1. New power system and energy internet

1.1 Connotation and construction of new power system

PowerCon 2021CP0006
Optimal Power Flow Algorithm for Large-scale Integrated Transmission and Distribution Networks
..... 0002

PowerCon 2021CP0014
Economic Comparison of AC and DC Distribution Network Based on Power Supply Capability
..... 0008

PowerCon 2021CP0015
Study on the Adaptability of Power System Stabilizer Parameters under Deep Peak Regulation Condition
..... 0014

PowerCon 2021CP0018
Overview of The Structure and Fault Detection on High-Temperature Superconducting Cables
..... 0021

PowerCon 2021CP0039
Analysis of Commercial Model of Park-level Integrated Energy System Participating in Carbon Trading Considering Electric Vehicles
..... 0026

PowerCon 2021CP0181
Robust Learning Model Of Wind Turbine Power Curve Based On Operational Data
..... 0033

PowerCon 2021CP0201
Total Transfer Capacity Calculation with Large Scale Wind Power Considering Power Curtailment
..... 0039

PowerCon 2021CP0230
Research on the Two-tier Transaction Mechanism of Renewable Energy Excess Consumption
..... 0047

PowerCon 2021CP0231
Research on An Incorrect Operation of Grounding Transformer Protection and Its Improving Measures
..... 0053

PowerCon 2021CP0251
Integrated Model of DFIG and SFR for Frequency Regulation Control Research of Wind Turbine Generator
..... 0057

PowerCon 2021CP0259

Evaluation Indices For Quantifying The Efficacy Of Carbon-Constrained Power System Development	0062
PowerCon 2021CP0286 Design and Analysis of AC&DC Power Distribution System for Low-Voltage Management at the End of Power Grid	0068
PowerCon 2021CP0302 Research on Speech Recognition of Power Grid Dispatching Based on Big Data and Deep Learning	0073
PowerCon 2021CP0303 Online Alarm Recognition of Power Grid Dispatching Based on PRADO	0079
PowerCon 2021CP0309 Modeling and Topology Analysis of S-SCDN Supply Area Based On Graph Database	0086
PowerCon 2021CP0317 Equivalent Modeling of Wind Farms considering Wake Effects and Analysis of Probability of Subsynchronous Oscillations	0091
PowerCon 2021CP0326 ADMM-Based Energy-Reserve Joint Dispatch Considering Cross-Zone Reserve Dispatchability	0099
PowerCon 2021CP0339 Joint Operation Method for Distributed Photovoltaics and Energy Storage System in Distributed Network	0105
PowerCon 2021CP0342 Research on New Energy Absorption Capacity In The Dual-Carbon Background	0110
PowerCon 2021CP0343 Study on Load Aggregate Commercial Energy Storage Configuration Strategy for Planning and User Demand Response Uncertainty	0106
PowerCon 2021CP0348 Grounding Fault Line Selection Data Model for Distribution Network Based on Random Forest Algorithm	0121
PowerCon 2021CP0369 Verification Method Of Topological Relationship Of Low Voltage Distribution Equipment Based On Knn And Pearson Correlation Coefficient	0127
PowerCon 2021CP0382	

Locational Marginal Pricing-Oriented Transmission Network Expansion Planning With Consideration Of Line Capacity Sensitivity	0133
PowerCon 2021CP0397 Collaborative Optimization Of Multi-Park Integrated Energy System Containing Hydrogen Storage	0139
PowerCon 2021CP0402 Study on Carbon Emission and Impact Factor based on LMDI method: the Case of Jiangsu	0145
PowerCon 2021CP0415 Research on Collaborative Optimal Configuration Method of Charging Pile and Energy Storage in Active Distribution Network Based on Double Layers and Multi-Scenarios	0151
PowerCon 2021CP0418 A Protection Scheme for MMC-MVDC Grid Based On The Characteristics Of Voltage Traveling Waves	0159
PowerCon 2021CP0438 A Method Of Active Power Random Allocation For Power Grid Stability Analysis	0165
PowerCon 2021CP0440 Research on the Evaluation Index System of the Rational Utilization Rate of Gansu New Energy under the Background of Double-carbon	0171
PowerCon 2021CP0445 Improving the Accommodation Of Renewable Resources By Distributed Energy Management In a Grid-Connected System Considering Multiple Demand Responses	0176
PowerCon 2021CP0485 Identification of the Oscillation Source in Multiple Grid-connected Converters Systems	0182
PowerCon 2021CP0488 Resilience Assessment of Integrated Energy Distribution Networks Considering Distributed Energy Resources	0188
PowerCon 2021CP0499 Operation Characteristics Of Virtual Power Plant And Function Design Of Operation Management Platform Under Emerging Power System	0194
PowerCon 2021CP0538 Choice of Transition Scheme for Diamond Distribution Network Considering the Combination of Reliability and Economy	0197

PowerCon 2021FP0047 Current Status And Research Progress Of Bipolar Plates For Proton Exchange Membrane Fuel Cells	0202
PowerCon 2021FP0146 Study on Aging Mechanism of Membrane Electrode Assembly in Stationary Power Generation Fuel Cell with Variable Load Condition	0209
PowerCon 2021FP0247 Traveling Wave Fault Location Method for DC Line Based on Wavelet Reconstruction Algorithm	0213
PowerCon 2021FP0496 A Sizing Method for Hybrid Energy Storage Microgrid with Hydrogen-Electricity System	0218
PowerCon 2021FP0513 Research on Operational Control Strategy of Gansu Power Grid with Grid Load Double Peaks and High Shares of Renewables and Power Electronics	0223
PowerCon 2021FP0525 Study of Cooling Load Demand Response Potential	0228

1.2 New power system planning

PowerCon 2021CP0005 Annual Maintenance And Generation Optimal Scheduling Considering Flexibility Performance Of Renewable Energy Dominated System	0232
PowerCon 2021CP0110 Research on Generation Expansion Planning Model with Comprehensive Weight Based on Improved AHP	0238
PowerCon 2021CP0151 Strengthening Methods of Power Grid Fed with Large-Scale Offshore Wind Power	0243
PowerCon 2021CP0170 Study on Multi-Source Coupled Fault Frequency Defense Method For New Power System	0248
PowerCon 2021CP0172 Joint Location Planning Of Distribution Network And Sensitive Users Considering The Influence Of Voltage Sag	0254
PowerCon 2021CP0182	

Probability Analysis for Multiple-time Renewable Energy Forecast Error Using Conditional D-Vine	0260
PowerCon 2021CP0192 Heterogeneous Resources Self-Organizing Demand Response Model Based On Federal Thought And Influence Model	0265
PowerCon 2021CP0208 Expansion Planning of Active Distribution Network Considering the Impact of Extreme Weather	0270
PowerCon 2021CP0213 Research on New Power System Planning Considering Electrochemical Energy Storage	0277
PowerCon 2021CP0280 The Source-Load-Storage Coordinated Planning Model Considering Flexibility Constraints	0285
PowerCon 2021CP0306 Research on Electric Power Data Governance System and Its Application	0290
PowerCon 2021CP0333 Research on The Improved Calculation Method Of The Influence Of Vsc-Hvdc On Ac Short-Circuit Current	0296
PowerCon 2021CP0353 Frequency Measurement Method Of Small Hydroelectric Microgrid Based On Kalman Algorithm	0302
PowerCon 2021CP0364 Integrated Planning of Data Center and Distributed Renewable Energy in Distribution Systems	0308
PowerCon 2021CP0371 Generation-network-storage Collaborative Planning of Jiangsu Power Grid Towards Carbon Neutrality	0313
PowerCon 2021CP0375 Analysis on Supporting Potential of Flexible Loads to Power Grid Operation from Perspective of Distribution Network Planning	0320
PowerCon 2021CP0424 Power Flow Optimization for Inter-regional Transmission under Low-carbon Economy with Large-scale Wind Integration	0326
PowerCon 2021CP0435 A Method for Evaluating and Optimizing Regional Power System Based on Uncertain Risk Calculation	

