## Table of Contents

Foreword .....	xxxiv
Organizing Committee .....	xxxv
Program Committee .....	xxxvi
Reviewers .....	xxxvii

### AI Foundation - 1

Prediction and Inference in a Partially Hidden Markov-Switching Framework with Autoregression. Application to Machinery Health Diagnosis. ....	1
<i>Fatoumata Dama (University of Nantes, France) and Christine Sinoquet (University of Nantes, France)</i>	
Investigating the Generalization of Image Classifiers with Augmented Test Sets .....	10
<i>Connor Shorten (Florida Atlantic University) and Taghi M. Khoshgoftaar (Florida Atlantic University)</i>	
False Positive Detection and Prediction Quality Estimation for LiDAR Point Cloud Segmentation .....	18
<i>Pascal Colling (University of Wuppertal, Germany), Matthias Rottmann (University of Wuppertal, Germany), Lutz Roese-Koerner (Aptiv, Germany), and Hanno Gottschalk (University of Wuppertal, Germany)</i>	
Stratified Cross-Validation on Multiple Columns .....	26
<i>Jan Motl (Czech Technical University in Prague, Czechia) and Pavel Kordík (Czech Technical University in Prague, Czechia)</i>	
Assessing Optimal Forests of Decision Trees .....	32
<i>Gaël Aglin (ICTEAM, UCLouvain, Belgium), Siegfried Nijssen (ICTEAM, UCLouvain, Belgium), and Pierre Schaus (ICTEAM, UCLouvain, Belgium)</i>	
Global Attention Augmentation Ghost Module: More Features from Lightweight Global Attention Extraction .....	40
<i>Hongru Liu (Jilin University, China), Zhezhou Yu (Jilin University, China), Xiaowei Xu (Jilin University, China), Yuanyuan Guan (Jilin University, China), Boxiang Zhang (Jilin University, China), and Wenhui Li (Jilin University, China)</i>	

Adversarial Weighting for Domain Adaptation in Regression .....	49
<i>Antoine de Mathelin (Michelin, France; Université Paris-Saclay, France), Guillaume Richard (EDF R&amp;D, France; Université Paris-Saclay, France), François Deheeger (Michelin, France), Mathilde Mougeot (ENSIIE, France; Université Paris-Saclay, France), and Nicolas Vayatis (Université Paris-Saclay, France)</i>	

## AI Planning - 1

Inference-Based Hierarchical Reinforcement Learning for Cooperative Multi-Agent Navigation.....	57
<i>Lijun Xia (Sun Yat-sen University, China), Chao Yu (Sun Yat-sen University, China), and Zifan Wu (Sun Yat-sen University, China)</i>	
Collision-Aware Multi-Robot Motion Coordination Deep-RL with Dynamic Priority Strategy .....	65
<i>Liang Zhao (Beijing Jiaotong University, China), Sheng Han (Beijing Jiaotong University, China; Key Laboratory of Intelligent Passenger Service of Civil Aviation, China), and Youfang Lin (Beijing Jiaotong University, China; Key Laboratory of Intelligent Passenger Service of Civil Aviation, China)</i>	
Decentralized Coalition Structure Formation for Interdependent Tasks Allocation .....	73
<i>Douae Ahmadoun (LIPADE, University of Paris, France), Elise Bonzon (LIPADE, University of Paris, France), Cédric Buron (Thales Research and Technology, France), Pavlos Moraitis (LIPADE, University of Paris, France), Pierre Savéant (Thales Research and Technology, France), and Omn Shehory (Bar Ilan University, Israel)</i>	
Autonomous Agents for The Single Track Road Problem .....	81
<i>Ido Shapira (Computer Science Department, Ariel university) and Amos Azaria (Computer Science Department, Ariel university)</i>	
Expert-Guided Policy Optimization by Latent Space Planning with Attention .....	86
<i>Shiqing Gao (Tongji University, China), Fufei Yao (Tongji University, China), Yaoru Sun (Tongji University, China), and Haibo Shi (Shanghai University of Finance and Economics, China)</i>	
Sparse Real-Time Decision Diagrams for Continuous Multi-Robot Path Planning .....	91
<i>Pavel Surynek (Czech Technical University in Prague, Czechia)</i>	

## AI Machine Learning - 1

A Neurobiologically-Inspired Deep Learning Framework for Autonomous Context Learning .....	97
<i>David W. Ludwig II (Department of Computer Science, Middle Tennessee State University, USA), Lucas W. Remedios (Department of Computer Science, Middle Tennessee State University, USA), and Joshua L. Phillips (Department of Computer Science, Middle Tennessee State University, USA)</i>	
Incorporating Proportional Sparse Penalty for Causal Structure Learning .....	105
<i>Yunfeng Wang (Hohai University, China), Yuelong Zhu (Hohai University, China), Tingting Hang (Hohai University, China), Jun Feng (Hohai University, China), and Jiamin Lu (Hohai University, China)</i>	

Ensemble Learning Based Gene Regulatory Network Inference .....	113
<i>Sergio Peignier (Univ Lyon, INSA Lyon, INRAE, France), Baptiste Sorin (Univ Lyon, INSA Lyon, INRAE, France), and Federica Calevro (Univ Lyon, INSA Lyon, INRAE, France)</i>	
IncrAMLSI: Incremental Learning of Accurate Planning Domains from Partial and Noisy Observations .....	121
<i>Maxence Grand (Univ. Grenoble Alpes, LIG, France), Humbert Fiorino (Univ. Grenoble Alpes, LIG, France), and Damien Pellier (Univ. Grenoble Alpes, LIG, France)</i>	
Query-Based Summarization using Reinforcement Learning and Transformer Mode .....	129
<i>Yllias Chali (University of Lethbridge, Canada) and Asif Mahmud (University of Lethbridge, Canada)</i>	
Estimation Error Correction in Deep Reinforcement Learning for Deterministic Actor-Critic Methods .....	137
<i>Baturay Saglam (Bilkent University), Enes Duran (Bilkent University), Dogan Can Cicek (Bilkent University), Furkan Burak Mutlu (Bilkent University), and Suleyman Serdar Kozat (Bilkent University)</i>	
Multi-Task Learning with Attention : Constructing Auxiliary Tasks for Learning to Learn .....	145
<i>Benying Li (Qilu University of Technology (Shandong Academy of Sciences), China) and Aimei Dong (Qilu University of Technology (Shandong Academy of Sciences), China)</i>	

## AI Neural Nets - 1

Recurrent Temporal Point Process Network for First and Repeated Clinical Events .....	153
<i>Min Min Chan (Institute of Data Science, National University of Singapore), Amanda Yun Rui Lam (Dept of Endocrinology, Singapore General Hospital), David Carmody (Dept of Endocrinology, Singapore General Hospital), Marcus Eng Hock Ong (Dept of Emergency Medicine, Singapore General Hospital), Yingtian Zou (National University of Singapore), Wynne Hsu (Institute of Data Science, National University of Singapore; National University of Singapore), and Mong Li Lee (Institute of Data Science, National University of Singapore; National University of Singapore)</i>	
Research on GNSS/DR Method Based on B-Spline and Optimized BP Neural Network .....	161
<i>Zaihui Fei (Mogo Auto Intelligence and Telematics Information Technology Co., Ltd., China), Shuangcheng Jia (Mogo Auto Intelligence and Telematics Information Technology Co., Ltd., China), and Qian Li (Mogo Auto Intelligence and Telematics Information Technology Co., Ltd., China)</i>	
DeepMark: Embedding Watermarks into Deep Neural Network using Pruning .....	169
<i>Chenqi Xie (Shanghai Jiao Tong University, China), Ping Yi (Shanghai Jiao Tong University, China), Baowen Zhang (Shanghai Jiao Tong University, China), and Futai Zou (Shanghai Jiao Tong University, China)</i>	

An Interpretation of Convolutional Neural Networks for Motif Finding from the View of Probability .....	176
<i>Weinan Wang (Peking University), Yuhang Guo (Peking University), Wei Ju (Department of Computer Science and Technology, Peking University), Xiao Luo (Peking University), and Minghua Deng (Peking University)</i>	
Grad Centroid Activation Mapping for Convolutional Neural Networks .....	184
<i>Baptiste Lafabregue (Université de Haute-Alsace, France; Université de Strasbourg, France), Jonathan Weber (Université de Haute-Alsace, France), Pierre Gañçarski (Université de Strasbourg, France), and Germain Forestier (Université de Haute-Alsace, France)</i>	
An Efficient non-Backpropagation Method for Training Spiking Neural Networks .....	192
<i>Shiqi Guo (Center for Data Science, Peking University, China) and Tong Lin (Peking University, China)</i>	
Geometric Path Enumeration for Equivalence Verification of Neural Networks .....	200
<i>Samuel Teuber (Department of Theoretical Computer Science, Karlsruhe Institute of Technology (KIT), Germany), Marko Kleine Büning (Department of Theoretical Computer Science, Karlsruhe Institute of Technology (KIT), Germany), Philipp Kern (Department of Theoretical Computer Science, Karlsruhe Institute of Technology (KIT), Germany), and Carsten Sinz (Department of Theoretical Computer Science, Karlsruhe Institute of Technology (KIT), Germany)</i>	

## AI Foundation - 2

Clustering to the Fewest Clusters Under Intra-Cluster Dissimilarity Constraints .....	209
<i>Jennie Andersen (University of Lyon, INSA Lyon), Brice Chardin (ISAE-ENSMA, LIAS), and Mohamed Tribak (SRD, LIAS)</i>	
Feature Extraction for Class Imbalance using a Convolutional Autoencoder and Data Sampling.....	217
<i>Zahra Salekshahrezaee (Florida Atlantic University), Joffrey L. Leevy (Florida Atlantic University), and Taghi M. Khoshgoftaar (Florida Atlantic University)</i>	
VTON-HF: High Fidelity Virtual Try-on Network via Semantic Adaptation .....	224
<i>Chenghu Du (Wuhan Textile University, China), Feng Yu (Wuhan Textile University, China; Engineering Research Center of Hubei Province for Clothing Information, China), Yadong Chen (Wuhan Textile University, China), Minghua Jiang (Wuhan Textile University, China; Engineering Research Center of Hubei Province for Clothing Information, China), Xiong Wei (Wuhan Textile University, China), Tao Peng (Wuhan Textile University, China; Engineering Research Center of Hubei Province for Clothing Information, China), and Xinrong Hu (Wuhan Textile University, China; Engineering Research Center of Hubei Province for Clothing Information, China)</i>	
Automated SAT Problem Feature Extraction using Convolutional Autoencoders .....	232
<i>Marco Dalla (University College Cork, Ireland), Andrea Visentin (University College Cork, Ireland), and Barry O’Sullivan (University College Cork, Ireland)</i>	

