## Table of Contents

Message from the General Chairs .....	xx
Organization .....	xxi
Program Committee .....	xxii

### Main Technical Program

#### Session 1: Situation Awareness

A Multi-Step Attack Detection Framework for the Power System Network .....	1
<i>Ju Yang (Guangzhou University, China; Peng Cheng Laboratory, China), Liang Zhou (China Electric Power Research Institute, China), Le Wang (Guangzhou University, China), Shudong Li (Guangzhou University, China), Ziqing Lin (China Electric Power Research Institute, China), and Zhaoquan Gu (Guangzhou University, China; Peng Cheng Laboratory, China)</i>	
A Novel Network Security Situation Awareness Model for Advanced Persistent Threat .....	9
<i>Kai Chen (Huazhong University of Science and Technology, China), Jingxian Zhu (Huazhong University of Science and Technology, China), Lansheng Han (Huazhong university of science and technology, China), Shenghui Li (Huazhong University of Science and Technology, China), and Pengyi Gao (Huazhong University of Science and Technology, China)</i>	
NiNSRAPM: An Ensemble Learning Based Non-Intrusive Network Security Risk Assessment Prediction Model .....	17
<i>Junzheng Yang (Beijing University of Posts and Telecommunications, China), Feng Liu (East China Normal University, China), Yuanjie Zhao (Technical Department Beijing Yuanbao Technology Co., LTD, China), Lulu Liang (Technical Department Beijing Yuanbao Technology Co., LTD, China), and Jiayin Qi (Institute for Artificial Intelligence and Change Management Shanghai University of International Business and Economics, China)</i>	

Shock Trap: An Active Defense Architecture Based on Trap Vulnerabilities .....	24
<i>Quan Hong (Institute of Information Engineering Chinese Academy of Sciences, China), Yang Zhao (China National Software &amp; Service Co., Ltd, China), Jian Chang (China Unicom Online Information Technology CO., Ltd, China), Yuxin Du (Institute of Information Engineering Chinese Academy of Sciences, China), Jun Li (Institute of Information Engineering Chinese Academy of Sciences, China), and Lidong Zhai (Institute of Information Engineering Chinese Academy of Sciences, China)</i>	

## Session 2: Cyberspace Security I

Capability-Based Component Security Mechanism for Microkernel OS .....	32
<i>Jiajia Yi (University of Electronic Science and Technology of China, China), Meng Li (University of Electronic Science and Technology of China, China), Kun Xiao (University of Electronic Science and Technology of China, China), Lirong Chen (University of Electronic Science and Technology of China, China), Lei Luo (University of Electronic Science and Technology of China, China), and Rui Xu (China Mobile IoT, China)</i>	
A Survey of Obfuscation and Deobfuscation Techniques in Android Code Protection .....	40
<i>Runsheng Guo (Guangzhou University, China), Qichao Liu (Zhengzhou electronic&amp;information engineering school, China), Man Zhang (Pengcheng Laboratory, China), Ning Hu (Guangzhou University, China), and Hui Lu (Guangzhou University, China)</i>	
A Survey on Data Poisoning Attacks and Defenses .....	48
<i>Jiaxin Fan (Guangzhou University, China), Qi Yan (Guangzhou University, China), Mohan Li (Guangzhou University, China; Peng Cheng Laboratory, China), Guanqun Qu (GDCERT/CC, China), and Yang Xiao (Shenzhen Broadton Intelligent Technology Co., Ltd, China)</i>	
Model Checking for Microarchitectural Data Sampling Security .....	56
<i>Qian Ke (Beijing University of Posts and Telecommunications, China; Tsinghua University, China), Chunlu Wang (Beijing University of Posts and Telecommunications, China), Haixia Wang (Tsinghua University, China), Yongqiang Lyu (Tsinghua University, China), Zihan Xu (Tsinghua University, China), and Dongsheng Wang (Tsinghua University, China)</i>	

## Session 3: Cyberspace Security II

MANAGE: A Novel Malware Evolution Model Based on Digital Genes .....	64
<i>Yu Zhang (Polytechnic Normal University, China), Qingzhong Liu (Sam Houston State University, China), and Yuanquan Shi (Huaihua University, China)</i>	

Automated Crash Analysis and Exploit Generation with Extendable Exploit Model .....	71
<i>Zhehui Liu (Beijing University of Posts and Telecommunications, China), Zhongru Wang (Chinese Academy of Cyberspace Studies, China; North China University of Technology, China), Yuntao Zhang (Beijing University of Posts and Telecommunications, China), Tong Liu (Beijing University of Posts and Telecommunications, China), Binxing Fang (Beijing University of Posts and Telecommunications, China), and Zhengyuan Pang (Beijing DigApis Technology Co., Ltd, China; JiangSu DigApis Technology Co., Ltd, China)</i>	
WREP: A Lightweight Event Real-Time Processing Engine for IoT .....	79
<i>Lei Feng (Guangzhou University, China), Yuanfei Zhang (Guangzhou University, China), Zhiqiang Hao (China Industrial Control Systems Cyber Emergency Response Team, China), and Chonghua Wang (China Industrial Control Systems Cyber Emergency Response Team, China)</i>	
A Hierarchical Terminal Recognition Approach Based on Network Traffic Analysis .....	86
<i>Lingzi Kong (Beijing University of Posts and Telecommunications, China), Daoqi Han (Beijing University of Posts and Telecommunications, China), Junmei Ding (Beijing University of Posts and Telecommunications, China), Mingrui Fan (Beijing University of Posts and Telecommunications, China), and Yueming Lu (Beijing University of Posts and Telecommunications, China)</i>	

