

# **International Conference on Mechanical Engineering, Automation and Control Systems (MEACS 2020)**

IOP Conference Series: Materials Science and Engineering  
Volume 1064

Novosibirsk, Russia  
17 September 2020

## **Editors:**

**Vadim Skiba**  
**Nikita Martyushev**

ISBN: 978-1-7138-4575-1  
ISSN: 1757-8981

**Printed from e-media with permission by:**

# TABLE OF CONTENTS

MEACS-2020

Peer review declaration

Modelling of the optimal height of the variable edge of a volumetric anti-filtration geotextile coating for restoring failed water supply structures.....	1
<i>M A Bandurin, I P Bandurina, V V Vanzha, P G Pasnichenko, V T Tkachenko</i>	
Evaluation of the effect of various types of tools on a weld joint during wave strain hardening.....	7
<i>A V Kirichek, S V Barinov, A V Yashin, M N Ryzhkova, A M Konstantinov, A A Zaitsev</i>	
Investigation of loading speed influence on fatigue wear of - polymer materials .....	14
<i>D C S Bataev, R U Goytemirov, M A Gaziyeu, M A DzhamaIdinova</i>	
New nitriding process of high-alloyed maraging steel for cryogenic operation.....	19
<i>I S Belashova, P S Bibikov, L G Petrova, A S Sergeeva</i>	
Mathematical model of a radial sliding bearing with a porous layer on its operating surface with a low-melting metal coating on shaft surface.....	25
<i>K S Akhverdiev, E A Bolgova, M A Mukutadze, V V Vasilenko</i>	
Automation of the procedure for assessing the quality of transport service for the population in the conditions of digitalization of the railway transportation system .....	32
<i>T A Bulokhova, V A Olentsevich, V Yu Konyukhov, D A Lysenko</i>	
Development of electric power systems based on the use of intelligent technologies .....	42
<i>Y D Burda, A V Kosygina, I O Volkova, M V Gorgisheli, A Y Yakovleva, K V Suslov</i>	
Reduction of mine methane emissions for ensuring sustainable development of geotechnologies in the transition to Industry 3.0.....	54
<i>A K Dzhioeva, A V Tekhov</i>	
Photo-, cathodic- and electroluminescence-band models in solid (SiC) <sub>1-x</sub> (AlN) <sub>x</sub> luminescence centers and SiC/SiC-AlN LEDs .....	59
<i>R Kh Dadashev, A V Sankin, V I Altukhov, G K Safaraliev, D Z Elimkhanov, V F Antonov</i>	
Designing mining machinery screw modules.....	66
<i>V A Evstratov, E Yu Voronova, Yu N Linnik, V Yu Linnik, A S Apachanov, V I Grigoryev, V A Suxarnikova</i>	
Prospects for power supply infrastructure enhancement.....	74
<i>E V Gavrikova, M V Gorgisheli, A V Kosygina, I O Volkova, A Y Yakovleva, I A Dolmatov, K V Suslov</i>	
Description of automated functions of high-tech production of nanostructures based on silicon dioxide to improve the properties of building and structural materials .....	83
<i>R S Zott, A M Gladkih, V Yu Konyuhov</i>	
The main technical solutions for the creation of an automated control system for the technological process of thermal vortex enrichment.....	90
<i>V O Gorovoy, A S Govorkov, V V Kondrat'ev, R V Kononenko, A M Pestova</i>	

