## Table of Contents

Message from the TrustCom 2021 General Chairs .....	xxxvi
Message from the TrustCom 2021 Program Chairs .....	xxxvii
Message from the NGDN 2021 Workshop Chairs .....	xxxviii
Message from the EBTSRA 2021 Workshop Chairs .....	xxxix
Message from the AINet 2021 Workshop Chairs .....	xl
Message from the MLSys 2021 Workshop Chairs .....	xli
Message from the RFTI 2021 Workshop Chairs .....	xlii
Message from the MLTrustCom 2021 Workshop Chairs .....	xliii
Message from the BlockchainSys 2021 Workshop Chairs .....	xliv
Message from the AEIT 2021 Workshop Chairs .....	xlv
Message from the BDRA 2021 Workshop Chairs .....	xlvi
TrustCom 2021 Organizing Committee .....	xlvii
TrustCom 2021 Program Committee .....	xlviii
TrustCom 2021 Steering Committee .....	liv

## The 20th IEEE International Conference on Trust, Security and Privacy in Computing and Communications (IEEE TrustCom 2021)

### TT - Trust Track

A Time-Aware Trust Management Heuristic for the Internet of Vehicles .....	1
<i>Sarah Ali Siddiqui (Macquarie University, Australia), Adnan Mahmood (Macquarie University, Australia), Quan Z. Sheng (Macquarie University, Australia), Hajime Suzuki (CSIRO Data61, Australia), and Wei Ni (CSIRO Data61, Australia)</i>	
Verifiable Conjunctive Keyword Search with Certificateless Searchable .....	9
<i>LingHan Zhang (Guangxi Normal University, China), F. Jiang (Guangxi Normal University, China), and Xiaohu Tang (GNXU, China)</i>	
Reliable Logging in Wireless IoT Networks in the Presence of Byzantine Faults .....	17
<i>Sara Alhajaili (University of Warwick, United Kingdom) and Arshad Jhumka (University of Warwick, United Kingdom)</i>	

The Performance of Selfish Mining in GHOST .....	26
<i>Qing Xia (Chinese Academy of Sciences, China), Wensheng Dou (Chinese Academy of Sciences, China), Fengjun Zhang (Chinese Academy of Sciences, China), and Geng Liang (Chinese Academy of Sciences, China)</i>	
Bidder Scalable M+1st-Price Auction with Public Verifiability .....	34
<i>Po-Chu Hsu (Osaka University, Japan) and Atsuko Miyaji (Osaka University, Japan)</i>	
VEIN: High Scalability Routing Algorithm for Blockchain-Based Payment Channel Networks .....	43
<i>Qianyun Gong (Nankai University, China; Tianjin Key Laboratory of Network and Data Security Technology, China), Chengjin Zhou (Nankai University, China; Tianjin Key Laboratory of Network and Data Security Technology, China), Le Qi (Shijiazhuang Huayan Traffic Technology Co., Ltd, China), Jianbin Li (Nankai University, China; Tianjin Key Laboratory of Network and Data Security Technology, China), Jianzhong Zhang (Nankai University, China; Tianjin Key Laboratory of Network and Data Security Technology, China), and Jingdong Xu (Nankai University, China; Tianjin Key Laboratory of Network and Data Security Technology, China)</i>	
TrustMod: A Trust Management Module For NS-3 Simulator .....	51
<i>Muhammad Shadi Hajar (Robert Gordon University, United Kingdom), Harsha Kalutarage (Robert Gordon University, United Kingdom), and M. Omar Al-Kadri (Birmingham City University, United Kingdom)</i>	
Adaptive Clustering Ensemble Method Based on Uncertain Entropy Decision-Making .....	61
<i>Xiaomin Zhu (National University of Defense Technology, China), Bowen Fei (National University of Defense Technology, China), Daqian Liu (National University of Defense Technology, China), and Weidong Bao (National University of Defense Technology, China)</i>	
Formal Verification of HPS-Based Master-Slave Scheme in MEC with Timed Automata .....	68
<i>Jiaqi Yin (East China Normal University, China), Huibiao Zhu (East China Normal University, China), and Yuan Fei (East China Normal University, China)</i>	
Protecting the Ownership of Deep Learning Models with An End-to-End Watermarking Framework...	76
<i>Wei Zhang (Harbin Institute of Technology, China), Wenxue Cui (Harbin Institute of Technology, China), Feng Jiang (Harbin Institute of Technology, China), Chifu Yang (Harbin Institute of Technology, China), and Ran Li (Harbin Institute of Technology, China)</i>	

Old Habits Die Hard: A Sober Look at TLS Client Certificates in the Real World .....	83
<i>Wei Xia (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Wei Wang (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), Xin He (National Computer Network Emergency Response Technical Team/Coordination Center of China, Beijing, China), Gang Xiong (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), Gaopeng Gou (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), Zhenzhen Li (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), and Zhen Li (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China)</i>	
RoBin: Facilitating the Reproduction of Configuration-Related Vulnerability .....	91
<i>Ligeng Chen (Nanjing University, China), Jian Guo (Nanjing University, China), Zhongling He (Nanjing University, China), Dongliang Mu (Huazhong University of Science and Technology, China), and Bing Mao (Nanjing University, China)</i>	
Universal Website Fingerprinting Defense Based on Adversarial Examples .....	99
<i>Chengshang Hou (Institute of Information Engineering, Chinese Academy of Sciences), Junzheng Shi (University of Chinese Academy of Sciences, China), Mingxin Cui (University of Chinese Academy of Sciences, China), Mengyan Liu (University of Chinese Academy of Sciences, China), and Jing Yu (University of Chinese Academy of Sciences, China)</i>	
Rando: A General-Purpose True Random Number Generator for Conventional Computers .....	107
<i>Ripon Patgiri (National Institute of Technology Silchar, India)</i>	
You Are (not) Who Your Peers Are: Identification of Potentially Excessive Permission Requests in Android Apps .....	114
<i>Prashanthi Mallojula (University of Kansas, USA), Javaria Ahmad (University of Kansas, USA), Fengjun Li (University of Kansas, USA), and Bo Luo (University of Kansas, USA)</i>	
Enhancing Trust-Based Medical Smartphone Networks via Blockchain-Based Traffic Sampling .....	122
<i>Wenjuan Li (Guangzhou University, The Hong Kong Polytechnic University, China), Weizhi Meng (Technical University of Denmark, Denmark), and Laurence T. Yang (St Francis Xavier University, Canada)</i>	
Anti-Occlusion and Scale Adaptive Target Tracking Algorithm Based on Kernel Correlation Filter .....	130
<i>Chuanyun Wang (Shenyang Aerospace University, China), Zhongrui Shi (Shenyang Aerospace University, China), Keyi Si (Shenyang Aerospace University, China), Yang Su (Shenyang Aerospace University, China), Zhaokui Li (Shenyang Aerospace University, China), and Ershen Wang (Shenyang Aerospace University, China)</i>	

## ST - Security Track

Secure Ranked Choice Online Voting System via Intel SGX and Blockchain .....	139
<i>Xuechao Yang (RMIT University, Australia), Xun Yi (RMIT University, Australia), and Andrei Kelarev (RMIT University, Australia)</i>	

MagikCube: Securing Cross-Domain Publish/Subscribe Systems with Enclave .....	147
<i>Shuran Wang (Shanghai Jiao Tong University, China), Dahan Pan (Shanghai Jiao Tong University, China), Runhan Feng (Shanghai Jiao Tong University, China), and Yuanyuan Zhang (Shanghai Jiao Tong University, China)</i>	
Security on SM2 and GOST Signatures Against Related Key Attacks .....	155
<i>Handong Cui (The University of Hong Kong, Hong Kong SAR), Xianrui Qin (The University of Hong Kong, Hong Kong SAR), Cailing Cai (The University of Hong Kong, Hong Kong SAR), and Tsz Hon Yuen (The University of Hong Kong, Hong Kong SAR)</i>	
Improved Machine Learning Assisted (Related-key) Differential Distinguishers For Lightweight Ciphers .....	164
<i>Gao Wang (East China Normal University, China), Gaoli Wang (East China Normal University, China; Chinese Academy of Sciences, China), and Yu He (East China Normal University, China)</i>	
Cryptanalysis of Deterministic and Probabilistic Multi-Copy PDP Schemes For Cloud Storage - Attacks and Countermeasures .....	172
<i>Bartosz Drzazga (Wrocław University of Science and Technology, Poland), Lukasz Krzywiecki (Wrocław University of Science and Technology, Poland), and Hannes Salin (Swedish Transport Administration, Sweden)</i>	
Remote Attestation of Large-Scale Virtual Machines in the Cloud Data Center .....	180
<i>Jie Cheng (Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Kun Zhang (Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and Bibo Tu (Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)</i>	
DeepTrace: A Secure Fingerprinting Framework for Intellectual Property Protection of Deep Neural Networks .....	188
<i>Runhao Wang (East China Normal University, China), Jiexiang Kang (China Aeronautical Radio Electronics Research Institute, China), Wei Yin (China Aeronautical Radio Electronics Research Institute, China), Hui Wang (China Aeronautical Radio Electronics Research Institute, China), Haiying Sun (East China Normal University, China), Xiaohong Chen (East China Normal University, China), Zhongjie Gao (China Aeronautical Radio Electronics Research Institute, China), Shuning Wang (China Aeronautical Radio Electronics Research Institute, China), and Jing Liu (East China Normal University, China)</i>	
Signature-Based Secure Trajectory Similarity Search .....	196
<i>Yiping Teng (Shenyang Aerospace University, China), Zhan Shi (Shenyang Aerospace University, China), Fanyou Zhao (Shenyang Aerospace University, China), Guohui Ding (Shenyang Aerospace University, China), Li Xu (Shenyang Aerospace University, China), and Chunlong Fan (Shenyang Aerospace University, China)</i>	

