

2022 8th International Conference of the Immersive Learning Research Network (iLRN 2022)

**Vienna, Austria
30 May - 4 June 2022**

**IEEE Catalog Number: CFP22K36-POD
ISBN: 978-1-6654-8283-7**

Table of Contents

Assessment and Evaluation (A&E)

Teachers' Attitudes and Technology Acceptance Towards AR Apps for Teaching and Learning	1
A Metaverse-based Student's Spatiotemporal Digital Profile for Representing Learning Situation	9
User Interaction Satisfaction with Simulation Games Used in Learning about ERP Systems	17
Teaching Virtual Reality in Virtual Reality	22
Work-in-Progress—Embedding Cross-cultural Humorous and Empathetic Functions to Facilitate Language Acquisition	27
Work-in-Progress—Developing an Evidence-Centered Model for Computational Thinking in Virtual Worlds with Children with Autism	30
Work-in-Progress—CrimOPS – Gamified Virtual Simulations for authentic assessment in Criminology	33
Work-in-Progress—Measuring Learners' Subjective Experience in Augmented Reality: First Evaluation of the ARcis Questionnaire	36
Work-in-Progress—A Mobile Augmented Reality Application for Learning about Trademark Registration in Intellectual Property Education	39
Work-in-Progress—Digital Human Factors Measurements in First Responder Virtual Reality-based Skill Training	42

Galleries, Libraries, Archives and Museums (GLAM)

Reflecting on Research: A Virtual GLAM Proposal	45
Which Types of Learners Are Suitable for the Virtual Reality Environment: A fsQCA Approach	51
Work-in-Progress—Using Virtual Reality in Museums to Assist Historical Learning	56
Work-in-Progress—Enhancing Art Appreciation Through Immersive Recreation Games	59
Doctoral Colloquium—Armaking: From a Hands-On Process to a VR Translation	62
Doctoral Colloquium—Treasure hunt AR for enhancing visiting experience in cultural sites	65

Inclusion, Diversity, Equity, Access, and Social Justice (IDEAS)

Using Virtual Environments to Reveal Teacher Bias Towards Students' Socioeconomic Status	68
Work-in-Progress—Decolonizing the Digital Divide: Problem based spatial design through immersive technology for STEM education in Minority Populations	76
Work-in-Progress—Designing Evaluation Modules in the VR-based Simulation for Learners with Intellectual Disabilities	79

STEM Education

A Serious Game in Fully Immersive Virtual Reality for Teaching Astronomy Based on the Messier Catalog	82
Developing an AR Based Tool for Teaching Motion Analysis on Assembly Tasks	89
Developing and Evaluating a Multiplayer Game Mode in a Programming Learning Environment	96
From Users to Creators: Motivations, Implementation and Impacts of Augmented and Virtual Reality in Science and Engineering Projects in K-12 Education	104
Framework for Scalable Content Development in Hands-on Virtual and Mixed Reality Science Labs	110
SAVR – Design and Evaluation of an Immersive Virtual Reality Serious Game on Hazard Perception in Technical and Vocational Education	116
An Interactive Chess-Puzzle-Simulation for Computer Science Education	121
Work-in-Progress—Microscopic Immersion: Dive into the Subcellular Journey	126
Work-in-Progress—Factors that Lead to Successful Technology Programs in Schools	128
Work-in-Progress—Exploring Model Based Automated Response Systems to Enhance Student Outcomes	131
Work-in-Progress—Extended Reality Pilots for Hybrid Learning: A New NUFlex for Northeastern University	134
Work-in-Progress—Unity between the Two Worlds: Microscopic Data-Based Immersive Experience	137
Work-in-Progress—Developing Materials Science Experiments Using Augmented Reality: How Much Reality is Needed?	140
Work-in-Progress—Visualization of Area Units with Augmented Reality	143
Work-in-Progress—Towards an AR Materials Library for Design and Engineering Education	146

Language, Culture and Heritage (LCH)

Digitally Restoring Artefacts Using 3D Modelling Techniques for Immersive Learning Opportunities	149
Research Based on Affective Filter Theory: Is Social VR an Effective Tool for Learning a Second Language?	157
Game-Based Virtual Reality for Languaculture Learning: An Example of the Forbidden City	164
Work-in-Progress—Preliminary Analysis of Spatial Perception in AR application with Eye-Tracking Data	169

Medical and Healthcare Education (MHE)

Immersive Haptic Interface Simulating Skin Biopsy for Dermatological Skill Training	172
Undergraduate Nursing Students’ Experiences and Perceptions of Self-Efficacy in Virtual Reality Simulations	180
Evaluating Co-Creative XR Resource Design and Development; Observations from the Field	187

Medical and Healthcare Education (MHE) (cont.)