## Session 4: Cyberspace Security III

A Virtualization-Based Security Architecture for Industrial Control Systems .....	94
<i>Yuqiang Zhang (Guangzhou University, China), Zhiqiang Hao (China Industrial Control Systems Cyber Emergency Response Team, China), Ning Hu (Guangzhou University, China), Jiawei Luo (Guangzhou University, China), and Chonghua Wang (China Industrial Control Systems Cyber Emergency Response Team, China)</i>	
Research and Application of Intelligent Vehicle Cybersecurity Threat Model .....	102
<i>Haitao Zhang (University of Electronic Science and Technology of China, China), Lei Luo (University of Electronic Science and Technology of China, China), Ruikun Li (University of Electronic Science and Technology of China, China), Jiajia Yi (University of Electronic Science and Technology of China, China), Yun Li (Guangdong Vecentek Information Technology Co., China), and Lirong Chen (University of Electronic Science and Technology of China, China)</i>	
SMRT:An Effective Malicious Node Resistance Design for Mixnets .....	110
<i>Jincai Zou (Guangzhou University, China), Zhihan Tan (Guangzhou University, China), Yaya Huang (Guangzhou University, China), Yixing Chen (Guangzhou University), Yuqiang Zhang (Guangzhou University, China), and Ning Hu (Peng Cheng Laboratory, China)</i>	
Stealth: A Heterogeneous Covert Access Channel for Mix-net .....	118
<i>Yixing Chen (Guangzhou University, China), Yuqiang Zhang (Guangzhou University, China), Jincai Zou (Guangzhou University, China), Zhihan Tan (Guangzhou University, China), Yaya Huang (Guangzhou University, China), and Ning Hu (Peng Cheng Laboratory, China)</i>	

## Session 5: Deep Learning Algorithms and Applications I

An Asterisk-Shaped Patch Attack for Object Detection .....	126
<i>Fashan Dong (Guangzhou University, China), Binyue Deng (Guangzhou University, China), Haiyang Yu (Guangzhou University, China), Wenrong Xie (Guangzhou University, China), Huawei Xu (The 5th Electronic Research Institute, Ministry of Industry and Information Technology, China; Laboratory of MIT for Intelligent Products Testing and Reliability, China), and Zhaoquan Gu (Guangzhou University, China; Peng Cheng Laboratory, China; National University of Defense Technology, China)</i>	
Multiple Sequential Network Attacks Detection Based on DTW-HMM .....	134
<i>Haitian Liu (National University of Defense Technology, China), Rong Jiang (National University of Defense Technology, China), Bin Zhou (National University of Defense Technology, China), Xing Rong (China Electronic Device Systems Engineering Corporation, China), Juan Li (China Information Technology Security Evaluation Center, China), and Aiping Li (National University of Defense Technology, China)</i>	
Knowledge Graph of Artificial Intelligence in Medicine: A Scientometric Analysis .....	142
<i>Jinlei Liu (Guang'anmen Hospital, China Academy of Chinese Medical Sciences, China), Wenchao Dan (Beijing Hospital of Traditional Chinese (Graduate School of Beijing University of Chinese Medicine), China), Nuo Cheng (Guang'anmen Hospital, China Academy of Chinese Medical Sciences, China), Wenjing Lian (Guang'anmen Hospital, China Academy of Chinese Medical Sciences, China), Peirong Qu (Guang'anmen Hospital, China Academy of Chinese Medical Sciences, China), Hui Zhang (Guang'anmen Hospital, China Academy of Chinese Medical Sciences, China), Yuling Zha (Guang'anmen Hospital, China Academy of Chinese Medical Sciences, China), and Jie Wang (Guang'anmen Hospital, China Academy of Chinese Medical Sciences, China)</i>	
End-to-end Training Image-Text Matching Network .....	154
<i>Depeng Wang (China Mobile Research Institute, China), Yibo Sun (China Mobile Research Institute, China), and Hong Chen (China Mobile Research Institute, China)</i>	

## Session 6: Deep Learning Algorithms and Applications II

Topic Modeling for Short Texts Via Dual View Collaborate Optimization .....	160
<i>Wei Liu (Beijing University of Posts and Telecommunications, China), Yutao Huang (Harbin Institute of Technology, China), Yibing Guo (Harbin Institute of Technology, China), Ye Wang (Harbin Institute of Technology, China; Peng Cheng Laboratory, China), Binxing Fang (Chinese Academy of Engineering, China), and Qing Liao (Harbin Institute of Technology, China; Peng Cheng Laboratory, China)</i>	