A Secure Deduplication Scheme Based on Data Popularity with Fully Random Tags .....	207
<i>Guanxiong Ha (Nankai University, China), Hang Chen (Nankai University, China), Chunfu Jia (Nankai University, China; Tianjin Key Laboratory of Network and Data Security Technology, China), Ruiqi Li (Nankai University, China), and Qiaowen Jia (Chinese Academy of Sciences, China)</i>	
SecPT : Providing Efficient Page Table Protection Based on SMAP Feature in an Untrusted Commodity Kernel .....	215
<i>Bingnan Zhong (Nanjing University, China) and Qingkai Zeng (Nanjing University, China)</i>	
The Design of Secure Coded Edge Computing for User-Edge Collaborative Computing .....	224
<i>Mingyue Cui (Soochow University), Jin Wang (Soochow University, City University of Hong Kong), Jingya Zhou (Soochow University), Kejie Lu (University of Puerto Rico at Mayaguez), and Jianping Wang (City University of Hong Kong)</i>	
A Revocable Zone Encryption Scheme with Anonymous Authentication for C-ITS .....	232
<i>Xiaohan Yue (Shenyang University of Technology, China), Shuaishuai Zeng (Shenyang University of Technology, China), Xibo Wang (Shenyang University of Technology, China), Lixin Yang (Shenyang University of Technology, China), Jian Xu (Northeastern University, China), Shi Bai (Shenyang University of Technology, China), and Yuan He (Shenyang University of Technology, China; Keio University, Yokohama, Japan)</i>	
LFETT2021: A Large-Scale Fine-Grained Encrypted Tunnel Traffic Dataset .....	240
<i>Zheyuan Gu (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Gaopeng Gou (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Chengshang Hou (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Gang Xiong (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), and Zhen Li (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China)</i>	
The Design and Implementation of Secure Distributed Image Classification Reasoning System for Heterogeneous Edge Computing .....	250
<i>Cong Cheng (Soochow University; Collaborative Innovation Center of Novel Software Technology and Industrialization), Lingzhi Li (Soochow University; Collaborative Innovation Center of Novel Software Technology and Industrialization), Jin Wang (Soochow University; Collaborative Innovation Center of Novel Software Technology and Industrialization), and Fei Gu (Soochow University; Collaborative Innovation Center of Novel Software Technology and Industrialization)</i>	

Secure Data Transmission with Access Control for Smart Home Devices .....	258
<i>Biwen Chen (Chongqing University, China; Key Laboratory of Aerospace Information Security and Trust Computing, China), Lei Yang (Chongqing University, China), Tao Xiang (Chongqing University, China), and Xiaoguo Li (Hong Kong Baptist University, China)</i>	
Secure Homomorphic Evaluation of Discrete Cosine Transform with High Precision .....	266
<i>Zhiwei Cai (Sun Yat-Sen University, China), Huicong Zeng (Sun Yat-Sen University, China), Peijia Zheng (Sun Yat-Sen University, China), Ziyang Cheng (Sun Yat-Sen University, China), Weiqi Luo (Sun Yat-Sen University, China), and Hongmei Liu (Sun Yat-Sen University, China)</i>	
Techniques for Securing 5G Network Services from Attacks .....	273
<i>Vijay Varadharajan (University of Newcastle, Australia), Uday Tupakula (University of Newcastle, Australia), and Kallol Krishna Karmakar (University of Newcastle, Australia)</i>	
Techniques for Securing Control Systems from Attacks .....	281
<i>Uday Tupakula (University of Newcastle, Australia), Vijay Varadharajan (University of Newcastle, Australia), and Kallol Krishna Karmakar (University of Newcastle, Australia)</i>	
Overcoming Security Limitations of Secret Share Techniques: the Nested Secret Share .....	289
<i>Antonino Galletta (University of Messina, Italy; University of Karlstad, Sweden), Javid Taheri (University of Karlstad, Sweden), Maria Fazio (University of Messina, Italy), Antonio Celesti (University of Messina, Italy), and Massimo Villari (University of Messina, Italy)</i>	
Enhancing Privacy Through DMMA: Decision-Making Method for Authentication .....	297
<i>Maksym Slavenko (Deakin University, Australia), Yevhen Zolotavkin (Deakin University, Australia), Jay Jeong (Deakin University, Australia), Veronika Kuchta (The University of Queensland, Australia), and Robin Doss (Deakin University, Australia)</i>	
Security Library for Safe Data Storage on Android Platform .....	309
<i>Aneta Poniszewska-Marañda (Lodz University of Technology, Poland), Łukasz Rogoziński (Lodz University of Technology, Poland), and Witold Marañda (Lodz University of Technology, Poland)</i>	
Robust AN-Aided Secure Beamforming for Full-Duplex Relay System with Multiple Eavesdroppers .....	317
<i>Jiaxing Cui (Wuhan University, China), Zhengmin Kong (Wuhan University, China), Jing Song (Wuhan University, China), Weijun Yin (Wuhan University, China), and Xianjun Deng (Huazhong University of Science and Technology, China)</i>	
Effective RFID Localization Based on Fuzzy Logic For Security .....	323
<i>Licai Zhu (Yancheng Normal University, Nanjing University of Technology, China), Hao Yang (Yancheng Normal University, University of Science and Technology of China, China), Shi Chen (Nanjing University of Technology, Yancheng Normal University, China), and Zhipeng Yu (Nanjing University of Technology, Yancheng Normal University, China)</i>	

White-Box Traceable Attribute-Based Encryption with Hidden Policies and Outsourced Decryption .....	331
<i>Dominik Ziegler (Know-Center GmbH, Austria), Alexander Marsalek (Graz University of Technology, Austria), and Gerald Palfinger (A-SIT, Austria)</i>	

## PT - Privacy Track

PCHEC: A Private Coded Computation Scheme For Heterogeneous Edge Computing .....	339
<i>Jiqing Chang (Soochow University), Jin Wang (Soochow University), Fei Gu (Soochow University), Kejie Lu (University of Puerto Rico at Mayaguez), Lingzhi Li (Soochow University), and Jianping Wang (City University of Hong Kong)</i>	
A Differential Privacy Collaborative Deep Learning Algorithm in Pervasive Edge Computing Environment .....	347
<i>Dayin Zhang (University of Chinese Academy of Sciences, China), Xiaojun Chen (Chinese Academy of Sciences, China), Jinqiao Shi (Beijing University of Posts and Telecommunications, China), Dakui Wang (Chinese Academy of Sciences, China), and Shuai Zeng (Chinese Academy of Sciences, China)</i>	
Sybil Attacks and Defense on Differential Privacy Based Federated Learning .....	355
<i>Yupeng Jiang (Macquarie University, Australia), Yong Li (Changchun University of Technology, China), Yipeng Zhou (Macquarie University, Australia), and Xi Zheng (Macquarie University, Australia)</i>	
Achieving Efficient and Privacy-Preserving Biometric Identification in Cloud Computing .....	363
<i>Chang Xu (Beijing Institute of Technology, China), Lvhan Zhang (Beijing Institute of Technology, China), Liehuang Zhu (Beijing Institute of Technology, China), Chuan Zhang (Beijing Institute of Technology, China), and Kashif Sharif (Beijing Institute of Technology, China)</i>	
Just Keep Your Concerns Private: Guaranteeing Heterogeneous Privacy and Achieving High Availability for ERM Algorithms .....	371
<i>Yuzhe Li (Chinese Academy of Sciences, China), Yong Liu (Renmin University of China, China; Beijing Key Laboratory of Big Data Management and Analysis Methods, China), Bo Li (Chinese Academy of Sciences, China), Weiping Wang (Chinese Academy of Sciences, China), and Nan Liu (Chinese Academy of Sciences, China)</i>	
Protecting Locations with Differential Privacy Against Location-Dependent Attacks in Continuous LBS Queries .....	379
<i>Ruxue Wen (Huazhong University of Science and Technology, China), Rui Zhang (Wuhan University of Technology, China), Kai Peng (Huazhong University of Science and Technology, China), and Chen Wang (Huazhong University of Science and Technology, China)</i>	
A Privacy-Enhanced Mobile Crowdsensing Strategy for Blockchain Empowered Internet of Medical Things .....	387
<i>Mengyao Peng (Fujian Normal University, China), Jia Hu (University of Exeter, UK), Hui Lin (Fujian Normal University, China), Xiaoding Wang (Fujian Normal University, China), and Wenzhong Lin (Minjiang University, China)</i>	

DP-gSpan: A Pattern Growth-based Differentially Private Frequent Subgraph Mining Algorithm...	397
<i>Jiangna Xing (Inner Mongolia University, China) and Xuebin Ma (Inner Mongolia University, China)</i>	
Differential Privacy Preservation in Adaptive K-Nets Clustering .....	405
<i>Xiaohong Liu (Guangxi Normal University, China), Hanbo Cai (Guangxi Normal University, China), De Li (Guangxi Normal University, China), Xianxian Li (Guangxi Normal University, China), and Jinyan Wang (Guangxi Normal University, China)</i>	
A Fine-Grained Privacy-Preserving Profile Matching Scheme in Mobile Social Networks .....	413
<i>Tao Peng (Guangzhou University, China), Wentao Zhong (Guangzhou University, China), Kejian Guan (Guangzhou University, China), Yipeng Zou (Guangzhou University, China), Jiawei Zhu (Guangzhou University, China), and Guojun Wang (Guangzhou University, China)</i>	
Dynamic Searchable Symmetric Encryption with Forward and Backward Privacy .....	420
<i>Yu Peng (Hunan University, P. R. China), Qin Liu (Hunan University, P. R. China), Yue Tian (Hunan University, P. R. China), Jie Wu (Temple University, USA), Tian Wang (Beijing Normal University &amp; UIC, P. R. China), Tao Peng (Guangzhou University, P. R. China), and Guojun Wang (Guangzhou University, P. R. China)</i>	
Adaptive Clipping Bound of Deep Learning with Differential Privacy .....	428
<i>Yuhang Hu (Guangxi Normal University, China), De Li (Guangxi Normal University, China), Zhou Tan (Guangxi Normal University, China), Xianxian Li (Guangxi Normal University, China), and Jinyan Wang (Guangxi Normal University, China)</i>	
Improving the Effect of Frequent Itemset Mining with Hadamard Response Under Local Differential Privacy .....	436
<i>Xuebin Ma (Inner Mongolia University, China), Haijiang Liu (Inner Mongolia University, China), and Shengyi Guan (Inner Mongolia University, China)</i>	
A Privacy-Preserving Location Recommendation Scheme Without Trustworthy Entity .....	444
<i>Changli Zhou (Huaqiao University, PR China; Fujian Province University, PR China), Jing Peng (Huaqiao University, PR China), Ying Ma (Fujian Province University, PR China), and Qingfeng Jiang (Changshu Institute of Technology, PR China)</i>	
An Aggregate Anonymous Credential Scheme in C-ITS for Multi-Service with Revocation .....	452
<i>Xiaohan Yue (Shenyang University of Technology, China), Lixin Yang (Shenyang University of Technology, China), Xibo Wang (Shenyang University of Technology, China), Shuaishuai Zeng (Shenyang University of Technology, China), Jian Xu (Northeastern University, China), Shi Bai (Shenyang University of Technology, China), and Yuan He (Shenyang University of Technology, China; Keio University, Japan)</i>	
A Privacy-Preserving Framework for Smart Contracts Based on Stochastic Model Checking .....	460
<i>Tingting Bao (Nanjing University of Finance and Economics, China) and Yang Liu (Nanjing University of Finance and Economics, China)</i>	
Towards Protecting Sensitive Text with Differential Privacy .....	468
<i>Sam Fletcher (Kira Systems, Canada), Adam Roegiest (Kira Systems, Canada), and Alexander K. Hudek (Kira Systems, Canada)</i>	

