2021 International Conference on Wireless Communications and Smart Grid (ICWCSG)

ICWCSG 2021

Table of Contents

Preface ..... **xxiv**
Organizing Committee ..... **xxvi**
Reviewers ..... **xxvii**

Wireless Communication and Image Signal Processing

A Research of Critical Technology on Wireless Communication 1
Yunong Chen (Suzhou Foreign Language School, China), Mingxu Jiang (Sichuan University, China), Zizun Wei (Xidian University, China; Heriot-Watt University, China), and Zeyuan Zhou (Xi'an Jiaotong-Liverpool University, China)

Research on the Pulse-Position Modulation in the Digital Communication System 8
Leyang Dai (Hainan University, China), Zhuoshu Liu (Xian Gaoxin No.1 high school, China), Shuhui Meng (Ulink College of Shanghai, China), and Yan Zhao (Tongji University, China)

Pilot Aided Phase Recovery for QAM Coherent Optical Communications 13
Yuyan Li (Hohai University, China)

Real Identity Based Access Control Technology Under Zero Trust Architecture 18
Ya Guang Wu (State Grid Customer Service Centre, China), Wen Hao Yan (State Grid Customer Service Centre, China), and Jin Zhi Wang (Marketing Department of State Grid Customer Service Center Co. Ltd, China)

Improvement of EAP-TLS Protocol Based on Pseudonym Mechanism 23
Qianfang Hao (Information Engineering University, China), Lei Sun (Information Engineering University, China), Songhui Guo (Information Engineering University, China), Haidong Liu (Information Engineering University, China), Dazan Qian (Information Engineering University, China), and Xinbing Zhu (State Key Laboratory of Mathematical Engineering and Advanced Computing, China)

Research on Key Technologies Of UAV Navigation and Positioning System 29
Kai Yang (Rensselaer Polytechnic Institute, US)

Application of an Improved Oriented Object Detection Algorithm in Remote Sensing Images 34
Guozhi Miao (Northwest Normal University, China), Xiaokang Ren (Northwest Normal University, China), Ruchuan Guo (Northwest Normal University, China), and Zhichao Peng (Northwest Normal University, China)

Design and Implementation of OPC UA Server Based on SECS/GEM Protocol 38
Yuanfeng Sun (Zhejiang Gongshang University, China), Xiudong Peng (Zhejiang Gongshang University, China), Mengyun Zhu (Zhejiang Gongshang University, China), Dongbao Jiao (Zhejiang Gongshang University, China), and Sidi Fuyang (Zhejiang Gongshang University, China)

Analysis of the Spectrum and the Demodulation of Narrowband Continuous Phase Modulation 43
Mingqi Cao (Sun Yat-sen University, China), Haoran Sun (Zhengzhou University, China), Xiaoyu Yuan (University of Electronic Science and Technology, China), and Jiecheng Zhang (Northeastern University, China)

A Research of PPM in Digital Communication The Influence of SNR 49
Jizhen Chen (Ningbo Xiaoshi High School International Center, China), Haocheng Fan (High School Affiliated to Nanjing Normal University, China), Zixin Yin (SHSBNU, China), and Kaidi Zheng (University of York, UK)

Multi-Sensor Scheduling Method for Cooperative Target Tracking Based on ADP 53
Shanshan Zhang (Dalian Maritime University, China) and Haihui Xin (Dalian University of Science and Technology, China)

Interference Cancellation Performance of a Three-Channel Adaptive Co-Site Interference Cancellation System 58
Yunhao Jiang (Hubei Collaborative Innovation Center for High-efficiency Utilization of Solar Energy, Hubei University of Technology Wuhan, China; Hubei Key Laboratory for High-efficiency Utilization of Solar Energy and Operation Control of Energy Storage System, Hubei University of Technology Wuhan, China), Mingyang Li (Hubei Collaborative Innovation Center for High-efficiency Utilization of Solar Energy, Hubei University of Technology Wuhan, China; Hubei Key Laboratory for High-efficiency Utilization of Solar Energy and Operation Control of Energy Storage System, Hubei University of Technology Wuhan, China), Siqi Liu (Hubei Collaborative Innovation Center for High-efficiency Utilization of Solar Energy, Hubei University of Technology Wuhan, China; Hubei Key Laboratory for High-efficiency Utilization of Solar Energy and Operation Control of Energy Storage System, Hubei University of Technology Wuhan, China), Wenfang Ding (Hubei Collaborative Innovation Center for High-efficiency Utilization of Solar Energy, Hubei University of Technology Wuhan, China; Hubei Key Laboratory for High-efficiency Utilization of Solar Energy and Operation Control of Energy Storage System, Hubei University of Technology Wuhan, China), and Anfei Xu (Hubei Collaborative Innovation Center for High-efficiency Utilization of Solar Energy, Hubei University of Technology Wuhan, China; Hubei Key Laboratory for High-efficiency Utilization of Solar Energy and Operation Control of Energy Storage System, Hubei University of Technology Wuhan, China)

Performance Analysis of AI Aided Embedded OFDM Receiver Based on RK3399 Platform 64
Jin Cao (Innovation Academy for Microsatellites of CAS, Chinese Academy of Sciences, China), Chunhui Liu (Institute of Unmanned system, School of Electronic and Information Engineering, Beihang University, China), and Yingjian Lu (Institute of Unmanned system, School of Electronic and Information Engineering, Beihang University, China)

Research on Signal Separation of Same Frequency Based on Array Antenna 70
Hongli Ren (Lanzhou Jiaotong University, China), Yufu Zheng (Lanzhou Jiaotong University, China), Qiang Li (Lanzhou Jiaotong University, China), and Na Zhong (Lanzhou Jiaotong University, China)

QoS Flow Mapping Method of Multi-Service 5G Communication for Urban Energy Interconnection 75
Xiyang Yin (State Grid Tianjin Electric Power Information and Communications Company, State Grid Tianjin Electric Power Company, China), Yizhao Liu (State Grid Tianjin Electric Power Information and Communications Company, State Grid Tianjin Electric Power Company, China), Long Yan (State Grid Tianjin Binhai Electric Power Supply Company, State Grid Tianjin Electric Power Company, China), and Da Li (State Grid Tianjin Binhai Electric Power Supply Company, State Grid Tianjin Electric Power Company, China)

