2022 International Conference on Culture- Oriented Science and Technology (CoST) CoST 2022

Table of Contents

Message from the General Chairs	xvi
Message from the Program Chairs	xvii
Organizing Committee	xviii
Reviewers List	xix
Sponsors and Supporters	xxi

2022 International Conference on Culture-Oriented Science and Technology (CoST)

A Prediction Method for Dimensional Sentiment Analysis of the Movie and TV Drama Based on Variable-Length Sequence Input	1
<i>Chunxiao Wang (Communication University of China, China), Jingjing Zhang (Communication University of China, China), Lihong Gan (Zhejiang Dafeng sports equipment Co), and Wei Jiang (Communication University of China, China)</i>	
Ceramic Type Recognition Algorithm Based on Ontology Modeling and Transfer Learning	6
<i>Yang Yang (Communication University of Zhejiang, China), Hui Wu (Communication University of Zhejiang, China), Dingguo Yu (Communication University of Zhejiang, China), and Chen Yang (Hangzhou Vocational and Technical College, China)</i>	
An Image Selection Method for Image Representation of Tourism Destination Based on Comment Text and Image Data	11
<i>Xiaojia Huang (Lanzhou University, China), Yong Yang (Lanzhou University, China), Yi Yang (Lanzhou University, China), Chen Wang (Sun Yat-sen University, China), and Liang Guo (Lanzhou University, China)</i>	
A Data-Driven Method of Analyzing the Law of Short Video International Propagation	16
<i>Jin Bao Song (Communication University of China, China), Jing Liu (Communication University of China, China), Ruyi Deng (Communication University of China, China), Di Huang (Communication University of China, China), Yu He (Communication University of China, China), and Xiangyu Sun (Communication University of China, China)</i>	

Study on Time-Sharing Reservation Recommendation System of Scenic Spots Based on Relationship Graph	20
<i>Caihong Li (Lanzhou University, China), Linjie Luo (Lanzhou University, China), Xiaojia Huang (Lanzhou University, China), Haoyin Lv (Longdong University, China), and Mian Qin (Lanzhou University, China)</i>	
Split-Based Feedback Network for Image Super-Resolution	25
<i>Hongyang Zhou (University of Science and Technology Beijing), Yi Ma (Baijia Cloud Group Co. LTD), Yan Ma (Academy of Broadcasting Science, NRTA), and Xiaobin Zhu (University of Science and Technology Beijing)</i>	
A QoE Prediction Model Combining Network Parameters and Video Quality	31
<i>Jinfan Zhao (Communication University of China, China), Shufeng Li (Communication University of China, China), and Feng Hu (Communication University of China, China)</i>	
A DTCWT-SVD Based Video Watermarking Resistant to Frame Rate Conversion	36
<i>Yifei Wang (Fudan University, China), Qichao Ying (Fudan University, China), Yunlong Sun (Fudan University, China), Zhenxing Qian (Fudan University, China), and Xinpeng Zhang (Fudan University, China)</i>	
Design and Implementation of Text Processing System Based on Summarization Algorithm	41
<i>Haoqi Sun (Capital Normal University, China), Ning Luo (Hainan University, China), Lijuan Zhou (Hainan University, China), and Songwei Wei (Capital Normal University, China)</i>	
Text-Based Talking Facial Synthesis for Virtual Host System	45
<i>Yijie Zhou (Institute of Intelligent Media Technology, Communication University of Zhejiang; Lab of Film and TV Media Technology of Zhejiang Province), Gang Wu (JianDe City Converged Media Center), Qiang Lin (Institute of Intelligent Media Technology, Communication University of Zhejiang; Lab of Film and TV Media Technology of Zhejiang Province), Dingguo Yu (Communication University of Zhejiang; Zhejiang Lab, China), and Hui Wu (Institute of Intelligent Media Technology, Communication University of Zhejiang; Lab of Film and TV Media Technology of Zhejiang Province)</i>	
Real-Time Human-Music Emotional Interaction Based on Multimodal Analysis	49
<i>Tianyue Jiang (Nanjing University, China), Sanhong Deng (Nanjing University, China), Peng Wu (Nanjing University of Science and Technology, China), and Haibi Jiang (Nanjing University of Science and Technology, China)</i>	
PSTNet: Protectable Style Transfer Network Based on Steganography	54
<i>Yuliang Xue (Fudan University, China), Nan Zhong (Fudan University, China), Zhenxing Qian (Fudan University, China), and Xinpeng Zhang (Fudan University, China)</i>	
Prediction of Freeway Self-Driving Traffic Flow Based on Bidirectional GRU Recurrent Neural Network	60
<i>Yubo Deng (Lanzhou University, China), Yu Zhang (Lanzhou University, China), Haoyin Lv (Longdong University, China), Yi Yang (Lanzhou University, China), and Yongchen Wang (Lanzhou University, China)</i>	

