2021 14th International Conference on Security of Information and Networks (SIN 2021)

Edinburgh, United Kingdom
15-17 December 2021

Additional Copies of This Publication Are Available From:

2021 14th International Conference on Security of Information and Networks (SIN) Proceedings

Table of Contents

Preface

Keynote Speakers

Frank Wang, University of Kent, United Kingdom

William (Bill) J Buchanan, Edinburgh Napier University, United Kingdom

Willy Susilo, Univ. of Wollongong, Australia

SIN 2021 Conference Organisation

SIN 2021 Conference Program

Session 1: Cryptography
Session Chair: Atilla Elçi

Session 2: Privacy and Trust
Session Chair: Atilla Elçi

24_PAN-DOMAIN: Privacy-preserving Sharing and Auditing of Infection Identifier Matching

Will Abramson, Edinburgh Napier University, United Kingdom

Bill Buchanan, Edinburgh Napier University, United Kingdom

Owen Lo, Edinburgh Napier University, United Kingdom

Sarwar Sayeed, Edinburgh Napier University, United Kingdom

Nikolaos Pitropakis, Edinburgh Napier University, United Kingdom

32_An Improved Range Proof with Base-3 Construction

Esra Günsay, Middle East Technical University, Turkey

Cansu Betin Onur, Middle East Technical University, Turkey

Murat Cenk, Middle East Technical University, Turkey

38_Blockchain-based Platform for Secure Sharing and Validation of Vaccination Certificates

Mwrwan Abubakar, Edinburgh Napier University, United Kingdom

Pádraig McCarron, Edinburgh Napier University, United Kingdom

Zakwan Jaroucheh, Edinburgh Napier University, United Kingdom

Ahmed Al-Dubai, Edinburgh Napier University, United Kingdom

William J Buchanan, Edinburgh Napier University, United Kingdom

Session 3: Applied Cybersecurity
Session Chair: Atilla Elçi

46_Investigating operative cybersecurity awareness in air traffic control

Espen Nystad, IFE, Norway

John Eidar Simensen, IFE, Norway

Christian Raspotnig, Avinor, Norway

54_Cut It: Deauthentication Attack on Bluetooth

Karim Lounis, Queen's University, Canada

62_Situational Control of a Computer Network Security System in Conditions of Cyber Attacks

Igor Kotenko, St. Petersburg Federal Research Center of the Russian Academy of Sciences, Russia

Igor Saenko, St. Petersburg Federal Research Center of the Russian Academy of Sciences, Russia

Oleg Lauta, Admiral Makarov State University of Maritime and Inland Shipping, Russia

Mikhail Karpov, St. Petersburg Signal Academy, Russia

Session 4: Industrial Control Systems
Session Chair: Naghmeh Moradpoor

70_Improving Intrusion Detection through Training Data Augmentation

Uneneibotejit J. Otokwala, Robert Gordon University, United Kingdom

Andrei Petrovski, Robert Gordon University, United Kingdom

Harsha Kalutarage, Robert Gordon University, United Kingdom

78_VNWTS: A Virtual Water Chlorination Process for Cybersecurity Analysis of Industrial Control

Systems

   Andres Robles-Durazno, Edinburgh Napier University, United Kingdom
   Naghmeh Moradpoor, Edinburgh Napier University, United Kingdom
   James McWhinnie, Edinburgh Napier University, United Kingdom

85_Comparative Study of Malware Detection Techniques for Industrial Control Systems

   Deborah Reid, Robert Gordon University, United Kingdom
   Ian Harris, Robert Gordon University, United Kingdom
   Andrei Petrovski, Robert Gordon University, United Kingdom

Session 5: System Security
Session Chair: Andrei Petrovski

91_Towards OS-Independent Memory Images Analyzing: Using Paging Structures in Memory Forensics

   Truong-An Tran-Quoc, HCMUS-VNU, Viet Nam
   Anh-Duy Tran, HCMUS-VNU, Viet Nam
   Chi Huynh-Minh, HCMUS-VNU, Viet Nam

99_Android Malware Family Classification: What Works – API Calls, Permissions or API Packages?

   Saurabh Kumar, Indian Institute of Technology Kanpur, India
   Debadatta Mishra, Indian Institute of Technology Kanpur, India
   Sandeep Kumar Shukla, Indian Institute of Technology Kanpur, India

107_Towards Security Decision Support System for large-scale Heterogeneous Distributed Systems

   Ivan Murenin, St. Petersburg Federal Research Center of the Russian Academy of Sciences, Russia   *Elena Doynikova, St. Petersburg Federal Research Center of the Russian Academy of Sciences, Russia*
   Igor Kotenko, St. Petersburg Federal Research Center of the Russian Academy of Sciences, Russia

Session 6: Short Papers I
Session Chair: Andrei Petrovski

115_Generative adversarial attacks on motion-based continuous authentication schemes

   Narges Pourshahrokhi, University of Surrey, United Kingdom
   Max Smith-Creasey, BT, United Kingdom
   Samaneh Kouchaki, University of Surrey, United Kingdom
   Mona Ghassemian, interDigital, United Kingdom

121_Smart Connected Aircraft: Towards Security, Privacy, and Ethical Hacking

   Md Jobair Hossain Faruk, Kennesaw State University, USA
   Paul Miner, Kennesaw State University, USA
   Ryan Coughlan, Kennesaw State University, USA
   Mohammad Masum, Emory University, USA
   Shahriar Hossain, Kennesaw State University, USA
   Victor Clincy, Kennesaw State University, USA

Coskun Cetinkaya, Kennesaw State University, USA

Session 7: Intrusion Detection and Prevention
Session Chair: Andrei Petrovski

126_Min-max Training: Adversarially Robust Learning Models for Network Intrusion Detection Systems

Sam Grierson, Edinburgh Napier University, United Kingdom
Craig Thomson, Edinburgh Napier University, United Kingdom
Pavlos Papadopoulos, Edinburgh Napier University, United Kingdom
Bill Buchanan, Edinburgh Napier University, United Kingdom

134_Automated Microsegmentation for Lateral Movement Prevention in Industrial Internet of Things (IIoT)

Murshedul Arifeen, Robert Gordon University, United Kingdom
Andrei Petrovski, Robert Gordon University, United Kingdom
Sergei Petrovski, Samara State Technical University, Russia

140_OCIDS: An Online CNN-Based Network Intrusion Detection System for DDoS Attacks with IoT Botnets

Erim Aydın, İstanbul Technical University, Turkey
Şerif Bahtiyar, İstanbul Technical University, Turkey

Session 8: Anomaly Detection
Session Chair: Naghmeh Moradpoor

148_RADON: Robust Autoencoder for Unsupervised Anomaly Detection

Naji Najari, Orange Labs, Meylan, France
Samuel Berlemont, Orange Labs, Meylan, France
Gregoire Lefebvre, Orange Labs, Meylan, France
Stefan Duffner, LIRIS UMR 5205 CNRS, Villeurbanne, France
Christophe Garcia, LIRIS UMR 5205 CNRS, Villeurbanne, France

156_A Textual Clean-Label Backdoor Attack Strategy against Spam Detection

Fahri Anıl Yerlikaya, İstanbul Technical University, Turkey
Şerif Bahtiyar, İstanbul Technical University, Turkey

164_Privacy Interpretation of Behavioural-based Anomaly Detection Approaches

Muhammad Imran Khan, Insight-centre for Data Analytics, Ireland
Simon N. Foley, Norwegian University of Science and Technology, Norway
Barry O'Sullivan, University College Cork, Ireland

Session 8: Short Paper II
Session Chair: Naghmeh Moradpoor