Linear Algebraic Computation of Propositional Horn Abduction .....	240
<i>Tuan Nguyen (The Graduate University for Advanced Studies, SOKENDAI, Japan; National Institute of Informatics, Japan), Katsumi Inoue (The Graduate University for Advanced Studies, SOKENDAI, Japan; National Institute of Informatics, Japan), and Chiaki Sakama (National Institute of Informatics, Japan; Wakayama University, Japan)</i>	
A Practical Query Selection Framework for Real-Time Bayesian Preference Elicitation .....	248
<i>Marco Faella (Università degli Studi di Napoli Federico II, Italy), Alberto Finzi (Università degli Studi di Napoli Federico II, Italy), and Luigi Sauro (Università degli Studi di Napoli Federico II, Italy)</i>	
Unsupervised Constraint Acquisition .....	256
<i>Steven Prestwich (Dept of Computer Science, University College Cork, Ireland)</i>	

## AI Planning - 2

On the Verification of Totally-Ordered HTN Plans .....	263
<i>Roman Barták (Charles University, Czech Republic), Simona Ondrcková (Charles University, Czech Republic), Gregor Behnke (University of Freiburg, Germany), and Pascal Bercher (The Australian National University, Australia)</i>	
Clustering Shift Graph Convolutional Network for Taxi Origin-Destination Demand Prediction....	268
<i>Zhilei Peng (University of Science and Technology of China, China), Guixing Wu (University of Science and Technology of China, China), and Fengliang Xia (University of Science and Technology of China, China)</i>	
Bansor: Improving Tensor Program Auto-Scheduling with Bandit Based Reinforcement Learning .	273
<i>Chao Gao (Huawei Research Institute, Canada), Tong Mo (Huawei Research Institute, Canada), Taylor Zowtuk (Huawei Research Institute, Canada), Tanvir Sajed (Huawei Research Institute, Canada), Laiyuan Gong (Huawei Technologies, China), Hanxuan Chen (Huawei Technologies, China), Shangling Jui (Huawei Technologies, China), and Wei Lu (Huawei Research Institute, Canada)</i>	
MyGym: Modular Toolkit for Visuomotor Robotic Tasks .....	279
<i>Michal Vavrečka (Czech Institute of Informatics, Robotics and Cybernetics, CTU Prague, Czech Republic), Nikita Sokovnin (Czech Institute of Informatics, Robotics and Cybernetics, CTU Prague, Czech Republic), Megi Mejdrechova (Czech Institute of Informatics, Robotics and Cybernetics, CTU Prague, Czech Republic), and Gabriela Sejnova (Czech Institute of Informatics, Robotics and Cybernetics, CTU Prague, Czech Republic)</i>	
Multi-Step Preferred Elite-Guided Firefly Algorithm .....	284
<i>Xiaoyu Wei (Wuhan University of Science and Technology, Hubei Province Key Laboratory of Intelligent Information Processing and Real-time Industrial System, China), Jun Li (Wuhan University of Science and Technology, Hubei Province Key Laboratory of Intelligent Information Processing and Real-time Industrial System, China), and Zhigao Zeng (Hunan University of Technology, China)</i>	

Attn-CommNet: Coordinated Traffic Lights Control on Large-Scale Network Level .....	289
<i>Jiashi Gao (Department of computer science and engineering, Southern University of Science and Technology, China), Xinming Shi (Department of computer science and engineering, Southern University of Science and Technology, China), and James J.Q. Yu (Department of computer science and engineering, Southern University of Science and Technology, China)</i>	
Reproducing arm Movements Based on Pose Estimation with Robot Programming by Demonstration..	294
<i>Oscar Fernandez-Ramos (Universidad Peruana de Ciencias Aplicadas (UPC), Peru), Diego Johnson-Yañez (Universidad Peruana de Ciencias Aplicadas (UPC), Peru), and Willy Ugarte (Universidad Peruana de Ciencias Aplicadas (UPC), Peru)</i>	

## AI Machine Learning - 2

Machine Learning in Intangible Cultural Analytics: The Case of Greek Songs' Lyrics .....	299
<i>Dionisios Sotiropoulos (Department of Informatics, University of Piraeus, Greece), George A. Tsihrintzis (Department of Informatics, University of Piraeus, Greece), Maria Virvou (Department of Informatics, University of Piraeus, Greece), and Enangelia-Aikaterini Tsihrintzi (Department of Informatics and Telecommunications, National and Kapodistrian University of Athens, Greece)</i>	
Biomarker-Based Deep Learning for Personalized Nutrition .....	306
<i>Dimitrios P. Panagoulas (Department of Informatics, University of Piraeus, Greece), Dionisios N. Sotiropoulos (Department of Informatics, University of Piraeus, Greece), and George A. Tsihrintzis (Department of Informatics, University of Piraeus, Greece)</i>	
Combining Hindsight with Goal-Enhanced Prediction for Multi-Goal Reinforcement Learning .....	314
<i>Rui Yang (Tsinghua University, China), Feng Luo (Tsinghua University, China), and Xiu Li (Tsinghua University, China)</i>	
Social and Spatio-Temporal Learning for Contextualized Next Points-of-Interest Prediction .....	322
<i>Sayda Elmi (National University of Singapore, Singapore), Karim Benouaret (Université Claude Bernard Lyon 1, France), and Kian-Lee Tan (National University of Singapore, Singapore)</i>	
A Lightweight Machine Learning Approach to Detect Depression from Speech Analysis .....	330
<i>Laura Verde (University of Campania "Luigi Vanvitelli", Italy), Gennaro Raimo (University of Campania "Luigi Vanvitelli", Italy), Federica Vitale (University of Campania "Luigi Vanvitelli", Italy), Bruno Carbonaro (University of Campania "Luigi Vanvitelli", Italy), Gennaro Cordasco (University of Campania "Luigi Vanvitelli", Italy), Stefano Marrone (University of Campania "Luigi Vanvitelli", Italy), and Anna Esposito (University of Campania "Luigi Vanvitelli", Italy)</i>	
Learning From Other Labels: Leveraging Enhanced Mixup and Transfer Learning for Twitter Sentiment Analysis .....	336
<i>Quansen Wang (University of California, U.S.A.)</i>	

Characterizing Learning Dynamics of Deep Neural Networks via Complex Networks .....	344
<i>Emanuele La Malfa (University of Oxford, United Kingdom), Gabriele La Malfa (University of Cambridge, United Kingdom), Giuseppe Nicosia (University of Catania, Italy), and Vito Latora (Queen Mary University of London, United Kingdom)</i>	

## AI Neural Nets - 2

POI Recommend for Deep Neural Network Based on Explicit and Implicit Feature Joint .....	352
<i>Hailun Zhan (Beijing University of Technology, China), Zhiming Ding (Beijing University of Technology, China), Mengmeng Chang (Beijing University of Technology, China), and Xinhui Liu (Beijing University of Technology, China)</i>	
CapsRec: A Capsule Graph Neural Network Model for Social Recommendation .....	359
<i>Peizhen Liu (Beijing University of Posts and Telecommunications, China) and Wen Yu (Beijing University of Posts and Telecommunications, China)</i>	
Profiling Money Laundering with Neural Networks: a Case Study on Environmental Crime Detection .....	364
<i>Roxane Desrousseaux (Paris 8 University, France), Gilles Bernard (Paris 8 University, France), and Jean-Jacques Mariage (Paris 8 University, France)</i>	
An Orthogonal Classification Layer with Kasami Sequences for Discriminative Feature Learning in Neural Networks .....	370
<i>Mohamed Saadeldin (University College Dublin, Ireland) and Brian Macnamee (University College Dublin, Ireland)</i>	
Semantic-Based Bidirectional Adversarial Neural Topic Model .....	376
<i>Zulong Ma (Hohai University, China), Jiamin Lu (Hohai University, China), Jun Feng (Hohai University, China), Yunfei Zhang (Hohai University, China), and Wei Wu (Hohai University, China)</i>	
On Outsourcing Artificial Neural Network Learning of Privacy-Sensitive Medical Data to the Cloud .....	381
<i>Dimitrios Melissourgos (University of Florida, USA), Hanzhi Gao (University of Florida, USA), Chaoyi Ma (University of Florida, USA), Shigang Chen (University of Florida, USA), and Samuel S. Wu (University of Florida, USA)</i>	
Enhancing Neural Network Based Hybrid Learning with Empirical Wavelet Transform for Time Series Forecasting .....	386
<i>Bunchalit Eua-arporn (Data Science and Information Technology Research Center, Tsinghua-Berkeley Shenzhen Institute, China), Shao-Lun Huang (Data Science and Information Technology Research Center, Tsinghua-Berkeley Shenzhen Institute, China), and Ercan E. Kuruoglu (Data Science and Information Technology Research Center, Tsinghua-Berkeley Shenzhen Institute, China)</i>	

## AI Foundation - 3

Consensus Subspace Clustering .....	391
<i>Nathan Thom (University of Nevada, USA), Hung Nguyen (University of Nevada, USA), and Emily Hand (University of Nevada, USA)</i>	
Optimized Models and Symmetry Breaking for the NFA Inference Problem .....	396
<i>Frédéric Lardeux (Univ Angers, LERIA, France) and Eric Monfroy (Univ Angers, LERIA, France)</i>	
Computing Max-SAT Refutations using SAT Oracles .....	404
<i>Matthieu Py (Aix-Marseille Université, Université de Toulon, France), Mohamed Sami Cherif (Aix-Marseille Université, Université de Toulon, France), and Djamal Habet (Aix-Marseille Université, Université de Toulon, France)</i>	
AutoTSC: Optimization Algorithm to Automatically Solve the Time Series Classification Problem .....	412
<i>Laurent Parmentier (OVHCloud, France), Olivier Nicol (OVHCloud, France), Laetitia Jourdan (University of Lille, France), and Marie-Eleonore Kessaci (University of Lille, France)</i>	
Use Mean Field Theory to Train a 200-Layer Vanilla GAN .....	420
<i>Dan Li (Huazhong University of Science and Technology, China), Shuang Liu (Huazhong University of Science and Technology, China), Zhengxin Lyu (Huazhong University of Science and Technology, China), Weilai Xiang (Huazhong University of Science and Technology, China), Wei He (Huazhong University of Science and Technology, China), Fengqi Liu (Huazhong University of Science and Technology, China), and Zhen Zhang (Huazhong University of Science and Technology, China)</i>	
Solving Infinite-Horizon Dec-POMDPs using Finite State Controllers Within JESP .....	427
<i>Yang You (Université de Lorraine, INRIA, CNRS, LORIA, France), Vincent Thomas (Université de Lorraine, INRIA, CNRS, LORIA, France), Francis Colas (Université de Lorraine, INRIA, CNRS, LORIA, France), and Olivier Buffet (Université de Lorraine, INRIA, CNRS, LORIA, France)</i>	
A Deep Genetic Method for Keyboard Layout Optimization .....	435
<i>Keren Nivasch (Computer Science Department, Ariel University, Israel) and Amos Azaria (Computer Science Department, Ariel University, Israel)</i>	
Statistical Guarantees and Algorithmic Convergence Issues of Variational Boosting .....	442
<i>Biraj Subhra Guha (Department of Biostatistics and Computational Biology, University of Rochester Medical Center, USA), Anirban Bhattacharya (Department of Statistics, Texas A &amp; M University, USA), and Debdeep Pati (Department of Statistics, Texas A &amp; M University, USA)</i>	
Graph Neural Networks for Scheduling of SMT Solvers .....	447
<i>Jan Hula (University of Ostrava, Czechia), David Mojžíšek (University of Ostrava, Czechia), and Mikoláš Janota (Czech Technical University in Prague, Czechia)</i>	