Work-in-Progress—eXtended Reality Training for Safety and Medical Procedures: Experiences from a User-Centered-Design Approach to Implementation	192
Work-in-Progress—Towards a Virtual Training Environment for Lower Gastrointestinal Endoscopy	195
Work-in-Progress—Volumetric Communication for Remote Assistance Giving Cardiopulmonary Resuscitation	198
Work-in-Progress—Exploring the Feasibility of Using Hand Tracking in VR Application for Memory Training Exercises	201

Nature & Environmental Sciences (NES)

Supporting Watershed Literacy with a Desktop Virtual Reality Exploration Game	204
Flood Adventures: A Flood Preparedness Simulation Game	210
Enhancing K-16 Science Education with Augmented Reality: A Systematic Review of Literature from 2001 to 2020	215
An Explore of Virtual Reality for Awareness of the Climate Change Crisis: A Simulation of Sea Level Rise	220
Work-in-Progress—Developing an Undergraduate Geology Virtual Field Environment	225

Workforce Development & Industry Training (WDIT)

An Augmented Reality Training Application for Service and Maintenance of a Medical Analyzer: A UX Approach to Usefulness and User Satisfaction	228
Construction Workforce Training Assisted with Augmented Reality	236
Recommendation Tool for Use of Immersive Learning Environments	242
A Mixed Reality Teaching Course for Formal Higher Education	250
Work-in-Progress—Maintenance Skills Enhancement Using Smart Documents Integrated with Self-directed Learning	255
Work-in-Progress—Stress and Flow Assessment during a Virtual Reality Fire Extinguishing Training	258
Work-in-Progress—Effectiveness of Avatar Guided Instructions and Feedback in the Server Repair and Maintenance Task	261
Work-in-Progress—Blower VR: A Virtual Reality Experience to Support the Training of Forest Firefighters	264
Work-in-Progress—Virtual Reality for Basic Vocational Training	267

Fundamental Research and Theory in Immersive Learning

Exploring the Effect of Virtual Reality with Haptics on Educational Research: A Meta-analysis from 2010 to 2020	270
A Survey of Educational Augmented Reality in Academia and Practice: Effects on Cognition, Motivation, Collaboration, Pedagogy and Applications	277

Fundamental Research and Theory in Immersive Learning (cont.)

WebVR in the Facilitation of Model United Nations Simulations	285
Exploring Constraints on Dialogic Interaction in Immersive Environments arising from COVID-19 Protocols	291
VR-based Context Priming to Increase Student Engagement and Academic Performance	299
Comparing Student-based Context Priming in Immersive and Desktop Virtual Reality Environments to Increase Academic Performance	307
Investigating the Mobile Augmented Reality Acceptance Model with Pre-Service Teachers	314
Using First-Person View Drones through Head- Mounted Displays: Are they Suitable for Education?	322
Advancing Extended Reality Teaching and Learning Opportunities Across the Disciplines in Higher Education	329
What is Immersive Learning?	337
Contextualizing Educational Robotics Programming with Augmented Reality	342
Improving Adoption of Immersive Technologies at a Norwegian University	347
Teaching and Learning Immersive Technology in Education Sciences	352
Learning Spatial Skills Collaboratively in Immersive Virtual Environments: A Systematic Review	357
Skill Systems as Expansion in Serious Games for Game-Based Learning	362
Synchronous Multi-User Cross-Platform Virtual Reality for School Teachers	367
Simulated Gaze Tracking using Computer Vision for Virtual Reality	372
A Virtual Learning Model for Virtual Reality and Literature	377
Work-in-Progress—Virtual Reality Integration into Geography Education: A Case Study of Physical Geography	382
Work-in-Progress—Design of Mixed Reality Educational Applications Using Enhanced ARCS+G Model for Motivation	385
Work-in-Progress—Computer Vision Methods to Examine Neurodiverse Gaze Patterns in 360-video	388
Work-in-Progress—Motion Tracking Data as a Proxy for Cognitive Load in Immersive Learning	391
Work-in-Progress — Gamifying the process of Learning Sign Language in VR	394
Work-in-Progress—Avatar vs Teams: Co-presence and Visual Behavior in a Videoconference Cooperative Task	397
Work-in-Progress—The Effect of Students’ Perceptions on Intention to Use Metaverse Learning Environment in Higher Education	400
Work-in-Progress—Design of LMS for the Shared Campus in Metaverse Learning Environment	403
Work-in-Progress—The Role of Immersion When Adapting Textual Narratives into Comic Strips for Online Higher Education: Trials Prototyping Characters	406

Fundamental Research and Theory in Immersive Learning (cont.)

Work-in-Progress—Post-COVID: Adapting Education to a Changing Educational Environment through Immersive Technology	409
Doctoral Colloquium—The Potential of Mixed-Reality Technology for Motivating Dentistry Students in Higher Education	412
Doctoral Colloquium— Confronting Death: Lived Experiences from Players of the Serious Game Spiritfarer	415
Doctoral Colloquium—ME++ Data ethics of biometrics through ballet and AR	418
Doctoral Colloquium— Utilizing Electroencephalography, Eye Gaze, and Learner Analytics to Examine Student Engagement in a Virtual Reality Classroom	421
Doctoral Colloquium—Building Intertextual Connections with Secondary Students in Minecraft	424

Special Track - Self and Co-regulated Learning with Immersive Learning Environments (SCILE)

Step Into My Mind Palace: Exploration of a Collaborative Paragogy Tool in VR	427
Virtual Spaces as Learning Media for Flipped Classroom: An Evaluative Study	435