Automation of individual operations of the transport process to create sufficient conditions for the efficient functioning of digital transport and logistics .....	98
<i>E A Guseva, M V Konstantinova, V A Olentsevich, V Yu Konyukhov, A A Olentsevich</i>	
Identification of generalized Cobb-Douglass production functions with multiplicative errors in variables .....	107
<i>I L Sandler, D V Ivanov, M Yu Lifshits, A N Diligenskaya</i>	
Selection of tools and cutting modes for turning small-sized high-precision parts of micro-wave electronics from beryllium bronze.....	112
<i>Yu I Karlina, S K Kargapoltsev, V E Gozbenko, A I Karlina, D S Leonovich</i>	
Automation of preproduction processes for high-precision small-sized parts on CNC machines.....	120
<i>Yu I Karlina, S K Kargapoltsev, V E Gozbenko, D S Leonovich, A I Karlina</i>	
Algorithm for calculating the time of thermal pulse processing of small-sized high-precision parts.....	126
<i>A I Karlina, V A Ershov, S K Kargapoltsev, V E Gozbenko, Yu I Karlina</i>	
Interaction algorithm of the mechanisms of relative manipulation in a 6-DOF robot control system.....	132
<i>S Y Khalapyan, L A Rybak, E V Gaponenko, L R Kholoshevskaya</i>	
Automation of failure forecasting on the subsystems of the railway transport complex in order to optimize the transportation process as a whole .....	141
<i>M V Konstantinova, A A Olentsevich, V Yu Konyukhov, E A Guseva, V A Olentsevich</i>	
Machine-building enterprise performance and quality improvement tools .....	149
<i>V Yu Konyuhov, A M Gladkih, R S Zott</i>	
Assessment of the adhesion strength of composite curved elements.....	156
<i>S I Koryagin, O V Sharkov, N L Velikanov</i>	
A method for monitoring the violation of the integrity of pipeline communications using a radio wave vibration sensor.....	162
<i>A E Pilipenko, E V Rudyaga, V V Kukartsev, V S Tynchenko, S O Kurashkin, D V Rogova</i>	
The use of reliability indicators in the design of die tooling of technological processes of hot die forging .....	169
<i>A V Kutyshkin, A V Shashok, T B Brylova</i>	
Formation of new principles and models of operation of structural units of the industry under the conditions of implementation of digital technologies.....	176
<i>D A Lysenko, V A Olentsevich, N V Vlasova, V Yu Konyukhov</i>	
Analytical method in the study of kinematics of process machinery mechanisms.....	186
<i>B N Orlov, M A Karapetyan, A S Matveev</i>	
Description of information support of the automated control system for the technological process of thermal vortex enrichment.....	196
<i>S A Nebogin, V V Kondrat'ev, V O Gorovoy, R V Kononenko, T A Oparina</i>	
Development and justification of parameters of a microwave installation for pre-planting treatment of vegetable seeds.....	204
<i>O V Mikhailova, G V Novikova, M V Belova, A I Kotin, A V Kazakov, A A Tikhonov</i>	
Automation of the splitting-up processes of freight trains on the gravity sorting yards in the railway transport system.....	214
<i>A A Olentsevich, V Yu Konyukhov, E A Guseva, M V Konstantinova, V A Olentsevich</i>	

