# TABLE OF CONTENTS

## PART I

Preface

Peer review declaration

Study review of the electrical power generation: Wave energy converting device system from the swell .....	1
<i>J V Taboada, V D Casás, X Yu, G M Gemilang, P Sampaio</i>	
A compensation scheme applied on wind turbine blade pitch control for the reduction of non-torque main shaft loads .....	13
<i>R Balakrishna, Y Xing</i>	
Computational investigation of the aerodynamic performance of reversible airfoils for a bidirectional tidal turbine .....	23
<i>K E T Giljarhus, G S Shariatpanahi, O A Frøynes</i>	
Comparison of unidirectional and bidirectional airfoils in a tidal stream turbine .....	33
<i>K E T Giljarhus, J O Owolabi, O A Frøynes</i>	
Data-driven prediction of mean wind turbulence from topographic data .....	41
<i>B Morais da Costa, J P Snæbjörnsson, O A Øiseth, J Wang, J B Jakobsen</i>	
Submersible power-generating unit as an alternative energy sources .....	51
<i>A V Kolganov, V A Zemlyanovskiy, Ch S Guseinov, N N Portnyagin</i>	
Aerodynamic study of a suspension bridge deck by CFD simulations, wind tunnel tests and full-scale observations .....	59
<i>I. Kusano, E. Cheynet, J. B. Jakobsen, J. Snæbjörnsson</i>	
Dual lidar wind measurements along an upstream horizontal line perpendicular to a suspension bridge .....	70
<i>M Nafisifard, J B Jakobsen, E Cheynet, J T Snæbjörnsson, M Sjöholm, T Mikkelsen</i>	
Case study on advanced 3D finite element limit analysis of counter-acts installed at Ormen Lange .....	81
<i>C L Olsen, K Krabbenhöft</i>	
Simulation of peak tension loads in Subsea power cables during installation .....	90
<i>L Okkerstrøm, O T Gudmestad, E Pedersen</i>	
Determining reservoir parameters with nonisothermal real gas flow .....	103
<i>D A Aminev, M N Kravchenko</i>	
CFD investigation of internal elbow pipe flows in laminar regime .....	108
<i>R Taibi, G Yin, M C Ong</i>	
Numerical investigations of flow around subsea covers at high Reynolds numbers .....	117
<i>G Yin, Y Zhang, M C Ong</i>	
Burst pressure design of the cargo tank used in a novel large subsea freight-glider .....	127
<i>Y. Xing</i>	

Tuning for robust and optimal dynamic positioning control in BlueROV2 .....	143
<i>X Yang, Y Xing</i>	
Duplex steel welding in arctic conditions – Correlation of welding parameters in relation to HISC.....	161
<i>Z Czarnacki, Y Xing</i>	
Hydrodynamic model of an oil spill on the Earth’s surface and the use of expert technologies in its implementation to assess pollution methods .....	176
<i>A S Likhov, M G Gubaidullin, V B Korobov</i>	
A practical design procedure for initial sizing of heaving point absorber wave energy converters .....	186
<i>M B Jouybari, Y Xing</i>	
Validation and assessment of different RANS turbulence models for simulating turbulent flow through an orifice plate.....	199
<i>A P Jurga, M J Janocha, G Yin, K E T Giljarhus, M C Ong</i>	
Numerical study on deployment of subsea template using coupled and uncoupled model.....	214
<i>N O Hauge, L Li</i>	
Computational fluid dynamics simulation of buoyant mixing of miscible fluids in a tilted tube.....	223
<i>M Ghorbani, K E T Giljarhus, H J Skadsem, R W Time</i>	
A 2D model for the study of equilibrium glide paths of UiS Subsea Freight-Glider .....	231
<i>U N Ahmad, Y Xing</i>	
Prediction of dynamic mooring responses of a floating wind turbine using an artificial neural network.....	244
<i>F A Bjørni, S Lien, T Aa Midtgarden, G Kulia, A Verma, Z Jiang</i>	
Global analysis of floating offshore wind turbines with shared mooring system.....	254
<i>H Munir, C F Lee, M C Ong</i>	
Mathematical modelling of fluid flow in electromagnetically stirred weld pool.....	267
<i>K Enger, M G Mousavi, A Safari</i>	
Safety related study of Expanding Pin systems application in lifting and drilling equipment within Construction, Offshore, and Marine sectors .....	274
<i>Ø Karlsen, H G Lemu</i>	
Integrated computer digital decision for Offshore production automated management.....	284
<i>A G Mukhina, D A Volkov</i>	
Code for calculating wave technology of thermal-gas-chemical formation treatment for oil recovery enhancement.....	290
<i>M N Kravchenko, V E Kroshilin, N N Dieva</i>	
Burst strength analysis of composite overwrapped pressure vessel using finite element method .....	298
<i>Y Regassa, H G Lemu, B Sirhabizu</i>	
Multi-objective optimization and analysis for laser beam cutting of stainless steel (SS304) using hybrid statistical tools GA-RSM .....	309
<i>A D Tura, H B Mamo, D G Desisa</i>	
Experimental investigation and ANN prediction for part quality improvement of fused deposition modeling parts .....	319
<i>A D Tura, H B Mamo, Y D Jelila, H G Lemu</i>	

