# 2021 2nd Asia Symposium on Signal Processing (ASSP) **ASSP 2021**

## Table of Contents

Preface .....	xiv
Conference Committee .....	xv
Keynotes .....	xvii

### **Intelligent Image Analysis and Processing Method**

Research on a Graph Reachability Algorithm Based on Block Optimization .....	1
<i>Jia-Xing Hu (Henan Experimental High School Zhengzhou, China), Bei Gong (College of Computer Science Beijing University of Technology Beijing, China), and Yu-Chu He (School of Information Science and Technology Zhengzhou Normal University Zhengzhou, China)</i>	
Realistic Image-to-Image Translation with Enhanced Texture .....	5
<i>Guozhen Duan (School of Information and Communication Engineering University of Electronic Science and Technology of China Chengdu, China), Yanxiang Gong (School of Information and Communication Engineering University of Electronic Science and Technology of China Chengdu, China), Huijie Zhao (The 54th Research Institute of China Electronics Shijiazhuang, China), Wen Ma (The 54th Research Institute of China Electronics Shijiazhuang, China), Dongxing Song (The 54th Research Institute of China Electronics Shijiazhuang, China), Zheng Ma (School of Information and Communication Engineering University of Electronic Science and Technology of China Chengdu, China), and Mei Xie (School of Information and Communication Engineering University of Electronic Science and Technology of China Chengdu, China)</i>	
Optimization of Luminance Computational Model of HDRI by the Multi-Linear Regression Method .....	13
<i>Liang Yu (College of Software Engineering Sichuan University Chengdu, China), He Haibo (College of Architecture and Environment Sichuan University Chengdu, China), He Yi (College of Architecture and Environment Sichuan University Chengdu, China), Ouyang Jinlong (College of Architecture and Environment Sichuan University Chengdu, China), and Lei Yuyang (College of Software Engineering Sichuan University Chengdu, China)</i>	

Application of Color Block Code in Image Scaling .....	20
<i>Hao Wang (Network and Information Technology Centre Beijing University of Technology Beijing, China), Yu Bai (Medical Engineering Division Beijing Friendship Hospital Beijing, China), Jie Liu (Information Department Beijing University of Technology Beijing, China), Guangmin Sun (Information Department Beijing University of Technology Beijing, China), Yanjun Zhang (Network and Information Technology Centre Beijing University of Technology Beijing, China), and Jie Li (Information Department Beijing University of Technology Beijing, China)</i>	
DetNAS: Design Object Detection Network via One-Shot Neural Architecture Search .....	28
<i>Chuntung Zhuang (Basis International School of Guangzhou, China)</i>	
Face Image Super-Resolution Based On Relative Average Generative Adversarial Networks .....	38
<i>Ying Liu (Center for Image and Information Processing, Xi'an University of Posts and Telecommunications, Xi'an, Shaanxi, China) and Li Zhu (Center for Image and Information Processing, Xi'an University of Posts and Telecommunications, Xi'an, Shaanxi, China)</i>	
Integrating Residual Network and Channel Attention Mechanism for Tire Pattern Image Retrieval .....	44
<i>Qiqi Liu (Center for Image and Information Processing, Xi'an University of Posts and Telecommunications, Xi'an, China), Ying Liu (Center for Image and Information Processing, Xi'an University of Posts and Telecommunications, Xi'an, China), Fuping Wang (Center for Image and Information Processing, Xi'an University of Posts and Telecommunications, Xi'an, China), and Daxiang Li (Center for Image and Information Processing, Xi'an University of Posts and Telecommunications, Xi'an, China)</i>	
PLC Ladder Diagram for a Sliding Mode Filtering Tracking Differentiator .....	50
<i>Wande An (School of Engineering Yanbian University Yanji, China) and Shanhai Jin (School of Engineering Yanbian University Yanji, China)</i>	
Improvement of Feature Extraction Based on HOG .....	55
<i>Zhehao Liu (East China Normal University, China)</i>	

## Information and data Security

Position-Based Vehicular Clustering for Emergency Messages Dissemination in Zone of Interest .....	61
<i>Sami Ullah (Telecommunications and Networking ( TeleCoN) Research Center, GIK Institute of Engineering Sciences and Technology, Pakistan), Ghulam Abbas (Faculty of Computer Science and Engineering, GIK Institute of Engineering Sciences and Technology, Pakistan), Muhammad Waqas (Faculty of Information Technology, Beijing University of Technology, China; Edith Cowan University, Australia), Ziul Haq Abbas (Faculty of Electrical Engineering, GIK Institute of Engineering Sciences and Technology, Pakistan), and Shanshan Tu (Faculty of Information Technology, Beijing University of Technology, China)</i>	