## AI Planning - 3

Predicting the Next Location for Trajectories From Stolen Vehicles .....	452
<i>José Soares da Silva Neto (Insight Data Science Lab, Federal University of Ceara, Brazil), Ticiane Linhares Coelho da Silva (Insight Data Science Lab, Federal University of Ceara, Brazil), Lívia Almada Cruz (Insight Data Science Lab, Federal University of Ceara, Brazil), Vinícius Monteiro de Lira (ISTI-CNR, Italy), José Antônio F. de Macêdo (Insight Data Science Lab, Federal University of Ceara, Brazil), Régis Pires Magalhães (Insight Data Science Lab, Federal University of Ceara, Brazil), and Lucas Peres Gaspar (Insight Data Science Lab, Federal University of Ceara, Brazil)</i>	
Graph Partition Convolution Neural Network for Pedestrian Trajectory Prediction .....	457
<i>Ruiyang Wang (National Engineering Research Center for Multimedia Software, Wuhan University, China), Ming Li (National Engineering Research Center for Multimedia Software, Wuhan University, China), Pin Zhang (National Engineering Research Center for Multimedia Software, Wuhan University, China), and Fan Wen (National Engineering Research Center for Multimedia Software, Wuhan University, China)</i>	
A Data-Driven Approach for Guiding the Occupant’s Actions to Achieve Better Comfort in Buildings .....	463
<i>Fateh Boulmaiz (university of Grenoble Alpes, France), Stephane Ploix (university of Grenoble Alpes, France), and Patrick Reignier (university of Grenoble Alpes, France)</i>	
A Robust Approach to Noise for Plan Recognition in RTS Games .....	469
<i>Guillaume Lorthioir (National Institute of Informatics, Japan) and Katsumi Inoue (National Institute of Informatics, Japan)</i>	
Autonomous Electric Vehicle Routing Problem using Ant Colony Optimization with Consideration of the Battery State-of-Health .....	475
<i>Pierre Romet (CIAD, Univ. Bourgogne Franche-Comté, France), Romain Tabusse (FEMTO-ST Institute, Univ. Bourgogne Franche-Comté, CNRS, France), Franck Gechter (CIAD, Univ. Bourgogne Franche-Comté, France), El-Hassane Aglzim (ISAT-DRIVE, Univ. Bourgogne Franche-Comté, France), Samir Jemei (FEMTO-ST Institute, Univ. Bourgogne Franche-Comté, France), David Bouquain (FEMTO-ST Institute, Univ. Bourgogne Franche-Comté, France), and Daniela Chrenko (FEMTO-ST Institute, Univ. Bourgogne Franche-Comté, France)</i>	
Adversarial Multi-Agent Path Finding is Intractable .....	481
<i>Marika Ivanová (Charles University, Czechia) and Pavel Surynek (Czech Technical University in Prague, Czechia)</i>	
Contingent Planning for Robust Multi-Agent Path Finding .....	487
<i>Michal Nekvinda (Faculty of Mathematics and Physics, Charles University, Czech Republic) and Roman Barták (Faculty of Mathematics and Physics, Charles University, Czech Republic)</i>	

## AI Machine Learning - 3

Novelty Detection for Unsupervised Continual Learning in Image Sequences .....	493
<i>Ruiqi Dai (INSA de Lyon; LIRIS, CNRS, France), Mathieu Lefort (Université de Lyon, Université Claude Bernard Lyon 1; LIRIS, CNRS, France), Frédéric Armetta (Université de Lyon, Université Claude Bernard Lyon 1; LIRIS, CNRS, France), Mathieu Guillermin (Université Catholique de Lyon, France), and Stefan Duffner (Université de Lyon, INSA Lyon; LIRIS, CNRS, France)</i>	
Learning Algorithms with Self-Play: A New Approach to the Distributed Directory Problem .....	501
<i>Pankaj Khanchandani (Cloud Technology, Adobe Systems, India), Oliver Richter (Department of Electrical Engineering and Information Technology, ETH Zurich, Switzerland), Lukas Rusch (Department of Electrical Engineering and Information Technology, ETH Zurich, Switzerland), and Roger Wattenhofer (Department of Electrical Engineering and Information Technology, ETH Zurich, Switzerland)</i>	
Evolutionary Computing Assisted Deep Reinforcement Learning for Multi-Objective Integrated Energy System Management .....	506
<i>Chao Huang (University of Science and Technology Beijing, China; University of Macau, China), Long Wang (University of Science and Technology Beijing, China), Xiong Luo (University of Science and Technology Beijing, China), Hongcai Zhang (University of Macau, China), and Yonghua Song (University of Macau, China)</i>	
Sensitivity Analysis for Deep Learning: Ranking Hyper-Parameter Influence .....	512
<i>Rhian Taylor (Department of Computer Science, University of Reading, UK), Varun Ojha (Department of Computer Science, University of Reading, UK), Ivan Martino (KTH Royal Institute of Technology, Sweden), and Giuseppe Nicosia (University of Cambridge, UK)</i>	
sUAS and Machine Learning Integration in Waterfowl Population Surveys .....	517
<i>Zhicheng Tang (University of Missouri, USA), Yang Zhang (University of Missouri, USA), Yizhen Wang (University of Missouri, USA), Yi Shang (University of Missouri, USA), Reid Viegut (University of Missouri, USA), Elisabeth Webb (Missouri Cooperative Fish and Wildlife Research Unit, University of Missouri, USA), Andrew Raedeke (Missouri Department of Conservation, USA), and Joel Sartwell (Missouri Department of Conservation, USA)</i>	
Intelligent Machine Learning System for Predicting Customer Churn .....	522
<i>Chenggang He (Anhui University, China), Chris H.Q Ding (University of Texas at Arlington, UAS), Sibao Chen (Anhui University, China), and Bin Luo (Anhui University, China)</i>	

## AI CVPR - 1

Few-Shot Adaptive Detection of Objects of Concern using Generative Models with Negative Retraining .....	528
<i>Nikolaos Dionelis (The University of Edinburgh, UK), Mehrdad Yaghoobi (The University of Edinburgh, UK), and Sotirios Tsafaris (The University of Edinburgh, UK)</i>	

FST-Net: Exploiting Frequency Spatial Temporal Information for Low-Quality Fake Video Detection .....	536
<i>Min Zhang (University of Science and Technology of China, China; Key Laboratory of Cyberculture Content Cognition and Detection, Ministry of Culture and Tourism, China), Xiaohan Liu (National Engineering Laboratory for Public Safety Risk Perception and Control by Big Data, China), Chenyu Liu (National Engineering Laboratory for Public Safety Risk Perception and Control by Big Data, China), Xueqi Zhang (University of Science and Technology of China, China; Key Laboratory of Cyberculture Content Cognition and Detection, Ministry of Culture and Tourism, China), and Haiyong Xie (Capital Medical University, China; Key Laboratory of Cyberculture Content Cognition and Detection, Ministry of Culture and Tourism, China)</i>	
A Global Discriminant Joint Training Framework for Robust Speech Recognition .....	544
<i>Lujun Li (Chair of Human-Machine Communication, Technical University of Munich, Germany), Ludwig Kürzinger (Chair of Human-Machine Communication, Technical University of Munich, Germany), Tobias Watzel (Chair of Human-Machine Communication, Technical University of Munich, Germany), and Gerhard Rigoll (Chair of Human-Machine Communication, Technical University of Munich, Germany)</i>	
A Supervisory Mask Attentional Network for Person Re-Identification in Uniform Dress Scenes .....	552
<i>Bo Li (Glodon AI Research.Glodon \ China), Ling Bai (Glodon AI Research.Glodon \ China), Yang Wang (Glodon AI Research.Glodon \ China), Zhe Wu (Glodon AI Research.Glodon \ China), and Tong Lin (Peking University, China; Peng Cheng Laboratory, China)</i>	
Crowdsourcing Recognized Image Objects in Mobile Devices Through Machine Learning .....	560
<i>Athanasios Giannikis (University of Piraeus, Greece), Efthimios Alepis (University of Piraeus, Greece), and Maria Virvou (University of Piraeus, Greece)</i>	
An Evaluation of Methods on Detecting, Recognizing and Understanding Graphics Images in Technical Documents .....	568
<i>Michail Alexiou (CART Center, Wright State University) and Nikolaos Bourbakis (CART Center, Wright State University)</i>	
A Part Invariance Network for Cross-Domain Person Re-Identification .....	575
<i>Shouhong Wan (University of Science and Technology of China, China), Peiyi Zhang (University of Science and Technology of China, China), Peiquan Jin (University of Science and Technology of China, China), and Pengcheng Ding (University of Science and Technology of China, China)</i>	

## AI Foundation - 4

A Constraint-Based Approach for Enumerating Gradual Itemsets .....	582
<i>Amel Hidouri (CRIL-CNRS, Université d'Artois, France), Said Jabbour (CRIL-CNRS, Université d'Artois, France), Jerry Lonlac (IMT Nord Europe, Institut Mines-Télécom, Univ. Lille Centre for Digital Systems, France), and Badran Raddaoui (SAMOVAR, Télécom SudParis, France)</i>	

