Part One of Two Parts

Proceedings of SPIE 0277-786X, V. 12249

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

PART ONE	INTERNET OF THINGS APPLICATION AND INTERNET INFORMATION TECHNOLOGY
12249 02	**Lightweight blockchain system for resource-constrained IoT devices** [12249-177]
12249 03	**Design and implementation of TOE system based on HLS** [12249-3]
12249 04	**Simulation of indirect-reciprocity-based lane-changing in Internet of Vehicles environment** [12249-25]
12249 05	**An optimization method for joint UAV location and load in UAV-aided communication networks** [12249-23]
12249 06	**Design and implementation IoT enabled wireless home security system using Raspberry Pi** [12249-70]
12249 07	**Research on fire robot detection system based on Internet of Things technology** [12249-89]
12249 08	**IoT-based remote valve monitoring and control system** [12249-40]
12249 09	**Internet of Things remote monitoring system based on Wi-Fi technology** [12249-58]
12249 0A	**Driving effect of industrial structure upgrading on spatial difference of regional water use intensity** [12249-35]
12249 0B	**Communication mechanism of Internet of Things based on blockchain** [12249-27]
12249 0C	**Research on the realization path of embedded smart home care service** [12249-15]
12249 0D	**Research on secure communication of industrial wireless WIA-PA networks** [12249-80]
12249 0E	**An efficient and dynamic data access control framework for IoT** [12249-71]
12249 0F	**Design of student information management system based on the separation of front and back ends** [12249-30]
12249 0G	**Digital cultivation and planting system based on Internet of Things** [12249-94]
12249 0H	**Research on the application of virtual reality technology in the protection of historical buildings** [12249-82]

12249 0I **The architecture of monitoring system from traditional one to IoT platform** [12249-37]

12249 0J **Semi-structured data identification method of Internet of Things communication large database** [12249-81]

12249 0K **Design and implementation of intelligent lighting real image control system based on IOS** [12249-19]

12249 0L **Research on intelligent analysis technology of football video based on computer vision** [12249-84]

12249 0M **Design strategy of residential aging renovation based on BIM technology** [12249-6]

12249 0N **Application analysis of solar photovoltaic technology in green building design: taking the rest station of Sanya Science and Technology Park as an example** [12249-9]

12249 0O **Research on the promotion of Internet of Things to supply chain integration** [12249-4]

12249 0P **Reliability assessment of energy internet in smart energy towns based on data mining** [12249-185]

12249 0Q **Application of Internet of Things technology in intelligent water management** [12249-95]

12249 0R **Intelligent community management information system** [12249-189]

12249 0S **Design and application of individual lamp control and monitoring system based on wireless communication** [12249-106]

12249 0T **Research on the key technology of scheduling and operation of the irrigation and drainage canal** [12249-103]

12249 0U **Research on the development of road base pavement engineering management information system** [12249-107]

12249 0V **Design of warehouse monitoring system based on Internet of Things** [12249-49]

BID DATA AND VISUALIZED URBAN DATA ANALYSIS

12249 0W **Research on dynamic tourism route recommendation based on deep learning algorithm** [12249-90]

12249 0X **Research on long-term care insurance fraud early warning based on Apriori algorithm** [12249-38]

12249 0Y **TDOA based positioning algorithm in intelligent manhole cover monitoring system** [12249-47]

12249 0Z **Discovering urban functional zones by coupling remote sensing image and smart card data** [12249-31]

12249 10 **A low power consumption secure transmission method of intelligent electric manhole cover based on edge computing** [12249-59]

12249 11 **Research on location of pre warehouse based on hybrid immune simulated annealing algorithm** [12249-50]

12249 12 **Discussion on the construction of 'One-stop Service' under the internal and public network mode** [12249-86]

12249 13 **A multi-constrained multi-path non-overlapping routing algorithm for deterministic networking** [12249-14]

12249 14 **Research on classification and recognition of fruit and vegetable based on lightweight ResNet-50** [12249-60]

12249 15 **Improved Bayesian ridge regression based data missing reconstruction of smart meters** [12249-57]

12249 16 **Non-intrusive load monitoring based on self-attention mechanism** [12249-44]

12249 17 **Load balancing scheduling algorithm based on edge clustering in heterogenous systems** [12249-79]

12249 18 **Research on underwater target tracking method based on SIFT and KCF algorithm** [12249-53]

12249 19 **Research on the development and application of operation and maintenance management platform based on digital monitoring for highway tunnels** [12249-67]

12249 1A **A privacy-preserving data aggregation scheme with fault tolerance for smart grid based on blockchain** [12249-36]

12249 1B **Research on digital medical data security protection technology** [12249-42]

12249 1C **Research on anti-theft target detection of fishery farms based on YOLOv4** [12249-54]

12249 1D **A review of a BIM-based smart water management system** [12249-41]

12249 1E **Research and implementation of industrial rebar inventory mobile application program based on YOLOv5 algorithm** [12249-5]

12249 1F **Research on the application of big data technology in smart city application scenarios** [12249-11]

