TABLE OF CONTENTS

PART 1

Preface

Peer review declaration of ICCATS 2020

BUILDING MATERIALS AND PRODUCTS

Estimation of porosity of coatings based on sol of silicate paint.....	1
<i>V I Loganina, Y B Mazhitov</i>	
Organic composite binder improving the physical and mechanical properties of low-strength stone materials	6
<i>A I Leskin, S V Aleksikov, D I Gofman</i>	
The impact of the formation conditions and properties of the water treatment plants sludge on its usage in the ceramic bricks production	12
<i>A A Orlov, M Yu Belkanova, R K Lyman</i>	
Determination of optimal technological parameters for the manufacture of small architectural forms of gypsum by dyeing in bulk based on an analysis of consumer preferences.....	18
<i>A V Erofeev, V A Mikhaylov</i>	
Peculiarities of hardening of an astringent system based on orthophosphoric acid and serpentine with an admixture of magnesite.....	24
<i>A A Orlov, T N Chernykh, V V Zimich</i>	
Statistical assessment of damnification risk due to inconformity of paint coating quality	32
<i>V Loganina, T Uchaeva</i>	
Quality Improvement of semi-dry pressing ceramic bricks from low-quality raw materials by the directional additives.....	38
<i>L Ilina, L Tatski, L Baryshok</i>	
Improvement of fire protection of wood board and textile materials for premises with a massive stay of people.....	45
<i>T N Vachnina, I V Susoeva, A A Titunin</i>	
Investigation of the effects of fuel slag on the properties of gypsum mixtures	51
<i>M D Butakova</i>	
Methods of assessing the durability of high performance concrete.....	56
<i>B Ya Trofimov, L Ya Kramar, K V Shuldyakov</i>	
The Structure and Properties of Hardened Cement Paste with Modifiers	62
<i>B Ya Trofimov, A M Mahmudov</i>	
The effect of a plasticizer based on polymethylene naphthalene sulfonic acids on the structure of a magnesian stone	67
<i>G F Averina, V A Koshelev, L Y Kramar</i>	

The use of metallurgy waste in the roads sustainability improving.....	72
<i>A Pimenov, L Barakhtenova, V Pribylov</i>	
Process control system software (in the context of autoclaved aerated concrete production)	77
<i>S V Leontev, V A Shamanov</i>	
Modified heat-resistant concrete using slag aggregates.....	85
<i>R A Burkhanova, T K Akchurin, I V Stefanenko</i>	
Acoustic method for measurement of crack width in concrete.....	93
<i>V A Perfilov</i>	
Composite materials in building structures using 3D technology	98
<i>E V Muruzina, S V Zonina</i>	
Measurement of crack growth speed in concrete by acoustic emission and mechanics of damage methods	104
<i>V A Perfilov</i>	
Production process of dolomite-based facing building materials	110
<i>R Kh Khuziahmetov, R A Ibragimov, R N Khuziahmetova</i>	
Energy aspects of low-cycle fatigue of fibropolypropylene concrete.....	117
<i>I G Korneeva, B I Pinus</i>	
Optimal dry mixes simulating	122
<i>L V Ilina, I N Mukhina, A K Tulyaganov</i>	
Piezooptical properties of ice	128
<i>A O Zhurbenko, A V Likhachev, M V Tabanykhova</i>	
The effect of mineral additives on foam concrete porosity	134
<i>E Bartenjeva</i>	
Sol-gel technology for the production of high-strength refractory materials based on binders.....	140
<i>S N Pogorelov, G S Semenyak, A O Kolmogorova</i>	
Impulse excitation technique and its application for identification of material damping: an overview	145
<i>I I Popov, M V Shitikova</i>	
Methods for ensuring the required consumer properties for the construction of transport facilities in an accelerated time frame	153
<i>I S Pulyaev, S M Pulyaev</i>	
Comparative analysis of thermofluctuation constants of polyvinyl chloride plates obtained in various ways	159
<i>A V Erofeev, T I Gorokhov, R N Drannikov</i>	
Application of surface wastewater sludge in the production of composite building materials.....	165
<i>O E Smirnova, A V Krasova</i>	
Transformation of non-firing technology issues for construction composite production from particulates using phosphogypsum.....	172
<i>O B Kukina, V V Volkov, O A Volokitina</i>	
Non-firing materials using clay soils.....	180
<i>S N Zolotukhin, A V Andreev, V P Volokitin</i>	