Stochastic Euler Heavy Ball Method .....	590
<i>Zhou Shao (Center for Data Science, Peking University, China), Junyan Liu (University California San Diego), and Tong Lin (Peking University; Peng Cheng Laboratory, China)</i>	
Constraint Programming for Itemset Mining with Multiple Minimum Supports .....	598
<i>Mohamed-Bachir Belaid (Simula Research Laboratory, Norway) and Nadjib Lazaar (LIRMM, University of Montpellier, CNRS, France)</i>	
Improving Integer and Constraint Programming for Graeco-Latin Squares .....	604
<i>Noah Rubin (Carleton University), Curtis Bright (Carleton University; University of Windsor), Kevin Cheung (Carleton University), and Brett Stevens (Carleton University)</i>	
EAD: An Efficient Anomaly Detection Algorithm for Multivariate Time Series .....	609
<i>Dehong Ma (National University of Defense Technology, China), Bo Ding (National University of Defense Technology, China), Dawei Feng (National University of Defense Technology, China), and Hui Liu (National University of Defense Technology, China)</i>	
Aggregate Function Generalization to Temporal Data .....	614
<i>Jan Motl (Czech Technical University in Prague, Czechia) and Pavel Kordík (Czech Technical University in Prague, Czechia)</i>	
Causal Event Extraction using Iterated Dilated Convolutions with Semantic Convolutional Filters .....	619
<i>Jianqi Gao (Shanghai University, Shanghai, China), Xiangfeng Luo (Shanghai University, Shanghai, China), Hao Wang (Shanghai University, Shanghai, China), and Zijian Wang (Shanghai University, Shanghai, China)</i>	
Hierarchical Triplet Attention Pooling for Graph Classification .....	624
<i>Liande Bi (Department of Computer Science and Technology, Ocean University of China, China), Xin Sun (Department of Computer Science and Technology, Ocean University of China, China), Fei Zhou (Department of Computer Science and Technology, Ocean University of China, China), and Junyu Dong (Department of Computer Science and Technology, Ocean University of China, China)</i>	
Inferring Clauses and Formulas in Max-SAT .....	632
<i>Mathieu Py (Aix-Marseille Université, Université de Toulon, France), Mohamed Sami Cherif (Aix-Marseille Université, Université de Toulon, France), and Djamel Habet (Aix-Marseille Université, Université de Toulon, France)</i>	

## AI Application Specific - 1

Cross-View Gait Recognition Based on Feature Fusion .....	640
<i>Qi Hong (Wuhan University, China), Zhongyuan Wang (Wuhan University, China), Jianyu Chen (Wuhan University, China), and Baojin Huang (Wuhan University, China)</i>	
A Dirichlet Policy Reuse Approach for Financial Markets .....	647
<i>April Hua Liu (Shanghai University of Finance and Economics, China) and Xiaoyue Fang (Shanghai University of Finance and Economics, China)</i>	

Improving Transportation Mode Identification with Limited GPS Trajectories .....	655
<i>Yuanshao Zhu (Southern University of Science and Technology; Guangdong Provincial Key Laboratory of Brain-inspired Intelligent Computation), Christos Markos (Southern University of Science and Technology; University of Technology Sydney), and James J.Q. Yu (Southern University of Science and Technology; Guangdong Provincial Key Laboratory of Brain-inspired Intelligent Computation)</i>	
Blur the Eyes of UAV: Effective Attacks on UAV-Based Infrastructure Inspection .....	661
<i>Ashok Raja (Department of CIS, University of Massachusetts Dartmouth), Laurent Njilla (Air Force Research Laboratory), and Jiatwei Yuan (Department of CIS, University of Massachusetts Dartmouth)</i>	
Channel-Weighted Squeeze-and-Excitation Networks For Epileptic Seizure Detection .....	666
<i>Nan Ke (Peking University, China), Tong Lin (Peking University, China; Peng Cheng Laboratory, China), and Zhouchen Lin (Peking University, China; Pazhou Laboratory, China)</i>	
Training Electric Vehicle Charging Controllers with Imitation Learning .....	674
<i>Martin Pilát (Charles University, Czech Republic)</i>	
Evaluation of One-Class Algorithms for Anomaly Detection in Home Networks .....	682
<i>Pedro H. A. D. de Melo (Federal University of Uberlândia, Brazil), Adriano Araújo Martins de Resende (Federal University of Uberlândia, Brazil), Rodrigo Sanches Miani (Federal University of Uberlândia, Brazil), and Pedro Frosi Rosa (Federal University of Uberlândia, Brazil)</i>	
Constrained Prediction Time Random Forests using Equivalent Trees and Genetic Programming : Application to Fall Detection Model Embedding .....	690
<i>Mounir Atiq (ENS Paris-Saclay, CNRS, France), Sergio Peignier (Univ. Lyon, INSA Lyon, France), and Mathilde Mougeot (ENS Paris-Saclay, CNRS, ENSIIE, France)</i>	

## AI Machine Learning - 4

Transformer Based Multi-Output Regression Learning for Wastewater Treatment .....	698
<i>Zi-lan Huang (Department of Computer Science and Technology, Nanjing University, China), Lou-yi Zhang (Department of Computer Science and Technology, Nanjing University, China), Yi Zhang (Department of Computer Science and Technology, Nanjing University, China), Shu-wei Qian (Department of Computer Science and Technology, Nanjing University, China), and Chong-jun Wang (Department of Computer Science and Technology, Nanjing University, China)</i>	
Incremental Feature Learning using Constructive Neural Networks .....	704
<i>Armin Sadreddin (Computer Science Department, University of Regina, Canada) and Samira Sadaoui (Computer Science Department, University of Regina, Canada)</i>	
Learning Heterogeneous Strategies via Graph-Based Multi-Agent Reinforcement Learning .....	709
<i>Yang Li (ShangHai University, China), Xiangfeng Luo (ShangHai University, China), and Shaorong Xie (ShangHai University, China)</i>	

Formal Modeling of Reinforcement Learning with Many Agents Through Repeated Local Interactions .....	714
<i>Chin-wing Leung (The Chinese University of Hong Kong, China), Shuyue Hu (National University of Singapore, Singapore), and Ho-fung Leung (The Chinese University of Hong Kong, China)</i>	
Ensemble Learning using Error Correcting Output Codes: New Classification Error Bounds .....	719
<i>Hieu Nguyen (Department of Mathematics, Rowan University, USA), Mohammed Khan (Department of Computer Science, Rowan University, USA), Nicholas Kaegi (Department of Computer Science, Rowan University, USA), Shen-Shyang Ho (Department of Computer Science, Rowan University, USA), Jonathan Moore (Department of Mathematics, Rowan University, USA), Logan Borys (Department of Mathematics, Rowan University, USA), and Lucas Lavalva (Department of Computer Science, Rowan University, USA)</i>	
Detecting Integer Overflow Errors in Java Source Code via Machine Learning .....	724
<i>Yu Luo (University of Missouri-Kansas City, USA), Weifeng Xu (The University of Baltimore, USA), and Dianxiang Xu (University of Missouri-Kansas City, USA)</i>	

## AI CVPR - 2

Bilateral Res-UNet for Image Colorization with Limited Data via GANs .....	729
<i>Haojie Guo (Northwestern Polytechnical University, P.R. China), Zhe Guo (Northwestern Polytechnical University, P.R. China), Zhaojun Pan (Northwestern Polytechnical University, P.R. China), and Xuewen Liu (Northwestern Polytechnical University, P.R. China)</i>	
CvT-ASSD: Convolutional Vision-Transformer Based Attentive Single Shot MultiBox Detector .....	736
<i>Weiqliang Jin (Shanghai University, China), Hang Yu (Shanghai University, China), and Xiangfeng Luo (Shanghai University, China)</i>	
Fashion Landmark Detection via Deep Residual Spatial Attention Network .....	745
<i>Rui Wang (Northwest University, China), Jun Feng (Northwest University, China), and Qirong Bu (Northwest University, China)</i>	
FRAGAN-VSR: Frame-Recurrent Attention Generative Adversarial Network for Video Super-Resolution .....	753
<i>Yuzhen Zhang (University of Chinese Academy of Sciences, China; Institute of Information Engineering, Chinese Academy of Sciences, China), Guanqun Liu (University of Chinese Academy of Sciences, China; Institute of Information Engineering, Chinese Academy of Sciences, China), Yanyan Zhao (University of Chinese Academy of Sciences, China; Institute of Information Engineering, Chinese Academy of Sciences, China), Daren Zha (Institute of Information Engineering, Chinese Academy of Sciences, China), Xin Wang (Institute of Information Engineering, Chinese Academy of Sciences, China), Lin Zhao (Institute of Information Engineering, Chinese Academy of Sciences, China), and Lei Wang (Institute of Information Engineering, Chinese Academy of Sciences, China)</i>	

Multi-Task Scale Adaptive Ladder Network for Crowd Counting .....	758
<i>Kehao Wang (Wuhan University of Technology, China), Ruiqi Ren (Wuhan University of Technology, China), and Chenglin Li (Wuhan University of Technology, China)</i>	
PSG-GAN: Progressive Person Image Generation with Self-Guided Local Focuses .....	763
<i>Zhou Xiaomao (Center of Future Network Research, Purple Mountain Laboratories, China), Wang Wei (Center of Future Network Research, Purple Mountain Laboratories, China), and Du Bing (Center of Future Network Research, Purple Mountain Laboratories, China)</i>	
Causal Intervention for Object Detection .....	770
<i>Weiqing Huang (Institute of Information Engineering, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Miao Jiang (Institute of Information Engineering, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Min Li (Institute of Information Engineering, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Bo Meng (Beijing Institute of Technology, China), Junxing Ren (Institute of Information Engineering, Chinese Academy of Sciences, China), Shixian Zhao (Institute of Information Engineering, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Ruwen Bai (Institute of Information Engineering, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and Yang Yang (Institute of Information Engineering, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)</i>	

