# 2021 IEEE Asia-Pacific Microwave Conference (APMC)

## Low-Noise Amplifiers

<i>Characterization of Wideband Low-Noise Distributed Amplifiers in 0.15 Um Gallium Arsenide Process</i> Adnin Natasha (Macquarie University, Australia), Sudipta Chakraborty (Macquarie University, Australia), Simon Mahon (Macquarie University, Australia), Benny Wu (Macquarie University, Australia), Andrew Jones (Macquarie University, Australia), Michael Heimlich (Macquarie University, Australia) .....	1
<i>Design of a 1.8-mW K-Band Low Noise Amplifier With 19.3-dB Gain and 3.3-dB Noise Figure in 90-Nm CMOS</i> Kai Chun Chang (National Taiwan University, Taiwan), Yunshan Wang (National Taiwan University, Taiwan), Hwei Wang (National Taiwan University, Taiwan) .....	4
<i>A 21.5-50 GHz Low Noise Amplifier in 0.15-<math>\mu</math>m GaAs pHEMT Process for Radio Astronomical Receiver System</i> Yu-Min Chen (National Taiwan University, Taiwan), Yunshan Wang (National Taiwan University, Taiwan), Chau-Ching Chiong (Institute of Astronomy and Astrophysics, Academia Sinica, Taiwan), Hwei Wang (National Taiwan University, Taiwan) .....	7
<i>LNA Designs for 5G Receiver Applications</i> Abdurrahman Burak (Sabanci University, Turkey), Kutay Altintas (Sabanci University, Turkey), Melik Yazici (Sabanci University, Turkey), Yasar Gurbuz (Sabanci University, Turkey) .....	10

## Antennas for 5G Applications

<i>Single-Feed Dual-Band Antenna With Large Frequency Ratio for 5G Wireless Terminals</i> Muhammad Ikram (The University of Queensland, Australia), Nghia Nguyen-Trong (University of Adelaide, Australia) .....	13
<i>Compact SRR-Based Dual-Polarized Antenna for 5G-NR Applications</i> Zilin Peng (University of Electronic Science and Technology of China, China), Zhan Wang (University of Electronic Science and Technology of China, China), Yuandan Dong (University of Electronic Science and Technology of China, China) .....	16
<i>Wideband Linear Frequency Scanning Antenna for 5G Millimeter Wave Applications</i> Wei Shuping (Nanyang Technological University, Singapore), N Nasimuddin (Institute for Infocomm Research, Singapore), Arokiaswami Alphones (Nanyang Technological University, Singapore) .....	19
<i>Design and Analysis of A Simple Miniaturized Fractal Antenna for 5G Ka-Band Applications</i> Wahaj Abbas Awan (Chungbuk National University, Cheongju, South Korea, Korea (South)), Mohammad Alibakhshikenari (Universidad Carlos III de Madrid, Spain), Ernesto Limiti (University of Rome Tor Vergata, Italy) .....	22

## Reflectarrays and Transmittarrays

<i>Design of Single-Layered Broadband Circularly Polarized Reflectarray</i> Long Jin (University of Electronic Science and Technology of China, China), Yao Sun (University of Electronic Science and Technology of China, China), Zhibin He (University of Electronic Science and Technology of China, China) .....	25
<i>Millimetre-Wave Multi-Beam Shaped Transmitarray With A Wide Beam Coverage</i> Lizhao Song (University of Technology Sydney, Australia), Peiyuan Qin (University of Technology, Sydney, Australia), Y. Jay Guo (University of Technology Sydney, Australia) .....	28
<i>Experimental Evaluation of Load-Modulating Channel Estimation for Tunable Reflectarray</i> Shun Sasaki (Iwate University, Japan) .....	31
<i>A High Gain Dual-Polarization Reflectarray Antenna Design Using Modified Mushroom Elements</i> Luohao Liu (Tsinghua University, China, China), Fan Yang (Tsinghua University, China), Shenheng Xu (Tsinghua University, China), Maokun Li (Tsinghua University, China) .....	34

# Recent Advances in Microwave, Millimetre-Wave and Terahertz Technologies in Australia (Part 1)

<i>Load-Pull Measurement Technique for 94 GHz GaAs Amplifiers Based on Discrete Sampling With Compact Gamma Matching Networks</i>	
Leigh E Milner (Defence Science and Technology Group & Macquarie University, Australia), Michael Heimlich (Macquarie University, Australia)	37
<i>Design Progress and Technology Maturity: Trends in Compound Semiconductor MMICs</i>	
Simon Mahon (Macquarie University, Australia)	40
<i>A 77 GHz Power Amplifier for Low Cost Radar Transmitters in a 55-Nm CMOS Technology</i>	
Viet Hoang Le (Andar, Australia)	43
<i>A W-Band Driver Amplifier in 0.1 <math>\mu\text{m}</math> pHEMT Gallium Arsenide Process</i>	
Sudipta Chakraborty (Macquarie University, Australia), Tran Van Dung (Macquarie University, Australia), Jakov Mihaljevic (Macquarie University, Australia), Simon Mahon (Macquarie University, Australia), Michael Heimlich (Macquarie University, Australia)	46

## Antennas for Radar and Imaging Applications

<i>UWB Antipodal Vivaldi Antenna With Metamaterial Slabs and Dielectric Enclosure for Microwave to Millimeter Wave Imaging Applications</i>	
Athul O Asok (Indian Institute of Technology Palakkad, India), Sukomal Dey (Indian Institute of Technology Palakkad, India)	49
<i>A Centrosymmetric Triple-Tail Bow-Tie Antenna for Ground Penetration Radar</i>	
Yue Liu (Auckland University of Technology, New Zealand), Xue Jun Li (Auckland University of Technology, New Zealand)	52
<i>An Ultra-Wideband Resistively Loaded Modified Dipole for Ground Penetrating Radar</i>	
Yan Deng (Southeast University, China), Sheng Gao (Southeast University, China), Shun Li Li (Southeast University, China), Hongxin Zhao (State Key Laboratory of Millimeter Waves, Southeast University, China), Xiaoxing Yin (State Key Laboratory of Millimeter Waves, China)	55
<i>Location and Angular Velocity Detection Using a Circular Frequency Diverse Array Radar</i>	
Zhehao Yu (Shanghai Jiao Tong University, China), Chong Han (Shanghai Jiao Tong University, China), Yingtao Zou (Shanghai Jiao Tong University, China), Xuyang Lu (Shanghai Jiao Tong University, China)	58

## Biomedical applications and flexible antennas

<i>Microwave Doppler Radar for Monitoring of Vital Sign and Rotational Movement</i>	
Soumya Sadhukhan (IIT Kanpur, India), Shubhadip Paul (IIT Kanpur, India), Mohammad Jaleel Akhtar (Indian Institute of Technology Kanpur, India)	61
<i>Dual-Band Dual-Mode Wearable Textile Antennas for On-Body and Off-Body Communications</i>	
Quoc Hung Dang (The University of Adelaide & Australia, Australia), Shengjian Jammy Chen (The University of Adelaide, Australia), Baoqi Zhu (The University of Adelaide, Australia), Christophe Fumeaux (The University of Adelaide & School of Electrical and Electronic Engineering, Australia)	64
<i>A Poly-Di-Methyl-Siloxane Based Conformal Ultra-Wideband Antenna With Additional GSM Band</i>	
Wahaj Abbas Awan (Chungbuk National University, Cheongju, South Korea, Korea (South)), Mohammad Alibakhshikenari (Universidad Carlos III de Madrid, Spain), Ernesto Limiti (University of Rome Tor Vergata, Italy)	67
<i>The Effects of Using Ferromagnetic Core and Shield on Deep TMS System</i>	
Rawan Abu Yosef (University of Queensland, Australia), Ahmed Toaha Mobashsher (The University of Queensland & LicenSys Pty Ltd, Australia)	70