Insulator Fault Recognizing via Modified Faster R-CNN Using UAV Data 79
Yulu Chen (Institutes of Physical Science and Information Technology, Anhui University, China), Xuecheng Yang (Hulunbuir Power Supply Company of State Grid Inner Mongolia Eastern Electric Power Co., Ltd., China), Huibin Liu (Electric Power Research Institute of State Grid Inner Mongolia Eastern Electric Power Co., Ltd., China), Yumiao Gui (Hefei Institute of Intelligent Machinery, Chinese Academy of Sciences, China), Wenbo Li (Hefei Institute of Intelligent Machinery, Chinese Academy of Sciences, China), and Qi Qiu (Ningbo Qianrui Navigation Technology Co., Ltd., China)

Wireless Queuing Scheme Based on Browser/Server Architecture 85
Yanfang Liu (Guangzhou Huashang Vocational College, China), Xiuying Mo (Guangzhou Huashang Vocational College, China), and Anying Wu (Guangzhou Zengcheng Vocational Technical School, China)

Study on key Technique and Research Hotspot of low Orbit Satellite Communication 89
RenQiMuGe Wu (Inner Mongolia Normal University, China) and Fan Yang (Inner Mongolia Normal University, China)

Hyperspectral Collaborative Sparse Unmixing Based on Fusion of Stacked Edge-Preserving Filterings 94
Jing Wang (Northwest Normal University, China), Yongfeng Qi (Northwest Normal University, China), Xuechao Lv (Northwest Normal University, China), and Xiaoxu Pei (Northwest Normal University, China)

Reed-Solomon Coded Cooperative Space-Time Block Coded Spatial Modulation 99
Chunli Zhao (Nanjing University of Aeronautics and Astronautics, China), Fengfan Yang (Nanjing University of Aeronautics and Astronautics, China), Chen Chen (Nanjing University of Aeronautics and Astronautics, China), and Rahim Umar (Nanjing University of Aeronautics and Astronautics, China)

Research on Spectrum Allocation Method in Cellular Mobile Communication System 104
Jiasheng Cao (Institude of overseas education Nanjing Tech University, China), Zhengxuan He (Xidian University, China), and Yuxuan Xu (Glasgow University, United Kingdom)

Extraction of Impervious Surface from High-Resolution Remote Sensing Image Based on Deep Learning 108
Lingling Chen (School of Information Engineeringine, Nanchang Institute of Technology, China), Yuejun Song (Key Laboratory of Soil Erosion and Prevention of Jiangxi Province, Jiangxi Academy of Water Science and Engineering, China), and Hongmei Zhang (School of Hydraulic & Ecological Engineering, Nanchang Institute of Technology, China)

A new Method for Identification of In-Pulse Modulation of Radar Signals 112
Hui-Xu Dong (Aviation University of Air Force, China), Run-Lan Tian (Aviation University of Air Force, China), Chun-Yu Wang (Aviation University of Air Force, China), and Hong-Yan Wang (Aviation University of Air Force, China)

Design of Intelligent Librarian Support Service Platform Based on 5G Technology 118
Hengwei Zhang (Shandong University of Science and Technology, Jinan Shandong), Yudong Lu (Shandong University of Science and Technology, Jinan Shandong), Zhipeng Ding (Shandong University of Science and Technology, Jinan Shandong), Xiangyang Zhang (Shandong University of Science and Technology, Jinan Shandong), and Xinrui Zhang (Shandong University of Science and Technology, Jinan Shandong)

Chua's Design Based on Hysteresis Comparator and its Application to Image Encryption 122
Ensheng Lv (Henan technical institute, China)

Spatial-Temporal Motif Discovery with Variable-Size Sliding Windows 126
Zehua Chen (Key Laboratory of Water Big Data Technology of Ministry of Water Resources, School of Computer and Information, Hohai University, China), Yirui Wu (Key Laboratory of Water Big Data Technology of Ministry of Water Resources, School of Computer and Information, Hohai University, China), Jiang Mei (Nanjing Tech University, China), Jiamin Lu (Key Laboratory of Water Big Data Technology of Ministry of Water Resources, School of Computer and Information, Hohai University, China), Yunfeng Wang (Key Laboratory of Water Big Data Technology of Ministry of Water Resources, School of Computer and Information, Hohai University, China), and Jun Feng (Key Laboratory of Water Big Data Technology of Ministry of Water Resources, School of Computer and Information, Hohai University, China)

An Anti-Broadband Interference Scheme in Power Wireless Private Network 134
Chunling Zhang (State Grid Information & Telecommunication Group Co., Ltd., China) and Wenhua Wang (State Grid Information & Telecommunication Group Co., Ltd., China)

A Research on Internet of Things with CRC Method 138
Zeyang Chen (Nanjing University of Posts and Telecommunications, Communication Engineering, China), Dingye Luo (North China Electric Power University, Electrical Engineering and Its Automation, China), Yufan Luo (Southeast University, Electrical Engineering and Its Automation, China), and Jinchen Wu (Nanjing Tech University, Electrical Engineering, China)

Color Image Retrieval Based on Improved Quaternion Convolutional Neural Network 143
Weiyi Wei (Northwest Normal University, China) and Lei Li (Northwest Normal University, China)

Simulation Study of Semiconductor Communication Protocol SECS/GEM 148
Mengyun Zhu (Zhejiang Gongshang University, China), Xiudong Peng (Zhejiang Gongshang University, China), Yuanfeng Sun (Zhejiang Gongshang University, China), Sidi Fuyang (Zhejiang Gongshang University, China), and Dongbao Jiao (Zhejiang Gongshang University, China)

SDN Controller Deployment Method with Capacity and Control Link Reliability Constraints 153
YouBin Fu (Air Force Engineering University, China), QiaoYan Kang (Air Force Engineering University, China), JianFeng Wang (Air Force Engineering University, China), and YiLong Gu (Air Force Engineering University, China)

Radar Signal Sorting Based on TOA key Matching and Square Sine Wave Interpolation 159
Xiao-Feng Wang (Aviation University of Air Force, China), Hong-Yan Wang (Aviation University of Air Force, China), Run-Lan Tian (Aviation University of Air Force, China), and Chun-Yu Wang (Aviation University of Air Force, China)