## AI Foundation - 5

AWD3: Dynamic Reduction of the Estimation Bias .....	775
<i>Dogan Can Cicek (Electrical and Electronics Engineering Department, Bilkent University, Turkey), Enes Duran (Electrical and Electronics Engineering Department, Bilkent University, Turkey), Baturay Saglam (Electrical and Electronics Engineering Department, Bilkent University, Turkey), Ahmet Kagan Kaya (Electrical and Electronics Engineering Department, Bilkent University, Turkey), Furkan Burak Mutlu (Electrical and Electronics Engineering Department, Bilkent University, Turkey), and Suleyman Serdar Kozat (Electrical and Electronics Engineering Department, Bilkent University, Turkey)</i>	
Surrogate-Based Black-Box Optimization Method for Costly Molecular Properties .....	780
<i>Jules Leguy (Univ Angers, LERIA, France), Béatrice Duval (Univ Angers, LERIA, France), Benoit Da Mota (Univ Angers, LERIA, France), and Thomas Cauchy (Univ Angers, CNRS, France)</i>	
Optimization of the Diffusion Time in Graph Diffused-Wasserstein Distances: Application to Domain Adaptation .....	786
<i>Amélie Barbe (Univ Lyon, ENS de Lyon, Inria, CNRS, UCBL, France), Paulo Gonçalves (Univ Lyon, ENS de Lyon, Inria, CNRS, UCBL, France), Marc Sebban (Lyon, UJM-Saint-Etienne, CNRS, France), Pierre Borgnat (Université de Lyon, CNRS, ENSL, France), Rémi Gribonval (Univ Lyon, ENS de Lyon, Inria, CNRS, UCBL, France), and Titouan Vayer (Univ Lyon, ENS de Lyon, Inria, CNRS, UCBL, France)</i>	

Explaining Black-box Classification Models with Arguments .....	791
<i>Leila Amgoud (IRIT - CNRS, France)</i>	
Towards Monotonous Functions Approximation from Few Data With Gradual Generalized Modus Ponens: Application to Materials Science .....	796
<i>Hiba Hajri (Université Paris-Saclay, CEA, France), Jean-Philippe Poli (Université Paris-Saclay, CEA, France), and Laurence Boudet (Université Paris-Saclay, CEA, France)</i>	
On Robust Vs Fast Solving of Qualitative Constraints .....	801
<i>Jan Wehner (Bamberg University, Germany), Michael Sioutis (Bamberg University, Germany), and Diedrich Wolter (Bamberg University, Germany)</i>	

## AI Application Specific - 2

LURAT: a Lightweight Unsupervised Automatic Readability Assessment Toolkit for Second Language Learners .....	806
<i>Yo Ebara (Tokyo Gakugei University, Japan)</i>	
Checking Agent Intentions in Games .....	815
<i>Nathalie Chetcuti-Sperandio (Univ. Artois and CNRS, France), Alix Goudyme (Univ. Artois and CNRS, France), Sylvain Lagrue (Université de Technologie de Compiègne, France), and Tiago de Lima (Univ. Artois and CNRS, France)</i>	
RMkNN and KNORA-IU: Combining Imbalanced Dynamic Selection Techniques for Credit Scoring ...	823
<i>Leopoldo Melo Junior (Insightlab, Universidade Federal do Ceará, Brazil), José Antonio Macedo (Computer Science Department - Universidade Federal do Ceará, Brazil), Franco Maria Nardini (ISTI-CNR, Italy), and Chiara Renso (ISTI-CNR, Italy)</i>	
Self-supervised Variational Autoencoder for Recommender Systems .....	831
<i>Jing Wang (Beijing Jiaotong University, China), Gangdu Liu (Beijing Jiaotong University, China), Jun Wu (Beijing Jiaotong University, China), Caiyan Jia (Beijing Jiaotong University, China), and Zhifei Zhang (Beijing Jiaotong University, China)</i>	
Enhanced-Memory Transformer for Coherent Paragraph Video Captioning .....	836
<i>Leonardo Cardoso (Pontificia Universidade Católica de Minas Gerais, Brazil), Silvio Jamil Guimarães (Pontificia Universidade Católica de Minas Gerais, Brazil), and Zenilton Patrocínio (Pontificia Universidade Católica de Minas Gerais, Brazil)</i>	
ExMed: An AI Tool for Experimenting Explainable AI Techniques on Medical Data Analytics .....	841
<i>Marcin Kapcia (Swansea university, United Kingdom), Hassan Eshkiki (Swansea University, United Kingdom), Jamie Duell (Swansea University, United Kingdom), Xiuyi Fan (Swansea University, United Kingdom), Shangming Zhou (University of Plymouth, United Kingdom), and Benjamin Mora (Swansea University, United Kingdom)</i>	

New Insights into the Propulsion Power Prediction of Cruise Ships .....	846
<i>Fred Gonsalves (IMT Atlantique, Lab-STICC, France; Chantiers de l'Atlantique), Bastien Padeloup (IMT Atlantique, Lab-STICC, France), Romain Billot (IMT Atlantique, Lab-STICC, France), Patrick Meyer (IMT Atlantique, Lab-STICC, France), Arnaud Jacques (Chantiers de l'Atlantique), and Matthieu Lorang (Chantiers de l'Atlantique)</i>	

## AI Machine Learning - 5

An Interpretable Deep Learning System for Automatically Scoring Request for Proposals .....	851
<i>Subhadip Maji (Optum Global Solutions, India), Anudeep Appe (Optum Global Solutions, India), Raghav Bali (Optum Global Solutions, India), Arijit Ghosh Chowdhury (Optum Global Solutions, India), Veera Chikka Raghavendra (Optum Global Solutions, India), and Vamsi M Bhandaru (Optum Global Solutions, India)</i>	
Adaptive Workload Orchestration in Pure Edge Computing: A Reinforcement-Learning Model ....	856
<i>Zahra Safavifar (SFI Centre for Research Training in Machine Learning at University College Dublin, Ireland), Saeedeh Ghanadbashi (dept. Computer Science, University College Dublin, Ireland), and Fatemeh Golpayegani (dept. Computer Science, University College Dublin, Ireland)</i>	
FEDBS: Learning on Non-IID Data in Federated Learning using Batch Normalization .....	861
<i>Meryem Janati Idrissi (Mohammed VI Polytechnic University, Morocco), Ismail Berrada (Mohammed VI Polytechnic University, Morocco), and Guevara Noubir (Northeastern University)</i>	
A Deep Reinforcement Learning-Based Agent for Negotiation with Multiple Communication Channels .....	868
<i>Xiaoyang Gao (Tianjin University, China), Siqi Chen (Tianjin University, China), Yan Zheng (Tianjin University, China), and Jianye Hao (Tianjin University, China)</i>	
Dual Batch Size Training: An Efficient MGD Adaptive Batch Size Method .....	873
<i>Yuhang Du (Shanghai University, China), Wenfeng Shen (Shanghai University, China), Baohua Liu (Shanghai University, China), Weijia Lu (United Automotive Electronic System Co., China), and Hao Gong (United Automotive Electronic System Co., China)</i>	
Analysis of COVID-19 Misinformation in Social Media using Transfer Learning .....	880
<i>Abhishek Dhankar (Department of Computing Science, University of Alberta, Canada), Hamman Samuel (Department of Computing Science, University of Alberta, Canada), Fahim Hassan (School of Public Health, University of Alberta, Canada), Nawshad Farruque (Department of Computing Science, University of Alberta, Canada), Francois Bolduc (Department of Pediatrics, University of Alberta, Canada), and Osmar Zaiane (Department of Computing Science, University of Alberta, Canada)</i>	

## AI CVPR - 3

Self-Augmentation with Dual-Cycle Constraint for Unsupervised Image-to-Image Generation .....	886
<i>Gang Wang (Shanghai University of Finance and Economics, China), Haibo Shi (Shanghai University of Finance and Economics, China), and Yufei Chen (CAD Research Center, Tongji University, China)</i>	
Polar Loss for Event-Based Object Detection .....	891
<i>Huachi Xu (Artificial Intelligence Research Center, Defense Innovation Institute, China), Dianxi Shi (Artificial Intelligence Research Center, Defense Innovation Institute, China; Tianjin Artificial Intelligence Innovation Center, China), Luoxi Jing (National University of Defense Technology, China), and Cong Liu (National University of Defense Technology, China)</i>	
Terroristic Content Detection using a Multi-Scene Classification System .....	896
<i>Chenyi Wang (Shanghai Jiaotong University, China), Jie Guo (Shanghai Jiaotong University, China), Weidong Qiu (Shanghai Jiaotong University, China), Zheng Huang (Shanghai Jiaotong University, China), and Yuhang Yang (Shanghai Jiaotong University, China)</i>	
Delving into the Scale Variance Problem in Object Detection .....	902
<i>Junliang Chen (Shenzhen University, China; Shenzhen Institute of Artificial Intelligence of Robotics of Society, China), Xiaodong Zhao (Shenzhen University, China; Shenzhen Institute of Artificial Intelligence of Robotics of Society, China), and Linlin Shen (Shenzhen University, China; Shenzhen Institute of Artificial Intelligence of Robotics of Society, China)</i>	
Object and Contour Detection with an Architecture-Fusion Network .....	910
<i>Keqing Jian (University of Electronic Science and Technology of China, China) and Shenglin Gui (University of Electronic Science and Technology of China, China)</i>	
Bidirectional Convolutional-LSTM Based Network for Lung Segmentation of Chest X-ray Images..	915
<i>Md Shariful Alam (University of New South Wales, Australia), Dadong Wang (Data61 CSIRO, Australia), and Arcot Sowmya (University of New South Wales, Australia)</i>	

## AI Natural Language - 1

Evaluating Methodologies on Deep Understanding of Mathematical Formulas in Technical Documents .....	920
<i>Nikolaos Gkorgkolis (Center of Assistive Research Technologies (CART), Wright State University, USA) and Nikolaos Bourbakis (Center of Assistive Research Technologies (CART), Wright State University, USA)</i>	
A Scalable Short-Text Clustering Algorithm using Apache Spark .....	927
<i>Leonidas Akritidis (International Hellenic University, Greece), Miltiadis Alamaniotis (University of Texas at San Antonio, USA), Athanasios Feogas (University of Thessaly, Greece), and Panayiotis Bozanis (International Hellenic University, Greece)</i>	