Support Forward Secure Smart Grid Data Deduplication and Deletion Mechanism .....	67
<i>Hao Chen (Shenzhen Power Supply Co., Ltd, China), Lin Chen (Electric Power Research Institute CSG Guangzhou, China), Xiaoyun Kuang (Electric Power Research Institute CSG Guangzhou, China), Aidong Xu (Electric Power Research Institute CSG Guangzhou, China), and Yiwei Yang (Electric Power Research Institute CSG Guangzhou, China)</i>	
Research on Water Level Prediction on CEEMDAN-GRU Model Under the IMFs Recombination ....	77
<i>Sun Tao (Jiangsu Water Source Company Ltd, China; The Eastern Route of The South-to-North Water Diversion Project, China), Wang YIbin (Jiangsu Water Source Company Ltd, China; The Eastern Route of The South-to-North Water Diversion Project, China), Chen Wei (Nanjing Tech University, China), and Liang Xuechun (Nanjing Tech University, China)</i>	
Research on Security and Privacy Problem in the Data Life Cycle for the IoT Scenario .....	84
<i>Shisong Yang (Faculty of Information Technology, Beijing University of Technology, China), Yuwen Chen (Faculty of Information Technology, Beijing University of Technology, China), and Zhen Yang (Faculty of Information Technology, Beijing University of Technology, China)</i>	
Trusted Model Based on Multi-Dimensional Attributes in Edge Computing .....	95
<i>Jinhui Zhu (State Grid Hebei Electric Power Co., Ltd. Beijing China), Liangdong Chen (1) Information and Communication branch of State Grid Hebei Electric Power Co., Ltd, 2) Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center Beijing China), Xiantong Liu (1) Information and Communication branch of State Grid Hebei Electric Power Co., Ltd, 2) Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center Beijing China), Lincong Zhao (1) Information and Communication branch of State Grid Hebei Electric Power Co., Ltd, 2) Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center Beijing China), Peipei Shen (1) Information and Communication branch of State Grid Hebei Electric Power Co., Ltd, 2) Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center Beijing China), and Jinghan Chen (1) Information and Communication branch of State Grid Hebei Electric Power Co., Ltd, 2) Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center Beijing China)</i>	
Fault Detection and Diagnosis Based on the Machine Learning Method of Lifting Scheme Wavelet and PCA .....	101
<i>Xiaojie Chao (College of Mobile Telecommunications Chongqing University of Posts and Telecommunications Chongqing, China), Taoran Zhang (College of Mobile Telecommunications Chongqing University of Posts and Telecommunications Chongqing, China), and Longcan Chen (College of Mobile Telecommunications Chongqing University of Posts and Telecommunications Chongqing, China)</i>	
Fault Detection Method Based on Residual Network and Faster R-CNN .....	105
<i>Jing Li (Beijing Information Science and Technology University, China), Lei Chen (Beijing Information Science and Technology University, China), Ting Zhang (Beijing University of Technology, China), Xue Qiang Lv (Beijing Information Science and Technology University, China), and Shou Dong Huo (Institute of Geology and Geophysics Chinese Academy of Sciences, China)</i>	

Fine Classification Method of Product Image Based on Multi-Level Convolutional Neural Networks .....	113
<p><i>Xuesong Jin (School of Computer and Information Engineering Harbin University of Commerce Harbin, China Heilongjiang Provincial Key Laboratory of Electronic Commerce and Information Processing Harbin University of Commerce Harbin, China), Xin Du (School of Computer and Information Engineering Harbin University of Commerce Harbin, China Heilongjiang Provincial Key Laboratory of Electronic Commerce and Information Processing Harbin University of Commerce Harbin, China), Xiaowei Han (School of Computer and Information Engineering Harbin University of Commerce Harbin, China Heilongjiang Provincial Key Laboratory of Electronic Commerce and Information Processing Harbin University of Commerce Harbin, China), Huadong Sun (School of Computer and Information Engineering Harbin University of Commerce Harbin, China Heilongjiang Provincial Key Laboratory of Electronic Commerce and Information Processing Harbin University of Commerce Harbin, China), and Jing Li (School of Computer and Information Engineering Harbin University of Commerce Harbin, China Heilongjiang Provincial Key Laboratory of Electronic Commerce and Information Processing Harbin University of Commerce Harbin, China)</i></p>	

Blockchain-Based Security Management Platform .....	118
<p><i>Xiaoping Wang (Faculty of Information Technology, Beijing University of Technology, China), Akhtar Badshah (Faculty of Computer Science and Engineering, GIK Institute of Engineering Sciences and Technology, Pakistan), Shanshan Tu (Faculty of Information Technology, Beijing University of Technology, China), and Muhammad Waqas (Faculty of Information Technology, Beijing University of Technology, China; Edith Cowan University, Australia; Faculty of Computer Science and Engineering GIK Institute of Engineering Sciences and Technology, Pakistan)</i></p>	