.....	0330
PowerCon 2021CP0464	
Economic Evaluation of Solar Powered Hydrogen Production using Convex Programming	
.....	0337
PowerCon 2021CP0481	
Review on the Regulation Capability Of Multiple Generation Resources And Suggestions For Generationside Flexibility Improvement	
.....	0343
PowerCon 2021CP0502	
Optimal Selection of Electrical Access Nodes for EV Charging Facilities Based on Fuzzy Comprehensive Evaluation Method	
.....	0350
PowerCon 2021CP0503	
Optimal Business Expanding of Distribution Network Considering Integration of Electric Vehicle Charging Station	
.....	0355
PowerCon 2021CP0527	
A Hierarchical Data Driven Method for Spatial Electric Load Forecasting	
.....	0360

1.3 Integrated energy system planning and operation

PowerCon 2021CP0114	
Energy-Circuit-Based Sensitivity Analysis for Integrated Energy Systems	
.....	0365
PowerCon 2021CP0147	
Optimal planning of the offshore wind-hydrogen system considering the efficiency characteristics of electrolyzers	
.....	0371
PowerCon 2021CP0273	
Study on the Detection Method of Leakage in TN-C Area of Low-voltage Distribution Network	
.....	0378
PowerCon 2021CP0290	
Optimal Dispatch of Integrated Energy System Considering Dynamic Characteristics and Integrated Demand Response	
.....	0382
PowerCon 2021CP0300	
Optimal Sizing of City Photovoltaic-Storage-Charging System Based on Coalitional Game Theory	
.....	0388
PowerCon 2021CP0325	
Optimized Economic Dispatching Approach for PEM Electrolyzer Cell Combined with Coal-fired Power Units to Participate in Frequency Regulation Service	
.....	0395

PowerCon 2021CP0346	
Research on Integrated Energy Management System Based on Microservice Architecture	0401
PowerCon 2021CP0352	
voltage distribution of small hydropower connected to main grid	0407
PowerCon 2021CP0419	
Multi-agent deep reinforcement learning–based approach for optimization in microgrid clusters with renewable energy	0413
PowerCon 2021CP0472	
Optimal P2G configuration of Park Integrated Energy System Considering Multiple Uncertainties	0420
PowerCon 2021CP0483	
A Method for Evaluating the Accommodation Capacity of Distributed Energy Resource	0426
PowerCon 2021CP0505	
Machine Learning-Based Method for Power System Operation Rules Generation	0432
PowerCon 2021CP0530	
Integrated Dispatch Optimization for Building Energy System	0438

1.4 Resilience power and energy system

PowerCon 2021CP0066	
A Network Restoration Model for Active Distribution Network with Coordinated Active and Reactive Power	0444
PowerCon 2021CP0219	
Strategy of the Intraday Dynamic Capacity Increase Considering the Failure Rate of the Transformer	0449
PowerCon 2021CP0222	
Real Time Health Evaluation Method of Transformer Based on Improved Grey Correlation Analysis	0455
PowerCon 2021CP0380	
Coordinated Development of Energy Ecosystem based on Carbon Neutrality and Carbon Peak Targets	0461
PowerCon 2021CP0399	
The Construction of Energy Ecosystem to Achieve Carbon Neutrality	

.....	0466
PowerCon 2021CP0449	
Research on the Key Technology Framework of Collaborative Optimization Decision-making for Highly Resilient Power Grid	
.....	0471
PowerCon 2021CP0487	
Identification of Vulnerable Components In Integrated systems Under the Background of Resilience	
.....	0477
PowerCon 2021CP0492	
A Characteristic Loci Method for Power Systems Small-signal Stability Analysis	
.....	0482
PowerCon 2021CP0543	
Data-driven Operational Reliability Assessment for Power Systems Under Hurricanes	
.....	0489

1.5 Power and integrated energy system reliability

PowerCon 2021CP0057	
Fault Assessment Method Of Integrated Electricity And Natural Gas Network Considering Interdependent Characteristics	
.....	0493
PowerCon 2021CP0080	
Study on the Impact of Excitation System on Forced Power Oscillation of Francis Hydro-generator across Vibration Zone	
.....	0499
PowerCon 2021CP0082	
An Excitation Mode Analysis Method for MultiMachine Systems Based on Minimum Characteristic Loci	
.....	0505
PowerCon 2021CP0154	
Testing of Ethernet Function of Domestically-made FPGA Chip and Acquisition Board for the Application of Protective Relaying	
.....	0510
PowerCon 2021CP0354	
Research on Stability Of Smallhydropower And Wind Power Microgridwith Different Load Access Points	
.....	0517
PowerCon 2021CP0410	
Research on the Influencing Factors and Their Mechanisation of Power Grid Reliability	
.....	0523
PowerCon 2021CP0524	
Research and Application of the Scheme of Relay Protection and Self-healing for Distribution Network Based on 5G	

..... 0529

1.6 Cloud energy storage and virtual energy storage

PowerCon 2021CP0516

Quantitative Elasticity Assessment Method of Integrated Energy System Considering Building Virtual Energy Storage

..... 0536

1.7 Nuclear Power Technology

PowerCon 2021CP0041

An Event-Driven Scenario Modeling and Replay Method for Operational Safety Audits in NPPs

..... 0543

PowerCon 2021CP0394

Identification of Human Operation Deviation Using a Conformance Checking Technique

..... 0551

PowerCon 2021CP0427

Application Status of Ethanolamine in Secondary Circuit System of Nuclear Power Plants in China

..... 0556

1.9 Carbon capture and storage

PowerCon 2021CP0512

CO₂ Electrochemical Reduction to C₂H₄ By Anion Exchange Membrane Electrode Assemble Device With High Selectivity And Productivity

..... 0564

2. Market and economy in the new power system

2.1 Electricity price theory and transmission and distribution price system

PowerCon 2021CP0165

Research on Peak-valley Time Division Method of TOU Electricity Price Based on Density Clustering

.....	0568
PowerCon 2021CP0188	
Economic Benefit Evaluation of Transmission Planning in Power Market Considering Impact of Carbon Market	
.....	0573
PowerCon 2021CP0260	
Multi-objective Collaborative Control Scheduling Optimization Considering Wind Power Grid-Connected Energy Storage Access	
.....	0580
PowerCon 2021CP0279	
Research on Key Issues Of Incremental Distribution Network Participating In Power Market Transaction Settlement	
.....	0586
PowerCon 2021CP0350	
Optimal Generation Bidding Strategy For CHP Units In Deep Peak Regulation Ancillary Service Market Based On Two-Stage Programming	
.....	0592
PowerCon 2021CP0490	
Distributed Dispatch for Local Energy Communities Based on Alternating Direction Method of Multipliers	
.....	0598
PowerCon 2021CP0497	
Analysis of the Operational Benefits Of Energy Storage Plants Participating In The Ancillary Services Market	
.....	0604
PowerCon 2021CP0539	
A Power Portfolio Method using DR- CVaR in Renewable Power Systems	
.....	0610

2.2 Electricity market model and path

PowerCon 2021CP0003	
Evaluating the Dual-Track System in China's Electricity Markets: A Case Study of Yunnan	
.....	0614
PowerCon 2021CP0024	
Review of the Reform And Development Process Of The Incremental Power Distribution Business in Guizhou Province	
.....	0620
PowerCon 2021CP0107	
Analysis of Electricity Market Equilibrium Considering Carbon Emission Mechanism	
.....	0625
PowerCon 2021CP0212	
Research on Generation Capacity Cost Recovery Mechanism of the New Power System	
.....	0630