A Dual-Band Circularly Polarized Stacked Microstrip Antenna for BeiDou Navigation Application 163
Huihui Wang (Xi'an University of Science and Technology, China) and Weihu Zhang (Xi'an University of Science and Technology, China)

Analysis of the Capacity of Different Frequency Channel Allocation Method in the Simulated Amusement Park 168
Shuzhe Liu (University of Electronic Science and Technology of China, China), Xinnan Zheng (Beijing University of Technology, China), and Boxiang Wang (Beijing University of Technology, China)

Transformer Bushing Insulation Defect Detection Method Based on 3D Surface Map 179
Longxiang Yuan (State Grid XinJiang Company Limited Electric Power Research Institute, China) and Yang Ding (State Grid XinJiang Company Limited Electric Power Research Institute, China)

Design and Simulation of 5G Patch Antenna Array for Mobile Phone Operating in Millimeter-Wave Spectrum 185
Jiale Shi (Soochow University, China) and Chenwei Wu (Fudan University, China)

A Novel Collaborative Jamming Method Based on Decoy Strategy 191
Peijie Yan (Space Engineering University, Huairou), Feihuang Chu (Space Engineering University, Huairou), and Luliang Jia (Space Engineering University, Huairou)

YOLOv5_CSL_F: YOLOv5's Loss Improvement and Attention Mechanism Application for Remote Sensing Image Object Detection 197
Junhua Wang (National University of Defense Technology, China), Tao Xiao (National University of Defense Technology, China), Qinyi Gu (Department of Information, No.61646 Troop, China), and Qian Chen (Department of Image Technology, No.95806 Troop, China)

Variation Analysis of Atmospheric Density at 600km 204
Qiang Li (Key Laboratory of Spacecraft In-Orbit Fault Diagnosis and Maintenance, China), Jingwen Xu (Key Laboratory of Spacecraft In-Orbit Fault Diagnosis and Maintenance, China), Weiping Li (Key Laboratory of Spacecraft In-Orbit Fault Diagnosis and Maintenance, China), Yu Gao (Key Laboratory of Spacecraft In-Orbit Fault Diagnosis and Maintenance, China), Chao Wang (Key Laboratory of Spacecraft In-Orbit Fault Diagnosis and Maintenance, China), Xiaohong Guo (Key Laboratory of Spacecraft In-Orbit Fault Diagnosis and Maintenance, China), Chen Zhao (Xi'an Satellite Control Center, China), and Zhi Li (Key Laboratory of Spacecraft In-Orbit Fault Diagnosis and Maintenance, China)

Digital Network and Algorithm Model Analysis

SM7 Authentication Key Distribution Algorithm for Power Field Operation Intelligent Terminal 209
Zhihua Guo (State Grid Qinghai Electric Power Company, China), Na Li (State Grid Qinghai Electric Power Company Marketing Department, China), Yajie Li (State Grid Electric Power Research Institute, China), and Guanghui Rui (State Grid Qinghai Electric Power Company Marketing Department, China)

Research on Clustering Algorithm of user Electricity Behavior for Identification of Typical Should Scene 213
Runan Song (China Electric Power Research Institute Co., Ltd., China), Yining Yang (China Electric Power Research Institute Co., Ltd., China), Yang Xue (China Electric Power Research Institute Co., Ltd., China), Penghe Zhang (China Electric Power Research Institute Co., Ltd., China), Cong Wang (China Electric Power Research Institute Co., Ltd., China), and Liu Yang (China Electric Power Research Institute Co., Ltd., China)

A Deep Q-Learning Based VNF Migration Strategy for Elastic Control in SDN/NFV Network 217
Hongqiao Liu (China Mobile Communications Research Institute, China), Jia Chen (Beijing Jiaotong University, China), Jing Chen (Beijing Jiaotong University, China), Xin Cheng (Beijing Jiaotong University, China), Kuo Guo (Beijing Jiaotong University, China), and Yajuan Qin (Beijing Jiaotong University, China)

A Multi-Target Tracking Algorithm Suitable for Road Scenes 224
Zhichao Peng (Northwest Normal University, China), Xiaokang Ren (Northwest Normal University, China), Guozhi Miao (Northwest Normal University, China), and Ruchuan Guo (Northwest Normal University, China)

Structure of Named Data Networks and Security Issues 228
Sen Luo (Ohio State University, USA) and Maode Ma (Nanyang Technological University, Singapore)

Time-Varying Carrier Frequency Offset Estimation Algorithm Based on Improved Particle Filter 235
Chengqian Bi (Peking University, China), Pengxin Guan (Peking University, China), and Yuping Zhao (Peking University, China)

Low Illumination Image Enhancement Algorithm Combining Homomorphic Filtering and Retinex 241
Feifei Liu (Jiangxi University of Science and Technology, China), Yaxin Xue (Jiangxi University of Science and Technology, China), Xiangfei Dou (Jiangxi University of Science and Technology, China), and Zihan Li (Jiangxi University of Science and Technology, China)

The Arithmetic Optimization Algorithm Based-on Particle Energy and Particle Diffusion 246
Shaorong Ma (Huazhong University of Science and Technology, China), Haofan Huang (Harbin Engineering University, China), and Zixu Wu (Zhongshan University, China)

Protection Method of High-Speed Optical Interface Module Against Single Event Effect 254
Baozhong Suo (Tian Jin Zhong Wei Data Syatem Technology Co.), Xiao Wang (Tian Jin Zhong Wei Data Syatem Technology Co.), and Yani Zhang (Tian Jin Zhong Wei Data Syatem Technology Co.)

