2022 IEEE 13th Annual Information Technology, Electronics and Mobile Communication Conference (IEMCON 2022)

Vancouver, British Columbia, Canada
12-15 October 2022

Additional Copies of This Publication Are Available From:

Content

04.2	1570848539	Intelligent Posture Monitoring System	0102
04.3	1570843967	Incorporating Cell Level Integrity in Relational Databases	0106
04.4	1570843621	Improving Power Load Forecasting Using FIS	0113
04.5	1570848373	Ranking Range Model in Multiple Attribute Decision Making: A Comparison of Distance Metric in TOPSIS	0119

SESSION 5: INFORMATION SYSTEM INTEGRATION AND DECISION SUPPORT

05.1	1570848537	Design and Implementation of an IoT Wireless Sensor Network for Bird Feeder Monitoring	0124
05.2	1570850888	Testing Effects of Various Barricades and Walls on Crowd Flows in a Four-Way Intersection	0129
05.3	1570846356	BlossomSnap: A Single Platform for All Anthurium Planters Based on the Sri Lankan Market	0135
05.4	1570852088	Conversational Strategy for Crowd Control Using Emotional Models	0142

SESSION 6: IMAGE PROCESSING AND MULTIMEDIA TECHNOLOGY

06.1	1570849429	The Use of the AI to Classify the Emotion Intelligence (EI) Students	0148
06.2	1570839554	CXR Scan: X-Ray Image Scanning Application for Lung Cancer and Tuberculosis	0153
06.3	1570838421	Voice Controlled Robot Manipulator for Industrial Applications	0160
06.4	1570849189	Plant Leaf Disease Detection Using Transfer Learning and Explainable AI	0166
06.5	1570849145	Explainable Diagnosis, Lesion Segmentation and Quantification of COVID-19 Infection From CT Images Using Convolutional Neural Networks	0171

SESSION 7: IMAGE PROCESSING AND MULTIMEDIA TECHNOLOGY

07.1	1570848058	Understanding Convolutional Neural Network's Behavior for Alzheimer's Disease on MRI	0179
07.2	1570848480	Brain Tumor Detection Using Smart Deep Learning	0186
07.3	1570847570	A Survey of Glaucoma Detection Algorithms Using Fundus and OCT Images	0191
07.4	1570841462	Accelerated MRI With Deep Linear Convolutional Transform Learning	0197
07.5	1570847226	Snake Species Identification Using Deep Convolutional Neural Networks	0202

SESSION 8: SIGNAL DETECTION AND PROCESSING

08.1	1570849128	DOA Estimation Method Based on Adaptive Threshold BIHT Algorithm	0210
08.2	1570845257	Interference Cancellation in Uplink Multi-User MIMO Cooperative Communication System	0215
08.3	1570849492	SWARA: The Path Loss Model for Underwater Acoustic Communication	0220
08.4	1570849190	Performance Analyses of NOMA Systems in Presence of Adversarial Jammer	0226
08.5	1570849526	Signal Intelligence: Automatic Carrier Detection With an Instantaneous Bandwidth of 27 MHz	0233

SESSION 9: IMAGE PROCESSING AND MULTIMEDIA TECHNOLOGY

09.1	1570844131	COVID-19 and Pneumonia X-Ray Classification via Custom Convolutional Neural Network	0239
09.2	1570843833	Modern Survey on Alzheimer's Disease Detection and Classification Based on Deep Learning Techniques	0246
09.3	1570844134	Multi-Model Face Liveness Detection via Gaze Detection and Convolutional Neural Networks	0255

SESSION 10: IMAGE PROCESSING AND MULTIMEDIA TECHNOLOGY

10.1	1570838525	Deep Learning Based Bangla Voice to Braille Character Conversion System	0262
10.2	1570849559	A Hybrid Neural Network Model for Brain Tumor Detection in Brain MRI Images	0268
10.3	1570849215	Improving Image Quality Using Deep Learning Based Super Resolution	0275
10.4	1570849566	Gastrointestinal Disorder Detection With a Transformer Based Approach	0280

SESSION 11: SIGNAL DETECTION AND CONTROL THEORY

11.1	1570848532	Automatic Recognition of Activities of Daily Living for Elderly to Support Independent Living	0286
11.2	1570848511	Novel Forward/Backward Signal Space for Coherent Signals DOA Estimation and Its Real-Time Experimental Validation	0291
11.3	1570843153	Design and Analysis of a Hybrid Power System for Francois, NL	0298