Numerical stress analysis of tubular joints .....	329
<i>A Santacruz, O Mikkelsen</i>	
Thermal stress analysis of disc brake using analytical and numerical methods .....	343
<i>I T Jiregna, H G Lemu</i>	
Characterization of acoustic emission signals under 3-point bending test .....	354
<i>B G N Nguyen, H G Lemu, O Gabrielsen, I El-Thalji</i>	
Study of rail-wheel contact problem by analytical and numerical approaches.....	366
<i>G G Sirata, H G Lemu, K Waclawiak, Y D Jelila</i>	
Review on fatigue life assessment methods for welded joints in orthotropic steel decks of long-span bridges.....	377
<i>B Villoria, S C Siriwardane, H G Lemu</i>	
Tension testing of additively manufactured specimens of 17-4 PH processed by Bound Metal Deposition .....	392
<i>F Bjørheim, I M La Torraca Lopez</i>	
Lateral torsional buckling capacity of corroded steel beams: A parametric study .....	402
<i>G Kullashi, S C Siriwardane, M A Atteya</i>	
Bending capacity of multi-layered FRP pipelines during offshore installation.....	413
<i>Dimitrios Pavlou</i>	
Subsea FRP pipeline performance in external pressure: Failure and external pressure-induced buckling.....	433
<i>Dimitrios Pavlou</i>	
Overview study on challenges of additive manufacturing for a healthcare application .....	441
<i>Y W Adugna, A D Akessa, H G Lemu</i>	

## PART 2

Bending-induced local buckling during offshore installation of multi-layered FRP pipelines.....	454
<i>D Pavlou, N D Adasooriya</i>	
Recent work and prospective analysis on offshore structures and marine energy harvesting at the Faculty of Engineering of the University of Porto .....	461
<i>F Taveira-Pinto, P Rosa-Santos, T. Fazeres-Ferradosa</i>	
FRP pipeline performance in tensional and torsional S-lay installation loads.....	468
<i>Dimitrios Pavlou</i>	
Environment-assisted fatigue of steel bridges: A conceptual framework for life assessment .....	477
<i>J S S Sandviknes, N D Adasooriya, D Pavlou, T Hemmingsen</i>	
Mechanical response and strength characteristics of aluminum honeycomb sandwich panels for infrastructure engineering.....	484
<i>S P Zaoutsos</i>	
Fatigue life analysis of wheel-rail contacts at railway turnouts using finite element modelling approach .....	492
<i>Y D Jelila, H G Lemu, W Pamula, G G. Sirata</i>	

Solutions for monitoring the technical condition of metal structures and pipelines located at an altitude.....	507
<i>V V Pshenin, A V Borisov, S O Menshikov</i>	
Local and global assessments of a subsea riser-spool connection under dropped impact loads.....	514
<i>Z Liu, R Iglund, S Bruaseth</i>	
A simple machine learning based framework for processing the inline inspection data of subsea pipelines .....	523
<i>Z Liu, S S Dahl, E S Larsen, Z Yang</i>	
Experimental investigation on the mechanical and chemical properties of lightweight aggregate concrete with CO <sub>2</sub> curing .....	534
<i>Z Wang, S Dehestani, S Kakay, Y Sha</i>	
Capacity of concrete structures with corroded reinforcement and prestressing tendons .....	545
<i>M Sigvaldsen, G Ersdal, G Markeset, S Samarakoon, M Langeteig</i>	
Experimental and numerical evaluation of the axial capacity of cracked tubular members.....	561
<i>S Riise, M R Vågen, M Atteya, G Ersdal</i>	
Effect of SiO <sub>2</sub> and SiO <sub>2</sub> /TiO <sub>2</sub> hybrid nanoparticles on cementitious materials .....	577
<i>J Nori, S Kakay, M Belayneh</i>	
Current methods of subsea production systems survey in the conditions of the Arctic region .....	589
<i>E Smirnov, U Kharchenko</i>	
A methodology for collecting donning times of thermal protective immersion suits intended to be worn by passengers on vessels operating in cold environments.....	596
<i>R Brinig, E R Galea, B M Batalden, H A Oltedal</i>	
Study of the metocean conditions for the Russian Arctic Shelf development projects approaches and results: Review for the period of 2012-2021 .....	611
<i>I V Buzin, Y P Gudoshnikov, A V Nesterov, A K Naumov, E A Skutina, K G Smirnov, O M Andreev, R A Vinogradov, S A Novikov, A A Skutin</i>	
Identifying challenges facing reliable supply chains and ways to mitigate them for mining in the Baffin Bay region.....	622
<i>J Taarup-Esbensen, O T Gudmestad</i>	
Use of digital technology to follow the consequences of a warming Arctic climate.....	637
<i>L B Hætta Myrmel, O T Gudmestad</i>	
Status and needs for ice tank testing in a changing climate.....	644
<i>P Jochmann, G Ziemer, D Myland, N Reimer, Q Hisette</i>	
Problems of development and economic evaluation of production of natural hydrocarbons on the offshore of the Arctic Seas .....	656
<i>Y Bogatkina, N Eremin, O Sardanashvili</i>	
Research of the possibilities of the existing transport system in Russia for the transportation of goods and methane-hydrogen mixtures for export .....	662
<i>L Abukova, E Safarova, D Filippova, V Stolyarov</i>	
Transformation of oil and gas fields based on information technologies .....	671
<i>A. Dmitrievskiy, E. Safarova, V. Stolyarov, N. Eremin</i>	