NMI-FGSM-Tri: An Efficient and Targeted Method for Generating Adversarial Examples for Speaker Recognition .....	167
<i>Junjian Zhang (Guangzhou University, China), Hao Tan (Guangzhou University, China), Binyue Deng (Guangzhou University, China), Jiacen Hu (University of Science and Technology Beijing, China), Linyi Huang (The 5th Electronic Research Institute Ministry of Industry and Information Technology, China), and Zhaoquan Gu (Guangzhou University, China; Peng Cheng Laboratory, China; National University of Defense Technology, China)</i>	
TFHM : A Traffic Feature Hiding Scheme Based on Generative Adversarial Networks .....	175
<i>Yaya Huang (Guangzhou University, China), Jincui Zou (Guangzhou University, China), Yixing Chen (Guangzhou University, China), Zhihan Tan (Guangzhou University, China), Yuqiang Zhang (Guangzhou University, China), and Ning Hu (Peng Cheng Laboratory, China)</i>	

## Session 7: Network Attack and Defense

Anomaly Detection from Log Data Sequences with Perturbations .....	183
<i>Yixiang Chen (Guangzhou University, China), Linhao Ye (Guangzhou University, China), Yufeng Ye (Guangzhou University, China), Peng Zhang (Guangzhou University, China), and Qinfeng Tan (Guangzhou University, China)</i>	
A DNS-Based Data Exfiltration Traffic Detection Method for Unknown Samples .....	191
<i>Ruiling Gan (QI-ANXIN Technology Group, China), Jiawen Diao (Key Laboratory of Trustworthy Distributed Computing and Service (Beijing University of Posts and Telecommunications), Ministry of Education, China), Xiang Cui (Cyberspace Institute Advanced Technology, Guangzhou University, China), and Shouyou Song (Beijing DigApis Technology Co., Ltd, China)</i>	
A Method of Network Traffic Anomaly Detection Based on Packet Window Transformer .....	199
<i>Cheng Fang (Civil Aviation University of China, China), Wenjie Mi (Civil Aviation University of China, China), Ping Han (Civil Aviation University of China, China), and Lidong Zhai (Institute of Information Engineering, Chinese Academy of Sciences, China)</i>	
Light-Weight Unsupervised Anomaly Detection for Encrypted Malware Traffic .....	206
<i>Shangbin Han (Beihang University, China), Qianhong Wu (Beihang University, China), Han Zhang (Tsinghua University, China), and Bo Qin (Renmin University of China, China)</i>	

## Session 8: Intelligent System

Research on Industrial Robot System Security Based on Industrial Internet Platform .....	214
<i>Xiao Gong (China Software Testing Center, Guilin University of Electronic Technology, China), Mengwei Li (China Software Testing Center, Guilin University of Electronic Technology, China), Zhengbin Zhao (China Software Testing Center, Guilin University of Electronic Technology, China), and Dengqi Cui (China Software Testing Center, Guilin University of Electronic Technology, China)</i>	

Privacy Protection Management Model for Internet of Things Data .....	219
<i>Yundan Yang (Beijing University of Posts and Telecommunications, China), Fenghui Duan (Beijing University of Posts and Telecommunications, China), Maosheng Zhang (Beijing University of Posts and Telecommunications, China), Junjie Liu (Beijing University of Posts and Telecommunications, China), Jin Li (Beijing University of Posts and Telecommunications, China), and Yueming Lu (Beijing University of Posts and Telecommunications, China)</i>	
Optimizing Diffusion Layer with AVX Shuffling: A Study on SKINNY .....	227
<i>Jinhai Chen (South China Normal University, China), Zheng Gong (South China Normal University, China), Yufeng Tang (South China Normal University, China), Yupeng Zhang (South China Normal University, China), and Bin Li (South China Normal University, China)</i>	
Automated Vulnerability Discovery System Based on Hybrid Execution .....	234
<i>Tong Liu (Beijing University of Posts and Telecommunications, China), Zhongru Wang (Chinese Academy of Cyberspace Studies, China; North China University of Technology, China), Yuntao Zhang (Beijing University of Posts and Telecommunications, China), Zhehui Liu (Beijing University of Posts and Telecommunications, China), Binxing Fang (Beijing University of Posts and Telecommunications, China), and Zhengyuan Pang (Beijing DigApis Technology Co., Ltd, China; Jiangsu DigApis Technology Co., Ltd, China)</i>	

