Volume 12054

Proceedings of SPIE 0277-786X, V. 12054

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Novel Patterning Technologies 2022*, edited by Eric M. Panning, J. Alexander Liddle, Proc. of SPIE 12054, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

DSA I

12054 02 **Hexagonal arrays of contact holes with chemo-epitaxial DSA (Invited Paper)** [12054-7]

300MM NANOIMPRINT LITHOGRAPHY

12054 03 **Nanoimprint lithography: today and tomorrow (Invited Paper)** [12054-1]

12054 04 **Wafer scale nanoimprint lithography: distortion improvement and stabilization** [12054-3]

12054 05 **Nanoimprint edge placement error elements and control** [12054-4]

DSA II

12054 06 **Nanoscale phase change memory arrays patterned by block copolymer directed self-assembly** [12054-14]

ADVANCED ELECTRON AND ION BEAM PATTERNING

12054 07 **Curvilinear mask solutions for full-chip EUV lithography (Invited Paper)** [12054-18]

12054 08 **Multi-beam mask writer MBM-2000PLUS** [12054-20]

3D PRINTING AND NOVEL PATTERNING APPROACHES

12054 09 **Volumetric microfabrication of helical structures for industrial applications (Invited Paper)** [12054-25]

SCANNING PROBE LITHOGRAPHY

12054 0A **Nanofabrication and -metrology by using the nanofabrication machine (NFM-100)** [12054-30]

OPTICAL DIRECT WRITE

12054 0B **Digitally driven maskless lithography optimized for fine pitch RDL and next generation devices**
[12054-32]

POSTER SESSION

12054 0C **Imaging quality evaluation of superlens based nanolithography** [12054-53]
