TABLE OF CONTENTS

PART 1

Preface

Peer review declaration

ADDITIVE MANUFACTURING

Intelligent diagnostics and control of 3D printing processes by electric arc surfacing of workpieces made of cold-resistant materials on a CNC machine using machine learning approaches and neuromorphic calculations.....	1
<i>Dmitrii Shatagin, Yuri Kabaldin, Maksim Anosov, Pavel Colchin</i>	
Application of additive technologies for manufacturing a wear-resistant steel pipe outlet	9
<i>L V Sedykh, S V Albul, D B Efremov, M A Sukhorukova</i>	
Study of FDM technology applications in the casting production of GTE details	17
<i>A V Balyakin, R A Vdovin, R R Kyarimov</i>	
Formation of aluminum alloy parts with working internal cavities by selective laser melting	23
<i>A A Voznesenskaya, D A Kochuev, A S Raznoschikov, R V Chkalov</i>	
Research of Ti-6Al-4V titanium alloy welded joints made by electron beam welding, designed for operation in cryogenic conditions.....	29
<i>S V Kovalev, A I Portnykh, V Y Aslamova</i>	
Production technology for polymeric composite materials by additive manufacturing methods	36
<i>S A Egorov, T V Tarasova, S M Terekhina</i>	
Investigation of processes occurring above laser exposed area during powder bed fusion by optical diagnostics	44
<i>P A Podrabinnik, R S Khmyrov, A D Korotkov, A E Shtanko, A V Gusarov</i>	
Prediction of the properties of photopolymer prototypes	52
<i>A A Shumkov, T R Ablyaz, K R Muratov, S S Sidhu</i>	
Extruder for the production of metal-polymer filament for additive technologies	59
<i>S I Roshchupkin, V I Golovin, A G Kolesov, A Yu Tarakhovskiy</i>	
Efficiency of applying advanced electromagnetic pulse processing when turning polymer composite materials	65
<i>O Yu Erenkov, I Ya Lopushanskii, D O Yavorskii</i>	
The parameters values choice for the preliminary thermo mechanical effects on polymeric materials before machining	70
<i>O Yu Erenkov, I Ya Lopushanskii, D O Yavorskii</i>	
Modeling of an equal-wear shape of grinding wheel when working with longitudinal feed.....	77
<i>D P Salova, N V Nosov, P M Salov</i>	

Analysis of design solutions for galvanizing of small parts of ferrous metals in bulk	82
<i>V Nemtinov, M Matrochin, Y Nemtinova, A Krylov</i>	
Technology of extending operational life of multifaceted disposable plates.....	89
<i>N V Nosov, S N Balakirov</i>	
Heat treatment effect on structural and elastic characteristics of a single-component abrasive tool.....	96
<i>M Yu Polyanchikova, V A Nosenko, A A Kozhevnikova</i>	
Combined multi-electrode piercing of holes in hard-to-process materials	103
<i>V Smolentsev, O Kirillov, Y Kotukov</i>	
Visualization models of technological heredity in mechanical engineering.....	107
<i>Alexander Konoplin, Natalia Baurova, Sergei Abrakov</i>	
Manual measurements of cutting tools on a coordinate measuring machine.....	115
<i>I P Nikitina, C V Kamenev, A N Polyakov</i>	
Unbalances formation of the textured wheel at preparation to grinding process.....	122
<i>Vladimir Gusev</i>	
Heat model of a spindle support of a precesion metal cutting machine	127
<i>A F Denisenko, L Y Podkruglyak</i>	
Efficiency of the continuous editing process grinding circles	135
<i>D P Salova, A F Denisenko, P M Salov, R G Grishin</i>	
Thermal strengthening treatment of low-rigid lead screws	141
<i>A V Bobrowski, O I Drachev, I V Turbin, V E Epishkin</i>	
Improving lathe dynamics by workpiece - support subsystem control.....	145
<i>A V Bobrovsky, O I Drachev, V E Epishkin</i>	
Improving the accuracy of axisymmetric parts by applying controlled heat treatment	151
<i>O I Drachev, A V Bobrowskii, V N Tisenko</i>	
To the definition of stress-strain state of springs during recovering when hardened	158
<i>N A Zemlyanushnov, N Y Zemlyanushnova</i>	
Fuzzy control under uncertainty in machine building	165
<i>V Ablyazov, O Drachev, V Tisenko</i>	
Perfection of the methodology for calculating the keyway broach through the experimental data of photomechanics	170
<i>O Zhed, M Kozochkin, K Kazymaeva</i>	
Study of possibility to process the edges of the parts on the robot.....	178
<i>D Podashev</i>	
The wheels for final processing of parts.....	185
<i>Yu Dimov, D Podashev</i>	
Rolling of a cylinder on the deformable surface with account of viscous lubricant.....	192
<i>Oleg Zavyalov</i>	
The Investigation of lengthwise rolling on a stub mandrel by the use of a computer simulation.....	198
<i>D A Pavlov, M V Erpalov</i>	

Mathematical model of allowance removal at nonabrasive processing of bearing details	203
<i>M K Reshetnikov, O Y Davidenko, V V Shpilev, M Y Zakharchenko</i>	
Dependence of abrasive tool wear-resistance on abrasive grain microstrength.....	209
<i>Yu Bagaiskov</i>	
Analysis and synthesis of ecological installations for recycling waste polyurethane foams	214
<i>D L Rakov</i>	
Development of a sophisticated tool for processing parts with an involute profile.....	219
<i>Alexander Ryazantsev, Anna Shirokozuhova, Irina Evchenko</i>	
Numerical simulation of turning contact temperatures with varying material yield strength and tool wear	226
<i>A N Unyanin, P R Finageev</i>	
An approach to complex model ECGA for the stable and unstable grinding conditions	231
<i>Masar Alsigar, Pavel Pereverzev, Aziz Almawash, Mohamed Alkadhim</i>	
The synthesis of $\text{Li}_2\text{ZnTi}_3\text{O}_8$ and $\text{Li}_2\text{Zn}_3\text{Ti}_4\text{O}_{12}$ powders for Low Temperature Cofired Ceramic (LTCC) production.....	238
<i>D I Vershinin, I N Khusainov, N A Makarov</i>	
Effect of the Step in the Blow Channel of a Blast Furnace Tuyere on Improving Natural Gas Combustion	243
<i>S D Sayfullayev, D B Efremov, Yu S Tarasov</i>	
The problem of the solution formalizing of determining the error of turning due to elastic deformations of the technological system	249
<i>Alexey A Zhdanov, A L Plotnikov, O A Kursin, A A Kozhevnikova</i>	
Simulation of upsetting process using kinematic schemes of metal flow.....	256
<i>KN Solomonov, L I Tishchuk, S N Lezhnev, E A Listrov</i>	
Application of the group scheme of cutting when processing coarse-grain cogwheels.....	264
<i>E V Artamonov, V V Kireev, V A Zyryanov</i>	
Rapid assessment of adhesion of paint coatings by digital image analysis	269
<i>N M Antonova, E Yu Khaustova, A A Nebrat, A S Puzanova</i>	
Twist drilling SPH simulation for thrust force and torque prediction	275
<i>I S Boldyrev, D I Topolov</i>	
Determination of conditions ensuring maximum operability of replaceable hard-alloy cutting plates during blade processing.....	281
<i>E V Artamonov, A M Tveryakov, A S Shtin</i>	
Analysis of the algorithms of the movement of forming during planetary boring and milling on CNC machines.....	286
<i>Julio L Tchigirinsky, A A Greshnikov, S I Kormilitsin, A A Zhdanov</i>	
The use of laser radiation for cutting of blind grooves and small-sized through cuts in thin-walled cylindrical bodies	292
<i>V A Ratmanov, G N Gavrilov, E A Marinin, A S Beltukov, K V Razheva</i>	