## Session 9: Data Mining I

A Method Combining Text Classification and Keyword Recognition to Improve Long Text Information Mining .....	242
<i>Lang Liu (CPIC, China), Yuejiao Wu (CPIC, China), Lujun Yin (CPIC, China), Junxiang Ren (CPIC, China), Ruiling Song (CPIC, China), and Guoqiang Xu (CPIC, China)</i>	
Defense Against Query-Based Black-Box Attack With Small Gaussian-Noise .....	249
<i>Ziqi Zhu (Guangzhou University, China), Bin Zhu (Guangzhou University, China), Huan Zhang (Guangzhou University, China), Yu Geng (Xidian University, Xi'an, China), Le Wang (Guangzhou University, China; Peng Cheng Laboratory, China; National University of Defense Technology, China), Denghui Zhang (Guangzhou University, China; National University of Defense Technology, China), and Zhaoquan Gu (Guangzhou University, China; Peng Cheng Laboratory, China; National University of Defense Technology, China)</i>	

## Session 10: Data Mining II

A Novel Tri-Training Algorithm Based on Evidence Theory .....	257
<i>Hongshun He (China Mobile Communications Research Institute, China), Zhipeng Zhang (China Mobile Communications Research Institute, China), Lei Yang (China Mobile Communications Research Institute, China), Yang Li (China Mobile Communications Research Institute, China), and Jiakang Shi (China Mobile Communications Research Institute, China)</i>	

Anchor Graph Semi-Supervised Learning Method Based on Evidence Theory .....	262
<i>Hongshun He (China Mobile Communications Research Institute, China), Wei Yu (China Mobile Communications Research Institute, China), Lei Yang (China Mobile Communications Research Institute, China), Yang Li (China Mobile Communications Research Institute, China), and Luyu Sun (China Mobile Communications Research Institute, China)</i>	
The Power Analysis Based on Mean–Ridge Regression .....	268
<i>Xiaonian Wu (Guilin University of Electronic Technology, China), Nian Tong (Guilin University of Electronic Technology, China), Ruanlian Zhang (Guilin University of Electronic Technology, China), and Yongzhuang Wei (Guilin University of Electronic Technology, China)</i>	
FAVT: A Feature-Anchored Video Data Trading Mechanism .....	275
<i>Jiashun Zhou (Information Engineering University, China), Na Wang (Information Engineering University, China), Aodi Liu (Information Engineering University, China), and Xuehui Du (Information Engineering University, China)</i>	

## **Session 11: Data Security and Privacy**

A Data Encoding Method for Multipath Anonymous Transmission .....	283
<i>Zhihan Tan (Guangzhou University, China), Yaya Huang (Guangzhou University, China), Yixing Chen (Guangzhou University, China), Yuqiang Zhang (Guangzhou University, China), Jincal Zou (Guangzhou University, China), and Ning Hu (Peng Cheng Laboratory, China)</i>	
Research on One-way Data Transmission Technology Based on RDMA .....	291
<i>Yuanpeng Yang (Jiangnan University, China), Hongbo Wang (R&amp;D Center TRS Topwalk Information Technology Co., Ltd., China), Xiaofeng Wang (Jiangnan University, China), and Yuan Liu (Jiangnan University, China)</i>	
Research on the Characteristics and Security Risks of the Internet of Vehicles Data .....	299
<i>Jun Sun (China Industrial Control System Cyber Emergency Response Team, China), Dong Liu (China Industrial Control System Cyber Emergency Response Team, China), Yang Liu (China Industrial Control System Cyber Emergency Response Team, China), Chuang Li (University of Electronic Science and Technology of China, China), and Yumeng Ma (China Industrial Control System Cyber Emergency Response Team, China)</i>	
An Efficient Anonymous Authentication and Supervision System Based on Blockchain .....	306
<i>Weiyu Liang (Guilin University of Electronic Technology, China), Yujue Wang (Guilin University of Electronic Technology, China), Yong Ding (Guilin University of Electronic Technology, China; Cyberspace Security Research Center, China), Haibin Zheng (Beihang University, China), Hai Liang (Guilin University of Electronic Technology, China), and Huiyong Wang (Guilin University of Electronic Technology, China)</i>	