Design of Intelligent Medicine Box for Visually Impaired People Based on QFD and TRIZ Theory	64
<i>Yaxi Wang (WuHan Institute Of Technology, China) and Wenting Liang (WuHan Institute Of Technology, China)</i>	
Analysis of Emotional Influencing Factors of Online Travel Reviews Based on BiLSTM-CNN	69
<i>Wenheng Sun (Lanzhou University, China), Wan Qiu (Lanzhou University, China), Xiaojia Huang (Lanzhou University, China), Jianming Hu (Guangzhou University, China), and Tianyuan Wu (Lanzhou University, China)</i>	
Machine Learning Based Personalized Movie Research and Implementation of Recommendation System	74
<i>Xianting Feng (Guangzhou University, China), Jianming Hu (Guangzhou University, China), and Xin Zhu (Guangzhou University, China)</i>	
CT-DA: A Knowledge Extraction Method for Cultural Industry Big Data	79
<i>Shouzhi Sun (University of Liaoning, China), Jiali Wang (University of Liaoning, China), Zheng Gong (University of Liaoning, China), Aiping Tan (University of Liaoning, China), and Yan Wang (University of Liaoning, China)</i>	
Design of the Retractable Theater Auditorium Using SolidWorks	85
<i>Siyuan Pan (Communication University of China, China) and Sijin Song (Liaoning University, China)</i>	
Innovation and Prospect of Digital Scene Setting in the Context of Metaverse	90
<i>Yusu Li (Jilin Animation Institute, China), Shuang Zhao (Jilin University of Arts, China), and Jiajia Zhang (Guilin University of Electronic Technology, China)</i>	
Design of Intelligent Household Food Waste Product Based on AHP-TRIZ Method	95
<i>Shuyun Wang (Southeast University, China) and Jifeng Xu (Southeast University, China)</i>	
Automatic Image Generation of Peking Opera Face Using StyleGAN2	99
<i>Xiaoyu Xin (Communication University of China, China), Yinghua Shen (Communication University of China, China), Rui Xiong (Communication University of China, China), Xiahao Lin (Center for Ethnic and Folk Literature and Art Development, China), Ming Yan (Communication University of China, China), and Wei Jiang (Communication University of China, China)</i>	
A System Design Method Model for Regulating the Safe Riding Behavior of Delivery Riders Based on Fogg's Behavior Model	104
<i>Jifeng Xu (Southeast University, China), Dan Zhao (Southeast University, China), Tian Fang (Southeast University, China), Shuyun Wang (Southeast University, China), and Tong Wu (Southeast University, China)</i>	
A Vision Enhancement Network for Image Quality Assessment	109
<i>Xinyu Jiang (Communication University of China, China), Jiangbo Xu (Communication University of China, China), and Ruoyu Zou (Communication University of China, China)</i>	

