Table of Contents

Message from the General Chairs	xxi
Message from the Program Chairs	xxii
Organizing Committee	xxiii
Reviewers List	xxiv
Sponsors and Supporters	xxvi

2021 International Conference on Culture-Oriented Science & Technology

Discussion on Conceptual Form of the Third Generation Camera Robot System	1
<i>Jingjie He (Beijing Institute of Petrochemical Technology, China), Shitou Liu (Beijing Institute of Petrochemical Technology, China), Yixin Zhao (Beijing Institute of Petrochemical Technology, China), Qiang Liu (Beijing Institute of Petrochemical Technology, China), and Yixue Dou (Tianjin G-Ka Robot Technology co., LTD, China)</i>	
Investigation on the Influence of Virtual Reality Displays on People's Interaction	6
<i>Yaqing Liang (Communication University of China, China) and Yiqi Wang (China Women's University, China)</i>	
Influence Evaluation of Network Content Resource Creation Group Based on PageRank	11
<i>Feiyan Guo (Beijing Information Science and Technology University, China), Bin Cheng (Beijing Information Science and Technology University, China), and Lin Qi (Beijing Information Science and Technology University, China)</i>	
Analysis and Optimization of Urban Tourism Spatial Behavior Path —Taking Nanjing City as an Example	16
<i>Fengping Lu (Nanjing Institute of Tourism and Hospitality, China), Jun Zhang (Nanjing Institute of Tourism and Hospitality, China), and Ying Yang (Nanjing Institute of Tourism and Hospitality, China)</i>	
Research on Soundscape of Urban Tourism Based on Acoustic Ecology	20
<i>Jun Zhang (Nanjing Institute of Tourism and Hospitality, China), Fengping Lu (Nanjing Institute of Tourism and Hospitality, China), and Ying Yang (Nanjing Institute of Tourism and Hospitality, China)</i>	

Multi-robot Cooperative Exploration Based on Geometric-Topological Scene Map	24
<i>Yanqing Wang (Nanjing Xiaozhuang University, China), Yongquan Li (Nanjing Xiaozhuang University, China), and Wenjun Lu (Nanjing Xiaozhuang University, China)</i>	
Marvel Cinematic Universe Semantic Question Answering System Based on Ontology	29
<i>Xue Zhao (Communication University of China, China), ChunFang Li (Communication University of China, China), and MinYong Shi (Communication University of China, China)</i>	
Current Status and Prospects of Mobile AR Applications	34
<i>Yaxi Wang (WuHan Institute Of Technology Art And Design College, China), Yuyang Wang (WuHan Institute Of Technology Art And Design College, China), and Zhen Fan (WuHan Institute Of Technology Art And Design College, China)</i>	
Research on the Method of Cross-Modal Affective Association in Audiovisual	38
<i>Jian Jiang (Communication University of China, China; China Digital Culture Group Co., Ltd., China) and Hua Zhang (The National Library of China, China)</i>	
Design of Mobile Augmented Reality System Based on SLAM	43
<i>Yanyan Song (Communication University of China, China), Jun Qin (Communication University of China, China), Lihua Dong (Communication University of China, China), and Ying Zhao (Communication University of China, China)</i>	
Dynamic Imitation Learning Algorithm Based on Surrounding Vision	47
<i>Yanqing Wang (Nanjing Xiaozhuang University, China), Ruyi Sheng (Nanjing Xiaozhuang University, China), and Xu Zhao (Nanjing Xiaozhuang University, China)</i>	
Research on Finite-Time Control of Motor Systems: Application to Small-Scale Cultural Service Complex	52
<i>Jiabin Hu (Zhejiang University of Technology, P.R.China), Hongjie Ni (Zhejiang University of Technology, P.R.China), Li-feng Wu (Zhejiang Dafeng Industrial Co., Ltd., P.R.China), and Dan Zhang (Zhejiang University of Technology, P.R.China)</i>	
Research on Virtual Competitive form Based on E-Sports Games	58
<i>Xiao Gong (Communication University of China, China), Qian Chen (University of South China, China), Huan Chen (Communication University of China, China), and Guanchu Xu (Communication University of China, China)</i>	
On the Interdisciplinary Education Among Undergraduate Students Majoring in E-Sports	63
<i>Wenjing Lu (Communication University of China, Nanjing, China), Guanchu Xu (Communication University of China, Nanjing, China), Xiao Gong (Communication University of China, Nanjing, China), and Qian Chen (University of South China, Hunan)</i>	
An Augmented Reality Design Method Based on ARKit for the Fusion of Hierarchical Traditional Media and Real Scenes	67
<i>Guotong Di (Communication University of China, China), Haokun Li (Communication University of China, China), and Jie Xu (Academy of broadcasting Science, China)</i>	