Answering Why-not Questions on Top-k Queries with Privacy Protection .....	476
<i>Yiping Teng (Shenyang Aerospace University, China), Weiyu Zhao (Shenyang Aerospace University, China), Chuanyu Zong (Shenyang Aerospace University, China), Li Xu (Shenyang Aerospace University, China), Chunlong Fan (Shenyang Aerospace University, China), and Huan Wang (Shenyang Aerospace University, China)</i>	
Privacy-Preserving Hough Transform and Line Detection on Encrypted Cloud Images .....	486
<i>Delin Chen (Sun Yat-Sen University, China), Peijia Zheng (Sun Yat-Sen University, State Key Laboratory of Information Security, China), Ziyang Chen (Sun Yat-Sen University, China), Ruopan Lai (Sun Yat-Sen University, China), Weiqi Luo (Sun Yat-Sen University, China), and Hongmei Liu (Sun Yat-Sen University, China)</i>	
Privacy-Preserving Biometric Matching Using Homomorphic Encryption .....	494
<i>Gaetan Pradel (Royal Holloway University of London, Great Britain) and Chris Mitchell (Royal Holloway University of London, Great Britain)</i>	
Privacy-Preserving eID Derivation to Self-Sovereign Identity Systems with Offline Revocation .....	506
<i>Andreas Abraham (Graz University of Technology, Austria), Karl Koch (Graz University of Technology, Austria), Stefan More (Graz University of Technology, Austria), Sebastian Ramacher (AIT Austrian Institute of Technology, Austria), and Miha Stopar (XLAB d.o.o., Slovenia)</i>	

## **FAT - Forensics and Analytics Track**

Effective Deep Learning-Based Side-Channel Analyses Against ASCAD .....	514
<i>Junkai Liu (Beijing University of Posts and Telecommunications, China), Shihui Zheng (Beijing University of Posts and Telecommunications, China), and Lize Gu (Beijing University of Posts and Telecommunications, China)</i>	
Too Expensive to Attack: Enlarge the Attack Expense through Joint Defense at the Edge .....	524
<i>Jianhua Li (Deakin University, Australia), Ximeng Liu (Fuzhou University, China), Jiong Jin (Swinburne University of Technology, Australia), and Shui Yu (University of Technology Sydney, Australia)</i>	
ML-Stealer: Stealing Prediction Functionality of Machine Learning Models with Mere Black-Box Access .....	532
<i>Gaoyang Liu (Huazhong University of Science and Technology, China), Shijie Wang (Huazhong University of Science and Technology, China), Borui Wan (Huazhong University of Science and Technology, China), Zekun Wang (Huazhong University of Science and Technology, China), and Chen Wang (Huazhong University of Science and Technology, China)</i>	
Malware Classification by Learning Semantic and Structural Features of Control Flow Graphs.....	540
<i>Bolun Wu (Shanghai Jiao Tong University, China), Yuanhang Xu (Shanghai Jiao Tong University, China), and Futai Zou (Shanghai Jiao Tong University, China)</i>	

Automated Detection of Malware Activities Using Nonnegative Matrix Factorization .....	548
<i>Chansu Han (National Institute of Information and Communications Technology, Japan; Kyushu University, Japan), Jun'ichi Takeuchi (Kyushu University, Japan), Takeshi Takahashi (National Institute of Information and Communications Technology, Japan), and Daisuke Inoue (National Institute of Information and Communications Technology, Japan)</i>	
A Fast-Detection and Fault-Correction Algorithm Against Persistent Fault Attack .....	557
<i>Yukun Cheng (University of Science and Technology of China, China), Mengce Zheng (University of Science and Technology of China, China), Fan Huang (University of Science and Technology of China, China), Jiajia Zhang (University of Science and Technology of China, China), Honggang Hu (University of Science and Technology of China, China), and Nenghai Yu (University of Science and Technology of China, China)</i>	
Multi-Level Directed Fuzzing for Detecting Use-After-Free Vulnerabilities .....	569
<i>Yuntao Zhang (Beijing University of Posts and Telecommunications, China), Zhongru Wang (Chinese Academy of Cyberspace Studies, China), Weiqiang Yu (Beijing DigApis Technology Co., Ltd, China), and Binxing Fang (Beijing University of Posts and Telecommunications, China)</i>	
DePL: Detecting Privacy Leakage in DNS-over-HTTPS Traffic .....	577
<i>Futai Zou (Shanghai Jiao Tong University, China), Dechao Meng (Shanghai Jiao Tong University, China), Wentao Gao (Shanghai Jiao Tong University, China), and Linsen Li (Shanghai Jiao Tong University, China)</i>	
Analyzing Interoperability and Portability Concepts for Self-Sovereign Identity .....	587
<i>Andreas Grüner (University of Potsdam, Germany), Alexander Mühle (University of Potsdam, Germany), and Christoph Meinel (University of Potsdam, Germany)</i>	
DeepVuler: A Vulnerability Intelligence Mining System for Open-Source Communities .....	598
<i>Susheng Wu (Sichuan University, China), Bin Chen (Sichuan University, China), MingXu Sun (Sichuan University, China), Renyu Duan (Sichuan University, China), Qixiang Zhang (Sichuan University, China), and Cheng Huang (Sichuan University, China)</i>	
Malicious Packages Lurking in User-Friendly Python Package Index .....	606
<i>Genpei Liang (Sichuan University, China), Xiangyu Zhou (Sichuan University, China), Qingyu Wang (Sichuan University, China), Yutong Du (Sichuan University, China), and Cheng Huang (Sichuan University, China)</i>	
A Semi-Supervised Deep Learning-Based Solver for Breaking Text-Based CAPTCHAs .....	614
<i>Xianwen Deng (Shanghai Jiao Tong University, China), Ruijie Zhao (Shanghai Jiao Tong University, China), Zhi Xue (Shanghai Jiao Tong University, China), Ming Liu (Shanghai Jiao Tong University, China), Libo Chen (Shanghai Jiao Tong University, China), and Yijun Wang (Shanghai Jiao Tong University, China)</i>	

Robust Backdoor Attacks Against Deep Neural Networks in Real Physical World .....	620
<i>Mingfu Xue (Nanjing University of Aeronautics and Astronautics, China), Can He (Nanjing University of Aeronautics and Astronautics, China), Shichang Sun (Nanjing University of Aeronautics and Astronautics, China), Jian Wang (Nanjing University of Aeronautics and Astronautics, China), and Weiqiang Liu (Nanjing University of Aeronautics and Astronautics, China)</i>	
MALUP: A Malware Classification Framework using Convolutional Neural Network with Deep Unsupervised Pre-Training .....	627
<i>Qian Qiang (University of Chinese Academy of Sciences, China; China National Computer Network Emergency Response Technical Team, China), Mian Cheng (China National Computer Network Emergency Response Technical Team, China), Yuan Zhou (University of Chinese Academy of Sciences, China; China National Computer Network Emergency Response Technical Team, China), Yu Ding (University of Chinese Academy of Sciences, China), and Zisen Qi (University of Chinese Academy of Sciences, China)</i>	
FLDDoS: DDoS Attack Detection Model Based on Federated Learning .....	635
<i>Jiachao Zhang (Nankai University, China; Tianjin Key Laboratory of Network and Data Security Technology, China), Peiran Yu (Nankai University, China; Tianjin Key Laboratory of Network and Data Security Technology, China), Le Qi (Shijiazhuang Huayan Traffic Technology Co., Ltd., China), Song Liu (Nankai University, China; Tianjin Key Laboratory of Network and Data Security Technology, China), Haiyu Zhang (Nankai University, China; Tianjin Key Laboratory of Network and Data Security Technology, China), and Jianzhong Zhang (Nankai University, China; Tianjin Key Laboratory of Network and Data Security Technology, China)</i>	
Log-Based Anomaly Detection from Multi-view by Associating Anomaly Scores with User Trust ..	643
<i>Lin Wang (Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Kun Zhang (Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Chen Li (Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and Bibo Tu (Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)</i>	
AndroCreme: Unseen Android Malware Detection Based on Inductive Conformal Learning .....	651
<i>Gang Zhang (University of Jinan, China), Hao Li (University of Jinan, China), Zhenxiang Chen (University of Jinan, Shandong University, China), Lizhi Peng (University of Jinan, China), Yuhui Zhu (University of Jinan, China), and Chuan Zhao (University of Jinan, China)</i>	
A Novel Android Malware Detection Method Based on Visible User Interface .....	659
<i>Shuaishuai Tan (Peng Cheng Laboratory, China), Zhiyi Tian (University of Technology Sydney, Australia), Xiaoxiong Zhong (Peng Cheng Laboratory, China), Shui Yu (University of Technology Sydney, Australia), Weizhe Zhang (Peng Cheng Laboratory, China), and Guozhong Dong (Peng Cheng Laboratory, China)</i>	

EnvFaker: A Method to Reinforce Linux Sandbox Based on Tracer, Filter and Emulator Against Environmental-Sensitive Malware .....	667
<i>Chenglin Xie (Peking University, China), Yujie Guo (Peking University, China), Shaosen Shi (Peking University, China), Yu Sheng (Peking University, China), Xiarun Chen (Peking University, China), Chengyang Li (Peking University, China), and Weiping Wen (Peking University, China)</i>	
TS-SVM: Detect LDoS Attack in SDN Based on Two-Step Self-Adjusting SVM .....	678
<i>Boru Liu (Hunan University, China), Dan Tang (Hunan University, China), Yudong Yan (Hunan University, China), Zhiqing Zheng (Hunan University, China), Shihan Zhang (Hunan University, China), and Jiangmeng Zhou (Central South University, China)</i>	
Sensing Error Handling Bugs in SSL Library Usages .....	686
<i>Chi Li (Tsinghua University, China), Min Zhou (Tsinghua University, China), Xinrong Han (Tsinghua University, China), and Ming Gu (Tsinghua University, China)</i>	
DeepTaskAPT: Insider APT Detection Using Task-Tree Based Deep Learning .....	693
<i>Mohammad Mamun (National Research Council Canada, Canada) and Kevin Shi (National Research Council Canada, Canada)</i>	
Git Leaks: Boosting Detection Effectiveness Through Endpoint Visibility .....	701
<i>Carlo Farinella (University of Liverpool, United Kingdom), Ali Ahmed (Victoria University of Wellington, New Zealand), and Craig Watterson (Victoria University of Wellington, New Zealand)</i>	
A Digital Forensics Investigation of a Smart Scale IoT Ecosystem .....	710
<i>George Grispos (University of Nebraska–Omaha, USA), Frank Tursi (University of Nebraska–Omaha, USA), Kim-Kwang Raymond Choo (University of Texas at San Antonio, USA), William Mahoney (University of Nebraska–Omaha, USA), and William Bradley Glisson (Sam Houston State University, USA)</i>	
Anomaly Detection for Scenario-Based Insider Activities Using CGAN Augmented Data .....	718
<i>R G Gayathri (Deakin University, Australia), Atul Sajjanhar (Deakin University, Australia), Yong Xiang (Deakin University, Australia), and Xingjun Ma (Deakin University, Australia)</i>	
MAAC: Novel Alert Correlation Method To Detect Multi-Step Attack .....	726
<i>Xiaoyu Wang (School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China; Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), Xiaorui Gong (School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China; Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), Lei Yu (School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China; Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China), and Jian Liu (School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China; Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China)</i>	

