# TABLE OF CONTENTS

Preface ISPCIET'2020	
Declaration on Peer Review	
The use of fuzzy logic for the clean-up systems control for bunkers, containing bulk solids .....	1
<i>A M Abramov, V Yu Klyukin, V V Kozhikin, O V Kochneva</i>	
Classifications of schematic solutions of the geokhod knife operating body and the interaction surface of the geokhod operating body with bottom rock .....	8
<i>V V Aksenov, A B Efremkov, V Yu Sadovets, D A Pashkov, V A Efremkov</i>	
Determining the interaction surface parameters of the geokhod knife operating body with the face rock.....	15
<i>V V Aksenov, A B Efremkov, V Yu Sadovets, D A Pashkov, V A Efremkov</i>	
Influence of the knife shape on the operating body cutting force.....	21
<i>V V Aksenov, A B Efremkov, V Yu Sadovets, D A Pashkov, V A Efremkov</i>	
Development of a methodology for modeling complex shaped geokhod operating body in SolidWorks.....	28
<i>V V Aksenov, A B Efremkov, V Yu Sadovets, D A Pashkov, R V Sadovets, E V Rezanova, V A Efremkov</i>	
Areas of research on the construction of tunneling underground machines of the Geokhod class.....	34
<i>V V Aksenov, A A Khoreshok, A B Efremkov, V Yu Beglyakov, A V Koperchuk, M Yu Blaschuk, V Yu Sadovets, D A Pashkov</i>	
Research areas of the scientific specialty “Geodynamics of underground machines” .....	44
<i>V V Aksenov, S V Magazov, A A Khoreshok, A B Efremkov, V Yu Beglyakov, V Yu Sadovets, D A Pashkov</i>	
Mathematical modelling of the process of crest formation by the working body of the cultivator – dump type.....	53
<i>D N Algazin, A A Kem, A P Shevchenko, M A Begunov, V S Koval</i>	
Zirconia crystals for tribotechnical applications doped by rare earth elements.....	58
<i>V V Alisin</i>	
Mechanics of inspection robot traveling over the electrical line with constant velocity .....	65
<i>M R Bahrami</i>	
Deformation-force effects of shape memory of TiNi alloys under conditions of incomplete martensitic transformation.....	72
<i>V N Belyakov</i>	
History review of aircraft performance improvement .....	78
<i>A Bobkov, M Krivenko</i>	
Feasibility review of substitution a high-lift device by a telescopic wing with self-similarity of reynolds .....	83
<i>A Bobkov, T Mitashova</i>	

Simulating the pyrolysis process of sludge-lignin with the production of active carbons.....	88
<i>N I Bogdanovich, K B Vorontsov, B C Labudin, K A Varenik</i>	
Methodology for static tuning of the HEV fuel flow measuring system .....	96
<i>S T Bozhkov, I Milenov, R V Petrov, V S Leontiev, P Bozhkov</i>	
Digital design and technological innovation in the small machine building sector.....	104
<i>V F Bulavin, T G Bulavina, C A Stepanov, V V Yahrichev, N S Grigoriev</i>	
Simulation of operation of a sequential hybrid drive of a haul truck with a traction battery and a bilateral DC-to-DC converter .....	111
<i>N V Buzunov, R D Pirozhkov, A B Kartashov, D M Dubinkin, A B Efremkov</i>	
Hybrid technology for the synthesis of ultrafine carbon powder material in an amorphous state .....	120
<i>V A Chaika, V V Savin, I S Zherebcov, M E Boiko, A M Boiko</i>	
The effect of coagulation on the processes of growth and changes in the numerical concentration of carbon dioxide crystals .....	126
<i>M M Danilov, O S Opicina, I G Arendatelev, I M Zawadzki</i>	
Mathematical modeling of seed dissemination with a colter drill across the planting acreage .....	133
<i>A V Evchenko, A P Shevchenko, M A Begunov, V S Koval, D N Algazin</i>	
Stability evaluation of cutting edges in operation of composite materials for instrumental purposes based on a metal matrix .....	139
<i>A A Fedotov, M N Safonova, A S Syromyatnikova</i>	
Physical and chemical cleaning of the surface of power metal optics for the purpose of increase in beam firmness.....	145
<i>S Filin, V Rogalin, I Kaplunov, M Satayev</i>	
Magnetoelectric and magnetostriction characteristics of symmetric three layered structures of nickel - lead zirconate titanate – nickel and permendure – lead zirconate titanate – permendure .....	152
<i>D A Filippov, V M Laletsin, N N Poddubnaya, A Galichyan, Jitao Zhang, Gopalan Srinivasan</i>	
Processing of steel galvanizing waste using the method of melt immersion .....	158
<i>V I Gel, S B Sapozhkov</i>	
Improving the design of a disintegrator for deep utilization of enrichment tailings.....	163
<i>V I Golik, Y I Razoryonov, A B Efremkov</i>	
Development of a compact plasma torch design for welding and surfacing .....	170
<i>M E Goshkoderya, N A Kondratev, V R Nikitina, N A Zhugarev</i>	
Development of intelligent algorithms for the continuous diagnostics and condition monitoring subsystem of the equipment as part of the process control system of a stainless steel pipe production enterprise .....	178
<i>E S Grishin</i>	
Characteristics of droplet transfer of electrode metal during MMA depending on the chemical composition of the material of the rod of the coated electrode.....	185
<i>D P Il'yaschenko, Iu I Chebotarev, S B Sapozhkov</i>	
Method for predicting the composition of the protective coating in MMA.....	190
<i>D P Il'yaschenko, E A Zernin, S B Sapozhkov, L G Loskutov</i>	

