PROCEEDINGS OF SPIE

International Conference on Environmental Remote Sensing and Big Data (ERSBD 2021)

Chih-Huang Weng
Yunqiu He
Editors

29–31 October 2021
Wuhan, China

Organized by
I-Shou University (Taiwan, China)
Tongji University (China)

Sponsored and Published by
SPIE

Volume 12129

Proceedings of SPIE 0277-786X, V. 12129

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *International Conference on Environmental Remote Sensing and Big Data (ERSBD 2021)*, edited by Chih-Huang Weng, Yunqiu He, Proc. of SPIE 12129, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

ENVIRONMENTAL REMOTE SENSING AND IMAGE SIGNAL RECOGNITION

12129 02 **Applicability analysis of remote sensing methods on surface water extraction** [12129-17]

12129 03 **A remote sensing image scene classification framework based Efficientnet-b7** [12129-19]

12129 04 **ARS-Det: an axis-based anchor-free rotation detector for ship in remote sensing images** [12129-9]

12129 05 **Urban black-odor water body remote sensing monitoring in Fuzhou city based on Gaofen-2 image** [12129-22]

12129 06 **Research on the transmission performance of multi-layer simulated mural surface by imaging spectrum** [12129-21]

12129 07 **Improving snow retrieval performance by fusing multiple snow cover remote sensing data** [12129-27]

12129 08 **3D geometric reconstruction of underground garage based on SLAM laser point cloud** [12129-34]

12129 09 **Head detection based on YOLOv3 image processing technology** [12129-38]

12129 0A **Research on foreground target extraction and image processing of surveillance video** [12129-23]

12129 0B **A modified HOPC algorithm for SAR image registration** [12129-4]

12129 0C **The extraction of the desert roads based on the U-Net network from remote sensing images** [12129-12]

12129 0D **Analysis of land use/cover change in Guangdong-Hong Kong-Macao greater bay area from 1979 to 2016** [12129-33]

12129 0E **A forest fire warning model: using time decay model to calculate comprehensive precipitation index** [12129-8]

12129 0F **Evaluation of forest fire damage based on Sentinel-2 images** [12129-10]

12129 0G **Performance evaluation of ocean altimetry based on BeiDou-3 satellite reflected signals** [12129-6]

12129 0H **Icelandic coastline extraction based on water index using Landsat-8 image** [12129-36]

12129 0I **Research on application of airborne Lidar technology in flood disaster emergency investigation** [12129-14]

BIG DATA ANALYSIS AND DATA MODEL MONITORING

12129 0J **Analysis damage mechanism of Shuangjiantu seawall based on marine hydrographic data monitored during the typhoon of "In-fa"** [12129-3]

12129 0K **Research and analysis of data mining in indoor environmental monitoring** [12129-26]

12129 0L **Intelligent classification algorithm for air pollution-related microblog texts with public perception** [12129-16]

12129 0M **Hyperspectral inversion of nitrogen content in phyllostachys pubescens based on partial least squares regression model** [12129-20]

12129 0N **Urban expansion and driving force analysis of Jinan city based on multi-source data** [12129-32]

12129 0O **An automatic detection method of the mural shedding disease using YOLOv4** [12129-35]

12129 0P **A personalized attractions recommendation model based on tourism knowledge graph** [12129-28]

12129 0Q **Construction of knowledge graph in the field of grassland plants based on ontology database** [12129-13]

12129 0R **Research on RBN fusion broadcasting based on Beidou technology** [12129-2]

12129 0S **Spatio-temporal big data analysis of tourists: a case study of Hangzhou** [12129-24]

12129 0T **Study on ecological services evaluation of water conservation using multi-source remote sensing products** [12129-31]

12129 0U **Dual branch self-attention DenseNet for pansharpening** [12129-41]

12129 0V **Understanding tourists' urban images from big data using convolutional neural networks** [12129-7]

12129 0W **Research on China's energy security evaluation oriented by environmental monitoring in the dual-carbon background** [12129-5]

12129 0X **Potential damage detection of bridge deck based on single phase point cloud** [12129-29]

12129 0Y **Analyze and process big data to research the competitiveness of urban ports in the Guangdong-Hong Kong-Macao greater bay area** [12129-15]

12129 0Z **A sea ice extraction method that fuses coherence and amplitude information and combines pixel-level and object-level methods** [12129-25]

12129 10 **Atmospheric correction assessment for GF-1 WFV** [12129-37]

12129 11 **Rapid monitoring and analysis of Weihui flood using Sentinel-1A SAR data** [12129-18]

12129 12 **A study on the spatio-temporal evolution of Tibetan inbound tourism flow network based on social networks** [12129-42]
