

XXIX R-P-S Seminar 2020

IOP Conference Series: Materials Science and Engineering
Volume 1015

Wroclaw, Poland
30 November – 4 December 2020

Editors:

Zbigniew Wójcicki
Jacek Grose
Monika Podwórna

ISBN: 978-1-7138-4549-2
ISSN: 1757-8981

TABLE OF CONTENTS

Preface	
Peer review declaration	
First and second order sensitivity analysis of discontinuous parametric periodic systems..... 1 <i>Z Wojcicki</i>	1
Calculation of an inhomogeneous polymer thick-walled cylindrical shell taking into account creep under the action of temperature load 12 <i>V I Andreev, S A Sereda</i>	12
Absorbers impact on the reliability of structures subjected to random vibrations..... 19 <i>M Podworna, J Grosel, P Sniady</i>	19
A slightly compressible hyperelastic material model with the Mullins effect..... 26 <i>S Jemioło, A Franus</i>	26
Third formulation of the space-time finite element method 35 <i>Z Kacprzyk</i>	35
Analysis of a reinforced concrete dome 41 <i>P Czumaj, S Dudziak, Z Kacprzyk</i>	41
Dynamic and static response of a slightly compressible hyperelastic solid..... 50 <i>A Franus, A Marek</i>	50
Modern lightweight deployable engineering structures..... 60 <i>A Al Sabouni-Zawadzka, A Zawadzki, W Gilewski</i>	60
The associated non-stationary thermal elasticity problem for a two-layer plate..... 64 <i>D A Shlyakhin, Zh M Kusaeva</i>	64
Related thermoelastic elastomeric task for cylinder 71 <i>D A Shlyakhin, M A Kalmova</i>	71
Hybrid cross-tie system with passive dampers study 78 <i>M Pustovalova, A Konovalov, Y Selivanov</i>	78
On the problem of oscillation control of viscoelastic mechanical systems with integral after effect 83 <i>T Bobyleva, V Chernik, A Shamaev</i>	83
Experimental - theoretical study of the stress-strain state of cable-stayed-rod systems of the dome type 89 <i>A D Akhmedov, I V Loseva, M A Kalmova</i>	89
Parametric study of the stress state of beams with round holes in pure bending 95 <i>S Saiyan, A Paushkin</i>	95
Numerical study of the stress-strain state of the vertical four-compartment cylindrical tank 101 <i>S Saiyan, A Paushkin</i>	101
The regions of dynamic instability of a plate, the material of which obeys the hereditary law of viscoelasticity, at the second resonance..... 108 <i>E Kosheleva</i>	108

Reliability of a reinforced concrete frame building under earthquake	113
<i>O Mkrtychev, S Bulushev</i>	
Natural frequencies of plates of medium thickness	119
<i>A N Leontiev, T N Gorbunova, M R Missurin</i>	
Analysis of the impact of shallow subway train traffic on urban development.....	124
<i>V A Mitroshin, V L Mondrus</i>	
Determination of dynamic parameters of the elastically supported beam system model by optical and numerical methods.....	129
<i>S Gridnev, I Ravodi, V Volko</i>	
Stress-stain state in elastic spherical shells under the action some asymmetrical of circular loads.....	139
<i>A Astakhova</i>	
Different models of connection flexibility in dynamic analysis of plane frame systems	145
<i>T T V Tran, T H Tran</i>	
Mixed finite element formulation for the nonlinear analysis of buckling behavior of truss under effects of temperature variation	152
<i>V T B Quyen, D N Tien, T M Khuyen</i>	
Using COSMOSWORKS abilities in construction glass strength research.....	162
<i>V Alpatov, O Y Veremeenko</i>	
Plate tensegrity structures controlled with self-stress.....	168
<i>K Martyniuk-Sienkiewicz, A Al Sabouni-Zawadzka</i>	
Design and modeling of glulam beams with holes	176
<i>J Pelczynski, P Brodniewicz, A Al Sabouni-Zawadzka, W Gilewski</i>	
Derivation of statistical parameters for flexure and shear resistance of reinforced concrete beams	186
<i>Z Abdullah, M Lutomirska</i>	
Investigation of shear connection between new and old concrete layers.....	196
<i>P Kotes, M Vavrus</i>	
Investigation of the influence of heat protection characteristics of protecting designs on residential buildings heat storage capacity.....	202
<i>Yu S Vytchikov, A A Chulkov, V A Golikov</i>	
On the need to take into account the effect of wind on the frame of thin-walled steel structures during installation.....	208
<i>A V Soloviev, O N Solovieva</i>	
Numerical verification of the saw-cut method	214
<i>J Kralovanec, M Moravcik</i>	
Results of the study of vibrations of concrete structures of the hydropower plant building.....	221
<i>S V Evdokimov, V A Seliverstov, A A Orlova</i>	
To the optimization model of flexible reinforced concrete elements in monolithic frames of buildings	227
<i>A G Tamrazyan</i>	