2.3 Spot market design and operation

PowerCon 2021CP0083 Trading Mechanism Design for Demand Response Resources Participating in Electricity Spot Market	0639
PowerCon 2021CP0120 Security Check Method of Regional Power Grid in Market Environment	0646
PowerCon 2021CP0405 Design and Implementation of the Technical Supporting System for Inter-district Surplus Renewable Energy Spot Transaction	0651

2.4 Market mechanism to promote the consumption of renewable energy

PowerCon 2021CP0131 Research and Practice of Clean Energy Transaction Mechanism in the Electricity Market Environment	0657
PowerCon 2021CP0133 Research on Multi-person Bargaining Strategies of Green Certificate Bilateral Transaction	0663
PowerCon 2021CP0441 Review of Typical Incentive Policies and Market Mechanisms for Renewable Energy Accommodation	0673

2.5 Ancillary service market

PowerCon 2021CP0079 Research on Payment, Clearing and Settlement System Based on Electric Vehicle Intelligent Networking Platform	0678
PowerCon 2021CP0098 Peak Shaving Auxiliary Service Market Model With Multi-type Power Participation	0684
PowerCon 2021CP0109 Distributed Cooperative Clearing Model of Peak Regulation Ancillary Service Market Under Ubiquitous Power Internet of Things	

.....	0690
PowerCon 2021CP0163	
Research on peak shaving auxiliary service market considering the participation of pumped storage power stations	
.....	0696
PowerCon 2021CP0175	
Industry Electricity Behavior Analysis Based on Electricity Index with Seasonal Adjustment	
.....	0704
PowerCon 2021CP0321	
An Ancillary Trading Mode of Power Market Based on Commitment Generation Quota	
.....	0710
PowerCon 2021CP0430	
Optimal Procurement of VPP Voltage Regulation Ancillary Service in Distribution Networks with High Penetration of PV	
.....	0715
PowerCon 2021CP0470	
Peak Shaving Market Mechanism Of Captive Power Plants Considering Energy Consumption Characteristics Of Enterprises	
.....	0720
PowerCon 2021CP0498	
The Sequence of Regulation Clearing Comparing to Energy and Zhejiang Practice	
.....	0725
PowerCon 2021CP0540	
Economic Evaluation of Thermoelectric Unit with Electric Boiler Considering Deep Peak Load Regulation	
.....	0729
PowerCon 2021CP0541	
Research on the Operating Cost of Generating Units Participating in AGC Auxiliary Services Under Power Market Conditions	
.....	0733
PowerCon 2021CP0542	
Bidding Strategy for Power Generation Enterprises as Price Makers in Day-ahead Energy and Regulation Markets	
.....	0739

2.6 Market mechanism of integrated energy services

PowerCon 2021CP0104	
Analysis of the Allocation Approaches of Carbon Emission Allowances	
.....	0743
PowerCon 2021CP0494	
Clearing of Power-Gas Joint Market considering Gas Nomination constraints of Gas-Fired Units	
.....	0749

3. Demand-side resources of the new power system

3.1 Intelligent charging and discharging management of electric vehicles

PowerCon 2021CP0013 Demand Potential Analysis of Charging Stations Considering Reliability Based on Multi-Attribute Decision-Making	0755
PowerCon 2021CP0069 Optimal Discharging Strategy in Electric Vehicle Charging Stations with Particle Swarm Optimization	0760
PowerCon 2021CP0132 Research on the Evolution Game Of Tripartite Stakeholders Of Electric Energy Alternative Ppp Project: a Case Study Of China's New Energy Vehicles	0765
PowerCon 2021CP0200 Optimization Strategy Design Of Distribution Network Based On Orderly Charging Control Of Electric Vehicles	0771
PowerCon 2021CP0207 Coordinated Charging and Discharging of Electric Vehicles for Power Imbalance Mitigation	0778
PowerCon 2021CP0224 Energy Consumption Information Census Mode And Tool Design Based On Data Acquisition Network	0784
PowerCon 2021CP0243 Bidirectional Charging Strategy of Electric Vehicle based on Predictive Control Method	0789
PowerCon 2021CP0248 An Optimized Operation Strategy of Electric Vehicle Charging Station with Energy Storage	0794
PowerCon 2021CP0282 Double Layer Optimization for Orderly Charge and Discharge Strategy of V ₂ G Electric Vehicles	0799
PowerCon 2021CP0332	

Dynamic Economic Dispatch with Electric Vehicles Considering Battery Wear Cost Using a Particle Swarm Optimization Algorithm	0807
PowerCon 2021CP0374	
Design of Electric Vehicle Charging Station Based on PROFINET Bus Technology Considering Safety Issues	0814
PowerCon 2021CP0398	
Research on SOC Estimation of Lithium Battery for Electric Vehicle Based on EKF Algorithm	0820
PowerCon 2021CP0411	
Research on the Planning Model of Microgrid Energy Unit in Intelligent District Containing Electric Vehicle	0824
PowerCon 2021CP0425	
Research on the Influence Of Electric Vehicle Charging On Residential Distribution Network In Southern China	0829

3.4 Smart buildings and smart homes

PowerCon 2021CP0252	
An Overview in DC Distribution System of Smart Building	0834
PowerCon 2021CP0335	
Anticipatory Control of Flexible Loads for System Resilience Enhancement Facing Accidental Outages	0844
PowerCon 2021CP0468	
Review on Voltage Regulation Techniques Via Flexible Resources In Power Distribution Systems	0850

3.6 Construction and operation of virtual power plant

PowerCon 2021CP0030	
Market Clearing Strategy With Integrated Demand Response Considering Flexible Capacity of Multiple Virtual Power Plants	0856
PowerCon 2021CP0215	
Design and Implementation of Intelligent Perception and Management System Oriented to Demand Response of Virtual Power Plant	0862

PowerCon 2021CP0218 Autonomous Cooperative Method of Distributed Energy Resources for Integrating Renewable Energy	0865
PowerCon 2021CP0226 Optimal Scheduling Strategy for Virtual Power Plant Considering Voltage Control	0870
PowerCon 2021CP0314 A Bidding Model For Virtual Power Plants To Participate In Demand Response In The New Power Market Environment	0875
PowerCon 2021CP0331 Research on Capacity Allocation Method of Virtual Power Plant with Communication Base Station Energy Storage	0883
PowerCon 2021CP0368 Review of Game Theories Applied to Virtual Power Plants	0887
PowerCon 2021CP0370 Energy Trading of Multiple Virtual Power Plants Using Deep Reinforcement Learning	0892
PowerCon 2021CP0501 Joint Optimal Scheduling of Heat and Power Considering Multiple Flexible Resources of a Virtual Power Plant	0898

4. Consumption of renewable energy in new power systems

4.1 New energy power forecast

PowerCon 2021CP0144 Short-term Wind Power Forecast based on Teleconnected NWP Information	0904
PowerCon 2021CP0174 Modified Short-Term Wind Power Forecasting Method For Improvement Of Accuracy And Algorithmic Stability	0910
PowerCon 2021CP0187 Short-Term Wind Power Prediction of Regions Based on Deep Long Short-Term Memory Network and Gaussian Process Regression	

