2021 International Conference on Machine Learning and Intelligent Systems Engineering (MLISE) **MLISE 2021**

Table of Contents

Preface	xix
Organizing Committee	xx
Reviewers	xxi

Session 1: Machine Deep Learning and Modeling Prediction

Personal Credit Risk Identification Based on Combined Machine Learning Model	1
<i>Xiao Ruan (Public Safety Behavioral Science Lab, People's Public Security, University of China, China) and Ning Ding (Public Safety Behavioral Science Lab, People's Public Security, University of China, China)</i>	
Compliant Robotic Assembly Based on Deep Reinforcement Learning	6
<i>Zhenning Zhou (Shanghai Jiao Tong University, China), Peiyuan Ni (Shanghai Jiao Tong University, China), Xiaoxiao Zhu (Shanghai Jiao Tong University, China), and Qixin Cao (Shanghai Jiao Tong University, China)</i>	
Recognition and Classification of Surface Defects of Aluminum Castings Based on Machine Vision	10
<i>Jing Lin (Harbin University Of Commerce, P.R. China), Ke Wen (Harbin University Of Commerce, P.R. China), Yongyue Liu (Ningbo Heli Mould Technology Shareholding Co., LTD), and Xuechang Zhang (Ningbo Tech University, P.R. China)</i>	
A 3D Space Violation Detection Method of Substations Based on the Deep Neural Network	16
<i>Guoheng Ruan (Qingyuan Power Supply Bureau of Guangdong Power Grid Co., Ltd., China), Yerong Zhong (Qingyuan Power Supply Bureau of Guangdong Power Grid Co., Ltd., China), and Jiaming Jiang (Qingyuan Power Supply Bureau of Guangdong Power Grid Co., Ltd., China)</i>	
Chinese Medical Question Answering Model Based on Lattice CNNs	20
<i>Manfu Ma (Northwest Normal University, China), Keyan Gao (Northwest Normal University, China), Yuanzhe Liu (Northwest Normal University, China), Hai Jia (Gansu Provincial Hospital, China), Xia Wang (Gansu Provincial Hospital, China), and Yong Li (Northwest Normal University, China)</i>	

Film CTR Prediction Based on Deep Learning	29
<i>Pian Shi (Michigan State University, USA) and Mingze Shi (University of Denver, USA)</i>	
Research on Audio Playing System Design Factors Modeling Based on Interpretive Structure Model	33
<i>Zhi-Yong Xiong (South China University of Technology, China) and Zhao-Xiong Yan (South China University of Technology, China)</i>	
Using Hidden Markov Model to Predict the Potential Intent of User's Gaze Behavior	38
<i>Guo Gang (Wuhan University of Science and Technology, China), Gao Zheng (Wuhan University of Science and Technology, China), Wu Shiqian (Robotics and Intelligent Systems Research Institute, Wuhan University of Science and Technology, China), and Yu Min (Robotics and Intelligent Systems Research Institute, Wuhan University of Science and Technology, China)</i>	
Prediction Model of Tumor Marker Examination Based on Fusion of CNN and Bilstm	42
<i>Manfu Ma (Northwest Normal University, China), Wenxia Wang (Northwest Normal University, China), Hai Jia (Gansu Provincial Hospital, China), Xia Wang (Gansu Provincial Hospital, China), Yong Li (Northwest Normal University, China), and Sha Zhang (Zhejiang Normal University, China)</i>	
SRM: A Sequential Recommendation Model with Convolutional Neural Network and Multiple Features	49
<i>Haixin Huang (Shenyang Ligong University, China) and Yue Wang (Shenyang Ligong University, China)</i>	
Forecasting Short-Term Power Grid Load Based on Recurrent Neural Network	53
<i>Qiqi Zhang (Shanghai Electric Power Research Institute, China)</i>	
SDN Based Intelligent HoneyNet Network Model Design and Verification	59
<i>Ruidong Li (National University of Defense Technology, China), Minjiao Zheng (National University of Defense Technology, China), Donglin Bai (National University of Defense Technology, China), and Zhengduo Chen (National University of Defense Technology, China)</i>	
An Improved Recommendation Model Based on Matrix Factorization	65
<i>Song-Wei Wei (Capital Normal University, China) and Li-Juan Zhou (Capital Normal University, China)</i>	
Design of LQFP Chip Pin Defect Detection System Based on Machine Vision	69
<i>XingFu Ou (Foshan Polytechnic, China), Wenfeng Chen (Foshan Polytechnic, China), and Miao Zhang (Guangdong University of Technology, China)</i>	
Freight and Passenger Volume Prediction using Multiple Regression	77
<i>Jiajia Xu (De La Salle University - Dasmariñas, Philippines), Paulino H. Gatpandan (De La Salle University – Dasmariñas, Philippines), Mengvi P. Gatpandan (De La Salle University – Dasmariñas, Philippines), and Zhaolong Gao (De La Salle University - Dasmariñas, Philippines)</i>	

