2022 International Conference on Computing, Communication, Perception and Quantum Technology (CCPQT) **CCPQT 2022**

Table of Contents

Welcome Message	xv
Committee	xvii

Communication

Reconfigurable Intelligent Surface Speeds up MIMO Secret Key Generation	1
<i>Jie Tang (University of Electronic Science and Technology of China, China), Hong Wen (University of Electronic Science and Technology of China, China), Zeguang Li (University of Electronic Science and Technology of China, China), and Ruiwei Wang (University of Electronic Science and Technology of China, China)</i>	
Cybersecurity Analysis of Wind Farm Industrial Control System Based on Hierarchical Threat Analysis Model Framework	6
<i>Baihua Yang (Zhong Neng Power-technology Development Co., Ltd, China) and Yue Zhang (Northwest University, China)</i>	
Research on an Improved DSR Protocol Based on the Markov Model	14
<i>Ting Hu (Hunan Open University, China)</i>	
Research on Security Technology of Processor Branch Prediction	20
<i>Liang Liu (Beijing SmartChip Microelectronics Technology Co., China), Sheng Hong (Beihang University, China; Nanchang University, China), Weili Li (Beijing SmartChip Microelectronics Technology Co., China), Peixuan Zhou (Beihang University, China), Chao Guo (Beihang University, China), Jiahui Zhou (Beijing SmartChip Microelectronics Technology Co., China), and Xinyan Gao (Beihang University, China)</i>	
PCIe Cryptographic Accelerator Based on Domestic FPGA	25
<i>Kun Zhao (Inspur Electronic Information Industry Co., Ltd, China), Wei Liu (Inspur Electronic Information Industry Co., Ltd, China), Qi Mu (Inspur Electronic Information Industry Co., Ltd, China), Hongliang Wang (Inspur Electronic Information Industry Co., Ltd, China), Ruidong Li (Shandong Inspur Artificial Intelligence Research Institute, China), and Zhangzhao He (School of Information Science and Engineering University of Jinan, China)</i>	

Automatic Modulation Mode Recognition of Communication Signals Based on Complex-Valued Neural Network	32
<i>Xiaobo Yang (Northwestern Polytechnical University, China), Ruonan Zhang (Northwestern Polytechnical University, China), Hongmei Xie (Northwestern Polytechnical University, China), Huakui Sun (WeiFang University of Science & Technology, China), and Huan Li (Northwestern Polytechnical University, China)</i>	
Joint Relay Selection and Flight Path Optimization for UAV-Assisted Vehicular Delay Tolerant Networks	38
<i>Yixin He (Northwestern Polytechnical University, China), Huakui Sun (WeiFang University of Science & Technology, China), Xiaobo Yang (Northwestern Polytechnical University, China), Dawei Wang (Northwestern Polytechnical University, China), Ruonan Zhang (Northwestern Polytechnical University, China), and Qian Xu (Northwestern Polytechnical University, China)</i>	
A Parking Lot Payment USSD Service and System Based on OCS	44
<i>Fu Li (Wuxi University, China), Jiadong Sun (Wuxi University, China), Yongchao Duan (Wuxi University, China), and Peng Cai (Wuxi University, China)</i>	
A Real-Time Semantic Segmentation Method Based on Multi-Level Feature Fusion	48
<i>Jinyan Xu (University of Science and Technology Beijing, China) and Ting Lyu (University of Science and Technology Beijing, China)</i>	
Research on Vision-Based Semantic SLAM Towards Indoor Dynamic Environment	53
<i>Chun Yang (University of Science and Technology Beijing, China) and Ting Lyu (University of Science and Technology Beijing, China)</i>	
Research on Key Technologies and Application Scenarios of NB-IoT	59
<i>Weixing Liu (Xi'an Eurasia University, China) and Panyu Chen (Xi'an Eurasia University, China)</i>	
Multitask Semantic Segmentation Network using Adaptive Multiscale Feature Fusion	64
<i>Huilin Chen (University of Science and Technology Beijing, China), Shengsong Yang (University of Science and Technology Beijing, China), and Ting Lyu (University of Science and Technology Beijing, China)</i>	
A Position Deployment Method for UAV-Assisted Ground Base Station Communication	70
<i>Jialong Li (Northwestern Polytechnical University, China), Kang Wang (Xi'an University of Finance and Economics, China), Yu Wang (Northwestern Polytechnical University, China), and YaoLei Guo (Northwestern Polytechnical University, China)</i>	
3D Flow Visualization via Background Oriented Schlieren Tomography	76
<i>Zhihao Li (Southeast University, China), Xinying Chen (Southeast University, China), Biao Zhang (Southeast University, China), Jiatao Meng (Southeast University, China), Yang Shen (Southeast University, China), Hang Su (Southeast University, China), and Chuanlong Xu (Southeast University, China)</i>	
Joint Trajectory Design and Transmit Power Control in NOMA-Aided UAV Communication Systems.	82
<i>Pengfei Du (Xihua University, China), Yueqiang Shi (Xihua University, China), Qi Zeng (Sichuan University, China), and Xuejun Zhang (Xihua University, China)</i>	