.....	0916
PowerCon 2021CP0233	
Ultra-short-term Distributed Photovoltaic Power Forecasting Based on Cloud Image Feature Extraction	
.....	0920
PowerCon 2021CP0379	
Reactive Power Load Forecasting based on Kmeans Clustering and Random Forest Algorithm	
.....	0925
PowerCon 2021CP0448	
Research on Time Series Data Of Renewable Energy Output Based On Ga-Lstm Model Of Multi-Source Data Fusion	
.....	0929
PowerCon 2021CP0450	
Short-term Load Forecasting Based on Multi-model Fusion of CNN-LSTM-LGBM	
.....	0934
PowerCon 2021CP0462	
Flexible Transformation Cost Analysis Of Thermal Power In Jiangxi Province For Depth Peak-Shaving	
.....	0940
PowerCon 2021CP0528	
A Sky Image-Based Hybrid Deep Learning Model for Nonparametric Probabilistic Forecasting of Solar Irradiance	
.....	0946
PowerCon 2021CP0531	
Research on Power Control and Prediction Strategies of New Energy Based on Cloud Platform and BP Neural Network	
.....	0953

4.2 Resource assessment, development and utilization and grid connection of new energy

PowerCon 2021CP0010	
Capacity-Credit Evaluation of Renewable Energy Power in Jiaying City based on Monte-Carlo Simulation	
.....	0958
PowerCon 2021CP0038	
Analysis of Power Abandon Characteristics in Offshore Wind Farms with DC Series-Parallel Architectures	
.....	0965
PowerCon 2021CP0050	
Oscillatory Stability Analysis for Power Systems with High Penetration of Photovoltaic Generation: the Minimum Characteristic-Locus Method	
.....	0971

PowerCon 2021CP0055	
An Automatic Defects Detection System for PV Plants With Data Augmentation	0980
PowerCon 2021CP0142	
Calculation of Power Grid Wind Power Acceptance Capacity Based On Different Dispatching Methods	0985
PowerCon 2021CP0159	
Topology Optimization Of Offshore DC Transmission System Based On Small Signal Stability	0990
PowerCon 2021CP0240	
Generic Fault Cell Model and Cell-based Characteristic Fault Topologies of PV Array	0995
PowerCon 2021CP0278	
Analysis of Transient Stability of Photovoltaic Grid-connected System Considering Low Voltage Ride Through	1000
PowerCon 2021CP0287	
Study on Sub-synchronous Stability and Damping Characteristics of Thermal Power Unit in Windthermal Power Bundled Transmission System with Series Compensation	1005
PowerCon 2021CP0297	
Intrusion Detection Method Based on the Legality of Action Messages in Process Layer of Smart Substation	1011
PowerCon 2021CP0299	
Research on Comprehensive Complementary Characteristics Evaluation Technology of Windsolar-hydro Combined Power Generation System	1017
PowerCon 2021CP0344	
Analysis of Transient Frequency Voltage Coupling Characteristics For Power Systems With a High Share Of Wind Power	1023
PowerCon 2021CP0404	
Deep Reinforcement Learning Based Coordinated Voltage Control in Smart Distribution Network	1030
PowerCon 2021CP0429	
Coordinated Operation of PV and Cascaded Hydropower Considering the Power Grid Security Constraints	1035
PowerCon 2021CP0514	
Reactive Power Optimization of Active Distribution Network Considering Mobile Energy Storage	1040

PowerCon 2021CP0520	
Multi-time Scale Rolling Coordinated Optimal Scheduling Of CSP-PV-W Considering The Maximization Of New Energy Consumption Capacity	
.....	1045
PowerCon 2021CP0532	
Wind-Storage Joint Multi-Objective Reactive Optimization Considering Ramp Events of Wind Power	
.....	1053

4.3 Configuration and operation of new energy supporting energy storage

PowerCon 2021CP0020	
Coordinated Control Strategy for Photovoltaic Power Plant with Battery Energy Storage System	
.....	1059
PowerCon 2021CP0134	
CSP-PV Joint Power Output Modeling Method based on Non-Parametric Kernel Density Estimation and Copula Theory	
.....	1065
PowerCon 2021CP0203	
Research on Variable Speed Pumped Storage to Improve the Stable Operation Capability of Combined System	
.....	1072
PowerCon 2021CP0363	
Multi-objective Optimization Scheduling Method of Combined Pumped Storage and VSC-HVDC Grid to Improve Transmission Capacity of Renewable Energy in Multi-region	
.....	1078
PowerCon 2021CP0454	
A Bi-Level Optimal Configuration Model Of Isolated Microgrid Considering Energy Storage Lifetime	
.....	1084
PowerCon 2021CP0477	
Utilization of Electrochemical Energy Storage System with External Characteristics of Voltage Source for Independent Voltage Support in Power Systems	
.....	1089
PowerCon 2021CP0482	
Research on Operation Strategy Of Concentrating Solar Power Considering Grid Voltage Stability And Clean Energy Consumption	
.....	1094
PowerCon 2021CP0506	
Energy Management Of Battery Energy Storage Station Considering System Operation Efficiency	
.....	1100

4.4 Distributed power generation and micro grid technology

PowerCon 2021CP0045 Locating and Sizing optimization algorithm of Distributed Generation in Distribution Networks for Low-carbon operation	1105
PowerCon 2021CP0070 Research on ULFS Strategies with DGs in Isolated Distribution Systems	1111
PowerCon 2021CP0125 Modeling and Coordinated Control of Island DC Hybrid System of Wind/PV/Electrolyzer and BESS	1117
PowerCon 2021CP0161 Multi-objective Capacity Optimal Allocation Of Photovoltaic Microgrid Energy Storage System Based On Time-sharing Energy Complementarity	1123
PowerCon 2021CP0189 Unbalanced Reactive Power Dynamic Allocation Considering Multiple Wind Farms Voltage Regulation Diversity	1130
PowerCon 2021CP0313 Energy Management Strategy Of Standalone Hydro- Photovoltaic-Storage Microgrid	1136
PowerCon 2021CP0318 PV, Battery and Diesel Powered Microgrid Solution for Power Supply in Remote Oil Field Scenario	1142
PowerCon 2021CP0519 A Multi-Objective Scheduling Strategy Of CH-PV-Wind-PS Based On An Improved Hybrid Intelligent Algorithm	1147

4.5 New energy power generation control

PowerCon 2021CP0025 Analysis on Dynamic Voltage of Renewable Energy Generators During Post-Fault Recovery Based on Monotone Control Theory	1155
PowerCon 2021CP0094	

Analysis of the Influence Of Wind Farms In Full Operating Conditions On The Torsional Vibration Of The Shaft System Of Synchronous Generators	1161
PowerCon 2021CP0180 Research and Engineering Field-test of a Renewable Energy Stations Rapid Power Control Technology for Improving Power Grid Stability	1168
PowerCon 2021CP0183 Overview of Frequency Regulation Technology of Power System with High Wind Power Penetration	1176
PowerCon 2021CP0227 Optimization of Maintenance Time Window Scheduling Suitable for Active Distribution Network	1183
PowerCon 2021CP0263 Research on the Control Strategy Of Hybrid Energy Storage Cooperative Operation Based on VSG Control	1189
PowerCon 2021CP0292 Model Predictive Control of Direct Drive Wave Energy Generation	1196
PowerCon 2021CP0301 Frequency-Coupled Impedance Modeling and Stability Analysis of Multiple Grid-Connected Voltage-Source Converters	1202
PowerCon 2021CP0304 Control Performances of CSP Generator's Excitation System And Speed Governor Based On Measured Data	1208
PowerCon 2021CP0329 Research on the Mechanism And Control Methods Of Repeated Voltage Fluctuations In Large-Scale Wind Power Integration System	1214
PowerCon 2021CP0392 Model of Resonance Predictive in Pitch System of Wind Turbine Based on Vector Fitting	1220
PowerCon 2021CP0439 Improved Three-Vector-Based Model Predictive Current Control for Energy Storage Converter	1224
PowerCon 2021CP0460 Research on Active Distribution Network Scheduling Considering Source-Storage-Load Interaction	1229
PowerCon 2021CP0534	

