

PROCEEDINGS OF SPIE

Eighth European Seminar on Precision Optics Manufacturing

**Oliver Föhnle
Gerald Fütterer
Rolf Rascher
Alexander Haberl**
Editors

**13–14 April 2021
Teisnach, Germany**

Organized by
Deggendorf Institute of Technology (Germany)
Technology Campus Teisnach (Germany)

Technical Cosponsor
SPIE

Published by
SPIE

Volume 11853

Proceedings of SPIE 0277-786X, V. 11853

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Eighth European Seminar on Precision Optics Manufacturing*, edited by Alexander Haberl, Gerald Fütterer, Oliver W. Föhnle, Rolf Rascher, Proc. of SPIE 11853, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

EIGHTH EUROPEAN SEMINAR ON PRECISION OPTICS MANUFACTURING

- 11853 02 **Glass-welding with USP-lasers and long working distances** [11853-1]
- 11853 03 **Atmospheric plasma jet machining of an optical element made from borosilicate crown glass**
[11853-2]
- 11853 04 **Silicone-on-glass (SOG) diffractive optical elements (DOE) for the correction of chromatic
aberrations and lens shape** [11853-14]
- 11853 05 **High-precision glass processing with innovative coordinate grinding technology** [11853-23]
- 11853 06 **Highly flexible free form optics measurement using a semi-automatic teach in approach**
[11853-4]
- 11853 07 **Design of a measuring machine for optical filters** [11853-7]
- 11853 08 **Testing surface form of precision optics by a point diffraction interferometer with two beams**
[11853-18]
- 11853 09 **Interferometrical profilometer for high precision 3D measurements of free-form optics
topography with large local slopes** [11853-5]
- 11853 0A **Balancing optical system design and optical fabrication chain design** [11853-11]
- 11853 0B **Tolerances for surface form deviations** [11853-17]
- 11853 0C **Plasma-induced shaping of liquid-based polymer lenses** [11853-9]
- 11853 0D **Industry 4.0 in the fabrication of optical components: development, presence, and
requirements** [11853-10]
- 11853 0E **In-process surface roughness measuring device for information-based real-time polishing
process adjustment and optimization** [11853-24]
- 11853 0F **Knowing the limits: surface deviation in the mid-spatial-frequency range by deflectometric
measurements** [11853-20]
- 11853 0K **Acoustic measurements for optics** [11853-19]