RiceNet: a Lightweight Instance Segmentation Network for Adhesive Rice Grains 258
Yuting Shang (Zhejiang Gongshang University, China), Yue Wang (Zhejiang Gongshang University, China), and Bin Liu (Zhejiang Gongshang University, China)

An Improved Change Detection Algorithm for Remote Sensing Images 262
Ruchuan Guo (Northwest Normal University, China), Xiaokang Ren (Northwest Normal University, China), Zhichao Peng (Northwest Normal University, China), and Guozhi Miao (Northwest Normal University, China)

Research on Optimization Model of Urban Rail Transit Flow Limit Based on Constrained Punishment 266
Chenxu Wang (Civil Aviation University of China, China), Yuchi Liu (Chang'an University, China), and Hailiang Liang (Chang'an University, China)

Unpaired Low-Dose CT Denoising Using Conditional GAN with Structural Loss 272
Zhao Yang (Sichuan University, China), Chenggeng Yan (Sichuan University, China), and Hu Chen (Sichuan University, China)

Dynamics of Finite Energy Cosh -Airy Beams Modeled by the Fractional Schrödinger Equation 276
Yilong Hao (Nanjing Normal University, China), Yusheng Liang (China University of Mining and Technology-Beijing, China), and Yujie Wang (North University of China, China)

Reasonable Range Prediction and Loss Reduction Governance Model of Line Loss in Station Area Based on GRNN 280
Yi Ding (State Grid Tianjin Electric Power Research Institute, China), Pan Zhang (State Grid Tianjin Electric Power Research Institute, China), Fei Teng (State Grid Tianjin Electric Power Company, China), Xianxu Huo (State Grid Tianjin Electric Power Research Institute, China), and Qiuliang Jiao (State Grid Tianjin Chengnan Electric Power Supply Company)

Transformer Fault Detection Method Based on Multi-Source Sensing Data Correlation Analysis..... 284
Wenkai Li (North China Electric Power University, School of Electrical and Electronic Engineering, State Key Laboratory of Alternate Eelectrical power System with Renewable Energy Sources, China), Teng Fang (North China Electric Power University, School of Electrical and Electronic Engineering, State Key Laboratory of Alternate Eelectrical power System with Renewable Energy Sources, China), Chunlin Guo (North China Electric Power University, School of Electrical and Electronic Engineering, State Key Laboratory of Alternate Eelectrical power System with Renewable Energy Sources, China), Jie Xie (North China Electric Power University, School of Electrical and Electronic Engineering, State Key Laboratory of Alternate Eelectrical power System with Renewable Energy Sources, China), Huiyuan Ma (State Grid Beijing Electric Power Company, Electronic Engineering, State Key Laboratory of Alternate Eelectrical power System with Renewable Energy Sources, China), and Zhongjun Chi (North China Electric Power University, School of Electrical and Electronic Engineering, State Key Laboratory of Alternate Eelectrical power System with Renewable Energy Sources, China)

A Patent Recommendation Algorithm Based on Topic Classification and Semantic Similarity 289
Xiaojuan Liu (Guizhou University, China), Yunye Wan (Southwest University, China), Xinbo Liu (Southwest University, China), and Jiaheng Zhang (Southwest University, China)

Weather Classification Based On Convolutional Neural Networks 293
Xinyu Zhao (Anhui University, People's Republic of China) and Changhao Wu (Anhui University, People's Republic of China)

Dynamics of Finite Energy Airy-Gaussian Beam Modeled by the Fractional Schrödinger Equation 297
Xinrui Chen (University of Shanghai for Science and Technology, China) and Huilin Pan (Beijing Jiaotong University, China)

An Efficient Group Secret Key Generation Scheme for Wireless Sensor Network 302
Jiaqi Xiong (Tongji University, China), Xin Zeng (Tongji University, China), Xiaoping Xue (Tongji University, China), and Jingxiao Ma (Tongji University, China)

The Role of Massive MIMO and Intelligent Reflecting Surface in 5G/6G Networks 309
Zizheng Wang (International College of Zhengzhou University, China), Dake Shi (Fujian Normal University, China), and Haotian Wu (Ocean School of Fuzhou University, China)

Speech Enhancement Approach Based on Relativistic Wasserstein Generation Adversarial Networks 313
Jing Huang (Zhejiang Sci-Tech University, China) and Zhi Li (Zhejiang Sci-Tech University, China)

Comparison and Simulation Study of the Sparse Representation Matching Pursuit Algorithm and the Orthogonal Matching Pursuit Algorithm 317
Junshuo Dong (Space Engineering University, China) and Lingda Wu (Space Engineering University, China)

A Comprehensive Study of 5G and 6G Networks 321
Fangyi Shen (Beijing University of Technology, China), Hang Shi (Dalian University of Technology, China), and Yuxuan Yang (Jinling Institute of Technology, China)

Visual SLAM Algorithm Based on RGB-D 327
Dong Shen (Lanzhou JiaoTong University, China), Haoyu Fang (Lanzhou JiaoTong University, China), Jiale Liu (Lanzhou JiaoTong University, China), and Sheng Guo (Lanzhou JiaoTong University, China)

MICNet: A Hybrid Model Based on Inception Network and CNN for Automatic Modulation Classification 331
Ming Liang Xue (Yunnan University, China), Ming Huang (Yunnan University, China), Jing Jing Yang (Yunnan University, China), and Jun Chang Chen (Yunnan Radio Monitoring Station of the State Radio monitoring center, China)

Supercontinuum Generation of two Time-Reversed Shapes of Airy Pulses in Double Zero Dispersion Medium 336
Shuoyan Liu (Tianjin University, China), Guohao Xiong (University of Electronic Science and Technology of China, China), and Muyan Yang (Chongqing University, China)

Research on the Influence of Digged Foundation Size on Uplift Stability Based on the Orthogonal Test 341
Kai Han (Design Center, State Grid Shanxi Economic Research Institute, China), Zhuopeng Shi (Design Center, State Grid Shanxi Economic Research Institute, China), Jiwu Liu (Design Center, State Grid Shanxi Economic Research Institute, China), Lixing Ma (Design Center, State Grid Shanxi Economic Research Institute, China), Xiaojian Zhang (Design Center, State Grid Shanxi Economic Research Institute, China), Xiaodong He (State Grid Shanxi Economic Research Institute, China), Weiyang Yan (Design Center, State Grid Shanxi Economic Research Institute, China), Yaju Wang (State Grid Shanxi Economic Research Institute, China), and Liwei Zhang (Technical Economy Evaluation Center, State Grid Shanxi Economic Research Institute, China)

Efficient Management System of Construction Engineering Industry Based on ERP 346
Jing Wu (Anhui Xinhua University, China)