Controlled Strategy Research For Low Voltage Ride-Through Of DFIG	1239
PowerCon 2021FP0414 Optimal Control Strategies for Loss Minimization of Wind Turbine Driven DFIG	1244

5. New power system with power electronics

5.1 Power electronic power system simulation and modeling

PowerCon 2021CP0007 Voltage Feed Forward Shunt Active Power Filter Based On Double Loop Control	1251
PowerCon 2021CP0043 Research on Dynamic Virtual Synchronous Machine Control System Of Energy Storage Converter	1257
PowerCon 2021CP0065 Initialization of DFIG Wind Turbine for Electromagnetic Transients Simulation	1263
PowerCon 2021CP0077 Modeling and Small-Signal Stability Analysis for Time-Delayed AC Multi-Microgrid Systems in Islanded Mode	1271
PowerCon 2021CP0078 Identification of Photovoltaic System using a Frequency-domain Approach	1277
PowerCon 2021CP0095 Load Characteristics and Stability Analysis of Variable Frequency AC Power System	1286
PowerCon 2021CP0097 Simplified Modeling of the Power-electronized Load Based on Sensitivity Analysis	1292
PowerCon 2021CP0106 Analysis of Stability Margin and Control System Interaction for LCC-HVDC System Under Weak AC Grid Using SISO Modeling	1297
PowerCon 2021CP0116	

Selection Methods of Main Circuit Parameters for Modular Multilevel Matrix Converters	1304
PowerCon 2021CP0118 Deviation Reduction of On-line and Off-line Computational Results of Short Circuit Ratio for Multiple Renewable Power Sources	1310
PowerCon 2021CP0126 Control Strategy for Low Frequency AC Transmission Under Single-Phase Outage Condition	1315
PowerCon 2021CP0155 Measurement of LVRT and HVRT Characteristics of SVG and Parameter Identification Of Electromechanical Simulation Model	1321
PowerCon 2021CP0167 Hardware-in-Loop Real-Time Simulation for Battery Energy Power Conversion System Based on RT-LAB	1327
PowerCon 2021CP0178 Self-Healing Capability Evaluation for Microgrid in Disaster Scenario	1333
PowerCon 2021CP0190 Modeling of High Voltage DC Power Supply System for More Electric Aircraft Based on Co-simulation of Saber-Simulink	1338
PowerCon 2021CP0193 The Basic Idea and Preliminary Exploration of Electromagnetic Transient Simulation of Largescale Power Electronic Power System	1343
PowerCon 2021CP0206 Practical Model of Wind Generator with Auxiliary Frequency Controller on PSS/E	1350
PowerCon 2021CP0242 Analysis the Effect of Complex Soil Structure on Potential Distribution Caused by Metro Stray Current	1355
PowerCon 2021CP0328 A Harmonic Current Compensation Strategy Based On Improved Generalized Integral Control	1360
PowerCon 2021CP0406 Optimization Design on Grading Rings of Composite Insulator for 500 kV Four-circuit Transmission Lines	1366
PowerCon 2021CP0409 Research and Design of Modular Energy-fed AC/DC Virtual Load	

.....	1370
PowerCon 2021CP0420	
Harmonic Analysis of a DC/AC Hybrid Grid Using Resonance Modal Analysis	
.....	1375
PowerCon 2021CP0443	
Current Regulation of Grid-Following Converters with Low Carrier Ratio	
.....	1381
PowerCon 2021CP0473	
Integrated parameter estimation method for Brushless doubly-fed induction generator based on simplified d-q model	
.....	1388
PowerCon 2021CP0475	
Position Deviation Analysis and Correction Method of Tunnelling Magnetoresistance Sensor used in Transformer Core Earthing Current Monitoring	
.....	1394
PowerCon 2021CP0479	
Digital-Analog Hybrid Simulation of Southwest Planning Power Grid with Multi-HVDC Concentrated Delivery	
.....	1399
PowerCon 2021CP0486	
Hierarchically Distributed Energy Management For a Smart Energy Multi-Community System With Multidimensional Energy Characteristics Based on CP	
.....	1404

5.2 UHV AC

PowerCon 2021CP0064	
Coordination Logic Optimization of UHVDC Line Fault Restart	
.....	1411
PowerCon 2021CP0088	
Construction of digital Physical Hybrid Experimental Platform For UHVDC with Fault Protection Equipment	
.....	1416
PowerCon 2021CP0089	
The Research on Controlled Transmission Of Power AC Lines Based On The Series Connection Of Voltage And Current Sources	
.....	1421
PowerCon 2021CP0113	
Research on the Real-Time Closed-Loop Testing of AGC in AC/DC Asynchronous Power Grid	
.....	1429
PowerCon 2021CP0149	
Comparison of DC models and analysis of influence on transient stability characteristics of AC/DC combined systems	
.....	1433

PowerCon 2021CP0249 Mechanism Analysis on Transient Stability of the Weak Sending-end System Considering Dynamic Characteristics of HVDC	1438
PowerCon 2021CP0275 Experimental Studies on Minimum Air Clearance of UHVDC Converter-Valve External Insulation	1443
PowerCon 2021CP0295 Commissioning of UHV SCSR Control Strategy	1448
PowerCon 2021CP0351 Operation safety analysis of CMOA controllable switch under lightning intrusion wave in UHV AC substation	1452
PowerCon 2021CP0452 Discussion on Factors and Strategies Affecting the Operation of UHV Power Grid	1457
PowerCon 2021CP0478 Research of Hybrid HVDC circuit breaker Protection Technology based on Multiple information	1460
PowerCon 2021CP0493 Research on measuring and controllable method of UHV AC power electronic CMOA by BOD self triggered mode	1465
PowerCon 2021FP0400 Analysis of AC Fault Ride-through Characteristics of the Baihetan-Jiangsu Hybrid Cascaded UHVDC System	1471

5.3 Flexible DC transmission

PowerCon 2021CP0022 A hybrid HVDC converter based on MMC and diode rectifier for offshore wind farm integration	1476
PowerCon 2021CP0040 Overvoltage under the Valve-side Single-phase-to-ground Fault in Bipolar MMC-HVDC Systems	1481
PowerCon 2021CP0091 Lifetime Estimation of Semiconductor Devices in Wind Turbine Converter Under Fractional Frequency Transmission System	1486
PowerCon 2021CP0150 Research on Effect and Prioritization of the Reformation from LCC-HVDC to VSC-HVDC	

.....	1492
PowerCon 2021CP0168	
Effect Comparison of Rectified and Inverter-fed Power Control Converters on Sub-synchronous Torsional Stability in Practical $\pm 500\text{kV}$ Lu-Gao- Zhao Three-Terminal DC Project	
.....	1498
PowerCon 2021CP0184	
Parameters Optimization of MMC-MTDC Piecewise Variable Rate VDCOL for Power Grid Transient Stability Improvement	
.....	1504
PowerCon 2021CP0210	
The State of Art of Energy Consumption Devices for Offshore Wind Power System	
.....	1510
PowerCon 2021CP0268	
A Practical Method for Submodule Capacitance Quantification of M3C in Fractional Frequency Transmission System	
.....	1515
PowerCon 2021CP0298	
Research on Short-time Current Test Method of DC Circuit Breaker Used in DC Grid	
.....	1521
PowerCon 2021CP0389	
Influence of Circulating Current Control on the Performance of Modular Multilevel Converter	
.....	1527
PowerCon 2021CP0434	
Study on AC Harmonic Characteristics of Netherland $\pm 525\text{kV}/2\text{GW}$ MMC-HVDC System for Offshore Wind Farms Integration	
.....	1534