Modular Attention Network Based on Language Model for Referring Expression	84
<i>Xutao Deng (Defense Innovation Institute, Academy of Military Sciences (AMS); Beijing, China), Liang Xie (Defense Innovation Institute, Academy of Military Sciences (AMS); Beijing, China), Yibo Cui (Defense Innovation Institute, Academy of Military Sciences (AMS); Beijing, China), Meishan Zhang (Tianjin University; Tianjin, China), Huijiong Yan (Defense Innovation Institute, Academy of Military Sciences (AMS); Beijing, China), Ye Yan (Defense Innovation Institute, Academy of Military Sciences (AMS); Beijing, China), and Erwei Yin (Defense Innovation Institute, Academy of Military Sciences (AMS); Beijing, China)</i>	
A Defect Detection Network Based on an Improved Receptive Field Block	92
<i>Yangsai Wang (Guangdong University of Technology, China), Yulong Zhuang (Guangdong University of Technology, China), and Yongqi Han (Guangdong University of Technology, China)</i>	
Critical Node Identification Based on Attention Flow Networks	96
<i>Manfu Ma (Northwest Normal University, China), Xiangping Wang (Northwest Normal University, China), Yong Li (Northwest Normal University, China), Qiang Zhang (Northwest Normal University, China), and Changqing Wang (China Internet Network Information Center, China)</i>	
Research on Key Technologies of SLAM and FPGA Acceleration	103
<i>Ying Liang (Yunnan University, China) and Jun Yang (Yunnan University, China)</i>	
A Method to Cloud Computing Resources Requirement Prediction on SaaS Application	107
<i>Jun He (Kunming University, China; Key Laboratory of Data Governance and Intelligent Decision in Universities of Yunnan, China), Sunyan Hong (Kunming University, China; Key Laboratory of Data Governance and Intelligent Decision in Universities of Yunnan, China), Caiqing Zhang (Yunnan University, China), Yan Liu (Information Technology Development Center of Yunnan, China), Fei Deng (Kunming University, China; Key Laboratory of Data Governance and Intelligent Decision in Universities of Yunnan, China), and Jing Yu (Kunming University, China; Key Laboratory of Data Governance and Intelligent Decision in Universities of Yunnan, China)</i>	

Tracking Control Scheme for Photoelectric Tracking Platform with Predictor-Structure ESO	117
<i>Fan Wang (Xi'an Institute of Optics and Fine Mechanics, Chinese Academy of Sciences, China; Key Laboratory of Space Precision Measurement, Chinese Academy of Sciences, China), Ranjun Wang (Institute of Optics and electronics, Chinese Academy of Sciences, China; Key Laboratory of Precision Measurement of Space Optics, Chinese Academy of Sciences, China), Meilin Xie (Xi'an Institute of Optics and Fine Mechanics, Chinese Academy of Sciences, China; Key Laboratory of Space Precision Measurement, Chinese Academy of Sciences, China), Peng Liu (Xi'an Institute of Optics and Fine Mechanics, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China; Key Laboratory of Space Precision Measurement, Chinese Academy of Sciences, China), Feng Jing (Xi'an Institute of Optics and Fine Mechanics, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China; Key Laboratory of Space Precision Measurement, Chinese Academy of Sciences, China), and Bo Liu (Xi'an Institute of Optics and Fine Mechanics, Chinese Academy of Sciences, China; Key Laboratory of Space Precision Measurement, Chinese Academy of Sciences, China)</i>	
Direct Torque Control of Five-Phase Permanent Magnet Synchronous Motor Based on Model Prediction	126
<i>Yifei Qin (Shanghai Dian Ji University, Shanghai) and Aiyuan Wang (Shanghai Dian Ji University, Shanghai)</i>	
Overview of Modeling Schemes for MMC Converter in Flexible DC Distribution Network	131
<i>Zhong Liu (Yangzhou Power Supply Company State Grid China, China), Haoyu Hu (State Key Laboratory of Power System DEE, Tsinghua University, China), Yiwen Liang (State Key Laboratory of Power System DEE, Tsinghua University, China), Yajun Wang (Yangzhou Power Supply Company State Grid China, China), Chaowu Liu (Yangzhou Power Supply Company State Grid China, China), Shenxing Shi (State Key Laboratory of Power System DEE, Tsinghua University, China), and Xinzhou Dong (State Key Laboratory of Power System DEE, Tsinghua University, China)</i>	
Multi-Objective Spare Parts Supply Network Optimization: Model Formulation and Optimal Decision-Making	135
<i>Yurong Guo (Army Engineering University of PLA, China) and Quan Shi (Army Engineering University of PLA, China)</i>	
Research on Text Retelling Based on Seq2Seq	142
<i>Shuang Wang (Key Laboratory of China's Ethnic Languages and Information, Technology of Ministry of Education, Northwest Minzu University, Gansu), Dengyun Zhu (Key Laboratory of China's Ethnic Languages and Information, Technology of Ministry of Education, Northwest Minzu University, Gansu), Qi Guo (Key Laboratory of China's Ethnic Languages and Information, Technology of Ministry of Education, Northwest Minzu University, Gansu), and Fucheng Wan (Key Laboratory of China's Ethnic Languages and Information, Technology of Ministry of Education, Northwest Minzu University, Gansu)</i>	