The Impact of Technology in Educational Resources: A Survey and New Perspectives	114
<i>Dongpo Guo (Hubei Communication Technical College Wuhan, China), Jintao Suo (Changping School Attached to Beijing Normal University, China), Qihui Hu (Zhejiang Normal University, China), and Chao Duan (Normal University Jinhua, China)</i>	
Usability Study of Railroad 12306 Love Edition Application Based on User Experience	119
<i>Yaxi Wang (Wuhan Institute Of Technology, China), Ziyun Tong (Wuhan Institute Of Technology, China), Xin Chen (Wuhan Institute Of Technology, China), and Yuyang Wang (Nanchang Hikvision Digital Technology Co., Ltd., China)</i>	
Research on the Promotion Strategy of Dong Village Cultural Tourism from the Perspective of Cultural Gene	125
<i>Haifeng Chu (Guilin University Of Electronic Technology, China), Shuhua Huang (Guilin University Of Electronic Technology, China), and Chenglong Tang (Guilin University Of Electronic Technology, China)</i>	
Deep Sentiment Analysis of the Feelings Expressed by Tourists Based on BERT Model	130
<i>Ming Wang (Communication University of China, China) and Ying Yu (Communication University of China, China)</i>	
A Model Conversion Algorithm from URDF to DH for Camera Robot	134
<i>Jingjie He (Academy of Artificial Intelligence Beijing Institute of Petrochemical Technology, China), Mingwu Zhang (Academy of Artificial Intelligence Beijing Institute of Petrochemical Technology, China), Feng Xu (Academy of Artificial Intelligence Beijing Institute of Petrochemical Technology, China), Qiang Liu (Academy of Artificial Intelligence Beijing Institute of Petrochemical Technology, China), and He Li (Tianjin G-Ka Robot Technology co., LTD, China)</i>	
Implementation of the Interaction Effect Among Virtual Large Curved Screens on Multiple Buildings Based on Mixed Reality	140
<i>Yilan Zhou (Communication University of China, China), Yue Zhang (Communication University of China, China), Shanzhen Lan (Communication University of China, China), and Shaobin Li (Communication University of China, China)</i>	
Research on the Development and Practice of Digital Technology in Architectural Heritage	146
<i>Jie Wang (Faculty of Art and Design, Nanjing Institute of Technology, China) and Chang Lu (University of Pécs, Hungary)</i>	
Research on Visual Cognitive Model Modeling Based on Design Psychology	151
<i>Tianyu Hua (Communication University of China; Key Laboratory of Acoustic Visual Technology and Intelligent Control System, (Communication University of China); Beijing Key Laboratory of Modern Entertainment Technology, (Communication University of China)), Shuang Wang (Communication University of China; Key Laboratory of Acoustic Visual Technology and Intelligent Control System, (Communication University of China); Beijing Key Laboratory of Modern Entertainment Technology, (Communication University of China)), Jingyu Liu (Communication University of China; Key Laboratory of Acoustic Visual Technology and Intelligent Control System, (Communication University of China); Beijing Key Laboratory of Modern Entertainment Technology, (Communication University of China)), and Jian Jiang (China Digital Culture Group Co., Ltd)</i>	

A New NFT Model to Enhance Copyright Traceability of the Off-Chain Data	157
<i>Yulong Chen (Southern University of Science and Technology, China), Ziwei Wang (Southern University of Science and Technology, China), Xiangyu Liu (Southern University of Science and Technology, China), and Xuetao Wei (Southern University of Science and Technology, China)</i>	
Generating Diverse Gestures from Speech Using Memory Networks as Dynamic Dictionaries .	163
<i>Zeyu Zhao (Institute of Automation, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China), Nan Gao (Institute of Automation, Chinese Academy of Sciences, China), Zhi Zeng (Institute of Automation, Chinese Academy of Sciences, China), and Shuwu Zhang (Institute of Automation, Chinese Academy of Sciences, China; University of Chinese Academy of Sciences, China)</i>	
Development of VR Motion Sickness Test Platform Based on UE	169
<i>Yixin Tai (Communication University of China, China), Yu Yang (Communication University of China, China), and Xiaotian Wang (University of Southampton, U.K.)</i>	
Obstacle Avoidance Algorithm of Handling Robot in Cultural Complex	174
<i>Hui Ren (Communication University of China; Key Laboratory of Acoustic Visual Technology and Intelligent Control System, Communication University of China; Beijing Key Laboratory of Modern Entertainment Technology, Communication University of China, China), Mengnan Li (Communication University of China; Key Laboratory of Acoustic Visual Technology and Intelligent Control System, Communication University of China; Beijing Key Laboratory of Modern Entertainment Technology, Communication University of China, China), and Xiaochen Shen (Communication University of China; Key Laboratory of Acoustic Visual Technology and Intelligent Control System, Communication University of China; Beijing Key Laboratory of Modern Entertainment Technology, Communication University of China, China)</i>	
Review of Photometric Compensation in Projection System	180
<i>Zongxuan Shi (Communication University of China, China), Lipi Niu (Communication University of China, China), Yanming Zhao (Communication University of China, China), and Shaobin Li (Communication University of China, China)</i>	
A Survey of Procedural Content Generation for Games	186
<i>Yuzhong Zhang (Macau University of Science and Technology), Guixuan Zhang (Institute of Automation, Chinese Academy of Sciences), and Xinyuan Huang (Macau University of Science and Technology)</i>	
Research on the Practical Path of Chinese Movie and Television Communication from the Perspective of "The Belt and Road"	191
<i>Jinchun Zhou (Communication University of China, China), Ying Wang (Communication University of China, China), and Bo Li (Communication University of China, China)</i>	
Playlabor: An Exploratory Study on Labor Control of E-Sports Boosters	196
<i>Xinzhu Pu (Hiroshima University/North China University of Technology, China) and Xinyue Xu (Minzu University of China, China)</i>	

