5th International Conference on Computing and Solutions in Manufacturing Engineering (CoSME'20)

IOP Conference Series: Materials Science and Engineering
Volume 1009

Brasov, Romania
7 – 10 October 2020

Editors:

Gheorghe Oancea
Mircea Viorel Dragoi
Cristin Olimpiu Morariu

ISBN: 978-1-7138-4545-4
ISSN: 1757-8981

TABLE OF CONTENTS

Preface

Peer review declaration

The forming tool, primary start position and toolpath angle movement effect on the geometry accuracy "springback", part C 1
K I Abass

Research on the study of the dimensional precision of the parts obtained by Additive Manufacturing 9
D C Anghel, A D Rizea

Study of the stator geometry for a Moineau pump 17
N Baroiu, G A Costin, G R Frumuşanu, V G Teodor, N Oancea

Robot-based incremental sheet forming – the tool path planning 27
A Bârsan, M O Popp, G P Rusu, A I Maroşan

Using critical path method for a new project scheduling - the case of a new product launch in production 34
F S Blaga, A Pop, V Hule, A Karczis, D Buzdugan

Fused deposition modelling process: a literature review 43
M Blaj, G Oancea

The modelling of detached chip area at square shafts machining with rack tools 61
M Bordeanu, G Frumuşanu, N Oancea

Some aspects regarding planetary precessional transmissions dynamics 68
I Bostan, V Dulgheru, I Malcoci

Estimating the warranty returns and proving root causes using statistical analysis of archived parameters measurements for an automotive mechatronic device 75
I C Braga, R Udroiu, A Nedelcu

Study on the application of CAM techniques on CNC lathes with Y axis and driven tools 82
R E Breaz, S G Racz, C E Girjob, M Tera

Study upon the kinematic simulation of the incremental forming carried-on using a serial industrial robot 86
R E Breaz, S G Racz, C E Girjob, M Tera

On-line linear guideway monitoring using laser mouse sensor 91
W N Cheng, C C Cheng, C M Tsai, B C Chang, W R Chen, T F Chiang

Automatic generation of documents and reports for educational process 98
C I Chivu, C Chivu

Current perspectives on innovative methods used in teaching technical drawing 106
M R Clinciu, R Clinciu

A review on biomechanics of the hallux valgus pathology and its surgical treatments 112
N F Cofaru, A H Brănescu

The optimization of cutting parameters at turning, using electrical current at cutting, in order to increase the durability of the cutting tool 125
R Daicu, V Diţu

The determination of the relation between the drill diameter and the correction coefficient of the relative thickness of the drill core when calculating the axial force 131
R Daicu, V Diţu

Selecting an alternative to solve a problem from several available alternatives 137
O Dodun, L Slătineanu, G Arcidiacono, M Coteaţă, G Nagîţ, A Hriţuc

Computer program for single sampling plans by variables with known lot standard deviation 144
N Eftimie

Simulation research on pressure shock of load sensing system of large boom tower crane 153
Y Fei, J Li, C Sun

Analysis of the influence on the hydraulic lifting circuit of the boom crane when the characteristics of the steel wire rope changes 162
Y Fei, J Jiang, C Sun

Study of input parameters influence on the surface quality at laser processing of Hardox 400 steel 170
C C Girdu, M V Dragoi, M Mileșan, L A Mihail, L Cirtina, C Radulescu

Novel trend in case study of industrial robot programming and production system design using the virtual reality 178
R Holubek, R Ružarovský, K Velíšek, M Janíček

Application of fractal theory in fault diagnosis of nonlinear mechanical equipment system: a review 186
X L Hou, X Wang

Voice frequency impact for voice control of collaborative robots 192
M Janíček, R Holubek, R Ružarovský, K Velíšek

Performance diagnosis of the drive unit for high speed motorized spindle based on hidden state mapping model 198
Z W Jia, L T Fan, C X Zhu, Z P Si, J Z Liu

Study of milling machining roughness prediction based on cutting force 211
Y C Kao, S J Chen, T K Vi, G H Feng, S Y Tsai

Prediction of radial clearance based on bearing vibration using artificial neural network 231
I Knežević, A Živković, M Rackov, Ž Kanović, A Buljević, M Bojanić Šejat, S Navalušić

The heat treatment influence on microstructure and mechanical properties of TiAl6V4 parts manufactured by SLM 236
C Lancea, S M Zaharia, M A Pop, G R Buican