Visualization of Human Lying Angle Based on Deep Convolutional Neural Network	88
<i>Mingwei Zhong (Ningbo University, China), Yongfei Feng (Ningbo University, China), Xingshang Wang (Ningbo University of Technology, China), Kewei Chen (Ningbo University, China), and Fangyan Dong (Ningbo University, China)</i>	
Research on Improvement of Time Synchronization Protocol in Telemetry Network System (TmNS)	95
<i>Changquan Qiu (Science and Technology on Space Physics Laboratory, China), Yanrong Yuan (Science and Technology on Space Physics Laboratory, China), Jinghua Sun (Science and Technology on Space Physics Laboratory, China), Zhichao Xue (Science and Technology on Space Physics Laboratory, China), and Jinghui Lan (Science and Technology on Space Physics Laboratory, China)</i>	
Simulation of Integrated System of Photon-Counting Underwater Wireless Optical Ranging and Communication	100
<i>Haodong Yang (Nanchang University, China), Qiurong Yan (Nanchang University, China), Shanglin Wang (Nanchang University, China), Xiancheng Xiong (Nanchang University, China), Peng Li (Chinese Academy of Sciences, China), and Wei Wang (Chinese Academy of Sciences, China)</i>	
Design of Intelligent Open Avionics System for LEO Satellite	107
<i>Feng Li (Institute of Telecommunication and Navigation Satellites, CAST, China), Lifang Guo (Institute of Telecommunication and Navigation Satellites, CAST, China), Weiyu An (Institute of Telecommunication and Navigation Satellites, CAST, China), Shengwei Pei (Institute of Telecommunication and Navigation Satellites, CAST, China), Zhenchao Wei (Institute of Telecommunication and Navigation Satellites, CAST, China), Nan Xu (Institute of Telecommunication and Navigation Satellites, CAST, China), and Yuancao Lv (Institute of Telecommunication and Navigation Satellites, CAST, China)</i>	
Simulation of Photon-Counting Wireless Communication System Based on QAM Modulation	112
<i>Shanglin Wang (Nanchang University, China), Qiurong Yan (Nanchang University, China), Haodong Yang (Nanchang University, China), Min Tu (Nanchang University, China), Wenjiang Zhu (North Lianchuang Communication Co., Ltd., China), and Hua Du (North Lianchuang Communication Co., Ltd., China)</i>	
Outlier Detection and Trust Based Distributed Cooperative Spectrum Sensing in Internet of Vehicles	117
<i>Haoshuang Zhao (Xidian University Guangzhou Institute of Technology, China), Wenhao Zhang (Shandong Experimental High School, China), Xiuqiang Wu (Guangzhou CEPREI, China), Hongning Li (Xidian University Guangzhou Institute of Technology, China), and Liu He (Xidian University Guangzhou Institute of Technology, China)</i>	
Research on the Detection and Tracking of Moving Objects in Dynamic Scenes	123
<i>Bowen Cheng (Beijing Institute of Spacecraft System Engineering, China), Shuai Jiang (Beijing Institute of Spacecraft System Engineering, China), Yalong Pang (Beijing Institute of Spacecraft System Engineering, China), Shenshen Luan (Beijing Institute of Spacecraft System Engineering, China), and Jing Lu (Beijing Institute of Spacecraft System Engineering, China)</i>	

