2021 International Conference on Computer Engineering and Application (ICCEA)

ICCEA 2021

Table of Contents

Preface xvii
Committee Members xviii
Reviewers xix

Computer Algorithm and Data Model Prediction

Improvement of Style Transfer Algorithm Based on Neural Network 1
Ning Jia (Xi'an Jiaotong University, China), Xiaoyi Gong (Xi'an Jiaotong University, China), and Qiao Zhang (Xi'an Jiaotong University, China)

Semantic map generation algorithm combined with YOLOv5 7
Qing Ju (Jiangxi University of Science and Technology, China), Fei Fei Liu (Jiangxi University of Science and Technology, China), Guang Chang Li (Jiangxi University of Science and Technology, China), and Xiao Nan Wang (Jiangxi University of Science and Technology, China)

Topological Structure Optimization Algorithm of Military Communication Network Based on Genetic Algorithm 11
ZhiAng Xu (North China Institute of Computing Technology, China) and ZhiQiang Fan (Academy of Military Sciences, China)

Trusted Internet of Things Based on Trusted Computing 19
Weihua Cheng (Jiangsu Electric Power Information Technology Co. Ltd, China), Chao Xu (Jiangsu Electric Power Information Technology Co. Ltd, China), Yiqing Cheng (Jiangsu Electric Power Information Technology Co. Ltd, China), Mingyuan Zhang (Jiangsu Electric Power Information Technology Co. Ltd, China), and Haihang Niu (Jiangsu Electric Power Information Technology Co. Ltd, China)

Classification of Blockchain Consensus Mechanisms Based on PBFT Algorithm 26
Bo Gan (Engineering University of PAP, China), QiWu Wu (Engineering University of PAP, China), Xiang Li (Engineering University of PAP, China), and Yang Zhou (Engineering University of PAP, China)

Dynamic Gain Military Game Algorithm Based on Episodic Memory 30
Jun He (North China Institute of Computing Technology, China) and Jun Yang (North China Institute of Computing Technology, China)

A News Title Generation Method Based on UNILM Framework via Adversarial Training 37
Yue Heng (University of Melbourne, Australia)

Robustness and Discrimination Oriented Image Hashing with CVA and Texture Structure Descriptor ..41
Guiping Sun (Zibo Vocational Institute, China)

Pharmaceutical Anti-Counterfeiting Traceability System Based on Block Chain Double Chain ..45
Hongpeng Tian (XianUniversity Of Science And Technology, China) and Yanlong Li (XianUniversity Of Science And Technology, China)

Multi Resource Inventory Automatic Coordination Model of Supply Chain Based on Artificial Intelligence ..50
Limei Wu (Tianjin Richsoft Electric Power Information Technology Co., Ltd., China), Heng Yue (STATE GRID NINGBO ELECTRIC POWER SUPPLY COMPANY, China), and Honghong Hu (Tianjin Richsoft Electric Power Information Technology Co., Ltd., China)

UCAV Maneuvering Trajectory Prediction Based on PSO-CNN ..54
Xie Lei (Air Force Engineering University, China), Ding Dali (Air Force Engineering University, China), Zhang Hongpeng (Air Force Engineering University, China), Wang Jianpu (Jiangxi Hongdu Aviation Industry Group Co, China), and Zhang Zhuoran (Unit 95806, China)

Few-Shot Image Classification Based on LMRNet ..59
Yu Chen (Sichuan University, China), Junjie Liu (Sichuan University, China), and Yuanzhuo Li (Sichuan University, China)

Radar Signal Modulation Recognition Based on Bispectrum Features and Deep Learning ..63
Zeyu Dong (University of Electronic Science and Technology of China, China), Fengrong Lv (University of Electronic Science and Technology of China, China), Tao Wan (University of Electronic Science and Technology of China, China), Kaili Jiang (University of Electronic Science and Technology of China, China), Xueli Fang (Key Laboratory of complex aviation simulation system, China), and Lei Zhang (Key Laboratory of complex aviation simulation system, China)