Comparison of CRC and Convolutional Coding in BLE 350
Fengtao He (University of Nottingham, China), Yixuan Yang (University of Science and Technology, China), Zihan Zhang (The Chinese University of Hong Kong, China), and Minghao Zheng (Beijing University of Posts and Telecommunications, China)

Business Behavior Identification and Risk Control Based on BP Neural Networkaper 355
Yong Bo Ma (State Grid Customer Service Centre, China), Jing Chang Hao (State Grid Customer Service Centre, China), Lei Shen (State Grid Customer Service Centre, China), Can Huang (State Grid Customer Service Centre, China), and Qiang Xu (Beijing China Power Information Technology Co.Ltd, China)

Overview of 5G and Satellite Hybrid Network Development 360
Shengming Zhu (Air Force Engineering University, China), Xiaopeng Yang (Air Force Engineering University, China), Nan Xiao (Air Force Engineering University, China), and Dongjian Liu (Unit 93088, China)

Cognitive Radio Optimal Price Power Control Algorithm Based on Stackelberg Game 367
XiaoJuan Bai (Northwest Normal University, China), Chao Zhao (Northwest Normal University, China), Lu Guan (Northwest Normal University, China), and Wei Dao (Northwest Normal University, China)

The Novel Microstrip Monopulse Array Antenna Based on Comparator Network 373
Zhuo Ma (Xi'an University of Posts Telecommunications, China), Feng Shang (Xi'an University of Posts Telecommunications, China), Xinwei Wang (Xi'an University of Posts Telecommunications, China), and Xiaofeng Xing (Xi'an University of Posts Telecommunications, China)

Electromagnetic Compatibility Predict Based on the Forth Class Key Antenna Model 377
Chun Yu Wang (Aviation University of Air Force, China), Xiao Feng Wang (Aviation University of Air Force, China), and Yan Yu (Aviation University of Air Force, China)

Software Defined Network Based 5G and Time-Sensitive Network Fusion For Power Services with Ultra-low Latency Requirements 381
Zhengqiang Liu (Shandong Electric Power Engineering Consulting Institute Co., Ltd., China), Haiyang Wang (Shandong Electric Power Engineering Consulting Institute Co., Ltd., China), Haipeng Sun (Shandong Electric Power Engineering Consulting Institute Co., Ltd., China), Junhao Su (Shandong Electric Power Engineering Consulting Institute Co., Ltd., China), Bo Zhang (Shandong Electric Power Engineering Consulting Institute Co., Ltd., China), Minggang Liu (Shandong Electric Power Engineering Consulting Institute Co., Ltd., China), and Ruijie Zhu (Shandong Electric Power Engineering Consulting Institute Co., Ltd., China)

The Application of Adaptive Genetic Algorithm Based on Output Degree Coding in Production Scheduling Problem 386
Changhong Yu (Zhejiang Gongshang University, China), MengLi Liu (Zhejiang Gongshang University, China), SongQing Cen (Zhejiang Gongshang University, China), Ya Lu (Zhejiang Gongshang University, China), JiaPing Xie (Zhejiang Gongshang University, China), Ming Gao (Zhejiang Gongshang University, China), and Yao Chen (Zhejiang Gongshang University, China)

Smart Grid and Power Circuit Design

Power log Partition Collection and Storage System Based on Alliance Blockchain 390
Lin Liu (Dalian Power Supply Company of State Grid, China), Jingzhao Luan (Dalian Power Supply Company of State Grid, China), Linlin Yuan (North China Electric Power University, China), and Yingli Zhang (North China Electric Power University, China)

Research on Smart Grid Big Data's Curve Mean Clustering Algorithm for Edge-Cloud Collaborative Application 395
Congli Li (State Grid Tianjin Binhai Electric Power Supply Company, China), Bin Yang (State Grid Tianjin Binhai Electric Power Supply Company, China), Xuezhen Chen (State Grid Tianjin Electric Power Information and Communications Company, China), Enjie Zhang (State Grid Tianjin Binhai Electric Power Supply Company, China), Hongjun Huang (State Grid Tianjin Binhai Electric Power Supply Company, China), and Da Li (State Grid Tianjin Binhai Electric Power Supply Company, China)

Trend Prediction Method of Economic Fixed Base Index of Power Industry Based on Time Series 399
Zhidong Deng (State Grid Customer Service Center, China), Nuo Tian (State Grid Customer Service Center, China), Kunpeng Liu (State Grid Customer Service Center, China), and Di Wu (Beijing DataOcean Technology Co., Ltd, China)

Research on GIM-Based 3D Digital Construction Management Scheme for Power Grid Engineering..... 403
Xiaojian Zhang (Economic and Technological Research Institute of State Grid Shanxi Electric Power Company, State Grid Corporation of China, China), Jiwu Liu (Economic and Technological Research Institute of State Grid Shanxi Electric Power Company, State Grid Corporation of China, China), Xin Zhang (Economic and Technological Research Institute of State Grid Shanxi Electric Power Company, State Grid Corporation of China, China), Kai Han (Economic and Technological Research Institute of State Grid Shanxi Electric Power Company, State Grid Corporation of China, China), Lianghong Zhang (Economic and Technological Research Institute of State Grid Shanxi Electric Power Company, State Grid Corporation of China, China), Pengfei Chang (Economic and Technological Research Institute of State Grid Shanxi Electric Power Company, State Grid Corporation of China, China), Chao Zhao (Economic and Technological Research Institute of State Grid Shanxi Electric Power Company, State Grid Corporation of China, China), Qian Li (Economic and Technological Research Institute of State Grid Shanxi Electric Power Company, State Grid Corporation of China, China), and Jie Ma (Economic and Technological Research Institute of State Grid Shanxi Electric Power Company, State Grid Corporation of China, China)

Charging Scheduling Strategies of Cooperated Car-Hailing Operating Business for Electric Taxis 407
Wenwei Lin (Xiamen University of Technology, China), Chen Zhu (Xiamen University of Technology, China), Wenzhang Zhu (Xiamen University of Technology, China), and Sixin Shen (Guangzhou Transportation University, China)

