# TABLE OF CONTENTS

Preface	
Committee	
Peer review statement	
Stability analysis of a round cross-section rod from Shape Memory Alloys at reverse phase transition.....	1
<i>S A Dumanskiy</i>	
Study of the effect of differentiated cooling modes on the structure and mechanical properties of gray cast iron .....	9
<i>N I Gabelchenko, N A Kidalov, A A Belov, A I Savchenko, N V Grigoreva</i>	
Magnetostriction effects in silicone elastomers.....	15
<i>E S Kelbysheva, H H Valiev, A Ya Minaev, G V Stepanov, Yu V Korovkin, A N Vlasov, Y N Karnet, N S Snegireva, A Yu Bazin</i>	
Study of the properties of a aqueous sodium silicate film on the surface of a refractory filler .....	21
<i>N A Kidalov, N V Grigoreva, N I Gabelchenko, A A Belov, A I Savchenko</i>	
Finite-element simulation of cyclic compression of a cylinder with account for energy dissipation .....	28
<i>P V Korolev, M A Shilov, S V Fomin, L B Maslov</i>	
Characterization of flawing on feather surface of low pressure compressor blades from VT-3 titanium alloy.....	33
<i>O E Kozyreva, N I Volgina, B F Beleyubskii</i>	
Classification of viscoelastic models with integer and fractional order derivatives .....	39
<i>A I Krusser, M V Shitikova</i>	
Auxetics materials: classification, mechanical properties and applications .....	47
<i>A V Mazaev, O Ajenezza, M V Shitikova</i>	
Design of the solar panel frame of the spacecraft by 3D printing with composite materials .....	55
<i>M A Mirzaev, I G Smirnov, A I Dyshekov, V E Slavkina, M A Shereuzhev, S A Aliev</i>	
Mathematical simulation the kinetics of polymerization of vinyl ester resin using in pultrusion .....	60
<i>Y A Nasonov, A A Safonov, S A Gusev, I S Akhatov</i>	
Classification development for working modules of detail surfaces .....	65
<i>A V Sakharov, N A Rodionova</i>	
The quality improvement of polymer-surface treatment due to optimal toolpath and cutting parameters .....	70
<i>N N Tatarnikov, N V Averin, M V Trubitsin</i>	
Spring-in experimental evaluation of L-shaped pultruded profiles .....	75
<i>A N Vedernikov, A A Safonov, S A Gusev, P Carlone, F Tucci, I S Akhatov</i>	
On the issue of resistance of dispersed-filled composites, the development of cracks of mixed type.....	80
<i>I V Burukin, V A Pirozhkov, M R Rybakova, A A Skvortsov</i>	

The simulation of crack growth in rolling stock running wheel disk .....	85
<i>V V Chudin, D A Knyazev, M V Timakov</i>	
Influence of loading rate on strength characteristics of ultra high molecular weight polyethylene (UHMWPE).....	90
<i>I V Demiyanyushko, V S Nadezhdin, A S Gruzdev, O V Titov</i>	
Weight efficiency analysis of a ship carbon shaft manufactured by winding with various winding angles in layers .....	95
<i>V Yu Duradzhi</i>	
A method for reducing the fatigue crack growth rate.....	100
<i>A A Fedorov, A S Chernyatin, Yu G Matvienko, I A Razumovsky</i>	
Determination of high-gradient components of residual stress by data of test hole drilling method.....	105
<i>Egor Karakozov, Igor Odintsev, Alexander Plotnikov, Taras Plugatar</i>	
Development of invariant plasticity theory approach to construction of non-isothermal plastic flow models .....	112
<i>A D Khudyakova, Y M Temis</i>	
Reliability of strain gauge measurements to clarify the strength of structures at high temperatures.....	117
<i>M V Klymov, S V Maslov, A N Poguliaiko</i>	
Numerical methods for power equipment tube bundles vibrations studying.....	122
<i>S A Koretsky, T N Fesenko, E A Dronova</i>	
Fatigue crack development experimental simulation in a railway structures steel under working load.....	125
<i>S G Lebedinsky, G V Moskvitin, M S Pugachev</i>	