Prerequisites for obtaining wear-resistant metal coatings with a high-entropy structure by atmospheric plasma spraying, reflow, and hardening.....	195
<i>A M Kadyrmetov, D A Popov, E V Snyatkov, A A Plakhotin</i>	
Word Visualization of the morphology of the temperature field of the heat pipe with defects of the active type.....	201
<i>V A Karachinov, A V Petrov, A M Abramov, D A Evstigneev</i>	
Synthesis and application of manganese dioxide nanoparticles as part of anti-corrosion coatings .....	209
<i>V E Katnov, S N Stepn, M R Zganshina, A A Kayumov, V A Mendelson</i>	
Theoretical study of the plant residue movement along the needle of a rotating working organ .....	216
<i>A A Kem, A P Shevchenko, M A Begunov, V S Koval, D N Algazin</i>	
Use of antivibration gloves when working with a petrol brushcutter Husqvarna 525RX .....	227
<i>E A Khlopkov, V V Smirnov, M V Bulateckii, Y N Vyunenko</i>	
Features of microrelief formation during laser treatment of Cu-Cr-Zr alloy surface for diffusion welding .....	232
<i>Yu Khomich, T Malinskiy, V Rogalin, I Kaplunov, A Ivanova</i>	
Using waste heat for heat supply and greating a single steam network with power generation due to pressure differences .....	238
<i>E P Kondurov, P A Kruglikov, I V Shvetsov, D V Zhelnov</i>	
The universal algorithm for calculating SPICE models' parameters of semiconductor diodes.....	244
<i>A F Korchagin</i>	
A method of processing semi-finished products from an alloy of titanium nickelide TN-1.....	249
<i>S V Kryuchkov, V G Malinin, N P Bogdanov, M N Kononov, O A Malukhina</i>	
Assessment of the anisotropic wood strength on local crushing .....	254
<i>B V Labudin, T A Nikitina, E V Popov, K A Varenik, V I Novoselova</i>	
Field dependence of magnetoelectric effect in the electromechanical resonance region on the Permendur -Quartz - Permendur structures .....	262
<i>V M Laletin, N N Paddubnaya, D A Filippov</i>	
Physical and chemical processes in the contact zone when processing metals with a blade tool.....	268
<i>V N Latyshev, A G Naumov, I V Shvetsov</i>	
Structure formation and functional properties of thin-gauge tapes made of copper-based alloys obtained by melt spinning .....	279
<i>O V Letenkov</i>	
Research of the dependence of the moisture regime in the walls of gas concrete on the characteristics of the external finishing .....	285
<i>V I Loganina, M V Frolov</i>	
Convergent use of neural network information technologies for monitoring and evaluating the performance of digital control operators of situational centers at critical infrastructure facilities .....	292
<i>E L Loginov, V V Grigoriev, P A Bojko, V S Balandin, G S Ivanovskij</i>	
The results of the application of thermo-time processing and resonant-pulsating refining in the Siberian region of the Russian Federation.....	298
<i>D A Lubyanyov, E Yu Pudov, A V Markidonov, A B Efremenkov</i>	