Imported products in construction activities: quantitative analysis of relationship (case of the Russian Far East).....	187
<i>A V Belousova</i>	
Basalts of the Republic of Buryatia and their suitability for obtaining mineral fibres	192
<i>L I Khudyakova, S L Buyantuev, V T Buyantuev</i>	
Algorithm formulation for adjusting the estimated composition of concrete mixture taking into account relevant properties of the raw materials	197
<i>V A Koshelev, O I Kovaleva, G F Averina</i>	
Development of a simulation model for the supply of spare parts for heating equipment	203
<i>I Ya Lvovich, A P Preobrazhenskiy, O N Choporov</i>	
Contemporary methods for production of Prussian blue	209
<i>A V Vyboishchik, M Yu Popov</i>	
Theoretical and experimental researches of operating properties of bitumen reinforced with carbon nanotubes.....	214
<i>I V Zaporotskova, Y S Bakhracheva, N P Boroznina</i>	
Estimation of concrete durability using kinetic characteristics of its destruction.....	220
<i>V P Popov, D V Popov, A Yu Davidenko</i>	
Filtration materials of natural origin.....	225
<i>A K Strelkov, P G Bykova, M A Gridneva</i>	
A ‘Building material science glossary’ mobile application for Chinese international students	231
<i>S N Pogorelov, A V Bagdueva, A O Kolmogorova</i>	
Study of natural self-healing of materials based on inorganic binders	237
<i>T N Chernykh, S A Bondarenko, V V Zimich</i>	

CONSTRUCTION, BUILDINGS AND STRUCTURES

Calculation of the circular plates’ stability in stresses.....	242
<i>Yu Ya Tyukalov</i>	
Methodology of calculating the moisture content of soil reserves during the construction of an earth bed	249
<i>S V Aleksikov, A I Leskin, D I Gofman</i>	
Improving calculating theory of multiple-cavity reinforced concrete floor panels	255
<i>A S Vasilyev, E A Plehanova, Bai Xiaolong</i>	
Mixed finite element formulation based on the discontinuous stress approximation	261
<i>A A Lukashevich, N K Lukashevich, E A Kobelev</i>	
Optimizing the centrally compressed step-variable stiffness rods.....	267
<i>G Grebeniuk, E Lukin, E Nagaitseva</i>	
Solving the contact problem when strengthening the slab with a beam using discontinuous functions	275
<i>E A Kobelev, N K Lukashevich</i>	