## Manufacture and Integration

<i>28GHz-Band 2x2 Patch Antenna Module Vertically Integrated With a Compact 2-D BFN in Broadside Coupled Stripline Structure</i>	
Jean Temga (Tohoku University & RIEC, Japan), Taiki Machii (Tohoku University, Japan), Takashi Shiba (Tohoku University, Japan), Noriharu Suematsu (Tohoku University, Japan)	73

<i>Crosstalk Reduction in Silicon-On-Insulator Waveguides for Dense Integration</i> Shijie Song (University Of Sydney, Australia), Chujun Wu (University of Sydney, Australia), Xiaoke Yi (University of Sydney, Australia), Robert Minasian (University of Sydney, Australia)	76
<i>Investigation of a Composite Embedded RF Passive Devices</i> Grzegorz Beziuk (RMIT University, Australia), Thomas Baum (DST Group, Australia), Kamran Ghorbani (RMIT University, Australia), Kelvin Nicholson (DST Group, Australia)	79

## Device Modelling

<i>L-Bot: A Physically Motivated Deep Learning Based Inductor Modeling Tool</i> Uttung Surange (Birla Institute of Technology and Science, India), Sourabh Khandelwal (Macquarie University, Australia)	82
<i>An Adaptive Synthesis and Design Approach of Extracted-Pole Filters</i> Minglei Rao (Xidian University, China), Ping Zhao (Xidian University, China), Luyu Zhao (Xidian University, China)	85
<i>Modified Loss Mechanism of Mason Model for Bulk Acoustic Wave Resonators</i> Qingwen Li (Beijing University of Posts and Telecommunications, China), Xiuping Li (Beijing University of Post Telecommunications, China), Yuqiang Xie (Beijing University of Posts and Telecommunications, China), Zheyang Cao (Beijing University of Posts and Telecommunications, China), Jiarui Dong (Beijing University of Posts and Telecommunications, China)	88
<i>Accurate Power Loss Measurements of Aperture Tuning RF Switches on Board</i> Valentyn Solomko (Infineon Technologies, Germany), Oguzhan Oezdamar (University of Erlangen-Nuremberg, Germany), Johannes Rimmelspacher (Infineon Technologies AG, Germany), Pablo Nascimento (Infineon Technologies AG, Germany), Michael Muerke (Infineon Technologies AG, Germany), Chul Seung Pyo (Infineon Technologies AG, Germany), Robert Weigel (Friedrich-Alexander Universität Erlangen-Nürnberg, Germany), Amelie Hagelauer (Technical University of Munich, Germany)	91

## Recent Advances in Microwave, Millimetre-Wave and Terahertz Technologies in Australia (Part 2)

<i>GaN and GaAs HEMT Channel Conductance Model for Nonlinear Microwave and RF Applications</i> Anthony Parker (Macquarie University, Australia)	94
<i>Design of Passive-Inspired Millimetre-Wave Integrated Devices in Low-Cost Bulk CMOS Technology</i> Lisheng Chen (University of Technology Sydney, Australia), Lang Chen (University of Technology Sydney, Australia), Zeyu Ge (Sydnicon RF Pty Ltd, Australia), Roberto Gómez-García (University of Alcalá, Spain), Xi Zhu (University of Technology Sydney, Australia)	97
<i>Terahertz Integrated Polarization Beam Splitter Based on Effective-Medium Waveguide</i> Weijie Gao (School of Electrical and Electronic Engineering, the University of Adelaide, Australia), Christophe Fumeaux (The University of Adelaide & School of Electrical and Electronic Engineering, Australia), Withawat Withayachumnankul (The University of Adelaide, Australia)	100
<i>Mutual Coupling in Arrays of Metamaterial Loaded Horns</i> Trevor S. Bird (Antengenuity & University of Technology, Sydney, Australia), Maral Ansari (Level 6, Building 11, UTS, 81 Broadway & University of Technology Sydney, Australia)	103

## GaN/GaAs Power Amplifiers

<i>A 4.5-GHz-Band Miniature Outphasing GaN HEMT MMIC Power Amplifier</i> Ryo Ishikawa (The University of ElectroCommunications, Japan), Yoichiro Takayama (The University of Electro-Communications, Japan), Kazuhiko Honjo (The University of Electro-Communications, Japan)	106
<i>W-Band Coplanar Medium Power Amplifier</i> Simon Mahon (Macquarie University, Australia), Daniel Sjöberg (Ericsson AB, Sweden), Jonas Hansryd (Ericsson, Sweden), Michael Heimlich (Macquarie University, Australia)	109
<i>Novel Power Combining for a 5-18 GHz, 10-21 W, Non-Uniform Distributed Power Amplifier</i> Simon Mahon (Macquarie University, Australia), Leigh E Milner (Defence Science and Technology Group & Macquarie University, Australia), Irfan Shahid (Macquarie University, Australia), Michael Heimlich (Macquarie University, Australia)	112

<i>X-Band GaAs Stacked-FET Amplifier</i>	David Niven (Macquarie University, Australia), Simon Mahon (Macquarie University, Australia), Michael Heimlich (Macquarie University, Australia) .....	115
<i>A High Performance In-Package Harmonic Terminated Class-J Doherty Power Amplifier for 3.5 GHz mMIMO Applications</i>	Maruf N Ahmed (NXP Semiconductors, USA), Joseph Staudinger (NXP, USA), Srinidhi Embar. R (Renesas Electronics America, USA), Jennifer Kitchen (ASU, USA) .....	118

## Localization and DoA

<i>Nature Scatterer Assisted Indoor NLoS Localization With a Single AP</i>	Yiwen Wang (Chongqing University of Posts and Telecommunications, China), Zengshan Tian (Chongqing University of Posts and Telecommunications, China), Mu Zhou (Chongqing University of Posts and Telecommunications, China), Ze Li (Chongqing University of Posts and Telecommunications, China) .....	121
<i>A State Recognition Approach Based on Distribution Difference for Passive People Counting</i>	Min Chen (Chongqing University of Posts and Telecommunications, China), Zengshan Tian (Chongqing University of Posts and Telecommunications, China), Yue Jin (Chongqing University of Posts and Telecommunications, China), Mu Zhou (Chongqing University of Posts and Telecommunications, China) .....	124
<i>Indoor Localization Based on Scatterers and Multipath Propagation</i>	Yang Yang (Chongqing University of Posts and Telecommunications, China), Zengshan Tian (Chongqing University of Posts and Telecommunications, China), Ze Li (Chongqing University of Posts and Telecommunications, China), Linxia Li (Chongqing University of Posts and Telecommunications, China) .....	127
<i>A Phase-Based Indoor Localization Algorithm Using EKF for Passive RFID Tags</i>	LiangBo Xie (Chongqing University of Posts and Telecommunications, China), Xixi Liu (Chongqing University of Posts and Telecommunications, China), Zengshan Tian (Chongqing University of Posts and Telecommunications, China), Yaqian Song (Chongqing University of Posts and Telecommunications, China), Beibei Fan (Chongqing University of Posts and Telecommunications, China), Mu Zhou (Chongqing University of Posts and Telecommunications, China) .....	130
<i>Device-Free Indoor Tracking Using CSI With Probability Data Association</i>	Zengshan Tian (Chongqing University of Posts and Telecommunications, China), Chenglin Ye (Chongqing University of Posts and Telecommunications, China), Yue Jin (Chongqing University of Posts and Telecommunications, China), Xuan Zuo (Chongqing University of Posts and Telecommunications, China) .....	133

