

PROCEEDINGS OF SPIE

***International Conference on
Cryptography, Network Security,
and Communication Technology
(CNSCT 2022)***

**Xiaohao Cai
Wei Wei**
Editors

**20–22 January 2022
Sanya, China**

Sponsored by
AEIC Academic Exchange Information Center

Organized by
East China Jiaotong University (China)
Dalian Jiaotong University (China)
Chongqing University (China)

SPIE

Volume 12245

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *International Conference on Cryptography, Network Security, and Communication Technology (CNSCT 2022)*, edited by Xiaohao Cai, Wei Wei, Proc. of SPIE 12245, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

ISSN: 0277-786X

ISSN: 1996-756X (electronic)

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

INTERNATIONAL CONFERENCE ON CRYPTOGRAPHY, NETWORK SECURITY, AND COMMUNICATION TECHNOLOGY

- 12245 02 **Analysis of phase noise impact on velocity measurement in TT&C systems** [12245-2]
- 12245 03 **DS-CBIoT: a generic framework on data sharing based on consortium blockchain and IoT** [12245-3]
- 12245 04 **A trusted remote attestation protocol based on attributes for containerized virtual network functions** [12245-4]
- 12245 05 **Precoding design of low-orbit satellite communication based on energy efficiency** [12245-5]
- 12245 06 **Research on service security isolation method of intelligent distribution terminal** [12245-6]
- 12245 07 **Analysis and implementation of man-in-the-middle attack on Microsoft's PPTP** [12245-7]
- 12245 08 **Study on applicability of multimode communication in electric information acquisition system** [12245-8]
- 12245 09 **Some results on the $Z_2Z_4[u]$ -additive codes** [12245-9]
- 12245 0A **The application of elementary number theory in cryptography** [12245-10]
- 12245 0B **Use transformer encoder for KPI anomaly detection** [12245-11]
- 12245 0C **Density peak-based clustering of industrial control protocols for reverse engineering** [12245-12]
- 12245 0D **Combined with the dual-attention and the long short-term memory intrusion detection research** [12245-13]
- 12245 0E **An improved fingerprint matching algorithm to detect malware encrypted traffic based on weighted Bayes** [12245-14]
- 12245 0F **Service function chain deployment algorithm based on availability perception and cost optimization** [12245-15]
- 12245 0G **Communication transmitter individual identification based on GAF-ResNet** [12245-16]
- 12245 0H **Application of relief feature selection in trust evaluation of user abnormal behavior** [12245-18]
- 12245 0I **Generative image steganography based on VAE-GAN** [12245-19]

- 12245 OJ **Research on access strategy of autonomous scheduling service of communication polling system based on DQN technology** [12245-20]
- 12245 OK **Hierarchical density-based clustering of unknown protocol message** [12245-21]
- 12245 OL **Deployment strategy of resource optimized service function chain in NFV environment** [12245-22]
- 12245 OM **A remote attestation model and protocol for multimedia mobile edge computing security** [12245-23]
- 12245 ON **Research on privacy preservation of location in wireless sensor networks** [12245-24]
- 12245 OO **Chromatographic analysis of typical decomposition products of sulfur hexafluoride** [12245-25]
- 12245 OP **Research on event capture method for network security testbed based on trusted execution environment** [12245-26]
- 12245 OQ **Simulation and impact analysis of network security attack on digital relay protection devices** [12245-27]
- 12245 OR **Analytical derivation of transient and steady state process of electro-thermal model considering temperature non-linearity of SF₆ gas insulated structural material** [12245-28]
- 12245 OS **A study of unsupervised image super-resolution based on deep network prior** [12245-29]
- 12245 OT **Recognition of handwritten digits on blackboard using Resnet model** [12245-30]
- 12245 OU **Research on communication channel transmission characteristics of human body surface with different body mass index** [12245-31]
- 12245 OV **Research on active reflective panel of FAST based on genetic algorithm** [12245-32]
- 12245 OW **Research on the influence of music on human society based on the cosine similarity algorithm** [12245-33]
- 12245 OX **Research on package task price strategy based on dynamic expectation and gray analysis** [12245-34]
- 12245 OY **Three-dimensional stowage optimization of general cargo ships considering stevedoring complexity in multiple ports** [12245-35]
- 12245 OZ **Prediction and optimization model of C4 olefin production based on random forest and chaotic particle swarm optimization** [12245-36]
- 12245 10 **Research on principle ordering and transportation scheme of production enterprise based on the improved TOPSIS and clustering algorithm** [12245-37]