Experimental substantiation by choosing basic variant of plates with cylindrical dowels	282
<i>S A Isupov</i>	
Modeling of the complex “Ground Base-Foundation-Construction-External Influences” taking into account the cyclic technogenic vibrational loads	289
<i>A V Grecheneva, N V Dorofeev, E S Pankina</i>	
Study of the stressed state in the layers of the composite material of the construction element	295
<i>L Adeгова, T Kolesova, E Kolokolkina</i>	
Investigation of the deformation of elastic rods under thermomechanical loading	301
<i>R T Brzhanov, G G Baysarova</i>	
Economical reinforced concrete overpass. Graphical method of calculation	307
<i>A V Makarov, S A Kalinovsky</i>	
The value of the intensity of wear to ensure the durability of multi-apartment housing in the renovation of residential areas	313
<i>A T Khotamov</i>	
Rolling of a weld pad on a flat surface. One-dimensional problem	323
<i>R T Brzhanov, G. Bulekbayeva</i>	
Experimental research methodology for the deformation of RC frame under instantaneous loss of column	330
<i>S Yu Savin, V I Kolchunov, P A Korenkov</i>	
Selection of the optimal parameters of a reinforced concrete rectangular beam with single reinforcement.....	339
<i>V S Kuznetsov, Yu A Shaposhnikova, A A Yandiev</i>	
X-ray limited-angle tomography of cracks.....	350
<i>N A Likhachev</i>	
Study of stresses in plane truss nodes.....	357
<i>A P Shabaldin, N V Kharinova</i>	
Method for calculating deflections of beams made of rubber concrete	363
<i>A E Polikutin, A V Levchenko, Yu B Potapov</i>	
Geometrically nonlinear buckling analysis of truss under mechanical and thermal load based on mixed finite element formulation	369
<i>Vu Thi Bich Quyen, Dao Ngoc Tien, Nguyen Thi Lan Huong</i>	
Finite element analysis of plane frame systems with different models of semi-rigid connections.....	375
<i>Tran Thi Thuy Van, Ngo Dinh Tung, Nguyen Trung Kien</i>	
Using modern CAE systems for assessing the building structures made of traditional building materials technical condition	382
<i>V Alpatov, M Balzannikov</i>	
Research of multiple metal rods joining node in spatial construction, using one welding connection.....	388
<i>V Alpatov, I Laguta</i>	
The effect of energy dissipation on the dynamic response of reinforced concrete structure	394
<i>N V Fedorova, N T Vu, T A Iliushchenko</i>	

The use of long-span coating plates in case of reconstruction of “wet” spent nuclear fuel storage facilities	403
<i>T Belash, S Travin</i>	
Study of bonding zone composite reinforced structures.....	408
<i>K E Nikitin, D I Zhukov, V S Moskovtseva</i>	
Finite element modelling reinforced concrete beam in transverse bending zone	414
<i>V B Filatov</i>	
Internal resonances in nonlinear fractionally damped plates of the Uflyand-Mindlin type.....	420
<i>M V Shitikova, E I Osipova, E Y Rossikhina</i>	
The use of damping devices to increase the seismic resistance of frame buildings.....	429
<i>T A Belash, M S Belashov</i>	
Treatment of multi freedom constraints in geometrically nonlinear stability analysis of truss structures using penalty function method	436
<i>Vu Thi Bich Quyen, Dao Ngoc Tien, Pham Van Dat</i>	
Differences in the calculation of reinforcement in reinforced concrete floor slabs, calculated in the LIRA program according to the theories of Wood R H and Karpenko N I.....	443
<i>K Z Khayrnasov</i>	
Research of features of increasing operational reliability of historical buildings in Russia	449
<i>A M Krygina, YA Koshlich, M I Oberemok</i>	
Automatic assembly of wind load from BIM-model.....	454
<i>N Degtyarev, S Pridvizhkin, V Salnikov</i>	
Bar structures calculation by the method of discrete elements with generalized unknowns in aggressive environments	461
<i>O V Dushko, G V Voronkova, S S Rekunov</i>	
Search for plastics with piezo optic properties	467
<i>M A Aseyev, K A Tabanykhov, M V Tabanykhova</i>	
The potential for the development of renewable energy generation in Russian territories where the power supply system is decentralized.....	473
<i>E P Sharovarova, V N Alekhin, L I Avdonina</i>	
Multilayer facade panel structure analysis	478
<i>E P Sharovarova, V N Alekhin, A Y Skachkov</i>	

CONSTRUCTION TECHNOLOGY AND ORGANIZATION

Accuracy estimate of technological processes as exemplified by construction works	483
<i>A Kh Baiburin</i>	
Risk management in monolithic construction	490
<i>D Topchiy, A Bolotova</i>	
Energy efficient wall design with stay-in-place formwork.....	495
<i>A V Kiyanets</i>	