## **Future Communication and IoT Development Technology**

Construction of Trusted Group for Centralized IOT .....	122
<p><i>Rui Xin (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China), Liangdong Chen (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China), Ning Lu (State Grid Hebei Electric Power Co., Ltd., China), Xin Liu (State Grid Hebei Electric Power Co., Ltd., China), Wei Liu (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China), and Guiping Zheng (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China)</i></p>	

Development and Application Research of 5G Private Network Equipment For Ship Construction. 130	
<i>Xinyu Liu (Jiangsu JARI Technology Group Co., Ltd., China; Jiangsu JARI Information Technology Co., Ltd., China), Dongyao Wang (Jiangsu Automation Research Institute, China), Maopu Wu (Jiangsu JARI Information Technology Co., Ltd., China), and Zhaosheng Dong (Jiangsu JARI Information Technology Co., Ltd., China)</i>	
Trusted Group Construction Mechanism Based on Trusted Management ..... 135	
<i>Xin Rui (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China), Zhu Jinhui (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China), Liu Xin (State Grid Hebei Electric Power Co., Ltd., China), Chen Liandong (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China), Chen Kai (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China), and Zhu Jingxuan (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China)</i>	
On the Performance of Generalized SCL-Flip Decoding for Polar Codes ..... 148	
<i>Yansong Lv (State Key Laboratory of Media Convergence and Communication, Communication University of China, Beijing, China.), Hang Yin (Engineering Research Center of the Digital Audio and Video Ministry of Education, Communication University of China, Beijing, China), Zhanxin Yang (Engineering Research Center of the Digital Audio and Video Ministry of Education, Communication University of China, Beijing, China), Yuhuan Wang (Beijing Institute of Technology Beijing, China.), Jingxin Dai (State Key Laboratory of Media Convergence and Communication, Communication University of China, Beijing, China), and Jing Huan (State Key Laboratory of Media Convergence and Communication, Communication University of China, Beijing, China.)</i>	

The Construction and Dynamic Maintenance Mechanism of Trusted Groups in Edge Computing .. 153

*Chen Liandong (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China), Liu Wei (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China), Lu Ning (State Grid Hebei Electric Power Co., Ltd., China), Wei Yong (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China), Chen Kai (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China), and Zheng Guiping (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China)*

Research on Integrated Communication and Positioning Technology of Ship Formation in Weak Navigation Environment ..... 159

*Yipeng Li (The 54th Research Institute of China Electronics Technology Group Corporation, China), Lizhe Liu (Science and Technology on Communication Networks Laboratory, China; The 54th Research Institute of China Electronics Technology Group Corporation, China), Yutao Liu (The 54th Research Institute of China Electronics Technology Group Corporation, China), Lirong Mei (The 54th Research Institute of China Electronics Technology Group Corporation, China), Jie Lin (The 54th Research Institute of China Electronics Technology Group Corporation, China), Hongkun Wang (The 54th Research Institute of China Electronics Technology Group Corporation, China), Jingsong Yang (The 54th Research Institute of China Electronics Technology Group Corporation, China), and Xiaoshen Yan (The 54th Research Institute of China Electronics Technology Group Corporation, China)*

Trusted Authentication Scheme for Data Source Based on Short Group Signature ..... 167

*Zhu Jinhui (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China), Liu Xin (State Grid Hebei Electric Power Co., Ltd., China), Shen Peipei (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China), Xin Xiaopeng (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China), Chen Kai (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China), and Zheng Guiping (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China)*

Design of Radio-Frequency Electromagnetic Field Radiated Immunity Automatic Test System in GTEM Cell Based on Labview .....	179
<i>Keying Ma (National Institute of Measurement and Testing Technology, China), Yu Hu (National Institute of Measurement and Testing Technology, China), Wei Wang (National Institute of Measurement and Testing Technology, China), Hongtao Niu (National Institute of Measurement and Testing Technology, China), Xiao Tang (National Institute of Measurement and Testing Technology, China), and Yifan Cui (Sichuan University, China)</i>	
Construction of Trusted Group in Distributed Internet of Things .....	184
<i>Rui Xin (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China), Liangdong Chen (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China), Ning Lu (State Grid Hebei Electric Power Co., Ltd., China), Xin Liu (State Grid Hebei Electric Power Co., Ltd., China), Wei Liu (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China), and Guiping Zheng (Information and Communication Branch of State Grid Hebei Electric Power Co., Ltd, China; Hebei Electric Power Internet of Things Information and Communication Technology Innovation Center, China)</i>	