Automatic prediction of the fatigue crack trajectory in plane finite element models .....	130
<i>E A Matrosova, V V Sergienko, G P Egorov, D A Sadikov</i>	
Methods of estimating local microdeformation in the sample with defect.....	135
<i>O V Naumov, M S Pugachev, G V Moskvitin</i>	
Combined influence of seasonal processes of permafrost soils on stress and strain state of underground oil pipeline.....	140
<i>O V Naumov, G V Moskvitin</i>	
Special Rotordynamics: Finite Element Model for Pump Rotor .....	144
<i>A Nikiforov</i>	
Development of geometrically nonlinear finite element «2-D prismatic joint» using the augmented Lagrangian method.....	149
<i>F R Nizametdinov, F D Sorokin</i>	
Modelling of gears for nonlinear dynamics analysis .....	157
<i>V V Popov, F D Sorokin</i>	
Elastoplastic buckling of a cylindrical shell with initial geometric imperfections and an elastic filler at external pressure .....	163
<i>D A Samsonova, V G Bazhenov, E V Nagornyykh</i>	

Experimental investigation of elastic properties degradation in aluminum samples under cyclic loading.....	169
<i>A O Torgovanov, G V Moskvitin</i>	
Experimental study of creep and relaxation of steels at the postcritical stage of deformation .....	174
<i>M P Tretyakov, E V Feklistova, A V Lykova</i>	
Structural analysis of assemblies using non-conformal spectral element method .....	181
<i>A V Vershinin, V A Levin, A V Kukushkin, D A Konovalov</i>	
Deformation and failure of polymer composite materials under preliminary cyclic and low-velocity impacts .....	190
<i>V E Wildemann, O A Staroverov, M P Tretyakov</i>	
Antifriction wear-resistant coatings process development for sliding bearing friction surfaces of submersible pumps .....	197
<i>V E Arkhipov, M S Pugachev, G Zh Sakhvadze</i>	
Finishing lenses and ceramic products with loose abrasive using the cavitating effect .....	203
<i>A S Asaev, I A Murog, A V Ivanaiskij</i>	
Effect of Viscoelastic Layer on Contact Fatigue Damage Accumulation in Rolling Friction.....	208
<i>A R Meshcheryakova</i>	
Research of nickel-based coatings erosion-corrosion wear .....	213
<i>A N Nazarov, M V Prozhega, A Yu Ivannikov, O V Boytsova, A V Novikov</i>	
Study of the lifetime and lubricity of greases for rolling bearings .....	218
<i>A V Novikov, M V Prozhega, N I Smirnov, N N Smirnov, A N Nazarov</i>	
Laser surfacing of copper-based alloys on steel .....	223
<i>A N Prince, V P Biryukov, A P Savin, D A Starostin, D V Klevetov, T A Bazlova</i>	
Improving measurement precision and informativity under testing antifrictional materials with Timken machine .....	229
<i>S V Putintsev, S P Chirsky, S S Pilatskaya</i>	
Experimental and computational determination of hardened zones during laser hardening of steels .....	235
<i>A P Savin, V P Biryukov, D V Panov, A N Prince, V N Petrovsky, D V Ushakov</i>	
Performance study of electric pump unit bearings of spacecraft thermal control systems .....	241
<i>N I Smirnov, N N Smirnov, M V Prozhega, S A Matveev, O V Shirobokov, A V Gorbunov, O V Zheltyshev</i>	
Study of the wear resistance of alloyed powder-based hybrid materials manufactured using “KARBUL” technology .....	247
<i>N I Smirnov, M V Prozhega, N N Smirnov, M N Zelenskay, I S Pyatov, K V Shaposhnikova, S V Ladanov</i>	
Influence of geometric and physical Windbelt system parameters on instability pattern.....	252
<i>A A Afanaseva, A M Gousov, G Ya Panovko</i>	
Some applications of fractional calculus .....	257
<i>H Aleroeva, T Aleroev</i>	

Interaction model of one jaw of a vibrating jaw crusher with the processed rock, taking into account the properties of the electric motor.....	262