A Comparison of Quality Assessment Metrics on Image Resolution Enhancement Artifacts	200
<i>Ruidi Zheng (Communication University of China, Academy of Broadcasting Science, NRTA, China), Xiuhua Jiang (Communication University of China, China), Yan Ma (Academy of Broadcasting Science, NRTA, China), and Lei Wang (Academy of Broadcasting Science, NRTA, China)</i>	
Broadband Constant Directivity Control of Line Array Loudspeakers	205
<i>Li Zhen (State Key Laboratory of Media Convergence of Communication; Communication University of China; Beijing Key Laboratory of Modern Entertainment Technology (Communication University of China); Communication University of China, China), Yuqing Chen (State Key Laboratory of Media Convergence of Communication; Communication University of China; Beijing Key Laboratory of Modern Entertainment Technology (Communication University of China); Communication University of China, China), Hui Ren (State Key Laboratory of Media Convergence of Communication; Communication University of China; Beijing Key Laboratory of Modern Entertainment Technology (Communication University of China); Communication University of China, China), and Kaiyue Li (State Key Laboratory of Media Convergence of Communication; Communication University of China; Beijing Key Laboratory of Modern Entertainment Technology (Communication University of China); Communication University of China, China)</i>	
How Consumers' Identity with the Anchor Influence Purchase Intention? – A Case Study on Beauty Products	211
<i>Zhiwei Li (Wuhan University, China) and Han Wu (State Grid Nanchang County Electric Power Supply Company, China)</i>	
Research on Virtual Human Development Based on Motion Capture	216
<i>Yuxin Yang (Communication University of China, China), Xinquan Luo (Communication University of China, China), and Xinpei Hu (Communication University of China, China)</i>	
Analysis on Digital Identity and Consumption Behavior of DOTA2 "Cloud Players"	221
<i>Qian Chen (University of South China, China), Siying Du (Faculty of Statistics and Mathematics, Central University of Finance and Economy, China), Haonan Yang (Hong Kong Baptist University, China), and Xiao Gong (Communication University of China, China)</i>	
Analysis on the Design Methods of Cultural Variety Show Derivatives	227
<i>Jifeng Xu (Southeast University, China), Xinya Feng (Southeast University, China), and Dan Zhao (Southeast University, China)</i>	
Image Generation of Traditional Chinese window Grilles Based on Generative Adversarial Networks	232
<i>Chengxi Miao (Communication University of China, China), Jianqin Wu (Communication University of China, China), Jialin Chen (Communication University of China, China), Shiyi Xiong (Communication University of China, China), Lingyue Wang (Communication University of China, China), and Qi Wang (Communication University of China, China)</i>	

