

PROCEEDINGS OF SPIE

International Conference on Computer Vision, Application, and Design (CVAD 2021)

Ziyan Zhang
Editor

19–21 November 2021
Sanya, China

Organized by
Hainan Tropical Ocean University Creative Design College (China)

Sponsored by
AEIC Academic Exchange Information Center

Published by
SPIE

Volume 12155

Proceedings of SPIE 0277-786X, V. 12155

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Computer Vision, Application, and Design (CVAD 2021)*, edited by Ziyang Zhang, Proc. of SPIE 12155, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

COMPUTER VISION AND IMAGE ALGORITHM PROCESSING

- 12155 02 **Adaptive edge-preserving denoising algorithm based on anisotropic diffusion model**
[12155-59]
- 12155 03 **Wildlife recognition from camera trap data using computer vision algorithms** [12155-3]
- 12155 04 **Uav tilt photography 1 : 500 real estate survey technology in application in erosion gully monitoring** [12155-13]
- 12155 05 **A laser point cloud registration method for local geometric key points** [12155-14]
- 12155 06 **RS-rSGM: a Revised Semi-Global Matching for remote sensing image** [12155-41]
- 12155 07 **Image compressed sensing reconstruction algorithm based on attention mechanism**
[12155-46]
- 12155 08 **Functional maps based dense 3D human body correspondence from single view point clouds**
[12155-8]
- 12155 09 **Disparity refinement based on feature classification and local propagation for stereo matching**
[12155-11]
- 12155 0A **Research on low contrast image enhancement technology** [12155-17]
- 12155 0B **Reinforcement learning based diagnosis and prediction for COVID-19 from CT images**
[12155-16]
- 12155 0C **Design of volume calculation algorithm for irregular objects based on reference plane for large scenes** [12155-48]
- 12155 0D **Local pruning global pruned network under knowledge distillation** [12155-34]
- 12155 0E **A new self-supervised method for supervised learning** [12155-4]
- 12155 0F **Local recoloring algorithm based on image segmentation** [12155-43]
- 12155 0G **Vision-based lander safe zone detection and tracking for celestial body landing** [12155-12]
- 12155 0H **Research on the application of computer vision art in digital media art** [12155-58]
- 12155 0I **Object tracking: feature selection by reinforcement learning** [12155-9]

- 12155 OJ **Classification and retrieval of CAD three dimensional models based on neural network** [12155-47]
- 12155 OK **A review on handwriting words recognition using OCR** [12155-32]
- 12155 OL **High-resolution remote sensing vehicle automatic detection based on feature fusion convolutional neural network** [12155-39]
- 12155 OM **Study on analyzing and remodeling assembly constraints of CAD models from the heterogeneous system** [12155-27]
- 12155 ON **Post-segmentation processing based on image morphology** [12155-21]
- 12155 OO **Self-supervised degraded document image binarization method based on second-order central moments and multi-scale network** [12155-20]
- 12155 OP **Face anti-spoofing methods based on physical technology and deep learning** [12155-33]
- 12155 OQ **Decision research of plain lake remediation based on entropy-weight TOPSIS and modified DBSCAN** [12155-56]
- 12155 OR **Design and implementation of safety helmet detection system based on computer vision** [12155-61]
- 12155 OS **A CBR-based power engineering cost estimation method** [12155-62]

COMPUTER TECHNOLOGY APPLICATION AND INTELLIGENT DESIGN

- 12155 OT **The application of BIM technology in the design of airport pavement** [12155-36]
- 12155 OU **The progress of fluid mechanics application in architecture design** [12155-51]
- 12155 OV **Research on the recognizable design of urban road landscape** [12155-52]
- 12155 OW **A new CorrNet designed for unaligned cross-view positioning** [12155-1]
- 12155 OX **Design and construction of assembled monolithic shear wall structures with permanent formwork technology** [12155-40]
- 12155 OY **Exploration and research on teaching system of architecture based on BIM** [12155-29]
- 12155 OZ **Evaluation of design safety level based on fuzzy comprehensive evaluation method** [12155-54]
- 12155 10 **Using low-level optical flow to efficiently identify the driving state in automatic driving** [12155-19]

- 12155 11 **Detecting attention level as a warning sign for online classes by using EEG signals** [12155-49]
- 12155 12 **Domain adaptation in nuclei semantic segmentation** [12155-28]
- 12155 13 **Satellite component tracking and segmentation based on position information encoding**
[12155-10]
- 12155 14 **Coal and gangue recognition based on improved support vector machine** [12155-18]
- 12155 15 **Detecting and tracking moving tiny vehicles from satellite based on spatio-temporal constraints** [12155-53]
- 12155 16 **Research on a true digital orthophoto map generation technology based on 3D point cloud geometry** [12155-15]
- 12155 17 **Research on the construction and application of "Three Lines and One List" information service platform based on GIS technology** [12155-5]
- 12155 18 **Research on activity space design based on Kansei Engineering and flow theory** [12155-2]
- 12155 19 **Recent advances in machine learning for geological and geophysical case studies** [12155-60]
- 12155 1A **A new method of point cloud boundary extraction based on slice** [12155-7]
- 12155 1B **Electric vehicle shared charging pile management system based on energy blockchain**
[12155-63]