Research on SVM Gait Recognition Based on Single Acceleration Sensor	147
<i>Ying Chang (Harbin Engineering University, China; Science and Technology University, China), Lan Wang (Harbin Engineering University, China), Lingjie Lin (Harbin Engineering University, China), and Ming Liu (Technology Department YAMAMOTO CO., LTD., Japan)</i>	
Rectal Carcinoma Segmentation Based On Image Pre-Processing and Improved U-Net with Residual Block	151
<i>Runchen Liu (School of Computer Science and Technology Southwest University of Science and Technology Mianyang, P.R. China), Hao Wang (School of Computer Science and Technology Southwest University of Science and Technology Mianyang, P.R. China), Gang He (School of Computer Science and Technology Southwest University of Science and Technology Mianyang, P.R. China), Khwaja Mutahir Ahmad (School of Computer Science and Technology Southwest University of Science and Technology Mianyang, P.R. China), and Wenxin Yu (School of Computer Science and Technology Southwest University of Science and Technology Mianyang, P.R. China)</i>	
Epileptic Seizure Detection Based on Multidimensional Feature Extraction	157
<i>Shan Xu (Changchun University of Science and Technology, China), Yan Piao (Changchun University of Science and Technology, China), Enjia Li (The First Hospital of Jilin University, China), and Yue Wang (Changchun University of Science and Technology, China)</i>	
MRSF: A Meta-Analysis Method Based on Random Sign Flip	161
<i>Chunyan Tong (Heilongjiang University, China) and Zhaogong Zhang (Heilongjiang University, China)</i>	
Research on Simulation Technology for Space-Ground Integrated Network	167
<i>Hao Liang (National Digital Switching System Engineering & Technological R&D Center, China), Fucai Chen (National Digital Switching System Engineering & Technological R&D Center, China), and Weizhen He (National Digital Switching System Engineering & Technological R&D Center, China)</i>	
Design and Implementation of High-Performance Software Load Balancer for Cloud Service	175
<i>Qiaoyu Guo (National Digital Switching System Engineering & Technological R&D Center, China), Weizhen He (National Digital Switching System Engineering & Technological R&D Center, China), Wei Zeng (National Digital Switching System Engineering & Technological R&D Center, China), and Yuqiang Xiao (National Digital Switching System Engineering & Technological R&D Center, China)</i>	
A Comprehensive Target Detection Method Based on wave Gate Design and Hough Transform ...	182
<i>Ke Liu (Coast Guard Academy, Naval Aviation University, China), Juntian Bo (Aviation Operations Service Academy, Naval Aviation University, China), and Zhigang Peng (Qingdao campus, Naval Aviation University, China)</i>	
The Inverse Problem Study of the Motion of Charged Ions in a Uniform Magnetic Field	187
<i>Lianqin Jia (Shandong Institute of Commerce and Technology, China), Bingzhan Liu (Shandong Institute of Commerce and Technology, China), and Jun Wang (Shandong Institute of Commerce and Technology, China)</i>	

Research on Gravity Compensation Method Based on Interpolated Gravity Grid Region	191
<i>Shiyin Guan (Xi'an High-tech Research Institute, China), Zhili Zhang (Xi'an High-tech Research Institute, China), Zhaofa Zhou (Xi'an High-tech Research Institute, China), and Yihao Li (Xi'an High-tech Research Institute, China)</i>	
A Security SLA Negotiation Mechanism Oriented to Mimic Cloud	195
<i>Wei Zeng (People's Liberation Army Strategic Support Force Information Engineering University, China), Hongchao Hu (People's Liberation Army Strategic Support Force Information Engineering University, China), and Dacheng Zhou (People's Liberation Army Strategic Support Force Information Engineering University, China)</i>	
Network Security Intelligence Information Extraction	203
<i>Hang Yang (National University of Defense Technology, China), Haosen Wang (National University of Defense Technology, China), Huang Peng (National University of Defense Technology, China), Deqi Cao (National University of Defense Technology, China), Yuntao Zhang (National University of Defense Technology, China), and Yajie Dou (National University of Defense Technology, China)</i>	
Damage Detection Based on Multi-Wavelet Basis and Multi-Scale Feature Fusion	210
<i>Xin Liao (Chengdu University of Information Technology, China), Jie Sun (Chengdu University of Information Technology, China), Yuehu Wang (Chengdu University of Information Technology, China), and Ming Li (Chengdu University of Information Technology, China)</i>	
Prioritized Experience Replay Method Based on Experience Reward	214
<i>Jiashan Gao (Beijing Institute of Control Engineering, China), Xiaohui Li (Beijing Institute of Control Engineering, China), Weihui Liu (Beijing Institute of Control Engineering, China), and Jingchao Zhao (Beijing Institute of Control Engineering, China)</i>	
High Bandwidth Friction Compensation Method Based on Acceleration Estimation	220
<i>Yang Yu (Luoyang Institute of Electro-Optical Equipment, AVIC, China), HongGang Zhang (Luoyang Institute of Electro-Optical Equipment, AVIC, China), JunKe Gao (Luoyang Institute of Electro-Optical Equipment, AVIC, China), and JianGang Wang (Luoyang Institute of Electro-Optical Equipment, AVIC, China)</i>	
Simulation Research of the Dynamic Characteristics of the Horse Head of Pumping Unit with Loose Connection Fault	225
<i>Luzhen Li (School of Mechanical Engineering and Automation, Northeastern University, China), Yungong Li (School of Mechanical Engineering and Automation, Northeastern University, China), Shaowen Zhao (School of Mechanical Engineering and Automation, Northeastern University, China), and Xin Jin (School of Mechanical Engineering and Automation, Northeastern University, China)</i>	
An Adaptive Network-Based Fuzzy Inference System to Intellectual Property Risk Assessment in Crowdsourcing Design	229
<i>Chao Yin (State Key Laboratory of Mechanical Transmission, Chongqing University, China), Ligao Pan (State Key Laboratory of Mechanical Transmission, Chongqing University, China), and Xiaobin Li (State Key Laboratory of Mechanical Transmission, Chongqing University, China)</i>	