5.4 New development of FACTS technology

PowerCon 2021CP0031	
A Supplementary Damping Controller of TCPST on Subsynchronous Oscillation	
.....	1542
PowerCon 2021CP0100	
The effects of TCPST on power frequency overvoltage in EHV line	
.....	1548
PowerCon 2021CP0127	
Optimal Transmission Frequency of Low Frequency AC System for Offshore Wind Farm Integration	
.....	1556
PowerCon 2021CP0426	
Research on a Power Electronic Device with Wide Frequency and Wide Voltage Output Capability	
.....	1561

5.5 DC power distribution and DC microgrid

PowerCon 2021CP0256 Integrated Phase-Shift Modulation Scheme with Wide Voltage Range Adaptability for Modular Multilevel Resonant DC-DC Converter	1566
PowerCon 2021CP0360 PV System Output Modeling and Influence Factor Analysis of Metallic Bipolar Short-Circuit Fault for DC Microgrids	1573
PowerCon 2021CP0376 An improved droop control method for power distribution of more electric aircraft	1584
PowerCon 2021CP0378 Automatic power flow optimization dispatching method for multi-terminal flexible AC/DC hybrid distribution network based on improved particle swarm algorithm	1590
PowerCon 2021CP0417 Voltage Harmonic Analysis of the 12-phase Synchronous Generator under Grid Connected Operation	1596

5.6 Stability analysis of power electronic power system

PowerCon 2021CP0023 Small-Signal Stability Analysis of Weak-Grid Connected DFIG-based WT during Asymmetric Faults	1601
PowerCon 2021CP0028 Transient Stability Analysis and Controller Optimization of Grid-Connected Converter Under Input Power Variation	1606
PowerCon 2021CP0044 Experimental study on voltage sag tolerance of adjustable speed drive with AC contactor	1612
PowerCon 2021CP0048 Voltage Stability in Converter-interfaced Power System: a Monotone Systems Approach	1617
PowerCon 2021CP0061 Stability Analysis of Transition Process Based VSC Connected to Weak Grid During LVRT	1623
PowerCon 2021CP0081	

Current-Induced Strength Evaluation Method for Power Systems with Renewable Energy Sources	1629
PowerCon 2021CP0086	
Converter-Driven Low-Frequency Stability Analysis and Compensation in Weak-Grid-Tied VSCs	1634
PowerCon 2021CP0124	
Resonance Stability Analysis of Hangzhou Flexible Low Frequency AC System	1641
PowerCon 2021CP0135	
Harmonic Stability Analysis and Damping Strategy for DC system of MMC-HVDC Across Wide Frequency Range	1645
PowerCon 2021CP0158	
Network-Based Spectral Analysis of Power Systems with Renewable Energy Penetration	1652
PowerCon 2021CP0186	
Stability Optimization of Low-voltage DC Flexible Interconnected Power Station in AC Distribution Network Based on Impedance Analysis	1659
PowerCon 2021CP0197	
Adaptability Study on Out-of-Step Separation Devices of Complex Multiinfeed AC/ DC Power Systems	1667
PowerCon 2021CP0204	
Current Saturation Analysis of Droop Controlled Voltage Source Converter	1673
PowerCon 2021CP0209	
Assessing Frequency Nadir of Power Systems under Power Ramp Disturbances	1678
PowerCon 2021CP0229	
A Hybrid Phase-Locked Loop for the Transient Stability Enhancement of Voltage Source Converters	1683
PowerCon 2021CP0237	
A Negative Parallel Virtual RLC Damper for LCfiltered Constant Power Load in DC Microgrid	1689
PowerCon 2021CP0253	
Preset Performance Theory Based Station Control Strategy of Wind Farm for Frequency Stability	1695
PowerCon 2021CP0307	
Subsynchronous Oscillation Events in an MTDCconnected Renewable Energy System	

PowerCon 2021CP0316	1701
Damping Injection Control Strategy of Low Frequency Oscillation in Photovoltaic Power Plant	1707
PowerCon 2021CP0355	
Operation Risks Analysis and Stability Control System Optimization for the Junction Area of Multiple HVDC Sending System	1713
PowerCon 2021CP0377	
Stability Analysis of VSG Based on Damping Torque Theory	1720
PowerCon 2021CP0391	
Clustering Analysis and Mitigation of Sub- synchronous Oscillation of Offshore Wind Farm via the VSC-HVDC Grid-Connected System	1726
PowerCon 2021CP0432	
Dual-Loop PQ Control Scheme for Transient Stability Enhancement and Current Limitation of VSG	1732
PowerCon 2021CP0480	
Renewable Integrated Transient Voltage Stability Mechanism Analysis using Hopf Bifurcation and Discrete Wavelet Transform	1737

5.7 Protection and control of power electronic power system

PowerCon 2021CP0037	
Influence of Control and Protection Characteristics on Insulation Coordination of MMC-HVDC System	1743
PowerCon 2021CP0145	
Metallic Short Circuit Fault Location Algorithm Considering Capacitance Current based on Differential Equation	1749
PowerCon 2021CP0250	
Research on a kind of adaptive backup power automatic throw-in based on objectification	1756
PowerCon 2021CP0284	
The Research and Application on the Intelligent Control System of the GIS Circuit Breaker	1759
PowerCon 2021CP0310	
Constructing Algorithm of the Circulating Current in D-Winding Based on Unbalanced Quantity	

.....	1764
PowerCon 2021CP0311	
Optimal Allocation Method of SAPFs for Harmonic Loss Reduction in Distribution Networks Based on Multi-objective Particle Swarm Optimization	
.....	1769
PowerCon 2021CP0322	
Comprehensive Evaluation and Improvement of Power Quality in Distribution Networks Based on DEA Model and Membership Function	
.....	1775
PowerCon 2021CP0327	
Study the adaptability test and protective measures of relay protection devices in a compound electromagnetic environment	
.....	1781
PowerCon 2021CP0413	
A Fixed-Time Frequency Consensus Protocol for Power System with Heterogeneous Dynamics	
.....	1789
PowerCon 2021CP0444	
Time-domain Characteristic Analysis of Fault Induced Traveling Wave in Flexible DC Transmission Lines	
.....	1795
PowerCon 2021CP0509	
An Open Circuit Faults Diagnosis Method Based on XG-Boost Used in MMC	
.....	1805
PowerCon 2021FP0099	
Cause Identification of Single-line-to-ground Fault in Distribution System	
.....	1811

6. Cyber-physical integration in new power systems

6.1 Modeling and simulation of power grid cyber-physical system

PowerCon 2021CP0076	
Cascading Failure Analysis With Load Uncertainty in Cyber-Physical Power Systems	
.....	1817
PowerCon 2021CP0177	
Method of Cyber-Physical System Based on SelfApproaching Optimization Theory for Smart Microgrid	
.....	1822

PowerCon 2021CP0442 A Multi-interface Hardware-in-the-Loop Simulation Platform for System Protection in Cyber-physical Power System	1827
PowerCon 2021CP0467 Plug and play method of intelligent terminal in power distribution Internet of things considering network priority	1832

6.2 Integration of power grid and ICT

PowerCon 2021CP0085 Microservice Placement Method of SCADA Service in Collaborative Cloud-Edge Computing System	1838
PowerCon 2021CP0096 EdgeCloudSim-based Modelling on Power Distribution Internet of Things and Task Offloading Strategy	1843
PowerCon 2021CP0156 Research and application of medium to low voltage cable tunnel monitoring system based on NB-IoT	1848
PowerCon 2021CP0319 The Preliminary Conception of Access Protection for Distributed Generation Based on the Internet Communication Technology	1853
PowerCon 2021CP0359 Performance Study of ZigBee Wireless Sensor Network for 500kV UHV Transmission Tower	1859