Technological features of application of plaster solutions with ground quicklime	501
<i>B V Zhadanovsky, V E Bazanov</i>	
Agreements of participation in shared construction: relationship of legal, tax and accounting aspects	507
<i>L A Guzikova, N V Neelova</i>	
Creation of integrated interaction monitoring in the construction companies management.....	513
<i>E Pesotskaya, L Selyutina, E Trushkovskaya</i>	
The processes of the organization and construction management in the activities of small and medium businesses	519
<i>M V Matveeva</i>	
Organization of construction in the aspect of strategic development programs for the construction industry	525
<i>V V Peshkov</i>	
Management of deconstruction of construction objects	531
<i>O Bukunova, A Bukunov</i>	
Digital technology in the construction of Norwegian house	537
<i>I G Maizel, I V Maizel, V V Platonov</i>	
Development of lining formwork for column expansion during reconstruction of building and structures	543
<i>S G Abramyan, O V Oganesyanyan</i>	

ENGINEERING NETWORKS AND EQUIPMENT

The effectiveness of implementation grid energy storage in power supply systems	549
<i>V P Rybalskaya</i>	
Pulse control of temperature mode of buildings with elevator system connection heating	555
<i>S V Panferov, V I Panferov</i>	
Optimization of ventilation of an indoor ice rink by numerical simulation of air flows	561
<i>L G Starkova, E K Doroshenko, D A Zotova</i>	
Methodology for calculating the ineffective diameter of thermal insulation.....	569
<i>E Yu Anisimova</i>	
Improving energy efficiency and reliability of heating networks through the use of multilayer thermal insulation structures.....	574
<i>E A Biryuzova, A S Glukhanov</i>	

PART 2

Maintenance of heat stability of the heating system work in a structure	580
<i>B P Novoseltsev, M N Zherlykina, K V Garmonov</i>	
Backup thermoelectric sources of electric energy	587
<i>I U Shelekhov, E I Smirnov, M I Shelekhov</i>	

Analysis of the water absorption capacity of reed for use in eco-friendly filters	593
<i>A V Milyaeva, T V Shchukina, I I Kasatkina</i>	
Concerning the issue of alternative cold supply for building climate control systems.....	598
<i>I S Kurasov, T V Shchukina, A A H Al Saedi</i>	
The methodology of redundant design schemes and the method of contour minimization for tracing systems of field gas and oil pipelines	604
<i>V R Chupin, D I Maizel</i>	
Regularities of operation cartridge filters	611
<i>A Bahmetev, V Khuzin</i>	
An analysis of IT outsourcing models in the digital education process.....	618
<i>S V Fedorova</i>	
Reliability method for the gas distribution networks.....	624
<i>O N Medvedeva, A Yu Chilikin</i>	
Developing optimal ventilation system for a pasta production workshop using mathematical model	632
<i>L G Starkova, M S Shcherbak, V S Indykov</i>	
Study of factors affecting the reliability and efficiency of the heat supply system	640
<i>P A Gorshkalev, M D Chernosvitov, E G Porshina</i>	
Purification of fat-containing effluents with probiotic substances	646
<i>A K Strelkov, A O Bazarova, S Yu Teplykh</i>	
Mathematical modeling of water supply and sewerage systems	652
<i>S Yu Teplykh, D S Bochkov, A O Bazarova</i>	

FOUNDATIONS, BASES AND UNDERGROUND STRUCTURES

Taking into account nonlinear character of heaving pressure development at frost penetration into the soil in confined space	657
<i>V Kim, M Kim</i>	
Oscillations of offshore drilling platforms on layered anisotropic base.....	663
<i>R T Brzhanov, M Zh Nigmatov</i>	
Geotechnical risk assessment during the construction of international crossing under the runways of Sheremetyevo airport.....	670
<i>A G Polyankin, A Potokina, E Yu Kulikova</i>	
Recommendations accounting for anisotropy in the calculation of soil bases.....	679
<i>O A Korobova, L A Maksimenko</i>	
The estimation of efficiency from application the local strengthening of strip foundations by short piles	685
<i>S I Evtushenko, M N Shutova, V N Pikhur</i>	
Experimental studies of a weak clay base reinforced with sand piles	692
<i>D R Safin</i>	
Mathematical model of underground structure-soil interaction.....	699
<i>K S Sultanov, B E Khusanov, B B Rikhsieva</i>	

