2022 11th International Conference of Information and Communication Technology (ICTech)

ICTech 2022

Table of Contents

Preface ..... **xxii**
Editorial ..... **xxiii**
Keynotes ..... **xxv**

I. Internet and Web Technology

Security Enhancement for SMS Verification Code in Mobile Payment 3
Ruohan Xu (Nanjing Foreign Language School, China)

Analysis of Lightweight Processing Technology for WEB Oriented BIM Model 8
Yuhang Feng (Hubei University of Technology, China) and Fang Wan (Hubei University of Technology, China)

The Construction of a Big Data E-Commerce Service Platform Driven by a Cloud Contact Center 13
Wanlin Yang (Hainan University China, China)

Data Classification and Aggregation in Flexible Clothing Based on Cloud Computing Analysis..... 18
Zhang Yi (Wuhan Textile University, China; Hubei Functional Fiber Processing and Testing Engineering Technology Research Center (Wuhan Textile University), China), Juma Said Ally (Mbeya University of Science and Technology, Tanzania), Kang Juan (Wuhan Textile University, China), and Mei Cong (Wuhan Textile University, China)

Active Guide System for The Blind Based on The Internet of Things and Collaborative Perception 22
GuangYi Wang (Tianjin University of Science and Technology, China), Lu Li (Tianjin University of Science and Technology, China), JingJuan Fan (Tianjin University of Science and Technology, China), SongYun Shi (Tianjin University of Science and Technology, China), YiPeng Xu (Tianjin University of Science and Technology, China), and Yuan Wang (Tianjin University of Science and Technology, China)

Digital Twin Model Construction and Management Method of Workshop Based on Cloud Platform … 28
Hongliang Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China) and Guoliang Jin (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

A Method for Classifying Buildings Based on Scan Lines from Airborne LiDAR Point Cloud Data …… 33
Li Bin (Shandong Electric Power Engineering Consulting Institute Corp., Ltd., China) and Ma Chao (Shandong Electric Power Engineering Consulting Institute Corp., Ltd., China)

Design of Distributed Terminal Data Joint Learning Model Based on Blockchain …… 37
Jin-Ping Cao (Information and Telecommunication Branch of State Grid Corporation of China, China), Ying-Zhuo Li (Tianjin University of Science & Technology, China), Ze-Jing Guang (Information and Telecommunication Branch of State Grid Corporation of China, China), Yi-Ying Zhang (Tianjin University of Science & Technology, China), and Yan-Nian Wu (Shenzhen Guodian Technology & Communication Co., Ltd., China)

II. Computer & Information Science

Industrial Control Network Security Situation Assessment Based on SAE-RBF …… 43
Xinzhuang Li (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China) and Hanjun Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

A Question Answering Method of Knowledge Graph Based on BiLSTM-CRF and Seq2Seq …… 48
Yiying Zhang (Tianjin University of Science and Technology, China), Caixia Ma (Tianjin University of Science and Technology, China), Yeshen He (China GRIDCOM Co., Ltd., China), Kun Liang (Tianjin University of Science and Technology, China), Yannian Wu (China GRIDCOM Co., China), and Zhu Liu (Beijing University of Posts and Telecommunications, China)

Implementation and Real-Time Optimization of Lwip Stack Based on AM3354 UCOS-II …… 53
Jinshan Feng (Shenyang University of Chemical Technology, China) and Pin Wang (Shenyang Institute of Computing Technology Co. Ltd, CAS, China)

Research on Flexible Job Scheduling Based on Genetic Prohibited Search Algorithm …… 57
Lianpo Li (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, China), Wenjiang Wu (Shenyang Institute of Computing Technology, China), and Yi Hu (Shenyang Institute of Computing Technology, China)

Development and Prospect of Computer Aided Engineering …… 61
Ying Li (Nanjing Research Institute for Agricultural Mechanization, China) and Zhuohuai Guan (Nanjing Research Institute for Agricultural Mechanization, China)

Professional Titles Evaluation System Based on PHP and MySQL 65
Daiwen Wu (Weinan Normal University, China)

