tianjin University, China)
- DeepLV: Suggesting Log Levels Using Ordinal Based Neural Networks .1461.....
Zhenhao Li (Concordia University, Canada), Heng Li (Polytechnique Montréal, Canada), Tse-Hsun (Peter) Chen (Concordia University, Canada), and Weiyi Shang (Concordia University, Canada)

Software Requirements

- How to Identify Boundary Conditions with Contrasty Metric? .1473.....
Weilin Luo (Sun Yat-sen University, China), Hai Wan (Sun Yat-sen University, China), Xiaotong Song (Sun Yat-sen University, China), Binhao Yang (Sun Yat-sen University, China), Hongzhen Zhong (Sun Yat-sen University, China), and Yin Chen (South China Normal University, China)
- Using Domain-Specific Corpora for Improved Handling of Ambiguity in Requirements .1485.....
Saad Ezzini (University of Luxembourg, Luxembourg), Sallam Abualhaija (University of Luxembourg, Luxembourg), Chetan Arora (Deakin University, Australia; University of Luxembourg, Luxembourg), Mehrdad Sabetzadeh (University of Ottawa, Canada; University of Luxembourg, Luxembourg), and Lionel C. Briand (University of Ottawa, Canada; University of Luxembourg, Luxembourg)

Source Code Histories and Documentation

- On Indirectly Dependent Documentation in the Context of Code Evolution: A Study .1498.....
Devika Sondhi (IIIT-Delhi), Aavyakt Gupta (IIIT-Delhi), Salil Purandare (IIIT-Delhi), Ankit Rana (IIIT-Delhi), Deepanshu Kaushal (IIIT-Delhi), and Rahul Purandare (IIIT-Delhi)
- CodeShovel: Constructing Method-Level Source Code Histories .1510.....
Felix Grund (University of British Columbia, Canada), Shaiful Alam Chowdhury (University of British Columbia, Canada), Nick C. Bradley (University of British Columbia, Canada), Braxton Hall (University of British Columbia, Canada), and Reid Holmes (University of British Columbia, Canada)

Testing: 3rd Party Software

- Evaluating Unit Testing Practices in R Packages .1523.....
Melina Vidoni (RMIT University, Australia)
- Data-Oriented Differential Testing of Object-Relational Mapping Systems .1535.....
Thodoris Sotiropoulos (Athens University of Economics and Business, Greece), Stefanos Chaliasos (Athens University of Economics and Business, Greece), Vaggelis Atlidakis (Columbia University, USA), Dimitris Mitropoulos (Athens University of Economics and Business, Greece), and Diomidis Spinellis (Athens University of Economics and Business, Greece)

Testing: Automatic Test Generation

- Automatic Unit Test Generation for Machine Learning Libraries: How Far Are We? .1548.....
Song Wang (York University, Canada), Nishtha Shrestha (York University, Canada), Abarna Kucheri Subburaman (York University, Canada), Junjie Wang (Chinese Academy of Sciences, China), Moshi Wei (York University, Canada), and Nachiappan Nagappan (Microsoft Research, USA)

Testing: Automation

- Layout and Image Recognition Driving Cross-Platform Automated Mobile Testing .1561.....
Shengcheng Yu (Nanjing University, China), Chunrong Fang (Nanjing University, China), Yexiao Yun (Nanjing University, China), and Yang Feng (Nanjing University, China)

Testing: Flaky Tests

- FlakeFlagger: Predicting Flakiness Without Rerunning Tests .1572.....
Abdulrahman Alshammari (George Mason University, USA), Christopher Morris (Carnegie Mellon University, USA), Michael Hilton (Carnegie Mellon University, USA), and Jonathan Bell (Northeastern University, USA)
- An Empirical Analysis of UI-Based Flaky Tests .1585.....
Alan Romano (University at Buffalo, SUNY), Zihe Song (University of Texas at Dallas), Sampath Grandhi (University of Texas at Dallas), Wei Yang (University of Texas at Dallas), and Weihang Wang (University at Buffalo, SUNY)

Testing: General Issues

- GenTree: Using Decision Trees to Learn Interactions for Configurable Software .1598.....
KimHao Nguyen (University of Nebraska-Lincoln, USA) and ThanhVu Nguyen (University of Nebraska-Lincoln, USA)

Semantic Web Accessibility Testing via Hierarchical Visual Analysis .1610.....
Mohammad Bajammal (University of British Columbia, Canada) and Ali Mesbah (University of British Columbia, Canada)

Tools for the Python Language

Restoring Execution Environments of Jupyter Notebooks .1622.....
Jiawei Wang (Monash University, Australia), Li Li (Monash University, Australia), and Andreas Zeller (CISPA Helmholtz Center for Information Security, Germany)

PyART: Python API Recommendation in Real-Time .1634.....
Xincheng He (Nanjing University, China), Lei Xu (Nanjing University, China), Xiangyu Zhang (Purdue University, USA), Rui Hao (Nanjing University, China), Yang Feng (Nanjing University, China), and Baowen Xu (Nanjing University, China)

PyCG: Practical Call Graph Generation in Python .1646.....
Vitalis Salis (Athens University of Economics and Business; National Technical University of Athens), Thodoris Sotiropoulos (Athens University of Economics and Business), Panos Louridas (Athens University of Economics and Business), Diomidis Spinellis (Athens University of Economics and Business), and Dimitris Mitropoulos (Athens University of Economics and Business; National Infrastructures for Research and Technology - GRNET)

Variability and Product Lines

Seamless Variability Management with the Virtual Platform .1658.....
Wardah Mahmood (Chalmers University of Gothenburg, Sweden), Daniel Strüber (Radboud University, Nijmegen), Thorsten Berger (Chalmers University of Gothenburg, Sweden; Ruhr University Bochum, Germany), Ralf Lämmel (University of Koblenz-Landau, Germany), and Mukelabai Mukelabai (Chalmers University of Gothenburg, Sweden)

Vulnerabilities in Android #1

Fine with “1234”? An Analysis of SMS One-Time Password Randomness in Android Apps .1671..
Siqi Ma (The University of Queensland), Juanru Li (Shanghai Jiao Tong University), Hyoungshück Kim (Sungkyunwan University), Elisa Bertino (Purdue University), Surya Nepal (Data61 CSIRO), Diethelm Ostry (Data61 CSIRO), and Cong Sun (Xidian University)

App’s Auto-Login Function Security Testing via Android OS-Level Virtualization .1683.....
Wenna Song (Wuhan University, China), Jiang Ming (The University of Texas at Arlington, USA), Lin Jiang (Independent Researcher, China), Han Yan (Wuhan University, China), Yi Xiang (Wuhan University, China), Yuan Chen (Wuhan University, China), Jianming Fu (Wuhan University, China), and Guojun Peng (Wuhan University, China)

ATVHunter: Reliable Version Detection of Third-Party Libraries for Vulnerability
Identification in Android Applications 1695
*Xian Zhan (The Hong Kong Polytechnic University, China), Lingling Fan
(Nankai University, China), Sen Chen (Tianjin University, China),
Feng We (Nanyang Technological University, Singapore), Tianming Liu
(Monash University, Australia), Xiapu Luo (The Hong Kong Polytechnic
University, China), and Yang Liu (Nanyang Technological University,
Singapore)*

Vulnerabilities in Android #2

JUSTGen: Effective Test Generation for Unspecified JNI Behaviors on JVMs 1708
*Sungjae Hwang (KAIST, South Korea), Sungho Lee (Chungnam National
University, South Korea), Jihoon Kim (KAIST, South Korea), and
Sukyoungh Ryu (KAIST, South Korea)*

Author Index