## Power Dividers and Diplexers

<i>Three-Way Substrate-Integrated Waveguide Filtering Power Divider With In-Phase and Anti-Phase Outputs</i>	Hong-Wen Qian (National University of Kaohsiung, Taiwan), Yi-Hsin Pang (National University of Kaohsiung, Taiwan) .....	136
<i>600-GHz-Band Frequency-Division Multiplexing Communication With Silicon Unclad Diplexer</i>	Norihiko Shibata (Osaka University, Japan), Yuta Uemura (Osaka University, Japan), Yuma Kawamoto (Osaka University, Japan), Li Yi (Osaka University, Japan), Masayuki Fujita (Osaka University, Japan), Tadao Nagatsuma (Osaka University, Japan) .....	139
<i>Design of Semi-Lumped-Element Power Divider With Arbitrary Three Matching Frequencies</i>	Ayumu Tsuchiya (University of Hyogo & Graduate School of Engineering, Japan), Tadashi Kawai (University of Hyogo, Japan), Akira Enokihara (University of Hyogo, Japan) .....	142
<i>Design of a Four-Frequency Channel Power Division Multiplexer</i>	Kuo-Lun Sun (National University of Kaohsiung, Taiwan), Kai-Jie Xu (National University of Kaohsiung, Taiwan), Pu-Hua Deng (National University of Kaohsiung, Taiwan) .....	145
<i>Group Delay Analysis Approach for Quasi-Reflectionless Power Divider With Flat Phase Difference</i>	Girdhari Chaudhary (Jeonbuk National University, Korea (South)), Daehan Lee (Jeonbuk National University, Korea (South)), Yongchae Jeong (Chonbuk National University, Korea (South)) .....	148

## Advanced Multifunctional Microwave/Millimeter-Wave Components

<i>High Selectivity Balanced-To-Unbalanced Filtering Power Divider With Stub-Loaded Dual-Mode Resonators</i>	Pin Wen (Nanchang University & School of Information and Engineering, China) .....	151
--	--	-----

<i>Design of Millimeter-Wave Bandpass Filter Using Edge-Coupling Dual-Mode Resonator</i> Yiqun Liu (Xi'an Jiaotong University, China), Kai-Da Xu (Xi'an Jiaotong University, China) .....	154
<i>TE<sub>20</sub> Mode Differential Waveguide Directional Coupler and Wideband Balun by 3-D Printing</i> Patrick Chiu (University of New South Wales, Australia), King Yuk Chan (The University of New South Wales, Australia), Sheng Huang (The University of New South Wales, Australia), Rodica Ramer (University of New South Wales, Australia) .....	157
<i>A Compact Filtering Antenna With High Selectivity and Simple Structure</i> Dongxi Yu (Chongqing University of Posts and Telecommunications, China), Wei Nie (Chongqing University of Posts and Telecommunications, China), Bo Zhang (University of Electronic Science and Technology of China, China), Zhongqian Niu (University of Electronic Science and Technology of China, China), Mu Zhou (Chongqing University of Posts and Telecommunications, China) .....	160
<i>Ku-Band Ortho-Mode Transducer Supporting Three Modes and Integrated With Horn Antenna</i> Yunhao Fu (The University of New South Wales, Australia), King Yuk Chan (The University of New South Wales, Australia), Rodica Ramer (University of New South Wales, Australia) .....	163

## 3D Printed/Additively Manufactured Microwave, Millimetre-wave and Terahertz Circuits and Antennas

<i>RF Printed Circuit Partially Combined With the Inkjet-Printing Technology</i> Yuta Sugiyama (Mitsubishi Electric Corporation, Japan), Hidenori Ishibashi (Mitsubishi Electric Corporation, Japan), Toru Takahashi (Mitsubishi Electric Corporation, Japan), Yoshio Inasawa (Mitsubishi Electric Corporation, Japan) .....	166
<i>Rapid Prototyping of Ultrawideband Compact Resonant Cavity Antennas Using 3D Printing</i> Touseef Hayat (Macquarie University, Australia), Muhammad Usman Afzal (University of Technology Sydney, Australia), Foez Ahmed (University of Technology Sydney, Australia), Karu Esselle (University of Technology Sydney, Australia) .....	169
<i>360° Beam-Steerable Pattern- and Frequency-Reconfigurable Antenna With 3D Printed Dielectric Lens</i> Weijie Gao (School of Electrical and Electronic Engineering, the University of Adelaide, Australia), Shengjian Jammy Chen (The University of Adelaide, Australia), Withawat Withayachumnankul (The University of Adelaide, Australia), Christophe Fumeaux (The University of Adelaide & School of Electrical and Electronic Engineering, Australia) .....	172
<i>Additively Manufactured Multi-Layer Bandpass Filter Based on Vertically Integrated Composite Right and Left Handed Resonator</i> Mengze Li (University of Technology Sydney, Australia), Yang Yang (University of Technology Sydney, Australia), Francesca Iacopi (University of Technology Sydney, Vietnam), Jaim Nulman (Nano Dimension, Israel) .....	175
<i>A 3D Printed H-Plane Horn Antenna With Size Reduction by Permittivity Control</i> Sheng Huang (The University of New South Wales, Australia), King Yuk Chan (The University of New South Wales, Australia), Rodica Ramer (University of New South Wales, Australia) .....	178

## CMOS Power Amplifiers

<i>A 44.3% Peak PAE 25-GHz Stacked-FET Linear Power Amplifier IC With a Varactor-Based Novel Adaptive Load Circuit in 45 nm CMOS SOI</i> Tsuyoshi Sugiura (Waseda University, Japan), Mengchu Fang (Waseda University, Japan), Toshihiko Yoshimasu (Waseda University, Japan) .....	181
<i>A 30-To-70-GHz CMOS Amplifier for 300-GHz Heterodyne Receivers</i> Shinichiro Fujimoto (Hiroshima University, Japan), Ricky Smith (Hiroshima University, Japan), Shuhei Amakawa (Hiroshima University, Japan), Takeshi Yoshida (Hiroshima University, Japan), Minoru Fujishima (Hiroshima University, Japan) .....	184
<i>A 3.5GHz CMOS Transceiver for Sub-6GHz and Mm-Wave Co-Existed 5G Communication Systems</i> Jiawen Chen (South China University of Technology, China), Shucong Mei (South China University of Technology, China), Haoshen Zhu (South China University of Technology, China), Liang Wu (The Chinese University of Hong Kong, Shenzhen, China), Quan Xue (South China University of Technology, China), Wenquan Che (South China University of Technology, China) .....	187
<i>Gain Boosted D-Band CMOS Amplifier Using a Radial Stab for Source AC Grounding</i> Taiki Machii (Tohoku University, Japan), Mizuki Motoyoshi (Shizuoka Institute of Science and Technology, Japan), Suguru Kameda (Hiroshima University, Japan), Noriharu Suematsu (Tohoku University, Japan) .....	190