Geometric and physio-mechanical characteristics of the contact layer area of multilayer reinforced concrete structures	236
<i>E A Korol, Vu Dinh Tho</i>	
Investigation of the humidity regime of multilayer enclosing structures of buildings and structures	246
<i>Yu S Vytchikov, M E Saparev, A B Kostuganov</i>	
Degradation of wooden products used in non-ventilated flat roofs	254
<i>P Juras</i>	
The use of included stiffeners to strengthen the frames of one-story industrial buildings	261
<i>O Yu Veremeenko, V Yu Alpatov</i>	
Accumulation of damage in reinforced concrete elements under cyclic loads	266
<i>O Mkrtychev, E Lokhova</i>	
Theoretical-experimental analysis of selected passive timber house wall	276
<i>D Michalkova, P Durica</i>	
Assessment features of bearing capacity of large-span covering constructions in the reconstruction of religious Orthodox buildings	282
<i>A P Shepelev, R R Ibatullin</i>	
Hydraulic aspects of the layout of head structures during water intake from lowland rivers	290
<i>D Bazarov, I Markova, B Norkulov, O Vokhidov</i>	
Geometric and static analysis of the historical truss of the medieval truss Church of St. Martin in Dolni Újezd	298
<i>P Krusinsky, J Gocal, M Holesova</i>	
Passage of low temperature piping through the external wall	304
<i>J Lestach, R Ponechal</i>	
The influence of the climatic features of the construction area on the level of energy-efficient thermal protection of the office buildings	309
<i>A A Frolova, E G Malyavina</i>	
Identification of the collapse of the load-bearing facade cladding system of a building	316
<i>D Papan, Z Papanova, M Scotka</i>	
Experimental studies of wind impact on religious buildings	325
<i>O I Poddaeva, A N Fedosova, J S Gribach</i>	
Interaction of compressible barrette with surrounding soil and raft	331
<i>Z G Ter-Martirosyan, Dam Huu Hung</i>	
Predicting the settlement of foundation bases taking into account induced anisotropy	341
<i>Z G Ter-Martirosyan, A Z Ter-Martirosyan, I N Luzin</i>	
Numerical modeling of freezing of structural objects in transition zones of railways	347
<i>S Hodas, A Pultznerova</i>	
Shallow and deep foundations on permafrost soils at changing climate conditions	356
<i>A V Stupivtsev, L I Cherkasova</i>	
Long-term vibration laboratory tests of sandy soils	364
<i>A Z Ter-Martirosyan, E S Sobolev</i>	

Engineering and geological features of technogenic deposits and cultural layers in the territory of Samara.....	370
<i>D Vasilieva, M Baranova, A Maltsev</i>	
Experience in forecasting long-term settlements of energy facilities based on monitoring data analysis.....	379
<i>A Z Ter-Martirosyan, V V Sidorov</i>	
Concept of management of the technolandscapes through the creation of innovative coal-watercoal clusters.....	388
<i>T V Zommer, S N Chernyshev</i>	
Preliminary results of geodetic diagnostics of transition areas of ballastless track.....	394
<i>J Izvoltova, J Chromcak, P Pisca</i>	
Map bases used for ecological stability assessment of land.....	399
<i>J Chromcak, A Seidlova</i>	
The role of underground urbanization in Samara city geological processes.....	404
<i>D Vasilieva, A Maltsev, M Baranova</i>	
Deformation analysis of a construction pit in high-plasticity clay.....	411
<i>R Bulko, J Mihalik</i>	
Investigation of the diaphragm wall isolation of vibrations' transferred through the subsoil.....	417
<i>M Wyjadlowski, J Grosel, Y Tyulyaeva</i>	
Long Short-Term Memory (LSTM) neural networks in predicting fair price level in the road construction industry.....	423
<i>H Anysz, L Brzozowski</i>	
Construction price assessment method based on inferential statistics.....	431
<i>L Remek, J Mikolaj, L Mikulova, M Durinova</i>	
Diagnostics data in the framework of railway tracks maintenance.....	440
<i>J Sestakova, A Pultznerova</i>	
The cost of repairing damage caused by the inadequate demolition of walls in a multi-family building.....	448
<i>M Sawicki, M Szostak</i>	
New flame-retardant composition for lowering contribution of expanded poly styrene to the propagation of fire.....	455
<i>A M Mochalov, M V Akulova, J A Sokolova, A G Sokolova</i>	
Relationship between water permeability and physical characteristics of polyolefins, vinyl polymers, and polycarbonates.....	460
<i>T A Matseevich, T V Zhdanova, A V Matseevich, A A Askadskii</i>	
Structure and properties of polyepoxyurethane-containing isocyanurate polymers.....	467
<i>T A Matseevich, M D Kejmakh, A A Askadskii</i>	
Optimization of technological parameters of reinforced concrete production.....	475
<i>A G Chiknovoryan, S A Mizuryaev, A Yu Zhigulina</i>	
Technical condition of apartment buildings in the central regions of Russia.....	480
<i>M I Balzannikov</i>	