Autonomous Decision-Making Method of Transportation Process for Flexible Job Shop Scheduling Problem Based on Reinforcement Learning	234
<i>Jun Yan (Beijing University of Technology, China), Zhifeng Liu (Jilin University, China), Tao Zhang (Beijing University of Technology, China), and Yueze Zhang (Beijing University of Technology, China)</i>	
Design and Research of a Fine Operation Capability Evaluation System Based on Fitts' law	239
<i>Liming Cai (Academy for Engineering & Technology, Fudan University, China; Suzhou Institute of Biomedical Engineering and Technology Chinese Academy of Sciences Suzhou, China), Li Chen (Fudan University, China), Jun Zhu (Academy for Engineering & Technology, Fudan University, China), Xin Ma (Academy for Engineering & Technology, Fudan University, China), and YunChao Zhu (Academy for Engineering & Technology, Fudan University, China)</i>	
Research on Image Processing Technology Used for Root Neck Location of Shrubs	243
<i>Dingzhong Tan (Mechanical and Electrical Engineering, Harbin Engineering University, China), Chenggong Ji (Mechanical and Electrical Engineering, Harbin Engineering University, China), Chenxi Guan (Mechanical and Electrical Engineering, Harbin Engineering University, China), Yuying Wang (Mechanical and Electrical Engineering, Harbin Engineering University, China), and Chao Jiang (Mechanical and Electrical Engineering, Harbin Engineering University, China)</i>	
Investigation on the Influences of Comprehensive Errors of Alignment on the Contact Characteristic of Small-Module Spiral Bevel Gear	248
<i>Maohao Xia (Chongqing University, China), Chaosheng Song (Chongqing University, China), Yan Wang (Chongqing University, China), and Qiyong Yang (Chongqing University, China)</i>	
Characteristic Analysis and Experimental Research on Vibrator of Square-Ring Type Liner Standing wave Motor	253
<i>Xiao-Zhu Wang (Yingkou Institute of Technology, China) and Jian Zhang (Yingkou Institute of Technology, China)</i>	
Experiment Research of the Impulse Characteristics of the Horse Head of Beam Pumping Unit with Loose Connection Fault	258
<i>Luzhen Li (Northeastern University, China), Yungong Li (Northeastern University, China), Shaowen Zhao (Northeastern University, China), Xin Jin (Northeastern University, China), and Huirong Li (Northeastern University, China)</i>	
Research on Digital Design and Manufacturing Technology of Mould Based on CAD Software	263
<i>Guangjun Gong (Anhui Vocational and Technical College, China)</i>	
Deep Learning for Aspect-Based Sentiment Analysis	267
<i>Jie Wang (Beijing University of Posts and Telecommunications, China), Bingxin Xu (Shanghai Lixin University of Accounting and Finance, Shanghai), and Yujie Zu (Shandong University (Qingdao), China)</i>	
Visualization Analysis of Stock Data and Intelligent Time Series Stock Price Prediction Based on Extreme Gradient Boosting	272
<i>Xuanhe Er (Chengdu University of Information Technology) and Yunqi Sun (Huazhong University of Science and Technology)</i>	