SESSION 12: SOFTWARE ENGINEERING ; DISTRIBUTED SYSTEMS

12.1	1570849102	Tracking of Hardware Development Schedule Based on Software Effort Estimation	0305
12.2	1570848785	An Approach of Enhancing the Quality of Public Transportation Service in Sri Lanka Using IoT	0311
12.3	1570847619	VAPECA - Smart Agricultural and Analysis Monitoring System	0317
12.4	1570842853	Non-Fungible Tokens Applications: A Systematic Mapping Review of Academic Research	0323
12.5	1570849046	Ultrasonic System Design of Multi-Machine Parallel Processing Suitable for Online Flaw Detection of Railway Wheels	0331
SESSION 13: DISTRIBUTED SYSTEMS ; ARTIFICIAL INTELLIGENCE			
13.1	1570844776	Harmonics Prediction and Mitigation Based on Adaptive Neuro Fuzzy Inference System Model Using Hybrid of Wind Solar Driven by DFIG	0338
13.2	1570845411	SessNet: A Deep Hybrid-State Session-Based Recommender System	0343
13.3	1570844077	Reddit Comment Toxicity Score Prediction Through BERT via Transformer Based Architecture	0353
13.4	1570844132	Context-Aware Attended-Over Distributed Specificity for Information Extraction in Cybersecurity	0359
13.5	1570848689	Comparative Study of Deep Learning Algorithms for the Detection of Facial Paralysis	0368
SESSION 14: NATURAL LANGUAGE PROCESSING ; MACHINE LEARNING			
14.1	1570849562	Recommendation System-Based on Tamil-English Code-Mixed Text Analysis	0378
14.2	1570845368	A Design and Implementation of Bangla Next Word Predictor Based on Personalized Federated Learning Leveraging Model Agnostic Meta Learning and Semantic Analysis	0384
14.3	1570844408	Non-English Natural Language Interface to Databases: A Systematic Review	0391
14.4	1570837737	Intracranial Hemorrhage Detection Using CNN-LSTM Fusion Model	0398
SESSION 15: ARTIFICIAL INTELLIGENCE			
15.1	1570837113	Occluded Object Detection for Autonomous Vehicles Employing YOLOv5, YOLOX and Faster R-CNN	0405
15.2	1570846022	Data Normalization Technique for Energy Efficient Drones: An Ensemble Learning Approach	0411
15.3	1570846433	Performance Analysis of Machine Learning Algorithms in Chronic Kidney Disease Prediction	0417

		SESSION 16: MACHINE LEARNING ; IoT	
16.1	1570846047	Sentiment Analysis Tools and Techniques: A Review	0424
16.2	1570848903	Privacy-Preserving IoT Data Sharing Scheme	0428
16.3	1570849124	A Radio Frequency Fingerprint Extraction Method Based on Adaptive Filter	0433
16.4	1570843493	RokuControl-Conducting MITM Attacks on Roku	0440
16.5	1570846578	Graph Model of Environmental Backcloth	0445
		SESSION 17: IOT, CLOUD , NETWORK ARCHITECTURES	
17.1	1570842018	Developing IoT Telehealth Physical Therapy in Community Potential and Future Pandemics	0452
17.2	1570847387	A Novel Design of a 28 GHz 5G NR MSPA Antenna for Body Centric Networks in Healthcare Application	0458
17.3	1570846571	Optimizing Resource Allocation in Cloud	0465
17.4	1570846736	Didactic Tool for Teaching Quality of Service Algorithms in Communication Networks	0471
17.5	1570848490	IoT Based Postoperative Heart Disease Patient Monitoring System	0475
		SESSION 18: NETWORK ARCHITECTURES , NETWORK SECURITY	
18.1	1570849131	Performance Analysis of Optical Fiber Communication by Using Optical Code Division Multiplexing	0485
18.2	1570843141	Investigation of the Intelligent Reflecting Surfaces-Assisted Non-Orthogonal Multiple Access in 6G Networks	0492
18.3	1570849454	Dynamical Resource Allocation for Emergency Communication Systems	0497
18.4	1570848555	A Hybrid Encryption Technique Based on DNA Cryptography and Steganography	0501
18.5	1570845439	Robustness Analysis for a Class of Cyber-Physical Systems Modeled With Discrete Timed Petri Nets	0509

		SESSION 19: VLSI, FPGA, SOC DESIGN	
19.1	1570837562	Memory Isolation for Multi-Tenant Data Integrity in Cloud MPSoC FPGAs	0515
19.2	1570844235	Analysis and Design of Low Power Consumption 8T and 10T Full Adder CMOS Technology	0522

19.3	1570846400	High Gain Readout Interface Circuit for Hall Sensors for Low Power Applications	0528
19.4	1570837850	Optimized FPGA-Based Datapath for the Iterative Design for the Factorial Function	0532
19.5	1570837788	Design and Analysis of Hybrid Power System for Grey River, NL	0535
19.6	1570841011	Study of Charging Strategies of Lithium Batteries and Their Effect on the Batteries Technologies	0540
19.7	1570848907	Enhancing Richard Feynman's Quantum Computational Positioning to Inject New Possibility Into the Foundations of the Quantum Computing Industry	0546
SESSION 20: CONTROL SYSTEM ; BIG DATA, NETWORKS			
20.1	1570849172	GAT-Based Optimization for Multipath Routing	0554
20.2	1570837536	Dynamic Modeling and Simulation of Solar Water Pumping With Hybrid Storage System	0562
20.3	1570848958	Safety and Feedback for a Robotic Arm for Visually Impaired People	0567
20.4	1570849213	Design and Control of a Novel Cuk-Boost Converter Using State Space Averaging Technique With Dynamic Bond Graph Modeling	0573
20.5	1570829589	Preference of Device on Social Media Browsing as a Predictor of Deception: The Link Between UX and Mis/Disinformation Vulnerability	0583
20.6	1570843148	Design and Simulation of a Hybrid Energy System (H.E.S) for Ramea Island, Newfoundland	0589