<i>G M Altshul, A M Gouskov, G Y Panovko, A E Shokhin</i>	
Influence of material damage on the parameters of a nonlinear longitudinal wave which spread in a rod.....	269
<i>D M Brikkel, V I Erofeev, E A Nikitina</i>	
The definition of longitudinal forces in the rail by changing its eigen frequency .....	274
<i>S V Chunin, V I Shabunovich, M G Akashev</i>	
Study of rotor dynamics considering a fluid film bearing .....	278
<i>I I Ivanov, V V Belousov, V Y Myasnikov, N N Serebriakov, D V Shadrin</i>	
The impact of nonorthogonality of the axial electromagnetic bearing disk on the stability region of a rigid rotor on a full electromagnetic suspension.....	286
<i>D V Kapitanov, A G Bobylkov, O V Kapitanova</i>	
Numerical analysis of forced vibrations of the Golden Gate suspension bridge in the case of the 1:1 internal resonance.....	291
<i>A L Katembo, V V Kandu, M V Shitikova</i>	
Evolution of disturbances that propagate in viscoelastic metamaterial .....	299
<i>D A Kolesov, V I Erofeev, V L Krupenin, A O Malkhanov</i>	
The analysis of puncheon periodic vibrations of the ultrasonic sewing machines .....	304
<i>K Y Kuznetsov, A M Markovets, L S Mazin, T A Lugantseva</i>	
On the issue of energy consumption of vibration technological machines.....	308
<i>I P Lyan, G Y Panovko, A E Shokhin</i>	
The modern approach to problems of frequency tuning solving foundations for structural elements in a turbulent medium flow .....	316
<i>N A Lykina, N G Valles</i>	
Special Rotordynamics: Simulation of Contact Rotor System.....	320
<i>A Nikiforov</i>	
Analysis of vibration isolation of a cargo mounted on polyurethane shock absorbers.....	325
<i>E A Nikitin, A E Belkin</i>	
Contact interaction of NEMS shell elements in a color noise field.....	330
<i>I V Papkova, E Yu Krylova, A V Krysko</i>	
Investigation of dynamic characteristics of spindle units of CNC lathes batch.....	336
<i>F S Sabirov, A N Bogan, I S Mikhaylov</i>	
Comparison between three mathematical models of three well defined ultrasonic NDT cases .....	341
<i>M Semenova, H Wirdelius, G Persson</i>	
Simulating oscillations of the system with piecewise-linear characteristics of elastic elements excited by self-synchronizing unbalance vibration exciters .....	347
<i>A E Shokhin, K V Krestnikovskii</i>	
Capabilities of vibration cutting at turning of hard-to-cut materials and built-up surfaces .....	353
<i>A A Vladimirov, A N Afonin, A V Makarov</i>	

Influence of communication between elements in a dynamic damper on a vibrated body behaviour.....	360
<i>Y.M. Zamuragin, A.M. Gouskov, V.L. Krupenin</i>	
Mathematical modelling on the fracture of a laminar prosthesis basis under natural chewing loads .....	365
<i>S D Arutyunov, D I Grachev, A D Nikitin</i>	
Nanosized iron-substituted hydroxyapatites .....	371
<i>I V Fadeeva, I I Selezneva, G A Davydova, A S Fomin, M R Gafurov, S M Barinov, A M Poltavtsev, I B Davydova, E I Zарaisky, R A Poltavtseva</i>	
A method for cantilever dental bridge material selection based upon mastication loads: finite element analysis .....	376
<i>Y N Kharakh, A E Krupnin, D A Gribov, F D Sorokin, L G Kirakosyan, S D Arutyunov</i>	
The smart prosthesis as the personal agent in the amputee tactile perception process .....	380
<i>N S Kovalev, A A Solovyev, A M Sergeev</i>	
Personalized biomechanical analysis of mandible teeth loosening during periodontal treatment with non-removable polymer splints with considering the different approach to physical and mechanical characteristics determining of bone tissue.....	387
<i>I M Levchenko, D A Gribov, A E Krupnin, S D Arutyunov</i>	