Design and Realization of Dialect Interaction System Based on VAD	72
<i>Zixin Liu (Communication University of China, China), Ling Lei (Communication University of China, China), Xinyu Huang (Communication University of China, China), Xinyu Li (Communication University of China, China), and Hongjian Liu (Communication University of China, China)</i>	
Multimodal Emotion Recognition in Deep Learning: A Survey	77
<i>Xin Gu (Communication University of China, China), Yinghua Shen (Communication University of China, China), and Jie Xu (Academy of broadcasting Science, China)</i>	
Research on the Development and Application of Virtual Reality Simulation Technology in Investigation and Research Courses	83
<i>Xing Fang (Wuhan University Of Technology School Of Art And Design, China), Un Kim (Wuhan University Of Technology School Of Art And Design, China), and Xi Zhang (Wuhan University Of Technology School Of Art And Design, China)</i>	
Construction of Scenic Spots Knowledge Map Under the Integration of Culture and Tourism	87
<i>Ying Wang (Wuhan University, China), Xinyue Li (Nanjing University, China), Mandie Liu (Sichuan University, China), Xin Liu (Nanjing University, China), and Shengli Deng (Wuhan University, China)</i>	
Space Transformation of Small-Cultural Service Complex Based on Finite State Machine	92
<i>Kaidi Xiang (Zhejiang University of Technology, P.R.China), Hongjie Ni (Zhejiang University of Technology, P.R.China), Zhen Liu (Zhejiang Dafeng Industry Co., Ltd, P.R.China), and Dan Zhang (Zhejiang University of Technology, P.R.China)</i>	
Chinese Musician Playlist Co-Occurrence Network of Power-Law Distribution	98
<i>Yuanke Li (Communication University of China, China) and Yizhen Cao (Communication University of China, China)</i>	
Research on 3D Modeling Design Scheme of Cultural Relics Based on Crowdsourcing Mode ...	103
<i>Yanyan Guo (Key Laboratory of Collection Resources Revitalising Technology, Ministry of Culture and Tourism; National Museum of China, China), Huabiao Li (Key Laboratory of Collection Resources Revitalising Technology, Ministry of Culture and Tourism; National Museum of China, China), and Yuyang Zhou (Key Laboratory of Collection Resources Revitalising Technology, Ministry of Culture and Tourism; National Museum of China, China)</i>	
Research on the Transformation and Upgrading of Traditional Book Publishing to Standardized Digital Publishing	109
<i>Lijuan Zhou (Capital Normal University, China), Haoqi Sun (Capital Normal University, China), Xiaoyan Fu (Capital Normal University, China), Yunhui Wen (Tsinghua University Press Ltd., China), and Jiefeng Cao (Tsinghua University Press Ltd., China)</i>	
Research on Opinion Targets Extraction of Travel Reviews Based on RoBERTa Embedded BiLSTM-CRF Model	114
<i>Zeyu Li (Communication University of China, China), Tianhe Yu (Communication University of China, China), and Hao Shen (Communication University of China, China)</i>	

