Volume
12218

Proceedings of SPIE 0277-786X, V. 12218

SPIE is an international society advancing an interdisciplinary approach to the science and application of light.

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:

Author(s), "Title of Paper," in *Laser Beam Shaping XXII*, edited by Angela Dudley, Alexander V. Laskin, Proc. of SPIE 12218, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

ISSN: 0277-786X

ISSN: 1996-756X (electronic)

ISBN: 9781510654204

ISBN: 9781510654211 (electronic)

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online, and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B ... 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

v *Conference Committee*

POLARIZATION AND VECTORIAL SHAPING AND QUANTUM OPTICS

- 12218 02 **Spatial depolarization patterns generated with dynamic retardance functions (Invited Paper)** [12218-3]
- 12218 03 **Does quantum ghost imaging need a camera to image an object (Invited Paper)** [12218-7]

ADAPTIVE, DIFFRACTIVE, AND REFRACTIVE BEAM-SHAPING

- 12218 04 **The continuous refractive beamforming surface for far-field with robustness and high efficiency (Invited Paper)** [12218-10]
- 12218 05 **Compressive wavefront correction with Bessel beams (Invited Paper)** [12218-11]
- 12218 06 **Bimorph deformable mirror parameters optimization in atmospheric applications (Invited Paper)** [12218-8]
- 12218 07 **Evaluation of bimorph deformable mirror performance through Zernike polynomials reconstruction (Invited Paper)** [12218-9]
- 12218 08 **Phase-only spatial light modulator for focusing a moderately scattered visible range laser beam (Invited Paper)** [12218-12]

INTRA-CAVITY AND HIGH-POWER BEAM-SHAPING

- 12218 09 **Digitally controlled multimode laser for high-resolution and robust beam shaping (Invited Paper)** [12218-13]
- 12218 0A **2-kW continuous wave laser demonstrator simulation using incoherent beam combining of laser diode stacks (Invited Paper)** [12218-16]

POSTER SESSION

- 12218 0B **Resonant micromirror with symmetrical AlN thin film actuators (Invited Paper) [12218-19]**
- 12218 0C **Numerical analysis of efficiency of light focusing through a moderately scattering medium with the use of deformable mirrors (Invited Paper) [12218-21]**