PGAN:A Generative Adversarial Network Based Anomaly Detection Method for Network Intrusion Detection System .....	734
<i>Zeyi Li (Nanjing University of Posts &amp; Telecommunications, China), Yun Wang (Nanjing University of Posts &amp; Telecommunications, China), Pan Wang (Nanjing University of Posts &amp; Telecommunications, China), and Haorui Su (Xi'an jiaotong-Liverpool University, China)</i>	
LP-UIT: A Multimodal Framework for Link Prediction in Social Networks .....	742
<i>Huizi Wu (Shanghai University of Finance and Economics, China), Shiyi Wang (Shanghai University of Finance and Economics, China), and Hui Fang (Shanghai University of Finance and Economics, China)</i>	
Cost-Sensitive Heterogeneous Integration for Credit Card Fraud Detection .....	750
<i>Yuhua Ling (GNXU, China), Ran Zhang (Deakin University, Australia), Mingcan Cen (GNXU, China), Xunao Wang (Bevercapital and BCU world Pty Ltd), and M. Jiang (GNXU, China)</i>	
Depression Detection Using Asynchronous Federated Optimization .....	758
<i>Jinli Li (GNXU, China), Ran Zhang (Deakin University, Australia), Mingcan Cen (GNXU, China), Xunao Wang (Bevercapital and BCU world Pty Ltd), and M. Jiang (GNXU, China)</i>	
Attack Versus Attack: Toward Adversarial Example Defend Website Fingerprinting Attack .....	766
<i>Chengshang Hou (Institute of Information Engineering, Chinese Academy of Sciences), Junzheng Shi (University of Chinese Academy of Sciences, China), Mingxin Cui (University of Chinese Academy of Sciences, China), and Qingya Yang (University of Chinese Academy of Sciences, China)</i>	
VulChecker: Achieving More Effective Taint Analysis by Identifying Sanitizers Automatically .....	774
<i>Xiarun Chen (Peking University, China), Qien Li (Digital Star Technology Co., China), Zhou Yang (Peking University, China), Yongzhi Liu (Peking University, China), Shaosen Shi (Peking University, China), Chenglin Xie (Peking University, China), and Weiping Wen (Peking University, China)</i>	
Peek Inside the Encrypted World: Autoencoder-Based Detection of DoH Resolvers .....	783
<i>Jiating Wu (Chinese Academy of Sciences; University of Chinese Academy of Sciences; National Engineering Laboratory for Information Security Technologies), Yujia Zhu (Chinese Academy of Sciences; University of Chinese Academy of Sciences; National Engineering Laboratory for Information Security Technologies), Baiyang Li (Chinese Academy of Sciences; University of Chinese Academy of Sciences; National Engineering Laboratory for Information Security Technologies), Qingyun Liu (Chinese Academy of Sciences; University of Chinese Academy of Sciences; National Engineering Laboratory for Information Security Technologies), and Binxing Fang (Institute of Electronic and Information Engineering of UESTC)</i>	

Towards Strengthening Deep Learning-Based Side Channel Attacks with Mixup .....	791
<i>Zhimin Luo (University of Science and Technology of China, China), Mengce Zheng (University of Science and Technology of China, China), Ping Wang (University of Science and Technology of China, China), Minhui Jin (University of Science and Technology of China, China), Jiajia Zhang (University of Science and Technology of China, China), and Honggang Hu (University of Science and Technology of China, China)</i>	
DroidRadar: Android Malware Detection Based on Global Sensitive Graph Embedding .....	802
<i>Qige Song (Chinese Academy of Sciences, University of Chinese Academy of Sciences, China), Yongzheng Zhang (Chinese Academy of Sciences, University of Chinese Academy of Sciences, China), and Junliang Yao (Chinese Academy of Sciences, University of Chinese Academy of Sciences, China)</i>	
MazeRunner: Evaluating the Attack Surface of Control-Flow Integrity Policies .....	810
<i>Dongrui Zeng (Pennsylvania State University, USA), Ben Niu (Microsoft, USA), and Gang Tan (Pennsylvania State University, USA)</i>	
ReLF: Scalable Remote Live Forensics for Android .....	822
<i>Ruipeng Zhang (University of Tennessee at Chattanooga, USA), Mengjun Xie (University of Tennessee at Chattanooga, USA), and Jiang Bian (University of Florida, USA)</i>	
Frequency Domain Fusion Algorithm of Infrared and Visible Image Based on Compressed Sensing for Video Surveillance Forensics .....	832
<i>Chuanyun Wang (Shenyang Aerospace University, China), Guowei Yang (Shenyang Aerospace University, China), Dongdong Sun (Shenyang Aerospace University, China), Jiankai Zuo (Tongji University, China), Ershen Wang (Shenyang Aerospace University, China), and Linlin Wang (Shenyang Aerospace University, China)</i>	
Virtual Static Security Analyzer for Web Applications .....	840
<i>Mihail Brinza (Universidade de Lisboa, Portugal), Miguel Correia (Universidade de Lisboa, Portugal), and João Pereira (Universidade de Lisboa, Portugal)</i>	
Social Spammer Detection Based on Semi-Supervised Learning .....	849
<i>Xulong Zhang (Wuhan University of Technology, China), Frank Jiang (University of Technology Sydney, Australia), Ran Zhang (Deakin University, Australia), Shupeng Li (Guangxi Normal University, China), and Yang Zhou (Guangxi Normal University, China)</i>	
FIDS: Detecting DDoS Through Federated Learning Based Method .....	856
<i>Jingyi Li (Beijing Jiaotong University, China), Zikai Zhang (Beijing Jiaotong University, China), Yidong Li (Beijing Jiaotong University, China), Xinyue Guo (Beijing Jiaotong University, China), and Huifang Li (Beijing Jiaotong University, China)</i>	
Gray Adversarial Attack Algorithm Based on Multi-Scale Grid Search .....	863
<i>Chunlong Fan (Northeastern University, China), Jici Zhang (Shenyang Aerospace University, China), Cailong Li (Shenyang Aerospace University, China), Zhenxin Zhang (Shenyang Aerospace University, China), Yiping Teng (Shenyang Aerospace University, China), and Jianzhong Qiao (Northeastern University, China)</i>	

An Interactive System for Unfair Rating Detection Models in a Customized Perspective .....	871
<i>Ke Lv (Northeastern University, China), Yuan Liu (Northeastern University, China), Jienan Chen (Northeastern University, China), Dongxia Wang (Zhejiang University, China), and Zhihong Tian (Guangzhou University, China)</i>	
PDAAA: Progressive Defense Against Adversarial Attacks for Deep Learning-as-a-Service in Internet of Things .....	879
<i>Ling Wang (Harbin Insititute of Technology), Cheng Zhang (Harbin Insititute of Technology), Zejian Luo (Harbin Insititute of Technology), Chenguang Liu (University of Texas at Austin), Jie Liu (Harbin Institute of Technology), and Xi Zheng (Macquarie University)</i>	
A Deep Learning-Based Penetration Testing Framework for Vulnerability Identification in Internet of Things Environments .....	887
<i>Nickolaos Koroniotis (Cyber Security Cooperative Research Centre, Australia; University of New South Wales at ADFA, Australia), Nour Moustafa (Cyber Security Cooperative Research Centre, Australia; University of New South Wales at ADFA, Australia), Benjamin Turnbull (Cyber Security Cooperative Research Centre, Australia; University of New South Wales at ADFA, Australia), Francesco Schiliro (Cyber Security Cooperative Research Centre, Australia; Australian Federal Police, Australia), Praveen Gauravaram (Cyber Security Cooperative Research Centre, Australia; Tata Consultancy Services Ltd., Australia), and Helge Janicke (Cyber Security Cooperative Research Centre, Australia)</i>	

## **ETT - Emerging Tech Track**

Robust Sensor Fusion Algorithms Against Voice Command Attacks in Autonomous Vehicles .....	895
<i>Jiwei Guan (Macquarie University, Australia), Xi Zheng (Macquarie University, Australia), Chen Wang (CSIRO Data61, Australia), Yipeng Zhou (Macquarie University, Australia), and Alireza Jolfaei (Macquarie University, Australia)</i>	
Quantum Ciphertext Dimension Reduction Scheme for Homomorphic Encrypted Data .....	903
<i>Changqing Gong (Shenyang Aerospace University, China), Zhaoyang Dong (Shenyang Aerospace University, China), Abdullah Gani (University of Malaya, Malaysia), and Han Qi (Shenyang Aerospace University, China)</i>	
ESS: An Efficient Storage Scheme for Improving the Scalability of Bitcoin System .....	911
<i>Xiaoqing Wang (Zhejiang University of Technology, China), Chunping Wang (Zhejiang University of Technology, China), Kun Zhou (Zhejiang University of Technology, China), and Hongbing Cheng (Zhejiang University of Technology, China)</i>	
Complementary Context-Enhanced Concept Lattice Aware Personalized Recommendation .....	919
<i>Wenqing Huang (Shaanxi Normal University, China), Fei Hao (Shaanxi Normal University, China; University of Exeter, U.K.), Guangyao Pang (Shaanxi Normal University, China), and Yifei Sun (Shaanxi Normal University, China)</i>	