Research on the New Form Learning Model Based on Knowledge Services	119
<i>Lijuan Zhou (Capital Normal University, China), Zhongju Liang (Capital Normal University, China), Zhao Wu (Beijing Wanfang Data Co., Ltd, China), Baorui Mei (Beijing Wanfang Data Co., Ltd, China), and Gaoqing Nie (Beijing Wanfang Data Co., Ltd, China)</i>	
The Intelligent Transformation Path of Cultural Industrial Parks Under Science and Technology Empowerment	124
<i>Yihui Zhang (University of International Business and Economics, China), Binhe Lu (University of International Business and Economics, China), and Jin Chen (University of International Business and Economics, China)</i>	
Research and Realization of the Virtual Reality System of the Red Culture Exhibition Hall in Colleges	129
<i>Jing Gao (Shenyang Institute of Engineering, China), Xinyu Zhou (Shenyang Institute of Engineering, China), Hongjiang Wang (Shenyang Institute of Engineering, China), and Yang Gao (Shenyang Institute of Engineering, China)</i>	
Single Image HDR Reconstruction using Generative Adversarial Networks	134
<i>Zhaoshan Wei (Communication University of China, China) and Jiangbo Xu (Communication University of China, China)</i>	
Research on the Status Quo of Intangible Cultural Heritage and Its Spreading Strategies in the Context of Consolidating Poverty Alleviation	139
<i>Guobin Peng (Guilin University of Electronic Technology, China), Jijia Zhang (Guilin University of Electronic Technology, China), and Xudong Pi (Guilin University of Electronic Technology, China)</i>	
Non-Parallel and Many-to-One Musical Timbre Morphing using DDSP-Autoencoder and Spectral Feature Interpolation	144
<i>Yi Zou (Communication University of China, China), Jingyu Liu (Communication University of China, China), and Wei Jiang (Communication University of China, China)</i>	
A Robust Stochastic Quasi-Newton Method with the Application in Machine Learning	149
<i>Lin Wu (Communication University of China, China), Tuo Shi (Beijing Police College, China), Yongbin Wang (Communication University of China, China), Huiming Chen (The University of Hong Kong, China), and Wong-Hing Lam (The University of Hong Kong, China)</i>	
An “Embedded” Access Mode of Copyright Resources in Knowledge Aggregation Service Portal	155
<i>Lijuan Zhou (Capital Normal University, China), Xinran Zhao (Capital Normal University, China), Xiaoyan Fu (Capital Normal University, China), Zhao Wu (Beijing Wanfang Data Co., Ltd, China), Baorui Mei (Beijing Wanfang Data Co., Ltd, China), and Gaoqing Nie (Beijing Wanfang Data Co., Ltd, China)</i>	
Research on User Stickiness of Mobile Games	160
<i>Wei Lu (Communication University of China, China), Pei Deng (Communication University of China, China), and Zihan Shen (Communication University of China, China)</i>	

Research on Poverty Alleviation Path of Film and Television Design in the Context of Media Convergence	167
<i>Guobin Peng (Guilin University of Electronic Technology, China), Xudong Pi (Guilin University of Electronic Technology, China), and Jiajia Zhang (Guilin University of Electronic Technology, China)</i>	
A Noncustom Virtual Simulation System for Performing Arts	172
<i>Xinquan Luo (Communication University of China, China), Zhengdong Han (Communication University of China, China), and Xiangjie Huang (Communication University of China, China)</i>	
Research on the Development Trend of Cultural and Creative Products Under 3D Digital Technology	177
<i>Yang Shan (Dalian Jiaotong University, China)</i>	
Named Entity Recognition of Traditional Architectural Text Based on BERT	181
<i>Yifu Li (Beijing University of Posts and Telecommunications, China), Wenjun Hou (Beijing University of Posts and Telecommunications, China), and Bing Bai (Beijing University of Posts and Telecommunications, China)</i>	
An Inverse Tone Mapping Algorithm Based on Multi-scale Dual-Branch Network	187
<i>Tianyu Chen (Communication University of China, China) and Ping Shi (Communication University of China, China)</i>	
Visual Saliency Computing with Color Feature Integration Based on Psychological Experiment	192
<i>Shuang Wang (Communication University of China, China), Man Yao (Communication University of China, China), Wei Jiang (Communication University of China, China), and Aixia Tang (Communication University of China, China)</i>	
Temporal Integration of Emotion Perception for Cross-Cultural and Multi-emotion Music	198
<i>Zongxia Zhang (Communication University of China, China), Lingyun Xie (Communication University of China, China), and Zhijun Zhao (Communication University of China, China)</i>	
Research on the Innovative Application of Ancient Chinese Official Hat Cultural Elements in the Design of Daily Necessities	204
<i>Nuo Pang (Dalian University of Science and Technology, China), Jiahong Pang (Dalian University of Science and Technology, China), and Yiqi Wang (China Women's University, China)</i>	
An Empirical Analysis of Neo-Piagetian Theory in Programming Education	208
<i>Shuaishuai Han (Fujian Normal University, China), Zhe Li (Fujian Normal University, China), Peiyao Su (Fujian Normal University, China), Simin Li (Fujian Normal University, China), and Yumeng Wang (Fujian Normal University, China)</i>	
Subjective Evaluation and Objective Analysis of Timbre Fusion of Chinese and Western Musical Instruments	212
<i>Jingyu Liu (Communication University of China, China), Can Ran (Communication University of China, China), Yuqu Chen (Communication University of China, China), Huiling Xiang (Communication University of China, China), Jiayu Lin (Communication University of China, China), Yongzhan Huang (Communication University of China, China), and Wei Jiang (Communication University of China, China)</i>	