Simulation of maximum elastic deformations during flat grinding of low-rigidity prismatic workpieces.....	298
<i>V N Tyshkevich, A V Sarazov, S V Orlov</i>	
The problem of capsule manufacturing for hot isostatic pressing	306
<i>P L Zhilin, G N Gavrilov, A D Ryabtsev, E O Bazhenov</i>	
Unified approach to developing analytical models of different grinding processes based on basic cutting process model.....	312
<i>A V Akintseva, P P Pereverzev, A V Prokhorov, S N Kononov</i>	
Cutting of worm, spiroid and bevel gearwheel teeth by means of running-in cutter head	320
<i>E S Trubachev, K V Bogdanov, T A Pushkareva</i>	
Studying the processes of early structure formation of a modified cement paste.....	328
<i>S V Samchenko, M A Abramov, E S Egorov</i>	
Structure and properties control of carbon alloys cast blanks produced by aluminothermic method with following heat treatment.....	334
<i>V V Predein, O N Komarov, S G Zhilin</i>	
Kinematics of ultrasonic processing.....	343
<i>Kharis Rakhimyanov, Viktor Gileta, Artem Samul</i>	
Monitoring system of hydro and wind power equipment based on intelligent measuring complexes and Neurodiagnostics	352
<i>A S Komshin, K G Potapov, A B Syritsky, A E Fomin</i>	
Development the assembly sequence mathematical modeling method of precision axisymmetric products based on the graph incidence matrix.....	361
<i>I A Volkov, D D Primak, R L Artykh, R I Bazhenov</i>	
Development of a control system for large-sized products to improve product quality in mechanical engineering	370
<i>M O Sinitza, A S Komshin</i>	
Approach to optimization of composite aircraft wing structure	378
<i>Phyo Wai Aung, Oleg Tatarnikov, Naing Lin Aung</i>	
Current issues of the quality management system in mechanical engineering	385
<i>M S Ostapenko, E V Loginova</i>	
The technology of printed circuit board microdrilling	389
<i>V P Mikhailov, Tun Lin Aung, A V Kazakov, A A Kopylov</i>	
Development of the algorithm for modelling autoclave curing conditions and calculation of temperature fields into elements of sandwich structures	395
<i>B B Morozov, F A Nasonov, S V Bukharov</i>	
Experimental production of samples and prototype parts from titanium-polymer composite material.....	399
<i>F A Nasonov, A O Akulinin, B B Morozov, U A Popova, A A Filatov</i>	
Information technology of ultrasonic assembly and pressing of joints	403
<i>Vyacheslav Shuvaev</i>	
Studying the process of electric discharge machining of products obtained by powder laser welding	407
<i>E S Shlykov, T R Ablyaz, K R Muratov, S S Sidhu</i>	

Investigation of Technological Parameters for Machining Toroidal Section of Solid Ceramic End Mills	413
<i>S N Grigoriev, V A Grechishnikov, M A Volosova, X Jiang, P M Pivkin</i>	
The energy-power parameters of the semi-enclosed heading of the rod-shaped hardware	423
<i>O S Zhelezkov, M V Kharchenko, E M Martynov, E V Suvorova</i>	
Flow capacity of the capillary copper tube as its figure of merit.....	428
<i>M S Shalaeva, Y N Loginov</i>	
Theoretical determination of effective drilling modes with epilamited tool.....	434
<i>E A Zvyagina, A N Tkachenko, E M. Selemeneva, A A Cherepenko</i>	
Monitoring and diagnostics of technological processes with the possibility of dynamic selection of variables	443
<i>A A Sychugov</i>	
Determination of the maximum grain width in fractions of grinding powders obtained by screening on test sieves.....	448
<i>V A Nosenko, A A Aleksandrov</i>	
Improving the quality of surgical scalpels with ceramic blades	455
<i>V V Alisin</i>	
Investigation of the structural state of pipe steel during thermo mechanical processing	462
<i>S I Platov, V A Nekt, V N Urtsev, K B Maslennikov</i>	
Research accuracy of final formation profile of rolling ball bearings by various methods.	467
<i>M K Reshetnikov, O Y Davidenko, V V Shpilev, M Y Zakharchenko</i>	
Analysis of geometrical parameters of hot-rolled rolling	472
<i>S M Belskiy, V A Pimenov, A N Shkarin</i>	
Profiles' classifier of hot-rolled rolling	478
<i>S M Belskiy, V A Pimenov, A N Shkarin</i>	
Reducing the effect of centrifugal forces on the clamping force in the new design of a three-jaw lathe chuck.....	484
<i>N M Legkiy</i>	
Surface quality of high-speed cutting plates in flat grinding by new abrasive wheels of "Saint-Gobain Abrasive" company	488
<i>Nguyen Duy Canh, Nguyen Van Canh, Pham Xuan Hong, Nguyen Ngoc Hue, Tran Dinh Duy</i>	
Use of high-intensity acoustic field exposure during the preparation of emulsion type drilling mud	496
<i>V V Zhivaeva, M E Koval, V A Kapitonov</i>	
Tool Performance Under Ultrasonic Reaming	502
<i>S I Agapov, Y I Sidyakin, S N Olshtynsky</i>	
The influence of rolling on the variation of unevenness parameters of the treated surface.....	509
<i>S A Kurguzov, E Suvorova, E V Shestopalov, I A Krasnoperova</i>	
Effect of laser beam cutting parameters on productivity and dimensional accuracy of miniature spur gears of stainless steel	514
<i>Cristina Anghel, Kapil Gupta, TC Jen</i>	

Inelastic deformation of ceramics based on zirconium dioxide.....	521
<i>E E Deryugin, N A Narkevich, I A Danilenko, Z Shmauder</i>	
Features of the influence of process media of plant origin on power characteristics during cutting and quality of the processed surface.....	530
<i>R Dzhemalyadinov, V Skakun, E Vaniev, I Abdulkherimov</i>	
Melting dynamics of electrodes, additive materials in welding	535
<i>V L Fedyayev, E R Galimov, A V Belyaev, L V Sirotkina</i>	
Selection and design of tools for finishing machining of seal grooves of hydraulic cylinders.....	540
<i>Elena Yatsun, Oksana Zubkova, Ivan Karnaukhov</i>	
Improving the accuracy of deep hole machining by diamond honing process in 41Cr4 steel parts	547
<i>Eshreb Dzhemilov, Alper Uysal</i>	
Building a model of the process of grinding screws for ball-screw transmission	552
<i>Vladimir Bogutsky, Leonid Shron, Yury Novosyolov</i>	
Equipment for improving the quality of finishing processing in floating workshops	560
<i>Ekaterina Vladetskaya, Stanislav Roshchupkin</i>	
On the question of improving the finishing operations of processing precise holes in the hulls of ship machinery	566
<i>Leonid Shron, Vladimir Bogutsky</i>	
Cutting ability of abrasive grains in the processing of billets of plastic materials with the applying of ultrasonic vibrations.....	573
<i>A N Unyanin, A V Khazov</i>	
Features of making non-rigid parts from titanium and aluminium alloys	578
<i>E S Kiselev, M V Nazarov</i>	
Reducing the porosity of AISI 6150 steel by hot isostatic pressing	586
<i>R V Chkalov, D A Kochuev, A A Voznesenskaya, D G Vasilchenkova</i>	
Selection of rational modes of laser powder cladding	590
<i>A N Gots, D S Gusev, A B Lukhter, A V Zavitkov</i>	
The research of structural parameters, mechanical properties and efficiency of the cutting tool with multilayer coatings based on niobium nitride.....	598
<i>V Tabakov, A Chikhranov, Y Dolzhenko, S Vlasov</i>	
Influence of various types of spherocorundum on the performance of grinding wheels.....	604
<i>Vitaliy Korotkov</i>	
Influence of production technology on the structure and properties of powder high-speed steels	612
<i>A N Korotkov, L P Korotkova, S V Laschinina</i>	
Technological efficiency of introducing the energy of the ultrasonic field in the area of processing holes in complex packages of composite materials and titanium alloys.....	619
<i>E S Kiselev, K S Savelev</i>	
Quality control of parts which were manufactured from polymeric composite materials with hybrid matrix with the application of method of infrared thermography.....	623
<i>Ekaterina Kosenko, Natalia Baurova, Vladimir Zorin</i>	