Extraction and Analysis of Sub-Networks of Complex Networks-Based on Node Importance ..68
Jia Sun (Northeastern University at Qinhuangdao, China) and JianBo Zhang (Northeastern University at Qinhuangdao, China)

Sentiment Analysis of Financial Texts Based on Attention Mechanism of FinBERT and BiLSTM ..73
Wenjuan Cheng (Hefei University of Technology, China) and Siyi Chen (Hefei University of Technology, China)

Research on Security Strategy of Power Internet of Things Devices Based on Zero-Trust ..79
Kehe Wu (North China Electric Power, China), Jin Shi (North China Electric Power, China), Zhimin Guo (State Grid Henan Electric Power Research Institute, China), Zheng Zhang (State Grid Henan Electric Power Research Institute, China), and Junfei Cai (State Grid Henan Electric Power Research Institute, China)

ERNIE-BiLSTM Based Chinese Text Sentiment Classification Method ..84
Haiyuan Guo (University of Science and Technology, China), Chengying Chi (University of Science and Technology, China), and Xuegang Zhan (University of Science and Technology, China)

KVM PT Based Coverage Feedback Fuzzing for Network Key Devices .89
Lin Zhiqiang (State Key Laboratory of Mathematical Engineering and Advanced Computing, China), Peng Jianshan (State Key Laboratory of Mathematical Engineering and Advanced Computing, China), Bi Yechuan (State Key Laboratory of Mathematical Engineering and Advanced Computing, China), and Li Xiaowei (State Key Laboratory of Mathematical Engineering and Advanced Computing, China)

Data Mining Algorithm for Wireless Sensor Networks Based on Subspace Heterogeneous Fusion Matching .93
Lizhu Ye (Guangzhou College of Commerce, China), Weirong Xiu (Guangzhou College of Commerce, China), and Donghua Zheng (Guangzhou College of Commerce, China)

Location Method of Smoke Pollution Source Based on LMBP Neural Network .98
Jianwu Long (Chongqing University of Technology, China), Jiangzhou Zhu (Chongqing University of Technology, China), Xin Feng (Chongqing University of Technology, China), Tong Li (Chongqing University of Technology, China), and Xinlei Song (Chongqing University of Technology, China)

Pedestrian Fusion Tracking Method Based on Multimodal Information Com-Plementation .102
Zhang Xue (Sichuan University), Li Yi (Sichuan University), Zuo Jie (Sichuan University), and Li Shiqian (Virginia Polytechnic Institute and State University)

Predictive Analysis of the Loss of Online Shopping Users Based on Data Mining .107
Zi Liu (Beijing University of Posts and Telecommunications, China)

Hierarchical Multi-Turn Dialogue Generation Model Based on Double-Layer Decoding .111
Siyu Gong (South China Normal University, China), Biqing Zeng (South China Normal University, China), Xiaomin Chen (South China Normal University, China), Mayi Xu (South China Normal University, China), and Shengzhou Luo (South China Normal University, China)

A Dual Mapping Model for Virtual-Real Fusion in 5G .118
Gao Xirong (Chongqing University of Posts and Telecommunications, China) and Liao Dan (Chongqing University of Posts and Telecommunications, China)

Rock Painting Restoration Method Based on Saliency Detection and TV Model .122
Yin Yue (Chongqing Business Vocational College, China) and Zhou Jun (Chongqing Business Vocational College, China)

Research on Visualization Method of Large-Scale User Location Distribution Based on CesiumJS .126
Wang Yuan (China Electronics Technology Group Corporation) and Sun Jianwei (China Electronics Technology Group Corporation)

Numerical Simulation of Aerodynamic Force and Moored State in Airship Transport Process .131
Yuan Liu (Northwestern Institution of Nuclear Technology, China), Baogang Geng (Northwestern Institution of Nuclear Technology, China), Yongdong Zhang (Northwestern Institution of Nuclear Technology, China), Ziwei Wang (Northwestern Institution of Nuclear Technology, China), Du Lu (Northwestern Institution of Nuclear Technology, China), and Xuan Yao (Northwestern Institution of Nuclear Technology, China)