Perceptual Attribute Analysis of Objective Acoustic Parameters of Musical Instrument Timbre	217
<i>Jingyu Liu (Communication University of China, China), Yuqu Chen (Communication University of China, China), Can Ran (Communication University of China, China), Yongzhan Huang (Communication University of China, China), and Wei Jiang (Communication University of China, China)</i>	
Rural Scenic Spots Retrieval Through Deep Learning Picture Information	222
<i>Pei Chen (Wuhan University, China), Jiang Wu (Wuhan University, China), and Qian Wang (Zhongnan University of Economics and Law, China)</i>	
Data-Driven Construction of Rural Persona Based on Text Mining and Knowledge Association	227
<i>Xi Zeng (Wuhan University, China), Jiang Wu (Wuhan University, China), and Zheng-Hao Liu (Wuhan University, China)</i>	
Intelligent Research and Application of Product Image Design Decision Optimization System .	234
<i>Lei Xue (Tsinghua University, People's Republic of China) and Xiaobo Lu (Tsinghua University, People's Republic of China)</i>	
Construction of Technical Specifications for Virtual Cultural Services Contents of Digital Cultural Centers	239
<i>Mengjuan Li (Wuhan University of Technology, China) and Hanxi Wang (Wuhan University of Technology, China)</i>	
Comparison of Technical Systems Between Outdoor Live Performance Stage and Indoor Theater Stage	244
<i>Xiao Yan (Wuhan University of Technology, China) and Hanxi Wang (Wuhan University of Technology, China)</i>	
Customer Value Co-Creation and Perception in Museum Cultural and Creative Product Design	249
<i>Yuan Zhu (Zhejiang University, China), Shijian Luo (Zhejiang University, China), Zuyao Zhang (Zhejiang Sci-Tech University, China), and Menglin Fan (Zhejiang Sci-Tech University, China)</i>	
On the Status Quo and Application of Online Virtual Art Exhibition Technologies	253
<i>Chunshu Wang (Wuhan University of Technology, China) and Hanxi Wang (Wuhan University of Technology, China)</i>	
Future Development of the Water/Cloud Screen Projection Imaging Technology	258
<i>Qingxin Zhang (Wuhan University of Technology, China) and Hanxi Wang (Wuhan University of Technology, China)</i>	
Evolutionary Game Propagation Model on Social Networks	263
<i>Zeya Song (Communication University of China, China), Chunling Dong (Communication University of China, China), and Peiyan Du (Communication University of China, China)</i>	
Design and Implementation of COVID-19 Assistant Diagnostic System Based on Deep Learning	268
<i>Xiaoying Bai (Communication University of China, China), Zhiguo Hong (Communication University of China, China), and Minyong Shi (Communication University of China, China)</i>	