12249 1G **Evaluation of community intelligence based on entropy weight Topsis method** [12249-26]

12249 1H **Research on digital image and data presentation of "People's City": based on SPSS.20** [12249-75]

12249 1I **A study of the location selection of cross-border E-commerce overseas warehouse based on NSGA-II** [12249-104]

12249 1J **Research on feedback mechanism of Yangtze River waterway construction and economic development** [12249-126]

12249 1K **Shared parking choice behavior based on machine learning algorithm** [12249-116]

12249 1L **Analysis of parameters for cutting reinforced concrete pipe with spherical hob** [12249-173]

12249 1M **Analysis of Wuhan international port's competitiveness and construction of smart port** [12249-127]

12249 1N **Characteristic analysis of metropolitan travel network based on mobile signaling data: a case study of Xiamen-Zhangzhou-Quanzhou metropolitan area** [12249-100]

12249 1O **The behavior experiment of pedestrian flow avoiding space obstacle** [12249-147]

12249 1P **Research on leakage risk of LNG overwater bunkering based on fault tree analysis** [12249-151]

12249 1Q **Evaluation of the normative system for ships carrying dangerous goods pass the lockage** [12249-144]

12249 1R **Autonomous characteristic analysis of public transport network using a supply-demand matrix approach** [12249-123]

12249 1S **The prototype system of public emergency command, dispatch, and control service for mobile target based on Beidou precise new time and space under the situation of epidemic** [12249-178]

12249 1T **Route planning based on passenger travel demand under the background of MaaS** [12249-169]

12249 1U **Dynamic parameter identification technology of bridge health monitoring based on bottom monitoring data** [12249-186]

12249 1V **Intelligent water conservancy map application based on census data and web GIS** [12249-170]

12249 1W **Implications of noise complaint assessment in New York City's 311 system for China's noise complaint platform** [12249-184]

12249 1X **Construction of urban geographic spatiotemporal big data management and application platform based on association rules** [12249-187]

12249 1Y **A comparative study of different calculation methods of railway subgrade settlement** [12249-174]

12249 1Z **Research on environment-friendly perspective of Huizhou traditional residential courtyard based on CFD simulation** [12249-7]

12249 20 **Research on the construction of intelligent mines based on 5G** [12249-74]

12249 21 **Study on traffic noise prediction model of highway tunnel** [12249-73]

12249 22 **An urban traffic accident prediction model based on the full range of human, vehicle, road and environmental factors** [12249-63]

12249 23 **How libraries contribute to the development of the smart city: text mining analysis on 11 cities in China by using Nvivo software** [12249-45]

PART TWO

12249 24 **Online task assignment for federated learning in smart city** [12249-64]

12249 25 **Analysis of the travel requirements of guide dog-assisted blind people based on "Kano model" and the design research of smart guide dog harness** [12249-46]

12249 26 **Research on the construction of a new generation of smart library based on digital twin** [12249-20]

12249 27 **Research on efficiency evaluation of smart government interaction platform: a case study of Henan Province** [12249-17]

12249 28 **Research progress of equipment allocation decision method** [12249-61]

12249 29 **Research on the new model of urban economy and energy interconnection based on the new power system** [12249-88]

12249 2A **Modelling acceleration lane length in CAV lane merge area based on breakdown probability** [12249-87]

12249 2B **Study on the progress management of power transmission and transformation project based on WBS decomposition model** [12249-85]

12249 2C **Combining language models and BiLSTM for next-device prediction** [12249-28]

12249 2D **Evaluation method of power grid investment benefit based on matter-element extension model** [12249-69]

12249 2E **Research on smart city technology system under the background of big data** [12249-13]

12249 2F **Multi-source distributed energy real-time management system for energy saving in intelligent residential area** [12249-175]

12249 2G **Design and implementation of home-based elderly care system based on community service** [12249-32]

12249 2H **Grey correlation model based study on influencing factors of urban entrepreneurial activity degree** [12249-66]

12249 2I **Buried pipeline-soil interaction caused by shield tunnelling based on a simple continuum model** [12249-122]

12249 2J **Research on vehicle travel trajectory reconstruction method based on massive bayonet data** [12249-101]

12249 2K **Study on the intelligence of ecological livable buildings** [12249-105]

12249 2L **Measuring coordinated development level around metro station areas in new towns in megacity: a comparative analysis of five new towns in Shanghai** [12249-165]

12249 2M **Evaluation of urban rainwater resource utilization potential in Qingyang City** [12249-141]

12249 2N **Complex network effect of urban smart tourism: spatial patterns of crowd movement in Jinan, China** [12249-125]

12249 2O **Modern distribution network planning in the development of smart city** [12249-111]

12249 2P **Experience analysis of staggered shared parking in Chinese cities** [12249-110]

12249 2Q **Quantitative evaluation of urban skyline in Macao** [12249-112]

12249 2R **Ice melting effect and mechanical response analysis of the conductive ultra-thin anti-skidding wearing course** [12249-120]