Effect of hydro-jet treatment on the adhesion of the PVD coating to the carbide substrate as a method for pretreatment of the surface..... 628
S V Fedorov, I I Sazanov, D V Igonov, A R Seitkulov

Research of frost-resistant rubber for seals 636
Anatoly A Asheichik, Mohammad Reza Bahrami, Daniil K Zorin

PART 2

Optimization of granulometric composition of mineral part of fine-grained concrete modified by ultrasound..... 644
V V Belov, P V Kuliaev, A A Artemiev

MATERIALS SCIENCE

The role of dispersed phase in the formation of Ni – CEC..... 649
S V Vodopyanova, G G Mingazova, R E Fomina, R S Sayfullin

The role of nanostructure forming mechanism in the production of universal functional coatings with Fe-Ni, Co-Mn, Ni-Cr alloys 655
I G Zhikhareva, V V Schmidt, D V Denisenko

Prediction of phase composition and anticorrosive properties of Zn-Ni-Co alloys..... 660
V V Schmidt, I G Zhikhareva, D V Denisenko

Ceramics on the basis of zinc orthostannate 666
I I Akseyutin, AV Rasskazin

Dense ceramics based on magnesium aluminate spinel with the addition of gallium oxide 671
A V Ulyanova, M O Senina, D O Lemeshev

Research of electric resistance surfacing (welding-on) of cylindrical steel and cast iron samples with low-carbon low-alloyed filler wire 678
V A Dubrovsky, A Yu Amelicheva, E S Kalmykov

Features of the structure of interfacial layers in polymer composites 686
G S Zhukova, Z R Radjabov, G V Boykova

Production of dense ceramics based on magnesium aluminate spinel with an evaporating additive 691
E A Kozlovskaya, M O Senina, D O Lemeshev

Study of the particle size distribution of electroerosive materials obtained from waste alloys based on W-Ni-Fe in lighting kerosene 697
E V Ageev, A S Pereverzev, V L Selyutin

Study of the morphology and elemental composition of electroerosive materials, obtained from waste based on W-Ni-Fe alloy in lighting kerosene 701
E V Ageev, A S Pereverzev, V L Selyutin

A review of carbon fiber materials in automotive industry 706
H Ahmad, A A Markina, M V Porotnikov, F Ahmad

Contemporary methods of production of titania..... 716
A V Vyboishchik, M Yu Popov

Thermodynamic substantiation of the conditions of metal adhesion in dry friction.....	725
<i>V V Bulychev, S A Golubina</i>	
The study of high-temperature stability of the thermoprotective coating made of zirconium dioxide.....	730
<i>I N Tsareva, O B Berdnik, E N Razov, M V Maximov</i>	
The study of high-temperature stability of the heat-resisting intermetallide coating	738
<i>I N Tsareva, O B Berdnik, L A Krivina, M V Maksimov</i>	
The influence of surface preparation methods on the adhesion of film antifriction coatings	745
<i>A Yu Rodichev, A V Gorin, S V Kolpakova, M A Tokmakova</i>	
Numerical modeling of the problem of indentation of elastic and elastic-plastic massive bodies	751
<i>R A Abirov, B E Khusanov, D A Sagdullaeva</i>	
Investigation of the effect of the treatment of the surface of VT6 alloy on the penetration depth of implantable ions	759
<i>V V Ovchinnikov, E V Luk'yanenko, I A Kurbatova, S V Yakutina</i>	
Physico-mechanical properties of VT6 titanium alloy after combined treatment	767
<i>E V Luk'yanenko, I A Kurbatova, S V Yakutina</i>	
Investigation of the effect of ion implantation on the structure of the surface layer of VT20 titanium alloy	774
<i>V V Ovchinnikov, N V Uchevatkina</i>	
Basic concept of tribocrystallochemistry of composition antifriction coatings	779
<i>I N Shcherbakov</i>	
Agricultural materials based on eco-friendly polymers.....	787
<i>L S Shibryaeva, M V Podzorova, Yu V Tertyshnaya, M E Chaplygin</i>	
Investigation of the resistance of protective coatings to fouling by the mollusk Dreissena polymorpha.....	791
<i>Vasily Kostin, Sergey Orlov, Vladimir Kochetkov, Natalya Sokolova</i>	
The choice of pulse laser radiation modes for hardening a metal cutting saw	797
<i>D G Sergeev, E A Marinin, N I Marinina, M D Durseneva</i>	
Theoretical methods for calculating the structure and properties of cast iron based on Fe-C-Al systems	801
<i>R A Bikulov</i>	
Analysis of the properties of castings obtained by direct synthesis based on iron-containing industrial waste engineering	808
<i>R A Bikulov</i>	
Experimental determination of interaction parameters in materials Fe-C-Al systems	816
<i>Rinat Bikulov</i>	
Evaluation of the effectiveness of using solid lubricants to reduce the wear of the brushes of electric AC machines.....	822
<i>A I Isotov, S A Isotov</i>	
Method of increasing the fire resistance of wood.....	830
<i>A M Gazizov, E V Popova, O V Kuznetsova, A A Akhmadullin</i>	

Influence of surface structures on torque of VT6 alloy cortical screws	835
<i>S V Skvortsova, V S Spector, S M Sarychev, A A Orlov</i>	
Engineered nanomaterials for energy sector: market trends, modern applications and future prospects	844
<i>E Inshakova, A Inshakova, A Goncharov</i>	
Soil strengthening using fine composite binder based on carbide slurry	852
<i>A I Panchenko, I Ya Kharchenko, M Mirzojan</i>	
Burnout resistance assessment of air tuyere in blast furnace	860
<i>M M Skripalenko, O A Kobelev, S D Sayfullayev</i>	
Improving the heat insulation efficiency of the blast furnace tuyere	868
<i>Yu S Tarasov, O A Kobelev, S D Sayfullayev</i>	
Comparative study of structural properties of syntactic carbon foams made using different process approaches	874
<i>E R Galimov, N Ya Galimova, P B Shibaev, V M Samoylov</i>	
Influence of the composition and synthesis technology on the structure of syntactic carbon foams	882
<i>E R Galimov, V L Fedyaev, P B Shibaev, V M Samoylov</i>	
Searching for a rational schedule of a burnishing process with superimposition of ultrasonic vibrations	890
<i>E M Martynov, O S Zhelezkov</i>	
Optical properties of component surfaces processed by surface plastic deformation methods	894
<i>M N Nagorkin, V P Fyodorov, E V Kovalyova</i>	
The quality study of composite galvanic coatings, obtained using electroerosive powders	900