The Monitoring Method for Transmission Lines Based on Deep Learning 414
Hui Li (Beijing Smart-Chip Microelectronics Technology Co., Ltd, China), Lizong Liu (Beijing Smart-Chip Microelectronics Technology Co., Ltd, China), Pan Li (Beijing Smart-Chip Microelectronics Technology Co., Ltd, China), Pengfei Sun (Beijing Smart-Chip Microelectronics Technology Co., Ltd, China), and Fei Guo (Beijing Smart-Chip Microelectronics Technology Co., Ltd, China)

Dynamic Measurement Error Detection Method of high Voltage Current Transformer Based on Reinforcement Learning 418
Hui Song (State Grid XinJiang Company Limited Electric Power Research Institute, China) and Linjie Hu (State Grid XinJiang Company Limited Electric Power Research Institute, China)

Object Detection In Power Operation Scene Based On Two-Stream Network 422
Miao Jin (China Electric Power Research Institute, China), Bing Lu (China Electric Power Research Institute, China), Jun Zhang (China Electric Power Research Institute, China), Quan Wang (China Electric Power Research Institute, China), Xiwen Chen (China Electric Power Research Institute, China), Gaoning Nie (China Electric Power Research Institute, China), Tianfu Huang (Electric Power Research Institute of State Grid Fujian Electric Power Company, China), Jiliang Fu (China Electric Power Research Institute, China), Zhiwei Guo (Electric Power Research Institute of State Grid Fujian Electric Power Company, China), and Xu Wang (China Electric Power Research Institute, China)

The Progress of the Double-Tail Dynamic Comparators and an Improvement Design 427
Yihan Liu (Henan University, China)

Rotor Speed Recovery Design Based on Frequency Increment Estimation Method for Inertial Frequency Modulation Wind Turbine 435
Zhichen Geng (China Electric Power Research Institute, China), Jian Zhang (China Electric Power Research Institute, China), Wenfeng Li (China Electric Power Research Institute, China), Dongping Ai (China Electric Power Research Institute, China), Wei Wei (China Electric Power Research Institute, China), Yuan Jia (China Electric Power Research Institute, China), and Hui Wang (China Electric Power Research Institute, China)

Control Strategy for Parallel Operation of Converters Based on Adaptive Virtual Inductance..... 444
HaoJie Yu (China Electric Power Research Institute Company Ltd, China), YiBin Tao (China Electric Power Research Institute Company Ltd, China), Guan Jun Li (China Electric Power Research Institute Company Ltd, China), Shi Yin (China Electric Power Research Institute Company Ltd, China), Jun Zhuang (China Electric Power Research Institute Company Ltd, China), and ChenJun Sun (State Grid Hebei Electric Power Co., Ltd., China)

Grounding Fault Location Method of Distribution Network Based on Regional Grid 449
Yingjie Li (Shenzhen Power Supply Bureau Co., Ltd)

Electric IoTs edge Computing Servers Deployment Planning Method Based on the Information Entropy 454
Xiyang Yin (State Grid Tianjin Electric Power Information and Communications Company, China), Long Yan (State Grid Tianjin Binhai Electric Power Supply Company, China), Guoyuan Lv (State Grid Tianjin Electric Power Information and Communications Company, China), and Zhixin Lu (State Grid Tianjin Electric Power Information and Communications Company, China)

Considering Allowable Deviation and wind Speed Distribution wind Power Business Day-Ahead Market Strategy Bidding 458
Xiangyu Zhang (State Grid Shanxi Economic Research Institute, China), Jianbin Wu (State Grid Shanxi Economic Research Institute, China), Huiwen Qi (State Grid Shanxi Economic Research Institute, China), Zhenbo Xu (State Grid Shanxi Economic Research Institute, China), Xiaojian Zhang (State Grid Shanxi Economic Research Institute, China), and Hongtao Xu (State Grid Shanxi Economic Research Institute, China)

Research on Electromagnetic Environment of Civil Aviation Station 463
Xianhao Zhang (Civi Aviation Flight University of China, China), Kang Guo (Civi Aviation Flight University of China, China), and Zhongmei Luo (Civi Aviation Flight University of China, China)

Research on Client Side Terminal Security Detection Technology for Smart Grid 468
Yongguang Liu (Intelligent power sub center, XJ Group Corporation, China), HuiNan Wang (Metrology Center, State Grid Shanxi Marketing Service Center, China), Xu Fang (Intelligent power sub center, XJ Group Corporation, China), and Jun Wang (Intelligent power sub center, XJ Group Corporation, China)

Design of high Voltage Live Operation Robot System 473
Ting Lei (Electric Power Research Institute of Guangdong Power Grid Co., Ltd; China Southern Power Grid Technology Co., Ltd., China), Zhiwen Xie (Electric Power Research Institute of Guangdong Power Grid Co., Ltd, China), Ke Wang (China Southern Power Grid Technology Co., Ltd., China), Liqiang Zhong (China Southern Power Grid Technology Co., Ltd., China), and Dekai Chen (China Southern Power Grid Technology Co., Ltd., China)

Research on Aggregate Trust Degree Calculation Method of Power Internet of Things 477
Xiyang Yin (State Grid Tianjin Electric Power Information and Communications Company, China), Yizhao Liu (State Grid Tianjin Electric Power Information and Communications Company, China), Da Li (State Grid Tianjin Binhai Electric Power Supply Company, China), and Zhongyu Wang (State Grid Tianjin Electric Power Information and Communications Company, China)

Numerical Analysis of Pile-Soil Interaction of Tower Platform of Transmission Line Engineering 481
Li-Huan Wang (State Grid Hebei Economic Research Institute, China), De-Guang Zhang (State Grid Hebei Economic Research Institute, China), Yu-Cheng Zhao (Shijiazhuang Tiedao University, China), and Jia-Hui Zhang (Shijiazhuang Tiedao University, China)