Disease Modeling with a Forest Deep Neural Network Utilizing NLP and a Virtualized Clinical Semantic Network .....	935
<i>Fuad Rahman (Apurba Technologies, USA), Abrar Rahman (The University of California, USA), AKM Shahariar Azad Rabby (Apurba Technologies, Bangladesh; University of Alabama at Birmingham, USA), Md Jamiur Rahman Rifat (University of Alabama at Birmingham, USA), Mridul Banik (Colorado State University, USA; University of Alabama at Birmingham, USA), Md. Majedul Islam (University of Alabama at Birmingham, USA), Aminul Islam (University of Alabama at Birmingham, USA), Nor Azriah Aziz (Apurba Technologies, Malaysia), Rick Meyer (Goldblatt Systems, USA), John Kriak (MolecularDx LLC, USA), and Sidney Goldblatt (Goldblatt System, USA)</i>	
Quantum-Inspired Hierarchical Attention Mechanism for Question Answering .....	943
<i>Peng Guo (Tianjin University, China)</i>	
A Simple, Concise, Query-Based Approach to News Article Summarization using Sentence Scoring .....	951
<i>Megan Thornton (Computer Science Department, Brigham Young University, USA), Sophie Gao (Computer Science Department, Brigham Young University, USA), and Yiu-Kai Ng (Computer Science Department, Brigham Young University, USA)</i>	
Bridging Text Space and Knowledge Space via Transference Methods .....	959
<i>Ming Liu (National Computer Network Emergency Response Technical Team/Coordination Center of China, Beihang University, China), Bo Wang (National Computer Network Emergency Response Technical Team/Coordination Center of China, Beihang University, China), Qiang Gao (National Computer Network Emergency Response Technical Team/Coordination Center of China, Beihang University, China), Li Zhang (Beijing Information Science and Technology University, China), Xingchen Lin (National Computer Network Emergency Response Technical Team/Coordination Center of China, Beihang University, China), and Bo Lang (State Key Laboratory of Software Development Environment, Beihang University, China)</i>	
T-Mask: An Active and Accurate Dialogue State Tracking with Token Mask Prediction .....	965
<i>Shezheng Song (National University of Defense Technology, China), Changjian Wang (National University of Defense Technology, China), Dongsong Zhang (National University of Defense Technology, China), Zhen Huang (National University of Defense Technology, China), and Yuxing Peng (National University of Defense Technology, China)</i>	
Diversity-Driven Combination for Grammatical Error Correction .....	972
<i>Wenjuan Han (National University of Singapore) and Hwee Tou Ng (National University of Singapore)</i>	

### AI Application Specific - 3

Verum Fitness: An AI Powered Mobile Fitness Safety and Improvement Application .....	980
<i>Asia Flores (Miami University, USA), Brandon Hall (Miami University, USA), Luke Carter (Miami University, USA), Maxwell Lanum (Miami University, USA), Rishi Narahari (Miami University, USA), and Garrett Goodman (Miami University, USA)</i>	

Intrusion Detection over Network Packets using Data Stream Classification Algorithms .....	985
<i>Gilberto Olimpio Jr (Faculty of Computing - Federal University of Uberlandia, Brazil), Pedro F. C. Silva (Faculty of Mathematics - Federal University of Uberlandia, Brazil), Lasaro Camargos (Faculty of Computing - Federal University of Uberlandia, Brazil), Rodrigo S. Miani (Faculty of Computing - Federal University of Uberlandia, Brazil), and Elaine R. de Faria (Faculty of Computing - Federal University of Uberlandia, Brazil)</i>	
A Hybrid System for Lithium-ion Battery State-of-Charge Univariate Forecasting .....	991
<i>Marie Chantelle Cruz Medina (Escola Politecnica Universidade de Pernambuco, Brazil) and João Fausto L. de Oliveira (Escola Politecnica Universidade de Pernambuco, Brazil)</i>	
Air Quality Data Pre-Processing: A Novel Algorithm to Impute Missing Values in Univariate Time Series .....	996
<i>Lakmini Wijesekara (Western Sydney University, Australia) and Liwan Liyanage (Western Sydney University, Australia)</i>	
Stock Market Trend Forecasting Based on Multiple Textual Features: A Deep Learning Method ...	1002
<i>Zhenda Hu (Shanghai University of Finance and Economics, China), Zhaoxia Wang (Singapore Management University, Singapore), Seng-Beng Ho (Social and Cognitive Computing Department, Institute of High Performance Computing (IHPC), Agency for Science, Technology and Research (A*STAR), Singapore), and Ah-Hwee Tan (Singapore Management University, Singapore)</i>	
Super Mario A-Star Agent Revisited .....	1008
<i>David Šosvald (Faculty of Mathematics and Physics, Charles University, Czech Republic), Michal Töpfer (Faculty of Mathematics and Physics, Charles University, Czech Republic), Jan Holan (Faculty of Mathematics and Physics, Charles University, Czech Republic), Vojtech Cerný (Faculty of Mathematics and Physics, Charles University, Czech Republic), and Jakub Gemrot (Faculty of Mathematics and Physics, Charles University, Czech Republic)</i>	
FHSR: A Successful Application of Deep Learning Technology in Signal Retrieval .....	1013
<i>Pengcheng Liu (Institute of Information Engineering, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Zhen Han (Beijing Jiaotong University, China), Meimei Li (Institute of Information Engineering, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China; Beijing Jiaotong University, China), and Meichen Liu (Institute of Information Engineering, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)</i>	
Evolutionary Method for Two-Dimensional Associative Local Distribution Rule Mining .....	1018
<i>Kaoru Shimada (Gunma University, Japan), Takaaki Arahira (Kyushu Institute of Information Sciences, Japan), and Shogo Matsuno (Gunma University, Japan)</i>	

## AI KRRC - 1

KGAT-SR: Knowledge-Enhanced Graph Attention Network for Session-Based Recommendation . 1026 <i>Qianqian Zhang (Hohai University, China), Zhuoming Xu (Hohai University, China), Hanlin Liu (Hohai University, China), and Yan Tang (Hohai University, China)</i>	
Leveraging Static Models for Link Prediction in Temporal Knowledge Graphs ..... 1034 <i>Wessel Radstok (Utrecht University, The Netherlands), Mel Chekol (Utrecht University, The Netherlands), and Yannis Velegarakis (Utrecht University, The Netherlands)</i>	
Few-Shot Classification With Intra-Class Unrelated Multi-Prototype Representation and Episode Adaptation Strategy ..... 1042 <i>Zhijie Wen (Department of Mathematics, Shanghai University, China), Qi Zhang (Department of Mathematics, Shanghai University, China), Wei Wang (Department of Mathematics, Shanghai University, China), and Liyan Ma (Shanghai University, China)</i>	
Zero or few Shot Knowledge Graph Completions by Text Enhancement with Multi-Grained Attention ..... 1050 <i>Zhijuan Du (Inner Mongolia University; Inner Mongolia Discipline Inspection and Supervision Big Data Laboratory; Engineering Research Center of Ecological Big Data, Ministry of Education Hohhot, China)</i>	
Fake News Detection by using Common Latent Semantics Matching Method ..... 1059 <i>Zhi Zeng (Huazhong Agricultural University, China), Linyun Ye (Huazhong Agricultural University, China), Ruigang Liu (Huazhong Agricultural University, China), Ziwen Cui (Huazhong Agricultural University, China), Minghao Wu (Huazhong Agricultural University, China), and Ying Sha (Huazhong Agricultural University, China)</i>	
Resolving Infeasibility in Linear Programs for the Frequent Itemset Hiding Problem ..... 1067 <i>Panteleimon Krasadakis (Department of Informatics, University of Piraeus, Greece), Vassilios Verykios (Hellenic Open University, Greece), and Evangelos Sakkopoulos (Department of Informatics, University of Piraeus, Greece)</i>	
Code-Based Algorithm for Coalition Structure Generation ..... 1075 <i>Redha Taguelmimt (LIRIS Laboratory, Claude Bernard University Lyon 1, France), Samir Aknine (LIRIS Laboratory, Claude Bernard University Lyon 1, France), Djamila Boukreda (Laboratory of Applied Mathematics, University of Bejaia, Algeria), and Narayan Changder (Dept. of C.S.E., National Institute of Technology Durgapur, India)</i>	

## AI CVPR - 4

Object Quality Guided Feature Fusion for Person Re-Identification ..... 1083 <i>Lei Zhang (State Key Lab of Virtual Reality Technology and Systems, Beihang University, China), Na Jiang (Capital Normal University, China), Qishuai Diao (State Key Lab of Virtual Reality Technology and Systems, Beihang University, China), Danyang Huang (State Key Lab of Virtual Reality Technology and Systems, Beihang University, China), Zhong Zhou (State Key Lab of Virtual Reality Technology and Systems, Beihang University, China), and Wei Wu (State Key Lab of Virtual Reality Technology and Systems, Beihang University, China)</i>	
---	--

Concealed Objects in a Scene: A Closer Look at the Localization Block of Object Detection Models .....	1088
<i>Jinky G. Marcelo (Central Mindanao University; De La Salle University, Philippines), Gian Marco I. Te (De La Salle University, Philippines), Macario O. Cordel II (De La Salle University, Philippines), and Joel P. Ilaio (De La Salle University, Philippines)</i>	
Detection of Defect Proportion for Workpiece Surface Based on a Fusion Prediction Model .....	1093
<i>Sikai Tao (Nankai University, China), Ruixun Zhang (Peking University, China), and Yumeng Li (Nankai University, China)</i>	
User-Guided Image Inpainting with Transformer .....	1099
<i>Jingjun Qiu (East China Normal University, China) and Yan Gao (East China Normal University, China)</i>	
Density-Net: A Density-Aware Network for 3D Object Detection .....	1105
<i>Hongyu Li (University of Chinese Academy of Sciences, China; Institute of Information Engineering, Chinese Academy of Sciences, China), Youhui Guo (University of Chinese Academy of Sciences, China; Institute of Information Engineering, Chinese Academy of Sciences, China), Yu Zhou (University of Chinese Academy of Sciences, China; Institute of Information Engineering, Chinese Academy of Sciences, China), and Weiping Wang (Institute of Information Engineering, Chinese Academy of Sciences, China)</i>	

## AI Natural Language - 2

Towards Non-Ambiguous Reverse Dictionary .....	1113
<i>Guowei Chen (Department of Automation, Shanghai Jiao Tong University, China) and Jianbo Su (Department of Automation, Shanghai Jiao Tong University, China)</i>	
Sarcasm Detection and Quantification in Arabic Tweets .....	1121
<i>Bashar Talafha (Jordan University of Science and Technology, Jordan), Muhy Eddin Za'ter (Princess Sumaya University for Technology, Jordan), Samer Suleiman (Jordan University of Science and Technology, Jordan), Mahmoud Al-Ayyoub (Jordan University of Science and Technology, Jordan), and Mohammed Al-Kabi (Al-Buraimi University College, Oman)</i>	
Contextual Networks and Unsupervised Ranking of Sentences .....	1126
<i>Hao Zhang (University of Massachusetts Lowell, USA), You Zhou (University of Massachusetts Lowell, USA), and Jie Wang (University of Massachusetts Lowell, USA)</i>	
Computational Linguistic Analysis of Submitted SEC Information (CLASSI) .....	1132
<i>Fnu Shweta (University of Southern California, USA) and Andrea Belz (University of Southern California, USA)</i>	
Hierarchical Multilabel Text Classification via Multitask Learning .....	1138
<i>Yipeng Yu (Tencent, China), Zixun Sun (Tencent, China), Chi Sun (Tencent, China), and Wenqiang Liu (Tencent, China)</i>	