Dynamics of the beam laying on the elastic basis of the Pasternak model carrying the moving constant load.....	1094
<i>V I Erofeev, E E Lisenkova, A O Malkhanov, I S Tsarev</i>	
Target training of technologists in a virtual enterprise environment	1100
<i>Andrey A Cherepashkov, Valeriy N Voronin, Anastasiya G Sharaukhova</i>	
Modeling and calculations of mechanical characteristics of transport means	1104
<i>Evgenij Kudryavcev, Dipotet Mollinedo</i>	
A mathematical model for the selection of visualization system components in training complexes	1111
<i>Denis Dedov, Alexey Arkhipov, Alexander Sidorchuk</i>	
CAD-technology is a tool for teaching bachelor students industrial technology.....	1118
<i>E A Danilova, T V Antropova, A A Skotnikova, S V Borodulina</i>	
Simulation of operation of a flow sensor of variable pressure differential.....	1124
<i>Alexander Kharitonov, Elena Busigina, Olga Nikitina, Ygor Maslennikov</i>	
A study of the cultivator suspension's strength based on its solid model in Autodesk Inventor Professional	1129
<i>V V Telegin, I V Telegin</i>	
Impact of technological errors of design parameters of broadband radio signals mixer based on resonant-tunneling diode on its electrical characteristics	1135
<i>K V Cherkasov, S A Meshkov, M O Makeev, V D Shashurin</i>	
Modelling attacks in self-organizing wireless sensor networks of smart cities	1141
<i>A V Meleshko, V A Desnitsky, I V Kotenko</i>	
Analysis of industrial performance in terms of achieving quality goals.....	1149
<i>O V Anikeeva, A G Ivakhnenko, M L Storublev</i>	
Modeling traffic streams on a road network section.....	1157
<i>L E Kushchenko, S V Kushchenko, A N Novikov, I A Novikov</i>	
Application of cognitive technologies for modeling of design and technological knowledge and automation of design activities	1162
<i>Galina Volkova, Tatyana Turbeeva, Oleg Grigoriev, Alexandr Sobolev, Ruslan Dikov</i>	
Formation and selection methodology of digital transformations programs for an industrial enterprise using machine learning algorithms	1167
<i>S V Lukina, V V Makarov, M F Dobrolyubova, M V Krutyakova</i>	

Sampling method for evaluation and control of industrial product quality	1172
<i>S V Lukina, V M Makarov, S A Ovchinnikov, O E Zimovets</i>	
Implementation of a probabilistic subtractor based on a probabilistic adder.....	1177
<i>D V Moiseev</i>	
Operational control algorithm of parameters of high-pressure sodium lamps based on a statistical time series model.....	1183
<i>A D Semenov, A V Volkov, N I Shchipakina</i>	
On regularization and vector optimization of machine design variables.....	1190
<i>L B Matusov</i>	
The use of CAD when designing forest machines.....	1195
<i>S N Dolmatov, P G Kolesnikov</i>	
Reliability analysis of technological cell with start-up device	1202
<i>Sergey G Glech, Yuriy E Obzherin, Sergey N Fedorenko</i>	
Implementation of an enlarged block of design procedures for the analysis of requirements for the assembly of high-precision products	1208
<i>A Nazaryev, P Bochkarev</i>	
Reconstruction of thermo-physical properties to improve material database for casting simulation	1214
<i>O M Ogorodnikova, S V Yeltsin, S V Martynenko</i>	
A model for detecting vulnerabilities in UMV interfaces, based on probabilistic automata	1219
<i>A V Skatkov, A A Bryukhovetskiy, D V Moiseev</i>	
Building a space for an analytic function that describes a spline curve	1224
<i>A V Tolok, M A Loktev, A A Sycheva</i>	
System for dynamic synthesis of differential equations of mobile machines motion.....	1233
<i>A S Baranov, A S Pavlyuk</i>	
Improving simulation adequacy of production processes by jointly applying the planned and situational reservation logic of jobs in the machine parts manufacturing batch	1241
<i>S N Grigoriev, V A Dolgov, A A Leonov</i>	
Information model of production and logistics systems of machine-building enterprises as the basis for the development and maintenance of their digital twins.....	1250
<i>S N Grigoriev, V A Dolgov, P A Nikishechkin, N V Dolgov</i>	
Deformations and casting defects depending on the gating system for gas turbine engine castings	1257
<i>A Inozemtsev, A Dubrovskaya, K Dongauzer</i>	
Using skeleton geometry of parts and assembly units of aviation pipeline for digital shadow realization	1264
<i>P Yu Pavlov, Yu V Polyanskov, O V Zheleznov, A I Sidorova</i>	
Digital enterprise comprehensive evaluation.....	1269
<i>Yu V Polyanskov, M N Yardaeva, S V Lipatova, I V Lutoshkin</i>	
Calculation and design of mechanical transmissions with the help of various computer-aided design in conditions of educational process.....	1277
<i>Dmitry Kurasov</i>	

Calculation of the complex of virtual surface roughness parameters obtained in the simulation
geometric grinding model..... 1282
L V Shipulin, S A Pavlov, E V Nesteruk

Study of feedwater regenerative heating operating modes at reduced loads of a turbogenerator by
300 MW power unit capacity 1288
Aleksandr Limar, Aleksey Babushkin, Ludmila Kinash, Aleksey Malykov, Kirill Naginaev

PART 3

Applicability of statistical modelling in problems of cardiopulmonary resuscitation device's state
control..... 1295
K Osipov, A Krugovoy, V Novikov

MODELING OF TECHNICAL SYSTEMS, CAD / CAM / CAE - TECHNOLOGIES

Probabilistic graph-theoretic models for dynamic and information capability problems research..... 1302
Alexander S Geyda

Model of selective assembly process of rod-piston group parts of internal combustion engines 1308
O V Filipovich, A I Balakin, N A Balakina

Design of autonomous endoscopic video system 1315
O V Filipovich, M M Maistrishin, M I Garmatyuk

Multi-operation machine with tool redundancy as a two-component recoverable system with
instantly replenished time reserve 1321
A Peschansky, A Kharchenko, E Yagyaev

Study of vertical milling machine layout in terms of rigidity 1328
R M Khusainov, A R Sabirov, E R Ziangirova

Active cooling systems for the hot zone of heat engines 1336
Vladislav Smolentsev, Vasilii Gritsuk, Andrei Mandrykin

The estimation of dynamical condition of vibration technological machines at joint action of two
external disturbances 1341
R S Bolshakov, I S Sitov

Linear theory of the structure of mechanisms 1350
S A Kuznetsov

Features of determining the efficiency of the cam wave generator of the wave gear 1358
S E Lyuminarsky, I E Lyuminarsky, E S Lyuminarskaya

Effective design features of rotor shafts 1363
V E Kondratenko, L V Sedykh, R Y Surkova

Longitudinal Impact of Straight Rod against Elastic Support 1369
V S Zhernakov, V P Pavlov, V M Kudoyarova