## Workshop Accepted Papers

### Multi-Dimensional Data Association and Intelligent Analysis (MDATA 2022)

Hybrid Butterfly Optimization Algorithm-based Support Vector Machine for Botnet Command-and-Control Channel Detection .....	314
<i>Kai Chen (Huazhong University of Science and Technology, China), Jietong Su (Huazhong University of Science and Technology, China), Lansheng Han (Huazhong University of Science and Technology, China), Pengyi Gao (Huazhong University of Science and Technology, China), and Shenghui Li (Huazhong University of Science and Technology, China)</i>	
Data Traceability Scheme of Industrial Control System Based on Digital Watermark .....	322
<i>Jun Sun (China Industrial Control Systems Cyber Emergency Response Team, China), Yang Li (China Industrial Control Systems Cyber Emergency Response Team, China), Ge Zhang (China Industrial Control Systems Cyber Emergency Response Team, China), Liangyu Dong (China Industrial Control Systems Cyber Emergency Response Team, China), Zitao Yang (China Industrial Control Systems Cyber Emergency Response Team, China), Mufeng Wang (China Industrial Control Systems Cyber Emergency Response Team, China), and Jiahe Cai (China Industrial Control Systems Cyber Emergency Response Team, China)</i>	
Design and Implementation of Network Traffic Analysis System for Power Grid Metering System .....	326
<i>Tao Liu (Shenzhen Power Supply Co. Ltd, China), Honghao Liang (Shenzhen Power Supply Co. Ltd, China), Xiaowei Chen (Shenzhen Power Supply Co. Ltd, China), Zimeng Li (Beijing University of Posts and Telecommunications, China), Lingzi Kong (Beijing University of Posts and Telecommunications, China), Jin Li (Beijing University of Posts and Telecommunications, China), and Yueming Lu (Beijing University of Posts and Telecommunications, China)</i>	
Modeling Unseen Entities from a Semantic Evidence View in Temporal Knowledge Graphs .....	333
<i>Chen Guo (Guangzhou University, China), Tianxiu Wang (Beijing Aerospace Automatic Control Institute, China), Yang Lin (Guangzhou University, China), Hao Chen (Guangzhou University, China), Haiyang Yu (Guangzhou University, China), Chengwei Zhu (Guangzhou University, China), and Jing Qiu (Guangzhou University, China)</i>	
A Survey on Threat Hunting: Approaches and Applications .....	340
<i>Lei Chen (National University of Defense Technology, China), Rong Jiang (National University of Defense Technology, China), Changjian Lin (National University of Defense Technology, China), and Aiping Li (National University of Defense Technology, China)</i>	
SpeechHide: A Hybrid Privacy-Preserving Mechanism for Speech Content and Voiceprint in Speech Data Sharing .....	345
<i>Yu Hu (Guangzhou University, China), Ran Li (Guangzhou University, China), Simin Wang (Guangzhou University, China; Peng Cheng Laboratory, China), Fuqiang Tao (Guangzhou University, China), and Zhe Sun (Guangzhou University, China)</i>	

## Vulnerability Analysis and Adversarial Learning (VAAL 2022)

Lisp-TBCNN: An AutoCAD Malware Detection Approach .....	353
<i>Huanyu Chi (Nankai University, China), Zekun Fei (Nankai University, China), Peinuo Li (Nankai University, China), Boyu Yang (Nankai University, China), Zhi Wang (Nankai University, China), and Li Gu (Nankai University, China)</i>	
AISLE: Self-Supervised Representation Learning for the Investigation of Advanced Persistent Threat .....	360
<i>Zian Jia (Fudan University, China), Xiaosu Wang (Fudan University, China), Yun Xiong (Fudan University, China), Yao Zhang (Fudan University, China), and JinJing Zhao (National Key Laboratory of Science and Technology on Information System Security, China)</i>	
Fuzzing DBMS via NNLM .....	367
<i>Yabin Li (Beijing University of Posts and Telecommunications, China), Yuanping Nie (National Key Laboratory of Science and Technology on Information System, China), and Xiaohui Kuang (National Key Laboratory of Science and Technology on Information System, China)</i>	
A Survey of Human-Machine Collaboration in Fuzzing .....	375
<i>Qian Yan (National Key Laboratory of Science and Technology on Information System Security Beijing, China), Minhuan Huang (National Key Laboratory of Science and Technology on Information System Security Beijing, China), and Huayang Cao (National Key Laboratory of Science and Technology on Information System Security Beijing, China)</i>	
An Automatic Code Generation Method Based on Sequence Generative Adversarial Network .....	383
<i>Hanwen Sun (National Key Laboratory of Science and Technology on Information System Security, China), Yuanping Nie (National Key Laboratory of Science and Technology on Information System Security, China), Xiang Li (National Key Laboratory of Science and Technology on Information System Security, China), Minhuan Huang (National Key Laboratory of Science and Technology on Information System Security, China), Jianwen Tian (National Key Laboratory of Science and Technology on Information System Security, China), and Wei Kong (National Key Laboratory of Science and Technology on Information System Security, China)</i>	
NAFuzzer: Augmenting Network Protocol Fuzzers via Automatic Template and Seed Generation .....	391
<i>Ke Yan (National University of Defense Technology, China), Bo Yu (National University of Defense Technology, China), Yong Tang (National University of Defense Technology, China), Xiangdong Kong (National University of Defense Technology, China), Chen Chen (National University of Defense Technology, China), and Jin Lei (National University of Defense Technology, China)</i>	
DeepCov: Coverage Guided Deep Learning Framework Fuzzing .....	399
<i>Jiawei Wu (University of Electronic Science and Technology of China, China), Senyi Li (University of Electronic Science and Technology of China, China), Junqiang Li (University of Electronic Science and Technology of China, China), Long Luo (University of Electronic Science and Technology of China, China), Hongfang Yu (University of Electronic Science and Technology of China, China), and Gang Sun (University of Electronic Science and Technology of China, China)</i>	