Enrichment of Features for Malware-Related Sentence Classification using External Knowledge .....	1144
<i>Chau Nguyen (Japan Advanced Institute of Science and Technology, Japan), Vu Tran (The Institute of Statistical Mathematics, Japan), and Minh Le Nguyen (Japan Advanced Institute of Science and Technology, Japan)</i>	
Multi-Agent Story-Based Settlement Generation .....	1149
<i>Jonathan Demke (Computer Science Department, Brigham Young University), Robert Morain (Computer Science Department, Brigham Young University), Connor Wilhelm (Computer Science Department, Brigham Young University), and Dan Ventura (Computer Science Department, Brigham Young University)</i>	
RoGPT2: Romanian GPT2 for Text Generation .....	1154
<i>Mihai Alexandru Niculescu (University Politehnica of Bucharest, Romania), Stefan Ruseti (University Politehnica of Bucharest, Romania), and Mihai Dascalu (University Politehnica of Bucharest, Romania)</i>	

## AI Decision Systems - 1

Improving Peer Assessment Accuracy by Incorporating Grading Behaviors .....	1162
<i>Jia Xu (Guangxi University, China; Guangxi Key Laboratory of Multimedia Communications Network Technology, China; Guangxi Colleges and Universities Key Laboratory of Parallel and Distributed Computing, China), Jing Liu (Guangxi University, China), Pin Lv (Guangxi University, China; Guangxi Key Laboratory of Multimedia Communications Network Technology, China; Guangxi Colleges and Universities Key Laboratory of Parallel and Distributed Computing, China), and Panyuan Yang (Guangxi University, China)</i>	
An Individual-Dependent Differential Evolution with Dual Information Guidance .....	1170
<i>Xinyu Zhou (Jiangxi Normal University, China), Yanlin Wu (Jiangxi Normal University, China), Hu Peng (Jiujiang University, China), Shuixiu Wu (Jiangxi Normal University, China), and Mingwen Wang (Jiangxi Normal University, China)</i>	
LRNet: An Occlusion Robust Fusion Network for Semantic Segmentation with Light Field .....	1178
<i>Jianwei Zhou (Beihang University, China), Da Yang (Beihang University, China), Zhenglong Cui (Beihang University, China), Sizhe Wang (Beihang University, China), and Hao Sheng (Beihang University, China)</i>	
Prediction-Based Fleet Relocation for Free Floating Car Sharing Services .....	1187
<i>Gregory Martin (Stellantis, France; Univ Rennes, Inria, CNRS, IRISA, France), Matthieu Donain (Stellantis, France), Elisa Fromont (Univ Rennes, Inria, CNRS, IRISA, France; Institut Universitaire de France (IUF), France), Tias Guns (Vrije Universiteit Brussel, Belgium), Laurence Rozé (Univ Rennes, INSA, Inria, CNRS, IRISA, France), and Alexandre Termier (Univ Rennes, Inria, CNRS, IRISA, France)</i>	
Multi-Aspect Heterogeneous Graph Convolutional Network for Recommendation .....	1192
<i>Gangdu Liu (Beijing Jiaotong University, China), Jing Wang (Beijing Jiaotong University, China), and Jun Wu (Beijing Jiaotong University, China)</i>	

Towards Safer Industrial Serial Networks: An Expert System Framework for Anomaly Detection. 1197 Ralf Luis de Moura ( <i>Vale S/A, Virginia N.L. Franqueira (University of Kent), and Gustavo Pessin (Instituto Tecnológico Vale)</i> )	
Temporal Smoothness Framework: Analyzing and Exploring Evolutionary Transition Behavior in Dynamic Networks ..... 1206 Limengzi Yuan ( <i>Shihezi University, China</i> ), Qifeng Zhu ( <i>Shihezi University, China</i> ), Yuchen Zheng ( <i>Shihezi University, China</i> ), Wutong Dong ( <i>Shihezi University, China</i> ), Yuxian Ke ( <i>Shihezi University, China</i> ), and Zhigang Li ( <i>Shihezi University, China</i> )	

## AI KRRC - 2

Improving Relation Extraction by Knowledge Representation Learning ..... 1211 Wenxing Hong ( <i>Xiamen University, China</i> ), Shuyan Li ( <i>Xiamen University, China</i> ), Zhiqiang Hu ( <i>Xiamen University, China</i> ), Abdur Rasool ( <i>Shenzhen Institute of Advanced Technology, Chinese Academy of Sciences, China</i> ), Qingshan Jiang ( <i>Shenzhen Institute of Advanced Technology, Chinese Academy of Sciences, China</i> ), and Yang Weng ( <i>Sichuan University, China</i> )	
Smart Data for Goods and Vehicle Monitoring – Practical Considerations on Data Semantization ..... 1216 Krzysztof Kutt ( <i>Jagiellonian University, Poland</i> ), Piotr Nowara ( <i>Optidata Sp. z o.o., Poland</i> ), Rafal Szczur ( <i>Optidata Sp. z o.o., Poland</i> ), Grazyna Barnowska ( <i>Optidata Sp. z o.o., Poland</i> ), and Grzegorz J. Nalepa ( <i>Jagiellonian University, Poland</i> )	
KGWE: A Knowledge-Guided Word Embedding Fine-Tuning Model ..... 1221 Wei Kun Kong ( <i>Japan Advanced Institute of Science and Technology, Japan</i> ), Teeradaj Racharak ( <i>Japan Advanced Institute of Science and Technology, Japan</i> ), Yiming Cao ( <i>Japan Advanced Institute of Science and Technology, Japan</i> ), Cheng Peng ( <i>Japan Advanced Institute of Science and Technology, Japan</i> ), and Minh Le Nguyen ( <i>Japan Advanced Institute of Science and Technology, Japan</i> )	
A Framework for Constructing and Augmenting Knowledge Graphs using Virtual Space: Towards Analysis of Daily Activities ..... 1226 Shusaku Egami ( <i>National Institute of Advanced Industrial Science and Technology (AIST), Japan</i> ), Satoshi Nishimura ( <i>National Institute of Advanced Industrial Science and Technology (AIST), Japan</i> ), and Ken Fukuda ( <i>National Institute of Advanced Industrial Science and Technology (AIST), Japan</i> )	
Utilizing External Knowledge with Multi-Granularity Attention for Review Reading Comprehension ..... 1231 Zhenda Hu ( <i>Shanghai University of Finance and Economics, China</i> ) and Yinglin Wang ( <i>Shanghai University of Finance and Economics, China</i> )	
Interpretable Credit Risk Assessment Based on Heuristic Knowledge Extraction Method ..... 1237 Zhiwen Xiao ( <i>University of Chinese Academy of Sciences, China</i> ) and Jianbin Jiao ( <i>University of Chinese Academy of Sciences, China</i> )	

A Probabilistic Batch Oriented Proactive Workflow Management .....	1242
<i>Panagiotis Oikonomou (University of Thessaly, Greece), Kostas Kolomvatsos (University of Thessaly, Greece), Christos Anagnostopoulos (University of Glasgow, UK), Nikos Tziritas (University of Thessaly, Greece), and Georgios Theodoropoulos (Southern University of Science and Technology, China)</i>	

## AI Uncertainty

Stochastic Sparse Adversarial Attacks .....	1247
<i>Manon Césaire (IRT SystemX, France), Lucas Schott (IRT SystemX, France), Hatem Hajri (IRT SystemX, France), Sylvain Lamprier (Sorbonne Université, France), and Patrick Gallinari (Sorbonne Université, France)</i>	
Off-Policy Correction for Deep Deterministic Policy Gradient Algorithms via Batch Prioritized Experience Replay .....	1255
<i>Dogan Can Cicek (Bilkent University, Turkey), Enes Duran (Bilkent University, Turkey), Baturay Saglam (Bilkent University, Turkey), Furkan Burak Mutlu (Bilkent University, Turkey), and Suleyman Serdar Kozat (Bilkent University, Turkey; Senior Member, IEEE)</i>	
Interactive Explainable Case-Based Reasoning for Behavior Modelling in Videogames .....	1263
<i>Maximiliano Miranda (Universidad Complutense de Madrid, Spain), Antonio A. Sánchez-Ruiz (Universidad Complutense de Madrid, Spain), and Federico Peinado (Universidad Complutense de Madrid, Spain)</i>	
SEED: A Cross-Layer Semantic Enhanced SLU Model With Role Context Differentiated Fusion ...	1271
<i>Changjian Wang (School of Computer, National University of Defense Technology, P. R. China), Dongsong Zhang (School of Computer, National University of Defense Technology, P. R. China), Shezheng Song (School of Computer, National University of Defense Technology, P. R. China), Zhen Huang (School of Computer, National University of Defense Technology, P. R. China), and Yuxing Peng (School of Computer, National University of Defense Technology, P. R. China)</i>	
False Negative Reduction in Video Instance Segmentation using Uncertainty Estimates .....	1279
<i>Kira Maag (University of Wuppertal, Germany)</i>	
SAdvGAN : Multiple Information Fusion For Adversary Generation .....	1287
<i>Qian Sun (Network and Data Center, Northwest University, China), Ziman Yang (Network and Data Center, Northwest University, China), Pei Li (Network and Data Center, Northwest University, China), Mengmeng Li (Network and Data Center, Northwest University, China), and Ben Zhao (Network and Data Center, Northwest University, China)</i>	
Discovering Useful Compact Sets of Sequential Rules in a Long Sequence .....	1295
<i>Erwan Bourrand (Univ Rennes, France; Advisor_SLA, Inc.), Luis Galárraga (Inria, Univ Rennes, CNRS, IRISA, France), Esther Galbrun (University of Eastern Finland, Finland), Élisabeth Fromont (University of Rennes, France), and Alexandre Termier (University of Rennes, France)</i>	