Probability calculation applied to potential failure zones of the bridge girder of metallurgical crane 1377
Yu A Izvekov, V V Dubrovsky, A A Stupak

Optimization of a simulation model of the picking process using ABC analysis on the example of automated storage systems	1383
<i>A L Nosko, E V Safronov, P V Boslovyak</i>	
Influence of elastic deformation of gear hone teeth on machined gear accuracy	1390
<i>Yu Bagaiskov</i>	
The effect of impact velocity on rebound height after impact interaction	1396
<i>V Lapshin, D Kobzov</i>	
Development and research of elastic-damping device with variable stiffness	1404
<i>N K Kuznetsov, I A Iov, A A Iov, E S Dolgih</i>	
Improving the layout of skid steer loader	1410
<i>Alexey Khomichev, Alexandr Volkov</i>	
The Blagonravov Continuously Variable Transmission: importance of internal force functions for torque transforming	1414
<i>A V Yurkevich, A V Tereshin, V A Soldatkin</i>	
The Blagonravov continuously variable transmission: computational model of oscillation generator loading	1423
<i>A V Tereshin, A V Yurkevich, V A Soldatkin</i>	
Blagonravov Continuously Variable Transmission: computational model of load distribution over elements of control system	1431
<i>V A Soldatkin, A V Yurkevich, A V Tereshin</i>	
Damage assessment of materials at low temperatures using the parameter of the fractal dimension of the microstructure.....	1438
<i>Y G Kabaldin, A A Khlybov, M S Anosov, D A Shatagin</i>	
Modeling elastic deformations of the rotary dividing table faceplate under the action of the workpiece weight	1443
<i>B A Tsarfin</i>	
Modeling maintenance of the machine-building complex.....	1449
<i>I Ya Lvovich, Ya E Lvovich, A P Preobrazhenskiy, O N Choporov</i>	
The issue of low resistance of punches when heading of sunk screw made of ferrite-pearlite steels.....	1455
<i>V V Galkin, G N Gavrilov, S V Ivanov, A V Bratuknin</i>	
The influence of the hardening curve of a material on the results of torsion tests of notched specimens	1460
<i>M V Erpalov, D A Pavlov</i>	
Causes of cracks on the edges of the combustion chamber of the diesel engine piston	1466
<i>A N Gots, V S Klevtsov</i>	
Analysis of engineering mechanics problems solved by descriptive geometry methods	1474
<i>Olga Nazarova, Aleksey Chikhranov, Yana Dolzhenko, Anna Shagarova</i>	
Studies of the process of heating air in the inlet pipe for starting a diesel engine at low temperatures	1480
<i>I E Agureev, M Yu Elagin, D V Pavlov, R N Khmelev</i>	

Elastic punching of material during flattening of a spherical asperity and restoration of the imprint in unloading.....	1485
<i>P M Ogar, D B Gorokhov, E V Ugryumova</i>	
Involute Teeth with Variable Base Diameter	1492
<i>A Seregin, A Kravtsov</i>	
Analysis of the pneumatic actuator of traction machines sand feeding system when the sand-air mixture flows out.....	1497
<i>P Y Konovalov, Y P Bulavin, I V Volkov, I A Yaitskov</i>	
Improving the pneumatic actuator of the locomotive sand feeding system by increasing the outlet flow velocity.....	1503
<i>Y P Bulavin, P Y Konovalov, I V Volkov, O N Bessarabova</i>	
Kinematic parameters of the device for cleaning the excavator bucket	1511
<i>S A Zenkov, D Lkhanag</i>	
Hydraulic shock suppression mechanism of the hydraulic drive.....	1517
<i>N A Fomenko, O V Burlachenko, A A Lyashenko</i>	
Phasechronometric performance data processing for lathe operation parameters monitoring	1524
<i>D D Boldasov, A S Komshin, K G Potapov, A B Syritskii</i>	
Stress waves in a cylindrical body interacting with external medium	1529
<i>K S Sultanov, B E Khusanov, B B Rikhsieva</i>	
Operation of process equipment with crack-like defects.....	1537
<i>S I Valeev, I E Kharlamov</i>	
The computational models of measurement parameters for electromechanical energy systems with the application of neurodiagnostics	1542
<i>K G Potapov, E V Tumakova, O V Ummanova</i>	
Non-traditional approaches to the problems of forming the structure of the vibration field of technological machines	1547
<i>A V Eliseev, N K Kuznetsov, S V Eliseev, Q T Vuong</i>	
Analysis of structures, properties and basic indicators of two-row axial piston hydraulic machines with an inclined cylinders block.....	1554
<i>A I Nizhegorodov, A N Gavrilin, B B Moyzes</i>	
Internal ballistics of smoothbore guns.....	1563
<i>K R Crawford, N W Mitiukov, E L Busygina, M Y Alies</i>	
Simulation modelling of the pumping station with a high-speed motor.....	1569
<i>M Y Alies, K G Volkov, N W Mitiukov, E L Busygina</i>	
The formation of errors caused by temperature processes in mechanisms built on the principles of parallel kinematics.....	1573
<i>Yu I Brovkina, A N Sobolev, A Ya Nekrasov</i>	
To the question of the distribution of the workload between the teeth of chain gear sprockets	1579
<i>Ya A Nekrasov, A N Sobolev, M O Arbutov, A V Rivkin</i>	
Research of sparing technologies of tunneling	1586
<i>A M Pishchukhin, G F Akhmedyanova</i>	

Selection of displacement coefficients in external and internal involute gearing of planetary rotor hydraulic machine	1593
<i>Dmitry Kurasov</i>	
Assessment of the influence of contact surface roughness on thermal conductivity	1599
<i>A D Ezhov, L V Bykov, N S Golikov</i>	
Simulation of satellite bearings loading in planetary cycloid gear	1604
<i>E A Tchufistov, O E Tchufistov</i>	
An algorithm for controlling the visco-elasto-plastic model for studying shock interaction processes	1612
<i>V Lapshin, E Zenkov</i>	
Evaluation of tribotechnical parameters of polymer compounds used in machine tool construction.....	1620
<i>L K Generalov, O A Galkovskii</i>	
Study of a throttle work-fluid flow regulations characteristics of the electro hydraulic actuator under aerodynamic load	1625
<i>V I Lalabekov, V Y Obolenskiy, Y G Obolenskiy, S L Samsonovich</i>	
Modeling of non-contact atomic force microscope with two-term excitations	1633
<i>Mohammad Reza Bahrami</i>	
Improving the mechanical and operational characteristics of aluminum alloys by multi-contact deformation treatment	1640
<i>A V Kirichek, S V Barinov, A V Yashin</i>	
About form of elastic flexible tube.....	1646
<i>V N Shinkin</i>	
To question about moment at elasticoplastic bending	1652
<i>V N Shinkin</i>	
Structural analysis on mild-steel and aluminium brake disk for application on belt conveyor	1659
<i>Daniel Chelopo, Kapil Gupta</i>	
Compression of a porous cylindrical body	1667
<i>V L Fedyaev, M Kh Faskhutdinov, I N Sidorov</i>	
Synthesis of the Reflective Surface on an Elastic Shell	1672
<i>Alexandra V Nemenko, Michael M Nikitin</i>	
Vibration and impact properties of magnetorheological elastomers	1681
<i>A Ja Minaev, Ju V Korovkin, H H Valiev, G V Stepanov</i>	
Reliability assessment of the stepless rotation mechanism of an industrial tractor with a tracking control system.....	1688
<i>O O Pavlovskaya, Yu M Zemlyansky, S V Kondakov, I A Podzhivotova</i>	
Effectiveness of introducing innovative solutions in machine-building as a factor of competitive immunity of the enterprise.....	1694
<i>Igor Blinkov, Oleg Blinkov</i>	
Identification of failure patterns of excavator equipment failures considering the control factor	1698
<i>N V Dyorina, V S Velikanov, K S Dyorina</i>	