Blood flow modeling with a finite element living heart model in the FlowVision software complex .....	392
<i>E E Ovsyannikova, V S Kashirin</i>	
Blood flow modeling with a gemo-library in the FlowVision software complex .....	398
<i>E E Ovsyannikova, D P Silaev, V S Kashirin</i>	
Hyperbolic and Fibonacci numbers in genetic biomechanics.....	403
<i>S Petoukhov, E Petukhova, V Svirin</i>	
Research of orientation characteristics of visual intersection illusion .....	410
<i>T A Rakcheeva, A T Kostoev</i>	
The use of nanosized liposomes from vegetable phospholipids in combination with albumine and some polysaccharides as cryoprotective agents in the course of cryopreservation.....	415
<i>N V Shishova, G A Davydova, N A Kombarova, I B Davydova, A M Poltavtsev, E I Zарaisky, R A Poltavtseva</i>	
Evaluation of hydrodynamic forces on the impeller of an axial blood pump using computational fluid dynamics .....	421
<i>S V Skoryukov, V V Kiselev, A E Krupnin, E P Banin, A M Gouskov, F D Sorokin</i>	
Comparative analysis of the revision acetabular customized implant position by finite element modeling .....	425
<i>D O Solovev, I L Maslova, P V Surkova, L B Maslov, M A Zhmaylo, A N Kovalenko</i>	
Generative design of biosimilar structures .....	432
<i>I V Stepanyan</i>	
Prediction of the trajectory of the tracking object based on adaptive controller.....	437
<i>I V Stepanyan, M Y Lednev</i>	
Use of the chord method for analyzing workspaces of a parallel structure mechanism .....	442
<i>A V Antonov, R A Chernetsov, E E Ulyanov, K A Ivanov</i>	

About features of management of mobile robots with stepping movers of a rope type in a water environment.....	448
<i>E S Briskin, V V Gulevsky, I S Penshin, N G Sharonov</i>	
About determination of the bearing capacity of the soil on the route of the walking robot with orthogonal drives.....	456
<i>A A Burkhanov, Y S Ryabova, S A Ustinov, A V Leonard, A E Gavrilov</i>	
On the movement of the rope robot on a vertical surface.....	461
<i>M I Efimov, E S Briskin, N G Sharonov</i>	
Increasing the effective workspace of the planar 3-RRR mechanism by using kinematic redundancy.....	467
<i>K G Erastova</i>	
Dynamic model of end-effector actuator used for mobile robotic weeder .....	472
<i>A G Ivanov, V V Zhoga, V.E Pavlovsky, N S Vorob'yeva</i>	
Automation of the manipulation robot construction trajectory for soft tissues tensoalgometry .....	477
<i>E A Khmyachina, M V Archipov, D V Khmyachin, A E Samorukov, M A Eremushkin, E A Vzhesnevsky</i>	
Vehicle's transmission as a vibro-impact system.....	482
<i>George Korendyasev, Konstantin Salamandra</i>	
Designing the program trajectory for steering a spacecraft under arbitrary boundary conditions.....	488
<i>A E Lamotkin, N E Misyura, E A Mityushov</i>	
Improved calculation of external loads of motor graders metalwork .....	496
<i>V A Mikhailovskaia</i>	
About moving of the ortogonal drive of the underwater mobile robot to a new position.....	504
<i>M V Miroshkina, E S Briskin, Y V Kalinin</i>	
Motion specification algorithms for both platform and arms of a mobile robot for planetary research.....	512
<i>I Nanyageev, I Shardyko, I Dalyaev</i>	
Expansion of the domain of existence of the cylindrical involute gears.....	517
<i>D T Nguyen</i>	
Dynamics of the accessible solid body's movement controlled by two drives with rectreline movement of it's mass center .....	522
<i>V N Platonov, E S Briskin, N G Sharonov</i>	
Kinematic and Force Analysis of Irregular Motion Stirrer with Elliptical Gear .....	527
<i>A A Prikhodko, A A Kopteva</i>	