BERTDeep-Ware: A Cross-Architecture Malware Detection Solution for IoT Systems .....	927
<i>Salma Abdalla Hamad (Macquarie University, Australia), Dai Hoang Tran (Macquarie University, Australia), Quan Z. Sheng (Macquarie University, Australia), and Wei Emma Zhang (University of Adelaide, Australia)</i>	
A Blockchain Scheme Based on DAG Structure Security Solution for IIoT .....	935
<i>Pengjie Zeng (Hunan University of Science and Technology, China), Xiaoliang Wang (Hunan University of Science and Technology, China), Liangzuo Dong (Hunan University of Science and Technology, China), Xinhui She (Hunan University of Science and Technology, China), and Frank Jiang (Deakin University, Australia)</i>	
Automatically Derived Stateful Network Functions Including non-Field Attributes .....	944
<i>Bin Yuan (Huazhong University of Science and Technology, China; National Engineering Research Center for Big Data Technology and System; Services Computing Technology and System Lab; Hubei Engineering Research Center on Big Data Security; Huazhong University of Science and Technology, China), Shengyao Sun (Huazhong University of Science and Technology, China; National Engineering Research Center for Big Data Technology and System; Services Computing Technology and System Lab; Hubei Engineering Research Center on Big Data Security), Xianjun Deng (Huazhong University of Science and Technology, China), Deqing Zou (Huazhong University of Science and Technology, China; National Engineering Research Center for Big Data Technology and System; Services Computing Technology and System Lab; Hubei Engineering Research Center on Big Data Security), Haoyu Chen (Huazhong University of Science and Technology, China; National Engineering Research Center for Big Data Technology and System; Services Computing Technology and System Lab; Cluster and Grid Computing Lab), Shenghui Li (Huazhong University of Science and Technology, China), and Hai Jin (Huazhong University of Science and Technology, China; National Engineering Research Center for Big Data Technology and System; Services Computing Technology and System Lab; Cluster and Grid Computing Lab)</i>	
Phishing Web Page Detection with HTML-Level Graph Neural Network .....	952
<i>Linshu Ouyang (Chinese Academy of Sciences, China) and Yongzheng Zhang (University of Chinese Academy of Sciences, China)</i>	
A Feature-Flux Traffic Camouflage Method Based on Twin Gaussian Process .....	959
<i>Changbo Tian (Chinese Academy of Science, China; University of Chinese Academy of Sciences, China), Yongzheng Zhang (Chinese Academy of Science, China; University of Chinese Academy of Sciences, China), and Tao Yin (Chinese Academy of Science, China; University of Chinese Academy of Sciences, China)</i>	
A HEVC Video Steganography Algorithm Based on DCT/DST Coefficients with Improved VRCNN ...	967
<i>Aijun Zhou (Shanghai Jiao Tong University, China), Xinghao Jiang (Shanghai Jiao Tong University, China), Zhaohong Li (Beijing Jiao Tong University, China), and Zhenzhen Zhang (Beijing Institute of Graphic Communication, China)</i>	

MEChain: A Multi-Layer Blockchain Structure with Hierarchical Consensus for Secure EHR System .....	976
<i>Huan Yu Wu (China Construction Bank, China), Lun Jie Li (China), Hye-Young Paik (UNSW Sydney, Australia), and Salil S. Kanhere (UNSW Sydney, Australia)</i>	
Multi-Label Positive and Unlabeled Learning and its Application to Common Vulnerabilities and Exposure Categorization .....	988
<i>Masaki Aota (Waseda University, Japan), Tao Ban (National Institute of Information and Communications Technology, Japan), Takeshi Takahashi (National Institute of Information and Communications Technology, Japan), and Noboru Murata (Waseda University, Japan)</i>	
How to Increase Smart Home Security and Privacy Risk Perception .....	997
<i>Reyhan Duezguen (Karlsruhe Institute of Technology, Germany), Peter Mayer (Karlsruhe Institute of Technology, Germany), Benjamin Berens (Karlsruhe Institute of Technology, Germany), Christopher Beckmann (Karlsruhe Institute of Technology, Germany), Lukas Aldag (Karlsruhe Institute of Technology, Germany), Mattia Mossano (Karlsruhe Institute of Technology, Germany), Melanie Volkamer (Karlsruhe Institute of Technology, Germany), and Thorsten Strufe (Karlsruhe Institute of Technology, Germany)</i>	
An Adaptive Multi-Pairwise Ranking with Implicit Feedback for Recommendation .....	1005
<i>Jianfang Wang (Henan Polytechnic University, China), Zhiqiang Wu (Henan Polytechnic University, China), Guang Chen (Henan Polytechnic University, China), Detao Liu (Henan Polytechnic University, China), and Qiuling Zhang (Henan Polytechnic University, China)</i>	
Multi-UAV Cooperative Obstacle Avoidance and Surveillance in Intelligent Transportation .....	1013
<i>Daqian Liu (National University of Defense Technology, China), Weidong Bao (National University of Defense Technology, China), Bowen Fei (National University of Defense Technology, China), Xiaomin Zhu (National University of Defense Technology, China), Zhenliang Xiao (National University of Defense Technology, China), and Tong Men (National University of Defense Technology, China)</i>	
Another Look at the Connection Between CAN Signal Ringing & In-Vehicle ECU Identification ..	1021
<i>Yucheng Liu (East China Normal University, China), Hao Wu (CNCERT/CC, China), and Xiangxue Li (East China Normal University, China; Shanghai Key Laboratory of Trustworthy Computing, China; Westone Cryptologic Research Center, China)</i>	
A Novel Security Framework for Edge Computing Based UAV Delivery System .....	1031
<i>Aiting Yao (Anhui University, Hefei, China), Frank Jiang (Deakin University, Australia), Xuejun Li (Anhui University, Hefei, China), Chengzu Dong (Deakin University, Australia), Jia Xu (Anhui University, Hefei, China), Yi Xu (Anhui University, China), Gang Li (Deakin University, Australia), and Xiao Liu (Deakin University, Australia)</i>	
LVRT: Low Variances of Solo Mining Reward & Inter-Block Time in Collaborative PoW .....	1039
<i>Jiangfeng Ma (East China Normal University, China), Xiangxue Li (East China Normal University, China; Shanghai Key Laboratory of Trustworthy Computing, China; Westone Cryptologic Research Center, China), and Haifeng Qian (East China Normal University, China)</i>	

Reinforcement-Learning-Based IDS for 6LoWPAN .....	1049
<i>Aryan Mohammadi Pasikhani (The University of Sheffield, UK), John A. Clark (The University of Sheffield, UK), and Prosanta Gope (The University of Sheffield, UK)</i>	
Accepted Influence Maximization Under Linear Threshold Model on Large-Scale Social Networks .....	1061
<i>Xiaojuan Yang (Chongqing University, China), Jiaying Shang (Chongqing University, China), Linjiang Zheng (Chongqing University, China), Dajiang Liu (Chongqing University, China), Shu Fu (Chongqing University, China), and Baohua Qiang (Guilin University of Electronic Technology, China)</i>	
Towards Multi-Source Extension: A Multi-Classification Method Based on Sampled NetFlow Records .....	1069
<i>Peipei Fu (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Qingya Yang (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Yangyang Guan (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Bingxu Wang (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Gaopeng Gou (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Zhen Li (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), Gang Xiong (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China), and Zhenzhen Li (Institute of Information Engineering, Chinese Academy of Sciences, Beijing, China; School of Cyber Security, University of Chinese Academy of Sciences, Beijing, China)</i>	
BSA: Enabling Biometric-Based Storage and Authorization on Blockchain .....	1077
<i>Jie Ma (University of Chinese Academy of Sciences, China; Chinese Academy of Sciences, China), Bin Qi (University of Chinese Academy of Sciences, China; Chinese Academy of Sciences, China), and Kewei Lv (University of Chinese Academy of Sciences, China; Chinese Academy of Sciences, China)</i>	
QuickLogS: A Quick Log Parsing Algorithm Based on Template Similarity* .....	1085
<i>Luyue Fang (Changchun University of Science and Technology, China), Xiaoqiang Di (Changchun University of Science and Technology, China), Xu Liu (Changchun University of Science and Technology, China), Yiping Qin (Changchun University of Science and Technology, China), Weiwu Ren (Changchun University of Science and Technology, China), and Qiang Ding (Changchun University of Science and Technology, China)</i>	

Energy Efficient Merkle Trees for Blockchains .....	1093
<i>Cesar Castellon (University of North Florida, USA), Swapnoneel Roy (University of North Florida, USA), Patrick Kreidl (University of North Florida, USA), Ayan Dutta (University of North Florida, USA), and Ladislau Boloni (University of Central Florida, USA)</i>	
BinDeep: Binary to Source Code Matching Using Deep Learning .....	1100
<i>Saed Alrabae (United Arab Emirates University, UAE), Kim-Kwang Raymond Choo (University of Texas at San Antonio, USA), Mohammad Qbea'h (United Arab Emirates University, UAE), and Mahmoud Khasawneh (Al Ain University, UAE)</i>	
Efficient k Nearest Neighbor Query Processing on Public Transportation Network .....	1108
<i>Jiajia Li (Shenyang Aerospace University, China), Lingyun Zhang (Shenyang Aerospace University, China), Cancan Ni (Shenyang Aerospace University, China), Yunzhe An (Shenyang Aerospace University, China), Chuanyu Zong (Shenyang Aerospace University, China), and Anzhen Zhang (Shenyang Aerospace University, China)</i>	
Hop-by-hop Accounting and Rewards for Packet dISpAtching .....	1116
<i>Caciano Machado (Federal University of Santa Catarina, Brazil), Renan R. S. dos Santos (Federal University of Santa Catarina, Brazil), and Carla Merkle Westphall (Federal University of Santa Catarina, Brazil)</i>	
Dynamic Edge Association in Hierarchical Federated Learning Networks .....	1124
<i>Wei Yang Bryan Lim (Alibaba-NTU JRI), Jer Shyuan Ng (Alibaba-NTU JRI), Zehui Xiong (Singapore University of Technology and Design), Sahil Garg (Universite du Quebec), Yang Zhang (Nanjing University of Aeronautics and Astronautics), Dusit Niyato (Nanyang Technological University, Singapore), and Chunyan Miao (Nanyang Technological University, Singapore)</i>	
Constant-Time Loading: Modifying CPU Pipeline to Defeat Cache Side-Channel Attacks .....	1132
<i>Yusi Feng (Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Ziyuan Zhu (Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Shuan Li (Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Ben Liu (Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Huozhu Wang (Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and Dan Meng (Chinese Academy of Sciences, China)</i>	
TradeChain: Decoupling Traceability and Identity in Blockchain Enabled Supply Chains .....	1141
<i>Sidra Malik (UNSW, Australia), Naman Gupta (IIT, Delhi), Volkan Dedeoglu (CSIRO, Australia), Salil S. Kanhere (UNSW, Australia), and Raja Jurdak (QUT, Australia)</i>	
Wait or Reset Gas Price?: A Machine Learning-Based Prediction Model for Ethereum Transactions' Waiting Time .....	1153
<i>Akshay M. Fajge (Indian Institute of Technology Patna, India), Subhasish Goswami (Tezpur University, India), Arpit Srivastava (Indian Institute of Information Technology Vadodara, India), and Raju Halder (Indian Institute of Technology Patna, India)</i>	

