PROCEEDINGS OF SPIE

International Conference on Computer Network Security and Software Engineering (CNSSE 2022)

Wenshun Sheng
Yongquan Yan
Editors

25–27 February 2022
Zhuhai, China

Organized by
Guangzhou Computer Society
Guangzhou Association for Science and Technology

Sponsored
AEIC Academic Exchange Information Center

Published by
SPIE

Volume 12290

The papers in this volume were part of the technical conference cited on the cover and title page. Papers were selected and subject to review by the editors and conference program committee. Some conference presentations may not be available for publication. Additional papers and presentation recordings may be available online in the SPIE Digital Library at SPIEDigitalLibrary.org.

The papers reflect the work and thoughts of the authors and are published herein as submitted. The publisher is not responsible for the validity of the information or for any outcomes resulting from reliance thereon.

Please use the following format to cite material from these proceedings:
Author(s), "Title of Paper," in *International Conference on Computer Network Security and Software Engineering (CNSSE 2022)*, edited by Wenshun Sheng, Yongquan Yan, Proc. of SPIE 12290, Seven-digit Article CID Number (DD/MM/YYYY); (DOI URL).

ISSN: 0277-786X
ISSN: 1996-756X (electronic)

ISBN: 9781510655980

Paper Numbering: A unique citation identifier (CID) number is assigned to each article in the Proceedings of SPIE at the time of publication. Utilization of CIDs allows articles to be fully citable as soon as they are published online and connects the same identifier to all online and print versions of the publication. SPIE uses a seven-digit CID article numbering system structured as follows:

- The first five digits correspond to the SPIE volume number.
- The last two digits indicate publication order within the volume using a Base 36 numbering system employing both numerals and letters. These two-number sets start with 00, 01, 02, 03, 04, 05, 06, 07, 08, 09, 0A, 0B … 0Z, followed by 10-1Z, 20-2Z, etc. The CID Number appears on each page of the manuscript.

Contents

vii *Conference Committees*

COMPUTER NETWORK SECURITY AND MODEL PREDICTION APPLICATIONS

12290 02 **Research on modeling method of network attack chain efficiency** [12290-1]

12290 03 **Audio adversarial attack: HIS attack** [12290-36]

12290 04 **A measure for enhancing HREIK network lookup** [12290-40]

12290 05 **Self-attention on RNN-based text classification** [12290-49]

12290 06 **A privacy-preserving data collection scheme for smart agriculture based on edge blockchain** [12290-25]

12290 07 **A conformance check method for evaluating the fitness of a process model with duplicate tasks** [12290-12]

12290 08 **A de-obfuscation system based on Markov models** [12290-34]

12290 09 **Research on the construction method of encrypted malicious traffic detection system based on machine learning** [12290-7]

12290 0A **A fast and robust mesh construction method for medial axis transform** [12290-10]

12290 0B **Research on the aggregation of V2G security authentication and privacy data based on blockchain** [12290-19]

12290 0C **Transplantation and optimization of GPU-oriented SM3 cryptographic hash algorithm** [12290-21]

12290 0D **Network intrusion monitoring based on improved ant colony algorithm** [12290-4]

12290 0E **Third party testing and evaluation of 3D geometric modeling kernels** [12290-9]

12290 0F **Toward more efficient iris recognition using a lightweight CNN framework with attention mechanism** [12290-28]

12290 0G **A feature matching-based attack on text CAPTCHAs** [12290-13]

12290 0H **Automatic summarization of medical conversations based on episodic memory network hierarchical labels** [12290-5]

12290 0I **Evaluating deep neural network for automated sleep staging in real-life scenarios** [12290-42]

12290 0J **The fruit fly optimization algorithm based on normal cloud model** [12290-15]

12290 0K **Improved multi-identity fully homomorphic encryption scheme based on LWE** [12290-41]

12290 0L **Analysis of cyber security rebuts and its rising aims on current technologies** [12290-52]

12290 0M **A static analysis method of incremental codes using value dependency graph** [12290-32]

12290 0N **Modeling hybrid systems based on combination of SysML and Modelica** [12290-37]

12290 0O **Atrial fibrillation detection based on ECG** [12290-44]

12290 0P **Research on reliable transmission strategy of WSN with adjustable cache location** [12290-8]

BIG DATA ALGORITHMS AND SOFTWARE ENGINEERING SIGNAL PROCESSING

12290 0Q **A multi-controller placement problem in SDWAN** [12290-6]

12290 0R **Design and implementation of college entrance examination volunteer intelligent filling system based on big data** [12290-48]

12290 0S **Prediction of residential water consumption based on K-means and improved KNN algorithm** [12290-2]

12290 0T **Quantum group blind signature scheme based on measurement-based quantum computation** [12290-14]

12290 0U **Research on autopilot test method based on data playback** [12290-17]

12290 0V **Application research of software engineering technology in the era of big data** [12290-33]

12290 0W **Research on demand management based on SYSML complex relationship in digital nuclear reactor** [12290-39]

12290 0X **Automatic cells counting method based on machine learning and deep learning** [12290-51]

12290 0Y **Optimization of fresh agricultural products distribution route based on an improved saving algorithm** [12290-26]

12290 0Z **Internet of Things data monitoring method based on recursive entropy feature extraction** [12290-56]

12290 10 **Research on the application of VR technology in the command hall of Qingyun choir** [12290-55]

12290 11 **Research on classification of COVID-19 and common pneumonia by x-ray images based on convolutional attention mechanism** [12290-50]

12290 12 **A new data process framework of industrial big data based on feature selection** [12290-57]

12290 13 **MCI classification based on fusion of brain network properties and local cortex signal features** [12290-35]

12290 14 **Image self-embedding semi-fragile watermarking algorithm based on block truncation coding** [12290-11]

12290 15 **Raft consensus algorithm based on reputation mechanism** [12290-22]

12290 16 **Design of EAST diagnostic database based on HDF5** [12290-16]

12290 17 **Design and implementation of online training platform for logistics management based on JSP technology** [12290-47]

12290 18 **Research on the overall design of intelligent management cloud platform in Longhu mountain Taoism scenic spot: thinking based on big data** [12290-24]

12290 19 **Realization of simulation droplet deformation in shear flow based on DCU acceleration device** [12290-58]

12290 1A **The design and realization of carrying capacity of resources and environment and suitability for territorial and spatial development evaluation system** [12290-23]

12290 1B **Design method of cultural and creative products of Fujian and South African heritage based on simulated annealing algorithm** [12290-54]

12290 1C **Database programming technology for computer software engineering** [12290-30]

12290 1D **Improved semantic segmentation algorithm based on attention mechanism and pyramid module** [12290-53]