MCC and OCR-to-CPTU Method for Strength Assessment in Hiep Thanh Offshore wind Power Project 485
Kuanjun Wang (Key Laboratory of Far-shore Wind Power Technology of Zhejiang Province, POWERCHINA Huadong Engineering Corporation Limited, China; Zhejiang Engineering Research Center of Marine Geotechnical Investigation Technology and Equipment, Zhejiang Huadong Construction Engineering Corporation Limited, China), Zhongliang Jin (Zhejiang Engineering Research Center of Marine Geotechnical Investigation Technology and Equipment, Zhejiang Huadong Construction Engineering Corporation Limited, China), Kanmin Shen (Key Laboratory of Far-shore Wind Power Technology of Zhejiang Province, POWERCHINA Huadong Engineering Corporation Limited, China), Wenbo Du (Key Laboratory of Far-shore Wind Power Technology of Zhejiang Province, POWERCHINA Huadong Engineering Corporation Limited, China; Zhejiang Engineering Research Center of Marine Geotechnical Investigation Technology and Equipment, Zhejiang Huadong Construction Engineering Corporation Limited, China), Qifeng Zhang (Zhejiang Engineering Research Center of Marine Geotechnical Investigation Technology and Equipment, Zhejiang Huadong Construction Engineering Corporation Limited, China), and Shan Gao (Key Laboratory of Far-shore Wind Power Technology of Zhejiang Province, POWERCHINA Huadong Engineering Corporation Limited, China)

Status quo and Trends of key Technologies for Integrated Energy Services 492
Ting Xie (Investment Research Center, State Grid (Beijing) Integrated Energy Planning and Design Institute co., Ltd, China), QingRu Kong (Empowerment Office, State Grid Integrated Energy Service Group co., Ltd, China), Fan Cheng (Urban Energy Interconnection Research Center, State Grid Shanghai Electric Power Institute, China), YunXiao Li (Planning and Designing Center, State Grid (Beijing) integrated energy planning and Design Institute co., Ltd, China), Lei Liu (Low Carbon Development Center, State Grid (Beijing) Integrated Energy Planning and Design Institute co., Ltd, China), YanXue Li (Planning and Designing Center, State Grid (Beijing) integrated energy planning and Design Institute co., Ltd, China), YiGe Yang (Market Development Center, State Grid (Beijing) Integrated Energy Planning and Design Institute co., Ltd, China), and Qi Deng (North China Electric Power University, China)

Risk Assessment of Electricity Spot Market Based on Risk Matrix 497
Yuan Hu (State Grid Energy Research Institute Co., Ltd., China), Zhengyin Liu (State Grid Gansu Electric Power Company Economic and Technological Research Institute, China), Zheng Zhao (State Grid Energy Research Institute Co., Ltd., China), and Changhai Yang (State Grid Gansu Electric Power Company Economic and Technological Research Institute, China)

Comparison of Air Conditioning System Forms in an Office Building in Jinan 501
Yuping Li (Shandong Huayu University of technology) and Changbao Guo (Shandong Huayu University of technology)

An Automatic Generation Method for Distribution Network Geographical Wiring Diagram 505
Hao Tang (Powerchina Sichuan Electric Power Engineering Co., Ltd., China)

A New Feeder Automation Scheme Implementing Single-Line-to-Ground Fault Location with Novel Smart Fault Indicators for China's Electric Distribution Networks 509
Xiangfei Zhang (Energy Efficiency Control Division, Beijing Smartchip Microelectronics Technology Co. Ltd., People's Republic of China), Xueqing Qi (Energy Efficiency Control Division, Beijing Smartchip Microelectronics Technology Co. Ltd., People's Republic of China), Jingsong Liu (Energy Efficiency Control Division, Beijing Smartchip Microelectronics Technology Co. Ltd., People's Republic of China), and Zhao Zhang (Energy Efficiency Control Division, Beijing Smartchip Microelectronics Technology Co. Ltd., People's Republic of China)

Double-Layer Improved K-Means Based Electricity Industry Classification Method 513
Yuxiang Zhu (Shenzhen Power Supply Bureau Co., Ltd, China), Renli Cheng (Shenzhen Power Supply Bureau Co., Ltd, China), Fan Zhang (Electric Power Research Institute, CSG, Guangdong Provincial Key Laboratory of Intelligent Measurement and Advanced Metering of Power Grid Guangzhou, China), Fusheng Li (Electric Power Research Institute, CSG, Guangdong Provincial Key Laboratory of Intelligent Measurement and Advanced Metering of Power Grid Guangzhou, China), Xiaohui Zheng (Shenzhen Power Supply Bureau Co., Ltd, China), and Ji Wang (Electric Power Research Institute, CSG, Guangdong Provincial Key Laboratory of Intelligent Measurement and Advanced Metering of Power Grid Guangzhou, China)

Research on Information Intelligentization of Industrial Industry Based on ERP Environment..... 517
Jing Wu (Anhui Xinhua University, China)

Control and Application of High Voltage Electric Working Robot 522
Liqiang Zhong (Electric Power Research Institute of Guangdong Power Grid Co., Ltd; China Southern Power Grid Technology Co., Ltd., China), Zhiwen Xie (Electric Power Research Institute of Guangdong Power Grid Co., Ltd; China Southern Power Grid Technology Co., Ltd., China), Ke Wang (China Southern Power Grid Technology Co., Ltd., China), Ting Lei (China Southern Power Grid Technology Co., Ltd., China), and Dekai Chen (China Southern Power Grid Technology Co., Ltd., China)

Multi-Load Wireless Charging System Based on Single Resonant Coupling Architecture 526
Ke-Xin. Yang (Tongji University, China), Zhi-Wen. Xia (Tongji University, China), Yong-Ji. Ma (Tongji University, China), and Li-Jin. Jin (Tongji University, China)

Overview of the Relationship Between Mechatronic Engineering and Artificial Intelligence 532
Qiancheng Xiong (Shanghai United International School)

Real-Time Fault Monitoring Method of Charging Pile Based on Improved RNN Neural Network .. 536
Jian Zhang (State Grid Tianjin Electric Power Company, China), Dan Li (State Grid Tianjin Electric Power Company Marketing Service Center, China), Qin Xie (State Grid Tianjin Electric Power Company, China), Weidong Liu (State Grid Tianjin Electric Power Company Marketing Service Center, China), and Bin Liang (State Grid Tianjin Electric Power Company Marketing Service Center, China)