Short-Term wind Power Prediction of wind Farms Based on LSTM+NARX Neural Network .137
Zunyi Xu (Shandong Jianzhu University, China) and Xuran Zhang (Shandong Jianzhu University, China)

Research on Seismic Impedance Inversion Method Based on Pre-Training and Improved Residual Network .142
Jinyu Meng (China University of Petroleum (Beijing), China), Shoudong Wang (China University of Petroleum (Beijing), China), and Guohua Niu (China University of Petroleum (Beijing), China)

An Effective Integrated Intrusion Detection Model Based on Deep Neural Network .146
Wei Wan (Chinese Academy of Sciences, University of Chinese Academy of Sciences, China), Zhonglian Peng (Chinese Academy of Sciences, University of Chinese Academy of Sciences, China), Jinxia Wei (Chinese Academy of Sciences, China), Jing Zhao (Chinese Academy of Sciences, China), Chun Long (Chinese Academy of Sciences, University of Chinese Academy of Sciences, China), and Guanyao Du (Chinese Academy of Sciences, University of Chinese Academy of Sciences, China)

Meta-Learning Based Breast Abnormality Classification on Screening Mammograms .153
Yu Wang (Harbin Institute of Technology (Weihai), China), Mingjie Song (Ohio State University, U.S.), and Xinyu Tian (Duke Kunshan University, China)

Gamma Correction Method Based on Phase-Shifting Keying .157
Yucheng Liao (Wuhan University of Science and Technology, China), Shiqian Wu (Wuhan University of Science and Technology, China), Gaoxu Deng (Wuhan University of Science and Technology, China), Bin Chen (Wuhan University of Science and Technology, China), and Jie Li (Wuhan University of Science and Technology, China)

A Time Synchronization Method of Multi-Source Data for Ocean-Based Observation Platform .162
Feng Zhang (Pilot National Laboratory for Marine Science and Technology, China), Haihu Li (Pilot National Laboratory for Marine Science and Technology, China), Haibing Li (Pilot National Laboratory for Marine Science and Technology, China; Beijing Institute of Aerospace Control Device, China), and Cheng Luo (Pilot National Laboratory for Marine Science and Technology, China; Beijing Institute of Aerospace Control Device, China)

Study on Classroom Attention Evaluation Based on Facial Features and XGBoost .166
Zhang Wenlong (Chongqing Normal University, China), Wei Yan (Chongqing Normal University, China), Jiang Junrui (Chongqing Normal University, China), Zhang Kun (Chongqing Normal University, China), and Li Yuanyuan (Chongqing Normal University, China)

Support Vector Machine Prediction Model Based on Fractional Particle Swarm Algorithm .174
Jing Li (Yunnan University, China) and Chunna Zhao (Yunnan University, China)

Optimization of Welding Robot Based on Genetic Algorithm and BP Neural Network .178
JianLin Xiang (Wuhan University of Technology, China), HanYi Wang (Wuhan University of Technology, China), XuanYu Li (Wuhan University of Technology, China), and ZhiBo Zheng (Wuhan University of Technology, China)

Learning Structural Coherence Via Generative Adversarial Network for Single Image Super-Resolution .184
Yuanzhuo Li (Sichuan University, China), Junjie Liu (Sichuan University, China), and Yu Chen (Sichuan University, China)

Design of Interactive Computer Algorithm Learning Platform: Taking the Visual Programming Tool "Progressive Blockly" as an Example .189
Zhenghua Xia (Hangzhou Normal University, China), Baokun Hu (Hangzhou Normal University, China), Wanwan Diao (Hangzhou Normal University, China), and Yuqian Huang (Hangzhou Normal University, China)

Wireless Sensor Network Data Compression Sampling Technology Based on Unbalanced Data Collaborative Filtering .194
Donghua Zheng (Guangzhou College of Commerce, China), Weirong Xiu (Guangzhou College of Commerce, China), and Lizhu Ye (Guangzhou College of Commerce, China)

