Volume 11936

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Diagnostic and Therapeutic Applications of Light in Cardiology 2022*, edited by Laura Marcu, Gijs van Soest, Proc. of SPIE 11936, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

THERAPY AND INTERVENTION MONITORING

- 11936 02 **Reciprocating side-firing fiber for laser sealing of blood vessels** [11936-5]
- 11936 03 **Laser induced shockwave for increasing arterial compliance in calcified arteries** [11936-7]
- 11936 04 **A novel laser cutting and cooling system for crossing coronary chronic total occlusions**
[11936-8]

SENSING AND SPECTROSCOPY

- 11936 05 **Real-time, nondestructive optical feedback systems for infrared laser sealing of blood vessels**
[11936-10]