A Real-Time Localization Algorithm Based on Feature Point Matching	237
<i>Shuo Lei (Wuhan University of Technology, China), Siyi Tian (Wuhan University of Technology, China), Qiming Huang (Wuhan University of Technology, China), and Anyi Huang (Wuhan University of Technology, China)</i>	
Modern Stage Performance Simulation Based on Augmented Reality Style	242
<i>Liwen Gao (Communication University of China, China), Xinquan Luo (Communication University of China, China), Jingyu Nie (Communication University of China, China), and Yinghui Wang (Communication University of China, China)</i>	
Smart Museum Collection and Analysis for User Online Behavior	247
<i>Ruiwei Meng (National Museum of China, China), Huabiao Li (National Museum of China, China), Yanyan Guo (National Museum of China, China), Yu Wu (National Museum of China, China), Nuo Cheng (National Museum of China, China), and Linxian Hao (National Museum of China, China)</i>	
Audio Watermarking Algorithm Based on WSOLA Resisting Speed Change	252
<i>Xin Wang (Taiyuan University of Technology, China), Ying Huang (Institute of Automation, Chinese Academy of Sciences, China), Shiqiang Wu (UCAS Institute of Automation, CAS, China), Hu Guan (Institute of Automation, Chinese Academy of Sciences, China), Baoning Niu (Taiyuan University of Technology, China), and Shuwu Zhang (Institute of Automation, Chinese Academy of Sciences, China)</i>	
On the Issue of "Digital Human" in the Context Of Digital Transformation	258
<i>Fangfang Yu (Lanzhou University of Arts and Science, China), Shengyu Jian (Yangzhou University, China), Chen Shen (Yangzhou University, China), Wen Xue (Yangzhou University, China), and Yu Fu (Lanzhou University, China)</i>	
Evaluation of Auditory Saliency Model Based on Saliency Map	263
<i>Xiansong Xiong (Communication University of China, China), Zhijun Zhao (Communication University of China, China), and Lingyun Xie (Communication University of China, China)</i>	
An Intelligent Caregiver Elderly Robot Based on Raspberry Pi	269
<i>Rui Ma (Communication University of China, China), Ling Lei (Communication University of China, China), Bingjie Li (Communication University of China, China), Meng Dan (Communication University of China, China), Xinyao Wang (Communication University of China, China), and Yitong Liu (Communication University of China, China)</i>	
Digital Twin Platform Design for Zhejiang Rural Cultural Tourism Based on Unreal Engine	274
<i>Feiyang Sang (Communication University of Zhejiang, China), Hui Wu (Communication University of Zhejiang, China), Zhe Liu (Communication University of Zhejiang, China), and Shenguo Fang (Zhejiang sci-tech university, Zhejiang Institute of industry and information technology, China)</i>	
The Evaluation of Intangible Cultural Heritage Tourism Creative Products Based on Analytic Hierarchy Process and Grey Clustering Method	279
<i>Wei Zhou (Southeast University, China) and Ping Ping Zhang (Chinese Painting Academy, Southeast University, China)</i>	