12249 2S **Research on location model of FMCG supply chain network under the mode of cross-level service** [12249-168]

12249 2T **Signal transmission design based on smart city radar system** [12249-114]

12249 2U **Research on durability of iron tailings asphalt mixture based on Hamburg wheel tracking test** [12249-99]

12249 2V **Model of optimal combination scheduling based on passengers' willingness to pay for the demand of bus seats** [12249-181]

12249 2W **Stochastic modeling of traction load of electrified railway** [12249-128]

12249 2X **A review of deep learning methods for mobile source emissions prediction** [12249-119]

12249 2Y **Savings matrix algorithm to address vehicle routing problem** [12249-163]

12249 2Z **Study on spatial distribution pattern and influencing factors of traditional villages in Shandong Province based on GIS** [12249-132]

INTELLIGENT TRANSPORTATION AND URBAN ROAD NETWORK PLANNING

12249 30 **Freight transportation based on automotive technology and railway freight transportation** [12249-52]

12249 31 **Research on key technologies of electromagnetic radar system suitable for urban smart transportation** [12249-51]

12249 32 **Regional logistics efficiency evaluation: based on the DEA-MLP model** [12249-34]

12249 33 **Traceability method for leakage of dangerous gases in rail transit** [12249-68]

12249 34 **Study on safe speed of freeway based on cross wind condition** [12249-24]

12249 35 **Risk assessment of inland water oil tankers waiting for lockage** [12249-83]

12249 36 **Comprehensive evaluation of coal green logistics system based on entropy weight-fuzzy comprehensive evaluation method** [12249-16]

12249 37 **Research on the influence of truck restrictions on air quality around the arterial road** [12249-8]

12249 38 **Design and simulation of a vibration isolation platform based on air spring for road transportation applications** [12249-72]

12249 39 **Research on vehicle tracking method based on UAV video** [12249-62]

12249 3A **Vehicle type classification under traffic monitoring based on improved capsule network** [12249-48]

12249 3B **Short-term inbound passenger flow prediction of urban rail transit network based on RS-Conv1dGRU** [12249-167]

12249 3C **Research on speed measurement method of multi-sensor fusion of maglev train** [12249-113]

12249 3D **Research on parking lots saturation degree of "traffic + tourism" new-type service area of expressway based on VISSIM simulation** [12249-142]

12249 3E **Typology of transportation accessibility for smart and sustainable urban development** [12249-172]

12249 3F **Analysis and research on traffic accident of junction interchange loop ramp based on truck rollover model** [12249-160]

12249 3G **Research on intelligent prediction of train operation adjustment** [12249-118]

12249 3H **Study on the line and station of the high speed railway in China: take the Beijing-Shanghai high-speed railway as an example** [12249-161]

12249 3I **An analysis of the influencing factors of tourist experience in Xinjiang self-driving campsites: taking Jiadengyu as an example of a car campsite** [12249-153]

12249 3J **Research on intelligent safety control systems of hydraulic climbing formwork for main pylons of long-span bridges** [12249-97]

12249 3K **Research on parking planning of historic conservation area based on traffic capacity: taking Langzhong ancient city as an example** [12249-183]

12249 3L **Study on forecasting model of port container throughput in China** [12249-129]

12249 3M **Exploring the effects of the scheme allowing a proportion of solo-driving travellers to use HOV lanes on a single link** [12249-157]

12249 3N **Planning for parking space navigation in multi-story car parking lot** [12249-140]

12249 3O **Improvement of overall lifting construction technology of large span steel structure hangar** [12249-136]

12249 3P **Research on sea-rail combined transport volume of Ningbo Zhoushan Port based on combined forecasting method** [12249-130]

12249 3Q **Comparative study on reasonable proportion of container rail-water intermodal transport between China and America** [12249-180]

12249 3R **Route optimization of LNG tank container multimodal transport considering transportation safety** [12249-124]

12249 3S **Robustness assessment of metro network: a case study of Beijing, China** [12249-109]

12249 3T **Research on pedal motorcycle targets based on Chinese traffic characteristic** [12249-155]

12249 3U **Optimal time-dependent electric shuttle bus route design for tourist cities** [12249-121]

12249 3V **Non-contact road anger detection device based on millimeter wave radar** [12249-171]

12249 3W **Study on construction mechanical behavior of new tunnel under existing expressway** [12249-152]

12249 3X **Research on intelligent integrated installation process and equipment of prefabricated bridges** [12249-98]

12249 3Y **Study on applicability of partial rigid frame and full rigid frame system of segmental precast box girder** [12249-96]

12249 3Z **A study on the characteristics of traffic accidents of novice drivers** [12249-115]

12249 40 **Analysis and research on port collection and distribution network based on low-carbon green development** [12249-117]

12249 41 **Design and research of smart construction equipment for precast segmental urban utility tunnels** [12249-102]

12249 42 **Electric vehicle route planning considering charging piles and time windows** [12249-10]

12249 43 **Offloading strategy in internet of vehicle based on edge cache** [12249-18]