A Review on Internet of Things Based Smart Home	273
<i>Jie Wang (Nanjing Institute of Technology, China) and Yu Chun Zhang (Nanjing Institute of Technology, China)</i>	
Simulation Study of Multi-public Opinion Communication Based on Government Intervention	278
<i>Baike Chen (Communication University of China, China) and Pei Deng (Communication University of China, China)</i>	
An Improved Efficient Convolutional Neural Network for Weed Seedlings Detection	285
<i>Mengqiu Dou (Communication University of China, China), Zhiguo Hong (Communication University of China, China), and Minyong Shi (Communication University of China, China)</i>	
Intelligent Yoga Coaching System Based on Posture Recognition	290
<i>Xiangjie Huang (Communication University of China, China), Da Pan (Communication University of China, China), Yiming Huang (Communication University of China, China), Junli Deng (Communication University of China, China), Pengyu Zhu (Communication University of China, China), Ping Shi (Communication University of China, China), Ruisi Xu (Communication University of China, China), Zelu Qi (Communication University of China, China), and Jingqian He (Communication University of China, China)</i>	
Teaching Practice and Exploration of "Creative Manual Printing and Dyeing" Based on the Inheritance of Jingchu Textile Intangible Cultural Heritage	294
<i>Ni Wang (Clothing College of Wuhan Textile University, China), Xin Wei (Clothing College of Wuhan Textile University, China), and Yufei Dong (Clothing College of Wuhan Textile University, China)</i>	
A Dynamic Classification Method of Time-Series Data Based on Multidimensional Shapelets ..	299
<i>Yan Wang (Liaoning University, China), Lingling Tian (Liaoning University, China), Di Liu (Liaoning University, China), Aiping Tan (Liaoning University, China), and Jiaqi Hu (Dongbei University of Finance & Economics, China)</i>	
Full-Reference Video Quality Assessment Based on Spatiotemporal Visual Sensitivity	305
<i>Huiyuan Fu (Communication University of China, China), Da Pan (Communication University of China, China), and Ping Shi (Communication University of China, China)</i>	
Information Propagation Based on Information Value	310
<i>Yu Gao (University of Electronic Science and Technology of China, China) and Ping Kuang (University of Electronic Science and Technology of China, China)</i>	
Neural Collaborative Filtering Recommendation Algorithm Based on Popularity Feature	316
<i>Cheng Zhang (Communication University of China, China) and Chen Li (Communication University of China, China)</i>	
A Spread Spectrum Based Audio Watermarking Method with Embedding Positions Adaption using Predominant Local Pulse Extraction	324
<i>Shiqiang Wu (Institute of Automation, China), Ying Huang (Chinese Academy of Sciences, China), Hu Guan (Chinese Academy of Sciences, China), Shuwu Zhang (Chinese Academy of Sciences, China), and Jie Liu (Chinese Academy of Sciences, China)</i>	

Method for Creation of Original Music by the VR Panorama Based Virtual Instrument	330
<i>Hao Wang (Wuhan University of Technology, China) and Hanxi Wang (Wuhan University of Technology, China)</i>	
A Study of Delivery Route Optimization for Artistic Lighting Systems for Cultural Tourism in High-Altitude Cold Areas at Night	334
<i>Tong Li (Wuhan University of Technology, China) and Hanxi Wang (Wuhan University of Technology, China)</i>	
Digital Style Design of Nanjing Brocade Based on Deep Learning	339
<i>Xuelin Qiu (Zhejiang Sci-Tech University, China), Jue Hou (Zhejiang Sci-Tech University, China), Ying Sun (Zhejiang Sci-Tech University, China), and Zheng Liu (Zhejiang Sci-Tech University, China)</i>	
3D-VRVT: 3D Voxel Reconstruction from a Single Image with Vision Transformer	343
<i>Xi Li (University of Electronic Science and Technology of China, China) and Ping Kuang (University of Electronic Science and Technology of China, China)</i>	
A Robust Video Watermarking Approach Based on QR Code	349
<i>Zhuojie Gao (Chinese Academy of Sciences, China), Zhixian Niu (Taiyuan University of Technology, China), Baoning Niu (Taiyuan University of Technology, China), Hu Guan (BJDCRC, China), Ying Huang (Chinese Academy of Sciences, China), and Shuwu Zhang (Chinese Academy of Sciences, China)</i>	
Research and Development of Copyright Registration and Monitoring System Based on Digital Watermarking and Fingerprint Technology	354
<i>Bowen Ning (Institute of Automation, Chinese Academy of Sciences, China), Baoning Niu (Taiyuan University of Technology, China), Hu Guan (BJDCRC, China), Ying Huang (Institute of Automation, Chinese Academy of Sciences, China), and Shuwu Zhang (Institute of Automation, Chinese Academy of Sciences, China)</i>	
Image Difference Watermarking Algorithm Based on Contourlet high Frequency Region	359
<i>Xiaomei Zhang (Chinese Academy of Sciences, China), Hu Guan (BJDCRC, China), Ying Huang (Chinese Academy of Sciences, China), and Shuwu Zhang (Chinese Academy of Sciences, China)</i>	
The Effect of Game as a Service on Future Game Industry Based on Users View	364
<i>Yu He (Loughborough University, UK)</i>	
Joint Extraction of Entities and Relations from Ancient Chinese Medical Literature	369
<i>Xueting Wang (Communication University of China, China), Fang Miao (Communication University of China, China), Huixin Liu (Communication University of China, China), Guoting Zhang (National Radio Television Administration, China), and Libiao Jin (Communication University of China, China)</i>	
Necessity of Establishing the Stage Technical Standards for Outdoor Live Performance Theater	373
<i>Ziyi He (Wuhan University of Technology, China), Xiao Yan (Wuhan University of Technology, China), and Hanxi Wang (Wuhan University of Technology, China)</i>	