Management of the dynamic properties of a base modified by deep soil mixing technology	706
<i>E S Sobolev, A Z Ter-Martirosyan</i>	
The nature of the dynamic stress field formation around the underground hydraulic mine workings	712
<i>U A Yatimov, A J Yatimov, E A Yatimov</i>	
Consolidation of rocks in chamber workings and tunnels during the construction of underground hydroelectric power plants	721
<i>U A Yatimov, A J Yatimov, T A Yatimov</i>	

ENGINEERING AND COMPUTER GRAPHICS IN CONSTRUCTION DESIGN

Algorithms of generating cuspidal edges of developable surfaces	730
<i>N V Kovaleva, A V Fedorova, D A Pashyan</i>	
Computer modelling of architectural forms based on ruled surfaces with imaginary axes	738
<i>V A Korotkiy, L I Khmarova</i>	
Wedge-shaped surfaces with constant length generators in architectural design	744
<i>V A Korotkiy, E A Usmanova</i>	
Computer modeling using the example of a tubing support in the training of mining engineers in the digital economy	750
<i>A Sudarikov, V Merkulova, Z Tretyakova</i>	
Possibilities of computer-aided design of flange connections in pipe fittings based on the nanoCAD Mechanics graphic editor	756
<i>N S Kuvshinov</i>	
Chasles' mystic tetrahedron.....	761
<i>A L Kheifets Kheifets</i>	
Geometric approach to finding the best possible solutions based on composition optimization of the mixed aggregate of fine-grained concrete	769
<i>E V Konopatskiy, A I Bumaga, A A Bezdinyi</i>	
Usage of receptor (voxel) geometric models in the tasks of evaluating the ergonomics of engineering equipment of building structures	775
<i>Ye Win Tun, L V Markin</i>	

ARCHITECTURE, URBAN STUDIES AND DESIGN

Strategy of spatial development in urban planning Russia.....	785
<i>V A Kolyasnikov</i>	
Smart urban planning: modern technologies for ensuring sustainable territorial development.....	791
<i>V Yu Spiridonov, S G Shabiev</i>	
The urban planning information platform: progressive methods of planning and managing the sustainable development of territories	797
<i>V Yu Spiridonov, S G Shabiev</i>	
Factory towns of the Urals. The uniqueness of the planning structures of these towns	803
<i>M Yu Sidorenko, Zh V Ponomareva</i>	

Systematic approach to design	810
<i>L Surina</i>	
Rotunda churches of the Urals as an integral part of the world architectural heritage	815
<i>O B Tereshina</i>	
Creating a brand character for making animations in 3D graphics editor	821
<i>A Kolesova</i>	
Enhancing bus transit service efficiency under conditions of high street congestion.....	827
<i>L V Bulavina, L A Bannikova, A R Mukhametgaliyeva</i>	
Algorithm for assessing the comfort level of life support facilities and socially significant facilities by accessibility indicators.....	834
<i>N V Bakaeva, V A Gordon, I V Chernyaeva</i>	
Colour Science as one of the designer's tools	840
<i>T Vargot</i>	
Regional tradition in the architectural culture of Nizhneye Povolzhye (by the example of the Volgograd region)	845
<i>V Serebryanaya, Yu Kolyshv</i>	
Architectural and landscape organization of Norra Djurgårdsstaden in Stockholm.....	854
<i>V Dormidontova</i>	
Implementation of the conditions for successful preparation of the designer for project activities	860
<i>L Surina, D Surin</i>	
A draft decision on the issue of urban expansion of a densely populated city	866
<i>A S Vasilyev, V L Zemlyak, R E Boychin</i>	
Complex construction: urban design principles and the basis of sustainable development.....	871
<i>M V Puchkov</i>	
War memorial architecture: Rossoshki military memorial cemetery, Russia.....	877
<i>G A Ptichnikova, A V Antyufeev</i>	
State assessment of urban environment taking into account the development of engineering systems.....	883
<i>N V Bakaeva, T M Novikova, T L Kuznetcova</i>	
Features of urban greening for people with visual impairment in Vladivostok.....	889
<i>A Kopeva, O Khrapko, O Maslovskaya</i>	
University environment today: problems and prospects of spatial organization. INRTU	895
<i>O Ye Zheleznyak, M V Korelina</i>	
The formation of professional competencies and artistic values among students of architectural and design specialties in the process of exhibition activities of the Art Museum of the South Ural State University	901
<i>S D Voroshin</i>	
Semantic modelling as a means of forming an architectural object's artistic image	906
<i>V Moor, E Erysheva, A Gavrilov</i>	
Methods of evaluating yard area development in the context of urbanization	912
<i>O A Rastyapina, V G Polyakov, E V Kalashnikova</i>	