Research on Urban Audio Classification Based on Residual Neural Network .200
Duling Xv (Communication University of China, China) and Li Yang (Communication University of China, China)

Recognition of Cheating Behavior in Examination Room Based on Deep Learning .204
Zhenhong Wan (Beijing Normal University, China), Xiaodong Li (Shandong Provincial Academy of Educational Recruitment and Examination, China), Binbin Xia (Shandong Shanda Ouma Software Co., Ltd., China), and Zuying Luo (Beijing Normal University, China; Engineering Research Center of Virtual Reality and Applications, China)

Relation Path Modeling with Entity Types for Knowledge Graph Completion .209
Jimin Wang (Hohai University, China), Li Zhang (Hohai University, China), and Bin Han (Hohai University, China)

Automatic Annotation Algorithm Based on Sliding Window Moment Feature Matching .216
Huang Liang (Naval University of Engineering, China), Fengxiang Wang (Naval University of Engineering, China), Luo Bing (Naval University of Engineering, China), Deying Yu (Naval University of Engineering, China), and Jiuhe Wang (Naval University of Engineering, China)

Research on Multiple Observation Stations Target Tracking Based on UKF Algorithm .220
LiePing Zhang (Guilin University of Technology, China), ZhiHao Li (Guilin University of Technology, China), ShengLan Zhang (Guilin University of Technology, China), YanLin Yu (Guilin University of Technology, China), Yong Liang (Guilin University of Technology, China), and ZuQiong Zhang (Guilin University of Technology, China)

Thematic Map Color Matching Design Based On Geese Swarm Optimization Algorithm .224
Weiyi Wang (North China Institute of Computing Technology, China), Dawei Zuo (North China Institute of Computing Technology, China), and Meizheng Zhu (North China Institute of Computing Technology, China)

Classification of Classroom Teachers' Speech Intention Based on Deep Learning .230
Xilin Zhang (Beijing Normal University, China), Jiaqi Wang (Beijing Qingfan Technology Co., China), Zhenhong Wan (Beijing Normal University, China), and Zuying Luo (Beijing Normal University, China)

Using the Solution Space Constraint to Pick the Best Velocity Automatically 234
Shaofei Lv (Yunnan University, China), Murong Jiang (Yunnan University, China), Yuzhuo Chen (Yunnan University, China), and Yunsheng Wang (Yunnan Aerospace Engineering Geophysical Inspection Co., Ltd., China)

Two-Level CFAR Algorithm for Target Detection in MmWave Radar 240
Chuanwen Xu (Shandong Academy of Sciences, China), Fenggui Wang (Shandong Academy of Sciences, China), Yanbo Zhang (Shandong Academy of Sciences, China), Li Xu (Shandong Academy of Sciences, China), Mingshun Ai (Shandong Academy of Sciences, China), and Guang Yan (Shandong Academy of Sciences, China)

Software Development Application and Design Inspection

Detection Approach of Webshell Attacks Based on Multi-Dimensional Dynamic Features 244
Zhang Jiawen (Nanjing University of Posts and Telecommunications, China), Cao Xiaomei (Nanjing University of Posts and Telecommunications, China), and Wang Shaohui (Nanjing University of Posts and Telecommunications, China)

Analysis of Block Chain Technology Applying in Digital Archives 251
Cui Xianghong (Shandong Technology and Business University, China)

Research and Application of Blockchain Technology in the Distribution of Unbalanced Funds in the Spot Market 256
Lei Xie (State Grid Shandong Electric Power Company Marketing Service Center (Meterology Center), China), Haijing Zhang (State Grid Shandong Electric Power Company Marketing Service Center (Meterology Center), China), Xiaohui Liu (State Grid Shandong Electric Power Company Marketing Service Center (Meterology Center), China), Ke Guo (State Grid Shandong Electric Power Company Marketing Service Center (Meterology Center), China), Hui Zhang (State Grid Shandong Electric Power Company Marketing Service Center (Meterology Center), China), Linlin Yang (State Grid Shandong Electric Power Company Marketing Service Center (Meterology Center), China), Xiaobin Sun (State Grid Shandong Electric Power Company Marketing Service Center (Meterology Center), China), Suoyue Wang (State Grid Shandong Electric Power Company Marketing Service Center (Meterology Center), China), Yankun Feng (State Grid Shandong Electric Power Company Marketing Service Center (Meterology Center), China), and Jialu Zhang (State Grid Shandong Electric Power Company Marketing Service Center (Meterology Center), China)