Load Measurement of Temporary Stage Based on Fiber Bragg Grating	378
<i>Tie Li (Wuhan University of Technology, China), Mengqi Jin (Wuhan University of Technology, China), and Hanxi Wang (Wuhan University of Technology, China)</i>	
A Survey on Graph Neural Networks for Recommendation	383
<i>Zijian Liang (Communication University of China, China), Hui Ding (Nanyang Technological University, Singapore), and Wenlong Fu (Communication University of China, China; State Key Laboratory of Mathematical Engineering and Advanced Computing, China)</i>	
New Advances in Remote Heart Rate Estimation and Its Application to DeepFake Detection ...	387
<i>Yuezheng Xu (Communication University of China, China), Ru Zhang (Beijing University of Posts and Telecommunications, China), Cheng Yang (Communication University of China, China), Yana Zhang (Communication University of China, China), Zhen Yang (Beijing University of Posts and Telecommunications, China), and Jianyi Liu (Beijing University of Posts and Telecommunications, China)</i>	
Research on the Service Evaluation System of Radio, Television and Network Audiovisual Media Under the Background of Convergent Development	393
<i>Yan Wang (Communication University of China, China), Haozhan Li (Communication University of China, China), and Wanlan Li (Communication University of China, China)</i>	
The Application of VIS Culture Elements in Fashion Creative Design of the Large-Scale Activity	399
<i>Ning He (Wu Han Textile University, China), Xuesong Wang (Anqiu City Intangible Cultural Heritage Protection Center, China), Jiaying Li (Guilin University of Electronic Technology, China), and Dan Qiao (Wu Han Textile University, China)</i>	
A Price Prediction Method Based on CatBoost	403
<i>Tie Wang (National University of Singapore, Singapore), Yutian Wang (National University of Singapore, Singapore), and Mingzhe Liu (National University of Singapore, Singapore)</i>	
A Study on the Expression of Jingchu Cultural Heritage	409
<i>Ning He (Wu Han Textile University, China), Jiaying Li (Guilin University of Electronic Technology, China), Ke Wang (Wu Han Textile University, China), and Li Guo (Wu Han Textile University, China)</i>	
Health Rumors Detection Based on Deep Learning	413
<i>Wei Zhao (Communication University of China, China), Qian Zhan (Communication University of China, China), and Yu Yan (Communication University of China, China)</i>	
An Improved Robust Digital Image Watermarking Algorithm Based on Two-Level DCT	417
<i>Huijuan Guo (Taiyuan University of Technology, China; Taiyuan Normal University, China), Baoning Niu (Taiyuan University of Technology, China), Ying Huang (Chinese Academy of Sciences, China), Hu Guan (Chinese Academy of Sciences, China), Fangpeng Lan (Taiyuan University of Technology, China), and Fei Lin (Taiyuan Normal University, China)</i>	