# Resonator and Cavity Antennas

<i>A Wideband Differentially-Fed Higher-Order Mode Laminated Resonator Antenna With High Gain</i> Yaowei Hou (Shanghai Jiao Tong University, China), Zijian Shao (Shanghai Jiao Tong University, China), Yao-ping Zhang (Shanghai Jiao Tong University, China), Junfa Mao (Shanghai Jiao Tong University, China) .....	193
<i>A Wideband High-Gain Resonator Cavity Antenna With 2-Level Stepped Ground</i> Peixing Li (City University of Hong Kong, Hong Kong), Tayyab Ali Khan (City University of Hong Kong, Hong Kong), Alex Wong (City University of Hong Kong, Hong Kong) .....	196
<i>A Cavity-Backed Slot Antenna on Timber</i> Mohamed Adel Ezzat Elqunawy Radwan (Griffith University, Australia), Yana Salchak (Griffith University, Australia), Noor Albadri (Griffith University, Australia), Hugo G Espinosa (Griffith University, Australia), David V Thiel (Griffith University, Australia) .....	199
<i>Analysis of Coaxial Probe Coupled Wideband Two-Layer Hemispherical Dielectric Resonator Antenna With an Air-Gap</i> Mahesh Singh (Indian Institute of Technology Kharagpur, India), Tazeen Shaikh (Indian Institute of Technology, Kharagpur, India), Bratin Ghosh (Indian Institute of Technology Kharagpur, India) .....	202

# Mm-Wave Communications

<i>Oriented Genetic Algorithm for Digital Predistortion Model Structure Optimization</i> Wen Qiao (University of Science and Technology of China, China), Chengye Jiang (University of Science and Technology of China, China), Guichen Yang (University of Science and Technology of China, China), Lei Su (University of Science and Technology of China, China), Falin Liu (University of Science and Technology of China, China) .....	205
<i>A Robust Algorithm for PAM4 Eye-Diagram Analysis</i> Jeffrey Jargon (National Institute of Standards and Technology, USA), Jerome Cheron (NIST, USA) .....	208
<i>A Compact DC-To-Over-67-GHz LTCC BGA Package for 100-GBaud Communications Systems</i> Hitoshi Wakita (NTT, Japan), Munehiko Nagatani (NTT Corporation, Japan), Hiroyuki Takahashi (NTT, Japan) .....	211
<i>Millimeter Wave RF Front-End in 5G MIMO Channel Emulator</i> Mengyun Hu (School of Information Science and Engineering, Southeast University, China) .....	214

# Recent Advances in Electromagnetic Medical Imaging and Microwave Biomedical Devices

<i>Wideband Body-Matched Loop-Dipole Composite Antenna for Electromagnetic Fatty Liver Detection Systems</i> Amin Darvazehban (University of Queensland, Australia), Sasan Ahdi Rezaeieh (The University of Queensland, Australia) .....	217
<i>Advanced Materials and Manufacturing Technologies for the Development of Flexible and Transparent Antennas</i> Abu Sadat Md. Sayem (University of Technology Sydney, Australia), Karu Esselle (University of Technology Sydney, Australia) .....	220
<i>Big Data-Machine Learning Processing of Recorded Radiofrequency Physiological and Pathological Measurements to Predict the Progression of Alzheimer's Disease</i> Rahmat Ullah (School of Engineering, Kings Building Campus, University of Edinburgh, United Kingdom (Great Britain)), Imran Saied (University of Edinburgh, United Kingdom (Great Britain)), Tughrul Arslan (The University of Edinburgh, United Kingdom (Great Britain)) .....	223
<i>A Multi-Feature Fusion Temporal Neural Network for Multi-Hand Gesture Recognition Using Millimeter-Wave Radar Sensor</i> Dengke Yao (Chongqing University of Posts and Telecommunications, China), Yong Wang (Chongqing University of Posts and Telecommunications, China), Wei Nie (Chongqing University of Posts and Telecommunications, China), LiangBo Xie (Chongqing University of Posts and Telecommunications, China), Mu Zhou (Chongqing University of Posts and Telecommunications, China), Xiaobo Yang (Chongqing University of Posts and Telecommunications, China) .....	226

# VCOs, Mixers and Switches

<i>An X- to Ka-Band Single-Pole-Double-Throw Switch With Good Power Handling Capability</i> Yi-Fan Tsao (International College of Semiconductor Technology, NYCU, Taiwan), Yuan Wang (National Yang Ming Chiao Tung University, Taiwan), Chien-Ming Tsao (National Yang Ming Chiao Tung University, Taiwan), Joachim Würfl (FBH, Berlin., Germany), Heng-Tung Hsu (National Chiao Tung University & International College of Semiconductor Technology, Taiwan) .....	229
<i>Design of a Q-Band Single-Balanced Passive Mixer in 0.15 Um GaN Technology</i> Nethini T Weerathunge (Macquarie University, Australia), Sudipta Chakraborty (Macquarie University, Australia), Simon Mahon (Macquarie University, Australia), Gerry McCulloch (Macquarie University, Australia), Andrew Jones (Macquarie University, Australia), Michael Heimlich (Macquarie University, Australia) .....	232
<i>A Study on High-Efficiency 24-GHz CMOS Voltage Control Oscillator</i> Yoshiaki Hashimoto (Okayama Prefectural University, Japan), Nobuyuki Itoh (Okayama Prefectural University, Japan), Takayuki Morishita (Okayama Prefectural University, Japan), Kiyotaka Komoku (Okayama Prefectural University, Japan) .....	235
<i>A 201.8-dBc/Hz-FoMT Octave-Tuning-Range LC-VCO IC With a Self-Shifted Voltage-Controlled Novel Varactor in 45-Nm CMOS SOI</i> Mengchu Fang (Waseda University, Japan), Toshihiko Yoshimasu (Waseda University, Japan) .....	238

# Reconfigurable Antennas

<i>Compact, 14-Pattern-States, Reconfigurable Antenna Design and Characterization</i> Chung Yin Lau (The Chinese University of Hong Kong, Hong Kong), Kwok-keung (Michael) Cheng (The Chinese University of Hong Kong, Hong Kong) .....	241
<i>A Pattern Reconfigurable Antenna Array With a Broad Angular Coverage for 5G Millimeter-Wave Mobile Devices</i> Yu-Chen Lo (National Chiao Tung University, Taiwan), Nai-Chen Liu (National Yang Ming Chiao Tung University, Taiwan), Sung-Jung Wu (National Chiao Tung University, Taiwan), Jenn-Hwan Tarn (National Chiao Tung University, Taiwan) .....	244
<i>Pattern-Reconfigurable 2-Element MIMO Antenna Design by Using Novel Switchable Decoupling and Matching Network</i> Chung Yin Lau (The Chinese University of Hong Kong, Hong Kong), Kwok-keung (Michael) Cheng (The Chinese University of Hong Kong, Hong Kong, Hong Kong) .....	247
<i>Quad-Band Inverted-F Antenna System Tuned by Hybrid C-Tuner</i> Oguzhan Oezdamar (University of Erlangen-Nuremberg, Germany), Valentyn Solomko (Infineon Technologies, Germany), Robert Weigel (Friedrich-Alexander Universität Erlangen-Nürnberg, Germany), Amelie Hagelauer (Technical University of Munich, Germany) .....	250