Radar Signal Detection Based on Ambiguity Function and Deep Learning 260
Fengrong Lv (University of Electronic Science and Technology of China, China), Zeyu Dong (University of Electronic Science and Technology of China, China), Tao Wan (University of Electronic Science and Technology of China, China), Kaili Jiang (University of Electronic Science and Technology of China, China), Xueli Fang (Key Laboratory of complex aviation simulation system, China), and Lei Zhang (Key Laboratory of complex aviation simulation system, China)

ShuffleNet2MC: A Method of Light Weight Fault Diagnosis 264
Xuesong Li (Qingdao University, China), Jinhua Li (Qingdao University, China), and Zhihan Lv (Qingdao University, China)

Multiple EffNet/ResNet Architectures for Melanoma Classification 271
Jiaqi Xue (Chongqing University, China), Chentian Ma (Nanjing University of Posts and Telecommunications, China), Li Li (Nanjing University of Posts and Telecommunications, China), and Xuan Wen (Hubei University of Technology, China)

EEG Signal Feature Reduction and Channel Selection Method in Hand Gesture Recognition BCI System 280
Yucheng Wang (Chinese Academy of Sciences, P. R. China), Gang Wang (Nanjing Forestry University, P.R.China), Yongzhao Zhou (Nanjing Forestry University, P.R.China), Zhaochun Li (Nanjing Forestry University, P.R.China), and You Li (China Astronauts Research and Training Center, P. R. China)

Quad-Rotor UAV Audio Recognition Based on Mel Spectrum with Binaural Representation and CNN 285
Luo Jiqing (Army Engineering University of PLA, China), Fang Husheng (Army Engineering University of PLA, China), Yin Qin (Army Engineering University of PLA, China), and Zhou Chunhua (Army Engineering University of PLA, China)

A two-Dimensional Research Framework for Analysing Dark Side of AI 291
Lifan Zeng (Beijing University of Posts and Telecommunications, China) and Jun Wu (Beijing University of Posts and Telecommunications, China)

Design and Implementation of Knowledge Graph Platform of Power Marketing 295
Wei Meng (State Grid Shandong Electric Power Company Marketing Service Center (Meterology Center), China), Dongning Zhang (State Grid Shandong Electric Power Company Marketing Service Center (Meterology Center), China), Tengxuan Guo (State Grid Shandong Electric Power Company Marketing Service Center (Meterology Center), China), Zhenguo Zong (State Grid Shandong Electric Power Company Marketing Service Center (Meterology Center), China), Yijuan Liu (State Grid Shandong Electric Power Company Marketing Service Center (Meterology Center), China), Yanmei Wang (State Grid Shandong Electric Power Company Marketing Service Center (Meterology Center), China), Jing Li (State Grid Shandong Electric Power Company Marketing Service Center (Meterology Center), China), and Weiyi Zhu (State Grid Shandong Electric Power Company, China)

Design of Monitoring System for Height Limiting Device Based on Acceleration Sensor 299
Tianqi Li (Tianjin University of Science and Technology, China), Shifeng Yang (Tianjin University of Science and Technology, China), Zhidong Guo (Tianjin University of Science and Technology, China), and Zhe Sheng (Tianjin University of Science and Technology, China)

A Checking Method of Architecture Engineering Kernel States for Large-Scale and Complex Information System 303
Zhiqiang Fan (Academy of Military Science; North China Institute of Computing Technology line, China), Jiang Cao (Academy of Military Science, China), Lanlan Gao (Academy of Military Science, China), Mengyuan Zou (North China Institute of Computing Technology, China), and Zhiang Xu (North China Institute of Computing Technology, China)