6.3 Power system network and information security

PowerCon 2021CP0223 Adversarial Malware Examples for Terminal Cyberspace Attack Analysis in Cyber-Physical Power Systems	1865
PowerCon 2021CP0261 Intrusion Detection Method Based on the Legality of Action Messages in Process Layer of Smart Substation	1871
PowerCon 2021CP0388 Power Data Collection Terminal Protection Based On SM9	

.....	1877
PowerCon 2021CP0459	
Reliability evaluation of cyber-physical system considering integration of power and communication risk	
.....	1883
PowerCon 2021CP0500	
Cyber Security Risk Analysis of Physical Protection Systems of Nuclear Power Plants and Research on the Cyber Security Test Platform Using Digital Twin Technology	
.....	1889
PowerCon 2021FP0056	
Using data mining technology to detect unknown network security threats in power system digital transformation	
.....	1893

6.4 New power system communication architecture

PowerCon 2021CP0412	
Dynamic resource allocation of network function virtualization for Space-Air-Ground Integrated Energy Internet	
.....	1897

6.5 Application of wide-area measurement system technology

PowerCon 2021CP0225	
Cloud- Edge Integrated State Identification Framework and Algorithm	
.....	1904
PowerCon 2021CP0451	
Research on the collection technology of the Internet of Things evolution of the Automatic metering system	
.....	1910
PowerCon 2021FP0054	
On-line Estimation of Power System Inertia Using Short-time Synchronous Phasor Measurements Under High Generator Damping	
.....	1919

6.6 Artificial intelligence in power systems

PowerCon 2021CP0074	
Electric Power Monitor tracking algorithm based on Improved SiamFC	
.....	1925

PowerCon 2021CP0117	
LSTM-CNN-Based Transient Stability Assessment	
.....	1930
PowerCon 2021CP0220	
Methods for Gas Turbine's Compressor General Characteristic Curve Prediction	
.....	1936
PowerCon 2021CP0232	
Dynamic Economic Dispatch Considering Demand Response Based on Reinforcement Learning	
.....	1941
PowerCon 2021CP0235	
Power Equipment Defect Text Mining Based on New Word Discovery and Feature Fusion	
.....	1948
PowerCon 2021CP0320	
Design of Intelligent Dispatching System Based on Human Voice Adaptive Speech Recognition	
.....	1953
PowerCon 2021CP0347	
Standard Analysis on Environmental Test for Electric Robots in the tropics	
.....	1958
PowerCon 2021CP0358	
Power skill training knowledge base construction based on knowledge map and improved FP-Growth	
.....	1962
PowerCon 2021CP0372	
Learn From Raw Data or Statistical Features? A Comparison Between Two Deep Learning Patterns in Power System Stability Analysis	
.....	1968
PowerCon 2021CP0383	
A Grey Wolf Algorithm Optimized SVM Method for Voltage Sag Identification in Distribution Systems	
.....	1974
PowerCon 2021CP0384	
A Local Density Clustering Based Method for Disturbance Source Identification of Power quality in Distribution Systems	
.....	1980
PowerCon 2021CP0385	
Location Method for Three Phase Unbalance Sources in Distribution Network Based on CSO Optimized Deep Belief Network	
.....	1986
PowerCon 2021CP0387	
A PSO Optimized Support Vector Machine Method for User Identification of Distribution System with Electric Vehicles	
.....	1991
PowerCon 2021CP0423	

Graph Neural Network Based Transient Stability Assessment Considering Topology Changes	1999
PowerCon 2021CP0433	
Fine Tune or not? Evaluation of Transfer Methods for Power System Transient Stability Analysis	2004
PowerCon 2021CP0469	
Short-term load interval prediction based on ALO-ML-ELM	2009
PowerCon 2021CP0489	
A Review of Deep Reinforcement Learning Applications in Power System Parameter Estimation	2015
PowerCon 2021CP0510	
Research on ICD adaptive technology of redundant backup measurement and control device in Intelligent Substation	2022
PowerCon 2021CP0537	
Power system dynamic security region algorithm based on LightGBM and improved SVM	2027
PowerCon 2021FP0367	
Fast Shapelet Learning for Power System Dominant Instability Mode Identification	2033

6.7 Big data application in power system

PowerCon 2021CP0009	
Analysis and Application of Relay Protection and Safety Automation Equipment Based on Big Data Platform	2038
PowerCon 2021CP0211	
Design of Multi-source Message Big Data Platform for Power Grid Dispatching Based on Improved Ontology Aggregation	2042
PowerCon 2021CP0216	
Fault detection and diagnosis of wind turbine gearbox based on acoustic analysis	2047
PowerCon 2021CP0241	
Research on Lean Management Strategy of Power Grid Production Projects Based on Multi-platform Data Fusion and Project Big Data	2053
PowerCon 2021CP0254	
Realization of data-driven virtual sensors for gas turbine air filter pressure difference	2059
PowerCon 2021CP0255	

A Non-intrusive Industrial Load Monitoring Method Based on Motor Mechanical Transient Feature Extraction	2064
PowerCon 2021CP0291	
Optimization Algorithm and Application of Electrification Level Considering the Development of Energy Storage	2069
PowerCon 2021CP0362	
Research on Data Service Directory Construction Technology for Power Grid Enterprise Data Middle Platform	2073
PowerCon 2021CP0401	
Design and Application of Power Grid Security Risk Assessment and Hierarchical Control System in Natural Disasters	2080
PowerCon 2021CP0446	
Module Research of Blockchain-based Power Equipment Inspection and Data Asset Sharing	2087
PowerCon 2021CP0453	
Study on Daily Line Loss Calculation Based on Operation Data and Resistance Characteristics of Low Voltage Distribution Transformer Area	2093
PowerCon 2021CP0507	
A historical distribution network state estimator using smart distribution transformer meters	2097
PowerCon 2021CP0518	
Abnormal Data Processing of Wind Turbine Based on Combined Algorithm and Class Center Imputation	2102

6.8 Blockchain technology application

PowerCon 2021CP0049	
Research and application of digital control system for power substation construction based on blockchain technology	2107
PowerCon 2021CP0139	
Based on Blockchain to Construct Distributed Energy Trading	2112
PowerCon 2021CP0214	
Application of Blockchain Technology in North China Power Dispatching and Auxiliary Services	2118
PowerCon 2021CP0264	

Research on Dynamic Power Equipment Identification System Based on Block Chain Technology	2124
PowerCon 2021CP0296 Distributed Storage System for Dispatch Information Supported by Blockchain Technology	2129
PowerCon 2021CP0421 Research on intelligent terminal fusion scheme based on blockchain Technology	2134

6.9 Digital twin technology application

PowerCon 2021CP0289 Research on digital twin construction technology and application of large capacity utility boiler	2139
PowerCon 2021CP0395 The Propagation and Identification of Partial Discharge Signals in Transformer Bushing Under the Framework of Digital Twins	2146

7. Application of new power transmission and distribution technologies in new power systems

7.1 Environmentally friendly power transmission and distribution system

PowerCon 2021CP0053 Differential protection configuration for phase shifting transformer	2153
PowerCon 2021CP0058 Short-circuit current calculation model for symmetrical two-core phase-shifting transformer	2159
PowerCon 2021CP0072 Evaluation of Uncertainty in the Measurement of Sound Power Levels of UHV Main Transformer by Sound Pressure Method	2166
PowerCon 2021CP0137	