## AI Decision Systems - 2

- Game-Theoretic Simulations with Cognitive Agents ..... 1300  
*Nausheen Saba Shahid (Department of Computer Science, Royal Holloway University of London, UK), Dan O’Keeffe (Department of Computer Science, Royal Holloway University of London, UK), and Kostas Stathis (Department of Computer Science, Royal Holloway University of London, UK)*
- An Enhanced R-NSGA-II For Multiple Brands Advertising Campaign Allocation Problem ..... 1306  
*Fodil Benali (Adwanted Group, France), Damien Bodenès (Adwanted Group, France), Cyril De Runz (University of Tours, France), and Nicolas Labroche (University of Tours, France)*
- An Analysis of Twitter Users Opinions on Vaccines using Machine Learning Techniques ..... 1311  
*Artur Galvão Hallberg (Institute of Informatics, Federal University of Rio Grande do Sul, Brazil), Eduardo Gabriel Cortes (Institute of Informatics, Federal University of Rio Grande do Sul, Brazil), and Dante Augusto Couto Barone (Institute of Informatics, Federal University of Rio Grande do Sul, Brazil)*
- SERC: Syntactic and Semantic Sequence Based Event Relation Classification ..... 1316  
*Kritika Venkatachalam (Knowledgeable Computing and Reasoning (KRACR) Lab, India), Raghava Mutharaju (Knowledgeable Computing and Reasoning (KRACR) Lab, India), and Sumit Bhatia (Media and Data Science Research Lab, India)*
- Adversarial Examples Detection and Analysis with Layer-Wise Autoencoders ..... 1322  
*Bartosz Wójcik (Jagiellonian University, Poland), Pawel Morawiecki (Institute of Computer Science, Polish Academy of Sciences, Poland), Marek Smieja (Jagiellonian University, Poland), Tomasz Krzyzek (Jagiellonian University, Poland), Przemyslaw Spurek (Jagiellonian University, Poland), and Jacek Tabor (Jagiellonian University, Poland)*
- Diagnosis Detection Support Based on Time Series Similarity of Patients Physiological Parameters ..... 1327  
*Carmela Comito (CNR-ICAR, Italy), Deborah Falcone (CNR-ICAR, Italy), and Agostino Forestiero (CNR-ICAR, Italy)*
- An Efficient Algorithm for Computing Elected Assertions in Partially Preordered Ontologies..... 1332  
*Sihem Belabbès (IUT de Montreuil, Université Paris 8, France) and Salem Benferhat (Centre de Recherche en Informatique de Lens, Université d’Artois & CNRS, France)*

## AI Decision Systems - 3

- A Decision Guidance System for Optimal Infrastructure Investments ..... 1337  
*Bedor Alyahya (George Mason University, USA) and Alexander Brodsky (George Mason University, USA)*
- KCC Method: Unknown Intrusion Detection Based on Open Set Recognition ..... 1343  
*Shuyuan Xu (Shanghai Jiao Tong University, China), Linsen Li (Shanghai Jiao Tong University, China), Hangjun Yang (Shanghai Jiao Tong University, China), and Junhua Tang (Institute of Cyber Science and Technology, Shanghai Jiao Tong University, China)*

Clustering Users by Exploiting Activity Tracks in Recommender Systems for SME .....	1348
<i>Luigi Portinale (Computer Science Institute, DiSIT, University of Piemonte Orientale, Italy) and Samuele Brondolin (Computer Science Institute, DiSIT, University of Piemonte Orientale, Italy)</i>	
AI Approaches for the Prognosis of the Survival (or Not) of Patients with Bone Metastases .....	1353
<i>Ioannis Hatzilygeroudis (University of Patras, Greece) and Jim Prentzas (Democritus University of Thrace, Greece)</i>	
Proactive, Correlation Based Anomaly Detection at the Edge .....	1358
<i>Panagiotis Fountas (Department of Informatics and Telecommunications, University of Thessaly, Greece) and Kostas Kolomoatsos (Department of Informatics and Telecommunications, University of Thessaly, Greece)</i>	
Delayed Adversarial Training with Non-Sequential Adversarial Epochs .....	1363
<i>Efi Kafali (Information Technologies Institute, Center for Research and Technology Hellas, Greece), Theodoros Semertzidis (Information Technologies Institute, Center for Research and Technology Hellas, Greece), and Petros Daras (Information Technologies Institute, Center for Research and Technology Hellas, Greece)</i>	
Cross-Aligned and Gumbel-Refactored Autoencoders for Multi-View Anomaly Detection .....	1368
<i>Shaoshen Wang (Australian Artificial Intelligence Institute, University of Technology Sydney, Australia), Yanbin Liu (Australian Artificial Intelligence Institute, University of Technology Sydney, Australia), Ling Chen (Australian Artificial Intelligence Institute, University of Technology Sydney, Australia), and Chengqi Zhang (Australian Artificial Intelligence Institute, University of Technology Sydney, Australia)</i>	
A Genetically Evolved Measure of Credit-Risk .....	1376
<i>Dionisios Sotiropoulos (Department of Informatics, University of Piraeus, Greece), Michael Papisimeon (Verge Capital Limited (t/a Finclude), Finclude R&amp;D, Ireland), and Gregory Koronakos (Department of Informatics, University of Piraeus, Greece)</i>	

## AI Decision Systems - 4

OpenAPI Thing Descriptions for the Web of Things .....	1384
<i>Aimilios Tzavaras (Technical University of Crete (TUC), Greece), Nikolaos Mainas (Technical University of Crete (TUC), Greece), Fotios Bouraimis (Technical University of Crete (TUC), Greece), and Euripides Petrakis (Technical University of Crete (TUC), Greece)</i>	
Evaluating the Learning Outcomes of a Fuzzy-Based Intelligent Tutoring System .....	1392
<i>Konstantina Chrysaftadi (Department of Informatics, University of Piraeus, Greece) and Maria Virvou (Department of Informatics, University of Piraeus, Greece)</i>	

Automatically Predict Question Difficulty for Reading Comprehension Exercises .....	1398
<i>Jun He (Intelligent Computing and Software Research Center, Beijing Normal University, China), Li Peng (Intelligent Computing and Software Research Center, Beijing Normal University, China), Bo Sun (Intelligent Computing and Software Research Center, Beijing Normal University, China), Lejun Yu (Intelligent Computing and Software Research Center, Beijing Normal University, China), and Yinghui Zhang (Intelligent Computing and Software Research Center, Beijing Normal University, China)</i>	
Revelation of Task Difficulty in AI-Aided Education .....	1403
<i>Yitzhak Spielberg (Department of Computer Science, Ariel University, Israel) and Amos Azaria (Department of Computer Science, Ariel University, Israel)</i>	
SemFSR: An Unsupervised Face SR with Semantic Features for Multiple Degradations .....	1409
<i>Haoran Qi (Sun Yat-sen University, P.R. China), Huanrong Zhang (Sun Yat-sen University, P.R. China), and Zhi Jin (Shenzhen Campus of Sun Yat-sen University, Sun Yat-sen University, P.R. China)</i>	
Automatic Drone Identification Through Rhythm-Based Features for the Internet of Drones .....	1417
<i>Alisson Renan Svaigen (Federal University of Minas Gerais, Brazil), Lailla Milainny Siqueira Bine (Federal University of Minas Gerais, Brazil), Gisele Lobo Pappa (Federal University of Minas Gerais, Brazil), Linnyer Beatrys Ruiz (State University of Minas Gerais, Brazil), and Antonio Alfredo Ferreira Loureiro (Federal University of Minas Gerais, Brazil)</i>	
PAMELA: A Generic and Light Multi-Agent Platform .....	1422
<i>Baudouin Dafflon (DISP-LAB, Université Claude Bernard Lyon 1, France), Maxime Guériau (LITIS, INSA Rouen, Normandie Univ., France), Yacine Ouzrout (DISP-LAB, Lyon 2, France), and Sylvain Touchard (DISP-LAB, Lyon 2, France)</i>	

## AI Data Mining

The Effects of Class Label Noise on Highly-Imbalanced Big Data .....	1427
<i>Robert K. L. Kennedy (Florida Atlantic University), Justin M. Johnson (Florida Atlantic University), and Taghi M. Khoshgoftaar (Florida Atlantic University)</i>	
Classification with Dynamic Data Augmentation .....	1434
<i>Dejiang Xu (National University of Singapore, Singapore), Mong Li Lee (National University of Singapore, Singapore), and Wynne Hsu (National University of Singapore, Singapore)</i>	
Extracting Frequent (Closed) Seasonal Gradual Patterns using Closed Itemset Mining .....	1442
<i>Aymeric Côme (Univ. Lille - Centrale Lille - IMT Nord Europe, France) and Jerry Lonlac (IMT Nord Europe, Institut Mines-Télécom, Univ. Lille, Centre for Digital Systems, France)</i>	
Output Thresholding for Ensemble Learners and Imbalanced Big Data .....	1449
<i>Justin M. Johnson (Florida Atlantic University) and Taghi M. Khoshgoftaar (Florida Atlantic University)</i>	

A Multi-Perspective Distributed Mining Framework for Scalable Search Spell Correction .....	1455
<i>Yutong Li (Apple Inc, U.S.A), Hari Bommaganti (Apple Inc, U.S.A), and Himanshu Yadava (Apple Inc, U.S.A)</i>	
DBUL: A User Identity Linkage Method Across Social Networks Based on Spatiotemporal Data ..	1461
<i>Hui Xue (Institute of Information Engineering, Chinese Academy of Sciences, China), Bo Sun (National Internet Emergency Center, China), Chengxiang Si (National Internet Emergency Center, China), Wei Zhang (National Internet Emergency Center, China), and Jing Fang (National Internet Emergency Center, China)</i>	
DisCERN: Discovering Counterfactual Explanations using Relevance Features from Neighbourhoods .....	1466
<i>Nirmalie Wiratunga (Robert Gordon University, Scotland), Anjana Wijekoon (Robert Gordon University, Scotland), Ikechukwu Nkisi-orji (Robert Gordon University, Scotland), Kyle Martin (Robert Gordon University, Scotland), Chamath Palihawadana (Robert Gordon University, Scotland), and David Corsar (Robert Gordon University, Scotland)</i>	
DHQN: a Stable Approach to Remove Target Network from Deep Q-Learning Network .....	1474
<i>Guang Yang (Nanjing University, China), Yang Li (Nanjing University of Posts and Telecommunications, China), Di'an Fei (Nanjing University of Posts and Telecommunications, China), Tian Huang (Nanjing University of Posts and Telecommunications, China), Qingyun Li (Nanjing University of Posts and Telecommunications, China), and Xingguo Chen (Nanjing University of Posts and Telecommunications, China)</i>	
Geometric Invariant Representation Learning for 3D Point Cloud .....	1480
<i>Zongmin Li (China University of Petroleum(East China), China), Yupeng Zhang (China University of Petroleum(East China), China), and Yun Bai (China University of Petroleum(East China), China)</i>