Session 2: Artificial Intelligence and Algorithm Data Mining

Bad Data Filtering Algorithm of Power Internet of Things Based on Artificial Intelligence Technology	280
<i>Xin Zhang (Dongguan Power Supply Bureau, Guangdong Power Grid Corporation), Rui Zhang (Dongguan Power Supply Bureau, Guangdong Power Grid Corporation), and Fengchao Chen (Dongguan Power Supply Bureau, Guangdong Power Grid Corporation)</i>	
Adaptive Asynchronous Federated Learning for Edge Intelligence	285
<i>Zhaohang Wang (National University of Defense Technology, China), Geming Xia (National University of Defense Technology, China), Jian Chen (National University of Defense Technology, China), and Chaodong Yu (National University of Defense Technology, China)</i>	
Smart Grid System Security Protection by Deep Neural Network	290
<i>Fan Li (Shanghai Electric Power Research Institute, China), Yi Wu (Shanghai Electric Power Research Institute, China), Yihan Liu (Shanghai Electric Power Research Institute, China), Yingjie Tian (Shanghai Electric Power Research Institute, China), and Hongshan Yang (Transwarp Inc, China)</i>	
Global Positioning Control Algorithm of Bionic Multi-Agent Based on Particle Filter	296
<i>Yunxiang Liu (Guangzhou College of Commerce, China)</i>	
Dynamic Tracking Method for Landing Trajectory of Power Line Patrol UAV Based on Chaos Genetic Algorithm	301
<i>Jiawen Yan (Training center of State Grid Hebei Electric Power Co., Ltd., China), Zhe Liu (Training center of State Grid Hebei Electric Power Co., Ltd., China), Changjin Chen (Training center of State Grid Hebei Electric Power Co., Ltd., China), and Jintao Zhao (Training center of State Grid Hebei Electric Power Co., Ltd., China)</i>	
Research and Practice of Remote Monitoring System for Road Test of Intelligent Connected Vehicle	305
<i>Yanyan Han (CATARC Software Testing (Tianjin) Co., Ltd, China), Xiyu Fang (CATARC Software Testing (Tianjin) Co., Ltd, China), and Kexun He (CATARC Software Testing (Tianjin) Co., Ltd, China)</i>	
Liebovitch Map Enabled Sine Cosine Algorithm	309
<i>Juan Zhao (Jingchu university of technology, China) and Zheng-Ming Gao (Jingchu university of technology, China)</i>	
Battery Degradation Prediction using Incremental Capacity Analysis Based on Real-World Data	313
<i>Shiyu Liu (Chongqing University, China), Yifan Wang (Chongqing University, China), Hefu Sun (Chongqing University, China), and Qixian Mei (Chongqing University, China)</i>	
A Two-Way Asymmetric Heartbeat Packet Sending Algorithm for Improving the Stability of Narrow-Band-Internet-of-Things TCP Long Connection with Least Resource Consumption	317
<i>Minqi Wu (Southwest University of Science&Technology, China), Qiurun He (Southwest University of Science&Technology, China), Chenhao Wang (Southwest University of Science&Technology, China), Hongyu Luo (Southwest University of Science&Technology, China), Gang He (Southwest University of Science&Technology, China), Wenxin Yu (Southwest University of Science&Technology, China), and Kang Xu (Southwest University of Science&Technology, China)</i>	

A Comparative Deep Learning Algorithms for Agricultural Insect Recognition	321
<i>Haiyang He (Fujian Agriculture and Forestry University, China), Jing Wang (Fujian Agriculture and Forestry University, China), Shiguo Huang (Fujian Agriculture and Forestry University, China), and Xiaolin Li (Fujian Agriculture and Forestry University, China)</i>	
Design of Intelligent Irrigation and Soil Loosening System for Agricultural Internet of Things	326
<i>Chen Zhang (Shandong Agriculture And Engineering University, China), Xiuli Bu (Shandong Agriculture And Engineering University, China), Yueyang Li (Shandong Agriculture And Engineering University, China), and Yanli Zhao (Shandong Agriculture And Engineering University, China)</i>	
Design of Augmented Reality System Based on Improved ORB Hybrid Algorithm	330
<i>Jian Zhao (Qilu University of Technology (Shandong Academy of Sciences), China), YongFei Xiao (Qilu University of Technology (Shandong Academy of Sciences), China), Peng Wang (Qilu University of Technology (Shandong Academy of Sciences), China), FengGui Wang (Qilu University of Technology (Shandong Academy of Sciences), China), Jie Zhao (Harbin Institute of Technology Institute of automation, Shandong State Key Laboratory of Robotics and System, China), and Wenli Wang (Qilu University of Technology (Shandong Academy of Sciences), China)</i>	
The Agricultural Greenhouse Management Platform Based on IoT and SSM Architecture	335
<i>Ruishi Liang (University of Electronic Science and Technology of China, Zhongshan Institute, China), Yuhang Sheng (University of Electronic Science and Technology of China, Zhongshan Institute, China), Xiaojia Zhuang (University of Electronic Science and Technology of China, Zhongshan Institute, China), and Miao Xu (University of Electronic Science and Technology of China, Zhongshan Institute, China)</i>	
Electric Fire Early Warning System of Gymnasium Building Based on Multi-Sensor Data Fusion Technology	339
<i>Wei Zhang (Beijing Enterprises J.O Construction Co., LTD., China)</i>	
Research on Knowledge Consensus Mechanism of Network Learning Space Based on Block Chain	344
<i>Yingying Wei (East University of Heilongjiang, China) and Lu Liu (East University of Heilongjiang, China)</i>	
A Novel Dehazing Algorithm Based on Retinex Principle	349
<i>Runchen Liu (School of Computer Science and Technology Southwest University of Science and Technology, P.R. China) and Gang He (School of Computer Science and Technology Southwest University of Science and Technology, P.R. China)</i>	
Cob Angle Recognition Algorithm Based on Machine Vision	357
<i>Kai Lu (Central South University, China), Minghan Ma (Central South University, China), Yuehui Liu (Central South University, China), and Weiqiang Huang (Central South University, China)</i>	