Physical Layer Security of IRS-Assisted Multi-Layer Heterogeneous Networks in Smart Grid	128
<i>Yuchen Guo (Xidian University, China), Geng Liu (Smart Shine Microelectronics Technology Co., Ltd., China), Jie Ren (Beijing Smart-chip Microelectronics Technology Co., Ltd., China), Ying Liu (Smart Shine Microelectronics Technology Co., Ltd., China), Liang Yao (Smart Shine Microelectronics Technology Co., Ltd., China), Yu Cao (Xidian University, China), Jian Chen (Xidian University, China), and Yuchen Zhou (Xidian University, China)</i>	

Computing

An Improved A* Algorithm for Roadless Networks Based on Triangular Mesh	135
<i>Lingfeng Wang (The 32nd Research Institute of China Electronics Technology Corporation, China), Bo Jiang (The 32nd Research Institute of China Electronics Technology Corporation, China), and Zhe Sun (The 32nd Research Institute of China Electronics Technology Corporation, China)</i>	
A Collaborative Filtering Recommendation Method Combining Approximation Algorithms	142
<i>Yang Zhang (China Coal Energy Research Co., Ltd, China), Chao Wang (China Coal Energy Research Co., Ltd, China), Cheng Yang (China Coal Energy Research Co., Ltd, China), and Ruijie Chen (Xidian University, China)</i>	
A Graph-Based Optimal Electrical Transaction Scheme of the Micro Grid Under Edge Calculating	147
<i>Ziyu Zhou (School of Aeronautics and Astronautics University of Electronic Science & Technology of China, Chengdu, China) and Hong Wen (School of Aeronautics and Astronautics University of Electronic Science & Technology of China, Chengdu, China)</i>	
Microgrid Scheduling Optimization Under False Data Injection Attack	151
<i>Wen Han (University of Electronic Science and Technology of China, China), Hong Wen (University of Electronic Science and Technology of China, China), Peiyao Wang (University of Electronic Science and Technology of China, China), and Yanxu Zhu (University of Electronic Science and Technology of China, China)</i>	
TD3-Based Algorithm for Node Selection on Multi-Tier Federated Learning	155
<i>Haojie Lin (University of Electronic Science and Technology of China, China), Hong Wen (University of Electronic Science and Technology of China, China), Wenjing Hou (University of Electronic Science and Technology of China, China), and Wenxin Lei (University of Electronic Science and Technology of China, China)</i>	
WAPI Protocol Security Performance Evaluation	160
<i>Fan Sun (University of Electronic Science and Technology of China, China), Hong Wen (University of Electronic Science and Technology of China, China), Yanxu Zhu (University of Electronic Science and Technology of China, China), and Xinchun Xu (University of Electronic Science and Technology of China, China)</i>	