# Metamaterials and EBG structures

<i>Modelling of the Dielectric Resonator and Metal Strip Based Negative-Refractive-Index Lens</i> Kimberley W. Eccleston (Lincoln Agritech Ltd, New Zealand), Yiwen Zhou (Lincoln Agritech Ltd, New Zealand), Ian G Platt (Lincoln Agritech Ltd, New Zealand), Adrian E.-C. Tan (Lincoln Agritech Limited & Lincoln University, New Zealand), Ian M Woodhead (Lincoln, New Zealand) .....	253
<i>A Compact Slow-Wave Filter With Double-Sided Selectivity and Wide Out-Of-Band Rejection</i> Arash Arsanjani (Graz University of Technology, Austria), Hossein Sarbandi Farahani (Graz University of Technology, Austria), Behrooz Rezaee (Graz University of Technology, Austria), Reinhard Teschl (Graz University of Technology, Austria), Wolfgang Bosch (Graz University of Technology & Institute of Microwave and Photonic Engineering, Austria) .....	256
<i>Equivalent Circuit Model of Nonreciprocal Composite Right/Left-Handed Coupled Line</i> Takumu Ideguchi (Kyoto Institute of Technology, Japan), Tetsuya Ueda (Kyoto Institute of Technology, Japan) .....	259
<i>Nonreciprocal CRLH Transmission Line Using Active Circuit-Loaded Ring Resonators</i> Hidefumi Yasuda (Kyoto Institute of Technology, Japan), Tetsuya Ueda (Kyoto Institute of Technology, Japan), Toshiro Kodera (Meisei University, Japan) .....	262

# Transmission Lines and Transitions

<i>Particle Swarm Optimization of a Cascaded Multisection Line Impedance Matching Circuit</i> Bojun Zheng (Tokyo City University, Japan), Koki Nakamura (Tokyo City University, Japan), Tsugumichi Shibata (Tokyo City University, Japan) .....	264
--	-----

<i>Time-Domain Analysis and Design of GCPW Vertical Transition Using Eccentric Via-Hole in Multilayer PCB</i> Yizhou Zhao (Southeast University, China), Hao Shen (Southeast University, China), Hongxin Zhao (State Key Laboratory of Millimeter Waves, Southeast University, China), Xiaoxing Yin (State Key Laboratory of Millimeter Waves, China) .....	267
<i>A Novel Mode-Selective Transmission Line With Low Loss Using Glide-Symmetric Hole Structure</i> Tingting Xie (Beijing University of Posts and Telecommunications, China), Xiaohe Cheng (Beijing University of Posts and Telecommunications, China), Yuan Yao (Beijing University of Posts and Telecommunications, China), Junsheng Yu (University of Electronic Science and Technology of China, China), Xiaodong Chen (Queen Mary University of London, United Kingdom (Great Britain)) .....	270
<i>Frequency Characteristics of Transmission by the Waveguide With Random Shape Boundary</i> Kiyofumi Katayama (Tokoha University, Japan), Kazuo Tanaka (Gifu University, Japan), Masahiro Tanaka (Gifu University, Japan) .....	273

## Modelling of Devices and Circuits

<i>Physics-Enforced Modeling for Insertion Loss of Transmission Lines by Deep Neural Networks</i> Liang Chen (University of California, Riverside, USA), Lesley Tan (Phillips Academy Andover, USA) .....	276
<i>Numerical Calculation of High Power RF-DC Cyclotron Rectifier for Wireless Power Transfer</i> Maho Matsukura (University of Tsukuba, Japan), Kohei Shimamura (University of Tsukuba, Japan), Shigeru Yokota (University of Tsukuba, Japan) .....	279
<i>Comparison of X-Parameter De-Embedding Techniques for Intrinsic Large-Signal Characterization of Power FinFETs</i> Kun-Ming Chen (Taiwan Semiconductor Research Institute, Taiwan), Jia-Ding Han (National Taipei University of Technology, Taiwan), Hsin-Hui Hu (National Taipei University of Technology, Taiwan), Bo-Yuan Chen (Taiwan Semiconductor Research Institute, Taiwan), Chia-Wei Chuang (Taiwan Semiconductor Research Institute, Taiwan), Guo-Wei Huang (Taiwan Semiconductor Research Institute & National Yang Ming Chiao Tung University, Taiwan) .....	281
<i>Circuit Performance Analysis of Analog RF LNA Designed With Negative Capacitance FET</i> Hossein Eslahi (Macquarie University, Australia) .....	284
<i>Theoretical Analysis of Ideal Full-Bridge Rectifier With High-Frequency Input</i> Takashi Hirakawa (SoftBank Corp., Japan), Yoshichika Ohta (Softbank Corp., Japan), Naoki Hasegawa (Softbank, Japan), Yuta Nakamoto (Softbank Corp., Japan) .....	287

## Rectifiers/DACs/Mixers

<i>Full-Range Three-Stage 16GSa/s Riemann Pump RF-Power DAC in GaN HEMT</i> Tomoyuki Furuichi (Tohoku University, Japan), Rui Ma (Mitsubishi Electric Research Lab, USA), Toshiaki Koike-Akino (Mitsubishi Electric Research Laboratories (MERL), USA), Yuji Komatsuzaki (Mitsubishi Electric Corporation, Japan) .....	290
<i>A Miniaturized Wilkinson Power Divider for MMIC Applications</i> Nethini T Weerathunge (Macquarie University, Australia), Sudipta Chakraborty (Macquarie University, Australia), Michael Heimlich (Macquarie University, Australia) .....	293
<i>19 Gbps 60-GHz CMOS OOK Demodulator With 0.3 pJ/Bit Based on Asymmetric Inverters</i> Helmuth Morath (TU Dresden, Germany), Mengqi Cui (Technische Universität Dresden, Germany), Paolo Valerio Testa (Technische Universität Dresden, Germany), Jens Wagner (Technische Universität Dresden & Chair for Circuit Design and Network Theory, Germany), Frank Ellinger (Technische Universität Dresden, Germany) .....	296
<i>A WR3.4 x12 Frequency Multiplier Chain Based on InP HBT Technology</i> Gihyun Lim (Korea University, Korea (South)), Junghwan Yoo (Korea University, Korea (South)), Heekang Son (Korea University, Korea (South)), Doyoon Kim (Korea University, Korea (South)), Jae-Sung Rieh (Korea University, Korea (South)) .....	299
<i>Design of 94GHz High Efficiency Rectifier MMIC</i> Ren Furumoto (Kagoshima University, Japan), Hayato Shimizu (University of Kagoshima, Japan), Kenjiro Nishikawa (Kagoshima University, Japan) .....	302

## Circularly Polarized and Dual-Polarized Antennas

<i>Design of a Ka-Band Low-Profile Wideband Circularly Polarized Magneto-Electric Dipole Antenna With Parasitic Patches and Its Array</i> Luoqing Wang (McGill University, Canada), Zeljko Zilic (McGill University, Canada) .....	305
---	-----