Botnet Detection Based on Flow Summary and Graph Sampling with Machine Learning 309
Chun Long (Chinese Academy of Sciences, University of Chinese Academy of Sciences, China), Xisheng Xiao (Chinese Academy of Sciences, University of Chinese Academy of Sciences, China), Wei Wan (Chinese Academy of Sciences, University of Chinese Academy of Sciences, China), Jing Zhao (Chinese Academy of Sciences, China), Jinxia Wei (Chinese Academy of Sciences, China), and Guanyao Du (Chinese Academy of Sciences, University of Chinese Academy of Sciences, China)

Research on the Typical Application of Knowledge Graph in Power Marketing 318
Wei Meng (State Grid Shandong Electric Power Company Marketing service center (Meterology Center), China), Dongning Zhang (State Grid Shandong Electric Power Company Marketing service center (Meterology Center), China), Tengxuan Guo (State Grid Shandong Electric Power Company Marketing service center (Meterology Center), China), Zhenguo Zong (State Grid Shandong Electric Power Company Marketing service center (Meterology Center), China), Yijuan Liu (State Grid Shandong Electric Power Company Marketing service center (Meterology Center), China), Yanmei Wang (State Grid Shandong Electric Power Company Marketing service center (Meterology Center), China), Jing Li (State Grid Shandong Electric Power Company Marketing service center (Meterology Center), China), and Weiyi Zhu (State Grid Shandong Electric Power Company, China)

A New Approach for End to End Automation Testing Platform with Cloud Computing for 5G Product 322
Suqiong Zhang (Nokia-Sbell, China), Dongyi Fan (Nokia-Sbell, China), Jun He (Nokia-Sbell, China), and Pengling Zhang (Yalla Group Limited, China)

Robust Attack with Adaptive Compress Adversarial Perturbations 327
Jinping Su (Beijing Jiaotong University, China) and Liping Jing (Beijing Jiaotong University, China)

Multi-Temporal Remote Sensing Image Registration Based on Siamese Network 333
Junjie Liu (Sichuan University, China), Yuanzhuo Li (Sichuan University, China), and Yu Chen (Sichuan University, China)

Software Defect Prediction Model: Based on Attention Mechanism 338
Jingdong Huang (North China Institute of Computing Technology, China), Xin Guan (North China Institute of Computing Technology, China), and Siyu Li (North China Institute of Computing Technology, China)

Non-Rigid Point Set Registration Based on Global Prior and Local Structural Constraint 346
Xin Chang (Wuhan University of Science and Technology, China), Shun Fang (Wuhan University of Science and Technology, China), and Shiqian Wu (Wuhan University of Science and Technology, China)

Implement Music Generation with GAN: A Systematic Review 352
Haohang Zhang (Fudan University, China), Letian Xie (Xi'an Jiaotong-liverpool University, China), and Kaiyi Qi (Wenzhou-Kean University, China)

Tactic Technical Performance Analysis of Missile Based on Set Pair Method 356
Ma Peibei (Naval Astronautical University, China), Ji Jun (Naval Astronautical University, China), Sui Jiangbo (Naval Astronautical University, China), and Sun Mingwei (Naval Astronautical University, China)

Key Node Detection in Financial Complex Network 360
Chenglong Wang (Zhengzhou University, China), Le Kang (Tsinghua University, China), Zhihong Zhang (Zhengzhou University, China), Zhaohui Zhang (Zhengzhou Esunny Information Technology CO., China), and Xiaofeng Wang (Zhengzhou University, China)

An Overview of Face Deep Forgery 366
Li Xinwei (National University of Denfense Technology), Guo Jinlin (National University of Denfense Technology), and Chen Junnan (National University of Denfense Technology)

Design and Test on Acoustic Device for Actively Measuring Underwater Short Distance with High-Precision 371
Li Bo (Dalian Naval Academy, China) and Shan Shan (Dalian Naval Academy, China)

