PROCEEDINGS OF SPIE

Sixth International Workshop on Pattern Recognition

Xudong Jiang
Li Tan
Tieling Chen
Guojian Chen
Editors

25–27 June 2021
Beijing, China

Sponsored by
Beijing Technology and Business University (China)

Hosted by
School of Computer and Information Engineering of BTBU, Beijing Technology and Business University (China)

Technical Sponsor
Southeast University (China)

Volume 11913

Proceedings of SPIE 0277-786X, V. 11913

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *Sixth International Workshop on Pattern Recognition*, edited by Xudong Jiang, Li Tan, Tieling Chen, Guojian Chen, Proc. of SPIE 11913, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*
ix *Introduction*

IMAGE TRANSFORMATION AND ANALYSIS

11913 02 **RP-Unet: a Unet-based network with RNNPool enables computation-efficient polyp segmentation** [11913-14]

11913 03 **Research on infrared and visible image registration of substation equipment based on multi-scale Retinex and ASIFT features** [11913-26]

11913 04 **Infrared and visible image fusion algorithm for substation equipment based on NSCT and Siamese network** [11913-28]

11913 05 **Nonnegative matrix factorization of DCE-MRI for prostate cancer classification** [11913-10]

11913 06 **Single frame shadow segmentation based on image enhancement for video SAR** [11913-9]

11913 07 **Image classification based on self-attention convolutional neural network** [11913-12]

11913 08 **Quality perception and discrimination thresholds in quantised triangle meshes** [11913-6]

DATA ANALYSIS AND MODEL CALCULATION

11913 09 **Local Instrument with Geo-Tagging for Area Storm Surges (LIGTASS): a detection and monitoring system for marine vessels** [11913-32]

11913 0A **Tensor-patch-based discriminative marginalized least squares regression for membranous nephropathy hyperspectral data classification** [11913-17]

11913 0B **Flight trajectory prediction of point-conditioned time and altitudes** [11913-15]

11913 0C **The sentiment analysis model with multi-head self-attention and Tree-LSTM** [11913-11]

11913 0D **Improved error-correcting from extracted handwritings in Chinese** [11913-4]

11913 0E **The generalized covariance union fusion approach for distributed sensors with different fields of view** [11913-2]

11913 0F **Grading and profiling for export quality coffee beans using red green blue analysis, blob analysis, Hu's Moments, and back-propagation neural network** [11913-30]

11913 0G **Contrastive learning for solar cell micro-crack detection** [11913-8]

11913 0H **Learning human-object interactions by attention aggregation** [11913-5]

11913 0I **Surface defect detection algorithm for printing roller based on global contrast and edge gradient** [11913-13]

11913 0J **Detection of Wagyu beef sources with image classification using convolutional neural network** [11913-24]

11913 0K **Modified SLIC segmentation for medical hyperspectral cell images** [11913-16]

11913 0L **A new way of deep learning combined with street view images for air pollutant concentration prediction** [11913-29]

11913 0M **Color constancy using AlexNet convolutional neural network** [11913-1]

11913 0N **Mobile geo-tagging and cloud-based underwater garbage identification using convolutional neural network** [11913-31]