## Modern Information Theory and Technology

Phoneme Recognition using Interlaced Derivative Pattern and Co-Occurrence Matrix Method .....	192
<i>Guozhao Liao (Faculty of Information Engineering Guangdong University of Technology Guangzhou, China), Bingo Wing-Kuen Ling (Faculty of Information Engineering Guangdong University of Technology Guangzhou, China), and Ringo Wai-Kit Lam (AI Mnemonic Limited Science Park Hong Kong, China)</i>	
M-Unity Files Mapua University Project Document Archive .....	197
<i>John Paul Q. Tomas (School of Information Technology Mapua University Makati City, Philippines), Priam Lars E. Awi (School of Information Technology Mapua University Makati City, Philippines), George Z. Chua III (School of Information Technology Mapua University Makati City, Philippines), and Pocholo M. Nolasco (School of Information Technology Mapua University Makati City, Philippines)</i>	
Short Text Classification Based on Cross-Connected GRU Kernel Mapping Support Vector Machine .....	201
<i>Qi Wang (Faculty of Information Technology Beijing University of Technology Beijing, China), Zhaoying Liu (Faculty of Information Technology Beijing University of Technology Beijing, China), Ting Zhang (Faculty of Information Technology Beijing University of Technology Beijing, China), and Yujian Li (School of Artificial Intelligence Guilin University of Electronic Technology Guilin, China)</i>	

Environmental Impact Assessment Method of Highway Reconstruction Project Based on the Integration of Remote Sensing Image and GIS .....	208
<i>Peipei Qi (School of Intelligent Construction, Wuchang University of Technology, Wuhan), Qing An (School of Intelligent Construction, Wuchang University of Technology, Wuhan), and Fenggang Liu (School of Intelligent Construction, Wuchang University of Technology, Wuhan)</i>	
Research on Modeling and Inversion of Human Skin Tissue Based on Multi-Band Microwave Radiometer .....	215
<i>Zhenlin Sun (Faculty of information Technology Beijing University of Technology Beijing, China), Jie Liu (Faculty of information Technology Beijing University of Technology Beijing, China), Kai Zhang (Faculty of information Technology Beijing University of Technology Beijing, China), Hao Wang (Faculty of information Technology Beijing University of Technology Beijing, China), Deren Xu (Faculty of information Technology Beijing University of Technology Beijing, China), and Jiawei Xu (Engineer of Space star technology co., LTD Beijing, China)</i>	
Research on Information Extraction Technology of Wall Cracks in Historic Buildings .....	222
<i>Yuanrong He (Big Data Institute of Digital Natural Disaster Monitoring in Fujian, Xiamen University of Technology, Xiamen, China), Ping Chen (Big Data Institute of Digital Natural Disaster Monitoring in Fujian, Xiamen University of Technology, Xiamen, China), Zhiying Xie (Big Data Institute of Digital Natural Disaster Monitoring in Fujian, Xiamen University of Technology, Xiamen, China), Shuhan Chen (Big Data Institute of Digital Natural Disaster Monitoring in Fujian, Xiamen University of Technology, Xiamen, China), and Xiaohui Song (School of Surveying, Mapping and Geographic Information, Guilin University of Technology, Guilin, China)</i>	
Blockchain Boundary Security Protection Based on Trusted Computing .....	227
<i>Xiaoping Wang (Faculty of Information Technology, Beijing University of Technology, China), Akhtar Badshah (Faculty of Computer Science and Engineering GIK Institute of Engineering Sciences and Technology, Pakistan), Shanshan Tu (Faculty of Information Technology, Beijing University of Technology, China), and Muhammad Waqas (Faculty of Information Technology, Beijing University of Technology, China; Edith Cowan University, Australia; Faculty of Computer Science and Engineering GIK Institute of Engineering Sciences and Technology, Pakistan)</i>	
Simulation of a Cylindrical Roller Bearing with an Embedded Piezoelectric Sensor for Local Fault Detection .....	232
<i>Ali Safian (Department of Mechanical Engineering University of Manitoba Winnipeg, Canada), Nan Wu (Department of Mechanical Engineering University of Manitoba Winnipeg, Canada), and Xihui Liang (Department of Mechanical Engineering University of Manitoba Winnipeg, Canada)</i>	

Time Series Classification Based on Multi-Scale Dynamic Convolutional Features and Distance Features .....	239
<i>Tian Wang (Faculty of Information Technology Beijing University of Technology Beijing, China), Zhaoying Liu (Faculty of Information Technology Beijing University of Technology Beijing, China), Ting Zhang (Faculty of Information Technology Beijing University of Technology Beijing, China), and Yujian Li (School of Artificial Intelligence Guilin University of Electronic Technology Guilin, China)</i>	
<b>Author Index</b> .....	<b>247</b>