Acoustic Impedance Inversion Base on Dual Learning 376
Zixu Wang (China University of Petroleum (Beijing), China), Shoudong Wang (China University of Petroleum (Beijing), China), Chen Zhou (China University of Petroleum (Beijing), China), and Zhiyong Wang (China University of Petroleum (Beijing), China)

Video-Based Roller Abnormality Detection 380
Jin Hongmei (Xi'an University of Science and Technology, China), Hu Changbin (Xi'an University of Science and Technology, China), Li Zhanli (Xi'an University of Science and Technology, China), and Song Pengfei (Xi'an University of Science and Technology, China)

Design and Implementation of Arbitration Switch Control Module Based on ARM for Unmanned Helicopter 386
Mengnan Li (Jiangsu Automation Research Institute, China)

A Deep Learning Framework using App Usage Record to Predict Demographic Information 390
Xiaoyi Gong (Xi'an Jiaotong University, China), Ning Jia (Xi'an Jiaotong University, China), Qiao Zhang (Xi'an Jiaotong University, China), and Linghao Yu (Xi'an Jiaotong University, China)

A Hierarchical Autonomous Driving Framework Combining Reinforcement Learning and Imitation Learning 395
Zeyu Li (Beijing Institute of Technology, China)

Seismic Attenuation Compensation using U-Net++ with a Pruning Scheme Discussion 401
Chen Zhou (China University of Petroleum (Beijing), China), Shoudong Wang (China University of Petroleum (Beijing), China), Zixu Wang (China University of Petroleum (Beijing), China), and Guohua Niu (China University of Petroleum (Beijing), China)

Detection Method of Stealing Complex Network Attack Considering Security Situation Awareness .405
Shiqi Zheng (University of North Carolina at Chapel Hill, USA)

The Practice of Computer Graphic Illustration Art in Commercial Design .412
Jing Liu (Sichuan University of Culture and Arts)

Research on Software Support Process .416
Wei Zhang (Army Academy of Armored Forces, China), Dahai Jin (Beijing University of Posts and Telecommunications, China), Zhiqing Shi (Army Academy of Armored Forces, China), and Xiangxuan Tian (Army Academy of Armored Forces, China)

Application and Improvement of Knowledge Graph in Literature Management in the Field of Information Communication .420
Wang Huaxiao (National University of Defense Technology, China), Zhang Yani (National University of Defense Technology, China), Wan Jingke (National University of Defense Technology, China), and Jin Li (National University of Defense Technology, China)

Long Sequence Biohashing Speech Authentication Based on Biometric Fusion and Modified Logistic Measurement Matrix .426
Yuan Zhang (Northwest Normal University, China), Yi-bo Huang (Northwest Normal University, China), De-huai Chen (Northwest Normal University, China), and Qiu-yu Zhang (Lanzhou University of Technology, China)

Malicious Account Detection Based on Intelligent Algorithm Research .435
Xun Huang (Neusoft Institute Guangdong) and Haibo Luo (Neusoft Institute Guangdong)

Radar-Communication Integrated Conformal Array Antenna Sharing Design .440
Zhiyong Li (Engineering University Of PAP, China), Hao Lou (Engineering University Of PAP, China), Wenting Han (Engineering University Of PAP, China), and Yang Fan (Engineering University Of PAP, China)

Study on the Application of Educational APP in Elementary Schools in Southern Xinjiang of China .444
Yanling Hu (Changji University, China), Bin Liu (Changji University, China), and Liqiao Nong (Southwest University, China)

An Adaptive Kalman-Correlation Based Siamese Network Tracker for Visual Object Tracking .449
Ke Liang (Pennsylvania State University, USA), Xiaoying Liao (Central South University of Forestry and Technology, China), and Guangming Liang (Hunan Youzhe Technology Co., Ltd, China)

Using Contextualized Representations For Biomedical Entity Recognition .456
Yongbing Xiao (NanJing University of Posts and Telecommunications, China), Supeng Liang (NanJing University of Posts and Telecommunications, China), Jiang Peng (NanJing University of Posts and Telecommunications, China), Zhijie Huang (NanJing University of Posts and Telecommunications, China), Yan Wang (NanJing University of Posts and Telecommunications, China), and Jing Wang (NanJing University of Posts and Telecommunications, China)