Power supply and control systems for subsea production complexes in Arctic offshore fields .....	680
<i>Yu A Kharchenko, K N Krotov</i>	
Digital core modeling technology for determining the reservoir-capacitive properties of terrigenous reservoirs .....	688
<i>M G Gubaidullin, I P Belozarov</i>	
Generative adversarial networks for modeling reservoirs with permeability anisotropy .....	694
<i>R Guliev</i>	
Decarbonized LNG: Creating a path to sustainable Arctic development .....	702
<i>V A Fedorova, A O Mitryaykina</i>	
Computer technologies to determine offshore facilities suitable for the climatic conditions .....	709
<i>I Shatrovskii, A Zolotukhin</i>	
Transformation of the energy sector in the Arctic in the context of sustainable development of the region.....	717
<i>V A Fedorova, E T Kadzhaeva, K V Vovkodav</i>	
Deep learning based restoration of lost sections in Micro-CT core plugs .....	727
<i>S S Arsenyev-Obratsov, G O Plusch</i>	
Optimization approach for Arctic field development design using subsea production systems.....	738
<i>Y V Beskhizhko</i>	
Analysis of a new underwater LNG storage tank .....	746
<i>V A Zemlyanovskiy, Ch S Guseynov, A V Kolganov</i>	
Requirements for radar navigation aids for operational safety of autonomous navigation of facilities of the Arctic oil and gas complex .....	753
<i>N A Golov, A I Ermakov, S V Presnyakov, V A Usachev</i>	
Performance of waterborne polyurethane based on N-tert-butyl-diethanolamine in corrosion inhibition .....	760
<i>Y Zaripova, M Varfolomeev, R Pavelyev, A Farhadian, V Yarkovoi, S Vinogradova, I Vakhitov</i>	
Development of the digital oil and gas complex in Arctic areas of Russia .....	770
<i>A N Dmitrievskiy, N A Eremin, A T Kondratyuk, I K Basnieva</i>	
The oil and gas potential of the north of the Siberian platform and adjacent shelf .....	777
<i>A N Dmitrievskiy, N A Eremin, N A Shabalin, I K Basnieva, A T Kondratyuk</i>	
Performance of sodium lignosulfonate as thickening additive in compositions for matrix acidizing of bottom hole zone .....	784
<i>A A Sentemov</i>	
An evaluation of key challenges of CO <sub>2</sub> transportation with a novel Subsea Shuttle Tanker .....	793
<i>Y Ma, Y Xing, T H Hemmingsen</i>	
The effect of volatile organic acids and CO <sub>2</sub> on the corrosion rate of carbon steel from a Top-of-Line-Corrosion (TLC) perspective .....	803
<i>S B Gjertsen, A Palencsar, M Seiersten, T H Hemmingsen</i>	
Complex geodynamic indicators for forecasting hydrocarbon deposits in the arctic zone.....	812
<i>V A Minaev, R O Stepanov, A O Faddeev</i>	

Multi-functional oilfield production chemicals: maleic-based polymers for gas hydrate and corrosion inhibition .....	817
<i>M A Kelland, J Pomicpic, R Ghosh, C Undheim, T H Hemmingsen, Q Zhang, M A Varfolomeev, R S Pavelyev, S S Vinogradova</i>	
Top of line corrosion in gas-condensate pipelines.....	834
<i>M. Seiersten, A. Dugstad, J. Nossen, O. Sendstad</i>	
Implementing the autonomous adaptive algorithm to manage ESP operation in harsh reservoir conditions .....	842
<i>M Antonic, M Solesa, G Thonhauser, A B Zolotukhin, M Aleksic</i>	
Failure prediction of reservoir pressure maintenance system at the Prirazlomnoye Arctic Offshore field.....	852
<i>I M Kurchatov</i>	
Maintenance philosophy for an unmanned platform: A case study for an Offshore wind substation .....	860
<i>K T Tolstow, A Beiky, I El-Thalji</i>	
Azure machine learning studio and SCADA data for failure detection and prediction purposes: A case of wind turbine generator.....	872
<i>A El-Menshawy, Z Gul, I El-Thalji</i>	
Workflow and concept study to design mixed reality assisted safety training in the wind energy sector .....	888
<i>S C Joghee, I El-Thalji</i>	
Combined principal component analysis and proportional hazard model for optimizing condition-based maintenance.....	898
<i>T Bankole-Oye, I El-Thalji, J Zec</i>
