SPIE

Volume 12042

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Electroactive Polymer Actuators and Devices (EAPAD) XXIV*, edited by Iain A. Anderson, John D. Madden, Herbert R. Shea, Proc. of SPIE 12042, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

ISSN: 0277-786X

ISSN: 1996-756X (electronic)

ISBN: 9781510649590

ISBN: 9781510649606 (electronic)

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committee*

EAP FOR TOUCH, HAPTICS, MEDICINE, AND HEALTH I

12042 02 **Multidirectional hemispherical dielectric elastomer proximity sensor for collision avoidance in human-robot interaction applications** [12042-3]

EAP FOR TOUCH, HAPTICS, MEDICINE, AND HEALTH II

12042 03 **Reproducing traumatic brain injury in vitro with dielectric elastomer actuators (Invited Paper)** [12042-4]

12042 04 **The effects of improved conductivity on actuation** [12042-6]

12042 05 **Design, fabrication, and characterization of dielectric elastomer actuator enabled cuff compression device** [12042-75]

DIELECTRIC ELASTOMER ACTUATORS AND DEVICES

12042 06 **Factors influencing the mean-time-to-failure of single-layer uniaxially prestretched silicone-based DEAs** [12042-52]

12042 07 **Soft robotic tentacle arm element actuated by rolled dielectric elastomer artificial muscles** [12042-53]

12042 08 **Fabricating dielectric elastomer transducer electrodes using micro atmospheric plasma jet** [12042-54]

12042 09 **Fabrication of piezoresistive devices based on dielectric elastomers via ultrasonic spraying** [12042-57]

12042 0A **Enabling multichannel communication within dielectric elastomers** [12042-58]

12042 0B **Finite element modeling and parameter study of a fully-polymeric array of coupled dielectric elastomers** [12042-59]

12042 0C **Finite element modelling of the vibro-acoustic response in dielectric elastomer membranes** [12042-60]

12042 0D **Induction of anisotropic motions in dielectric elastomer actuators by additive manufacturing** [12042-61]

- 12042 OE **Optimized mechanical interface design for multilayer DE stack-transducers** [12042-62]
- 12042 OF **Signal conditioning for reducing total harmonic distortion in buckling dielectric elastomer loudspeakers** [12042-63]
- 12042 OG **High-strain helical dielectric elastomer actuators** [12042-64]

DNA COILING AND SENSING FOR ACTUATION AND AUTO-INFLATION

- 12042 OH **Experimental characterization of the mechanical coupling in a DE-array** [12042-10]

EAP SENSORS FOR STRETCH, TOUCH, AND FLOW

- 12042 OI **Sensitive and robust electroactive polymer tactile pressure sensors and shape-morphing actuation for robotic grippers** [12042-13]
- 12042 OJ **Dielectric elastomer strain sensors with enhanced measuring sensitivity** [12042-16]
- 12042 OK **From New Zealand to Croatia: hand gesture control of an underwater robot using dielectric elastomer sensors** [12042-17]
- 12042 OL **Carbon black silicone piezoresistive electrical impedance tomography stress sensor device** [12042-81]

ELECTROSTATICS FOR ROBOTIC HYDRAULICS, PUMPING, AND STICKING

- 12042 OM **Design exploration of electro-pneumatic pumps (EPPs) to obtain high pressure and air flow rate improvement** [12042-20]
- 12042 ON **Identification of figure of merit of electro-adhesion effect for origami structure** [12042-22]
- 12042 OO **Thin, flexible, and scalable mobile robot driven by electrostatic zipping actuators** [12042-24]

COILED ACTUATORS, CABLES, AND TEXTILES

- 12042 OP **The origin of contraction of twisted polymer fiber muscles: whether the cause is entropic elasticity or thermal expansion** [12042-27]
- 12042 OQ **Tensegrity structures using dielectric elastomer cables** [12042-28]

IONIC ARTIFICIAL MUSCLES, LIQUID CRYSTAL ELASTOMERS, AND ORIGAMI

- 12042 OR **Finite volume effects of ions in ionic membranes** [12042-48]
- 12042 OS **Localized actuation of temperature responsive hydrogel-layers with a PCB-based micro-heater array** [12042-49]

IONIC POLYMER-METAL COMPOSITES (IPMCS)

- 12042 OT **Modeling non-idealities in ionic polymer metal composites** [12042-31]

PRINTING AND TESTING EAP

- 12042 OU **Selective vaporization and recovery system for contactless electrode printing of solvent-based electrodes** [12042-45]
- 12042 OV **3D printing of elastomer layers for dielectric elastomer transducers** [12042-46]
- 12042 OW **Additively manufactured unimorph dielectric elastomer actuators with ferroelectric particles for enhanced low-voltage actuation** [12042-47]

IMPROVING EAP THROUGH MATERIAL, PROCESSING, AND MANUFACTURE

- 12042 OX **Evaluation of electromechanical characteristics for screen printed piezoelectric sensor-based Pu/PZT composite** [12042-35]
- 12042 OY **A novel PDMS dielectric elastomer actuator with bis-ionic liquid as crosslinker** [12042-37]
- 12042 OZ **Additive manufacturing of piezoelectric force sensors** [12042-39]
- 12042 IO **Effect of barium titanate particle filler on the performance of polyurethane-based dielectric elastomer actuators** [12042-41]

POSTER SESSION

- 12042 I1 **Examination of factors to improve the elongation and output of dielectric elastomers** [12042-65]
- 12042 I2 **Electro-thermally controllable twisted coiled actuators (TCA) using nylon line** [12042-66]
- 12042 I3 **A compliant continuum gripper powered by dielectric elastomers based on anisotropic bending stiffness caused by integrated textile materials** [12042-68]

- 12042 14 **Modeling and experimentally parameterizing approach of the viscoelastic material behavior of DE-based transducer materials** [12042-77]
- 12042 15 **In-situ capacitive test procedure for multilayer dielectric elastomers to prove dielectric properties** [12042-78]
- 12042 16 **Finite element simulation of conducting polymer actuators** [12042-80]
- 12042 17 **Tear strength estimation of electroactive polymer-based strain sensors** [12042-82]
- 12042 18 **Active cooling techniques for coiled nylon actuators** [12042-7]
- 12042 19 **Combined hydrogel and elastomer coatings for cooling supercoiled nylon actuators** [12042-83]