An Improved Wiener Filter Based on Adaptive SNR MRI Image Denoising Algorithm	164
<i>Qingbiao Zhang (Southwest University of Science and Technology, China), Chang Liu (Southwest University of Science and Technology, China), and Gang He (Southwest University of Science and Technology, China)</i>	
Poisoning Attack Against Online Regression Learning with Maximum Loss for Edge Intelligence	169
<i>Yanxu Zhu (University of Electronic Science and technology, China), Hong Wen (University of Electronic Science and technology, China), Peng Zhang (University of Electronic Science and technology, China), Wen Han (University of Electronic Science and technology, China), Fan Sun (University of Electronic Science and technology, China), and Jia Jia (Beijing Special Engineering and Design Institute, China)</i>	
The Model of Cross-Tenant Information Access Control in SAAS Cloud	174
<i>Chaojun Zhao (South China University of Technology, China), Can Yang (South China University of Technology, China), and Ran Zhao (South China University of Technology, China)</i>	
Scalable Resource Provisioning For Multi-Tenant SaaS With Cloud Functions	181
<i>Zijian Zhang (South China University of Technology, China), Can Yang (South China University of Technology, China), Junshuai Wang (South China University of Technology, China), Gaoze Hou (Guangdong Experimental High School, China), and Yaqing Yang (Guangdong Experimental High School, China)</i>	
Improving Continuous Variable Quantum Key Distribution using Heralded Hybrid Linear Amplifier and Heralded Noiseless Linear Amplifier When Source in the Middle	188
<i>Leixin Wu (Central South University of Forestry and Technology, China), Zili Zou (Central South University of Forestry and Technology, China), Yanyan Feng (Central South University of Forestry and Technology, China), and Jian Zhou (Central South University of Forestry and Technology, China)</i>	
An Efficient Computation Offloading Strategy Based on Cloud-Edge Collaboration in Vehicular Edge Computing	193
<i>Shanshan Wang (Sun Yat-sen University, China), Ning Xin (Innovation Center of Satellite Communication(CNSA); SystemInstitute of Telecommunication and Navigation, China), Zhiyong Luo (Sun Yat-sen University, China; Peng Cheng Laboratory, China), and Tianhao Lin (Sun Yat-sen University, China)</i>	
Research on Ultra-Wideband Location of Mine Based on Clustering and TDOA	198
<i>Jun Dong (Heilongjiang University of Science and Technology, China) and Tianwen Xia (Heilongjiang University of Science and Technology, China)</i>	
Impact of Phase Noise on Secrecy Performance of Cell-Free Massive MIMO Networks with Multi-Antenna Users	204
<i>Xianyu Zhang (National University of Defense Technology, China), Tao Liang (National University of Defense Technology, China), Kang An (National University of Defense Technology, China), Xiaoqiang Qiao (National University of Defense Technology, China), Xiaoyu Wang (Army Engineering University of PLA, China), and Xiaoli Sun (Shandong University of Finance and Economics, China)</i>	

Document Database Watermark Algorithm Based on Connected Graph	212
<i>Xiaodan Zhuang (Zhejiang Power Exchange Center Co. Ltd, China), Xi Luo (Zhejiang Power Exchange Center Co. Ltd, China), and Letian He (Zhejiang Power Exchange Center Co. Ltd, China)</i>	
False Data Injection Attack on Atmospheric Electric Field in Thunderstorm Warning	219
<i>Xiang Li (Chengdu University of Information Technology, China), Kadhim Hayawi (Zayed University, United Arab Emirates), Yi Chen (Chengdu University of Information Technology, China; University of Electronic Science and Technology of China, China; CMA Key Laboratory of Atmospheric Sounding, China), Shih Yu Chang (San Jose State University, USA), Hong Wen (University of Electronic Science and Technology of China, China), Pin-Han Ho (University of Waterloo, Canada), Ling Yang (Chengdu University of Information Technology, China; CMA Key Laboratory of Atmospheric Sounding, China), and Qiyuan Yin (Guangdong Meteorological Public Safety Technical Support Center, China)</i>	
MEC Communication Resource Allocation Optimization Algorithm Based on NOMA	224
<i>Juan Fang (Beijing University of Technology, China), Zhenzhen Liu (Beijing University of Technology, China), Shuopeng Li (Beijing University of Technology, China), Siqi Chen (Beijing University of Technology, China), and Huijing Yang (Beijing University of Technology, China)</i>	
Computation Offloading Based on Improved Sparrow Search Algorithm in Edge Computing Scenario	231
<i>Yaoping Zeng (Xi'an University of Posts & Telecommunications, China) and Dong Liu (Xi'an University of Posts & Telecommunications, China)</i>	
An Optimal Incentive Mechanism for Blockchain-Enabled Content Caching in Device-to-Device Communication	237
<i>Yasin Habtamu Yacob (University of Electronic Science and Technology of China Chengdu, China), Ruijie Ou (University of Electronic Science and Technology of China Chengdu, China), Guolin Sun (University of Electronic Science and Technology of China Chengdu, China), and Wei Jiang (Technische University (TU), Kaiserslautern, Germany)</i>	
Multimodal Deep Learning-Based Demand Forecasting in Network Slicing	243
<i>Bruce Mareri (University of Electronic Science and Technology of China, China), Ruijie Ou (University of Electronic Science and Technology of China, China), and Yu Pang (Chongqing University of Posts and Telecommunications, China)</i>	
MEC-Enabled Federated Learning for Network Slicing	249
<i>Ruijie Ou (University of Electronic Science and Technology of China, China), Daniel Ayepah-Mensah (University of Electronic Science and Technology of China, UESTC, China), and Guisong Liu (Southwestern University of Finance and Economics, China)</i>	
SNAF-Based Interdependent E2E Network Resource Slicing Scheme for a Virtualized Network	255
<i>Samuel Rene Adolphe Sebakara (University of Electronic Science and Technology of China, China), Guolin Sun (University of Electronic Science and Technology of China, China), and Guisong Liu (Southwestern University of Finance and Economics, China)</i>	