BLDC motor identification based on optimal control model in the state space	1704
<i>Yury Nikitin</i>	
Hydropress assembling automation of interference fits with steel and titanium parts.....	1709
<i>A V Romanov, A V Shchenyatsky, A V Petrov</i>	
Method of optimization synthesis of parameters of actuating system of anthropomorphic gripper with adaptive control	1717
<i>Yu I Zhdanova, V V Moshkin</i>	
Process Quality Assessment	1723
<i>A M Pishchukhin</i>	
Improving the algorithm for selecting welding mode parameters under the impact of boundary conditions of the workpiece.....	1729
<i>A Yu Melnikov, M A Sholokhov, D S Buzorina</i>	
The engine-recoverer of secondary energy thermal sources based on a Curie point effect for magnetic materials.....	1735
<i>V V Papin, R V Bezuglov, E M Dyakonov, D A Shaforost</i>	
Development of neural network for control production process in oil and gas fields	1742
<i>M I Sharipov</i>	
Implementation of the prototype control algorithm for an unmanned tracked vehicle.....	1749
<i>S V Abdulov, V B Derzhanskiy, A G Yakovlev</i>	
Experimental study of welding torch positioning parameters influence on overlap joint formation.....	1752
<i>K Trukhanov Yu, V V Bulychov, M I Shatalov</i>	
Cycloidal reducer with rotation external ring gear	1758
<i>T G Kormin, J-D B Tsumbu</i>	
Confirmation of the reproducibility of the measurement process by evaluating the measurement uncertainty in accordance with the industry standard.....	1764
<i>D A Loktev, A V Kapitanov, S B Egorov, A V Moklyachenko</i>	
Automation of composite materials products process preparation	1768
<i>D V Lobanov, M V Kuptsov, V Yu Skeebe</i>	
Cointegration analysis method for fault detection based on sensor data	1774
<i>R V Faizullin, S Hering</i>	
Modeling and testing of control system for an underwater dual-arm robot.....	1782
<i>V Kramar, A Kabanov, O Kramar, A Putin</i>	
Investigation of the dependence of the quality control of the adhesive joint on the capacitance of the joint for various types of dielectric	1790
<i>E V Krechetova, A B Syrisky, A S Komshin</i>	
Organization of a modular information presentation to verify measuring instruments in a modern enterprise	1795
<i>K S Ponomarev, A N Feofanov, T G Grishina</i>	
Introducing a quality factor into the MES system when calculating machinery production schedule together with measuring equipment	1800
<i>M A Shutikov, A N Feofanov, K S Ponomarev</i>	

Extending functionality of the control system using MTConnect data collection standard	1805
<i>R L Pushkov, L I Martinova, S V Evstafieva</i>	
Development of a control system with fuzzy tuning of values for the actuation setpoint	1812
<i>D S Solovjev, I A Solovjeva, V V Konkina</i>	
Tracking system for the position of the patient of the surgical robotic complex.....	1818
<i>D A Tokarev, A A Kabanov</i>	
Optimization of measuring instruments' composition at the enterprise	1827
<i>M S Ostapenko, Z A Kalimullina</i>	
Technological quality maintenance of finishing robotic machining in mechanical engineering.....	1830
<i>M V Vartanov, A S Vlasov</i>	
Practical aspects of constructing a specialized control system for compact machines	1836
<i>P A Nikishechkin, I A Kovalev, O V Kazaryan, N S Grigorev</i>	
Control and optimization of technological processes for forming nanoscale films for sensitive sensor elements.....	1843
<i>P G Mikhailov, Zh Ualiyev, A Kabdoldina, A V Sokolov</i>	
Frequency-current control. Modeling. Optimization	1851
<i>P G Mikhailov, O V Ermilina, D A Budagovsky, L Basarbay</i>	
Production process improvement of manufacture by generation efficient control-and-measuring tool's kit.....	1858
<i>E Reshetnikova, P Ju Bochkarev</i>	
Questions process simulation of metal forming	1863
<i>S L Novokshchenov, S N Yatsenko, E H Milushev, P B Shibaev</i>	
Application of multi-agent approach to development of the petrol dispatching system of gas stations network.....	1870
<i>Konstantin Aksyonov, Hambardzum Ayvazyan, Olga Aksyonova</i>	
Simulation of the steelmaking process using collision avoiding cranes moving models	1876
<i>Anna Antonova, Konstantin Aksyonov</i>	
Simulation of adaptive drill machines with hydraulic drive.....	1883
<i>M A Lemeshko, V A Zibrov, S E Bashnyak</i>	
Concept of robotic investigational study	1890
<i>M A Lemeshko, V A Zibrov, I G Deyneka</i>	
Improving the quality of planning due to automated generation of a normative card based on digital technological processes	1897
<i>A I Sidorova, O V Zheleznov, Yu V Polyanskov, P Yu Pavlov</i>	
Development of a process resource balancing method based on integration of network planning and multi-agent approach.....	1904
<i>Konstantin Aksyonov, Olga Aksonova, Polina Ziomkovskaya, Wang Kai</i>	
Mathematical support of walking robots-tetrapods movement algorithms.....	1911
<i>E L Grekov, E S Shelikhov</i>	

Development of a method and decision support system for distributing orders of a machine-building enterprise	1919
<i>Stepan Medvedev, Konstantin Aksyonov</i>	
Hybrid device for automatic assembly	1924
<i>Pavel Vitliemov, Krasimir Markov</i>	
Self-adjusting differential rotary feeding system of the drilling rig	1930
<i>A M Busygin</i>	
Device for automatic pressure regulation in a chamber with a liquid technological medium isolated from the pressure source.....	1938
<i>E V Pashkov, V P Polivtsev, V V Polivtsev, A A Vozhzhov</i>	

PART 4

Diagnostics of BLDC motor winding based on a model approach in the state space.....	1943
<i>Yury Nikitin</i>	

MACHINE SCIENCE, MECHANIZATION, AUTOMATIZATION AND ROBOTICS

Pressing tubes with conical-stepped needles computer simulating	1948
<i>B V Kargin, V V Zhivaeva, P N Bukin</i>	
Tracking of small-sized air objects.....	1953
<i>V I Filatov, A M Popov, R M Valiyev, D E Sidorov</i>	
Communication channel management system in mechanical engineering.....	1957
<i>V I Filatov, A M Popov, R M Valiev, D E Sidorov</i>	
A plant with a rotary jet grinder to produce small fractions of mineral raw material.....	1964
<i>A D Bardovsky, L M Valeeva, I I Basyrov</i>	
New equipment for cleaning solar panels.....	1970
<i>Yu N Zatsarinnaya, D I Amirov</i>	
Simulation of unstable liquid film flow in heat and mass transfer processes of film equipment	1976
<i>L A Prokudina, M P Vikhirev</i>	
Investigation of cylindrical hydrocyclone for emulsion separation.....	1982
<i>S I Valeev</i>	
Multimodal transport network freight routing algorithms in optimization models	1987
<i>O A Lebedeva, J O Poltavskaya</i>	
Solving the problem of determining the optimal location of the logistics center, taking into account cost minimization	1993
<i>I M Kulakova, O A Lebedeva, J O Poltavskaya</i>	
Application of OLAP-technology in decision support system for enterprise management.....	1998
<i>Gulnara F Akhmedyanova</i>	
Centralized procurement as a financing tool for innovation and technology entrepreneurship.....	2005
<i>A E Gamberg, T E Dashkova, I V Ershov, T N Vernova</i>	