Parameters setting of selective laser melting machine 241
D T Le, S L Chen

Experimental research on dynamic thermal performance of silicon nitride all-ceramic ball bearings 248
S H Li, Y H Wang, C Wei, Z N Wang, Z X Xia

Fabrication and service of all-ceramic ball bearings for extreme conditions applications 260
S Li, C Wei, Y Wang

Overall stability analysis of combined boom with telescopic main boom and fixed flying jib 270
S M Liu, W L Qin, X Q Han, L X Meng

The simplified analysis method of nonlinear buckling and displacement of latticed structure 277
S M Liu, W Yang, X Q Han, L X Meng

A brief review of numerical simulation in process machining 287
C I Malea, E L Nitu, M D Iordache

CAD based design for the jewellery industry: A case study 299
A Manavis, P Minaoglou, K Aidinli, N Efkolidis, P Kyratsis

Computational design technologies for interior designers: a case study 304
A Manavis, P Minaoglou, D Tzetzis, N Efkolidis, P Kyratsis

Progressive screw shaft manufacturing technology 309
M Matejic, M V Dragoi, M Blagojevic, A C Filip, I Miletic

Optimization of industrial management processes 317
C Mărgineanu, D Lixăndroiu

A comparative assessment of reliability indicators and parameters of the bearings using different estimation methods 326
C O Morariu, S M Zaharia

Influence of DC05 deep drawing steel real material properties on numerical simulation of incremental forming process 336
D Nasulea, G Oancea

Comparison of the roughness of concave cylindrical surfaces machined with spherical milling cutters and toroidal milling cutters 344
A Osan, M Banica, L Butnar, V Nasui

Designing of an original extruding system for 3D printing of parts made of plastic material in powder-state form 353
R Păcurar, S Pascu, A Păcurar, D S Stan, E Teuțan, D I Băilă, A Sadeh

The methodology of economic recovery of commercial companies in crisis conditions 360
O Panazan, C Gheorghe, G Calefariu

Sustainable manufacturing systems – a simulation model 369
A L Parv, B A Deaky, R Stasiak-Betlejewska

Studies on structural MWCNT/epoxy nanocomposites for EMI shielding applications 375
C Paun, C Obreja, F Comanescu, V Tucureanu, O Tutunaru, C Romanitan, O Ionescu, D E Gavrila, V Manescu Paltanea, V Stoica, G Paltanea

An approach regarding some performances of a FESTO pneumatic muscle actuator 385
I M Petre

Influence of process parameters on the AWJ cutting of the AL-EN AW 2017A (T4) aluminium alloy 392
M C Radu, C Schnakovszky, B A Chirita, N C Tampu, V A Ciubotariu, E Herghelegiu

Mobile emergency notification apps: current state, barriers and future potential 399
R Repanovici, A Nedelcu

Study of the deviation of shape for the parts obtained by additive manufacturing 410
A D Rizea, D C Anghel, D M Iordache

Making Industry 4.0 functionalities understandable based on the production of a model car 418
S Roman, C Bunsen

Multi-operative modular tool for cutting and mechanical hardening 431
D M Rosca, M Folea

Analysis of scheduling activities in the processes of improving surface characteristics of parts 436
M M Roșu, L Vlădăreanu, M Iliescu

Comparison between aluminum alloys behavior in incremental sheet metal forming process of frustum pyramid shaped parts 442
G P Rusu, A Bârsan, M O Popp, A Maroșan

Research on reliable running time of motorized spindle based on health indicator 449
Z Si, L Fan, Z Jia, J Liu

Robotized application of assembly and soldering – case study 460
I Staretu

Generation of precessional gear teeth by plastic deformation 466
N Trifan, R Ciobanu, O Ciobanu

Investigation of an axial hydrokinetic turbine with the CFD program Flow Simulation 471
K Tuzharov, S Iliev, V Vilag, J Vilag

Stress and vibration analysis of a drone 480
M Urdea

Static and dynamic characteristics analysis of self-balancing motorized spindle 487
Z Wang, W Z He, H M Zhou, S Y Du

Continuous improvement of the quality management system within an automotion company in Romania 495
M V Zerbes, L G Popescu, M Olteanu, A Olteanu

Study on vibration characteristics of motorized spindle based on multi-physics fields 507
K Zhang, Z N Wang, Z Wang, Q Y Wang, J Ma

Moving object detection of assembly components based on improved background subtraction algorithm 513
K Zhang, S Tong, H Shi, G Yue, J Zhao