An Algorithm for Extracting RF Features of UAV Communication Signals Based on Signal Profile	263
<i>Zeguang Li (University of Electronic Science and Technology of China, China), Ruifei Wang (University of Electronic Science and Technology of China, China), Jie Tang (University of Electronic Science and Technology of China, China), and Hong Wen (University of Electronic Science and Technology of China, China)</i>	
A Voice Encryption Method Based on Complex Bao Chaos System	268
<i>Huan Ye (Qilu University of Technology(Shandong Academy of Sciences), China), Pengfei Chen (Qilu University of Technology(Shandong Academy of Sciences), China), Shaobin Zhu (The Natural Resources Archives of Shandong Province, China), Yue Wang (Shandong Kaidio Electricity co., Ltd, China), Zhiguo Yu (Shandong Management University, China), and Cuimei Jiang (Qilu University of Technology(Shandong Academy of Sciences), China)</i>	
The Image Encryption Algorithm Based on Artificial Images and Complex Logistics Mapping	274
<i>Jinbo Wu (Qilu University of Technology (Shandong Academy of Sciences), China), Zhe Huang (Qilu University of Technology (Shandong Academy of Sciences), China), Fangfang Zhang (Qilu University of Technology (Shandong Academy of Sciences), China), Lei Kou (Qilu University of Technology (Shandong Academy of Sciences), China), ChangChun Pan (Shanghai Jiao Tong University, China), Huan Ye (Qilu University of Technology (Shandong Academy of Sciences), China), Dong Wang (Shandong Chuangrunda Intelligent Technology Co., Ltd, China), and Peikun Zhang (Shandong Chuangrunda Intelligent Technology Co., Ltd, China)</i>	
An Integrated Formal Description Method for Network Attacks	280
<i>Hanlin Yang (Harbin Institute of Technology, China), Tianyu Chen (Harbin Institute of Technology, China), Hang Zhang (Harbin Institute of Technology, China), and Wei Wang (Harbin Institute of Technology, China)</i>	
Building a Spaceborne Integrated High-Performance Processing and Computing Platform Based on SpaceVPX	287
<i>Weiwei Liu (China Academy of Space Technology (CAST), China), Yalong Pang (China Academy of Space Technology (CAST), China), Shenshen Luan (China Academy of Space Technology (CAST), China), and Bowen Cheng (China Academy of Space Technology (CAST), China)</i>	
A Hybrid Two-Stage Scheduling Algorithm for Slide-Stainer	294
<i>Debin Yang (Ningbo University, China), Bingxian Liu (Ningbo Konfoong Bioinformation Tech Co., Ltd., China), Kehui Wang (Ningbo Konfoong Bioinformation Tech Co., Ltd., China), Xingshang Wang (Ningbo University of Technology, China), Kewei Chen (Ningbo University, China), and Fangyan Dong (Ningbo University, China)</i>	
Cashmere and Wool Classification with Large Kernel Attention and Deep Learning	302
<i>Can Zeng (Ningbo University, China), Qiao Kang (Ningbo University, China), Pengfei Hu (Ningbo University, China), Mintao Dong (Ningbo University, China), Fangyan Dong (Ningbo University, China), and Kewei Chen (Ningbo University, China)</i>	