Diversification instruments for machine-building enterprises.....	2010
<i>M A Prilutskaya, A D Murukina, L M Tipner, N A Kalinina</i>	
Peculiarities of the foreign manufactures cars recycling in Russia	2016
<i>E Y Kuznetsova, N A Amosov, O O Podoliak, M A Zykova</i>	
Optimization of the production plan taking according to the customers' strategic importance.....	2021
<i>S G Baranchikova, I V Ershova, A V Klyuev, E V Cherepanova</i>	
Improve business process efficiency by value engineering.....	2026
<i>T A Mineeva, N A Kuznetsova, O S Norkina, E V Popova</i>	
Influence of concentration-time parameters on nitride coatings formation on VT6 titanium alloy and their stability during subsequent treatment	2034
<i>O N Gvozdeva, A V Shalin, A S Stepushin, A V Ovchinnikov</i>	
An analysis the energy and raw materials structure of household and industrial waste management.....	2039
<i>E M Dyakonov, V V Papin, R V Bezuglov, V V Ivanov</i>	
Structural and mathematical models of software and hardware platform of the training complex	2047
<i>Artem Obukhov, Alexandr Siukhin, Denis Dedov</i>	
Prediction of residual life of complex electromechanical systems based on small training samples	2055
<i>P V Lekomtsev</i>	
Principle of constructing flat designs of electronic circuit diagrams considering forbidden figures.....	2062
<i>V I Potapov, V V Suskin, S V Filatkin</i>	
Influence of design and technological parameters on the efficiency of the granular filter	2066
<i>R R Sharapov</i>	
Discrete model of hybrid stepper motor by optimal state space control.....	2073
<i>P V Lekomtsev</i>	
Balanced management of innovative sustainable development of the petroleum and gas chemical complex	2079
<i>M A Zotov, A S Ponikarova, E N Kadeeva</i>	
Improvement of the workers labour rationing and motivation methodology for the manufacturing shop	2087
<i>S Y Matalasov, E Y Kuznetsova, O O Podoliak</i>	
Creating a project for modernizing the feeding balls device to a ball mill using 3D modeling.....	2094
<i>M G Naumova, I G Morozova, Kh B Aliev</i>	
Gas-dynamic spraying, as a method of the component recovery in the power engineering industry.....	2100
<i>L A Krivina, Y P Tarasenko, Y K Levanov, S V Kirikov</i>	
Investment behaviour of machine-building enterprises and the capital cost	2108
<i>A V Bolotin, A V Ershov, Yu N Markova, L L Kalinina</i>	
Integration of descriptions of infological model representations at automation of design tasks	2112
<i>O V Novoselova, A S Sidorov</i>	
Simulation of the electromagnetic processes in a metallurgical furnace with two bottom electrodes.....	2119
<i>Oleg Kazak, Ilya Starodumov</i>	

Simulation of electromagnetic parameters in a laboratory installation.....	2124
<i>Oleg Kazak, Ilya Starodumov</i>	
Numerical modelling of spatial distributions of the pH value and electric field in a liquid electrode.....	2129
<i>R M Askhatov, N F Kashapov, R N Kashapov, V Yu Chebakova</i>	
Development of a method for automatic compensation of energy dependence of the sensitivity	2133
<i>Dmitriy Moiseev, Lidiya Lukina</i>	
Technology transfer as a factor in improving the competitiveness of industrial enterprises	2139
<i>Sibel Ahmedova</i>	
Application of agile methodology at industrial manufacturing as part of the Industry 4.0	2146
<i>I A Kovalev, D Yu Kvashnin, N Yu Chervonnova, A N Nikich</i>	
Measuring the energy efficiency of workplace lighting in industrial enterprises	2153
<i>V V Salnikov, Y V Frantsuzova</i>	
Method of calculating volumetric scaffold of monolithic slab formwork	2157
<i>V E Kondratenko, V V Devyatiarova, S V Albul, L M Valeeva</i>	
Improving methodology for calculating scaffolding formwork of monolithic slabs in building constructions.....	2165
<i>V E Kondratenko, V V Devyatiarova, S V Albul, D S Kartyshev</i>	
Routing of fluidic circuits using skeletons of polygonal figures	2173
<i>V A Romakin</i>	
Comparative analysis of adaptive systems for automatic stabilization of the water level in the drum boiler.....	2177
<i>M Yu Livshits, I D Igonin, P A Sevastyanov, A A Khapalina</i>	
Modeling of the stressed-deformed state of the apparatus under pressure at corrosion	2185
<i>A V Rubtsov, P A Kulakov, K S Arkhipova</i>	
Assessment of the effect of humidity of air-cooled in the absorption refrigeration machine on the operation of an energy gas turbine	2191
<i>D I Mendeleev, G E Marin, Yu Ya Galitskii, M V Savina</i>	
Improving the reliability of hydraulic systems of technological machines	2198
<i>K G Pugin</i>	
Research into the use of digital technologies in business organisations across the North Eastern Region (NER).....	2203
<i>Sibel Ahmedova</i>	
Gradients in rails at long-term operation	2211
<i>Anton Yuriev, Vasiliy Kormyshev, Alexander Glezer, Victor Gromov, Yuri Ivanov, Alexander Semin</i>	
Comparison of geostationary and low-orbit “round dance” satellite communication systems.....	2216
<i>S V Reznik, D V Reut, M S Shustilova</i>	
Basic principles for describing the process of vibratory with an external source of dynamic impact	2224
<i>Elena Levchenko, Nikolay Pokintelitsa</i>	

History and experience of overcoming thermal barriers in rocket and space technology: 1. Ballistic missiles	2230
<i>S V Reznik, P V Prosuntsov</i>	
Use of convolutional neural networks for segmenting images of roads from satellite	2238
<i>Ya A Seliverstov, S A Seliverstov, R S Naryshkin, M N Kripak</i>	
Modernization of an industrial passive exoskeleton prototype for lower extremities using rapid prototyping technologies	2243
<i>A O Karfidova, M V Vasilyev, I G Morozova</i>	
Methods and means of concentrated fertilizers application.....	2254
<i>Sergey V Belousov, Yuri V Khanin, Valeriia V Zhadko</i>	
Use of repair-recovery compositions for reducing the adhesion of soils to working bodies of machines.....	2258
<i>S A Zenkov, D Lkhanag</i>	
Nonwoven polylactide fibers: properties and application	2263
<i>Yu V Tertysnaya, A N Skorokhodova, L S Shibryeva, A S Ivanitskikh</i>	
Improving the methodology for assessing the level of localization of production of agricultural mobile energy devices	2268
<i>A V Lavrov, V G Shevtsov, V A Zubina, V G Khamuev</i>	
Development of methods for increasing the technical and economic efficiency of the application of hardening technologies for flat working bodies of tillage machines	2275
<i>S A Golubina, V N Sidorov</i>	
The experimental determination of the diameter of a flat disk in a ridge seeder	2280
<i>Evgeny Zykin, Vladimir Kurdyumov, Svetlana Lazutkina, Sergey Albutov</i>	
Theoretical and experimental substantiation of the amplitude and source of oscillations on a container of an acoustic butter churn.....	2286
<i>Svetlana Lazutkina, Evgeny Zykin</i>	
Method for determining dynamic coefficient of friction of bodies	2293
<i>Yu P Borzilov, V N Yeroenko, D N Misirov, S V Semergey</i>	
Automated device for the differential application of herbicides in the near-trunk zone of fruit	2301
<i>R A Filippov, D O Khort, A I Kutyrev</i>	
Mathematical processing of experimental data of the agricultural working body.....	2310
<i>Sergey V Belousov, Anna I Belousova</i>	
The theoretical substantiation of the roller diameter of a versatile tillage implement.....	2316
<i>Evgeny Zykin, Svetlana Lazutkina</i>	
A device for harvesting and utilization of non-grain part of crop and fertilization	2323
<i>Svetlana M Borisova, Sergey K Papusha, Vladimir K Papusha</i>	
The process of ultra low-volume seed etching with an experimental device	2329
<i>Svetlana M Borisova, Sergey K Papusha, Evgeny M Sivovalov</i>	
Collective transport as a tool to reduce congestion – case study	2333
<i>Katarzyna Midor, Witold Biały, T N Ivanova</i>	