Mathematical model of a journal bearing with low-melting and porous coating in its structure on different contacting surfaces with incomplete filling of operating clearance .....	223
<i>M A Mukutadze, A V Morozova, A N Opatskikh, N S Zadorozhnaya</i>	
Using refrigeration machines and heat pumps in the cycle of oil preheating using electricity.....	231
<i>K V Osintsev, A N Shishkov</i>	
Modernization of technological equipment in the waste water purification process behind the coke oven using the organic Rankine cycle .....	235
<i>A N Shishkov, K V Osintsev</i>	
Increasing the energy efficiency of the industrial enterprise technological and mechanical equipment due to the use of converter steam.....	240
<i>K V Osintsev, A N Shishkov</i>	
Combined thermochemical treatment of steel construction parts to increase their corrosion resistance .....	245
<i>L G Petrova, P E Demin, A S Sergeeva</i>	
Calculation of sealing pressures of shut-off valves .....	252
<i>V K Pogodin, Yu I Belogolov, V E Gozbenko, S K Kargapoltsev, V A Olentsevich, A M Gladkih</i>	
Method for determining the sealing forces in a shut-off valve.....	259
<i>Yu I Belogolov, V K Pogodin, V E Gozbenko, S K Kargapoltsev, V A Olentsevich, A M Gladkih</i>	
Methodology for the implementation of a technological solution, taking into account the optimization of production business processes based on simulation.....	265
<i>I I Shanin</i>	
Geotechnical monitoring of frozen soils: problems and possible solutions.....	271
<i>A I Potapov, A I Shikhov, E N Dunaeva</i>	
Method for determining the reduced parameters of the mixer gear drive.....	276
<i>Y I Podgornyy, V Y Skeebea, T G Martynova, P Y Skeebea, D V Lobanov, N V Martyushev</i>	
Studying the dynamics of contact interactions during machining based on a system of nonlinear piecewise linear differential equations .....	283
<i>D V Vasilkov, A S Alexandrov, V V Golikova, T B Kochina</i>	
Modeling of contact interactions in lathe turning with accounts for rheology in the cutting zone.....	289
<i>D V Vasilkov, V S Cherdakova, M S Bundur</i>	
Automated calculation method effect values in load securing elements fixed on a rolling stock.....	295
<i>N V Vlasova, V A Olentsevich, V Yu Konyukhov, D A Lysenko</i>	
Influence of artificial filler made of calcium hydrosilicates of various basicity on the performance characteristics of non-autoclave hardened silicate materials .....	303
<i>A A Volodchenko</i>	
Hydraulic control valve spool restoration by composite galvanic coating .....	310
<i>E M Yudina, M R Kadyrov, A S Serguntsov, G E Samurganov</i>	
Mathematical modelling of operation of the hydraulic support system of the powered support sections with impulse-free continuous regulation of its resistance to the roof rock lowering .....	314
<i>V V Gabov, N V Babyr, D A Zadkov</i>	

Standardization and control of thread parameters of a roller-screw gear .....	324
<i>V S Zavyalov, M E Fedosovsky, N K Maltseva, V V Degtyarev, I P Boldyrev, A G Sharshov</i>	
Recognition of structural elements of mechanical engineering as a solution to data formalization problem.....	334
<i>I V Fokin, N V Podrez, A N Smirnov, A S Govorkov</i>	
Formation of “undercuts” on titanium case parts .....	340
<i>M V Lavrentyeva, V V Mironenko</i>	
Pressure calculation for preliminary formation of undercuts prone to defect of fold type .....	348
<i>M V Lavrentyeva, V V Mironenko</i>	
On the issue of compensation of spring fittings for parts made by longitudinal stretching.....	356
<i>V V Mironenko, A S Govorkov</i>	
Identification of problem parts made by longitudinal stretching when compensating for springing.....	363
<i>V V Mironenko, A S Govorkov</i>	
Assessment of strength of elements produced using 3D printing technology .....	373
<i>A Yu Perelygina, V B Raspopina, A V Rudykh, P A Grigorov</i>	
Optimization of the gas collection and treatment system of the Beregovoye gas condensate field.....	382
<i>A A Karimova, E M Almukhametova, F F Fakhrutdinov</i>	
Theoretical and practical aspects of absorbing layers insulation in the conditions of hydraulically perfect modes of grouting solutions injection.....	387
<i>A P Averyanov, V E Andreev, A P Chizhov, V Sh Mukhametshin, A V Chibisov</i>	
Development regulation of oil and gas reservoirs based on effective geological and geophysical information .....	395
<i>D A Batalov, V E Andreev, V V Mukhametshin, L S Kuleshova</i>	
Scientific and methodological basic principles for determining design of clay acid treatments applied to wells.....	403
<i>D I Akhmetshina, V V Mukhametshin, L S Kuleshova, D A Batalov</i>	
Modeling of clay acid effects on the bottomhole zone of wells .....	410
<i>A R Safiullina, V V Mukhametshin, L S Kuleshova, D A Batalov</i>	
Geological and technological justification of the parameters of acid-clay treatment of wells .....	415
<i>A Kh Gabzalilova, D A Batalov, V Sh Mukhametshin, V E Andreev</i>	
Oil and gas well drilling technology based on the system approaches and the results of application .....	423
<i>R R Gazizov, A P Chizhov, V E Andreev, A V Chibisov, V V Mukhametshin, L S Kuleshova</i>	
Process modeling of gas displacement of oil on the example of oil fields in Bashkortostan .....	429
<i>E R Efimov, A P Chizhov, V Sh Mukhametshin, A V Chibisov, V E Andreev</i>	
Geological, technological and technical justification for choosing a design solution for drilling wells under different geological conditions.....	436
<i>V G Mukhametshin, G S Dubinskiy, V E Andreev, V V Mukhametshin, L S Kuleshova</i>	
Modeling the production of hard-to-recover oil reserves using thermal methods .....	444
<i>A A Gizzatullina, T N Minnivaliev, I Sh Mingulov</i>	

