SPIE

Volume 11812

Proceedings of SPIE 0277-786X, V. 11812

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Molecular and Nano Machines IV*, edited by Zouheir Sekkat, Takashige Omatsu, Proc. of SPIE 11812, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

ISSN: 0277-786X

ISSN: 1996-756X (electronic)

ISBN: 9781510644625

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

LIGHT RESPONSIVE MOLECULAR MATERIALS AND DEVICES

- 11812 02 **New paradigms in materials and devices for hybrid electro-optics and optical rectification (Keynote Paper)** [11812-1]

TWO-PHOTON MICRO/NANOFABRICATION OF FUNCTIONAL MATERIALS AND SYSTEMS

- 11812 0E **Multi-material micro stereolithography using multiple droplets of photopolymers for the production of heterogeneous structures (Invited Paper)** [11812-15]

POSTER SESSION

- 11812 0L **Development and construction of a point of care device for application to molecular diagnostics** [11812-23]