Development of the load cycle of the starter battery	2340
<i>A V Puzakov</i>	
The algorithm for determining the effect on the dynamic characteristics of the fuel composition on the properties of the working process of the gas-diesel engine	2347
<i>A L Akhtulov, S E Dadayan, V R Edigarov, V V Maly</i>	
Physical simulation of the faults of starter batteries	2353
<i>A V Puzakov, D A Smirnov</i>	
Improving the properties of wheeled steel during thermal repair	2360
<i>S I Gubenko, I A Ivanov, D P Kononov, S V Urushev</i>	
Effect of general and local vibration of workplace on driver's work process and traffic safety of busses «Volgabus»	2368
<i>A V Popov, G A Chernova, M V Velikanova, N S Khvan</i>	
Evaluation of the influence of the mode of movement of "Volgabus" buses on the performance of the clutch	2379
<i>G A Chernova, A V Popov, Yu I Moiseev, N S Khvan</i>	
Assessment of the influence of variable loads on the strength of welded joints of metal structures of bridge cranes.....	2388
<i>A L Akhtulov, O M Kirasirov, M O Kirasirov</i>	
Model for selecting transportation option based on an analysis characteristics of the freight system.....	2395
<i>J O Poltavskaya, O A Lebedeva</i>	
Assessment of the car service services quality according to the certification system criteria	2400
<i>A A Arhirejskij</i>	
Issues of assessing the quality characteristics of transport-technological machines as objects of industrial design	2406
<i>S V Borodulina, O G Kuznetsova, M K Reshetnikov, A A Chekalin</i>	
Experimental research of the directional stability characteristics of a passenger car when moving around.....	2410
<i>A S Volokhov, K S Fisenko</i>	
Specifics of drives functioning in main mechanisms of open-pit excavator	2417
<i>O A Lukashuk, K Y Letnev, A P Komissarov</i>	
Optimization of composite wing spars for an unmanned aerial vehicle	2423
<i>Naing Lin Aung, Oleg Tatarnikov, Phy Wai Aung</i>	
Estimation of adequacy of the simulation model of a water-jet propulsion drive of high-speed tracked amphibious vehicles.....	2429
<i>Pavel Nenashev, Sergey Abdulov, Alexander Taratorkin</i>	
Methodology for determining the professional qualities of motor vehicle drivers.....	2435
<i>Evgeny Ageev, Evgeny Vinogradov, Alexandr Novikov</i>	
Efficiency of using dump trucks BELAZ-75180.....	2441
<i>Yuliya Lagunova, Vladimir Bochkov, Sergey Horoshavin</i>	
Increasing the mobility of tracked vehicles during curvilinear motion with partial skidding	2449
<i>M V Vyaznikov, A M Vyaznikov</i>	

Technological support for the durability of the balancing suspension of the car	2456
<i>A Yu Rodichev, A N Novikov, A V Gorin, N V Tokmakov</i>	
Local adaptive road control crossroads	2462
<i>A S Kashalinsky, E V Parsaev, I A Teterina</i>	
Study of the process of introducing coordinated management on the principle of «green wave».....	2468
<i>S V Dorokhin, A Y Artemov, A P Gigadlo</i>	
Vibration analysis as an auxiliary tool for monitoring the safety and viability of production equipment in mechanical engineering	2473
<i>Alexey Akhtulov, Ludmila Ivanova</i>	
Strategy for optimizing the NVH parameters of the transport vehicle powertrain during its design.....	2480
<i>A I Taratorkin, A V Belevich, I A Taratorkin, I A Trusevich</i>	
Energy efficiency of rotary brush cutters	2485
<i>D V Furmanov, I S Tyuremnov, V S Chizhov</i>	
On the possibility of individual forecasting of reliability factors of mechanical transport units	2493
<i>L O Savin, A N Novikov</i>	
Mathematical model for engineering tracked vehicle suspension system connections influence assessment	2496
<i>Evgeniy Sarach, Aleksey Ivanov, Mariya Kurasova, Yaroslav Tkachev</i>	
Snow movers overview	2504
<i>A A Belyaeva, K B Evseev</i>	
Efficiency assessment in transport service provision for the population of Orel city.....	2513
<i>M V Kulev, A V Kulev, N S Kuleva</i>	
Differential pressure sensor for hydraulic drive of traction vehicles.....	2519
<i>N A Fomenko, O V Burlachenko, A A Lyashenko</i>	
Analysis of power efficiency and agility of a combination vehicle with active semi-trailer by mathematical simulation.....	2524
<i>K E Byakov, O I Chudakov, V A Gorelov, V A Gartfelder</i>	
Effect of structural parameters on roll motions of the wheeled timber harvesting vehicle.....	2532
<i>V E Klubnichkin, E E Klubnichkin, G O Kotiev, A B Kartashov</i>	
Theoretical model of non-linear tire slip	2537
<i>A U Abdulgazis, M A Podrigalo, U A Abdulgazis</i>	
Study of relationship between lateral slip coefficient and indicators of tire linear stiffness.....	2542
<i>A U Abdulgazis</i>	
Structures active suspension for stabilizing vertical reactions of the road to the car wheels when driving over irregularities	2549
<i>V I Ryazantsev, Li Heng-Xu</i>	
Coordination of development of transport engineering enterprises capacity with high-speed traffic volume	2557
<i>A T Romanova, Yu M Luzhnov, I S Nasonova</i>	

Vibroacoustic debugging technique for vehicle exhaust systems.....	2562
<i>A P Okunev, V A Ovchinnikov, L A Cherepanov, V E Epishkin</i>	
Method of studying the dynamics of the controlled mechanical continuously variable transmission with an elastic element and one-way clutch	2572
<i>V B Derzhansky, S V Cherepanov, A A Volkov</i>	
A new approach to assessment of vehicular traction dynamics.....	2579
<i>Aziz Abdulgazis, Mikhail Podrigalo</i>	
The Air Suspension Synthesis for the Single-axle Transport and Technological Module	2586
<i>A A Vetrogon, A G Ostrenko, A A Kharchenko, L I Soustova</i>