## Network Security Analysis for Cyberspace (NSAC 2022)

Network Security Intrusion Detection and Mass Alarms Under Cluster Computing Platform .....	405
<i>Feng Li (Xinjiang Electric Power Co., Ltd, China), Fei Shu (Xinjiang Electric Power Co., Ltd, China), Mingxuan Li (Xinjiang Electric Power Co., Ltd, China), and Bin Wang (Xinjiang Electric Power Co., Ltd, China)</i>	
Cross-Security Domain Dynamic Orchestration Algorithm of Network Security Functions .....	413
<i>Weidong Xiao (Beijing University of Post and Telecommunications, China), Xu Zhang (Beijing University of Post and Telecommunications, China), and Dongbin Wang (Beijing University of Post and Telecommunications, China)</i>	
AGDB: A Dictionary-Based Malicious Domain Detection Method Based on Representation Fusion	420
<i>You Zhai (Beihang University, China), Hao Dong (Beihang University, China), Zhoujun Li (Beihang University, China), Liqun Yang (Beihang University, China), and Longtao He (National Computer Network Emergency Response Technical Team/Coordination Center of China, China)</i>	
A Hybrid Routing Mutation Mechanism Based on Mutation Cost and Resource Trustworthiness in Network Moving Target Defense .....	426
<i>Kun Guo (Beijing University of Posts and Telecommunications, China), Yibo Gao (Beijing University of Posts and Telecommunications, China), Dongbin Wang (Beijing University of Posts and Telecommunications, China), Hui Zhi (TravelSky Technology Limited, China), Tao Zhang (China Academy of Launch Vehicle Technology, China), and Yueming Lu (Beijing University of Posts and Telecommunications, China)</i>	
FLYFDetect: A Smart Home Privacy Protection Framework via Federated Learning .....	432
<i>Bing Chen (Guangzhou University, China), Yaping Liu (Guangzhou University, China), Shuo Zhang (Guangzhou University, China), Jie Chen (Guangzhou University, China), and Zhiyu Han (Guangzhou University, China)</i>	
Security Evaluation Model of Blockchain System Based on Combination Weighting and Grey Clustering .....	440
<i>Jiahao Qi (Beijing University of Posts and Telecommunications, China), Ziyu Guo (Beijing University of Posts and Telecommunications, China), Yueming Lu (Beijing University of Posts and Telecommunications, China), Jiaqi Gao (Beijing University of Posts and Telecommunications, China), Yihong Guo (Beijing University of Posts and Telecommunications, China), and Fanyao Meng (Beijing University of Posts and Telecommunications, China)</i>	
TLD-WF: Surfing Freely Under Website Fingerprinting Attacks .....	448
<i>Ling Liu (Guangzhou University, China), Xin Liu (Changsha University, China), Yue Zhao (Science and Technology on Communication Security Laboratory, China), and Ning Hu (Peng Cheng Laboratory, China)</i>	

## Big Data and Business Analytics (BDBA 2022)

MASCA: A Multimodal Abstractive Summarization Model Based on Core Words Fusion Attention .... 455

*Xiaohan Yin (Beijing University of Posts and Telecommunications, China), Lijuan Sun (Beijing University of Posts and Telecommunications, China), Jingchen Wu (Beijing University of Posts and Telecommunications, China), Yutong Gao (Beijing Jiaotong University, China), Xu Wu (Beijing University of Posts and Telecommunications, China), and Lirong Qiu (Beijing University of Posts and Telecommunications, China)*

TAFM: Topic-Attention FM-Encoder for Text Generation ..... 462

*Dongye He (Key Laboratory of Trustworthy Distributed Computing and Service, Ministry of Education; Beijing University of Posts and Telecommunications, China), Lijuan Sun (Key Laboratory of Trustworthy Distributed Computing and Service, Ministry of Education; Beijing University of Posts and Telecommunications, China), Jingchen Wu (Key Laboratory of Trustworthy Distributed Computing and Service, Ministry of Education; Beijing University of Posts and Telecommunications, China), Yutong Gao (Beijing Jiaotong University, China), Xu Wu (Key Laboratory of Trustworthy Distributed Computing and Service, Ministry of Education; Beijing University of Posts and Telecommunications, China), and Lirong Qiu (Key Laboratory of Trustworthy Distributed Computing and Service, Ministry of Education; Beijing University of Posts and Telecommunications, China)*

Adversarial Example Attacks Against ASR Systems: An Overview ..... 470

*Xiao Zhang (Guangzhou University, China; Peng Cheng Laboratory, China), Hao Tan (Guangzhou University, China; Peng Cheng Laboratory, China), Xuan Huang (The 5th Electronic Research Institute, Ministry of Industry and Information Technology, China; Labaoratory of MIIT for Intelligent Products Testing and Reliability, China), Denghui Zhang (Guangzhou University, China), Keke Tang (Guangzhou University, China), and Zhaoquan Gu (Guangzhou University, China; Peng Cheng Laboratory, China; National University of Defense Technology, China)*

Prediction of Real Popularity Based on Sample Debias ..... 478

*Liang Li (National University of Defense Technology, China), Liqun Gao (National University of Defense Technology, China), Feng Xie (National University of Defense Technology, China), and Bin Zhou (National University of Defense Technology, China)*