Machine Learning-Based Weibo user Group Profiling under Hot Events	283
<i>BingYun Lin (Guangzhou University, China), Xin Zhu (Guangzhou University, China), and Jianming Hu (Guangzhou University, China)</i>	
EMG-Based Interactive Control Scheme for Stage Lighting	288
<i>Huiqin Wang (Key Laboratory of Acoustic Visual Technology and Intelligent Control System, China) and Jiajun Li (Communication University of China, China)</i>	
Transformer-Based Multimodal Contextual Co-Encoding for Humour Detection	292
<i>Boya Deng (Communication University of China, China), Jiayin Tian (Communication University of China, China), and Hao Li (Science and Technology on Communication Networks Laboratory, China)</i>	
A Sparse Bayesian Learning Algorithm for Channel Estimation in Wideband mmWave MIMO-OFDM Systems	298
<i>Sitong Wang (Communication University of China, China), Jing He (Communication University of China, China), Jiali Cao (Communication University of China, China), Yalin Guan (Communication University of China, China), Meng Han (Communication University of China, China), and Weijia Yu (Communication University of China, China)</i>	
Feature Extraction of the Information Clues in the Data Journalism	303
<i>Siheng Cao (Wuhan University, China), Liqun Liu (Wuhan University, China), and Weihang Zhang (Wuhan University, China)</i>	
Research and Implementation of Interaction Design on Dunhuang Culture	308
<i>Ling Lei (Communication University of China, China), Yefeng Liang (Communication University of China, China), and Xiaojian Zhang (Durham University, United Kingdom)</i>	
Recommendation of Clip Templates Based on Cross-Modal Retrieval	313
<i>Zhiyi Zhu (Communication University of China, China), Xiaoyu Wu (Communication University of China, China), Xueting Yang (Communication University of China, China), Kai Zhang (Communication University of China, China), Haoyi Yu (Communication University of China, China), and Xi Chen (Communication University of China, China)</i>	
Beam Hopping for LEO Satellite: Challenges and Opportunities	319
<i>Qi Zhao (Beijing Institute of Spacecraft Environment Engineering, China), Yiqing Hu (Southeast University, China), Zhenyu Pang (Southeast University, China), and Derong Ren (Southeast University, China)</i>	
Prediction of New Media Communication of Fitness Culture and Its Influence Factors	325
<i>Chi Zhang (Communication University of China, China) and Xiaoli Hu (Communication University of China, China)</i>	
Study on the Digital Protection Method of Jingchu Folk Embroidery	329
<i>Ning He (Wu Han Textile University, China), Jiaying Li (Guilin University of Electronic Technology, China), Li Guo (Wu Han Textile University, China), and Yi Zhou (Wu Han Textile University, China)</i>	
Music Recommendation System Based on Real-Time Emotion Analysis	334
<i>Binbin Zhai (Communication University of China, China), Baihui Tang (Communication University of China, China), and Sanxing Cao (Communication University of China, China)</i>	

Research on the Influence of Beauty Live Stream on Consumers' Purchase Intention	339
<i>Luqing Wang (Communication University of China, China) and Ruicheng Liu (University College London, United Kingdom)</i>	
A Research on the Image System of "Tujia Brocade" Feature Types	344
<i>Wei Chow (Southeast University, China), Meng-Dar Shieh (National Cheng Kung University, China), Fan Wu (National Cheng Kung University, China), and Han Gao (Southeast University, China)</i>	
Investigation on the Application of Unconscious Design in Product Modeling	348
<i>Nuo Pang (Dalian University of Science and Technology, China), Yan Liu (Dalian University of Science and Technology, China), and Yujiang Ji (Dalian University of Science and Technology, China)</i>	
Rethinking the Adaptiveness of Conditional Flow: A Novel Distribution Adaptation Strategy for Image Super-Resolution	353
<i>Maoyuan Xu (University of Science and Technology Beijing, China), Tao Jia (Academy of broadcasting planning Beijing, China), Hongyang Zhou (University of Science and Technology Beijing, China), and Xiaobin Zhu (University of Science and Technology Beijing, China)</i>	
Analysis and Application of Tourists' Sentiment Based on Hotel Comment Data	359
<i>Bin Wu (Lanzhou University, China), Bo Feng (Lanzhou University, China), Jun Du (Longdong University, China), Xiaojia Huang (Lanzhou University, China), and Liangliang Gao (Lanzhou University, China)</i>	
A Study on the Presentation of Immersive Mobile Live Stream Cultural Landscape from the Perspective of Computer-Mediated Communication	364
<i>Yi Yu (Wuhan Qingchuan University, China), YiGe Gao (Wuhan Qingchuan University, China), and Bo Song (Wuhan University, China)</i>	
A Wavelet-Based Progressive Super-Resolution Model	369
<i>Junyi He (University of Science and Technology Beijing), Hongyang Zhou (University of Science and Technology Beijing), and Yan Ma (Academy of Broadcasting Science NRTA)</i>	
Performance Comparison of Deep Learning Methods on Hand Bone Segmentation and Bone Age Assessment	375
<i>Yingying Lv (Communication University of China, China), Jingtao Wang (Communication University of China, China), Wenbo Wu (Communication University of China, China), and Yun Pan (Communication University of China, China)</i>	
The Application of Path Planning Algorithm Based on Deep Reinforcement Learning for Mobile Robots	381
<i>Siyi Tian (Wuhan University of Technology, China), Shuo Lei (Wuhan University of Technology, China), Qiming Huang (Wuhan University of Technology, China), and Anyi Huang (Wuhan University of Technology, China)</i>	