Basic methodical design stages of renovation of municipal industrial development	917
<i>E Shyshkin, K Viatkin, Y Haiko</i>	
Architectural image of modern police buildings in the context of safe urban environment	925
<i>M B Permyakov, T V Krasnova</i>	
The architecture of the building of the former consulate of the Russian Empire at 85 Hongjun Street, Harbin during the first half of the 20th Century	933
<i>T A Smolianinova</i>	
Arborsculpture: a promising trend in the interior gardening of buildings	938
<i>O O Smolina</i>	
Arborsculpture theme park	944
<i>O O Smolina</i>	
The origins of the formation and features of the manifestation of the Chinese Europeanized Architecture in mid-19th–second half of the 20th century	949
<i>A A Kim</i>	
Analysis of options for using objects of a municipality property complex in urban area development management	954
<i>O V Savina, N P Sadovnikova, D S Parygin</i>	
The formation of open spaces in residential construction in view of decreasing the labour intensity of their maintenance	960
<i>T V Belyaeva</i>	
Items and proposals related to the suburban area-planning within the big city sphere of influence.....	965
<i>A Pankeieva, K Viatkin, O Zavalniy</i>	
Ecological trends of the formation of spatial habitat Environment in architecture: precedents of the future	972
<i>N A Saprykina</i>	
Territory development in the Neva delta (1703-1844) - St. Petersburg model of urbanization.....	979

ANALYSIS, ASSESSMENT AND TECHNOLOGIES OF NATURAL AND MAN-MADE DISASTERS REDUCTION

Influence of water quality on the autoclave leaching process (on the example of the Bereznyakovsky gold recovery factory).....	1197
<i>N S Rasskasova, S A Belov</i>	
Ozone layer destruction and ways of its recovery	1202
<i>G N Akhobadze</i>	
The current state of forest stands under anthropogenic impacts on the example of the Orenburg Urals	1208
<i>R G Kalyakina, A V Filippova, M V Ryabukhina</i>	
Environmental and economic assessment of the impact of oil and gas production on the state of landscape and botanical complexes in the Urals	1215
<i>E.M. Anhalt, L.A. Dobrodomova, Z.N. Ryabinina</i>	
On the methodology for risk assessment in transport of dangerous goods by road.....	1221
<i>A V Kuzmin, L N Gorina, A Demin</i>	

On making amendments to the safety data sheet for territories.....	1229
<i>A V Kuzmin, L N Gorina, A Demin</i>	
Modern approaches to analysis of emergency risks in the Irkutsk Region.....	1236
<i>E A Khamidullina, T I Drozdova</i>	
The improvement of safety and reliability of Ground dams and small pond dams	1242
<i>E V Vasilieva, V M Fedorov</i>	
Approach to substantiation of rational decisions on protection of fuel and energy complex objects to the impact of emergency explosions	1248
<i>A V Rybakov, E V Ivanov</i>	
Assessment and method for reducing the risk of emergencies at enterprises using equipment operating under excessive pressure	1255
<i>O V Udartseva</i>	
Improving the sustainability of cultural heritage sites using the INFORM Method.....	1261
<i>E V Muravyeva, E V Arefyeva, N E Danilina</i>	
Determining the vulnerability of educational institutions in terms of the requirements of the program “My city to prepare”	1267
<i>E V Muravyova, A V Utkin, B M Valiullin</i>	
Risk control system for the construction of urban underground structures	1277