Research and Implementation of Public Laboratory Information System Based on CS Structure 69
Ruimei Gao (Southeast University Chengxian College, China)

Research Methods and Progress of Text Sentiment Analysis Based on Machine Learning 73
Zailong Tian (Wuhan University, China)

Research and Implementation of an Embedded Image Classification Method Based on ZYNQ 79
Jiangbo Wang (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology Chinese, Academy of Science, Shenyang, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), Zhenyu Yin (Shenyang Institute of Computing Technology Chinese Academy of Science, Shenyang, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), Fulong Xu (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology Chinese Academy of Science, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), Feiqing Zhang (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology Chinese Academy of Science, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), and Guangyuan Xu (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology Chinese Academy of Science, Shenyang, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China)

Distribution Network Anomaly Detection Algorithm Based on VAE 84
Zhilu Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Yunfeng Ding (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), and Tian Zhang (Beijing Union University, China)

A Classification Model for Unbalanced Power Traffic 88
Jian Tang (Shenyang Institute of Computer Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China) and Xiwang Li (Shenyang Institute of Computer Technology, Chinese Academy of Sciences, China)

Research and Application of HOG Feature Based Power Grid Key Area Out of Bounds Detection ... 94
Mingrui Sha (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China) and Zhenhao Gu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Intrusion Detection System Using Improved Convolution Neural Network 97
Xue Ying Li (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology Chinese Academy of Sciences, China), Rui Tang (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China), and Wei Song (State Grid Liaoning Electric Power, China)

A High-Speed Data Retrieval Model on Blockchain 101
Jingang Yu (Shenyang Institute of Computing Technology, China), Yongkang Hou (Shenyang Institute of Computing Technology, China; University of Chinese Academy of Sciences, China), Shu Li (Shenyang Ligong University, China), and Zhifeng Wen (Shenyang Institute of Computing Technology, China; University of Chinese Academy of Sciences, China)

A Review on The Photonic Quantum Information Processing Technology 106
Xinyi Liang (Chongqing University of Posts and Telecommunications, China)

Design and Implementation of SPARQL Engine Based on Heuristic Algorithm 116
Xinpeng Dong (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Bihui Yu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and Huajun Sun (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

A Batch Processing Model of Multi-Variety Jaw Assembly Based On Heuristic Rules 121
Xin Zhang (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Yue Tian (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Song Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), MeiJi Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), and Ru Ma (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Intelligent Audit Question Answering System based on Knowledge Graph and Semantic Similarity 125
FeiFei Dai (State Grid Tianjin Electric Power Company, China), ZhangLi Zhao (Wuqing Power Supply Company, State Grid Tianjin Electric Power Company, China), ChangPeng Sun (State Grid Tianjin Electric Power Company, China), and Bo Li (State Grid Tianjin Electric Power Company, China)

Research on Simulation Test Method of Advanced Emergency Braking System of Commercial Vehicles 133
Jin Gao (Research Institute of Highway Ministry of Transport, China), Wenliang Li (Research Institute of Highway Ministry of Transport, China), Wei Zhou (Research Institute of Highway Ministry of Transport, China), Hua Chen (Intelligent Connected Technology of CAERI, China), and Min Qiao (Intelligent Connected Technology of CAERI, China)

Research and Application on Distributed Multi-Level Cache Architecture 138
Li Lv (University of Chinese Academy of Sciences, China, Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China) and Haichao Du (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Design and Implementation of Privacy Protection of Charity System Based on Blockchain 144
Jingang Yu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Zhifeng Wen (University of Chinese Academy of Sciences, China), Shu Li (Shenyang Ligong University, China), and Yongkang Hou (University of Chinese Academy of Sciences, China)

An Improved Path Planning Algorithm Based on RRT 149
QiongWei Zhang (Shenyang Institute of Computing Technology, University of Chinese Academy of Sciences, China), LunXing Li (Shenyang Institute of Computing Technology, University of Chinese Academy of Sciences, China), LiaoMo Zheng (Shenyang Institute of Computing Technology, University of Chinese Academy of Sciences, China), and BeiBei Li (Shenyang Institute of Computing Technology, University of Chinese Academy of Sciences, China)