A Study on the Concept and Practice of Lanzhou Urban Heritage as Cultural Memory Place under the Integration of Cultural and Tourism	385
<i>Chenxi Li (Lanzhou University, China), Yi Yang (Lanzhou University, China), Kunyuan Guo (Texas Tech University, USA), Deyan Ma (Lanzhou University, China), Xue Yang (Lanzhou University, China), Junxiang Zeng (Lanzhou University, China), Honglu Wang (Southwest University of Science and Technology, China), and Pengfei Cao (Lanzhou University, China)</i>	
Performance Evaluation of Multi-access Based on ATSSS Rules	390
<i>Xinran Ba (Communication University of China), Libiao Jin (Communication University of China), Zhou Li (Communication University of China), Chang Liu (Communication University of China), and Sidong Li (Datang mobile communication equipment co.ltd, China)</i>	
Improved TPX Based IAGA for Solving Hybrid Flow-Shop Scheduling Problem with Identical Parallel Machine	395
<i>Chang-jian Zhu (Nanjing Institute of Technology, Sino-German Intelligent Manufacturing Research Institute, China), Kun Zheng (Nanjing Institute of Technology, Sino-German Intelligent Manufacturing Research Institute, China), Zhi-wei Lian (Nanjing Institute of Technology, Jiangsu Jiuwu High-Tech Co., China), Hui Xu (Daqo Group Co., Ltd., China), Xue-qing Feng (Daqo Group Co., Ltd., China), and Xin-yan Gu (Nanjing Institute of Technology, Sino-German Intelligent Manufacturing Research Institute, China)</i>	
Virtual Characters Meet the Uncanny Valley: A Literature Review Based on the Web of Science Core Collection (2007-2022)	401
<i>Hui Jiang (Sun Yat-sen University, P. R. China), Lin Cheng (Faculty of European Languages & Cultures, Guangdong University of Foreign Studies, P. R. China), Dalin Pan (Waseda University, Japan), Shuangbin Shi (Guangdong University of Foreign Studies, Guangdong University of Foreign Studies, P. R. China), Zhimeng Wang (Guangdong University of Foreign Studies, Guangdong University of Foreign Studies, P. R. China), and Yueyi Xiao (Guangdong University of Foreign Studies, Guangdong University of Foreign Studies, P. R. China)</i>	
Character Feature Extraction for Novels Based on Text Analysis	407
<i>Tingting Wu (Guangzhou University, China), Jianming Hu (Guangzhou University, China), and Xin Zhu (Guangzhou University, China)</i>	
Prediction of Lanzhou Urban Passenger Flow Based on Machine Learning	412
<i>Bin Wu (Lanzhou University, China), Yunhao Kang (Lanzhou University, China), Caihong Li (Lanzhou University, China), Chao Ren (Lanzhou University, China), and Binhu Bao (Lanzhou University, China)</i>	
Study on the Visualization Function Based on Stroke Rehabilitation Mobile Devices	417
<i>Juan Li (Huaqiao University, China), Zhe Li (Fujian Normal University, China; Osaka University, Japan), and Hangqin Zhang (Quanzhou Normal University, China)</i>	
Analysis and Application of Reservation of Scenic Spot Based on Relationship Graph	421
<i>Yubo Deng (Lanzhou University, China), Jiachuan He (Lanzhou University, China), Fangping Yang (Longdong University, China), Yi Yang (Lanzhou University, China), and Zihan Ke (Lanzhou University, China)</i>	

Research on Digital Platform Technology of Intangible Cultural Heritage in Beijing Section
of Great Wall Cultural Belt 426
Lili Zhu (North China University of Technology, China) and Tao Pang
(North China Electric Power University, China)

Author Index **431**