Influence of type and quantity of magnesium additive on the hardening process of alumina cement-based cement stone	486
<i>N Chumachenko, V Tyurnikov</i>	
Claydite dust - a unique technogenic raw material for heat-resistant concretes production.....	491
<i>A Khlystov, D Isaev, V Suldin</i>	
Developing physical and mathematical models of the water-air mode of gravity drainage network	497
<i>V Orlov, S Zotkin</i>	
Influence of mineral aggregate on asphalt pavement surface properties	505
<i>E Remisova, N Holesova, M Brna</i>	
Feasibility analysis for revitalisation of unused rail infrastructure.....	512
<i>D Sitanyiova, S Masarovicova</i>	
Remote monitoring of road structures' condition as a way to increase the durability of motorway	521
<i>T V Dormidontova, A V Filatova</i>	
Development of an algorithm for implementation of operation control automation systems using BIM technologies for a capital construction facility	526
<i>O V Didkovskaya, O A Guzhova, M F K Hairullin</i>	
Environment impact on the humidity change of beams from timber and glulam - experimental investigation	531
<i>A Lesko</i>	
Research of qualitative properties of soils during construction works	539
<i>Y M Galitskova</i>	
Requirements for engineering protection of structures and territories for the safe investment project implementation.....	545
<i>P A Zhuravlev, A M Marukyan</i>	
Principles of construction technical expertise (expert examination) informatization.....	552
<i>N V Lazareva, A Y Zinoviev, E M Kochenkova</i>	
Organizational solutions for ensuring the quality of construction of nuclear power facilities	558
<i>E Bachus, S Sborshikov, I Markova</i>	
Economic substantiation of construction of narrow profile hydraulic-fill structures	563
<i>A A Mikhasek, M V Rodionov, R R Mingafin</i>	
Improving sintering by lowering the temperature of melt formation during firing	569
<i>N Chumachenko, I Khafizov, D Kizilova</i>	
Economic justification for the use of narrow-profile structures for flood protection	573
<i>M I Balzannikov, A A Mikhasek, M V Rodionov, R R Mingafin</i>	
Influence of window constructions on the creation of the working environment of buildings in the warm season	579
<i>P Durica, P Barnak</i>	
Synthesis of air-curing phosphate binders and heat-resistant composites based on them	585
<i>A I Khlystov, V A Shirokov</i>	

Influence of compaction on the deformation resistance of the sub-ballast layer.....	591
<i>P Dobes, L Izvolt</i>	
Research of the deformation of the shaping unit in an auger extruder caused by the extruding pressure in production of expanded clay	598
<i>K S Galitskov, M A Nazarov, V A Borisov</i>	
On the technology of aluminosilicate and high-alumina phosphate hardening products.....	603
<i>A Vlasov, E Vlasova</i>	
Analysis of various types of loads from a multi-layer structure of green roof systems.....	610
<i>E A Korol, N S Shushunova</i>	
The assessment of autonomy indexes of socially significant elements of urban infrastructure for creating a safe living environment.....	616
<i>L A Shilova</i>	
Compressive Properties of BFRP and HFRP Bars	623
<i>K Protchenko, M Salha, M Urbanski, P Narloch</i>	
Use of photovoltaic systems in the construction of wooden houses in a sustainable standard.....	633
<i>A Iringova, M Kovacic</i>	
Improvement of Larsen sheet pile retaining wall structures with the use of coarse-porous concrete.....	641
<i>A A Mikhasek, M V Rodionov, A A Bezuglov</i>	
Approaches to predicting the characteristics of fireproof materials	649
<i>T Eremina, D Korolchenko, F Portnov</i>	
Research of a new flame retardant material with set parameters of operational properties taking into account features of glued wooden structures	655
<i>D Korolchenko, L Rodionova</i>	
Modal split analysis through the traffic volumes.....	662
<i>M Drliciac, J Celko, M Cingel</i>	
The environmental impact of asphalt mixtures production for road infrastructure	668
<i>Z Florkova, S Sedivy, J Pastorkova</i>	
Increasing the economic sustainability of winter road maintenance processes through the use of technological innovation	677
<i>S Sedivy, L Mikulova, Z Florkova, G Gaspar</i>	
Justification of the possibility of laying cable communication lines at the side of roads	688
<i>M V Rodionov, T V Dormidontova, S E Lavrov</i>	
The influence of the pavement surface texture on the Pendulum Test Value.....	694
<i>M Kovac, M Brna</i>	
Issues of traffic surveys within the TRANS TRITIA project	705
<i>P Danisovic, M Pitonak, M Trnka, R Ondrejka</i>	
Requirements and practice from measuring the deformation resistance of the formation of the railway subgrade of the Slovak railways modernized line Plevnik-Drienové-Bytča-zilina	712
<i>M Mear, A Pultznerova</i>	

Economic aspects of pavement surface degradation in terms of noise pollution in their surroundings	719
<i>M Trojanova, M Decky, A Ivanovicova, K Hodasova</i>	
Sustainability obstacles of free bike-sharing model	727
<i>A Kocianova, L Slebodnik</i>	
Impact of environmental actions on steel structures.....	735
<i>M Jancula, J Vican, A Spiewak</i>