<i>Circularly Polarized Monopulse Antenna Based on Sequential Rotation Array Using Cross-Polarization</i> Qiuyi Zhang (Southeast University, China), Tongtong Zhang (State Key Lab. of Millimeter Wave, Southeast University, China), Jinlun Li (State Key Laboratory of Millimeter Waves, Southeast University, China), Shunli Li (Southeast University, China), Hongxin Zhao (State Key Laboratory of Millimeter Waves, Southeast University, China), Xiaoxing Yin (State Key Laboratory of Millimeter Waves, China) .....	308
<i>Cosecant Squared Pattern for Wide-Band Dual-Polarized Antenna Array Using Orthogonal Feeding Technique</i> Anh Trinh-Ngoc (Viettel High Technology Industries Corporation, Vietnam), Cong Kien Dinh (Viettel High Technology Industries Corporation, Vietnam), Binh Nguyen (Viettel Research & Development Institute, Vietnam), Manh Linh Nguyen (Viettel High-Technology Industries Corporation, Vietnam), Tien Manh Nguyen (Viettel High Technology Industries Corporation, Vietnam) .....	311
<i>Design of Dual-Polarization Dual-Band High-Gain Microstrip Patch Antenna Based on High-Order Modes</i> Long Jin (University of Electronic Science and Technology of China, China), Zhibin He (University of Electronic Science and Technology of China, China) .....	314
<i>Investigation of a Button Antenna Performance in Wearing Scenarios</i> Xiaoyang Yin (The University of Adelaide, Australia), Shengjian Jammy Chen (The University of Adelaide, Australia), Christophe Fumeaux (The University of Adelaide & School of Electrical and Electronic Engineering, Australia) .....	317

## Microwaves in Agriculture and Environment

<i>Microwave Microfluidic Sensor for Detecting Heavy Metal Pollution in Water</i> Haneen Hassan Abdelwahab (RMIT University, Australia), Amir Ebrahimi (RMIT University, Australia), Francisco Tovar-Lopez (RMIT University, Australia), Greg Beziuk (RMIT University, Australia), Kamran Ghorbani (RMIT University, Australia) .....	320
<i>Fabrication of Resonance Type of Electrode Sensor to Detect Bamboo Shoot Growing in Agricultural Soil</i> Kouta Iwamoto (National Institute of Technology, Kure College, Japan), Subaru Iwaki (National Institute of Technology, Kure College, Japan), Masaya Sakamoto (National Institute of Technology, Kure College, Japan), Futoshi Kuroki (National Institute of Technology, Kure College, Japan) .....	323
<i>A Buried Cavity Backed Slot Antenna for Agriculture and Infrastructure Monitoring</i> Arslan A Nizami (Griffith University, Australia), Yana Salchak (Griffith University, Australia), Noor Albadri (Griffith University, Australia), Mohamed Adel Ezzat Elqunawy Radwan (Griffith University, Australia), Hugo G Espinosa (Griffith University, Australia), David V Thiel (Griffith University, Australia) .....	326
<i>Estimation of Propagation Performance Between IoT Terminals and Gateway Using UHF-Bands for Landslides Prediction System</i> Takuma Kinoshita (NIT, Kure College, Japan), Daiya Miyamoto (NIT, Kure College, Japan), Subaru Iwaki (National Institute of Technology, Kure College, Japan), Kouta Iwamoto (National Institute of Technology, Kure College, Japan), Masaya Sakamoto (National Institute of Technology, Kure College, Japan), Kazuya Miyamoto (Miyamoto Device Development Co. Ltd., Japan), Futoshi Kuroki (National Institute of Technology, Kure College, Japan) .....	329

## Advanced Terahertz Technologies for Next-Generation Communications and Sensing

<i>3D-Printed Sub-Terahertz Lens for Manipulation of Deflective Quasi-Non-Diffractive OAM Waves</i> Xiaoyuan He (Beijing University of Posts and Telecommunications, China & University of Technology Sydney, Australia), Li Deng (Beijing University of Posts and Telecommunications, China), Yang Yang (University of Technology Sydney, Australia) .....	332
<i>Leaky-Mode Analysis of Micro-Structured Dielectric Waveguides Toward Integrated Tunneling Multiplexers With Enhanced Bandwidth</i> Daniel Headland (The University of Adelaide, Australia, Australia), Withawat Withayachumnankul (The University of Adelaide, Australia) .....	335
<i>Advanced Terahertz Devices Based on Photonic Crystal and Resonant Tunneling Diode</i> Masayuki Fujita (Osaka University, Japan) .....	338
<i>Dynamic Phase Measurement for Vibrometry Based on Leaky-Wave Terahertz Radar</i> Yuki Ito (Keio University, Japan), Yasuaki Monnai (Keio University, Japan) .....	339
<i>Internal Structure Visualization by Terahertz Computed Tomography With Carbon Nanotube Photo-Scanner Toward Multi-Frequency Image Reconstruction</i> Tomoya Furukawa (Tokyo Institute of Technology, Japan), Takeru Q. Suyama (National Institute of Informatics, Japan), Kou Li (Tokyo Institute of Technology & Laboratory for Future Interdisciplinary Research of Science and Technology, Japan), Imari Sato (National Institute of Informatics, Japan), Yukio Kawano (Japan) .....	341

# RCS reduction and Cloaking

<i>Reflecting Phase-Gradient Metasurface for Radar Cross Section Reduction</i> Khushboo Singh (University of Technology Sydney & Macquarie University, Australia), Muhammad Usman Afzal (University of Technology Sydney, Australia), Ali Laibakhsh (Macquarie University, Australia), Karu Esselle (University of Technology Sydney, Australia) .....	344
<i>Multi-Band SIW Cavity Based Metamaterial Perfect Absorber</i> Majid Amiri (UTS, Australia), Mehran Abolhasan (University of Technology Sydney, Australia), Negin Shariati (University of Technology Sydney, Australia), Justin Lipman (University of Technology, Sydney (UTS), Australia) .....	347
<i>Changing the Radar Cross Section of Quadcopter by Shape Modification</i> Shen Shou Max Chung (National Penghu University of Science and Technology, Taiwan), Shih-Chung Tuan (Oriental Institute of Technology, Taiwan) .....	350
<i>Design of a Broadband Carpet Cloak by Using an One-Dimensional Distributed Transmission-Line Model</i> Tsutomu Nagayama (Kagoshima University, Japan), Akihiro Toshima (Kagoshima University, Japan), Yuki Sonoda (Kagoshima University, Japan), Seiji Fukushima (Kagoshima University, Japan), Toshio Watanabe (Kagoshima University, Japan) .....	353

# Metasurfaces and Metastructures

<i>3D-Printed Reflective Dielectric Coding Metamaterials for Terahertz Waves Manipulation</i> Jingye Sun (Beijing Jiaotong University, China), Yang Gao (Huazhong University of Science and Technology, China), Kai Luo (Huazhong University of Science and Technology, China), Fangjing Hu (Huazhong University of Science and Technology, China) .....	356
<i>Polarization-Insensitive Metasurface Based Switchable Absorber/ Resorber</i> Priyanka Tiwari (Institute for Plasma Research, India), Surya Pathak (Institute for Plasma Research, India) .....	359
<i>Mutual Coupling Reduction in THz Integrated Circuits Using Cubic Micropillar Array</i> Ashish Kumar Verma (Birla Institute of Technology and Science, Pilani, India), Rahul Singhal (BITS Pilani, India) .....	362

# Filters I

<i>Broadband Input Quasi-Reflectionless BPF and BSF for 5G Applications</i> Sunanda Lakkimsetti (IIT Guwahati, India), Rakesh Singh Kshetrimayum (Indian Institute of Technology Guwahati, India), Matthew Morgan (National Radio Astronomy Observatory, USA) .....	365
<i>Compact, Shielded Microstrip Filter With High Selectivity for 5G N78 Application</i> Lin Gu (University of Electronic Science and Technology of China, China), Yuandan Dong (University of Electronic Science and Technology of China, China) .....	368
<i>Miniaturized, Multilayer, Shielded, and Surface-Mountable 5G N79 Bandpass Filter</i> Danyu Yang (University of Electronic Science and Technology of China, China), Yuandan Dong (University of Electronic Science and Technology of China, China) .....	371
<i>Simulation Modeling and Analysis of FBAR RF Filters Considering Different Configurations of Grounding Bond-Wires</i> Huaiqiang Yu (Sichuan Institute of Piezoelectric and Acousto-optic Technology, China) .....	374