The study of special positions of a crawling robot when changing its configuration.....	534
<i>L Yu Vorochaeva, A V Malchikov, A S Yatsun, A Martinez</i>	
Investigation of the configuration of a parallel manipulator for additive manufacturing of solid structures .....	542
<i>A. Zelensky, V. Dubovskov, V. Kuptsov</i>	
Holes manufacturing technology influence on the strength of fibrous composites .....	547
<i>E Kh Akhmedshin, A N Polilov, N A Tatus'</i>	

Control of vehicles and robots: creation of planning systems in the state space (MIPRA) .....	552
<i>D V Aladin, O O Varlamov, D A Chuvikov, L E Adamova, D A Fedoseev</i>	
Control of machines and robots: creation of mivar decision-making systems for controlling autonomous tractors and special vehicles of the ministry of emergencies .....	557
<i>D V Aladin, O O Varlamov, D A Chuvikov, L E Adamova, D V Saraev</i>	
Control of vehicles and robots: creating of knowledge bases for mivar decision making systems robots and vehicles .....	563
<i>D V Aladin, O O Varlamov, L E Adamova, D A Chuvikov, D V Saraev</i>	
Approach to cross-platform 3d-models binary format development .....	569
<i>M.V. Alpatova, D.G. Demidov, A.I. Vinokur, V.L. Krupenin</i>	
Analytical and experimental methods for evaluation stress concentration in attachment point .....	574
<i>A S Arutyunova, A N Polilov, N A Tatus'</i>	
Machine for winding a rib onto glass fiber rod .....	578
<i>M V Bekker, N V Rokotov</i>	
Fuel controlling system concepts in modern diesel engines based on smart materials.....	584
<i>V V Bogdanov, I V Pugachev, G V Stepanov</i>	
Calculation Of The Heat-Stressed State Of The Disk Using Free Software Code_aster.....	590
<i>A.V Cherednichenko, E.A Maksimova, I.Yu Savelyeva</i>	
Influence of quality on the stress-strain state of the road fence post assembly .....	597
<i>I V Demiyanyushko, V S Nadezhdin, O V Titov, A G Lokit</i>	
Problems of modeling the impact of a car on a road barrier by the finite element method .....	602
<i>I V Demiyanyushko, P S Mikheev, I A Karpov</i>	
Vibration protection drive control in small movement mode .....	607
<i>M A Dmitriev, A N Brysin, P V Komarov, S A Mikaeva, V S Soloviev, A N Nikiforov</i>	
Principles of functioning of the autonomous device for weed control for precision agriculture.....	613
<i>A I Dyshekov, I G Smirnov, M A Mirzaev, M A Shereuzhev</i>	
To the issues of ensuring the stability of jib mobile cranes, taking into account various aspects of their operation.....	618
<i>G A Emelianova, C V Kulikova, F A Gulyaev, Y A Batischev</i>	
Studying the influence of numerical simulation parameters on the solutions of boundary value problems on the destruction of bodies with crack-like defects.....	623
<i>E V Feklistova, M P Tretyakov, V E Wildemann</i>	
Construction of verification and diagnostic tests for the functional diagram of the object of the diagnosis .....	628
<i>O A Filina, O V Salnikova</i>	
Topical issues of vibration-based diagnostics of the mechanical equipment of portal slewing cranes .....	635
<i>A Yu Ganshkevich, O A Alexandrova, N M Stoyantsov</i>	
On the impact of unsprung weight of mobile vehicles .....	643
<i>V S Kastanos, P Yu Andreev, D A Gorodnov, I S Chabunin</i>	

Protective shielding fabric materials on the base of ferromagnetic microwire.....	649
<i>E N Khandogina, D N Vladimirov, S V Kheylo, O V Fukina, K M Larina</i>	
Analysis of the structure of a precision winding using computer simulation .....	655
<i>V A Kolesnikov, N V Rokotov</i>	
Designing architecture of an artificial neural network for classification using robotic complexes .....	659
<i>K M Kononenko, D G Demidov, A I Vinokur, V L Krupenin</i>	