Leveraging Multi-Aspect Semantics for Conversation Structure Modeling ..... 483

*Tuwen Guo (Beijing University of Posts and Telecommunications, China), Xi Zhang (Beijing University of Posts and Telecommunications, China), and Lirong Qiu (Beijing University of Posts and Telecommunications, China)*

## Situation Awareness Analysis for Cyberspace Security (SAACS 2022)

A Combined-CNN Model of TLS Traffic Recognition and Classification ..... 491

*Yunfan Tian (China Telecom Research Institute, China), Dongxin Liu (China Telecom Research Institute, China), Laifu Wang (China Telecom Research Institute, China), and Bowen Hu (China Telecom Group Corporation, China)*

A Review of Provenance Graph Based APT Attack Detection: Applications and Developments .....	498
<i>Yang Lv (Guangzhou University, China), Shaona Qin (Zhaoyuan NO.1 Secondary Vocational School, China), Zifeng Zhu (Guangzhou University, China), Zhuocheng Yu (Guangzhou University, China), Shudong Li (Guangzhou University, China; Peng Cheng Laboratory, China), and Weihong Han (Guangzhou University, China; Peng Cheng Laboratory, China)</i>	
A Novel Framework For Malicious Encrypted Traffic Classification At Host Level And Flow Level .....	506
<i>Haitao Zhang (University of Electronic Science and Technology of China, China), Lei Luo (University of Electronic Science and Technology of China, China), Yun Li (Guangdong Vecentek Information Technology Co., Ltd., China), Lirong Chen (University of Electronic Science and Technology of China, China), and Xiaobo Wu (Guangzhou University, China)</i>	
A Review of Attribution Technical for APT Attacks .....	512
<i>Yangyang Mei (Guangzhou University, China), Weihong Han (Guangzhou University, China), Shudong Li (Guangzhou University, China), Xiaobo Wu (Guangzhou University, China), Kaihan Lin (Guangzhou University, China), and Yulu Qi (National University of Defense Technology, China)</i>	
A SQL Blind Injection Method Based on Gated Recurrent Neural Network .....	519
<i>Jiahui Zheng (Guangzhou University, China), Junjian Li (Guangzhou University, China), Chao Li Li (Guangzhou University, China), and Ran Li (Guangzhou University, China)</i>	

## **Cybersecurity for Critical Infrastructure Systems (CCIS 2022)**

A Timestamp-Based Covert Data Transmission Method in Industrial Control System .....	526
<i>Jie Lu (Guilin University of Electronic Technology, China), Yong Ding (Guilin University of Electronic Technology, China), Zhenyu Li (Guilin University of Electronic Technology, China), and Chunhui Wang (Guilin University of Electronic Technology, China)</i>	
Research on Lightweight Blockchain Technology Based on Edge Computing .....	533
<i>Maosheng Zhang (Beijing University of Posts and Telecommunications, China), Ruohan Cao (Beijing University of Posts and Telecommunications, China), Fenghui Duan (Beijing University of Posts and Telecommunications, China), Yundan Yang (Beijing University of Posts and Telecommunications, China), Yueming Lu (Beijing University of Posts and Telecommunications, China), Man Zhang (Peng Cheng Laboratory, China), and Xu Lu (Affiliate Cancer Hospital &amp; Institute of Guangzhou Medical University, China)</i>	

Access Control Mechanism for Edge Nodes .....	540
<i>Fenghui Duan (Beijing University of Posts and Telecommunications, China), Yundan Yang (Beijing University of Posts and Telecommunications, China), Maosheng Zhang (Beijing University of Posts and Telecommunication, China), Songqi Wu (Beijing University of Posts and Telecommunications, China), Yueming Lu (Beijing University of Posts and Telecommunications, China), Man Zhang (Peng Cheng Laboratory, China), and Xu Lu (Affiliate Cancer Hospital &amp; Institute of Guangzhou Medical University, China)</i>	

New Integral Distinguishers for I - Present <sup>TM</sup> , TANGRAM and CHAM .....	548
<i>Jun Li (China Industrial Control Systems Cyber Emergency Response Team, China), Xueying Qiu (Guilin University of Electronic Technology), Lingchen Li (Guilin University of Electronic Technology), Chenghui Zhu (Guilin University of Electronic Technology), and Xiaonian Wu (Guilin University of Electronic Technology)</i>	

## **Digital Humanities and Computer Arts (DHCA 2022)**

Display Design Based on Virtual Reality Technology VR-Platform Platform .....	556
<i>Junzhu Zhang (Shunde Polytechnic, China) and Yugao Zheng (Communication University of China, China)</i>	

Research on Multi-Model Fusion for Named Entity Recognition Based on Loop Parameter Sharing Transfer Learning .....	564
<i>Ma Haoran (The 32nd Research Institute of China Electronics Technology Group Corporation, China) and Ding Zhaoyun (National University of Defense Technology, China)</i>	