Multi-Feature Keyword Extraction Method Based on TF-IDF and Chinese Grammar Analysis	362
<i>Yongrui Li (Tianjin Key Laboratory of Intelligence Computing & New Software Technology, Tianjin University of Technology, China) and Hongyun Ning (Tianjin Key Laboratory of Intelligence Computing & New Software Technology, Tianjin University of Technology, China)</i>	
Research and Development of Entity Extraction Based on Information Extraction	366
<i>Qi Guo (Key Laboratory of China's Ethnic Languages and Information Technology of Ministry of Education, Northwest Minzu University, Gansu), Dengyun Zhu (Key Laboratory of China's Ethnic Languages and Information Technology of Ministry of Education, Northwest Minzu University, Gansu), Yuguang Wang (Key Laboratory of China's Ethnic Languages and Information Technology of Ministry of Education, Northwest Minzu University, Gansu), and Fucheng Wan (Key Laboratory of China's Ethnic Languages and Intelligent Processing of Gansu Province, Northwest Minzu University, Gansu)</i>	
Research on Device-to-Device Communication Resource Allocation Algorithm in Cellular Network	370
<i>Yujie Chen (Engineering University of CAPF, China) and Caihong Ma (Engineering University of CAPF, China)</i>	
System Identification Based on Szego Kernels	374
<i>Shuang Li (Guangdong Polytechnic of Science and Technology, China)</i>	
Structure Design of Ankle Knee Rehabilitation Training Robot	380
<i>Hu Jie (Jilin Agricultural Science and Technology University, China), Ying Chang (Jilin Agricultural Science and Technology University, China), Shuo Wang (Jilin Agricultural Science and Technology University, China), Wenxuan Liu (Jilin Agricultural Science and Technology University, China), Quanchao Wei (Jilin Agricultural Science and Technology University, China), Xilong Wang (Jilin Agricultural Science and Technology University, China), and Nan Lin (Jilin Agricultural Science and Technology University, China)</i>	
Man-Machine Interaction Simulation of Four-Bar Linkage Lumbar Spine Therapeutic Instrument Based on OpenSim and MATLAB	384
<i>Xueying Zu (Shanghai Jiaotong University, China), Zhenning Zhou (Shanghai Jiaotong University, China), Qixin Cao (Shanghai Jiaotong University, China), Xueguan Gao (Shanghai Jiaotong University, China), and Xiaoxiao Zhu (Shanghai Jiaotong University, China)</i>	
Logistic Regression Analysis of Online Course Click Rate	388
<i>Jia Sun (De La Salle University –Dasmariñas, Philippines)</i>	
Research on Analysis of Clinical Medicine Undergraduates' Scores Based on Data Mining	392
<i>Kun Han (De La Salle University – Dasmariñas, Philippines)</i>	

Data Acquisition and Feature Analysis Based on sEMG	397
<i>JingLong Zhang (School of Mechanical and Civil Engineering Jilin Agricultural Science and Technology University, China), MuLin Tong (School of Mechanical and Civil Engineering Jilin Agricultural Science and Technology University, China), Yun Fang (School of Mechanical and Civil Engineering Jilin Agricultural Science and Technology University, China), Jing Meng (School of Mechanical and Civil Engineering Jilin Agricultural Science and Technology University, China), JingFeng Liu (School of Mechanical and Civil Engineering Jilin Agricultural Science and Technology University, China), ZhongJun Zhu (School of Mechanical and Civil Engineering Jilin Agricultural Science and Technology University, China), and Ying Chang (School of Mechanical and Civil Engineering Jilin Agricultural Science and Technology University, China)</i>	
Data Mining Research of Bachelor's Degree Dissertation of College of Electronic and Electrical Engineering in a University in China	401
<i>Xuemei Li (De La Salle University –Dasmariñas, Philippines) and Maryli F Rosas (De La Salle University –Dasmariñas, Philippines)</i>	
Study on Dynamic Characteristics of Sliding Bearings at Different Rotations	407
<i>Junwei Zhang (Zhejiang Ocean University, China), Qijiang Yang (Guangzhou University of Navigation, China), Yu Liu (Zhejiang Ocean University, China), Ming Cheng (Guangzhou University of Navigation, China), Tian Ling (Zhejiang Ocean University, China), Qinyao Xu (Zhejiang Ocean University, China), and Mengsheng Xia (Zhejiang Ocean University, China)</i>	
A Novel High Performance 3300V IGBT with Wide RBSOA	412
<i>Mingchao Gao (State Key Laboratory of Advanced Power Transmission Technology (Global Energy Interconnection Research Institute Co., Ltd.), China), Rui Jin (State Key Laboratory of Advanced Power Transmission Technology (Global Energy Interconnection Research Institute Co., Ltd.), China), Yaohua Wang (State Key Laboratory of Advanced Power Transmission Technology (Global Energy Interconnection Research Institute Co., Ltd.), China), Jiang Liu (State Key Laboratory of Advanced Power Transmission Technology (Global Energy Interconnection Research Institute Co., Ltd.), China), Li Li (State Key Laboratory of Advanced Power Transmission Technology (Global Energy Interconnection Research Institute Co., Ltd.), China), Cui Li (State Key Laboratory of Advanced Power Transmission Technology (Global Energy Interconnection Research Institute Co., Ltd.), China), Ruifen Nie (State Key Laboratory of Advanced Power Transmission Technology (Global Energy Interconnection Research Institute Co., Ltd.), China), Wanru Sun (State Key Laboratory of Advanced Power Transmission Technology (Global Energy Interconnection Research Institute Co., Ltd.), China), Junmin Wu (State Key Laboratory of Advanced Power Transmission Technology (Global Energy Interconnection Research Institute Co., Ltd.), China), and Wujie Chao (State Grid Fujian Electric Power Research Institute, China)</i>	
Design of Distance Teaching System of College Chinese Course Based on Data Mining	416
<i>Fangfang Ji (Dongying Vocational College, PRC)</i>	