Solutions of the inverse kinematic problem for manipulation robots based on the genetic algorithm .....	664
<i>N O Krakhmalev, D A Korostelyov</i>	
Justification of the choice of numerical methods in the study of nonlinear micropolar mesh cylindrical panel's oscillations .....	670
<i>E Yu Krylova, I V Papkova, O A Sinichkina</i>	
Temperature aging effects on mechanical behavior of structural GFRP on interlaminar shear tests .....	675
<i>D S Lobanov, E M Zubova</i>	
Realization effects of postcritical deformation the regularities for GFRP in tensile tests .....	682
<i>D S Lobanov, O A Staroverov, M P Tretyakov</i>	
Research and natural modeling of an inertial system on a mobile platform.....	688
<i>A I Lobova, K I Kandaurova, V M Masyuk, S Y Orekhov</i>	
Studying of accumulation damages regularities under low cycle loading and cycle variable parameters conditions.....	692
<i>A V Lykova, A V Ilinikh</i>	
Study of adhesive line quality and capacitance parameter in shaft/bush joints .....	699
<i>E V Maslennikova</i>	
Comparison of dynamic characteristics of the ideal field oriented control model and its based on act (automated control theory) real analogue .....	704
<i>K R Myasoedov, E D Epifanov, V M Masyuk, I V Pchelkina</i>	
Definition of service area of agricultural loading robot with manipulator of parallel-serial structure .....	709
<i>M E Nikolaev, I A Nesmianov, E N Zaharov</i>	
The influence of carburization technology on performance properties of high-loaded gear wheels .....	716
<i>S A Pakhomova, R S Fakhurtdinov, O A Tsinkolenko, B S Zolotov</i>	
Determination of the viscous resistance of a plane damper with a newtonian fluid using the equation similarity with the shaft torsion problem .....	724
<i>R Poshekhonov, I Anisimov, A Gorbunov</i>	
Birger method of variable parameters for the problems of flexible plates .....	729
<i>O A Saltykova, E Yu Krylova, V A Krysko</i>	
Nonlinear dynamics of closed cylindrical shells under the action of longitudinal and transversal loads .....	734
<i>O A Saltykova, E Yu Krylova, V A Krysko</i>	
Time-optimal trajectories for a trolley-like system with state constraint .....	739
<i>Ivan Samylovskiy</i>	

Analytical and finite element method of calculation of multi-shell gas tanks .....	747
<i>O Yu Sklemina, N A Tatus', A N Polilov</i>	
Experimental study of macroscopic localization of plastic flow in al-mg alloy under complicated stress-strain state.....	753
<i>T V Tretyakova, A I Mugatarov, E V Feklistova</i>	
Development of a system for monitoring the state of Electromechanical objects taking into account the influence of magnetic storms.....	760
<i>E V Tumakova</i>	
The system of vertical movement stabilization of the geophysical rocket for the purpose of high-precision measurement .....	764
<i>A S Verkner, E O Guryanova</i>	
Contact interaction of a two-layer package of nanobeams package of Bernoulli-Euler nanobeams with gap between them.....	772
<i>T V Yakovleva, V S Kruzhilin, V A Krysko-jr</i>	
Correct FRP tensile specimen.....	777
<i>V V Zhavyrkin, A N Polilov, A S Arutjunova, N A Tatus'</i>	
Comparison of the results of solving the problem of nano-beams contact interaction according to different theories of size-dependent behavior.....	782
<i>Zhigalov Maxim Viktorovich, Apryskin Victor Alexandrovich</i>	
Graphic-analytical calculation method of straight centrally compressed bars on stability .....	789
<i>D D Zotov, I A Kudryavtsev, I S Chabunin</i>	
Research of the carbon/epoxy laminated curved beams strength in four-point bending test.....	795
<i>E M Zubova, D S Lobanov, E M Strungar, M S Temerova</i>