The Improved Algorithm of Image Enhancement Based on Optical Fourier Transformation	308
<i>Yaoqun Huang (Heilongjiang University Of Science And Technology, China) and Qijing Zhang (Heilongjiang University Of Science And Technology, China)</i>	
A Management Specification for Big Data Sharing in Smart Mine	313
<i>Haitao Wang (China Coal Energy Research Institute Co.Ltd., China), Lina Tan (China Coal Energy Research Institute Co.Ltd., China), Yang Zhang (China Coal Energy Research Institute Co.Ltd., China), Qiwen Gong (Xidian University, China), Shan Zhang (Xidian University, China), Yanan Ren (Xidian University, China), and Tao He (Wenzhou Polytechnic, China)</i>	
An Ultra-Wideband Adjustable Pulse Generator Design	319
<i>Yong Cao (University of Electronic Science and Technology of China, China), Hong Wen (University of Electronic Science and Technology of China, China), Guixue Liang (University of Electronic Science and Technology of China, China), Zhenxing Zhou (China Electronic Technology Network Information Security Co., Ltd, China), Yang Tu (Chengdu junqing technology co., Ltd, China), and Jiaying Chen (University of Electronic Science and Technology of China, China)</i>	

Perception

A Broadband Tunable Absorber Based on a PIN Diode-Loaded Frequency Selective Surface	324
<i>Xue Lei (Sichuan Institute of Space Systems Engineering, China), Xueyuan Long (Sichuan Institute of Space Systems Engineering, China), Lei Luo (Naval Amament Department, China), Xixi Li (Sichuan Institute of Space Systems Engineering, China), Xiongzhong Liu (Sichuan Institute of Space Systems Engineering, China), and Minchao Zhou (Sichuan Institute of Space Systems Engineering, China)</i>	
Research on Detection Technology of Bio-Electronic Nose Based on SAW Devices	328
<i>Yuxia Yang (Inner Mongolia Minzu University, China), Chao Luo Meng (Inner Mongolia Minzu University, China), Chunsheng Zhang (Inner Mongolia Minzu University, China), and Tu Ya (Inner Mongolia Minzu University, China)</i>	
Energy-Efficient for Multi-UAV Cognitive Radio Network with Normalized Spectrum Algorithm .	334
<i>Jiu Xiong (Sun Yat-sen University, China) and Zhiyong Luo (Sun Yat-sen University, China)</i>	
Research on the Technology of Workpiece Surface Detection Based on Convolutional Neural Network	339
<i>ChenHao Jia (East China University of Science and Technology CN), Qing Chang (East China University of Science and Technology CN), LingYi Bao (East China University of Science and Technology CN), QiuRan Sun (East China University of Science and Technology CN), and PengBo Xiong (East China University of Science and Technology CN)</i>	

