

# PROCEEDINGS OF SPIE

## *UV and Higher Energy Photonics: From Materials to Applications 2021*

Yong-Hoon Cho  
Gilles Lérondel  
Atsushi Taguchi  
Editors

1–5 August 2021  
San Diego, California, United States

Sponsored and Published by  
SPIE

Volume 11801

Proceedings of SPIE 0277-786X, V. 11801

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at [SPIDigitalLibrary.org](http://SPIDigitalLibrary.org).

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *UV and Higher Energy Photonics: From Materials to Applications 2021*, edited by Yong-Hoon Cho, Gilles L  rondel, Atsushi Taguchi, Proc. of SPIE 11801, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

---

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

# Contents

---

## APPLICATIONS OF UV, DEEP UV, VACUUM UV, AND EXTREME UV PHOTONICS

---

- 11801 04 Direct patterning of TiO<sub>2</sub> and TiN based sol-gel using laser interference and nanospheres UV lithography (Invited Paper) [11801-18]
- 11801 05 Emerging applications of deep ultraviolet light emitting diodes (Invited Paper) [11801-2]

---

## UV AND DEEP UV BIOSENSING AND ANALYSIS WITH UV AND HIGHER ENERGY PHOTONICS

---

- 11801 07 UV raman imaging for hazardous substance detection applications (Invited Paper) [11801-6]