Research on Application of UAV in Transmission Line Engineering Construction	420
<i>Zhipeng Yuan (Powerchina jiangxi hydropower engineering bureau Co., Ltd, China)</i>	
Spatial and Temporal Monocular Visual Odometry	425
<i>Ming Cao (institute of artificial intelligence Nanchang Institute of Technology Nanchang Jiangxi, China)</i>	
The Design and Implementation of Beidou Ground-Based Augmentation System in Natural Resources Industry	430
<i>Hongjuan Liu (China Aero Geophysical Survey and Remote Sensing Center for Natural Resources, China), Wei Huang (China Aero Geophysical Survey and Remote Sensing Center for Natural Resources, China), Chenchao Xiao (China Aero Geophysical Survey and Remote Sensing Center for Natural Resources, China), Jing Wen (China Aero Geophysical Survey and Remote Sensing Center for Natural Resources, China), Zheng Lian (China Aero Geophysical Survey and Remote Sensing Center for Natural Resources, China), and Zhixuan Zhang (China Aero Geophysical Survey and Remote Sensing Center for Natural Resources, China)</i>	
Cylinder Body into the Total Side Hole Special Fixture Design	434
<i>Nan Qin (Dalian University of Science and Technology, China)</i>	
Design of Intelligent Curtain Based on Single Chip Microcomputer	440
<i>Yanfei Zhai (School of electrical engineering and automation, China), Wen Sha (School of electrical engineering and automation, China), and Xiaochao Tang (Hefei iFlytek Digital Technology Co., Ltd., China)</i>	
Few-Shot Classification of Radar Equipment Fault Based on TF-IDF Feature Date Augmentation and BERT	444
<i>Yiyuan Li (Air Force Early Warning Academy, China), Jiangping Yang (Air Force Early Warning Academy, China), Taiyong Fei (Air Force Early Warning Academy, China), and Yuxi Xie (Air Force Early Warning Academy, China)</i>	
The Joint Policy of the CBM and Inventory-Supply Policy for the Electronical Multi-Part System	449
<i>Huayang Deng (Army Engineering University of PLA, China) and Quan Shi (Army Engineering University of PLA, China)</i>	
Analysis and Optimization for Universal Rolling Process of Steel Rail Based on Main Composite	456
<i>Xingqiang Tan (Sichuan Minzu University, China) and Benwen Zhang (Sichuan Minzu University, China)</i>	
Research on the Design of High-Viscosity Fluid Globe Valve and its Piping System Dynamic Characteristics Analysis	461
<i>Haiyan Liu (Dongying Vocational Institute, Dongying City)</i>	
Research on Energy Management of Hybrid Electric Vehicle	465
<i>Manman Huang (Shanghai Maritime University, China) and Yi Guo (Shanghai Maritime University, China)</i>	