Modeling and Application of Magnetic Induction Wireless Power Transmission in Sea Water	2172
PowerCon 2021CP0138 Distribution network reconfiguration digital twin model based on bi-level dynamical time division	2178
PowerCon 2021CP0217 Flexibility Improvement Optimization Method of Distribution Network with High DG Penetration	2188
PowerCon 2021CP0283 A Virtual Capacitor Control Method for Depression DC Voltage Fluctuation in MMC-HVDC System	2194
PowerCon 2021CP0323 Mechanical Characteristics of Ice-melting and Ice- shedding under onductor Galloping	2200
PowerCon 2021CP0345 Influence of generator model considering complex nonlinear factors on transmission capacity of power grid	2205
PowerCon 2021CP0365 Research on Orderly Charging Strategy of Electric Vehicles Based on Intelligent Fusion Terminal	2210
PowerCon 2021CP0521 Comparison of Neutral-Point Balancing Mechanism in Parallel-Operated T-Type Three-Level PWM AC/DC Interface Converters	2215
PowerCon 2021CP0533 Research on plug and play method of distribution transformer station intelligent fusion terminal	2219

7.2 Wireless power transmission

PowerCon 2021CP0337 Research on Synchronization Method of Differential Protection Based on 5G Wireless Communication	2225
---	------

7.3 Electromagnetic field and new high-voltage technology

PowerCon 2021CP0087	
---------------------	--

Calibration Analysis of Field Mills in the Space Charge Modified Field above Ground Based on Convection-diffusion Equation	2229
PowerCon 2021CP0092	
Calculation of Mixed Electric Field on the Body Surface of Live Workers on UHV AC/DC Transmission Lines in the Same Corridor	2236
PowerCon 2021CP0119	
A Study on Bending Properties of CTCs in Hot State	2241
PowerCon 2021CP0136	
Study on Time Domain Simulation Model for Lossy Frequency-Dependent Single Transmission Line	2246
PowerCon 2021CP0152	
Transient Performance of Loss Reduction Strategy for Power Cables Installed on the Bridge	2251
PowerCon 2021CP0179	
A Cable Distance Measuring Device	2255
PowerCon 2021CP0257	
Numerical Algorithm Based on BP Neural Network for Electric Field Calculation	2258
PowerCon 2021CP0305	
Study on Partial Discharge Characteristics During Electrical Tree Growth at XLPE-SIR Interface	2262
PowerCon 2021CP0336	
Adjacent AC Lines Capacitive Coupling Current Influence on UHV AC Lines	2266
PowerCon 2021CP0484	
Study on the the impact of dynamic adjustment of system topology on transient characteriscs of short circuit current	2270
PowerCon 2021CP0491	
Near real time system short-circuit current Online monitoring platform and its application	2275
PowerCon 2021CP0526	
Defect Analysis Of An Switch Cabinet With Mixed Type Partial Discharge	2279
PowerCon 2021CP0535	
Optimization Design and Experimental Analysis of High-voltage High-frequency Transformer with Completely Resin Casting	2282

7.4 Condition monitoring and fault diagnosis

PowerCon 2021CP0060	
The Intelligent quality evaluation system of switchgear based on defect association rules	
.....	2287
PowerCon 2021CP0067	
110kV and 220kV transformer neutral point gap and arrester standardization and relay protection configuration	
.....	2291
PowerCon 2021CP0068	
Breakdown characteristics and gap distance standardization of neutral point gap in 110kV and 220kV transformers	
.....	2295
PowerCon 2021CP0073	
Application of intelligent flexible technology in neutral point protection of 110kV and 220kV transformers	
.....	2301
PowerCon 2021CP0101	
Research on Vibration Characteristics of Converter Transformer Under the Influence of Harmonic Voltage and Harmonic Current	
.....	2307
PowerCon 2021CP0102	
Fault Causes Identification of Transmission Lines Based on Weighted Naive Bayes Classification Algorithm Combined with Complex Algorithm	
.....	2312
PowerCon 2021CP0105	
An optical fiber composite power cable panoramic state monitoring system for typical scene application	
.....	2317
PowerCon 2021CP0128	
Fault Diagnosis for Photovoltaic Inverter based on Attention Recurrent Neural Network	
.....	2322
PowerCon 2021CP0129	
Comparative Analysis of Ferroresonance and Arc High Impedance Grounding Fault in High Voltage Transmission Line	
.....	2331
PowerCon 2021CP0140	
Research on Multi-Objective Reactive Power Optimal Control Strategy of Multi-energy New Power System	
.....	2336
PowerCon 2021CP0164	
Degree of Polymerization Evaluation of power transformer with Near infrared spectroscopy using Back Propagation Neural Networks	
.....	2342

PowerCon 2021CP0166	
Wavelet time-frequency diagram and convolutional neural network-based fault diagnosis of commutation failure in HVDC transmission system	
.....	2346
PowerCon 2021CP0202	
Comparative Study on The Effectiveness of Partial Discharge Detection of Distribution Cables under Damped Oscillatory Wave Voltage and Ultra-low Frequency Voltage	
.....	2352
PowerCon 2021CP0258	
Structural Health Monitoring of UHV GIL Shield Cross-River Electric Power pipe Gallery	
.....	2357
PowerCon 2021CP0267	
Fault traveling wave detection method based on VMD-MPE	
.....	2364
PowerCon 2021CP0390	
Single Phase Grounding Fault Location Method Based on Ratio and Correlation Coefficient of Phase Current Sudden Change	
.....	2370
PowerCon 2021CP0403	
Research on Internal Temperature Field and Hydrogen Diffusion Characteristics of Inverted Oil Immersed Current Transformer	
.....	2376
PowerCon 2021CP0437	
Single-phase short-circuit voltage sag source location method based on wavelet transform and traveling wave ranging	
.....	2380
PowerCon 2021CP0529	
Modeling and structural optimization of acoustic imaging sensor unit for detecting abnormal noises of dry-type transformer	
.....	2388
PowerCon 2021CP0536	
A Data-driven Modeling Method for Power Quality Disturbance sources in Distribution Networks	
.....	2393
PowerCon 2021FP0265	
Determine the aging status of silicone rubber insulators base on smartphone hyperspectral cameras	
.....	2399
PowerCon 2021FP0474	
Analysis of Commutation Failure in LCC-HVDC Systems During Unbalanced Conditions Using Sequence Components	
.....	2404

7.5 Intelligent equipment operation and maintenance and asset management

PowerCon 2021CP0035	
The Research and Application of Intelligent Distributed Feeder Automation in Overhead Line	2409
PowerCon 2021CP0071	
Simulation analysis of thermomechanical characteristics of power cable under the ducts laying	2413
PowerCon 2021CP0153	
Research on the smart tower of transmission line based on the architecture of distributed regional autonomous system	2418
PowerCon 2021CP0194	
Study on Maintenance Methods of Local Communication in Low-voltage Electric Data Acquisition System	2422
PowerCon 2021CP0238	
Verification method of SCD file in smart substation based on improved k-nearest neighbor algorithm	2428
PowerCon 2021CP0246	
Matching and generation method of virtual terminals in smart substation based on reinforcement learning and semantic analysis	2434
PowerCon 2021CP0285	
Container-Based Microservice Modeling and Computing Resource Scheduling Method for Distribution Network Protection	2440
PowerCon 2021CP0456	
Research on smart metering infrastructure technology based on new generation multi-core module electric energy meter and comprehensive demonstration application	2445

7.6 New materials and superconducting applications

PowerCon 2021CP0029	
Rotor Design of HTS homopolar inductor alternator based on multi-physics field	2451
PowerCon 2021CP0281	
Passive radiative cooling for crystalline silicon solar cells	2459

7.7 Large-capacity and high-efficiency energy storage technology

PowerCon 2021CP0112

Power-to-Hydrogen: Process Modeling and Thermodynamic Analysis of High Temperature Solid Oxide Electrolysis

..... 2463

PowerCon 2021CP0458

Enhanced Nonlinear Passivity Based Control for Power Conversion System

..... 2468