Test and Research of Digital Signal Cable for High-Speed Railway 153
Qing Chen (Hunan Railway Professional Technology College, China), Qian Xiao (Hunan Railway Professional Technology College, China), and Jun Yan (Hunan Railway Professional Technology College, China)

Forward Reasoning of Owl Rule Set Based on SPARQL Query 158
Jie-Tao Jiao (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Bi-Hui Yu (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and Hua-Jun Sun (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

III. Artificial & Swarm Intelligence

Application of Convolution Neural Network in Network Abnormal Traffic Detection 165
Conglei Lv (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Xiwang Li (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), and Wei Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Design and Implementation of a Fast Convolution Algorithm for Embedded Platform 170
Zhenyu Yin (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), Feiqing Zhang (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), Jiangbo Wang (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), Fulong Xu (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), and Chao Fan (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China)

Research on Test Data Generation Method of IOT Management Platform Based on Ant Colony Algorithm 175
Ning Zhang (State Grid Jibei Information & Telecommunication Company, China), Fangjian Shang (State Grid Jibei Information & Telecommunication Company, China), Xin Li (State Grid Jibei Information & Telecommunication Company, China), and Wenjun Zhu (State Grid Info & Telecom Co., LTD., China; Power Information Technology Co., LTD, China)

Image Recognition Technology of Monitoring Intelligent Alarm System Based on Deep Learning... 179
Baofeng Hui (Qinghai Minzu University, China) and Yuanliang Ma (Qinghai Minzu University, China)

Research on Inspection, Identification and Reinforcement Design of Building Structure Based on PKPM Software 184
Shuwei Xia (Henan Risheng Comprehensive Testing Co. Ltd, China)

Design and Development of Human Fatigue Evaluation Method and Equipment Based on Bayesian Network Classifier 188
Yue-Fang Dong (University of Sciences and Technology of China, China; Suzhou Institute of Biomedical Engineering and Technology Chinese Academy of Sciences, China), Wei-Wei Fu (University of Sciences and Technology of China, China; Suzhou Institute of Biomedical Engineering and Technology Chinese Academy of Sciences, China), Zhe Zhou (University of Sciences and Technology of China, China), and Hai-Long Zhu (University of Sciences and Technology of China, China)

ECG Signal Anomaly Detection Algorithm Based on CNN-BiLSTM 193
Kai Xing Cui (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China) and Xiao Jun Xia (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Deep Reinforcement Learning-Based Task Unloading Algorithm in MEC 198
Zhenyu Yin (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Zhiying Bi (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Anying Chai (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and Zhiyun He (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

Research on Traffic Intrusion Detection Method Based on Deep Learning 204
Jinghui Zhang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China) and Yong Xiang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Stack Workpieces Recognition Model Based on Deep Learning 209
Weiguang Han (University of Chinese Academy of Sciences, China) and Xuesong Han (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Research on Fault Diagnosis Method of Rolling Bearing Based on Improved Convolutional Neural Network 214
Xiaolong Liu (Shengyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Xiaojun Xia (Shengyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and Jia Song (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

Research on Automated Warehouse Scheduling Problem Based on Improved Genetic Algorithm .. 219
HaoXuan Li (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, China), Yong Sun (Shenyang Institute of Computing Technology, China), YanFei Jiao (Shenyang Golding NC Technology Co. Ltd., China), HongBo Jiang (Shenyang Institute of Computing Technology, China), and Ru Ma (Shenyang Institute of Computing Technology, China)

Research and Application of Automatic Text Summarization Technology Based on Deep Learning. 225
ZeKai Sun (University of Chinese Academy of Sciences, China), XiangRu Meng (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China), PiChao Zheng (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China), XiangNing Zhu (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China), and Lei Yang (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China)

GAN-Based Day and Night Image Cross-Domain Conversion Research and Application 230
Bo Yu (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Hanting Wei (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), and Wei Wang (Northeastern University, China)

Motor Fault Diagnosis Method based on Deep Learning 236
Zhen Xu (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology Chinese Academy of Sciences, China), Dong Yu (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China), and Yi Hu (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China)