Tensor characteristics of intrinsic scattering magnetic field as an effective tool for strength diagnostics of steel products.....	304
<i>V G Malinin, N A Malinina, V V Malinin, A A Dimov, O A Malukhina</i>	
Analysis of methods for calculating intra-channel boiling heat transfer in refrigerants.....	311
<i>A A Malyshev, O S Malinina, K F Kouadio, I V Shvetsov</i>	
Heat transfer through a double-glazed window by radiation.....	319
<i>V A Maiorov</i>	
Heat transfer through a double-glazed window by convection.....	328
<i>V A Maiorov</i>	
Assessment results of the dependence of the processed surface quality on the applied tool material.....	337
<i>B Ya Mokritsky, E C Sitamov, I G Arendatelev, I M Zawadzki</i>	
Results of testing the rationality of tool materials using the experimental method and the method of simulation modeling.....	342
<i>B Ya Mokritsky, E C Sitamov, V N Belyakov, I M Zawadzki</i>	
The influence of micro- and nanodots lubricating and cooling technological means (LCTM) on the process of blade cutting of materials.....	348
<i>A G Naumov, V V Novikov, O A Naumova, I V Shvetsov</i>	
Modifications of lightweight concrete for use in housing construction.....	356
<i>O S Naumova</i>	
Improving the efficiency of planing operations when processing large parts based on gas analysis.....	363
<i>O V Nikulenkov</i>	
Features of the operation of a refrigeration screw compressor for capacity control.....	369
<i>A N Noskov, M Shaposhnikova, I G Arendatelev, I M Zawadzki</i>	
Development of a biomechanical robotic orthopedic apparatus with a corset based on composite materials.....	376
<i>V I Novikov, A G Muravyev, S A Muravyev, D S Stepura, N S Shmakova</i>	
Design hydrodynamic analysis of cavitation in narrow channels of the open-pit dump truck's hydraulic system.....	385
<i>D A Panasenkov, A P Zaycev, A B Kartashov, N A Pikalov, D M Dubinkin, A B Efremenkov</i>	
Strength of multiferroic layered structures in position sensor structures.....	394
<i>R V Petrov, O V Sokolov, M I Bichurin, A R Petrova, S Bozhkov, I Milenov, P Bozhkov</i>	
Utilizing factor models to simulate emergency shutdowns of power grids.....	405
<i>M Polkovskaya, T Buzina, N Fedurina</i>	
Practical method of vector optimization on the example of optimization of thermal conditions.....	414
<i>S A Popov, S N Kuzmenko, S P Slavinsky</i>	
Dependence of the preliminary plastic deformation on the curves of chromium-nickel steel deformation.....	422
<i>V A Popov</i>	
Assessment of the effectiveness of the regenerative suspension of a timber truck based on the results of simulation.....	427
<i>V I Posmetev, V O Nikonov, V V Posmetev</i>	

Estimation of impact of rock conditions on the conveyor workings geometry by means of geophysical methods .....	434
<i>E Pudov, E Kuzin, A Efremkov</i>	
Development of a new type of metamaterial and its application in antenna technology .....	443
<i>A N Salakhitdinov, Kh B Mirzokulov</i>	
The influence of coatings heat resistance on the effectiveness of protecting a solid metal surface from drops of molten metal during MAG welding .....	451
<i>S B Sapozhkov, S I Arendateleva</i>	
Physicochemical patterns of the spread of a molten metal drop over a solid metal surface during MAG welding .....	459
<i>S B Sapozhkov, M L Tikhonova, Sh S Nozirzoda</i>	
Wetting the surface of the welded products with protective coatings during MAG welding .....	465
<i>S B Sapozhkov, O V Ushakova</i>	
Investigation of the influence of the parameters of the laser welding technological process on the chemical composition, structural-phase state and physicochemical properties of the material of the weld, heat-affected zone, pipe body and product .....	473
<i>V V Savin, L A Savina, V A Chaika, A S Martyushev, S Z Lonchacov</i>	
Prospects for the use of u-shaped welded pipes of steel a316l heat transfer assortment in chemical engineering .....	482
<i>V V Savin, K N Lebedeva, V V Herelovich, L A Savina, V A Chaika</i>	
Grounds and problem statement for software complex for photolithography optimization for minimization of losses in optical structures of photonic integrated circuits .....	489
<i>A A Sharapov, E S Shamin, I D Skuratov, E S Gornev</i>	
Modification of wear-resistant coatings of the Fe-Cr-C system with spherical tungsten carbide WC-W2C .....	497
<i>A V Shchegolev, A V Ishkov, V V Ivanayskiy</i>	
Reducing labor input of monitoring condition of heat exchange equipment surfaces .....	504
<i>I V Shvetsov, E V Garnyshova, E V Izmaylova, Y V Vankov, A R Zagretdinov</i>	
Vibroacoustic method of pressure control .....	510
<i>I V Shvetsov, A R Zagretdinov, V E Izmestyeva, E V Izmaylova, Sh G Ziganshin</i>	
Assessment of the technical condition of pipelines in polyurethane insulation .....	515
<i>I V Shvetsov, Sh G Ziganshin, A R Zagretdinov, D V Zhelnov</i>	
Energy performance analysis of the temperature control system of an object with a random principle of thermal perturbations .....	520
<i>A B Sulin, A L Timofeevskiy, T V Ryabova, A A Nikitin, S S Muraveinikov, S I Arendateleva</i>	
Development of the design and manufacturing technology of a bactericidal ionizer .....	528
<i>A A Tikhonov</i>	
Metallization of aluminum alloys with electrodeposition by rubbing .....	537
<i>A A Tikhonov</i>	
Electrodeposition by rubbing. The method of calculating the modes and the development of the high-speed copper plating process .....	546
<i>A A Tikhonov, D A Filippov, S I Arendateleva, V A Popov, T I Perepelitsa</i>	

Dependencies of nonlinear hereditary creep theory for concrete and creep type equations of hardening under plane stress.....	555
<i>A M Tokmuratov, B K Dujsenbekov, A S Varenik, K A Varenik</i>	
Short-term and long-term longitudinal load tests of wooden rods.....	560
<i>K A Varenik, A S Varenik, A V Kirillov, M V Shuvalov</i>	
Improving stability of self-propelled jib cranes.....	565
<i>I A Zaselyaev</i>	
Technology for forming micro devices based on gallium nitride.....	570
<i>A V Zhelannov, B I Seleznev, D G Fedorov</i>