UUV Multi-Task Route Planning Under Obstacles Constrait .460
Cao Xin (Naval University of Engineering, China), Zhou Yuan (Naval University of Engineering, China), Chen Yi (Naval Research Academy, China), and Ma Weiqiang (Naval University of Engineering, China)

CNN-Based MRI Brain Tumor Detection Application .464
Hongli Chen (The University of Queensland, Australia), Dian Chen (University of California Los Angeles, USA), and Luyao Wang (Beijing University of Posts and Telecommunications, China)

Eye Movement Events Detection with KNN-GA and Prior Knowledge .468
Zheng Zhong (Institute of Robotics and Intelligent Systems, China), Hongping Fang (Institute of Robotics and Intelligent Systems, China), Hanyuan Zhang (Institute of Robotics and Intelligent Systems, China), and Shiqian Wu (Institute of Robotics and Intelligent Systems, China)

Malicious Code Detection Method Based on Image Segmentation and Deep Residual Network RESNET .473
Li Xin (People's Public Security University of China, China), Li Chao (First Research Institute of the Ministry of Public Security of PRC, China), and Liang He (People's Public Security University of China, China)

The Application of Author's Academic Influence in Expert Retrieval .481
Wei Zheng (Inner Mongolia University, China; Hebei North University, China), Hongxu Hou (Inner Mongolia University, China; Inner Mongolia A.R.Key Laboratory of Mongolian information Processing Technology, China), Nier Wu (Inner Mongolia University, China; Inner Mongolia A.R.Key Laboratory of Mongolian information Processing Technology, China), and Fengrong Zhao (Inner Mongolia Normal University, China)

A Method for Recognizing Prohibition Traffic Sign Based on HOG-SVM .486
Yang Liu (ChongQing JiaoTong University, China), Wei Zhong (Army Logistics University of PLA, China), Wenzheng Wang (Army Logistics University of PLA, China), Qi Cao (Army Logistics University of PLA, China), and Kaiwen Luo (Army Logistics University of PLA, China)

Research on Radar Active Deception Jamming Identification Method Based on RESNET and Bispectrum Features .491
Kunteng Wang (University of Electronic Science and Technology of China, China), Zeyu Dong (University of Electronic Science and Technology of China, China), Tao Wan (University of Electronic Science and Technology of China, China), Kaili Jiang (University of Electronic Science and Technology of China, China), Wanan Xiong (University of Electronic Science and Technology of China, China), and Xueli Fang (Key Laboratory of complex aviation simulation system, China)

Real-Time Linkage and Active Defense Architecture of Electric Power Industrial Control System .496
Wei Li (North China Electric Power University, China), Xin Xu (North China Electric Power University, China), Xiaoliang Zhang (North China Electric Power University, China), Zhuo Lv (State Grid Henan Electric Power Research Institute, China), and Cen Chen (State Grid Henan Electric Power Research Institute, China)

Research on Root of Trust for Embedded Devices Based on On-Chip Memory 501
Shijun Zhao (Chinese Academy of Sciences, China), Jiangnan Lin (Beijing Information Science and Technology University, China), Wei Li (Chinese Academy of Sciences, China), and Bin Qi (Chinese Academy of Sciences, China)

Design of an EIT-Based Flexible Tactile Sensor with Center Electrodes 506
Yucheng He (Chongqing University of Posts and Telecommunications, China), Xinyan Li (Chongqing University of Posts and Telecommunications, China), and Rui Li (Chongqing University of Posts and Telecommunications, China)

Analysis of Light Source Selection and Lighting Technology in Machine Vision 511
Yang Hongwei (Zhuhai College of Science and Technology, China) and Hui Shuai (Zhuhai College of Science and Technology, China)

The Construction of Campus Network Security System Based on the Actual Network Offensive and Defensive Environment 515
Zhiwei Liu (Northwestern Polytechnical University, China)

Author Index 519