A Fault Diagnosis Method of Rolling Bearing of CNC Machine Tool Based on Improved Convolutional Neural Network 240
Ying Gao (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China; Chifeng University, China) and Xiaojun Xia (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

CEP Rule Extraction Framework Based on Evolutionary Algorithm 245
Jiayao Lv (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Bihui Yu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and Huajun Sun (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

Research on Storage Allocation Strategy of Automated Warehouse Based on Improved Genetic Algorithm 250
Wen Shi (University of Chinese Academy of Sciences, Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Yue Tian (University of Chinese Academy of Sciences, Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Song Wang (University of Chinese Academy of Sciences, Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), ChunWen Liu (University of Chinese Academy of Sciences, Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Lei Yang (University of Chinese Academy of Sciences, Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), and PiChao Zheng (University of Chinese Academy of Sciences, Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

A News Recommendation Algorithm Based on Deep Learning 255
Hao Yuan (University of Chinese Academy of Sciences, Shenyang Institute of Computing Technology, China), XiangRu Meng (University of Chinese Academy of Sciences, Shenyang Institute of Computing Technology, China), LinLin Zhang (University of Chinese Academy of Sciences, Shenyang Institute of Computing Technology, China), and ChunWen Liu (University of Chinese Academy of Sciences, Shenyang Institute of Computing Technology, China)

Research on Sensitive Image Detection Service Based on Deep Learning Framework 259
Hongliang Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Ruiqi Zhu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and Bihui Yu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

CNN Model Based on Attention Mechanism and Its Application in Time Series Data 264
Lina Wang (Naval Aviation University), Ying Ren (Naval Aviation University), and Fengqin Wang (Naval Aviation University)

IV. Data Science and Management

Speed Control of PMSM Based on Data-Driven Method 271
Meng Chen (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Fei Gao (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and Weiyou Ren (Sheyang CASNC Technology Co., Ltd., China)

Location-Based Game for Remembering Shelter Locations, Capacities and Features 277
Hiroyuki Mitsuhara (Tokushima University, Japan), Naoki Miyoshi (Tokushima University, Japan), and Masami Shishibori (Tokushima University, Japan)

Research on Collaborative Recommendation Algorithm Based on Film and Television Big Data 282
Ruomu Miao (Shanghai Jiao Tong University, China) and Wenbin Yao (Library North China Institute of Aerospace Engineering, China)

Practice and Research of Ideological and Political Education Based on Data Mining Technology 287
Xin Deng (Criminal Investigation Police University of China, China)

Data Mining in the University English Teaching Quality Analysis and Research 292
Lai Ding (Criminal Investigation Police University of China, China)

Design Method of the Income Settlement System for We-Media Creators 298
He Lin (Peking University, China)

Research on Emotion Classification of Movie Background Music Based on Improved Clustering Algorithm 302
Jinyuan Wang (Academy of music of Guizhou University, China)

Evaluation of Online Tool Data Management for Warehouse Management for Power Big Data 307
Zhixin Jing (State Grid Inner Mongolia Electric Power Supply Co., Ltd Mongolia, China), Rui Fan (State Grid Inner Mongolia Electric Power Supply Co., Ltd Mongolia, China), Wanying Liu (State Grid East Inner Mongolia Power Supply Service Supervision and Support Center Mongolia, China), Yan Shi (State Grid East Inner Mongolia Power Supply Service Supervision and Support Center Mongolia, China), and Fengjiu Yang (State Grid East Inner Mongolia Power Supply Service Supervision and Support Center Mongolia, China)

Analysis of Data Mining and Dynamic Neural Network for Data Prediction 312
Yancheng Long (Southwest Forestry University, China) and Jian Rong (Southwest Forestry University, China)

Exploring The Role of Web Crawler and Anti-Crawler Technology in Big Data Era 316
Fan Zhou (Urban Vocational College of Sichuan, China) and Yang Wang (Luzhou Vocational and Technical College, China)