Policy Network Assisted Monte Carlo Tree Search for Intelligent Service Function Chain Deployment .....	1161
<i>Zhihan Fu (Chongqing University, China), Qilin Fan (Chongqing University, China), Xu Zhang (University of Exeter, China), Xiuhua Li (Chongqing University, China), Sen Wang (Chongqing University, China), and Yueyang Wang (Chongqing University, China)</i>	
Compressing the Bitcoin Blockchain Using Incremental Snapshots .....	1169
<i>Alexander Marsalek (Graz University of Technology, Austria) and Thomas Zefferer (ASIT Plus GmbH, Austria)</i>	

## **The 3rd International Workshop on Emerging Blockchain Technology Solutions for Real-world Applications (EBTSRA 2021)**

Select-Storage: A New Oracle Design Pattern on Blockchain .....	1177
<i>Zhipeng Gao (Beijing University of Posts and Telecommunications, China), Zijian Zhuang (Beijing University of Posts and Telecommunications, China), Yijing Lin (Beijing University of Posts and Telecommunications, China), Lanlan Rui (Beijing University of Posts and Telecommunications, China), Yang Yang (Beijing University of Posts and Telecommunications, China), Chen Zhao (Beijing University of Posts and Telecommunications, China), and Zijia Mo (Beijing University of Posts and Telecommunications, China)</i>	
A Deep Learning Model for Threat Hunting in Ethereum Blockchain .....	1185
<i>Elnaz Rabieinejad (K.N.Toosi University of Technology, Iran), Abbas Yazdinejad (University of Guelph, Canada), and Reza M. Parizi (Kennesaw State University, USA)</i>	
On Application of Blockchain to Enhance Single Sign-On (SSO) Systems .....	1191
<i>Swapnoneel Roy (University of North Florida, USA), Sam Matloob (University of North Florida, USA), and Debajyoti Mukhopadhyay (Bennett University, India)</i>	
EDKSAP : Efficient Double-Key Stealth Address Protocol in Blockchain .....	1196
<i>Cong Feng (Wuhan University, China; Shenzhen New Generation Information Technology Institute Co.), Liang Tan (Sichuan Normal University, China; Chinese Academy of Sciences, China), Huan Xiao (Sichuan Normal University, China), Xin Qi (Waseda University, Japan), Zheng Wen (Waseda University, Japan), and Yang Liu (Stony Brook University, USA; Shenzhen New Generation Information Technology Institute Co.)</i>	

## **The 4th International Workshop on Next Generation Data-driven Networks (NGDN 2021)**

Redactable Blockchain Based on Unforgeable Signatures for Supporting Fast Verification .....	1202
<i>Xiaocong Li (South China Normal University, China) and Changshe Ma (South China Normal University, China)</i>	
A Blind Watermarking System Based on Deep Learning Model .....	1208
<i>Lichao Zhang (Inossem Software Technology Co., Ltd, China), Wangbin Li (Inossem Software Technology Co., Ltd, China), and Hailiang Ye (Inossem Software Technology Co., Ltd, China)</i>	

Application of Bayesian Network Reasoning Algorithm in Emotion Classification .....	1214
<i>Zhiyi Mo (Wuzhou University, China), Yutong Xing (Wuzhou University, China), and Zizhen Peng (WuZhou Vocational College, China)</i>	
An Measurement Method of Oblique Wedge Rubbing Surface Abrasion Based on Point Cloud ....	1220
<i>HuanLong Liu (Southwest Jiaotong University, China), Bin Jiang (Southwest Jiaotong University, China), ZhengJie Wang (Southwest Jiaotong University, China), and HongYu Peng (TangShan College, China)</i>	
A Secured Real-Time IoMT Application for Monitoring Isolated COVID-19 Patients Using Edge Computing .....	1227
<i>Venki Balasubramanian (Federation University, Australia), Teena Arora (Federation University, Australia), Rehana Sulthana (Victoria Institute of Technology, Australia), Ram Srinivasan (Central Queensland University, Australia), Andrew Stranieri (Federation University, Australia), Mahalakshmi K (Kalaingar Karunanidhi Institute of Technology, India), Manoharan G (G. Kuppuswamy Naidu Memorial Hospital, India), and Varun G Menon (SCMS School of Engineering and Technology, India)</i>	
Simple Online Unmanned Aerial Vehicle Tracking with Transformer .....	1235
<i>Yang Liu (Zhejiang Key laboratory of General Aviation Operation Technology, China), Ershen Wang (Shenyang Aerospace University, China), Song Xu (Shenyang Aerospace University, China), Zhi Wang (Civil Aviation Management Institute of China, China), Meizhi Liu (Shenyang Aerospace University, China), and Wansen Shu (Shenyang Aerospace University, China)</i>	
Detection of Anomaly User Behaviors Based on Deep Neural Networks .....	1240
<i>Zhaoyun Ding (National University of Defense Technology, China), Lina Liu (Soochow University, China), Donghua Yu (Shaoxing University, China), Songping Huang (National University of Defense Technology, China), Hang Zhang (National University of Defense Technology, China), and Kai Liu (National University of Defense Technology, China)</i>	
Release of Trajectory Data Based on Space Segmentation Using Differential Privacy .....	1246
<i>Yongxin Zhao (Hebei University, China), Wanqing Wu (Hebei University, China), and Chaofan Di (Hebei University, China)</i>	
An Implementation and Optimization Method of RTLS Based on UWB for Underground Mine ...	1254
<i>Zerui Fang (University of Jinan, China), Shiyao Cui (University of Jinan, China), Qing Su (University of Jinan, China), and Suzhen Wang (University of Jinan, China)</i>	
Random Forest Algorithm Based on Differential Privacy Protection .....	1259
<i>Yaling Zhang (Xi'an University of Technology, China), Pengfei Feng (Xi'an University of Technology, China), and Yao Ning (Xi'an University of Technology, China)</i>	
An Axis Extracting Method for Rotational Parts Based on Point Cloud Normal Lines .....	1265
<i>Liu Huanlong (Southwest Jiaotong University, China), Wang Zhengjie (Southwest Jiaotong University, China), Chen Yao (Southwest Jiaotong University, China), and Peng Hongyu (Tangshan College, China)</i>	

Human Trajectory Prediction Using Stacked Temporal Convolutional Network .....	1270
<i>Yajie Wang (Shaanxi Xueqian Normal University, China), Jinli Ma (Shaanxi Normal University, China), Zhao Pei (Key Laboratory of Modern Teaching Technology, China; Shaanxi Normal University, China), and Jun Li (Nanjing Normal University, China)</i>	
Revisiting Anonymity and Privacy of Bitcoin .....	1275
<i>Tianyu Zhao (Griffith University, Australia) and Tao Zhang (Guilin University of Electronic Technology, China)</i>	
An Inertia Wheel Pendulum Control Method Based on Actor-Critic Learning Algorithm .....	1281
<i>Liu Huanlong (Southwest Jiaotong University, China), Wang Zhengjie (Southwest Jiaotong University, China), Jiang Bin (Southwest Jiaotong University, China), and Peng Hongyu (Tangshan College, China)</i>	
Decentralized Policy Information Points for Multi-Domain Environments .....	1286
<i>M Ridwanur Rahman (Monash University, Australia), Ahmad Salehi S. (Monash University, Australia), and Carsten Rudolph (Monash University, Australia)</i>	
Secure Development Strategy Model Framework for Security of Mobile Applications .....	1294
<i>Aneta Ponsiszewska-Marañda (Lodz University of Technology, Poland), Łukasz Chomatek (Lodz University of Technology, Poland), and Joanna Ochelska-Mierzejewska (Lodz University of Technology, Poland)</i>	
GEA-net: Global Embedded Attention Neural Network for Image Classification .....	1300
<i>Yajie Wang (Shaanxi Xueqian Normal University, China), Zhiyang Wan (Shaanxi Normal University, China), Zhao Pei (Key Laboratory of Modern Teaching Technology, China; Shaanxi Normal University, China), Chengcai Leng (Northwest University, China), and Yuli Chen (Key Laboratory of Modern Teaching Technology, China; Shaanxi Normal University, China)</i>	
Design of Lightweight Intelligent Vehicle System Based on Hybrid Depth Model .....	1306
<i>Zhuo Yan (Shenyang Aerospace University, China), Bin Lan (Shenyang Aerospace University, China), Shaohao Chen (Shenyang Aerospace University, China), Senyu Yu (Shenyang Aerospace University, China), Xingwei Wang (Shenyang Aerospace University, China), Zhuoqun Fang (Shenyang Aerospace University, China), Wei Chen (MassVision Technology Co., Ltd., China), Chuanyun Wang (Shenyang Aerospace University, China), and Xiangbin Shi (Shenyang Aerospace University, China)</i>	
Improved NS Cellular Automaton Model for Simulating Traffic Flows of Two-Lane .....	1312
<i>Zhuo Yan (Shenyang Aerospace University, China), Xingwei Wang (Shenyang Aerospace University, China), Bin Lan (Shenyang Aerospace University, China), Senyu Yu (Shenyang Aerospace University, China), Shaohao Chen (Shenyang Aerospace University, China), Zhuoqun Fang (Shenyang Aerospace University, China), Chuanyun Wang (Shenyang Aerospace University, China), Wei Chen (MassVision Technology Co., Ltd., China), and Xiangbin Shi (Shenyang Aerospace University, China)</i>	