Motion Analysis of Clamping Part of a Cable Climbing Device for Power Transmission Line	469
<i>Yu Feng (National Electric Power Grid Anhui Electric Power Research Institute, China), Chenlong Ding (Hefei University of Technology, China), Kai Wu (National Electric Power Grid Anhui Electric Power Research Institute, China), Wenxin He (Hefei University of Technology, China), Shaolei Wu (National Electric Power Grid Anhui Electric Power Research Institute, China), and Wei Wang (Hefei University of Technology, China)</i>	
Exploration of the Core Research on Functional Logic Development and Testing of Integrated Vehicle Controllers for Electric Vehicles	474
<i>Chen Zhang (Dongying Vocational Institute, Dongying City)</i>	
Load Spectrum Acquisition, Analysis and Application of the Electric Bus in Road Simulation Test Based on Multi-Sensor	479
<i>Shuai Jiang (School of Manufacturing, Hunan Railway Professional Technology College, China), Heng Shou (School of Manufacturing, Hunan Railway Professional Technology College, China), Jing Yang (School of International Education, Hunan Railway Professional Technology College, China), Feng Yin (CRRC Times Electric Vehicle Co., Ltd, China), Han Ning (School of Manufacturing, Hunan Railway Professional Technology College, China), and Mengqin Yang (School of Manufacturing, Hunan Railway Professional Technology College, China)</i>	
Research on Machining Archimedes Worm by Internal Whirlwind Milling	484
<i>Yunmao Yang (East China University of Science and Technology, China), Jianwen Wang (East China University of Science and Technology, China), Pengyong Cao (East China University of Science and Technology, China), and Xiaofeng Wang (East China University of Science and Technology, China)</i>	
Development and Mechanical Design of a Stairs Cleaning Robot	489
<i>Zhi-Zhuo Zhang (Beijing Forestry University, China), Zhong-Yu Wang (Beijing Forestry University, China), Ze-Yuan Yu (Beijing Forestry University, China), Gao-Xiang Chen (Beijing Forestry University, China), Yi-Han Qin (Beijing Forestry University, China), Bing-Yu Zhu (Beijing Forestry University, China), and Xiangyue Yuan (Beijing Forestry University, China)</i>	
The Study of Subjective Evaluation Method of ADAS Function Based on Driver Simulator	494
<i>Qipei Wang (CATARC <Tianjin> Automotive Engineering Research Institute Co., Ltd., China), Quanzhou Liu (CATARC <Tianjin> Automotive Engineering Research Institute Co., Ltd., China), Xiaoqi Zhang (Chang'an University, China), Zhanqi Li (CATARC <Tianjin> Automotive Engineering Research Institute Co., Ltd., China), and Shan Lei (Northwest University of Political Science and Law, China)</i>	
Stability Analysis of Hydrodynamic Journal Bearing with Surface Texture	499
<i>Suhua Wang (Wuchang Shouyi University, China), Qiang Wan (Wuchang Shouyi University, China), and Zheng Xiong (Wuchang Shouyi University, China)</i>	

Implementation Method of Automatic Loading and Unloading in Container by Unmanned Forklift.....	503
<i>WenSheng Cao (China Waterborne Transportation Research Institute, China) and Lu Dou (China Waterborne Transportation Research Institute, China)</i>	
Effect of Crack on Elasto-Hydrodynamic Lubrication in Point Contact	510
<i>Yujuan Li (Shanghai University, China), Wen Wang (Shanghai University, China), Mingfei Ma (Shanghai University, China), and Yongqiang Wang (Shanghai University, China)</i>	
An Improved Adaptive Sliding Mode Control of a Robotic Manipulator with Hysteresis Nonlinearity Based on Adaptive Speed Factor	515
<i>Ling Tan (Beijing Institute of Technology, China), Guodong Li (China Software Test Center, China), Jian Li (Beijing Institute of Technology, China), Kexin Hu (Beijing Institute of Technology, China), Ruiwei Dong (Capital Aerospace Machinery Co., Ltd., China), Minshan Feng (Wangjing Hospital of China, China), and Liguozhu (Wangjing Hospital of China, China)</i>	
Application of Minimal Curved Surface in the Design and Preparation of Bone Scaffold	521
<i>Yujie Zhang (Beijing University of Chemical Technology, China), Jingyao Sun (Beijing University of Chemical Technology, China), and Yuheng Wang (Xidian University, China)</i>	
Structural Multi-Solution Optimization and Dynamics Analysis of the Main Roller Shaft of Bolt	526
<i>Jian Xu (North University of China, China) and Zhen Yang (North University of China, China)</i>	
Analysis of Mechanical Properties to a Type of Locking Mechanism of Rotating INS	530
<i>Xiaofei He (National University of Defense Technology; Beijing Aerospace Times Optical-electronic Technology Co., Ltd), Feng Wang (Beijing Aerospace Times Optical-electronic Technology Co., Ltd), Meng Yuan (Beijing Aerospace Times Optical-electronic Technology Co., Ltd), and Guangzhi He (Beijing Aerospace Times Optical-electronic Technology Co., Ltd)</i>	
Current Research, Application and Development of Wall-Climbing Robots	537
<i>Jie Luo (School of Mechanical, Electronic and Control Engineering, Beijing Jiaotong University, China)</i>	
Uprising E-Sports Industry: Machine Learning/AI Improve in-Game Performance using Deep Reinforcement Learning	547
<i>Xianzuo Du (School of Jilin University, China), Xiwei Fuqian (University of Toronto- St. George Campus, Canada), Jiayi Hu (Shanghai Jiao Tong University, China), Zechen Wang (Harbin Institute of Technology, China), and Dongju Yang (School of Jilin University, China)</i>