The Research and Design of Migrant Workers' Real-Name Back Salary Governance Platform Based on Big Data Technology 320
Dacan Li (Hebei University of Economics and Business, China), Dezheng Li (Nanning Normal University, China), and Yuanyuan Gong (Hebei University of Economics and Business, China)

Analysis of Online Reviews Data for Perceiving Image of Homestay 325
Junxian Yang (Sichuan Agricultural University), Ronghua Zhou (Sichuan Agricultural University), Min Zhang (Sichuan Agricultural University), and Yijun Shan (Sichuan Agricultural University)

Design of Sensitive Information Encryption and Decryption System Based on Branch Obfuscation Algorithm 330
Lei Shu (Chongqing Aerospace Polytechnic, China)

Design of Embedded Data Acquisition and Management System Based on SQLite Database 335
HaiLong Liu (Hunan Railway Professional Technology College, China), Li Yang (Hunan Railway Professional Technology College, China), and HaiBo Wu (Hunan Railway Professional Technology College, China)

Study on Ethanol Coupling Reaction Based on Regression Algorithm and Spearman Rank Correlation Coefficient 339
Shuya Peng (Wuhan University of Technology, China), Ruoming Cheng (Wuhan University of Technology, China), and Ziheng Dai (Wuhan University of Technology, China)

Study on Ethanol Coupling Reaction Based on BP Neural Network and Correlation 346
Ruoming Cheng (Wuhan University of Technology, China), Shuya Peng (Wuhan University of Technology, China), and Ziheng Dai (Wuhan University of Technology, China)

V. ICT Applications

BERT-Based Mixed Question Answering Matching Model 355
Chuang Zheng (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), ZhanGuo Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), and Jin He (Information Communication Branch of Liaoning Electric Power Co., Ltd, China)

Research and Implementation of Publish/Subscribe Communication Model Based on OPC UA 359
Anying Chai (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), Yue Ma (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), Zhenyu Yin (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), Zhiyun He (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), and Zhiying Bi (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China)

Problems and Strategies in the Process of Network Marketing Towards Precision in the Context of Big Data 367
Le He (Henan University, China)

The Design and Development of University Teaching Management Information System Based on Asp.Net 371
Xiang Liu (Criminal Investigation Police University of China, China)

A Big Data Based Analysis of Accurate Operation for User Multidimensional Value Identification 376
Qian Wang (State Grid East Inner Mongolia Power Supply Service Supervision and Support Center Mongolia, China), Baocai Guo (State Grid East Inner Mongolia Power Supply Service Supervision and Support Center Mongolia, China), Churila Sa (State Grid East Inner Mongolia Power Supply Service Supervision and Support Center Mongolia, China), Bo Hu (State Grid East Inner Mongolia Power Supply Service Supervision and Support Center Mongolia, China), and Luxi Zhang (State Grid East Inner Mongolia Power Supply Service Supervision and Support Center Mongolia, China)

Development of a Multi-Sensor Based Ski Machine Attitude Training Simulator 381
Zhe Sun (Shenzhen Snowbud Innovations Limited Shenzhen, China) and Hua Yang (Shenzhen Snowbud Innovations Limited Shenzhen, China)

Numerical Simulation of Multi-Degree Indoor Skiing Simulation System 385
Hua Yang (Shenzhen Snowbud Innovations Limited, China) and Zhe Sun (Shenzhen Snowbud Innovations Limited, China)

Research on Iron Ore Price Prediction Based on AdaBoost-SVR 390
Hao Wang (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China) and XiWang Li (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Text Classification Using BiGRU with Directional Self-Attention 394
TianTian Jiang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China) and ZhanGuo Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Hierarchical Clustering Algorithm for Anomaly Detection on Intelligent Production Line 398
Zhiyun He (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), Zhenyu Yin (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), Anying Chai (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), and Zhiying Bi (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China)

Design and Research of Metal Surface Defect Detection Based on Machine Vision 406
Xianxin Shao (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), XiaoJun Xia (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and Jia Song (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