Classification of Diabetic Retinopathy Based on B-ResNet .....	570
<i>Ying Zhang (Beijing University of Posts and Telecommunications, China)</i>	

A Survey on Knowledge Graph Embedding .....	576
<i>Qi Yan (Guangzhou University, China), Jiaxin Fan (Guangzhou University, China), Mohan Li (Guangzhou University, Guangzhou, China; Peng Cheng Laboratory, China), Guanqun Qu (GDCERT/CC, China), and Yang Xiao (Shenzhen Broadton Intellegent Technology Co., Ltd, China)</i>	

Image Art Innovation Based on Extended Reality Technology .....	584
<i>Feng Ye (Beijing Film Academy, China)</i>	

Application of Virtual Simulation in Digital Exhibition and Performance .....	588
<i>Ling Zou (Beihang University, China) and Jing Li (Tsinghua University, China)</i>	

## **Big Data Mining for Cyberspace (BDMC 2022)**

SATMask: Spatial Attention Transform Mask for Dense Instance Segmentation .....	592
<i>Quanzhong Mao (Beijing University of Posts and Telecommunications, China), Lijuan Sun (Beijing University of Posts and Telecommunications, China), Jingchen Wu (Beijing University of Posts and Telecommunications, China), Yutong Gao (Beijing Jiaotong University, China), Xu Wu (Beijing University of Posts and Telecommunications, China), and Lirong Qiu (Beijing University of Posts and Telecommunications, China)</i>	

The Final Security Problem in IOT : Don't Count on the Canary! .....	599
<i>Qian Zhou (Nanjing University of Posts and Communications, China), Hua Dai (Nanjing University of Posts and Communications, China), Liang Liu (Nanjing University of Aeronautics and Astronautics, China), Kai Shi (30 Institute of CETC, China), Jie Chen (NorthWestern Polytechnical University, China), and Hong Jiang (30 Institute of CETC, China)</i>	
Industrial Defect Detection Through Computer Vision: A Survey .....	605
<i>Yunjie Tang (China Mobile Zijin Innovation Institute, China), Kai Sun (China Mobile Zijin Innovation Institute, China), Danhuaizhao (China Mobile Zijin Innovation Institute, China), Yan Lu (China Mobile Zijin Innovation Institute &amp; Southeast University, China), Jiaju Jiang (China Mobile Zijin Innovation Institute, China), and Hong Chen (China Mobile Research Institute, China)</i>	
VCFN-Video Computing Force Network .....	611
<i>Yichuan Wu (China Mobile Research Institute, China), Meng Guo (China Mobile Research Institute, China), Lei Yang (China Mobile Research Institute, China), and Wei Yu (China Mobile Research Institute, China)</i>	
10 Gigabit Industrial Thermal Data Acquisition and Storage Solution Based on Software-Defined Network .....	616
<i>Ge Zhang (National Industrial Information Security Development Research Center, China), Zheyu Zhang (National Industrial Information Security Development Research Center, China), Jun Sun (National Industrial Information Security Development Research Center, China), Zun Wang (National Industrial Information Security Development Research Center, China), Rui Wang (National Industrial Information Security Development Research Center, China), Shirui Wang (National Industrial Information Security Development Research Center, China), and Chengyun Xie (National Industrial Information Security Development Research Center, China)</i>	

## **Data Governance and Privacy Protection ?DGPP 2022?**

Time-Lock Encryption for Multiple Consecutive Periods and its Application .....	620
<i>Yuewu Lian (Guilin University of Electronic Technology, China), Haitao Zhan (Guilin University of Electronic Technology, China), Peiheng Zhang (Guilin University of Electronic Technology, China), and Mingwu Zhang (Guilin University of Electronic Technology, China)</i>	
Secure Outsourced VANET Data in Clouds with Designated Supervisor .....	627
<i>Meng Zhao (Guilin University of Electronic Technology, China), Yong Ding (Guilin University of Electronic Technology, China; Cyberspace Security Research Center, China), Tong Zhang (Guilin University of Electronic Technology, China), and Xiaochun Zhou (Shenzhen OLYM Information Security Technology Co. Ltd., China)</i>	
Information Dissemination Model of Recommendation Platform Based on Network Community ..	633
<i>Riming Wu (Police Force Engineering University, China), Yiliang Han (Police Force Engineering University, China), Kaiyang Guo (Police Force Engineering University, China), and Kai Liu (Police Force Engineering University, China)</i>	

A Novel Mobile Instant Messaging System .....	642
<i>Yichuan Wu (China Mobile Research Institute, China), Jianping Zheng (China Mobile Research Institute, China), and Meng Guo (China Mobile Research Institute, China)</i>	
DESEND : A Fast Device Event Signature Extraction And Detection Method for Smart Home .....	646
<i>Jie Chen (GuangZhou University, China), Yaping Liu (GuangZhou University, China), Shuo Zhang (Guangzhou University, China), Zebin Guo (Guangzhou University, China), Bing Chen (Guangzhou University, China), and Zhiyu Han (Guangzhou University, China)</i>