The Influence of Urban Waterfront Space Landscape Form on the User's Physiology	422
<i>Yuan-Yuan Zhou (Zhejiang Tongji Vocational College of Science and Technology, China), Yi Xi Liu (Zhejiang Tongji Vocational College of Science and Technology, China), and Xiu Ping Ge (Zhejiang Tongji Vocational College of Science and Technology, China)</i>	
Evaluation of Height and Speed Effects on the Comfort of VR Motion Picture Display	426
<i>Tianyi Cui (Communication University of China, China), Yu Yang (Communication University of China, China), and Yunhai Guo (Communication University of China, China)</i>	
Comparison of 3D Scene Construction Technologies in Virtual Tourism	431
<i>Yishuxun Wang (Wuhan University of Technology, China) and Hanxi Wang (Wuhan University of Technology, China)</i>	
3D Panorama Based Scene Construction System for Digital Culture Centers	436
<i>Qishun Liang (Wuhan University of Technology, China) and Hanxi Wang (Wuhan University of Technology, China)</i>	
A Survey on Original Video-Based Watermarking	440
<i>Zhongze Lv (University of Chinese Academy of Sciences, China), Hu Guan (Beijing Engineering Research Center of Digital Content Technology, China), Ying Huang (Institute of Automation, Chinese Academy of Sciences, China), and Shuwu Zhang (Beijing Engineering Research Center of Digital Content Technology, China)</i>	
Text Based Video Retrieval Among Video Clips	444
<i>Chi Zhang (University of Science and Technology, China), Guixuan Zhang (Beijing Engineering Research Center of Digital Content, China), and Shuwu Zhang (Beijing Engineering Research Center of Digital Content, China)</i>	
Details Enhancement in Low Contrast Region of Inspection Image Based on Fuzzy Rough Set .	448
<i>Junbao Zheng (Zhejiang Sci-Tech University, China), Junpeng Ji (Zhejiang Sci-Tech University, China), and Xiu Liu (Zhejiang Sci-Tech University, China)</i>	
Commodity Image Retrieval Method Based on CNN and Score Fusion	453
<i>Zihao Liu (Communication University of China, China), Xiaoyu Wu (Communication University of China, China), Jiayao Qian (Communication University of China, China), and Zhiyi Zhu (Communication University of China, China)</i>	
Multi-Iterative Superpixel Segmentation Based on Local Brightness and Darkness Information.....	458
<i>Junbao Zheng (Zhejiang Sci-Tech University, China), Sizhe Zhang (Zhejiang Sci-Tech University, China), and Chenke Xu (Zhejiang Sci-Tech University, China)</i>	
Movie Scene Argument Extraction with Trigger Action Information	462
<i>Qian Yi (University of Chinese Academy of Sciences, China), Guixuan Zhang (Beijing Engineering Research Center of Digital Content Technology, Institute of Automation, China), Jie Liu (Beijing Engineering Research Center of Digital Content Technology, Institute of Automation, China), and Shuwu Zhang (Beijing Engineering Research Center of Digital Content Technology, Institute of Automation, China)</i>	

Lightweight Image Super-Resolution via Dual Feature Aggregation Network	466
<i>Shang Li (University of Chinese Academy of Sciences, China; Institute of Automation, Chinese Academy of Sciences, China), Guixuan Zhang (Key Laboratory of Digital Rights Services, China), Zhengxiong Luo (University of Chinese Academy of Sciences, China; Institute of Automation, Chinese Academy of Sciences, China), Jie Liu (Beijing Engineering Research Center of Digital Content Technology, China), Zhi Zeng (Institute of Automation, Chinese Academy of Sciences, China), and Shuwu Zhang (University of Chinese Academy of Sciences, China; Institute of Automation, Chinese Academy of Sciences, China)</i>	
Relative Pose Estimation for RGB-D Human Input Scans via Human Completion	471
<i>Pengpeng Liu (Institute of Automation, Chinese Academy of Sciences, China), Guixuan Zhang (Institute of Automation, Chinese Academy of Sciences, China), Hu Guan (Institute of Automation, Chinese Academy of Sciences, China), Jie Liu (Institute of Automation, Chinese Academy of Sciences, China), Shuwu Zhang (Institute of Automation, Chinese Academy of Sciences, China), and Zhi Zeng (Institute of Automation, Chinese Academy of Sciences, China)</i>	
A Pointer Instrument Reading Approach Based on Mask R-CNN Key Points Detection	475
<i>Xiaolong Wang (Guilin University Of Electronic Technology, China), Junyan Chen (Guilin University Of Electronic Technology, China), and Huyong Wang (Guilin University Of Electronic Technology, China)</i>	
Fine-Grained Traffic Sign Detection and Matching Algorithm	480
<i>Jiayi Gao (Communication University of China, China), Xiaoyu Wu (Communication University of China, China), Jiayao Qian (Communication University of China, China), and Tingting Li (Communication University of China, China)</i>	
A Movie Score Prediction Model Based on XGBoost Algorithm	486
<i>Yiyi Wang (Harbin University of Science and Technology, China; Institute of Automation, Chinese Academy of Sciences, China), Zhe Yan (Harbin University of Science and Technology, China), and Lidong Xing (Institute of Automation, Chinese Academy of Sciences, China)</i>	
Calculation and Simulation of Loudspeaker Power Based on Cultural Complex	492
<i>Zhen Li (State Key Laboratory of Media Convergence of Communication, China; Communication University of China, China), Pengyan Ji (State Key Laboratory of Media Convergence of Communication, China; Communication University of China, China), Lifeng Wu (Zhejiang Dafeng Industrial Co., Ltd, China), Hui Ren (State Key Laboratory of Media Convergence of Communication, China; Communication University of China, China), and Yuqing Chen (State Key Laboratory of Media Convergence of Communication, China; Communication University of China, China)</i>	