Two-stage stimulation of the oil formation .....	452
<i>N A Vorsina, G R Izmaylova</i>	
Simulation of the method of excitation of pulsations in a moving fluid flow .....	457
<i>M L Galimullin, M Ya Khabibullin, R I Suleimanov</i>	
Modelling viscous fluid filtration to select optimal bottom-hole filter designs.....	463
<i>N N Soloviev, M Ya Khabibullin</i>	
Improving the efficiency of horizontal wells at multilayer facilities.....	470
<i>R R Khuzin, V Sh Mukhametshin, D A Salikhov, V E Andreev, D V Pepelyaev, Yu N Stefanovich</i>	
The choice of technologies for restoring the properties of the bottomhole zone of wells in deposits with low-viscosity oils.....	478
<i>R F Yakupov, Sh G Mingulov, I Sh Mingulov</i>	
Geological and technological substantiation of waterflooding systems in deposits with hard-to-recover reserves .....	483
<i>V Sh Mukhametshin, K T Tyncherov, N Rakhimov</i>	
Using the method of canonical discriminant functions for a qualitative assessment of the response degree of producing wells to water injection during the development of carbonate deposits .....	487
<i>V V Mukhametshin, L S Kuleshova</i>	
Microwave separation of persistent oil emulsions.....	495
<i>R A Nafikova, N N Soloviev, Sh G Mingulov, A R Safiullina</i>	
Enhancement of efficiency of the hydraulic distributor of the hydraulic drive of the bottom-hole pump.....	500
<i>R I Suleimanov, M Ya Khabibullin</i>	
Selection and justification of efficiency parameters of a noise-resistant downhole telemetry system .....	507
<i>K T Tyncherov, V Sh Mukhametshin, N Rakhimov</i>	
Geological and technological justification of the bottom-hole zone treatment of wells and formations of the Langepas group of fields.....	512
<i>S A Yaskin, V V Mukhametshin, L S Kuleshova</i>	
Appropriate use of dissolved gas energy in fields at the final stage of development .....	516
<i>L F Yusupova, E M Almukhametova, D S Nosirov, A R Safiullina</i>	
Thermomanometric system for diagnosing the technical condition of the ESP by the level of its vibration .....	523
<i>L Z Zainagalina, E B Dumler</i>	
Analytical studies of bottom hole assembly dynamics in directional well while drilling with coiled-tubing system.....	531
<i>L Z Zainagalina, E Ya Zinatullina, A R Safiullina</i>	
Mathematical model of propagation of liquid vibrations in a tubing string .....	538
<i>L M Zaripova</i>	
A mathematical model of a vibrator with an axial striker mechanism .....	543
<i>L B Khuzina, L M Zaripova, M S Gabdrakhimov</i>	

Influence of oscillatory phenomena in vertical well on volume of outflow from production string ..... 548  
*L M Zaripova, M S Gabdrakhimov*