A Novel Fast and Dynamic Support for Power Grid Control Strategy of CHB-BESS 540
Shi Yin (National Key Laboratory on Operation and Control of Renewable Energy and Energy Storage, China Electric Power Research Institute Co., China), Guanjun Li (National Key Laboratory on Operation and Control of Renewable Energy and Energy Storage, China Electric Power Research Institute Co., China), Yibin Tao (National Key Laboratory on Operation and Control of Renewable Energy and Energy Storage, China Electric Power Research Institute Co., China), and Haojie Yu (National Key Laboratory on Operation and Control of Renewable Energy and Energy Storage, China Electric Power Research Institute Co., China)

Development of Multi gas Sensor in Distribution Room Based on MEMS and Advanced Spectrum Technology 544
Min Zhang (Key Laboratory of Medium-voltage and Low-voltage Electric Equipment Inspection and Testing of China Southern Power Grid Guangdong Power Grid Co., Ltd. Guangzhou Power Supply Bureau, China), Fangzhou Hao (Key Laboratory of Medium-voltage and Low-voltage Electric Equipment Inspection and Testing of China Southern Power Grid Guangdong Power Grid Co., Ltd. Guangzhou Power Supply Bureau, China), Jian Fang (Key Laboratory of Medium-voltage and Low-voltage Electric Equipment Inspection and Testing of China Southern Power Grid Guangdong Power Grid Co., Ltd. Guangzhou Power Supply Bureau, China), Fan Yang (Key Laboratory of Medium-voltage and Low-voltage Electric Equipment Inspection and Testing of China Southern Power Grid Guangdong Power Grid Co., Ltd. Guangzhou Power Supply Bureau, China), Wenxiong Mo (Key Laboratory of Medium-voltage and Low-voltage Electric Equipment Inspection and Testing of China Southern Power Grid Guangdong Power Grid Co., Ltd. Guangzhou Power Supply Bureau, China), Yan Tian (Key Laboratory of Medium-voltage and Low-voltage Electric Equipment Inspection and Testing of China Southern Power Grid Guangdong Power Grid Co., Ltd. Guangzhou Power Supply Bureau, China), and Yong Wang (Key Laboratory of Medium-voltage and Low-voltage Electric Equipment Inspection and Testing of China Southern Power Grid Guangdong Power Grid Co., Ltd. Guangzhou Power Supply Bureau, China)

Research on Low-Power Monitoring Technology of Transmission Line Galloping Based on Accelerometer Combined with Inertial Measurement Unit 550
Minghao Zhang (China Electric Power Research Institute, China), Jialun Yang (China Electric Power Research Institute, China), Bin Liu (China Electric Power Research Institute, China), and Xiao Ma (China Electric Power Research Institute, China)

Research on Instrument Position Detection Method Based on YOLOV4 554
Yingliang Zhang (Hohai University, China) and Ning Cao (Hohai University, China)

Research on Text Information Mining Technology of Substation Inspection Based on Improved Jieba 561
Yi Ding (State Grid Tianjin Electric Power Research Institute, China), Fei Teng (State Grid Tianjin Electric Power Company, China), Pan Zhang (State Grid Tianjin Electric Power Research Institute, China), Xianxu Huo (State Grid Tianjin Electric Power Research Institute, China), Qiao Sun (State Grid Tianjin Chengnan Electric Power Supply Company, China), and Yan Qi (State Grid Tianjin Electric Power Research Institute, China)

Study on Comprehensive Benefit Evaluation Method of Battery Storage to Improve new Energy Consumption 565
Chen Zhou (China Electric Power Research Institute Company Ltd., China), Hongliang Tian (State Grid Ningxia Electric Power Company Ltd., China), Liang Zhao (State Grid Ningxia Electric Power Company Ltd., China), Yibin Tao (China Electric Power Research Institute Company Ltd., China), Kechi Chen (Hohai University, China), and Jie Lei (China Electric Power Research Institute Company Ltd., China)

Comprehensive Data Management System of the Electric Power Enterprise Based on the Interdisciplinary Data Mining 570
Kunpeng Liu (State Grid Customer Service Center, China), Li Wang (State Grid Customer Service Center, China), Lihua Gong (State Grid Customer Service Center, China), and Yuchen Song (State Grid Customer Service Center, China)

Index Method of Unstructured Data in Power System Based on Improved B+ Tree 574
LiMing Yao (Technical Support Center, State Grid Corporation Big Data Center, China), YingJie Ren (Technical Support Center, State Grid Corporation Big Data Center, China), Shuang Sheng (Technical Support Center, State Grid Corporation Big Data Center, China), Qian Wang (Technical Support Center, State Grid Corporation Big Data Center, China), HaiFeng Liu (Technical Support Center, State Grid Corporation Big Data Center, China), XinXin Lv (Beijing China-Power Information Technology Co.ltd, China), and Bing Xu (Beijing China-Power Information Technology Co.ltd, China)

Development of LabVIEW Configurable Test System for Temperature Controller 578
Baoqi Shi (Beijing University of Technology, China), Hairong Yan (Beijing University of Technology, China), and Yuying Sun (Beijing University of Technology, China)

Design of low Phase Shift Attenuator Applied to Analog Self-Interference Cancellation Circuit 584
HaoXuan Cai (Xi'an University of Posts & Telecommunications, China), Feng Shang (Xi'an University of Posts & Telecommunications, China), and XinWei Wang (Xi'an University of Posts & Telecommunications, China)

The Software Architecture Design for the Test and Evaluation Platform of Distributed Photovoltaic Comprehensive Energy Efficiency 588
Fan Jiang (Beijing Smart-Chip Microelectronics Technology Co., Ltd, China), Ling Yi (Beijing Smart-Chip Microelectronics Technology Co., Ltd, China), Hui Li (Beijing Smart-Chip Microelectronics Technology Co., Ltd, China), Fengdi Wang (Beijing Smart-Chip Microelectronics Technology Co., Ltd, China), and Kai Lu (Beijing Smart-Chip Microelectronics Technology Co., Ltd, China)

Research on the Business Model of Recycling and Reusing Sulfur Hexafluoride Gas in Power Grid Enterprises 593
Yanming Jin (State Grid Energy Research Institute Co, Ltd, China), Zhuonan Li (State Grid Energy Research Institute Co, Ltd, China), Xinli Xiao (State Grid Energy Research Institute Co, Ltd, China), Yue Zhao (State Grid Anhui Electric Power Research Institute, China), and Feng Zhu (State Grid Anhui Electric Power Research Institute, China)