## The 3rd International Workshop on AI-driven Network (AINet 2021)

A Filter Rank Based Pruning Method for Convolutional Neural Networks .....	1318
<i>Hao Liu (Beihang University, China), Zhenyu Guan (Beihang University, China), and Peng Lei (Beihang University, China)</i>	
A TDOA-Assisted Direct Position Determination for Efficient Geolocalization Using LEO Satellites .....	1323
<i>Qianyun Zhang (Beihang University, China), Shijie Li (Beihang University, China), Jiting Shi (Beihang University, China), and Zhenyu Guan (Beihang University, China)</i>	
Research and Implementation of an Analytical Database Testing Platform in Telecommunication Industry .....	1328
<i>Chaolun Wang (China Academy of Information and Communications Technology, China), Yuan Liu (China Academy of Information and Communications Technology, China), Pengwei Ma (China Academy of Information and Communications Technology, China), Jiafeng Tian (China Academy of Information and Communications Technology, China), Siyuan Liu (China Academy of Information and Communications Technology, China), Minjing Zhong (China Academy of Information and Communications Technology, China), and Chunyu Jiang (China Academy of Information and Communications Technology, China)</i>	
C-V2X Large-Scale Test Network Transmission Performance Data Analysis Method .....	1334
<i>Ke Xu (Jilin University, China), Miaoqiong Wang (China Academy of Information and Communications Technology Cloud Computing and Big Data Research Institute, China), Yuming Ge (China Academy of Information Communications Technology Technology and Standards Research Institute, China), Rundong Yu (China Academy of Information Communications Technology Technology and Standards Research Institute, China), Jian Wang (Jilin University, China), and Jiachen Zhang (Jilin University, China)</i>	
Design of Digital Maincenter Platform For Smart Home Based on Big Data .....	1340
<i>Yuhan Liu (China United Network Communications Corporation, China), Yutao Zhang (China United Network Communications Corporation, China), Heng Zhang (China United Network Communications Corporation, China), Yongfeng Wang (China United Network Communications Corporation, China), and Lianbo Song (China Academy of Information and Communications Technology, China)</i>	
Overview of Beam Hopping Algorithms in Large Scale LEO Satellite Constellation .....	1345
<i>Yuanpeng Li (Space Engineering University, China), Yile Fan (Space Engineering University, China), Shuaijun Liu (Chinese Academy of Sciences, China), LiXiang Liu (Chinese Academy of Sciences, China), and Wenge Yang (Space Engineering University, China)</i>	
Joint Power and Bandwidth Allocation for Internet of Vehicles Based on Proximal Policy Optimization Algorithm .....	1352
<i>Sujie Xu (Beijing University of Posts and Telecommunications Beijing, China), Xin Hu (Beijing University of Posts and Telecommunications Beijing, China), Libing Wang (Beijing University of Posts and Telecommunications Beijing, China), Yin Wang (Beijing University of Posts and Telecommunications Beijing, China), and Weidong Wang (Beijing University of Posts and Telecommunications Beijing, China)</i>	

NR Shared Spectrum Efficiency and Utilization Analysis Based on Big Data .....	1358
<i>Wei Wei (Taiyuan University of Technology, China), Yang Zhang (China Mobile Group Co., Ltd., China), Zhongsheng Fan (Network Performance Officer Huawei Technologies Pakistan Ltd., Pakistan), Jinge Guo (Beijing Institute of Technology, China), Bao Guo (ZONG, CMPak Ltd., Pakistan), and Huangtao Song (Network Performance Officer Huawei Technologies Pakistan Ltd., Pakistan)</i>	
Research and Application of Intelligent Antenna Feeder Optimization System Based on Big Data .....	1363
<i>Mingxin Li (China United Network Communications Corporation, China), Mingde Huo (China United Network Communications Corporation, China), Lexi Xu (China United Network Communications Corporation, China), Xinzhou Cheng (China United Network Communications Corporation, China), and Xin Zhao (China United Network Communications Group Corporation, China)</i>	
Research on Evaluation System of Relational Cloud Database .....	1369
<i>Ma Pengwei (China Academy of Information and Communications Technology, China), Wei Kai (China Academy of Information and Communications Technology, China), Jiang Chunyu (China Academy of Information and Communications Technology, China), Li Junyi (China Academy of Information and Communications Technology, China), Tian Jiafeng (China Academy of Information and Communications Technology, China), Liu Siyuan (China Academy of Information and Communications Technology, China), and Zhong Minjing (China Academy of Information and Communications Technology, China)</i>	
Design and Implementation of Intelligent Operation and Maintenance System for Big Data Platform .....	1374
<i>Xu Liu (China Academy of Industrial Internet, China), Ruoyu Li (Beijing University of Posts and Telecommunications, China), and Penghao Yue (Beijing University of Posts and Telecommunications, China)</i>	
Research of Sharing and Compatibility for HIBS and Terrestrial Network in 900MHz .....	1380
<i>Tingting Wang (China Unicom Research Institute, China), Yao Zhou (China Unicom Research Institute, China), Yushan Pei (China Unicom Research Institute, China), and Fuchang Li (China Unicom Research Institute, China)</i>	

## **The 3rd International Workshop on Machine Learning assisted Smart System (MLSys 2021)**

A Non-Cooperative Data Center Energy Consumption Optimization Strategy Based on SDN Structure .....	1386
<i>Peng HongYu (TangShan University, China), Sun Fujian (Liulin Automation Equipment Co., Ltd., China), Wang Kan (National Energy Conservation Center, China), Hao Tianlu (Computation Center. TangShan University, China), Xiao DeQuan (Southwest Jiaotong University, China), and Xu LeXi (Research Institute, China United Network Communications Corporation, China)</i>	

A Novel Architecture and Algorithm for Prediction of Students Psychological Health Based on Big Data .....	1391
<i>Chen Cheng (China United Network Communications Corporation, China), Xinzhou Cheng (China United Network Communications Corporation, China), Yuting Zheng (China United Network Communications Corporation, China), Lijuan Cao (China United Network Communications Corporation, China), Yuhui Han (China United Network Communications Corporation, China), Yuwei Jia (China United Network Communications Corporation, China), Qingqing Zhang (China United Network Communications Corporation, China), Yi Zhang (China United Network Communications Corporation, China), Ya'nan Zhang (China United Network Communications Corporation, China), and Lexi Xu (China United Network Communications Corporation, China)</i>	
Analysis of the Application of Big Data in Banking Sector .....	1397
<i>Binqi Cheng (Peking University, China) and Weijie Feng (Guizhou Education University, China)</i>	
Automated Performance Benchmarking Platform of IaaS Cloud .....	1402
<i>Xu Liu (China Academy of Industrial Internet, China), Dongxu Fang (Beijing University of Posts and Telecommunications, China), and Peng Xu (Beijing University of Posts and Telecommunications, China)</i>	
Base Station Prediction Analysis Scheme Based on Lasso Regression Machine Learning Algorithm .....	1406
<i>Dong Wang (University of Jinan, China), Yue Che (China Mobile Group Shandong Co., Ltd, China), Chao Li (University of Jinan, China), Yahui Chen (China Mobile Group Shandong Co., Ltd, China), Hui Yin (China Mobile Group Shandong Co., Ltd, China), and Chunlian Zhang (China Mobile Group Shandong Co., Ltd, China)</i>	
BRLR: A Routing Strategy for MANET Based on Reinforcement Learning .....	1412
<i>Yinghe Wang (Shanghai Dianji University, China) and Yu Tang (East China University of Political Science and Law, China)</i>	
Databench-T: A Transactional Database Benchmark for Financial Scenarios .....	1418
<i>Chunyu Jiang (China Academy of Information and Communication Technology, China), Jiafeng Tian (China Academy of Information and Communication Technology, China), and Pengwei Ma (China Academy of Information and Communication Technology, China)</i>	
Evaluation and Application of News Transmission Speed in New Media Environment .....	1422
<i>Heng Zhang (China United Network Communications Corporation, China), Yuhan Liu (China United Network Communications Group Corporation, China), Lexi Xu (China United Network Communications Corporation, China), Xinzhou Cheng (China United Network Communications Corporation, China), Lijuan Cao (China United Network Communications Corporation, China), Wei Xia (Global Tone Communication Technology Co., Ltd, China), and Ciguang Yang (Global Tone Communication Technology Co., Ltd, China)</i>	
Online Automatic Service Composition for Mobile and Pervasive Computing .....	1428
<i>Zhaoning Wang (China United Network Communications Research Institute, China), Bo Cheng (Beijing University of Posts and Telecommunications, China), and Junliang Chen (Beijing University of Posts and Telecommunications, China)</i>	

Privacy-Preserving Neural Architecture Search Across Federated IoT Devices .....	1434
<i>Chunhui Zhang (Shenzhen Research Institute of Big Data, Shenzhen, China), Xiaoming Yuan (Northeastern University at Qinhuangdao, China), Qianyun Zhang (Beihang University, Beijing, China), Guangxu Zhu (Shenzhen Research Institute of Big Data, Shenzhen, China), Lei Cheng (Zhejiang University, Hangzhou, China), and Ning Zhang (The University of Windsor, Windsor, Canada)</i>	
Sharing and Compatibility Studies of EESS(active) and IMT System in 10-10.5 GHz .....	1439
<i>Jifeng Liu (China United Network Communications Corporation Limited, China), Yao Zhou (China United Network Communications Corporation Limited, China), Yiyi Niu (China United Network Communications Corporation Limited, China), Tingting Wang (China United Network Communications Corporation Limited, China), Tao Zhang (China United Network Communications Corporation Limited, China), and Fuchang Li (China United Network Communications Corporation Limited, China)</i>	

## **The Reinforcement Learning and Federated Learning for Trustworthy in Industrial Internet Workshop (RFTI 2021)**

FedIM: An Anti-Attack Federated Learning Based on Agent Importance Aggregation .....	1445
<i>Zhipeng Gao (Beijing University of Posts and Telecommunications, China), Chenhao Qiu (Beijing University of Posts and Telecommunications, China), Chen Zhao (Beijing University of Posts and Telecommunications, China), Yang Yang (Beijing University of Posts and Telecommunications, China), Zijia Mo (Beijing University of Posts and Telecommunications, China), and Yijing Lin (Beijing University of Posts and Telecommunications, China)</i>	

## **The 2nd International Workshop on Machine Learning for Trust, Security and Privacy in Computing and Communications (MLTrustCom 2021)**

Matching Sensor Ontologies With Neural Network .....	1452
<i>Xingsi Xue (Fujian University of Technology, China), Haolin Wang (Fujian University of Technology, China), Yunmeng Zhao (Fujian University of Technology, China), Yikun Huang (Fujian Normal University, China), and Hai Zhu (Zhoukou Normal University, China)</i>	
Trusted Artificial Intelligence: Technique Requirements and Best Practices .....	1458
<i>Tao Zhang (Guilin University of Electronic Technology, Guangxi University for Nationalities, China), Yi Qin (Guilin University of Electronic Technology, China), and Qiang Li (Henan Key Laboratory of Network Cryptography Technology, PLA Information Engineering University, China)</i>	

## The 4th International Workshop on Blockchain Systems and Applications (BlockchainSys 2021)

Multidimensional Observation of Blockchain Security .....	1463
<i>Mengjian Cai (Guangdong University of Finance &amp; Economics, China), Zhanli Sun (Guangdong University of Finance &amp; Economics, China), and Xin Deng (Guangdong University of Finance &amp; Guangzhou, China)</i>	