# Horns and Reflector Antennas

<i>Effective Phase Center Adjustment Method for Pyramid Horn Antenna</i> Jiuyang Xiao (University of Electronic Science and Technology of China, China), Yangmiao Lin (University of Electronic Science and Technology of China, China) .....	377
<i>Theoretical Design of A Simultaneous S/X Feed System for an F/D=0.45 Parabolic Reflector</i> Christophe Granet (Lyrebird Antenna Research Pty Ltd, Australia), John Kot (Young & Kot Engineering Research, Australia), Ken Smart (CSIRO Space and Astronomy, Australia), Howard D'Costa (CSIRO, Australia), Robert Shaw (CSIRO, Australia) .....	380
<i>Manufacture and Test of a Simultaneous S/X Feed System for a Satellite Ground Station</i> Ken Smart (CSIRO Space and Astronomy, Australia), Robert Shaw (CSIRO, Australia), Michael Bourne (CSIRO Astronomy and Space Science, Australia), Michael Death (CSIRO Space and Astronomy, Australia), Christophe Granet (Lyrebird Antenna Research Pty Ltd, Australia), John Kot (Young & Kot Engineering Research, Australia) .....	383

## Wearable Antennas, Sensors and Material Characterisation Techniques

*Wireless Implantable Medical Device: In-Body EM Losses for a Multilayer Body Model*

Mélusine Pigeon (Tyndall National Institute, Ireland), John Laurence Buckley (Tyndall National Institute & University College Cork, Ireland), John Barton (Tyndall National Institute, Ireland) .....

389

*Textile Planar Wideband Omnidirectional Antenna for Wearable Applications*

Shengjian Jammy Chen (The University of Adelaide, Australia), Quoc Hung Dang (The University of Adelaide & Australia, Australia), Christophe Fumeaux (The University of Adelaide & School of Electrical and Electronic Engineering, Australia) .....

392

*Screen Printed Epidermal Antenna for IoT Health Monitoring*

Roy B. V. B. Simorangkir (Tyndall National Institute, Ireland), Dinesh R. Gawade (Tyndall National Institute, Ireland), Sanjeev Kumar (Tyndall National Institute, University College Cork, Ireland), Brendan O'Flynn (Tyndall National Institute, Ireland), John Laurence Buckley (Tyndall National Institute & University College Cork, Ireland), Tim Hannon (Sanmina Corporation, Ireland), Paul Donovan (Sanmina Corporation, Ireland), Robert Newberry (Sanmina Corporation, USA) .....

395

*Analysis of Microfluidic Pipes in a W-Band Waveguide for Determining Complex Permittivity*

Robert Jones (Queen Mary University of London, United Kingdom (Great Britain)), Andre Sarker Andy (Queen Mary University of London, United Kingdom (Great Britain)), Robert Donnan (Queen Mary, University of London, United Kingdom (Great Britain)), Rostyslav Dubrovka (Queen Mary, University of London, United Kingdom (Great Britain)), Akram Alomainy (Queen Mary University of London, United Kingdom (Great Britain)) .....

398

## Power Amplifiers and Transmitter Systems

*Design of RF Powered ZigBee Sensor Node and Sub 1GHz RF Power Transmitter for Asset Tracking*

Mohamed Rabeek Sarbudeen (IME, A\*STAR, Singapore) .....

401

*A Compact Wideband Reconfigurable Power Amplifier Using PIN Diodes*

Xinchen Zou (Beijing University of Posts and Telecommunications, China), Cuiping Yu (Beijing University of Posts and Telecommunications, China), Shulan Li (Beijing University of Posts and Telecommunications, China), Yuanan Liu (Beijing University of Posts and Telecom, China) .....

404

*A Hybrid Energy Harvesting System Using Meandered Square Loop Rectenna for IOT Devices*

Ankita Deo (IIT Mandi, India) .....

407

*Input-Output Harmonic Controlled Broadband Class-B/J Power Amplifier*

Vivek Tamrakar (Indian Institute of Technology Bombay, India), Sagar Kumar Dhar (University of Calgary, Canada), Tushar Sharma (Indian Institute of Technology Bombay, India), Jayanta Mukherjee (Indian Institute of Technology Bombay, India) .....

410

## Filters II

*A Planar Crossover With Dual-Band Bandpass Response*

Yu-Chi Chiu (National University of Kaohsiung, Taiwan), Yi-Hsin Pang (National University of Kaohsiung, Taiwan) .....

413

*An UHF Sharp Roll-Off and Wide Rejection Band Compact Low-Pass Filter With the Highest Figure of Merit for Merchandise*

Cheng-Hung Hsieh (National Yang Ming Chiao Tung University, Taiwan) .....

416

*Design of Microstrip Sextaplexer Based on Coupled Bandpass Filters With Common Feedline Technique*

Cheng-Hung Hsieh (National Yang Ming Chiao Tung University, Taiwan) .....

419

*Low-Loss Compact SIW Filters With Shielded Complementary Split-Ring Resonator*

Yane Zheng (University of Electronic Science and Technology of China, China), Yilong Zhu (University of Electronic Science and Technology of China, China), Zhan Wang (University of Electronic Science and Technology of China, China), Yuandan Dong (University of Electronic Science and Technology of China, China) .....

422

# Metasurfaces and FSS Antennas

<i>Gain Enhancement in a Fabry-Perot Cavity Antenna Using Phase Correcting Miniaturised FSS</i> Garth Catton (Griffith University, Australia), Hugo G Espinosa (Griffith University, Australia), Aliya A. Dewani (University of Adelaide, Australia), Steven G O'Keefe (Griffith University, Australia)	425
<i>One-Sided Directional Slot Unit and Its Array Antenna With AMC Reflector for 5G N257 Band Applications</i> PeiYi Qiu (Southwest Jiaotong University, China, China), feng Quanyuan (Southwest JiaoTong University, China), Haruichi Kanaya (Kyushu University, Japan)	428
<i>Spatial-Temporal Programmable Metasurface for Single Channel Radiation</i> Chengfan Li (Shanghai Jiao Tong University, China), Zhehao Yu (Shanghai Jiao Tong University, China), Yan Shen (Sun Yatsen University, China), Runqing Cai (Shanghai Jiao Tong University, China), Xuyang Lu (Shanghai Jiao Tong University, China)	431

# Mm-wave and Terahertz Radar and Imaging

<i>Deep Learning Based Concealed Object Recognition in Active Millimeter Wave Imaging</i> San Hlaing Myint (Global Information and Telecommunication Institute, Waseda University, JAPAN., Japan), Yutaka Katsuyama (Global Information and Telecommunication Institute Waseda University, Japan), Toshio Sato (Waseda University, Japan), Xin Qi (Global Information and Telecommunication Institute, Waseda University, Japan), Kazuhiko Tamesue (Waseda University, Japan), Zheng Wen (Waseda University, Japan), Keping Yu (Waseda University, Japan), Tokuda Kiyohito (Waseda University, Japan), Takuro Sato (Waseda University, Japan)	434
<i>Investigation on 600-GHz-Band FMCW Photonic Radar System for a Flexible Inspection Distance</i> Ryohei Kaname (Osaka University, Japan), Li Yi (Osaka University, Japan), Tadao Nagatsuma (Osaka University, Japan)	437
<i>300GHz Band On-Chip Vivaldi Antenna on Dual-Layer Proton Irradiated CMOS Si Substrate</i> Hans Herdian (Tokyo Institute of Technology, Japan), Takeshi Inoue (SHI-ATEX Co., Ltd., Japan), Takuichi Hirano (Tokyo City University, Japan), Masatsugu Sogabe (SHI-ATEX Co., Ltd., Japan), Atsushi Shirane (Tokyo Institute of Technology, Japan), Kenichi Okada (Tokyo Institute of Technology, Japan)	440