A Multimodal Emotion Recognition Method Based on Speech-Text 411
Yiying Zhang (Tianjin University of Science & Technology, China), Nan Zhang (Tianjin University of Science & Technology, China), Yiyang Liu (Tianjin University of Science & Technology, China), Caixia Ma (Tianjin University of Science & Technology, China), and Delong Wang (Tianjin University of Science & Technology, China)

Cross-Platform Device Monitoring System Based on OPC UA 415
Wenjing Chen (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China) and Pin Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

Modelling and Simulation of a Spliced Intelligent Medicine Box 419
Tianlei Wang (Wuyi University, China), Jing Zhou (Wuyi University, China), Weilin Liang (Wuyi University, China), Na Xiao (Wuyi University, China), Ye Li (Wuyi University, China), Zhenhua Ou (Wuyi University, China), Junda Deng (Wuyi University, China), and Xiangyuan Zhou (Enping Yige Electronic Co., LTD, China)

Modeling Distributed Communication for Smart Factory 423
Jiaming Zhang (China Mobile Group Design Institute Co., Ltd., China) and Anying Chai (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Small Target Foreign Object Detection Based on Improved YOLO Network 431
Yu Bo (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China) and Wang Qiuru (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Research and Application of Semi-Supervised Entity Recognition Method in The Field of Technology Policy 436
Bihui Yu (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China) and Xiangxiang Zhang (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China)

Design and Implementation of An Assisted Positioning System for Carotid Endarterectomy Based on Mixed Reality 441
Xiaoxing Zhang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Ruifeng Guo (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Zhiyong Tong (The First Hospital of China Medical University, China), Hongliang Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Chao Fu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and Yuan Liu (The First Hospital of China Medical University, China)

Automatic 3D Reconstruction of Carotid Vessels Based on Region Growing Method 446
Chao Fu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Ruifeng Guo (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), Dan Yang (General Hospital of Northern Theater Command, China), Hongliang Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), and Xiaoxing Zhang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

Towards Better Pedestrian Detection Using Multi-Scale CSPN and Dual Attention 451
XinXin Huang (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), ZhenYu Yin (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), and Chao Fan (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China)

Tool Condition Monitoring Using Wavelet Analysis with Savitzky-Golay Filter 457
Meihong Li (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Li Lv (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and Bihui Yu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

Intelligent Access Control System Based on Voiceprint and Voice Technology 461
Peng Wang (Soochow University, China), Juanjuan Li (Soochow University, China), Hao Wang (Soochow University, China), Huaizhen Chen (Soochow University, China), Junjie Cao (Soochow University, China), Yi Xu (Soochow University, China), and JunYue He (Soochow University, China)

Safety Helmet Wearing Recognition Based on Improved YOLOv5 466
Weiran Liu (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Yi Hu (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China), and Dawei Fan (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

State Recognition Method of Heat Treatment Process Based on PLR 471
DaWei Fan (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Yi Hu (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), YanXin Li (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and WeiRan Liu (Shenyang Institute of Computing Technology Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

Research and Application of Wear Prediction Method of NC Milling Cutter Based on Data-Driven 476
Zhenduo Liu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China) and Dongsheng Yang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China)

Intelligent Garbage Classification Mechanism Based on Image Recognition 482
Miaoyun Feng (Soochow University, China), Juanjuan Li (Soochow University, China), Junyue He (Soochow University, China), Zeyu Feng (Soochow University, China), Yuhan Liu (Soochow University, China), Haochuan Li (Soochow University, China), Yuwei Zhou (Soochow University, China), and Hao Wang (Soochow University, China)

Policy Text Classification Algorithm Based on Bert 488
Bihui Yu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Chen Deng (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), and Liping Bu (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

Faster 3D Reconstruction by Fusing 2D Object Detection and Self-Supervised Monocular Depth Estimation 492
Chao Fan (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), ZhenYu Yin (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), XinXin Huang (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), MingShi Li (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), XiaoHui Wang (University of Chinese Academy of Sciences, China; Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China; Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China), and Hui Li (Liaoning Key Laboratory of Domestic Industrial Control Platform Technology on Basic Hardware & Software, China; Shenyang University of Chemical Technology, China)