## The 11th International Workshop on Assistive Engineering and Information Technology (AEIT 2021)

Construction of Knowledge Graph Based on Discipline Inspection and Supervision .....	1467
<i>Yuefeng Liu (Inner Mongolia University of Science and Technology, China), Wei Guo (Inner Mongolia University of Science and Technology, China), Hanyu Zhang (Inner Mongolia University of Science and Technology, China), Haodong Bian (Inner Mongolia University of Science and Technology, China), Yingjie He (Inner Mongolia University of Science and Technology, China), Xiaoyan Zhang (Inner Mongolia University of Science and Technology, China), Yanzhang Gong (Inner Mongolia Discipline Inspection and Supervision Big Data Laboratory, China), Jianmin Dong (Inner Mongolia Discipline Inspection and Supervision Big Data Laboratory, China), and Zhen Liu (Nagasaki Institute of Applied Science, Japan)</i>	
Prediction of Remaining Useful Life of Turbofan Engine Based on Optimized Model .....	1473
<i>Yuefeng Liu (Inner Mongolia University of Science and Technology, China), Xiaoyan Zhang (Inner Mongolia University of Science and Technology, China), Wei Guo (Inner Mongolia University of Science and Technology, China), Haodong Bian (Inner Mongolia University of Science and Technology, China), Yingjie He (Inner Mongolia University of Science and Technology, China), and Zhen Liu (Nagasaki Institute of Applied Science, Japan)</i>	
Design and Implementation of Scanning Electron Microscope Image Acquisition Software System .....	1478
<i>Wei Shi (School of Electronic and Information Engineering, Soochow University, China), Mixue Deng (School of Electronic and Information Engineering, Soochow University, China), Dong Wang (School of Electronic and Information Engineering, Soochow University, China), Yuyun Yang (School of Electronic and Information Engineering, Soochow University, China), Deyin Li (School of Electronic and Information Engineering, Soochow University, China), and Lirong Wang (School of Electronic and Information Engineering, Soochow University, China)</i>	
Research on Droplet Digital PCR Amplification System .....	1483
<i>Jie Zhang (Chinese Academy of Science, China), Jiaqi Yan (Chinese Academy of Science, China), Jinxian Wang (Chinese Academy of Science, China), Jie Xu (Chinese Academy of Science, China), Yilong Zhao (Chinese Academy of Science, China), and Gangyin Luo (Chinese Academy of Science, China)</i>	

A Multi-Scale Convolutional Neural Network for Heartbeat Classification .....	1488
<i>Lesong Zheng (Soochow University, China), Miao Zhang (Suzhou GK Medtech Science and Technology Development Co., Ltd., China), Lishen Qiu (University of Science and Technology of China, China), Gang Ma (University of Science and Technology of China, China), Wenliang Zhu (University of Science and Technology of China, China), and Lirong Wang (Soochow University, China)</i>	
An Automatic Algorithm for P/T-Wave Detection Based on Auxiliary Waveform .....	1493
<i>Duoduo Wang (Soochow University, China), Lishen Qiu (Chinese Academy of Science, China), Wanyue Li (Soochow University, China), Wenliang Zhu (Chinese Academy of Science, China), and Lirong Wang (Soochow University, China)</i>	
Automated Classification of Atrial Fibrillation and Atrial Flutter in ECG Signals Based on Deep Learning .....	1498
<i>Huimin Zhang (Soochow University, China), Lishen Qiu (Chinese Academy of Science, China), Wenliang Zhu (Chinese Academy of Science, China), Wenqiang Cai (Soochow University, China), and Lirong Wang (Soochow University, China)</i>	
Beat-to-Beat Heart Rate Detection Based on Seismocardiogram Using BiLSTM Network .....	1503
<i>Yuhang Chen (University of Science and Technology of China, China), WenChang Xu (Suzhou Institute of Biomedical Engineering and Technology, China), Wenliang Zhu (University of Science and Technology of China, China), Gang Ma (University of Science and Technology of China, China), Xiaohe Chen (Suzhou Institute of Biomedical Engineering and Technology, China), and Lirong Wang (Soochow University, China)</i>	

## **The 8th International Workshop on Big Data Research and Application (BDRA 2021)**

A new Algorithm for Demographic Expansion Based on Multi-Scene Differentiated Communication Data .....	1508
<i>Yuhui Han (China United Network Communications Corporation, China), Chen Cheng (China United Network Communications Corporation, China), Xinzhou Cheng (China United Network Communications Corporation, China), Lexi Xu (China United Network Communications Corporation, China), Yuchao Jin (China United Network Communications Corporation, China), Yuwei Jia (China United Network Communications Corporation, China), and Jie Gao (China United Network Communications Corporation, China)</i>	
A Renewable Energy Certificate Trading System Based on Blockchain .....	1514
<i>Ming Gao (State Grid Zhejiang Ninghai Power Supply Co., Ltd., China), Xiaokun Yu (State Grid Blockchain Technology Co., Ltd., China), Lei Ren (State Grid Zhejiang Ninghai Power Supply Co., Ltd., China), Hongxiang Cai (State Grid Zhejiang Ninghai Power Supply Co., Ltd., China), Zhiyong Wang (State Grid Blockchain Technology Co., Ltd., China), and Yuyang Zhou (Beijing University of Posts and Telecommunications, China)</i>	

A Hybrid User Recommendation Scheme Based on Collaborative Filtering and Association Rules	1519
<i>Yuwei Jia (China United Network Communications Corporation, Beijing, China), Kun Chao (China United Network Communications Corporation, Beijing, China), Xinzhou Cheng (China United Network Communications Corporation, Beijing, China), Jian Guan (China United Network Communications Corporation, Beijing, China), Lijuan Cao (China United Network Communications Corporation, Beijing, China), Yi Li (China United Network Communications Corporation, Beijing, China), Chen Cheng (China United Network Communications Corporation, Beijing, China), Yuchao Jin (China United Network Communications Corporation, Beijing, China), and Lexi Xu (China United Network Communications Corporation, Beijing, China)</i>	
Preference Recommendation Scheme Based on Social Networks of Mobile Users	1525
<i>Lijuan Cao (China United Network Communications Corporation, China), Xinzhou Cheng (China United Network Communications Corporation, China), Lexi Xu (China United Network Communications Corporation, China), Chen Cheng (China United Network Communications Corporation, China), Yi Li (China United Network Communications Corporation, China), Yuwei Jia (China United Network Communications Corporation, China), Chuntao Song (China United Network Communications Corporation, China), and Heng Zhang (China United Network Communications Corporation, China)</i>	
Cell Boundary Prediction and Base Station Location Verification Based on Machine Learning	1531
<i>Yuchao Jin (Research Institute of China United Network Communications Corporation, P.R.China), Yi Li (Research Institute of China United Network Communications Corporation, P.R.China), Deyi Li (Research Institute of China United Network Communications Corporation, P.R.China), Xinzhou Cheng (Research Institute of China United Network Communications Corporation, P.R.China), Lexi Xu (Research Institute of China United Network Communications Corporation, P.R.China), and Yuhui Han (Research Institute of China United Network Communications Corporation, P.R.China)</i>	
Investigation on Multi-Antenna Technologies Evolution from FDD LTE to NR FDD	1537
<i>Jinge Guo (Beijing Institute of Technology, China), Yang Zhang (China Mobile Group Co., Ltd., China), Zhongsheng Fan (Network Performance Officer Huawei Technologies Pakistan Ltd., Pakistan), Wei Wei (Taiyuan University of Technology, China), Bao Guo (ZONG, CMPak Ltd., Pakistan), and Huangtao Song (Network Performance Officer Huawei Technologies Pakistan Ltd., Pakistan)</i>	
Joint Offloading Decision and Resource Allocation of 5G Edge Intelligent Computing for Complex Industrial Application	1542
<i>Mingxin Li (China United Network Communications Corporation, China), Mingde Huo (China United Network Communications Corporation, China), Xinzhou Cheng (China United Network Communications Corporation, China), Lexi Xu (China United Network Communications Corporation, China), Xiaojing Liu (China United Network Communications Group Corporation, China), and Rui Yang (China United Network Communications Group Corporation, China)</i>	

Study on TDD Unsynchronized Interference from Outdoor to Indoor Scenario in 3.3-3.6 GHz .....	1548
<i>Yiying Niu (China Unicom Research Institute, China), Yao Zhou (China Unicom Research Institute, China), Tao Zhang (China Unicom Research Institute, China), and Fuchang Li (China Unicom Research Institute, China)</i>	
Fault Diagnosis of 5G Voice Service Based on Multi-Sources Data .....	1554
<i>Shiyu Zhou (China Unicom Research Institute, China), Jie Miao (China United Network Communications Group Corporation, China), Xiqing Liu (China Unicom Research Institute, China), Xinzhou Cheng (China Unicom Research Institute, China), Zhenqiao Zhao (China Unicom Research Institute, China), and Xin Zhao (China United Network Communications Group Corporation, China)</i>	
Key Technologies for 5G co-Construction and Shared Base Station Data Automatic Configuration .....	1559
<i>Xiqing Liu (China Unicom Research Institute, China), Hongshui Jing (China Unicom Group Corporation, China), Shiyu Zhou (China Unicom Research Institute, China), Zhenqiao Zhao (China Unicom Research Institute, China), Xinzhou Cheng (China Unicom Research Institute, China), and Lexi Xu (China Unicom Research Institute, China)</i>	
Research on Productization and Development Trend of Data Desensitization Technology .....	1564
<i>Wang Zhuo (China Academy of Information and Communications Technology, China), Wei Kai (China Academy of Information and Communications Technology, China), Jiang Chunyu (China Academy of Information and Communications Technology, China), Tian Jiafeng (China Academy of Information and Communications Technology, China), Zhong Minjing (China Academy of Information and Communications Technology, China), Liu Yuan (China Academy of Information and Communications Technology, China), and Liu Yanmei (China Academy of Information and Communications Technology, China)</i>	
A Novel Method for Detecting Noise Segments in ECG Signals .....	1570
<i>Wenliang Zhu (University of Science and Technology of China; Suzhou Institute of Biomedical Engineering and Technology, China), Gang Ma (Suzhou Institute of Biomedical Engineering and Technology; University of Science and Technology of China, China), Yuhang Chen (Suzhou Institute of Biomedical Engineering and Technology; University of Science and Technology of China, China), Lishen Qiu (Suzhou Institute of Biomedical Engineering and Technology; University of Science and Technology of China, China), Lesong Zheng (Soochow University, China), and Lirong Wang (Soochow University, China)</i>	
Authentication and Access Control in 5G Device-to-Device Communication .....	1575
<i>Jithu Geevarghese Panicker (Monash University, Australia), Ahmad Salehi S. (Monash University, Australia), and Carsten Rudolph (Monash University, Australia)</i>	
IdiffGrad: A Gradient Descent Algorithm for Intrusion Detection Based on diffGrad .....	1583
<i>Weifeng Sun (Dalian University of Technology Dalian, China), Yiming Wang (Dalian University of Technology Dalian, China), Kangkang Chang (Dalian University of Technology Dalian, China), and Kelong Meng (Dalian University of Technology Dalian, China)</i>