# Wireless Power Transfer

<i>Frequency Diversity Transmitting Array for Stable Power Reception Under Rotation in 2D Far-Field Wireless Power Transmission</i> Chien-Chi Hsu (National Taiwan University, Taiwan), Ching-Ya Tseng (National Taiwan University, Taiwan), Ling-Zhu Lu (National Taiwan University, Taiwan), Hsin-Chia Lu (National Taiwan University, Taiwan)	443
<i>Lightweight Rectenna Array for Demonstration of Microwave Power Transfer to Flying-Objects</i> Naoki Hasegawa (Softbank, Japan)	446
<i>Magnetic Coupling Resonant Simultaneous Wireless Power and Information Transfer System With Switched Relay Resonators</i> Penghui Han (Beijing University of Posts and Telecommunications, China), Xin Wang (Beijing Information Science and Technology University, China), Jiawei Zhang (Beijing University of Posts & Telecommunication, China), Ji Yuefeng (Beijing University of Posts and Telecommunications, China)	449
<i>Utilization of Meander Line Slots for Enhancing the WPT Efficiency and Transmission Range</i> Zhanel Kudaibergenova (Nazarbayev University, Kazakhstan), Kassen Dautov (Nazarbayev University, Kazakhstan), Mohammad Hashmi (Nazarbayev University, Kazakhstan), Muhammad Akmal Chaudhary (Ajman University, Ajman, United Arab Emirates)	452
<i>Miniaturized Patch Rectenna Using 3-Turn Complementary Spiral Resonator for Wireless Power Transfer</i> Ali Raza (University of Technology Sydney (UTS), Australia), Rasool Keshavarz (University of Technology Sydney, Australia), Negin Shariati (University of Technology Sydney, Australia)	455

# Measurement Techniques

<i>Site Validation for Radiated Field Measurements of High-Voltage/Large-Capacity Electrical Equipment</i> Shinobu Ishigami (Tohoku Gakuin Univ, Japan), Tatsuru Itsukaichi (Tohoku Gakuin University, Japan), Ken Kawamata (Tohoku Gakuin University, Japan), Yasutoshi Yoshioka (Fuji Electric Europe GmbH, Germany)	458
---	-----

<i>Complex Permittivity and Uncertainty Evaluations for an Ultra Thin Photosensitive Insulator Film Using a Millimeter Wave Circular Cavity Resonator</i>	461
Takashi Shimizu (Utsunomiya University, Japan), Kazuaki Ebisawa (TOKYO OHKA KOGYO, Japan), Yoshinori Kogami (Utsunomiya University, Japan)	
<i>Complex Permittivity Measurement for Thin Dielectric Rods With High Permittivity Using a 50 GHz Band TM<sub>010</sub> Mode Cavity</i>	464
Takashi Shimizu (Utsunomiya University, Japan), Takuya Hayashi (Utsunomiya University, Japan), Yoshinori Kogami (Utsunomiya University, Japan)	
<i>Phase Variation Reflective-Mode Displacement Sensor Using a CPW Loaded With Dumbbell-Shaped Resonator</i>	467
Zahra Mehrjoo (RMIT University, Australia), Amir Ebrahimi (RMIT University, Australia), Kamran Ghorbani (RMIT University, Australia)	
<i>High Range Resonators for Rotation Sensing: Design and Demonstration</i>	470
Vaishnavi Bhope (Indian Institute of Technology Kanpur, India), A. r. Harish (Indian Institute of Technology Kanpur, India)	

## Microwave Systems

<i>Basic Study of Electromagnetic Noise Waveform Extraction Using Independent Component Analysis</i>	473
Nao Takahashi (Tohoku Gakuin University, Japan), Shinobu Ishigami (Tohoku Gakuin Univ, Japan), Ken Kawamata (Tohoku Gakuin University, Japan)	
<i>Helicopter Radio Altimeter Interference Path Loss Measurement Including Adjacent 5G Mobile Telecommunications Band</i>	476
Shunichi Futatsumori (Electronic Navigation Research Institute, Japan), Norihiko Miyazaki (Electronic Navigation Research Institute, Japan), Noriaki Hiraga (Electronic Navigation Research Institute, Japan), Keiji Kobayashi (Japan Aerospace Exploration Agency, Japan), Kenichi Nakafukushima (Japan Aerospace Exploration Agency, Japan)	
<i>Research on Practical Application of Product Shelves Using UHF-RFID Technology</i>	479
Tomohiro Osaki (Tokyo City University, Japan), Yoshinobu Okano (Tokyo City University, Japan)	
<i>UMPS: Ultrasound-Microwave-Fused Phase Synchronization for UAV-Based Phased Arrays</i>	482
Shih-Ming Huang (National Taiwan University, Taiwan), Wei-Cheng Chen (National Taiwan University, Taiwan), Yun-Ting Tsai (National Taiwan University, Taiwan), Ethan Fang Wu (University of California, Berkeley, USA), Shih-Yuan Chen (National Taiwan University, Taiwan)	
<i>Blake Chart Optimization of a VHF Phased Array Using Surrogate-Based Method</i>	485
Liang-Yu Ou Yang (National Central University, Taiwan), Bingzhang Tsai (National Chung-Shan Institute of Science and Technology, Taiwan)	

## Advanced Microwave Filtering Components and Circuits

<i>Design of Dual-Band Power Amplifier Based on Band-Stop Input Matching Structure</i>	488
Xian Gui (Beijing University of Posts and Telecommunications, China), Cuiping Yu (Beijing University of Posts and Telecommunications, China), Shulan Li (Beijing University of Posts and Telecommunications, China), Ming Su (Beijing University of Post and Telecommunication, China), Yuanan Liu (Beijing University of Posts and Telecom, China)	
<i>A Dual-Band Balanced Filter With High Common-Mode Suppression</i>	491
Li YuanChun (South China University of Technology, China), Xin Fang (South China University of Technology, China), Di-Si Wu (South China University of Technology, China), Quan Xue (South China University of Technology, China)	
<i>3D Sub-Terahertz Dual-Mode Cavity Resonator and Its Application to Dual-Polarized Frequency Selective Surface</i>	494
Jing-Yu Lin (University of Technology Sydney, Australia), Yang Yang (University of Technology Sydney, Australia)	
<i>Vertically Stacked Circular SIW Filter With Controllable Transmission Zeros and Higher-Order Mode Suppression</i>	497
Hanyu Tian (University of Electronic Science and Technology of China, China), Yane Zheng (University of Electronic Science and Technology of China, China), Yuandan Dong (University of Electronic Science and Technology of China, China)	
<i>Design of Mode Suppression Bandpass Filter Using Stub-Loaded Periodic Structure</i>	500
Yiqun Liu (Xi'an Jiaotong University, China), Kai-Da Xu (Xi'an Jiaotong University, China)