The Research on Non-Linearity and Sensitivity of Current Sensor Based on Diamond Magnetometer	347
<i>Long Zhao (State Grid Anhui Electric Power Research Institute, China), Jia Xie (State Grid Anhui Electric Power CO., Ltd., China), Zhenshan Liu (State Grid Anhui Electric Power Research Institute, China), Hui Liu (State Grid Anhui Electric Power CO., Ltd., China), and Feng Sun (Chinainstru & Quantumtech (Hefei) Co., Ltd., China)</i>	
A Multiple RFID Readers Anti-Collision Algorithm for RFID Tags Identification Based on Graph Theory	351
<i>Chen Zhao (Southwest University of Science and Technology, China) and Xiaolin Jia (Southwest University of Science and Technology, China)</i>	
Shoulder Motion Detection Algorithm Based on MPU6050 Sensor and XGBoost Model	356
<i>Chang Liu (Southwest University of Science and Technology, China), Md Al Alif (Southwest University of Science and Technology, China), and Gang He (Southwest University of Science and Technology, China)</i>	
Mask Recognition Based on Improved YOLOv5 Target Detection Algorithm	361
<i>He Wang (Heilongjiang University Of Science and Technology) and Haijun Li (Heilongjiang University Of Science and Technology)</i>	
RF Fingerprint Identification of Commercial UAV in Outdoor Environment	367
<i>Ruifei Wang (University of Electronic Science and Technology of China, China), Zeguang Li (University of Electronic Science and Technology of China, China), Jie Tang (University of Electronic Science and Technology of China, China), and Hong Wen (University of Electronic Science and Technology of China, China)</i>	
Design of Portable EEG Acquisition System and Sleep Staging Method Based on Multi-Scale Entropy Feature	372
<i>Qing Li (Chengdu University of Information Technology, China), Zhuang He (Chengdu University of Information Technology, China), Bo Deng (Chengdu University of Information Technology, China), Lingyu Zhang (Chengdu University of Information Technology, China), Yonghong Li (Chengdu University of Information Technology, China), Bo Yang (Chengdu University of Information Technology, China), and Huashan Ye (Chengdu University of Information Technology, China)</i>	
Theoretical Analysis of an In-Line Thin-Core Fiber Based Refractometer	379
<i>Lu Cai (Northeastern University Shenyang, China), Jun Liu (Northeastern University Shenyang, China), Fu-cheng Xiang (Northeastern University Shenyang, China), and Shang-wen Li (Northeastern University Shenyang, China)</i>	
Cable Fault Detection And Extraction Based on UAV Collected Images	383
<i>Li Cong (The State Grid JiLin Province Electric Power Company Limited Information Commu- nication Company, China), Chengbin Huang (The State Grid JiLin Province Electric Power Company Limited Information Commu- nication Company, China), Jisheng Sui (The State Grid JiLin Province Electric Power Company Limited Information Commu- nication Company, China), Zeng Dou (The State Grid JiLin Province Electric Power Company Limited Information Commu- nication Company, China), Jia Li (The State Grid JiLin Province Electric Power Company, China), Yamei Li (The School of Electronic Engineering Xidian University, China), and Zhen Han (the School of Electronic Engineering ?Xidian University, China)</i>	

Quantum Technology

A QCNN Algorithm Deployed on A Quantum Computer	390
<i>Xinmiao Chen (The 32nd Research Institute of China Electronics Technology Corporation, China), Bo Jiang (The 32nd Research Institute of China Electronics Technology Corporation, China), Yongzheng Wu (The 32nd Research Institute of China Electronics Technology Corporation, China), and Yongjin Ye (The 32nd Research Institute of China Electronics Technology Corporation, China)</i>	
An Inverse Estimation of the Spectral Properties of Ceramic with the Null-Collision Reverse Monte Carlo	396
<i>Zeyu Zhu (Harbin Institute of Technology, China), Hong Qi (Harbin Institute of Technology, China), Baohai Gao (Harbin Institute of Technology, China), Kefu Li (Harbin Institute of Technology, China), Juqi Zhang (Harbin Institute of Technology, China), and Zhitian Niu (Harbin Institute of Technology, China)</i>	
A Method of Mapping and Nearest-Neighbor for IBM QX Architecture	402
<i>Chao Zhang (Nantong University, China), Zhijin Guan (Nantong University, China; Yang-En University, China), Yang Qian (Nantong University, China), and Shiguang Feng (Nantong University, China)</i>	
Simulation and Research of Laser Frequency Stabilization Control System Based on Matlab	410
<i>Wanni Liu (Xi'an Eurasia University, China)</i>	
A Multi-Class Image Reranking Algorithm Based on Multiple Discrete-Time Quantum Walk	414
<i>Wei-Min Shi (Beijing University of Technology, China), Jia-Wei Liang (Beijing University of Technology, China), Xue Zhang (Beijing University of Technology, China), and Yi-Hua Zhou (Beijing University of Technology, China)</i>	
Author Index	423