MovieEmotion-IMG: An Emotion Distribution Dataset of Movie Scene Images	498
<i>Jingjing Zhang (Key Laboratory of Acoustic Visual Technology and Intelligent Control System, Ministry of Culture and Tourism, China; Beijing Key Laboratory of Modern Entertainment Technology, China; Communication University of China), Chen Lin (Key Laboratory of Acoustic Visual Technology and Intelligent Control System, Ministry of Culture and Tourism, China; Beijing Key Laboratory of Modern Entertainment Technology, China; Communication University of China), Chunxiao Wang (Key Laboratory of Acoustic Visual Technology and Intelligent Control System, Ministry of Culture and Tourism, China; Beijing Key Laboratory of Modern Entertainment Technology, China; Communication University of China), Yicong Dong (Key Laboratory of Acoustic Visual Technology and Intelligent Control System, Ministry of Culture and Tourism, China; Beijing Key Laboratory of Modern Entertainment Technology, China; Communication University of China), and Wei Jiang (Key Laboratory of Acoustic Visual Technology and Intelligent Control System, Ministry of Culture and Tourism, China; Beijing Key Laboratory of Modern Entertainment Technology, China)</i>	
Research on Fast Switching Scheduling of Special Equipment in Cultural Complex	504
<i>Hui Ren (Communication University of China, China; Key Laboratory of Acoustic Visual Technology and Intelligent Control System, Ministry of Culture and Tourism, China), Xiaojun Jia (Communication University of China, China; Key Laboratory of Acoustic Visual Technology and Intelligent Control System, Ministry of Culture and Tourism, China), Xiaochen Shen (Communication University of China, China; Key Laboratory of Acoustic Visual Technology and Intelligent Control System, Ministry of Culture and Tourism, China), and Mengnan Li (Communication University of China, China; Key Laboratory of Acoustic Visual Technology and Intelligent Control System, Ministry of Culture and Tourism, China)</i>	
Taking the standardized management of Wushu Resource Files as an Example to Improve the Efficiency of Asset Library	510
<i>Lihui Xie (Capital University of Physical Education And Sports, China), Jie Sha (Capital University of Physical Education And Sports, China), Xiaohui Wu (Capital University of Physical Education And Sports, China), Yan Li (Capital University of Physical Education And Sports, China), and Danyan Li (Capital University of Physical Education And Sports, China)</i>	
Research on the Evaluation of Program Influence Based on PageRank Algorithm	515
<i>Feng Qing (Communication University of China, China), Yan Wang (Communication University of China, China), and Yantong Zhang (Communication University of China, China)</i>	
Improved Semantic-Aware StyleGAN-Based Real Face Editing Model	520
<i>Fangxin Wang (Beijing Hisign Technology Co., Ltd, China), Xianliang Wang (Beijing Hisign Technology Co., Ltd, China), and Fanjun Meng (Beijing Hisign Technology Co., Ltd, China)</i>	

A Prohibited Object Detection and Recognition System for X-ray Images	527
<i>Yang Zheng (Institute of Automation Chinese Academy of Sciences, China), Jie Liu (Institute of Automation Chinese Academy of Sciences, China), and Shuwu Zhang (Institute of Automation Chinese Academy of Sciences, China)</i>	
A Digital Hormone Regulation Based Approach for Bio-Inspired Manufacturing System Modeling..	531
<i>Kun Zheng (Nanjing Institute of Technology, China), Zhi-Wei Lian (Nanjing Institute of Technology, China), Yu-guo Wang (Nanjing Institute of Technology, China), Xin-yan Gu (Nanjing Institute of Technology, China), Chang-jian Zhu (Nanjing Institute of Technology, China), and Xuan Liu (Sino-German Intelligent Manufacturing Research Institute, China)</i>	
Video Retrieval Based on CNN Feature and Scalar Quantization	537