Modeling of Five-Band High Efficiency Rectifier for RF Energy Acquisition 498
Yangkun Song (Wuhan University of Technology, China), Chaofan Huang (Wuhan University of Technology, China), Zixuan Wang (Wuhan University of Technology, China), and Jiayi Zhang (Wuhan University of Technology, China)

Design and Implementation of Shared Book System Based on Wechat Applet 503
Haihao Zhang (Wuhan University of Technology, China), Yihuan Su (Wuhan University of Technology, China), Hongsheng Liu (Wuhan University of Technology, China), and Longtao Wang (Wuhan University of Technology, China)

An AOA Indoor Positioning System Based on Bluetooth 5.1 511
XiJun Zhao (Nantong University, China) and YongJie Yang (Nantong University, China)

Research on Dynamic Technology of Digital Benefit Intelligent Quantitative Control 516
Zhimin He (Global Energy Interconnection Research Institute Co., Ltd, China; State Grid Key Laboratory of Information & Network Security, China), Aidi Dong (State Grid Jilin Electric Power Co., Ltd, China), and Jianhong Pan (State Grid Jilin Electric Power Co., Ltd, China)

Question Answering System with Enhancing Sentence Embedding 521
HongLiang Wang (Shenyang Institute of Computing Technology Co., Ltd., Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China) and XinXin Lu (Shenyang Institute of Computing Technology Co., Ltd., Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)

Analysis of Factors Affecting Ptychographical Intensity Interferometry Imaging 525
Yibing Chen (Xi'an Jiaotong University, China), Yuchen He (Xi'an Jiaotong University, China), Hui Chen (Xi'an Jiaotong University, China), and Huaibin Zheng (Xi'an Jiaotong University, China)

A Multi-Information Detection Model for Violent Images based on YOLOv3-SPP and DenseNet ... 529
Ruifeng Guo (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, Shenyang, China), Wenyang Li (University of Chinese Academy of Sciences, China), Hongliang Wang (Shenyang Institute of Computing Technology, Chinese Academy of Sciences, China), and Xiaoxing Zhang (University of Chinese Academy of Sciences, China)

Text Classification Algorithm Based on TF-IDF and BERT 533
Jian-Wei Sun (Shenyang Institute of Computing Technology Chinese Academy of Science, China; University of Chinese Academy of Sciences, China), Jia-Qi Bao (Shenyang Institute of Computing Technology Chinese Academy of Science, China; University of Chinese Academy of Sciences, China), and Li-Ping Bu (Shenyang Institute of Computing Technology Chinese Academy of Science, China; University of Chinese Academy of Sciences, China)

Design of 1553B Network for Teaching 537
Wenhai Liu (Shenyang Institute of Computing Technology, China; University of Chinese Academy of Sciences, China) and Jian Wu (Shenyang Institute of Computing Technology, China; University of Chinese Academy of Sciences, China)

Design of Night Heart Rate Breathing System Based on ARM 541
Yihuan Su (Wuhan University of Technology, China), Jiang Ming (Wuhan University of Technology, China), Fangyu Li (Wuhan University of Technology, China), and Zhixiang Ao (Wuhan University of Technology, China)

Intelligent Drug Delivery Car System Using STM32 547
Qianyi Zhou (Wuhan University of Technology, China), Jiaxing Hu (Wuhan University of Technology, China), and Yunyi Xu (Wuhan University of Technology, China)

Research on Optimization Design of Hydraulic Brake Cylinder Processing Technology for Railway Vehicle 554
Rundong Shen (Hunan Railway Professional Technology College, China), JiCheng Duan (Hunan Railway Professional Technology College, China), and Kechang Zhang (Hunan Railway Professional Technology College, China)

Research on University Teaching Quality Evaluation and Guarantee System Based on Block Chain Technology 558
Hong-Yuan Wang (Guangdong University of Science & Technology, China)

Study of Diagnosis and Improvement Index System of Higher Vocational Classroom Teaching based upon AHP 563
Jinyan Shi (Hunan Railway Professional Technology College, China) and Yongchao Xie (Hunan Railway Professional Technology College, China)

Author Index **569**
